## **EXTRAORDINARY SESSION SPECIAL RULES OF EFFECTIVENESS**

Except for a statute calling an election, a statute providing for a tax levy or an appropriation calling for the usual current expenses of the state, and an urgency statute, all of which take effect immediately following enactment, a statute adopted during an extraordinary session takes effect on the 91st day following the adjournment of the special session (see subdivision (c) of Section 8 of Article IV of the California Constitution). The effective date of a concurrent or joint resolution is the date it is filed with the Secretary of State.

The 2007–08 First Extraordinary Session reconvened on January 7, 2008, and adjourned *sine die* on September 19, 2008. The 91st day after adjournment is December 19, 2008.

EXECUTIVE DEPARTMENT  
STATE OF CALIFORNIA

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

WHEREAS, an extraordinary occasion has arisen and now exists requiring that the Legislature of the State of California be convened in extraordinary session; now therefore,

I, **ARNOLD SCHWARZENEGGER**, Governor of the State of California, by virtue of the power and authority vested in me by Section 3(b) Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 11<sup>th</sup> day of September 2007, at a time to be determined, for the following purpose and to legislate upon the following subjects:

1. To consider and act upon legislation to comprehensively reform California's health care system that relies on shared financing and contributions from individuals, employers, health providers, federal, state and local government, and others.
2. To consider and act upon legislation that will provide for health care coverage for all Californians and access to health insurance without regard to medical history.
3. To consider and act upon legislation to make health care more affordable by: (a) reducing the cost to employers and insured individuals associated with uncompensated health care services delivered to the uninsured and low Medi-Cal reimbursement rates, (b) preventing chronic diseases, and (c) promoting more cost effective health care delivery.
4. To consider and act upon legislation to modify or extend existing programs to provide for a transition to comprehensive health care reform.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 11<sup>th</sup> day of September, 2007.

  
ARNOLD SCHWARZENEGGER  
Governor of California

EXECUTIVE DEPARTMENT  
STATE OF CALIFORNIA

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

WHEREAS, on September 11, 2007, I issued a proclamation to cause the Legislature to convene in extraordinary session to consider and act upon legislation relating to health care reform; and

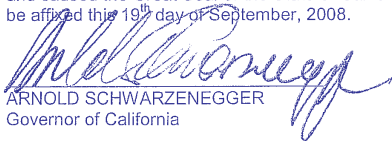

WHEREAS, an extraordinary occasion has arisen and now exists requiring that this proclamation be amended to include an additional subject in the extraordinary session.

NOW THEREFORE, I, ARNOLD SCHWARZENEGGER, Governor of the State of California, by virtue of the power and authority vested in me by Section 3(b) Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 11<sup>th</sup> day of September 2007, at a time to be determined, and thereafter, for the following purposes and to legislate upon the following subjects:

1. To consider and act upon legislation to comprehensively reform California's health care system that relies on shared financing and contributions from individuals, employers, health providers, federal, state and local government, and others.
2. To consider and act upon legislation that will provide for health care coverage for all Californians and access to health insurance without regard to medical history.
3. To consider and act upon legislation to make health care more affordable by: (a) reducing the cost to employers and insured individuals associated with uncompensated health care services delivered to the uninsured and low Medi-Cal reimbursement rates, (b) preventing chronic diseases, and (c) promoting more cost effective health care delivery.
4. To consider and act upon legislation to modify or extend existing programs to provide for a transition to comprehensive health care reform.
5. To consider and act upon legislation to address fiscal and budget-related matters.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 19<sup>th</sup> day of September, 2008.

**STATUTES OF CALIFORNIA**

2007 – 08

**FIRST EXTRAORDINARY SESSION**

2008 CHAPTER

---

---

CHAPTER 1

An act to amend Section 19025 of, to add Sections 19136.1, 19136.3, and 19138 to, to repeal Section 19137 of, and to repeal Chapter 9.2 (commencing with Section 19740) of Part 10.2 of Division 2 of, the Revenue and Taxation Code, and to amend Section 35.20 as added to the Budget Act of 2008 by Assembly Bill 88 of the 2007–2008 Regular Session, relating to taxation.

[Approved by Governor October 1, 2008. Filed with Secretary of State October 1, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 19025 of the Revenue and Taxation Code is amended to read:

19025. (a) If the amount of estimated tax does not exceed the minimum tax specified by Section 23153, the entire amount of the estimated tax shall be due and payable on or before the 15th day of the fourth month of the taxable year.

(b) Except as provided in subdivision (c), if the amount of estimated tax exceeds the minimum tax specified by Section 23153, the amount payable shall be paid in installments as follows:

If the requirements of this subdivision are first met—	The following percentages of the estimated tax shall be paid on the 15th day of the—			
	4th month	6th month	9th month	12th month
Before the 1st day of the 4th month of the taxable year.....	30 (but not less than the minimum tax provided in Section 23153 and any tax under Section 23800.5)	30	20	20

After the last day of the 3rd month and before the 1st day of the 6th month of the taxable year.....	—	40	30	30
After the last day of the 5th month and before the 1st day of the 9th month of the taxable year.....	—	—	50	50
After the last day of the 8th month and before the 1st day of the 12th month of the taxable year.....	—	—	—	100

(c) If a wholly owned subsidiary is first subject to tax under Section 23800.5 after the last day of the third month of the taxable year of owner, the amount of the next installment of estimated tax under subdivision (b) after the wholly owned subsidiary is subject to tax under Section 23800.5 shall not be less than the amount of the tax of the wholly owned subsidiary under Section 23800.5 and an amount equal to that amount shall be due and payable on the date the installment is required to be paid. For purposes of determining which installment is the next installment of estimated tax under subdivision (b), subdivision (b) shall be modified by substituting “includes the tax of a wholly owned subsidiary under Section 23800.5” for “exceeds the minimum tax specified by Section 23153.”

(d) The amendments made to this section by the act adding this subdivision shall apply to installments due for each taxable year beginning on or after January 1, 2009.

SEC. 2. Section 19136.1 is added to the Revenue and Taxation Code, to read:

19136.1. (a) Section 6654(d)(1)(A) of the Internal Revenue Code is modified to provide that in lieu of the required installments specified in that section, the amount of required installments shall instead be as follows:

(1) For the 1st and 2nd required installments, 30 percent of the required annual payment.

(2) For the 3rd and 4th required installments, 20 percent of the required annual payment.

(b) This section shall apply to installments due for each taxable year beginning on or after January 1, 2009.

SEC. 3. Section 19136.3 is added to the Revenue and Taxation Code, to read:

19136.3. (a) Section 6654(d)(1)(B) of the Internal Revenue Code is modified to additionally provide that clause (ii) shall not apply if the adjusted gross income shown on the return of the individual for the taxable year is equal to or greater than \$1 million (\$500,000 in the case of a married individual filing a separate return).

(b) This section shall apply to taxable years beginning on or after January 1, 2009.

SEC. 4. Section 19137 of the Revenue and Taxation Code, as added by Assembly Bill 1452 of the 2007–08 Regular Session, is repealed.

SEC. 5. Section 19138 is added to the Revenue and Taxation Code, to read:

19138. (a) (1) A taxpayer subject to the tax imposed under Part 11 (commencing with Section 23001) with an understatement of tax in excess of one million dollars (\$1,000,000) for any taxable year shall be subject to the penalty imposed under this section.

(2) For taxpayers that are required to be included in a combined report under Section 25101 or authorized to be included in a combined report under Section 25101.15, the threshold amount prescribed in paragraph (1) shall apply to the aggregate amount of tax liability under Part 11 (commencing with Section 23001) for all taxpayers that are required to be or authorized to be included in a combined report.

(b) The penalty under this section shall be an amount equal to 20 percent of any understatement of tax. For purposes of this section, “understatement of tax” means the amount by which the tax imposed by Part 11 (commencing with Section 23001) exceeds the amount of tax shown on an original return or shown on an amended return filed on or before the original or extended due date of the return for the taxable year. For any taxable year beginning before January 1, 2008, the amount of tax paid on or before May 31, 2009, and shown on an amended return filed on or before May 31, 2009, shall be treated as the amount of tax shown on an original return for purposes of this section.

(c) The penalty imposed by this section shall be in addition to any other penalty imposed under Part 11 (commencing with Section 23001) or this part.

(d) Article 3 (commencing with Section 19031), relating to deficiency assessments, shall not apply with respect to the assessment or collection of any penalty imposed by subdivision (a).

(e) A refund or credit for any amounts paid to satisfy a penalty imposed under this section may be allowed only on the grounds that the amount of the penalty was not properly computed by the Franchise Tax Board.

(f) (1) No penalty shall be imposed under this section on any understatement to the extent that the understatement is attributable to a change in law that is enacted, promulgated, issued, or becomes final after the earlier of either of the following dates:

(A) The date the taxpayer files the return for the taxable year for which the change is operative.

(B) The extended due date for the return of the taxpayer for the taxable year for which the change is operative.

(2) For purposes of this subdivision, a “change of law” means a statutory change or an interpretation of law or rule of law by regulation, legal ruling of counsel, within the meaning of subdivision (b) of Section 11340.9 of the Government Code, or a published federal or California court decision.

(3) The Franchise Tax Board shall implement this subdivision in a reasonable manner.

(g) No penalty shall be imposed under this section to the extent that a taxpayer’s understatement is attributable to the taxpayer’s reasonable reliance on written advice of the Franchise Tax Board, but only if the written advice was a legal ruling by the Chief Counsel, within the meaning of paragraph (1) of subdivision (a) of Section 21012.

(h) This section shall apply to each taxable year beginning on or after January 1, 2003, for which the statute of limitations on assessment has not expired.

SEC. 6. Chapter 9.2 (commencing with Section 19740) of Part 10.2 of Division 2 of the Revenue and Taxation Code, as added by Assembly Bill 1452 of the 2007–08 Regular Session, is repealed.

SEC. 7. Section 35.20, as added to the Budget Act of 2008 by Assembly Bill 88 of the 2007–08 Regular Session, is amended to read:

Sec. 35.20. If legislation is enacted amending Section 13302 of the Government Code to allow the accrual of tax payments due more than two months after the close of the fiscal year for transactions occurring in the prior fiscal year, the Department of Finance shall provide guidance pursuant to Section 13310 of the Government Code with respect to the methodology to be employed in determining accruals and the timing of implementation of any changes in tax accrual practices. Sixty percent of the change to accrual treatment of corporation income and franchise

tax payments shall apply to the 2007–08 fiscal year and the balance of the accrual change to corporation income and franchise tax payments and all of the accrual change to personal income tax payments shall be applied to the 2008–09 fiscal year and subsequent fiscal years.

SEC. 8. (a) For purposes of applying Section 23663 of the Revenue and Taxation Code, as added by Assembly Bill 1452 of the 2007–08 Regular Session, any limitations on allowance of any credit against the “tax” that would apply to the assigning taxpayer in the absence of an assignment shall also apply to the same extent to the allowance of that assigned credit against the “tax” of the eligible assignee.

(b) Subdivision (d) of Section 17942 of the Revenue and Taxation Code, as added by Assembly Bill 1452 of the 2007–08 Regular Session, only applies to taxable years beginning on or after January 1, 2009.

(c) The Legislature finds and declares that this section makes clarifying changes for purposes of the proper implementation of Sections 17942 and 23663 of the Revenue and Taxation Code, as added by Assembly Bill 1452 of the 2007–2008 Regular Session.

## **EXTRAORDINARY SESSION SPECIAL RULES OF EFFECTIVENESS**

Except for a statute calling an election, a statute providing for a tax levy or an appropriation calling for the usual current expenses of the state, and an urgency statute, all of which take effect immediately following enactment, a statute adopted during an extraordinary session takes effect on the 91st day following the adjournment of the special session (see subdivision (c) of Section 8 of Article IV of the California Constitution). The effective date of a concurrent or joint resolution is the date it is filed with the Secretary of State.

The 2007–08 Second Extraordinary Session reconvened on January 7, 2008, and adjourned *sine die* on November 30, 2008. The 91st day after adjournment is March 1, 2009.

EXECUTIVE DEPARTMENT  
STATE OF CALIFORNIA

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

WHEREAS, an extraordinary occasion has arisen and now exists requiring that the Legislature of the State of California be convened in extraordinary session; now therefore,

I, **ARNOLD SCHWARZENEGGER**, Governor of the State of California, by virtue of the power and authority vested in me by Section 3(b) Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 11<sup>th</sup> day of September, 2007, at a time to be determined, for the following purpose and to legislate upon the following subjects:

1. To consider and act upon legislation to protect and restore the Sacramento-San Joaquin Delta while also improving the reliability and quality of water supplies from that estuary.
2. To consider and act upon legislation to address the short term and long term improvement of California's water management system including the development of new surface and groundwater storage and improved conveyance facilities.
3. To consider and act upon legislation to appropriate funds, including appropriations for general obligation and lease revenue bonds, to improve water resource management, build additional water storage facilities, develop groundwater aquifers, improve groundwater quality and flood protection, and restore the Sacramento-San Joaquin Delta and other important ecosystem restoration projects.
4. To consider and act upon legislation to place a general obligation bond and, as necessary, a lease revenue bond on the ballot.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 11<sup>th</sup> day of September, 2007.

  
ARNOLD SCHWARZENEGGER  
Governor of California

## CHAPTER 1

An act to add and repeal Section 65595.5 of the Government Code, and to add Sections 127.5 and 134.5 to, to add Division 33 (commencing with Section 83000) to, and to repeal and add Part 2.2 (commencing with Section 10530) of Division 6 of, the Water Code, relating to water, and making an appropriation therefor.

[Approved by Governor September 30, 2008. Filed with  
Secretary of State September 30, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 65595.5 is added to the Government Code, to read:

65595.5. (a) Notwithstanding Section 161 of the Water Code, until December 31, 2009, in order to ensure timely implementation of water conservation activities relating to landscaping, Section 161 of the Water Code does not apply to the department's adoption of regulations required by Section 65595.

(b) This section shall remain in effect only until January 1, 2010, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2010, deletes or extends that date.

SEC. 2. Section 127.5 is added to the Water Code, to read:

127.5. The department may utilize the program manager class series that was created for the California Bay-Delta Authority, for positions to manage vital departmental activities, including those relating to climate change mitigation and adaptation, water management, and statewide planning.

SEC. 3. Section 134.5 is added to the Water Code, to read:

134.5. The Director of Finance shall administratively establish positions necessary to implement activities funded by the appropriations made in Division 33 (commencing with Section 83000).

SEC. 4. Part 2.2 (commencing with Section 10530) of Division 6 of the Water Code is repealed.

SEC. 5. Part 2.2 (commencing with Section 10530) is added to Division 6 of the Water Code, to read:

## PART 2.2. INTEGRATED REGIONAL WATER MANAGEMENT PLANS

### CHAPTER 1. SHORT TITLE

10530. This part shall be known and may be cited as the Integrated Regional Water Management Planning Act.

### CHAPTER 2. LEGISLATIVE FINDINGS AND DECLARATIONS

10531. The Legislature finds and declares all of the following:

(a) Water is a valuable natural resource in California, and should be managed to ensure the availability of sufficient supplies to meet the state's agricultural, domestic, industrial, and environmental needs. It is the intent of the Legislature to encourage local agencies to work cooperatively to manage their available local and imported water supplies to improve the quality, quantity, and reliability of those supplies.

(b) Local agencies can realize efficiencies by coordinating and integrating their assets and seeking mutual solutions to water management issues.

(c) The reliability of water supplies can be significantly improved by diversifying water portfolios, taking advantage of local and regional opportunities, and considering a broad variety of water management strategies as described in the California Water Plan.

(d) The implementation of this part will facilitate the development of integrated regional water management plans, thereby assisting each region of the state to improve water supply reliability, water quality, and environmental stewardship to meet current and future needs.

(e) Water management is integrally linked to public health and the health of all natural resources within our watersheds. It is the intent of the Legislature that water management strategies and projects are carried out in a way that promotes these important public values.

### CHAPTER 3. DEFINITIONS

10532. Unless the context otherwise requires, the definitions set forth in this chapter govern the construction of this part.

10533. "Basin plan" means a water quality control plan developed pursuant to Section 13240.

10534. "Integrated regional water management plan" means a comprehensive plan for a defined geographic area, the specific development, content, and adoption of which shall satisfy requirements developed pursuant to this part. At a minimum, an integrated regional

water management plan describes the major water-related objectives and conflicts within a region, considers a broad variety of water management strategies, identifies the appropriate mix of water demand and supply management alternatives, water quality protections, and environmental stewardship actions to provide long-term, reliable, and high-quality water supply and protect the environment, and identifies disadvantaged communities in the region and takes the water-related needs of those communities into consideration.

10535. “Local agency” means any city, county, city and county, special district, joint powers authority, or other political subdivision of the state, a public utility as defined in Section 216 of the Public Utilities Code, or a mutual water company as defined in Section 2725 of the Public Utilities Code.

10536. “Plan” means an integrated regional water management plan.

10537. “Regional projects or programs” means projects or programs identified in an integrated regional water management plan that accomplish any of the following:

(a) Reduce water demand through agricultural and urban water use efficiency.

(b) Increase water supplies for any beneficial use through the use of any of the following, or other, means:

(1) Groundwater storage and conjunctive water management.

(2) Desalination.

(3) Precipitation enhancement.

(4) Water recycling.

(5) Regional and local surface storage.

(6) Water-use efficiency.

(7) Stormwater management.

(c) Improve operational efficiency and water supply reliability, including conveyance facilities, system reoperation, and water transfers.

(d) Improve water quality, including drinking water treatment and distribution, groundwater and aquifer remediation, matching water quality to water use, wastewater treatment, water pollution prevention, and management of urban and agricultural runoff.

(e) Improve resource stewardship, including agricultural lands stewardship, ecosystem restoration, flood plain management, recharge area protection, urban land use management, groundwater management, water-dependent recreation, fishery restoration, including fish passage improvement, and watershed management.

(f) Improve flood management through structural and nonstructural means, or by any other means.

10538. “Regional reports or studies” means reports or studies relating to any of the matters described in subdivisions (a) to (f), inclusive, of

Section 10537, that are identified in an integrated regional water management plan.

10539. “Regional water management group” means a group in which three or more local agencies, at least two of which have statutory authority over water supply or water management, as well as those other persons who may be necessary for the development and implementation of a plan that meets the requirements in Sections 10540 and 10541, participate by means of a joint powers agreement, memorandum of understanding, or other written agreement, as appropriate, that is approved by the governing bodies of those local agencies.

#### CHAPTER 4. INTEGRATED REGIONAL WATER MANAGEMENT PLANS

10540. (a) A regional water management group may prepare and adopt an integrated regional water management plan in accordance with this part.

(b) A regional water management group may coordinate its planning activities to address or incorporate all or part of any of the following actions of its members into its plan:

(1) Groundwater management planning pursuant to Part 2.75 (commencing with Section 10750) or other specific groundwater management authority.

(2) Urban water management planning pursuant to Part 2.6 (commencing with Section 10610).

(3) The preparation of a water supply assessment required pursuant to Part 2.10 (commencing with Section 10910).

(4) Agricultural water management planning pursuant to Part 2.8 (commencing with Section 10800).

(5) City and county general planning pursuant to Section 65350 of the Government Code.

(6) Other water resource management planning, including flood protection, watershed management planning, and multipurpose program planning.

(c) At a minimum, all plans shall address all of the following:

(1) Protection and improvement of water supply reliability, including identification of feasible agricultural and urban water use efficiency strategies.

(2) Identification and consideration of the drinking water quality of communities within the area of the plan.

(3) Protection and improvement of water quality within the area of the plan, consistent with the relevant basin plan.

(4) Identification of any significant threats to groundwater resources from overdrafting.

(5) Protection, restoration, and improvement of stewardship of aquatic, riparian, and watershed resources within the region.

(6) Protection of groundwater resources from contamination.

(7) Identification and consideration of the water-related needs of disadvantaged communities in the area within the boundaries of the plan.

(d) This section does not obligate a local agency to fund the implementation of any project or program.

10541. (a) The department shall develop project solicitation and evaluation guidelines for the application of funds made available pursuant to Section 75026 of the Public Resources Code, to enable broad and diverse participation in integrated regional water management plan development and refinement.

(b) The department shall conduct two public meetings to consider public comments prior to finalizing the guidelines. The department shall publish the draft solicitation and evaluation guidelines on its Internet Web site at least 30 days before the public meetings. One meeting shall be conducted at a location in northern California and one meeting shall be conducted at a location in southern California. Upon adoption, the department shall transmit copies of the guidelines to the fiscal committees and the appropriate policy committees of the Legislature. To the extent feasible, each state agency shall provide outreach to disadvantaged communities to promote access to and participation in those meetings.

(c) The department shall consult with the board, the California regional water quality control boards, the State Department of Public Health, the Department of Fish and Game, the California Bay-Delta Authority or its successor, and other state agencies with water management responsibility and authority in the development of the guidelines.

(d) The department may periodically review and update the guidelines to accommodate changes in funding sources, statutory requirements, new commonly accepted management practices, and changes in state water management policy. Any guideline changes shall be made with appropriate consultation with other state agencies and public review pursuant to subdivisions (b) and (c).

(e) The guidelines shall require that integrated regional water management plans include all of the following:

(1) Consideration of all of the resource management strategies identified in the California Water Plan, as updated by department Bulletin No. 160-2005 and future updates.

(2) Consideration of objectives in the appropriate basin plan or plans and strategies to meet applicable water quality standards.

(3) Description of the major water-related objectives and conflicts within a region.

(4) Measurable regional objectives and criteria for developing regional project priorities.

(5) An integrated, collaborative, multibenefit approach to selection and design of projects and programs.

(6) Identification and consideration of the water-related needs of disadvantaged communities in the area within the boundaries of the plan.

(7) Performance measures and monitoring to demonstrate progress toward meeting regional objectives.

(8) A plan for implementation and financing of identified projects and programs.

(9) Consideration of greenhouse gas emissions of identified programs and projects.

(10) Evaluation of the adaptability to climate change of water management systems in the region.

(11) Documentation of data and technical analyses used in the development of the plan.

(12) A process to disseminate data and information related to the development and implementation of the plan.

(13) A process to coordinate water management projects and activities of participating local agencies and local stakeholders to avoid conflicts and take advantage of efficiencies.

(14) Any other matters identified by the department.

(f) The guidelines shall include standards for identifying a region for the purpose of developing or modifying an integrated regional water management plan. At a minimum, a region shall be a contiguous geographic area encompassing the service areas of multiple local agencies, and shall be defined to maximize opportunities for integration of water management activities. The department shall develop a process to approve the composition of a region for the purposes of Sections 75026, 75027, and 75028 of the Public Resources Code.

(g) The guidelines shall require that the development and implementation of an integrated regional water management plan include a public process that provides outreach and an opportunity to participate in plan development and implementation to appropriate local agencies and stakeholders, as applicable to the region, including all of the following:

(1) Wholesale and retail water purveyors, including a local agency, mutual water company, or a water corporation as defined in Section 241 of the Public Utilities Code.

(2) Wastewater agencies.

(3) Flood control agencies.

(4) Municipal and county governments and special districts.

(5) Electrical corporations, as defined in Section 218 of the Public Utilities Code.

(6) Native American tribes that have lands within the region.

(7) Self-supplied water users, including agricultural, industrial, residential, park districts, school districts, colleges and universities, and others.

(8) Environmental stewardship organizations, including watershed groups, fishing groups, land conservancies, and environmental groups.

(9) Community organizations, including landowner organizations, taxpayer groups, and recreational interests.

(10) Industry organizations representing agriculture, developers, and other industries appropriate to the region.

(11) State, federal, and regional agencies or universities, with specific responsibilities or knowledge within the region.

(12) Disadvantaged community members and representatives, including environmental justice organizations, neighborhood councils, and social justice organizations.

(13) Any other interested groups appropriate to the region.

(h) The guidelines shall require integrated regional water management plans to be developed through a collaborative process that makes public both of the following:

(1) The process by which decisions are made in consultation with the persons or entities identified in subdivision (g).

(2) The manner in which a balance of interested persons or entities representing different sectors and interests listed in subdivision (g) have been or will be engaged in the process described in this subdivision, regardless of their ability to contribute financially to the plan.

(i) The guidelines shall provide for a process for the development, periodic review, updating, and amending of integrated regional water management plans. The department shall establish eligibility requirements for the project funding, that provide sufficient time for the updating of plans as necessary to reflect changes in the guidelines.

10543. (a) A regional water management group proposing to prepare an integrated regional water management plan shall publish a notice of intention to prepare the plan in accordance with Section 6066 of the Government Code.

(b) For the purposes of carrying out this part, the regional water management group shall make available to the public the documentation prepared pursuant to subdivision (g) of Section 10541 describing the manner in which interested parties may participate in developing the integrated regional water management plan.

(c) Upon the completion of the integrated regional water management plan, the regional water management group shall publish a notice of

intention to adopt the plan in accordance with Section 6066 of the Government Code and shall adopt the plan in a public meeting of its governing board.

#### CHAPTER 5. FUNDING FOR QUALIFIED PROJECTS AND PROGRAMS

10544. When selecting projects and programs pursuant to Division 24 (commencing with Section 78500), Division 26 (commencing with Section 79000), Division 26.5 (commencing with Section 79500), or pursuant to any grant funding authorized on or after January 1, 2009, for water management activities, the department, the board, the State Department of Public Health, and the California Bay-Delta Authority or its successor, as appropriate, shall include in any set of criteria used to select projects and programs for funding, a criterion that provides a preference for regional projects or programs.

10546. An integrated regional water management plan prepared pursuant to this part shall be eligible for funding pursuant to Section 75026 of the Public Resources Code, and for any funding authorized on or after January 1, 2009, that is allocated specifically for implementation of integrated regional water management.

10547. This part does not prohibit the department from implementing Section 75026 of the Public Resources Code by using existing integrated regional water management guidelines in accordance with subdivision (d) of Section 75026 of the Public Resources Code.

#### CHAPTER 6. MISCELLANEOUS

10548. This part does not affect any powers granted to a local agency by any other law.

10549. This part does not authorize a regional water management group to define, or otherwise determine, the water rights of any person.

10550. The plan or project shall not be funded pursuant to this part if it would fund activities inconsistent with applicable state and federal quality laws.

SEC. 6. Division 33 (commencing with Section 83000) is added to the Water Code, to read:

#### DIVISION 33. INTEGRATED WATER SUPPLY AND FLOOD PROTECTION PLANNING, DESIGN, AND IMPLEMENTATION

83000. The Legislature hereby finds and declares all of the following:  
(a) Water is vital to the economy, environment, and overall well-being of the state.

(b) California faces increasing challenges in managing its water supply due to climate change, uncertainty regarding the availability of water from the Sacramento-San Joaquin Delta and other sources, an increasing state population, limitations on public funds, and other factors.

(c) California must adopt a new, updated, and comprehensive set of water planning, design, and implementation policies that reflect these realities to protect its water supply future.

(d) In the past, state laws, funding schemes, and administrative actions have treated the planning, construction, and operation of water supply, groundwater, and flood control systems as separate and distinct activities, thereby reducing efficiency and water supply reliability.

(e) California has not taken full advantage of the cost savings, the environmental benefits, or the expediency of more efficient operations and usage of existing water supply, storage, and flood protection facilities.

(f) It is the policy of the state to more effectively integrate its flood protection systems with its water supply and conveyance systems in order to conserve limited public dollars, increase the available water supply, improve water quality, increase wildlife and ecosystem protections, protect public health and safety, and address the effects of climate change.

(g) The purpose of this division is to require the integration of flood protection and water systems to achieve multiple public benefits, including all of the following:

(1) Increasing water supply reliability in the least costly, most efficient, and most reliable manner to meet current and future state needs.

(2) Increasing use of water use efficiency and water conservation measures to increase and extend existing water supplies.

(3) Reducing energy consumption associated with water transport, thereby reducing state greenhouse gas emissions.

(4) Improving water management to protect and restore ecosystems and wildlife habitat.

83001. In order to provide the least costly, most efficient, and reliable water supply to a growing state, it is the intent of the Legislature that the department accomplish the following objectives:

(a) Integrate state flood protection and water supply systems.

(b) Promote conjunctive use of groundwater storage capacity to improve overall water supply and flood system operation.

(c) Promote increased water use efficiency through expanded use of water conservation, water recycling, and improvements in technology.

83002. The sum of eight hundred twenty million nine hundred seventy-three thousand dollars (\$820,973,000) is hereby appropriated in accordance with the following schedule:

(a) Of the funds made available pursuant to Chapter 1.699 (commencing with Section 5096.800) of Division 5 of the Public Resources Code, the sum of two hundred eighty-five million dollars (\$285,000,000) is hereby appropriated as follows:

(1) Pursuant to subdivision (c) of Section 5096.821 of the Public Resources Code, the sum of one hundred thirty-five million dollars (\$135,000,000) to the department for the acquisition, design, and construction of essential emergency preparedness supplies and projects. Prior to the design or construction of any project funded pursuant to this paragraph, the California Bay-Delta Authority, or its successor, shall approve the specific project or program. Preference shall be given to projects that protect and improve Delta water quality and drinking water supplies. Of the amount made available pursuant to this paragraph, not less than thirty-five million dollars (\$35,000,000) shall be expended by the department for projects to reinforce those sections of the levees that have the highest potential to suffer breaches or failure and cause harm to municipal and industrial water supply aqueducts that cross the Delta and which are vulnerable to flood damage, including the installation of scour protection on the supports of the aqueducts in those areas located adjacent to the sections of the levees that have been identified as the highest risk of breaches or failure.

(2) Pursuant to Section 5096.827 of the Public Resources Code, the sum of one hundred fifty million dollars (\$150,000,000) to the department for grants for stormwater flood management projects that reduce flood damage and provide other benefits, including groundwater recharge, water quality improvement, and ecosystem restoration. Not less than one hundred million dollars (\$100,000,000) of this amount shall be available for projects that address immediate public health and safety needs, strengthen existing flood control facilities to address seismic safety issues. Twenty million dollars (\$20,000,000) shall be available for local agencies to meet immediate water quality needs related to combined municipal sewer and stormwater systems to prevent sewage discharges into state waters. Twenty million dollars (\$20,000,000) shall be available for urban stream stormwater flood management projects to reduce the frequency and impacts of flooding in watersheds that drain to the San Francisco Bay.

(b) Of the funds made available pursuant to Division 43 (commencing with Section 75001) of the Public Resources Code, the sum of five hundred twenty-six million four hundred ninety-one thousand dollars (\$526,491,000) is hereby appropriated as follows:

(1) Pursuant to Section 75022 of the Public Resources Code, the sum of fifty million dollars (\$50,000,000) to the State Department of Public Health for grants for small community drinking water system

infrastructure improvements and related action to meet safe drinking water standards. First priority for these funds shall be given to disadvantaged or severely disadvantaged communities lacking resources to provide safe drinking water to residents. Small community drinking water systems that are dependent on surface water and are under orders from the State Department of Public Health to boil water from existing treatment systems for parasites, viruses, or giardia shall be eligible for grants for drinking water system infrastructure improvements.

(2) Pursuant to Section 75025 of the Public Resources Code, the sum of fifty million four hundred thousand dollars (\$50,400,000) to the State Department of Public Health for grants for projects to prevent or reduce the contamination of groundwater that serves as a source of drinking water. Funds appropriated by this paragraph shall be available for immediate projects needed to protect public health by preventing or reducing the contamination of groundwater that serves as a major source of drinking water for a community.

(A) The State Department of Public Health shall prioritize project funding based on the following criteria:

(i) The threat posed by groundwater contamination to the affected community's overall drinking water supplies, including the need for the treatment or construction of alternative supplies if groundwater is not available due to contamination.

(ii) The potential for groundwater contamination to spread and reduce drinking water supply and water storage capacity for major population areas.

(iii) The potential of the project, if fully implemented, to enhance local water supply reliability.

(iv) The potential of the project to increase opportunities for groundwater recharge and optimization of groundwater supplies.

(B) The State Department of Public Health shall give additional consideration to projects that meet any of the following criteria:

(i) The project is implemented pursuant to a comprehensive basinwide groundwater quality management and remediation plan or is necessary to develop a comprehensive groundwater plan.

(ii) Affected groundwater provides a local supply that, if contaminated, will require the importation of additional water from the Sacramento-San Joaquin Delta or the Colorado River.

(iii) The project will serve an economically disadvantaged community.

(iv) Multiple contaminants affect more than one-third of the well capacity of a local water system.

(C) Of the amount made available by this paragraph, up to ten million dollars (\$10,000,000) shall be allocated for projects that meet the criteria of this paragraph and both of the following criteria:

(i) The project has the potential to leverage funds.

(ii) The project addresses contamination at a site on the list maintained by the Department of Toxic Substances Control pursuant to Section 25356 of the Health and Safety Code or a site listed on the National Priorities List pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. Sec. 9601 et seq.).

(D) Of the funds made available by this paragraph, two million dollars (\$2,000,000) shall be allocated to the State Department of Public Health to contract with the State Water Resources Control Board for the purposes of Section 83002.5.

(3) (A) Pursuant to Section 75026 of the Public Resources Code, the sum of one hundred eighty-one million seven hundred ninety-one thousand dollars (\$181,791,000) to the department for integrated regional water management activities as follows:

(i) One hundred million dollars (\$100,000,000) for implementation grants.

(ii) Thirty-nine million dollars (\$39,000,000) for planning grants, local groundwater assistance grants, and CALFED scientific research grants.

(iii) Twenty-two million ninety-one thousand dollars (\$22,091,000) for projects with interregional or statewide benefits.

Of the amount made available pursuant to this paragraph, not less than ten million dollars (\$10,000,000) shall be made available for expenditure to interconnect municipal and industrial water supply aqueducts that cross the Delta and that are vulnerable to flood damage, including the design and construction of interties among aqueducts that provide at least 90 percent of a regional water supply that would be threatened in the event of levee failure or other disaster, and that support an integrated regional emergency water supply system.

(iv) Twenty million seven hundred thousand dollars (\$20,700,000) for program delivery costs.

(B) An implementation grant pursuant to clause (i) of subparagraph (A) shall be available only for projects included in an integrated regional water management plan that meets one of the following conditions:

(i) The plan complies with Part 2.2 (commencing with Section 10530) of Division 6.

(ii) For a plan adopted before the date on which this section is enacted, both of the following apply:

(I) The regional water management group that prepared the plan enters into a binding agreement with the department to update the plan to comply with Part 2.2 (commencing with Section 10530) of Division 6 within two years of the date on which the agreement was entered into.

(II) The regional water management group undertakes all reasonable and feasible efforts to take into account water-related needs of disadvantaged communities in the area within the boundaries of the plan.

(C) Of the funds described in clauses (i) and (ii) of subparagraph (A), the department shall allocate not less than 10 percent to facilitate and support the participation of disadvantaged communities in integrated regional water management planning and for projects that address critical water supply or water quality needs for disadvantaged communities.

(D) Of the funds described in clause (iii) of subparagraph (A), the department shall allocate two million dollars (\$2,000,000) to Tulare County for development of an integrated water quality and wastewater treatment program plan to address the drinking water and wastewater needs of disadvantaged communities in the Tulare Lake Basin. Funds allocated pursuant to this paragraph shall be available for assessment and feasibility studies necessary to develop the plan, and the plan shall include recommendations for planning, infrastructure, and other water management actions, and shall include specific recommendations for regional drinking water treatment facilities, regional wastewater treatment facilities, conjunctive use sites and groundwater recharge, groundwater for surface water exchanges, related infrastructure, and cost-sharing mechanisms. Tulare County shall consult with appropriate stakeholders, including representatives of disadvantaged communities, when preparing the plan. The department, in consultation with the State Department of Public Health, shall submit the plan to the Legislature by January 1, 2011.

(E) Of the funds described in clause (i) of subparagraph (A), the department shall allocate not less than twenty million dollars (\$20,000,000) to support urban and agricultural water conservation projects necessary to meet a 20-percent reduction in per capita water use by the year 2020.

(4) Pursuant to Section 75029 of the Public Resources Code, the sum of ninety million dollars (90,000,000) to the department for the implementation of Delta water quality improvement projects that protect drinking water supplies as follows:

(A) Pursuant to subdivision (d) of Section 75029 of the Public Resources Code, the sum of fifty million dollars (\$50,000,000) for drinking water intake facility projects to improve the quality of drinking water supply from the Sacramento-San Joaquin Delta that are identified in the June 2005 Delta Region Drinking Water Quality Management Plan. Funding shall be made available for environmental review, design, and construction. Project proponents seeking funding for construction shall meet all of the following criteria:

(i) Have completed documentation required under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) and a notice of determination has been filed prior to June 30, 2008.

(ii) Have demonstrated multiple benefits in conveyance and Delta operation to achieve protection or improvement to Delta pelagic fisheries, as well as drinking water quality improvement and public health protection.

(iii) Are able to complete design and commence construction before June 30, 2009.

(iv) Have local or federal cost-sharing funds immediately available.

(B) The sum of forty million dollars (\$40,000,000) for projects consistent with subdivision (c) of Section 75029 of the Public Resources Code.

(5) Pursuant to Section 75033 of the Public Resources Code, the sum of one hundred million dollars (\$100,000,000) to the department for the acquisition, preservation, protection, and restoration of Sacramento-San Joaquin Delta resources in accordance with Section 75033 of the Public Resources Code. The department shall expend these funds pursuant to priorities that reflect the value of the resources and land uses protected by the levees to the state as a whole, consistent with the Delta Vision Strategic Plan. Projects shall be selected to improve the stability of the Delta levee system, reduce subsidence, and assist in restoring the ecosystem of the Delta. Priority shall be given to projects that improve conditions for Delta smelt and other native fish. Up to five million dollars (\$5,000,000) made available pursuant to this paragraph shall be available as grants and direct expenditures for emergency communications equipment to improve emergency response preparedness.

(6) Pursuant to Chapter 4 (commencing with Section 75041) of Division 43 of the Public Resources Code, the sum of thirty-seven million dollars (\$37,000,000) to the department as follows:

(A) (i) Twelve million dollars (\$12,000,000) to complete the planning and feasibility studies associated with new surface storage under the California Bay-Delta Program.

(ii) The planning and feasibility studies shall include the following information:

(I) The identification of specific construction and operation conditions proposed for each surface storage facility, including consideration of climate change, an estimated schedule for the construction and completion of each project funded under Section 75041, and the total costs of constructing each project.

(II) A description of the estimated total costs to construct each project and an allocation of the costs to public and private beneficiaries.

(iii) Any feasibility study conducted by or funded by the state for new surface storage under the California Bay-Delta Program shall evaluate funded projects consistent with all statutory and other legally established requirements for protection of environmental and natural resources, including protections for the McCloud River pursuant to Section 5093.542 of the Public Resources Code.

(iv) The feasibility studies shall be prepared and submitted to the Governor and the Legislature no later than December 31, 2009.

(B) (i) Fifteen million dollars (\$15,000,000) for planning and feasibility studies to identify potential options for the reoperation of the state's flood protection and water supply systems that will optimize the use of existing facilities and groundwater storage capacity.

(ii) The studies shall incorporate appropriate climate change scenarios and be designed to determine the potential to achieve the following objectives:

(I) Integration of flood protection and water supply systems to increase water supply reliability and flood protection, improve water quality, and provide for ecosystem protection and restoration.

(II) Reoperation of existing reservoirs, flood facilities, and other water facilities in conjunction with groundwater storage to improve water supply reliability, flood control, and ecosystem protection and to reduce groundwater overdraft.

(III) Promotion of more effective groundwater management and protection and greater integration of groundwater and surface water resource uses.

(IV) Improvement of existing water conveyance systems to increase water supply reliability, improve water quality, expand flood protection, and protect and restore ecosystems.

(C) Ten million dollars (\$10,000,000) to update the California Water Plan, including evaluation of climate change impacts, the development of strategies to adapt to climate change impacts, technical assistance to local agencies that incorporate climate change into their studies, reports, and plans, and the identification of strategies to reduce greenhouse gas emissions related to the storage, conveyance, and distribution of water.

(D) Of the money made available pursuant to subparagraphs (A), (B), and (C), up to two million dollars (\$2,000,000) may be expended for planning and feasibility studies necessary to implement the Delta Vision Strategic Plan, developed pursuant to Executive Order No. S-17-06, dated September 28, 2006, establishing the Delta Vision process.

(7) Pursuant to Section 75050 of the Public Resources Code, the sum of seventeen million three hundred thousand dollars (\$17,300,000) for the protection and restoration of rivers and streams as follows:

(A) Ten million dollars (\$10,000,000) to the State Coastal Conservancy for the purposes of subdivision (i) of Section 75050 of the Public Resources Code.

(B) Seven million three hundred thousand dollars (\$7,300,000) to the department for the purposes of subdivision (e) of Section 75050 of the Public Resources Code.

(c) Of the funds made available pursuant to subdivision (a) of Section 79550, the sum of three million seven hundred sixty thousand dollars (\$3,760,000) is hereby appropriated to the department for planning and feasibility studies associated with surface storage under the California Bay-Delta Program.

(d) (1) Of the funds available pursuant to Section 79101.4, the sum of two million two hundred seventy-two thousand dollars (\$2,272,000) is appropriated to the department for the Sacramento River Hamilton City Area Flood Damage Reduction Project.

(2) Of the funds available pursuant to subdivision (c) of Section 79196.5, the sum of three million four hundred fifty thousand dollars (\$3,450,000) is appropriated to the department for the Franks Tract Pilot Project under the CALFED Drinking Water Quality Program.

83002.5. To improve understanding of the causes of groundwater contamination, identify potential remediation solutions and funding sources to recover costs expended by the state for the purposes of this section to clean up or treat groundwater, and ensure the provision of safe drinking water to all communities, the State Water Resources Control Board, in consultation with other agencies as specified in this section, shall develop pilot projects in the Tulare Lake Basin and the Salinas Valley that focus on nitrate contamination and do all of the following:

(a) (1) In collaboration with relevant agencies and utilizing existing data, including groundwater ambient monitoring and assessment results along with the collection of new information as needed, do all of the following:

(A) Identify sources, by category of discharger, of groundwater contamination due to nitrates in the pilot project basins.

(B) Estimate proportionate contributions to groundwater contamination by source and category of discharger.

(C) Identify and analyze options within the board's current authority to reduce current nitrate levels and prevent continuing nitrate contamination of these basins and estimate the costs associated with exercising existing authority.

(2) In collaboration with the State Department of Public Health, do all of the following:

(A) Identify methods and costs associated with the treatment of nitrate contaminated groundwater for use as drinking water.

(B) Identify methods and costs to provide an alternative water supply to groundwater reliant communities in each pilot project basin.

(3) Identify all potential funding sources to provide resources for the cleanup of nitrates, groundwater treatment for nitrates, and the provision of alternative drinking water supply, including, but not limited to, state bond funding, federal funds, water rates, and fees or fines on polluters.

(4) Develop recommendations for developing a groundwater cleanup program for the Central Valley Water Quality Control Region and the Central Coast Water Quality Control Region based upon pilot project results.

(b) Create an interagency task force, as needed, to oversee the pilot projects and develop recommendations for the Legislature. The interagency task force may include the board, the State Department of Public Health, the Department of Toxic Substances Control, the California Environmental Protection Agency, the Department of Water Resources, local public health officials, the Department of Food and Agriculture, and the Department of Pesticide Regulation.

(c) Submit a report to the Legislature on the scope and findings of the pilot projects, including recommendations, within two years of receiving funding.

(d) Implement recommendations in the Central Coast Water Quality Control Region and the Central Valley Water Quality Control Region pursuant to paragraph (4) of subdivision (a) within two years of submitting the report described in subdivision (c) to the Legislature.

(e) For the Salinas Valley Pilot Project, the State Water Resources Control Board shall consult with the Monterey County Water Resources Agency.

83002.6. Up to 5 percent of the funds appropriated by this division may be expended to pay the costs incurred in the administration of that program.

83002.7. Funds appropriated by this division shall only be available for encumbrance until June 30, 2010. On January 10, 2010, any program that is the recipient of an appropriation made by this division shall report to the fiscal committees of the Legislature on the details of all committed and anticipated expenditures of these funds. The report shall include all of the following information:

(a) Fiscal detail of state operations support and local assistance costs.

(b) A general description of the project and the project funding made available by an appropriation in the annual Budget Act for the 2008–09 fiscal year or proposed to be made available in the annual Budget Act for the 2009–10 fiscal year.

(c) A description of the manner in which funds have been expended and a plan for the future expenditure of funds.

(d) An anticipated timeframe for the full expenditure of the appropriation.

(e) An anticipated timeframe for the full completion of the designated project.

(f) The amount of total matching project funding that is being provided by an entity other than the state.

## **EXTRAORDINARY SESSION SPECIAL RULES OF EFFECTIVENESS**

Except for a statute calling an election, a statute providing for a tax levy or an appropriation calling for the usual current expenses of the state, and an urgency statute, all of which take effect immediately following enactment, a statute adopted during an extraordinary session takes effect on the 91st day following the adjournment of the special session (see subdivision (c) of Section 8 of Article IV of the California Constitution). The effective date of a concurrent or joint resolution is the date it is filed with the Secretary of State.

The 2007–08 Third Extraordinary Session convened on January 14, 2008, and adjourned *sine die* on September 16, 2008. The 91st day after adjournment is December 16, 2008.

EXECUTIVE DEPARTMENT  
STATE OF CALIFORNIA

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

**WHEREAS** on this date, pursuant to Section 10(f) of Article IV of the Constitution of the State of California, I have proclaimed a fiscal emergency; and

**WHEREAS** on this date, I am submitting to the Legislature proposed legislation to address that fiscal emergency; and

**WHEREAS** this extraordinary occasion having arisen and now existing, it requires that the Legislature of the State of California be convened in extraordinary session.

**NOW, THEREFORE, I, ARNOLD SCHWARZENEGGER**, Governor of the State of California, by virtue of the power and authority vested in me by in accordance with Section 10(f) of Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 10th day of January 2008, at a time to be determined, to consider and act upon legislation to address the fiscal emergency proclaimed by me this day.

**IN WITNESS WHEREOF** I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 10<sup>th</sup> day of January, 2008.

  
ARNOLD SCHWARZENEGGER  
Governor of California

ATTEST:

  
DEBRA BOWEN  
Secretary of State

EXECUTIVE DEPARTMENT  
STATE OF CALIFORNIA

---

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

**WHEREAS** at the time the 2007 Budget Act was enacted it reflected budget reserves for Fiscal Year 2007-08 totaling \$4.1 billion; and

**WHEREAS** at that same time, as a result of spending requirements embedded in law and increased program costs as a result of inflation, caseload and population driven program growth, the Department of Finance projected shortfall between revenues and expenditures in Fiscal Year 2008-09 would be \$6.1 billion; and

**WHEREAS** since the enactment of the 2007 Budget Act, the California economy, though remaining strong in general, has faced the same challenges that are affecting the rest of the nation, in large part as a result of a slowing housing market and higher energy prices; and

**WHEREAS** these economic challenges have resulted a \$4.8 billion reduction in the General Fund revenue forecast for Fiscal Year 2007-08 below the revenue forecast used when the 2007 Budget Act was enacted, including a \$665 million reduction in the receipt of General Fund revenues through December 2007; and

**WHEREAS** costs payable from the General Fund during Fiscal Year 2007-08 are anticipated to increase by \$1.9 billion over expenses budgeted for Fiscal Year 2007-08, largely as a result of the cost of fighting extraordinary wildfires in Southern California, lower property tax revenues to offset state participation in school funding and court ordered payments for state programs; and

**WHEREAS** the Department of Finance now reports that this combination of lowered revenue receipts and projections and increased costs has resulted in a projected budget shortfall for Fiscal Year 2007-08 of \$3.3 billion as well as a cumulative budget shortfall in Fiscal Year 2008-09 of \$14.5 billion; and

**WHEREAS** the Department of Finance further reports that there is now expected to be insufficient cash reserves for Fiscal Year 2007-08 as well as for Fiscal Year 2008-09 and possibly insufficient cash to make currently anticipated payments in Fiscal Year 2008-09; and

**NOW, THEREFORE, I, ARNOLD SCHWARZENEGGER**, Governor of the State of California, in accordance with Section 10(f) of Article IV of the Constitution of the State of California, HEREBY DETERMINE that General Fund revenues for Fiscal Year 2007-08 will decline substantially below the estimate of General Fund revenues upon which the 2007 Budget Bill was based.

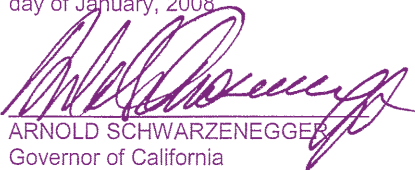

I, **ARNOLD SCHWARZENEGGER**, Governor of the State of California, HEREBY DECLARE that a fiscal emergency exists.

I, **ARNOLD SCHWARZENEGGER**, Governor of the State of California, HEREBY IDENTIFY THE NATURE OF THIS FISCAL EMERGENCY to be the projected budget imbalance and insufficient cash reserves for Fiscal Year 2007-08 and the projected insufficient cash reserves and potential budgetary and cash deficit in Fiscal Year 2008-09 which are anticipated to result from the lower than estimated General Fund revenues in Fiscal Year 2007-08 and increased Fiscal Year 2007-08 expenditures.

FURTHER, on this day, as required by Section 10(f) of Article IV of the Constitution of the State of California, I will cause the Legislature to assemble in special session to address this fiscal emergency, and I will submit to the Legislature proposed legislation to address this fiscal emergency.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 10th day of January, 2008

  
ARNOLD SCHWARZENEGGER  
Governor of California

CHAPTER 1

An act to amend Item 3790-497 of, and to add Items 3790-002-6051 and 4260-497 to, Section 2.00 of the Budget Act of 2007 (Chapters 171 and 172 of the Statutes of 2007), and to add Sections 4.44 and 24.85 to, and to repeal Section 24.80 of, that act, relating to the support of state government, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 16, 2008. Filed with Secretary of State February 16, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. The reversions and transfers added by this act are in addition to the appropriations made in Section 2.00 of the Budget Act of 2007 (Ch. 171, Stats. 2007 and Ch. 172, Stats. 2007) and are subject to the provisions of that act, as appropriate, including, as applicable, the provisions of that act that apply to the items of appropriation that are amended by this act. Unless otherwise specified, the references in this act to item numbers refer to items of appropriation in Section 2.00 of the Budget Act of 2007 (Ch. 171, Stats. 2007 and Ch. 172, Stats. 2007).

SEC. 2. Item 3790-002-6051 is added to Section 2.00 of the Budget Act of 2007 to read:

3790-002-6051—For support of Department of Parks and Recreation, payable from the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Fund of 2006..... 30,000,000

Provisions:

1. \$30,000,000 of the funds appropriated in this item shall be for the planning, design, and construction of deferred maintenance projects within the state park system and shall be available for encumbrance until June 30, 2012.
  - (a) Notwithstanding any other provision of law, the Director of Finance may authorize expenditures in this item for capital outlay projects not sooner than 30 days after written notification is provided to the chairpersons of the fiscal committees in each house of the Legislature and the Chairperson of the Joint Legislative Budget Committee. The written notification shall provide a description of

each capital outlay project, the need for the project, and the cost and phase for which approval is requested. The total of these expenditures may not exceed \$30,000,000.

SEC. 3. Item 3790-497 of Section 2.00 of the Budget Act of 2007, as amended by Chapter 489, Statutes of 2007, is amended to read:

3790-497—Reversion, Department of Parks and Recreation. As of June 30, 2007, the balances provided in the following citations shall revert to the fund from which the appropriations were made:

0001—General Fund

(1) Item 3790-001-0001, Budget Act of 2006 (Chs. 47 and 48, Stats. 2006)

(1) For support of the Department of Parks and Recreation..... 205,000,000

0005—Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Fund

(1) Item 3790-101-0005, Budget Act of 2001 (Ch.106, Stats. 2001)

(1) 80.25-Recreational Grants

(a) Local agencies operating park..... 835,000

(2) Item 3790-001-0005, Budget Act of 2005 (Chs. 38 and 39, Stats. 2005)..... 107,000

6029—California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Fund

(1) Item 3790-001-6029, Budget Act of 2005 (Chs. 38 and 39, Stats. 2005), as reappropriated by Item 3790-490, Budget Act of 2006 (Chs. 47 and 48, Stats. 2006)..... 3,000,000

SEC. 4. Item 4260-497 is added to Section 2.00 of the Budget Act of 2007, to read:

4260-497—Reversion, Department of Health Care Services. The sum of \$165,000,000 of the appropriation provided in Schedule (3) 20.10.030 Benefits (Medical Care and Services) of Item 4260-101-0001, Budget Act of 2007 (Chs. 171 and 172, Stats. 2007) shall revert to the General Fund.

SEC. 5. Section 4.44 is added to the Budget Act, to read:

SEC. 4.44. (a) Notwithstanding any other provision of law, appropriations from the General Fund to the state entity as scheduled in subdivision (d), whether made in the Budget Act of 2007 or in other statutes, shall be reduced by the amounts as scheduled in subdivision (d). Any item of appropriation, and each schedule and provision within any item of appropriation, in the Budget Act of 2007 shall be adjusted to achieve the reduction to the aggregate General Fund appropriations made to each entity as ordered by the Director of Finance. Reductions to appropriations made in statutes other than the Budget Act of 2007 shall be allocated to achieve the reduction as scheduled in subdivision (d) as directed by the Director of Finance.

(b) To the extent made necessary by these reductions, appropriations from funds other than the General Fund to a state entity as scheduled in subdivision (d) may be adjusted to effectuate the provisions of this section.

(c) Nothing within this section shall be construed to confer any authority upon the Director of Finance to modify or eliminate any other provision of existing law.

(d) Appropriations from the General Fund for the state entities specified below shall be reduced by the amount specified. To the extent statutory changes are necessary to achieve these reductions, the reductions shall be effective only if necessary statutory changes are enacted.

SEC. 6. Section 24.80 of the Budget Act 2007 is repealed.

SEC. 7. Section 24.85 is added to the Budget Act, to read:

SEC. 24.85. (a) Notwithstanding any other provision of law, the Director of Finance is authorized to reimburse General Fund expenditures for the purpose of offsetting the costs of the Home-to-School Transportation program for the 2007–08 fiscal year from the Public Transportation Account. A sum not to exceed \$409,000,000 from the Public Transportation Account may be used to reimburse General Fund expenditures for the Home-to-School Transportation program. The total reimbursement shall not reduce the balance in the Public Transportation Account below a prudent reserve as determined by the Director of Finance.

(b) It is not the intent of the Legislature in enacting this section to provide additional expenditure authority to state programs.

(c) Funds provided from the Public Transportation Account for this purpose are derived from the sales tax on fuels and are dedicated to mass transportation purposes pursuant to Section 99310.5 of the Public Utilities Code. The Legislature hereby finds that transporting students to schools is a component of the state’s mass transportation program.

SEC. 8. This act addresses a fiscal emergency declared by the Governor by proclamation on January 10, 2008, by which the Legislature was called in special session pursuant to subdivision (f) of Section 10 of Article IV of the California Constitution.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that necessary reversions, transfers, and adjustments by this act to the appropriations in the Budget Act of 2007 for support of state government for the 2007–08 fiscal year be made as soon as possible to address the fiscal emergency declared by the Governor, it is necessary that this act take effect immediately.

---

## CHAPTER 2

An act to add Sections 8483.51 and 14041.1 to the Education Code, to amend Items 6110-246-0001 and 6110-485 of, and to add Item 6110-488 to, Section 2.00 of, and to repeal Section 9.00 of, the Budget Act of 2007 (Chapters 171 and 172 of the Statutes of 2007), relating to education finance, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 16, 2008. Filed with  
Secretary of State February 16, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 8483.51 is added to the Education Code, to read:

8483.51. For purposes of Section 8483.5, the term “continuously appropriated” shall not be construed to mean “without regard to fiscal year.” The funds appropriated pursuant to subdivision (b) of Section 8483.5 are available for encumbrance for one year after the date upon which they first become available for encumbrance and are subject to Section 16304.1 of the Government Code.

SEC. 2. Section 14041.1 is added to the Education Code, to read:

14041.1. (a) Except as provided pursuant to subdivision (b), notwithstanding paragraphs (1) and (2) of subdivision (a) and subdivision (b) of Section 14041, for the 2008–09 fiscal year only:

(1) Warrants for amounts allowed to the county school service funds under subdivisions (a) and (b) of Section 14054 shall be for amounts equal to 0.9 percent in July, 12 percent in August, 15.1 percent in September, and 8 percent in each remaining month of the fiscal year of the amounts certified by the Superintendent as a part of the advance apportionment.

(2) Warrants for amounts apportioned to school districts and county school service funds for classes maintained by county superintendents of schools and to the county school tuition funds shall be for amounts equal to 0.9 percent in July, 12 percent in August, 13.1 percent in September, and 8 percent in October, November, December, and January, of the amounts certified by the Superintendent as a part of the advance apportionment.

(b) Notwithstanding subdivision (a) and subject to the approval of the Director of Finance, the Controller shall issue warrants pursuant to Section 14041 that include the full amount of the apportionment payments for the month of July for a local educational agency for which the county superintendent of schools certifies to the Superintendent of Public Instruction and to the Director of Finance on or before May 15, 2008, that the deferral of warrants pursuant to subdivision (a) will result in qualifying the local educational agency for an emergency apportionment pursuant to Article 2 (commencing with Section 41320) of Chapter 3 of Part 24 of Division 3 of Title 2.

SEC. 3. Item 6110-246-0001 of Section 2.00 of the Budget Act of 2007 is amended to read:

6110-246-0001—For local assistance, Department of Education (Proposition 98), for transfer by the Controller to Section A of the State School Fund for allocation by the Superintendent of Public Instruction for the unscheduled Targeted Instructional Improvement Block Grant pursuant to Article 6 of Chapter 3.2 (commencing with Section 41540) of Part 24 of Division 2 of Title 2 of the Education Code..... 680,207,975

Provisions:

1. Of the funds appropriated in this item, \$46,619,000 is for the purpose of providing a cost-of-living adjustment at a rate of 4.53 percent.
2. The funds appropriated in this item reflect a reduction to the base funding of 0.48 percent for a statewide decline in average daily attendance.
3. Notwithstanding any other provision of law, an additional \$100,118,000 in expenditures for this item has been deferred until the 2008–09 fiscal year.

SEC. 4. Item 6110-485 of Section 2.00 of the Budget Act of 2007 is amended to read:

6110-485—Reappropriation (Proposition 98), Department of Education. The sum of \$580,674,000 is hereby reappropriated from the Proposition 98 Reversion Account, for the following purposes:

0001—General Fund

- (1) \$200,000,000 to the School Facilities Program for the purpose of funding the School Facilities Emergency Repair Account as required by Chapter 899 of the Statutes of 2004. Notwithstanding any law, the amount provided in this schedule shall be in satisfaction of the amounts that would otherwise be provided for the 2007–08 fiscal year for the School Facilities Emergency Repair Account.
- (2) \$8,810,000 to the State Department of Education for the purpose of the Teacher Credentialing Block Grant pursuant to Article 4 (commencing with Section 41520) of Chapter 3.2 of Part 24 of Division 2 of Title 2 of the Education Code to fund estimated participation in the 2006–07 budget year.
- (8) \$4,100,000 to the State Department of Education for the purpose of funding community day school program deficiencies from the 2006–07 fiscal year.

- (9) \$1,900,000 to the State Department of Education on a one-time basis for maintenance of the K–12 High Speed Network. The program shall provide a status report to the Department of Finance, Legislative Analyst’s Office, and budget committees of each house of the Legislature by March 1, 2008, on the use of these funds and whether any unplanned program savings are anticipated (due to vendor allowances, base program savings, or other specified matters).
- (11) \$385,000 to the Superintendent of Public Instruction, on a one-time basis, for allocation to the Fiscal Crisis and Management Assistance Team (FCMAT) to conduct comprehensive assessments pursuant to Section 41327.1 of the Education Code. Of the amount appropriated in this paragraph, FCMAT shall use \$150,000 for an assessment of the Oakland Unified School District, \$125,000 for an assessment of the Vallejo City Unified School District and \$110,000 for an assessment of the West Fresno Elementary School District. The FCMAT shall provide a copy of the written report to the appropriate fiscal and policy committees of the Legislature, the Members of the Legislature representing those school districts, any advisory councils of those school districts, the Superintendent of Public Instruction, the county superintendent of schools with jurisdiction over those school districts, the Department of Finance, and the Office of the Secretary for Education.
- (12) \$115,479,000 to the State Department of Education, on a one-time basis, to backfill the Deferred Maintenance Program.
- (13) Notwithstanding subdivision (b) of Section 17592.71 of the Education Code, \$250,000,000 shall be transferred by the Controller from the School Facilities Emergency Repair Account to the Proposition 98 Reversion Account no later than 30 days after the enactment of the Budget Act.
- (14) \$250,000,000 to the State Department of Education for the home-to-school transportation program, pursuant to Article 10 (commencing with Section 41850) of Chapter 5 of Part 24 of Division 2 of Title 2 of the Education Code, and Small School District Transportation, pursuant to Article 4.5 (commencing with Sec-

tion 42290) of Chapter 7 of Part 24 of Division 2 of Title 2 of the Education Code.

SEC. 5. Item 6110-488 is added to Section 2.00 of the Budget Act of 2007, to read:

6110-488—Reappropriation (Proposition 98), Department of Education. Notwithstanding any other law, the unobligated balances from the following items are available for reappropriation for the purpose specified in Provision 1 of this item.

0001—General Fund

- (1) \$25,297 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for preschool education in Schedule (1) of Item 6110-196-0001 of the Budget Act of 2003 (Ch. 157, Stats. 2003).
- (2) \$838,589 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for child care in Schedule (1.5) of Item 6110-196-0001 of the Budget Act of 2003 (Ch. 157, Stats. 2003).
- (3) \$20,260 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for preschool education in Schedule (1) of Item 6110-196-0001 of the Budget Act of 2004 (Ch. 208, Stats. 2004).
- (4) \$2,260,825 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for child care in Schedule (1.5) of Item 6110-196-0001 of the Budget Act of 2004 (Ch. 208, Stats. 2004).
- (5) \$1,674,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for California's pupil testing program in Schedules (2), (3), and (4) of Item 6110-113-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (6) \$306,810 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for Specialized Secondary Programs in Item 6110-122-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).

- (7) \$357,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the High Priority Schools Grant Program in Schedule (2) of Item 6110-123-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (8) \$1,040,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the adults in correctional facilities program in Item 6110-158-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (9) \$2,093,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for Partnership Academies in Item 6110-166-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (10) \$345,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the National Board Certification program in Item 6110-195-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (11) \$12,618,945 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for CalWORKS Stage 2 child care in Schedule (1.5) of Item 6110-196-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (12) \$7,222,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the Cal-SAFE Program in Schedules (1), (2), and (3) of Item 6110-198-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (13) \$1,200,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for child nutrition in Item 6110-203-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (14) \$25,000,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the Program to Reduce Class Size in Two Courses in Grade 9 in Item

6110-232-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).

- (15) \$12,000,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the Class Size Reduction Program in Item 6110-234-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (16) \$49,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the alternative certification program in Schedule (1) of Item 6360-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (17) \$365,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the California School Paraprofessional Teachers Training Program in Schedule (2) of Item 6360-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (18) \$5,383 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the California Community Colleges in Schedule (1), Provision 5.5, of Item 6870-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (19) \$9,937 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the California Community Colleges in Schedule (4) of Item 6870-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (20) \$1,340,266 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the California Community Colleges in Schedule (6) of Item 6870-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (21) \$28,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the California Community Colleges in Schedule (7) of Item 6870-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).

- (22) \$167,006 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the California Community Colleges in Schedule (8) of Item 6870-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (23) \$612,289 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the California Community Colleges in Schedule (15) of Item 6870-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (24) \$585,482 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the California Community Colleges in Schedule (18) of Item 6870-101-0001 of the Budget Act of 2005 (Chs. 38 and 39, Stats. 2005).
- (25) \$2,218,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for California's pupil testing program in Schedules (1) and (2) of Item 6110-113-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (26) \$456,500 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for Administrator Training Programs in Item 6110-144-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (27) \$2,460,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the National Board Certification Program in Item 6110-195-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (28) \$55,000,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for preschool education in Schedule (1) of Item 6110-196-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (29) \$34,500,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for child care in Schedule

- (1.5) of Item 6110-196-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (30) \$3,474,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for Cal-SAFE child care in Schedule (3) of Item 6110-198-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (31) \$13,704,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the Year Round School Grant Program in Schedule (1) of Item 6110-224-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (32) \$5,000,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the Program to Reduce Class Size in Two Courses in Grade 9 in Item 6110-232-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (33) \$29,000,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the Class Size Reduction Program in Item 6110-234-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (34) \$1,563,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the Pupil Retention Block Grant in Item 6110-243-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (35) \$2,101,212 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for county offices of education for Williams audits in Item 6110-266-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (36) \$656,500 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for the certificated staff mentoring program in Item 6110-267-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (37) \$4,100,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated to school districts, charter

schools, and county offices of education for equipment, supplies, and professional development related to the establishment and operation of a three-year instructional school garden program pursuant to Article 8.5 (commencing with Section 51795) of Chapter 5 of Part 28 of Division 4 of Title 2 of the Education Code in Schedule (19) Item 6110-495 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).

- (38) \$300,000 or whatever the greater or lesser amount reflects the unexpended balance from the amount appropriated for the Alternative Certification Program in Schedule (1) of Item 6360-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (39) \$500,000 or whatever the greater or lesser amount reflects the unexpended balance from the amount appropriated for the California School Paraprofessional Teacher Training program in Schedule (2) of Item 6360-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (40) \$2,672,480 or whatever the greater or lesser amount reflects the unexpended balance of the amount made available pursuant to Provision 11.5 from the amount appropriated to the California Community Colleges in Schedule (3) of Item 6870-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (41) \$27,970 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated to the California Community Colleges in Schedule (4) of Item 6870-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (42) \$3,193,048 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated to the California Community Colleges in Schedule (6) of Item 6870-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (43) \$448,883 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated to the California Community Col-

leges in Schedule (8) of Item 6870-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).

- (44) \$954,423 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated to the California Community Colleges in Schedule (18) of Item 6870-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (45) \$500,154 or whatever the greater or lesser amount reflects the unexpended balance from the amount appropriated to the California Community Colleges for career technical education in Schedule (20) of Item 6870-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (46) \$10,175 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated to the California Community Colleges in Schedule (23) of Item 6870-101-0001 of the Budget Act of 2006 (Chs. 47 and 48, Stats. 2006).
- (47) \$104,054 from the amount appropriated to California Community Colleges in Schedule (2) of Item 6870-486 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).
- (48) \$2,000,000 from the amount appropriated to California Community Colleges in Schedule (3) of Item 6870-486 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).
- (49) \$1,834,537 or whatever greater or lesser amount reflects the unexpended balance from paragraph (2) of subdivision (a) of Section 23 of Chapter 900 of the Statutes of 2004.
- (50) \$22,777,000 or whatever the greater or lesser amount reflects the unexpended balance from subparagraph (A) of paragraph (1) of subdivision (a) of Section 36 of Chapter 216 of the Statutes of 2004 as amended by subparagraph (F) of paragraph (1) of subdivision (a) of Section 36 of Chapter 900 of Statutes of 2004.
- (51) \$7,285,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated to school districts and

charter schools for purposes of parental involvement activities pursuant to Article 2 (commencing with Section 51120) of Chapter 1.5 of Part 28 of Division 4 of Title 2 of the Education Code in Schedule (9) of Section 43 of Chapter 79 of the Statutes of 2006.

- (52) \$3,400,000 or whatever the greater or lesser amount reflects the unexpended balance of the amount appropriated for teacher recruitment and retention in Schedule (20) of Section 43 of Chapter 79 of the Statutes of 2006.
- (53) \$25,000,000 from the amount appropriated to the Child Care Facilities Revolving Fund established pursuant 8278.3 of the Education Code from Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

Provision:

1. The sum of \$295,405,025 is hereby reappropriated to the State Department of Education for transfer by the Controller to Section A of the State School Fund for allocation by the Superintendent of Public Instruction for the unscheduled Targeted Instructional Improvement Block Grant pursuant to Article 6 (commencing with Section 41540) of Chapter 3.2 of Part 24 of Division 3 of Title 2 of the Education Code. The amount reappropriated pursuant to this section is for the use and support of the State of California for the 2007–08 fiscal year beginning July 1, 2007, and ending June 30, 2008.

SEC. 6. Section 9.00 of the Budget Act of 2007 is repealed.

SEC. 7. Notwithstanding any other law, three million seven hundred eighty-five thousand dollars (\$3,785,000) is reduced from the amount appropriated to the High Priority Schools Grant Program in Schedule (2) of Item 6110-123-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 8. Notwithstanding any other law, twenty-five million dollars (\$25,000,000) is reduced from the amount appropriated to the State Department of Education for economic impact aid in Item 6110-128-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 9. Notwithstanding any other law, six million two hundred fifty thousand dollars (\$6,250,000) is reduced from the amount appropriated

to the State Department of Education for the Mathematics and Reading and Professional Development program in Schedule (3) of Item 6110-137-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 10. Notwithstanding any other law, two million dollars (\$2,000,000) is reduced from the amount appropriated to the State Department of Education for the National Board Certification program in Item 6110-195-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 11. Notwithstanding any other law, twenty million dollars (\$20,000,000) is reduced from the amount appropriated to the State Department of Education for preschool education in Schedule (1) of Item 6110-196-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 12. Notwithstanding any other law, twenty million two hundred fifty thousand dollars (\$20,250,000) is reduced from the amount appropriated to the State Department of Education for general child care services in Schedule (1.5) (a) of Item 6110-196-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 13. Notwithstanding any other law, two million dollars (\$2,000,000) is reduced from the amount appropriated to the State Department of Education for the Cal-SAFE Program in Schedule (3) of Item 6110-198-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 14. Notwithstanding any other law, five million dollars (\$5,000,000) is reduced from the amount appropriated to the State Department of Education for class size reduction in grade 9 in Item 6110-232-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 15. Notwithstanding any other law, thirty-two million dollars (\$32,000,000) is reduced from the amount appropriated to the State Department of Education for class size reduction in kindergarten and grades 1 to 3, inclusive, of Item 6110-234-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 16. Notwithstanding any other law, one million dollars (\$1,000,000) is reduced from the amount appropriated to the State Department of Education for the pupil retention block grant program in Item 6110-243-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 17. Notwithstanding any other law, eighteen million fifty thousand dollars (\$18,050,000) is reduced from the amount appropriated to the State Department of Education for school safety consolidated

competitive block grants in Item 6110-248-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 18. Notwithstanding any other law, forty-one million eight hundred twelve thousand dollars (\$41,812,000) is reduced from the amount appropriated to the State Department of Education for physical education teacher incentive grants in Item 6110-260-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 19. Notwithstanding any other law, three million dollars (\$3,000,000) is reduced from the amount appropriated to the Commission on Teacher Credentialing for the alternative certification program in Schedule (1) of Item 6360-101-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 20. Notwithstanding any other law, one million eight hundred thousand dollars (\$1,800,000) is reduced from the amount appropriated to the Commission on Teacher Credentialing for the paraprofessional teacher training program in Schedule (2) of Item 6360-101-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 21. Notwithstanding any other law, one million one hundred fifty-eight thousand nine hundred forty-six dollars (\$1,158,946) is reduced from the amount made available in Provision 10 from the amount appropriated to the California Community Colleges for pupils who have failed the California High School Exit Exam in Schedule (3) of Item 6870-101-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 22. Notwithstanding any other law, twelve thousand one hundred sixty-three dollars (\$12,163) is reduced from the amount appropriated to the California Community Colleges for foster care education programs in Schedule (7) of Item 6870-101-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 23. Notwithstanding any other law, six million one hundred thousand dollars (\$6,100,000) is reduced from the amount appropriated to the California Community Colleges for economic development in Schedule (15) of Item 6870-101-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 24. Notwithstanding any other law, ten million dollars (\$10,000,000) is reduced from the amount appropriated to the California Community Colleges for career technical education in Schedule (20) of Item 6870-101-0001 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 25. Notwithstanding any other law, one million one hundred forty-two thousand eight hundred eighty-five dollars (\$1,142,885) is reduced from the amount appropriated to the California Community Colleges in subdivision (b) of Provision (27) of Item 6870-101-0001 of

Schedule 23 of Section 2.00 of the Budget Act of 2007 (Chs. 171 and 172, Stats. 2007).

SEC. 26. Notwithstanding any other law, eleven million dollars (\$11,000,000) is reduced from the amount appropriated to the State Department of Education for home-to-school transportation in Section 37 of Chapter 79 of the Statutes of 2006, as amended by Section 31 of Chapter 174 of the Statutes of 2007.

SEC. 27. This act addresses the fiscal emergency declared by the Governor by proclamation on January 10, 2008, pursuant to subdivision (f) of Section 10 of Article IV of the California Constitution.

SEC. 28. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to preserve the solvency of the General Fund in the 2007–08 fiscal year, by reducing appropriations made for purposes of public education and reappropriating other available funds, it is necessary that this act take effect immediately.

---

### CHAPTER 3

An act to amend Section 95004 of the Government Code, and to amend Sections 4640.6, 4643, 4648.4, 4681.3, 4681.5, 4691.6, 4781.6, and 4783 of, and to add Sections 4681.6, 4689.8, 4691.9, 14041.1, 14105.19, and 14166.245 to, the Welfare and Institutions Code, relating to health, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 16, 2008. Filed with  
Secretary of State February 16, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 95004 of the Government Code, as amended by Section 1 of Chapter 171 of the Statutes of 2001, is amended to read:

95004. The early intervention services specified in this title shall be provided as follows:

(a) Direct services for eligible infants and toddlers and their families shall be provided pursuant to the existing regional center system under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code) and the existing local education agency system under appropriate sections of Part 30 (commencing with Section 56000) of the Education Code and

regulations adopted pursuant thereto, and Part C of the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431 et seq.).

(b) (1) In providing services under this title, regional centers shall comply with the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code, and its implementing regulations (Division 2 (commencing with Section 50201) of Title 17 of the California Code of Regulations) including, but not limited to, those provisions relating to vendorization and ratesetting, and the Family Cost Participation Program, except where compliance with those provisions would result in any delays in, the provision of early intervention, or otherwise conflict with this title and the regulations implementing this title (Chapter 2 (commencing with Section 52000) of Division 2 of Title 17 of the California Code of Regulations), or Part C of the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431) et seq., and applicable federal regulations contained in Part 303 (commencing with Section 303.1) of Title 34 of the Code of Federal Regulations.

(2) When compliance with this subdivision would result in any delays in the provision of early intervention services for the provision of any of these services, the department may authorize a regional center to use a special service code that allows immediate procurement of the service.

(c) Services shall be provided by family resource centers that provide, but are not limited to, parent-to-parent support, information dissemination and referral, public awareness, family professional collaboration activities, and transition assistance for families.

(d) Existing obligations of the state to provide these services at state expense shall not be expanded.

(e) It is the intent of the Legislature that services be provided in accordance with Sections 303.124, 303.126, and 303.527 of Title 34 of the Code of Federal Regulations.

SEC. 2. Section 4640.6 of the Welfare and Institutions Code is amended to read:

4640.6. (a) In approving regional center contracts, the department shall ensure that regional center staffing patterns demonstrate that direct service coordination are the highest priority.

(b) Contracts between the department and regional centers shall require that regional centers implement an emergency response system that ensures that a regional center staff person will respond to a consumer, or individual acting on behalf of a consumer, within two hours of the time an emergency call is placed. This emergency response system shall be operational 24 hours per day, 365 days per year.

(c) Contracts between the department and regional centers shall require regional centers to have service coordinator-to-consumer ratios, as follows:

(1) An average service coordinator-to-consumer ratio of 1 to 62 for all consumers who have not moved from the developmental centers to the community since April 14, 1993. In no case shall a service coordinator for these consumers have an assigned caseload in excess of 79 consumers for more than 60 days.

(2) An average service coordinator-to-consumer ratio of 1 to 45 for all consumers who have moved from a developmental center to the community since April 14, 1993. In no case shall a service coordinator for these consumers have an assigned caseload in excess of 59 consumers for more than 60 days.

(3) Commencing January 1, 2004, the following coordinator-to-consumer ratios shall apply:

(A) All consumers three years of age and younger and for consumers enrolled on the Home and Community-based Services Waiver for persons with developmental disabilities, an average service coordinator-to-consumer ratio of 1 to 62.

(B) All consumers who have moved from a developmental center to the community since April 14, 1993, and have lived continuously in the community for at least 12 months, an average service coordinator-to-consumer ratio of 1 to 62.

(C) All consumers who have not moved from the developmental centers to the community since April 14, 1993, and who are not described in subparagraph (A), an average service coordinator-to-consumer ratio of 1 to 66.

(4) For purposes of paragraph (3), service coordinators may have a mixed caseload of consumers three years of age and younger, consumers enrolled on the Home and Community-based Services Waiver program for persons with developmental disabilities, and other consumers if the overall average caseload is weighted proportionately to ensure that overall regional center average service coordinator-to-consumer ratios as specified in paragraph (3) are met. For purposes of paragraph (3), in no case shall a service coordinator have an assigned caseload in excess of 84 for more than 60 days.

(d) For purposes of this section, “service coordinator” means a regional center employee whose primary responsibility includes preparing, implementing, and monitoring consumers’ individual program plans, securing and coordinating consumer services and supports, and providing placement and monitoring activities.

(e) In order to ensure that caseload ratios are maintained pursuant to this section, each regional center shall provide service coordinator

caseload data to the department, annually for each fiscal year. The data shall be submitted in the format, including the content, prescribed by the department. Within 30 days of receipt of data submitted pursuant to this subdivision, the department shall make a summary of the data available to the public upon request. The department shall verify the accuracy of the data when conducting regional center fiscal audits. Data submitted by regional centers pursuant to this subdivision shall:

(1) Only include data on service coordinator positions as defined in subdivision (d). Regional centers shall identify the number of positions that perform service coordinator duties on less than a full-time basis. Staffing ratios reported pursuant to this subdivision shall reflect the appropriate proportionality of these staff to consumers served.

(2) Be reported separately for service coordinators whose caseload includes any of the following:

(A) Consumers who are three years of age and older and who have not moved from the developmental center to the community since April 14, 1993.

(B) Consumers who have moved from a developmental center to the community since April 14, 1993.

(C) Consumers who are younger than three years of age.

(D) Consumers enrolled in the Home and Community-based Services Waiver program.

(3) Not include positions that are vacant for more than 60 days or new positions established within 60 days of the reporting month that are still vacant.

(4) For purposes of calculating caseload ratios for consumers enrolled in the Home- and Community-based Services Waiver program, vacancies shall not be included in the calculations.

(f) The department shall provide technical assistance and require a plan of correction for any regional center that, for two consecutive reporting periods, fails to maintain service coordinator caseload ratios required by this section or otherwise demonstrates an inability to maintain appropriate staffing patterns pursuant to this section. Plans of correction shall be developed following input from the local area board, local organizations representing consumers, family members, regional center employees, including recognized labor organizations, and service providers, and other interested parties.

(g) Contracts between the department and regional center shall require the regional center to have, or contract for, all of the following areas:

(1) Criminal justice expertise to assist the regional center in providing services and support to consumers involved in the criminal justice system as a victim, defendant, inmate, or parolee.

(2) Special education expertise to assist the regional center in providing advocacy and support to families seeking appropriate educational services from a school district.

(3) Family support expertise to assist the regional center in maximizing the effectiveness of support and services provided to families.

(4) Housing expertise to assist the regional center in accessing affordable housing for consumers in independent or supportive living arrangements.

(5) Community integration expertise to assist consumers and families in accessing integrated services and supports and improved opportunities to participate in community life.

(6) Quality assurance expertise, to assist the regional center to provide the necessary coordination and cooperation with the area board in conducting quality-of-life assessments and coordinating the regional center quality assurance efforts.

(7) Each regional center shall employ at least one consumer advocate who is a person with developmental disabilities.

(8) Other staffing arrangements related to the delivery of services that the department determines are necessary to ensure maximum cost-effectiveness and to ensure that the service needs of consumers and families are met.

(h) Any regional center proposing a staffing arrangement that substantially deviates from the requirements of this section shall request a waiver from the department. Prior to granting a waiver, the department shall require a detailed staffing proposal, including, but not limited to, how the proposed staffing arrangement will benefit consumers and families served, and shall demonstrate clear and convincing support for the proposed staffing arrangement from constituencies served and impacted, that include, but are not limited to, consumers, families, providers, advocates, and recognized labor organizations. In addition, the regional center shall submit to the department any written opposition to the proposal from organizations or individuals, including, but not limited to, consumers, families, providers, and advocates, including recognized labor organizations. The department may grant waivers to regional centers that sufficiently demonstrate that the proposed staffing arrangement is in the best interest of consumers and families served, complies with the requirements of this chapter, and does not violate any contractual requirements. A waiver shall be approved by the department for up to 12 months, at which time a regional center may submit a new request pursuant to this subdivision.

(i) The requirements of subdivisions (c), (f), and (h) shall not apply when a regional center is required to develop an expenditure plan pursuant to Section 4791, and when the expenditure plan addresses the

specific impact of the budget reduction on staffing requirements and the expenditure plan is approved by the department.

(j) (1) Any contract between the department and a regional center entered into on and after January 1, 2003, shall require that all employment contracts entered into with regional center staff or contractors be available to the public for review, upon request. For purposes of this subdivision, an employment contract or portion thereof may not be deemed confidential nor unavailable for public review.

(2) Notwithstanding paragraph (1), the social security number of the contracting party may not be disclosed.

(3) The term of the employment contract between the regional center and an employee or contractor shall not exceed the term of the state's contract with the regional center.

SEC. 3. Section 4643 of the Welfare and Institutions Code is amended to read:

4643. (a) If assessment is needed, the assessment shall be performed within 120 days following initial intake. Assessment shall be performed as soon as possible and in no event more than 60 days following initial intake where any delay would expose the client to unnecessary risk to his or her health and safety or to significant further delay in mental or physical development, or the client would be at imminent risk of placement in a more restrictive environment. Assessment may include collection and review of available historical diagnostic data, provision or procurement of necessary tests and evaluations, and summarization of developmental levels and service needs and is conditional upon receipt of the release of information specified in subdivision (b).

(b) In determining if an individual meets the definition of developmental disability contained in subdivision (a) of Section 4512, the regional center may consider evaluations and tests, including, but not limited to, intelligence tests, adaptive functioning tests, neurological and neuropsychological tests, diagnostic tests performed by a physician, psychiatric tests, and other tests or evaluations that have been performed by, and are available from, other sources.

SEC. 4. Section 4648.4 of the Welfare and Institutions Code is amended to read:

4648.4. (a) Notwithstanding any other provision of law or regulation, commencing July 1, 2006, rates for services listed in paragraphs (1), (2), with the exception of travel reimbursement, (3) to (8), inclusive, (10), and (11) of subdivision (b), shall be increased by 3 percent, subject to funds specifically appropriated for this increase in the Budget Act of 2006. The increase shall be applied as a percentage, and the percentage shall be the same for all providers. Any subsequent change shall be governed by subdivision (b).

(b) Notwithstanding any other provision of law or regulation, except for subdivision (a), no regional center may pay any provider of the following services or supports a rate that is greater than the rate that is in effect on or after June 30, 2008, unless the increase is required by a contract between the regional center and the vendor that is in effect on June 30, 2008, or the regional center demonstrates that the approval is necessary to protect the consumer's health or safety and the department has granted prior written authorization:

- (1) Supported living services.
- (2) Transportation, including travel reimbursement.
- (3) Socialization training programs.
- (4) Behavior intervention training.
- (5) Community integration training programs.
- (6) Community activities support services.
- (7) Mobile day programs.
- (8) Creative art programs.
- (9) Supplemental day services program supports.
- (10) Adaptive skills trainers.
- (11) Independent living specialists.

SEC. 5. Section 4681.3 of the Welfare and Institutions Code is amended to read:

4681.3. (a) Notwithstanding any other provision of this article, for the 1996–97 fiscal year, the rate schedule authorized by the department in operation June 30, 1996, shall be increased based upon the amount appropriated in the Budget Act of 1996 for that purpose. The increase shall be applied as a percentage, and the percentage shall be the same for all providers.

(b) Notwithstanding any other provision of this article, for the 1997–98 fiscal year, the rate schedule authorized by the department in operation on June 30, 1997, shall be increased based upon the amount appropriated in the Budget Act of 1997 for that purpose. The increase shall be applied as a percentage, and the percentage shall be the same for all providers.

(c) Notwithstanding any other provision of this article, for the 1998–99 fiscal year, the rate schedule authorized by the department in operation on June 30, 1998, shall be increased commencing July 1, 1998, based upon the amount appropriated in the Budget Act of 1998 for that purpose. The increase shall be applied as a percentage, and the percentage shall be the same for all providers.

(d) Notwithstanding any other provision of this article, for the 1998–99 fiscal year, the rate schedule authorized by the department in operation on December 31, 1998, shall be increased January 1, 1999, based upon the cost-of-living adjustments in the Supplemental Security Income/State Supplementary Program for the Aged, Blind, and Disabled appropriated

in the Budget Act of 1998 for that purpose. The increase shall be applied as a percentage and the percentage shall be the same for all providers.

(e) Notwithstanding any other provision of this article, for the 1999–2000 fiscal year, the rate schedule authorized by the department in operation on June 30, 1999, shall be increased July 1, 1999, based upon the amount appropriated in the Budget Act of 1999 for that purpose. The increase shall be applied as a percentage and the percentage shall be the same for all providers.

(f) In addition, commencing January 1, 2000, any funds available from cost-of-living adjustments in the Supplemental Security Income/State Supplementary Payment (SSI/SSP) for the 1999–2000 fiscal year shall be used to further increase the community care facility rate. The increase shall be applied as a percentage, and the percentage shall be the same for all providers.

(g) Notwithstanding any other provision of law or regulation, for the 2006–07 fiscal year, the rate schedule in effect on June 30, 2006, shall be increased on July 1, 2006, by 3 percent, subject to funds specifically appropriated for this increase in the Budget Act of 2006. The increase shall be applied as a percentage and the percentage shall be the same for all providers. Any subsequent increase shall be governed by Sections 4681.5 and 4681.6.

SEC. 6. Section 4681.5 of the Welfare and Institutions Code is amended to read:

4681.5. Notwithstanding any other provision of law or regulation, no regional center may approve any service level for a residential service provider, as defined in Section 56005 of Title 17 of the California Code of Regulations, if the approval would result in an increase in the rate to be paid to the provider that is greater than the rate that is in effect on June 30, 2008, unless the regional center demonstrates to the department that the approval is necessary to protect the consumer's health or safety and the department has granted prior written authorization.

SEC. 7. Section 4681.6 is added to the Welfare and Institutions Code, to read:

4681.6. Notwithstanding any other provision of law or regulation, commencing July 1, 2008:

(a) No regional center may pay an existing residential service provider, for services where rates are determined through a negotiation between the regional center and the provider, a rate higher than the rate in effect on June 30, 2008, unless the increase is required by a contract between the regional center and the vendor that is in effect on June 30, 2008, or the regional center demonstrates that the approval is necessary to protect the consumer's health or safety and the department has granted prior written authorization.

(b) No regional center may negotiate a rate with a new residential service provider, for services where rates are determined through a negotiation between the regional center and the provider, that is higher than the regional center's median rate for the same service code and unit of service, or the statewide median rate for the same service code and unit of service, whichever is lower. The unit of service designation must conform with an existing regional center designation or, if none exists, a designation used to calculate the statewide median rate for the same service. The regional center shall annually certify to the department its median rate for each negotiated rate service code, by designated unit of service. This certification will be subject to verification through the department's biennial fiscal audit of the regional center.

(c) For purposes of this section, "residential service provider" includes Adult Residential Facilities for Persons with Special Health Care Needs, as described in Section 4684.50.

(d) This section shall not apply to those services for which rates are determined by the State Department of Health Care Services, or the State Department of Developmental Services, or are usual and customary.

SEC. 8. Section 4689.8 is added to the Welfare and Institutions Code, to read:

4689.8. Notwithstanding any other provision of law or regulation, commencing July 1, 2008:

(a) No regional center may pay an existing supported living service provider, for services where rates are determined through a negotiation between the regional center and the provider, a rate higher than the rate in effect on June 30, 2008, unless the increase is required by a contract between the regional center and the vendor that is in effect on June 30, 2008, or the regional center demonstrates that the approval is necessary to protect the consumer's health or safety and the department has granted prior written authorization.

(b) No regional center may negotiate a rate with a new supported living service provider, for services where rates are determined through a negotiation between the regional center and the provider, that is higher than the regional center's median rate for the same service code and unit of service, or the statewide median rate for the same service code and unit of service, whichever is lower. The unit of service designation shall conform with an existing regional center designation or, if none exists, a designation used to calculate the statewide median rate for the same service. The regional center shall annually certify to the State Department of Developmental Services its median rate for each negotiated rate service code, by designated unit of service. This certification shall be subject to verification through the department's biennial fiscal audit of the regional center.

SEC. 9. Section 4691.6 of the Welfare and Institutions Code is amended to read:

4691.6. (a) Notwithstanding any other provision of law or regulation, commencing July 1, 2006, the community-based day program, work activity program, and in-home respite service agency rate schedules authorized by the department and in operation June 30, 2006, shall be increased by 3 percent, subject to funds specifically appropriated for this increase in the Budget Act of 2006. The increase shall be applied as a percentage, and the percentage shall be the same for all providers. Any subsequent increase shall be governed by subdivisions (b), (c), (d), and (e) and Section 4691.9.

(b) Notwithstanding any other provision of law or regulation, the department may not establish any permanent payment rate for a community-based day program or in-home respite service agency provider that has a temporary payment rate in effect on June 30, 2008, if the permanent payment rate would be greater than the temporary payment rate in effect on or after June 30, 2008, unless the regional center demonstrates to the department that the permanent payment rate is necessary to protect the consumers' health or safety.

(c) Notwithstanding any other provision of law or regulation, neither the department nor any regional center may approve any program design modification or revendorization for a community-based day program or in-home respite service agency provider that would result in an increase in the rate to be paid to the vendor from the rate that is in effect on or after June 30, 2008, unless the regional center demonstrates that the program design modification or revendorization is necessary to protect the consumers' health or safety and the department has granted prior written authorization.

(d) Notwithstanding any other provision of law or regulation, the department may not approve an anticipated rate adjustment for a community-based day program or in-home respite service agency provider that would result in an increase in the rate to be paid to the vendor from the rate that is in effect on or after June 30, 2008, unless the regional center demonstrates that the anticipated rate adjustment is necessary to protect the consumers' health or safety.

(e) Notwithstanding any other provision of law or regulation, the department may not approve any rate adjustment for a work activity program that would result in an increase in the rate to be paid to the vendor from the rate that is in effect on or after June 30, 2008, unless the regional center demonstrates that the rate adjustment is necessary to protect the consumers' health and safety and the department has granted prior written authorization.

SEC. 10. Section 4691.9 is added to the Welfare and Institutions Code, to read:

4691.9. Notwithstanding any other provision of law or regulation, commencing July 1, 2008:

(a) No regional center shall pay an existing service provider, for services where rates are determined through a negotiation between the regional center and the provider, a rate higher than the rate in effect on June 30, 2008, unless the increase is required by a contract between the regional center and the vendor that is in effect on June 30, 2008, or the regional center demonstrates that the approval is necessary to protect the consumer's health or safety and the department has granted prior written authorization.

(b) No regional center may negotiate a rate with a new service provider, for services where rates are determined through a negotiation between the regional center and the provider, that is higher than the regional center's median rate for the same service code and unit of service, or the statewide median rate for the same service code and unit of service, whichever is lower. The unit of service designation must conform with an existing regional center designation or, if none exists, a designation used to calculate the statewide median rate for the same service. The regional center shall annually certify to the State Department of Developmental Services its median rate for each negotiated rate service code, by designated unit of service. This certification will be subject to verification through the department's biennial fiscal audit of the regional center.

(c) This section shall not apply to those services for which rates are determined by the State Department of Health Care Services, or the State Department of Developmental Services, or are usual and customary.

SEC. 11. Section 4781.6 of the Welfare and Institutions Code is amended to read:

4781.6. (a) A regional center shall not expend any purchase of service funds for the startup of any new program unless the expenditure is necessary to protect the consumer's health or safety or because of extraordinary circumstances, and the department has granted prior written authorization for the expenditures.

(b) This section does not apply to the purchase of services funds allocated as part of the department's community placement plan process.

SEC. 12. Section 4783 of the Welfare and Institutions Code is amended to read:

4783. (a) (1) The Family Cost Participation Program is hereby created in the State Department of Developmental Services for the purpose of assessing a cost participation to parents, as defined in Section

50215 of Title 17 of the California Code of Regulations, who have a child to whom all of the following applies:

- (A) The child has a developmental disability.
- (B) The child is zero years of age through 17 years of age.
- (C) The child lives in the parents' home.
- (D) The child receives services and supports purchased through the regional center.

(E) The child is not eligible for Medi-Cal.

(2) Notwithstanding any other provision of law, a parent described in subdivision (a) shall participate in the Family Cost Participation Program established pursuant to this section.

(3) Application of this section to children zero through two years of age shall be contingent upon approval by the United States Department of Education.

(b) (1) The department shall develop and establish a Family Cost Participation Schedule that shall be used by regional centers to assess the parents' cost participation. The schedule shall consist of a sliding scale for families with an annual gross income not less than 400 percent of the federal poverty guideline, and be adjusted for the level of annual gross income and the number of persons living in the family home.

(2) The schedule established pursuant to this section shall be exempt from the rulemaking provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) Family cost participation assessments shall only be applied to respite, day care, and camping services that are included in the child's individual program plan or individual family service plan for children zero through two years of age.

(d) If there is more than one minor child living in the parents' home and receiving services or supports paid for by the regional center, or living in a 24-hour out-of-home facility, including a developmental center, the assessed amount shall be adjusted as follows:

(1) A parent that meets the criteria specified in subdivision (b) with two children shall be assessed at 75 percent of the respite, day care, and camping services in each child's individual program plan for each child living at home.

(2) A parent that meets the criteria specified in subdivision (b) with three children shall be assessed at 50 percent of the respite, day care, and camping services included in each child's individual program plan for each child living at home.

(3) A parent that meets the criteria specified in subdivision (b) with four children shall be assessed 25 percent of the respite, day care, and camping services included in each child's individual program plan for each child living at home.

(4) A parent that meets the criteria specified in subdivision (b) with more than four children shall be exempt from participation in the Family Cost Participation Program.

(e) For each child, the amount of cost participation shall be less than the amount of the parental fee that the parent would pay if the child lived in a 24-hour, out-of-home facility.

(f) Commencing January 1, 2005, each regional center shall be responsible for administering the Family Cost Participation Program.

(g) Family cost participation assessments or reassessments shall be conducted as follows:

(1) (A) A regional center shall assess the cost participation for all parents of current consumers who meet the criteria specified in this section. A regional center shall use the most recent individual program plan or individual family service plan for this purpose.

(B) A regional center shall assess the cost participation for parents of newly identified consumers at the time of the initial individual program plan or the individual family service plan.

(C) Reassessments for cost participation shall be conducted as part of the individual program plan or individual family service plan review pursuant to subdivision (b) of Section 4646 or subdivision (f) of Section 95020 of the Government Code.

(D) The parents are responsible for notifying the regional center when a change in family income occurs that would result in a change in the assessed amount of cost participation.

(2) Parents shall self-certify their gross annual income to the regional center by providing copies of W-2 Wage Earners Statements, payroll stubs, a copy of the prior year's state income tax return, or other documents and proof of other income.

(3) A regional center shall notify parents of the parents' assessed cost participation within 10 working days of receipt of the parents' complete income documentation.

(4) Parents who have not provided copies of income documentation pursuant to paragraph (2) shall be assessed the maximum cost participation based on the highest income level adjusted for family size until such time as the appropriate income documentation is provided. Parents who subsequently provide income documentation that results in a reduction in their cost participation shall be reimbursed for the actual cost difference incurred for services identified in the individual program plan for respite, day care, and camping services, for 90 calendar days preceding the reassessment. The actual cost difference is the difference between the maximum cost participation originally assessed and the reassessed amount using the parents' complete income documentation,

that is substantiated with receipts showing that the services have been purchased by the parents.

(5) The executive director of the regional center may grant a cost participation adjustment for parents who incur an unavoidable and uninsured catastrophic loss with direct economic impact on the family or who substantiate, with receipts, significant unreimbursed medical costs associated with care for a child who is a regional center consumer. A redetermination of the cost participation adjustment shall be made at least annually.

(h) A provider of respite, day care, or camping services shall not charge a rate for the parents' share of cost that is higher than the rate paid by the regional center for its share of cost.

(i) The department shall develop, and regional centers shall use, all forms and documents necessary to administer the program established pursuant to this section. The forms and documents shall be posted on the department's Web site. A regional center shall provide appropriate materials to parents at the initial individual program plan meeting and subsequent individual program plan review meetings. These materials shall include a description of the Family Cost Participation Program.

(j) The department shall include an audit of the Family Cost Participation Program during its audit of a regional center.

(k) (1) Parents of children ages three through 17 years of age may appeal an error in the amount of the parents' cost participation to the executive director of the regional center within 30 days of notification of the amount of the assessed cost participation. The parents may appeal to the Director of Developmental Services, or his or her designee, any decision by the executive director made pursuant to this subdivision within 15 days of receipt of the written decision of the executive director.

(2) Parents of children ages three through 17 years of age who dispute the decision of the executive director pursuant to paragraph (5) of subdivision (g) shall have a right to a fair hearing as described in, and the regional center shall provide notice pursuant to, Chapter 7 (commencing with Section 4700). This paragraph shall become inoperative on July 1, 2006.

(3) On and after July 1, 2006, a parent described in paragraph (2) shall have the right to appeal the decision of the executive director to the Director of Developmental Services, or his or her designee, within 15 days of receipt of the written decision of the executive director.

(l) For parents of children ages zero through two years of age, the complaint, mediation, and due process procedures set forth in Sections 52170 to 52174, inclusive, of Title 17 of the California Code of Regulations shall be used to resolve disputes regarding this section.

(m) The department may adopt emergency regulations to implement this section. The adoption, amendment, repeal, or readoption of a regulation authorized by this section is deemed to be necessary for the immediate preservation of the public peace, health and safety, or general welfare, for purposes of Sections 11346.1 and 11349.6 of the Government Code, and the department is hereby exempted from the requirement that it describe specific facts showing the need for immediate action. A certificate of compliance for these implementing regulations shall be filed within 24 months following the adoption of the first emergency regulations filed pursuant to this subdivision.

(n) By April 1, 2005, and annually thereafter, the department shall report to the appropriate fiscal and policy committees of the Legislature on the status of the implementation of the Family Cost Participation Program established under this section. On and after April 1, 2006, the report shall contain all of the following:

(1) The annual total purchase of services savings attributable to the program per regional center.

(2) The annual costs to the department and each regional center to administer the program.

(3) The number of families assessed a cost participation per regional center.

(4) The number of cost participation adjustments granted pursuant to paragraph (5) of subdivision (g) per regional center.

(5) The number of appeals filed pursuant to subdivision (k) and the number of those appeals granted, modified, or denied.

SEC. 13. Section 14041.1 is added to the Welfare and Institutions Code, to read:

14041.1. (a) Notwithstanding any other provision of law, and to the extent not otherwise conflicting with federal law, the department may hold for a period of one month, or direct the medical fiscal intermediary for the Medi-Cal program to hold for a period of one month, payments to providers or their designated agents for health care services that are provided pursuant to this chapter, and payments to entities that contract with the department pursuant to this chapter, Chapter 8 (commencing with Section 14200) and Chapter 8.75 (commencing with Section 14590) for the delivery of health care services.

(b) The authority described in subdivision (a) shall be limited to payments for one month only, and only for a month ending prior to January 1, 2009.

SEC. 14. Section 14105.19 is added to the Welfare and Institutions Code, to read:

14105.19. (a) Notwithstanding any other provision of law, in order to implement changes in the level of funding for health care services, the director shall reduce provider payments as specified in this section.

(b) (1) Except as provided in subdivision (c), payments shall be reduced by 10 percent for Medi-Cal fee-for-service benefits for dates of service on and after July 1, 2008.

(2) Except as provided in subdivision (c), payments shall be reduced by 10 percent for non-Medi-Cal programs described in Article 6 (commencing with Section 124025) of Chapter 3 of Part 2 of Division 106 of the Health and Safety Code, and Section 14105.18, for dates of service on and after July 1, 2008.

(3) For managed health care plans that contract with the department pursuant to this chapter, Chapter 8 (commencing with Section 14200), and Chapter 8.75 (commencing with Section 14590), payments shall be reduced by the actuarial equivalent amount of the payment reduction specified in this subdivision pursuant to contract amendments or change orders effective on July 1, 2008.

(c) The services listed in this subdivision shall be exempt from the payment reductions specified in subdivision (b):

(1) Acute hospital inpatient services, except for payments to hospitals not under contract with the State Department of Health Care Services, as provided in Section 14166.245.

(2) Federally qualified health center services, including those facilities deemed to have federally qualified health center status pursuant to a waiver under subdivision (a) of Section 1315 of Title 42 of the United States Code.

(3) Rural health clinic services.

(4) All of the following facilities:

(A) A skilled nursing facility pursuant to subdivision (c) of Section 1250 of the Health and Safety Code, except a skilled nursing facility that is a distinct part of a general acute care hospital. For purposes of this paragraph, "distinct part" has the same meaning as defined in Section 72041 of Title 22 of the California Code of Regulations.

(B) An intermediate care facility for the developmentally disabled pursuant to subdivision (e), (g), or (h) of Section 1250 of the Health and Safety Code, or a facility providing continuous skilled nursing care to developmentally disabled individuals pursuant to the pilot project established by Section 14495.10.

(C) A subacute care unit, as defined in Section 51215.5 of Title 22 of the California Code of Regulations.

(5) Payments to facilities owned or operated by the State Department of Mental Health or the State Department of Developmental Services.

(6) Hospice.

(7) Contract services as designated by the director pursuant to subdivision (e).

(8) Payments to providers to the extent that the payments are funded by means of a certified public expenditure or an intergovernmental transfer pursuant to Section 433.51 of Title 42 of the Code of Federal Regulations.

(9) Services pursuant to local assistance contracts and interagency agreements to the extent the funding is not included in the funds appropriated to the department in the annual Budget Act.

(10) Payments to Medi-Cal managed care plans pursuant to Section 4474.5 for services to consumers transitioning from Agnews Developmental Center into Alameda, San Mateo, and Santa Clara Counties pursuant to the Plan for the Closure of Agnews Developmental Center.

(11) Breast and cervical cancer treatment provided pursuant to Section 14007.71.

(12) The Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program pursuant to Section 14105.18.

(d) Subject to the exception for services listed in subdivision (c), the payment reductions required by subdivision (b) shall apply to the services rendered by any provider who may be authorized to bill for the service, including, but not limited to, physicians, podiatrists, nurse practitioners, certified nurse midwives, nurse anesthetists, and organized outpatient clinics.

(e) Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the department may implement this section by means of a provider bulletin, or similar instruction, without taking regulatory action.

(f) The reductions described in this section shall apply only to payments for services when the General Fund share of the payment is paid with funds directly appropriated to the department in the annual Budget Act and shall not apply to payments for services paid with funds appropriated to other departments or agencies.

(g) The department shall promptly seek any necessary federal approvals for the implementation of this section.

SEC. 15. Section 14166.245 is added to the Welfare and Institutions Code, to read:

14166.245. (a) The Legislature finds and declares that the state faces a fiscal crisis that requires unprecedented measures to be taken to reduce General Fund expenditures to avoid reducing vital government services necessary for the protection of the health, safety, and welfare of the citizens of the State of California.

(b) Notwithstanding any other provision of law, for acute care hospitals not under contract with the State Department of Health Care Services pursuant to Article 2.6 (commencing with Section 14081) of Chapter 7 of Part 3 of Division 9, the amounts paid as interim payments for inpatient hospital services provided on and after July 1, 2008, shall be reduced by 10 percent.

(c) (1) Notwithstanding any other provision of law, for acute care hospitals not under contract with the State Department of Health Care Services, the reimbursement amount for inpatient services provided to Medi-Cal recipients for dates of service on and after July 1, 2008, shall not exceed the amount determined pursuant to paragraph (3).

(2) For purposes of this subdivision, the reimbursement for inpatient services includes the amounts paid for all categories of inpatient services allowable by Medi-Cal. The reimbursement includes the amounts paid for routine services, together with all related ancillary services.

(3) When calculating a hospital's cost report settlement for a hospital's fiscal period that includes any dates of service on and after July 1, 2008, the settlement for dates of service on and after July 1, 2008, shall be limited to 90 percent of the hospital's audited allowable cost per day for those services multiplied by the number of Medi-Cal covered inpatient days in the hospital's fiscal year on or after July 1, 2008.

(d) Hospitals that participate in the Selective Provider Contracting Program pursuant to Article 2.6 (commencing with Section 14081) and designated public hospitals under Section 14166.1, except Los Angeles County Martin Luther King, Jr./Charles R. Drew Medical Center and Tuolumne General Hospital, shall be exempt from the 10 percent reduction required by this section.

(e) Notwithstanding the rulemaking provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the director may implement subdivision (b) by means of a provider bulletin, or other similar instruction, without taking regulatory action.

(f) The director shall promptly seek all necessary federal approvals in order to implement this section, including necessary amendments to the state plan.

SEC. 16. This act addresses the fiscal emergency declared by the Governor by proclamation on January 10, 2008, pursuant to subdivision (f) of Section 10 of Article IV of the California Constitution.

SEC. 17. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make statutory changes needed to implement cost containment measures affecting health services, at the earliest possible time, it is necessary that this act take effect immediately.

---

CHAPTER 4

An act to amend Sections 11453, 12201, and 15153 of the Welfare and Institutions Code, relating to human services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 16, 2008. Filed with Secretary of State February 16, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 11453 of the Welfare and Institutions Code is amended to read:

11453. (a) Except as provided in subdivision (c), the amounts set forth in Section 11452 and subdivision (a) of Section 11450 shall be adjusted annually by the department to reflect any increases or decreases in the cost of living. These adjustments shall become effective July 1 of each year, unless otherwise specified by the Legislature. For the 2000–01 fiscal year to the 2003–04 fiscal year, inclusive, these adjustments shall become effective October 1 of each year. The cost-of-living adjustment shall be calculated by the Department of Finance based on the changes in the California Necessities Index, which as used in this section means the weighted average changes for food, clothing, fuel, utilities, rent, and transportation for low-income consumers. The computation of annual adjustments in the California Necessities Index shall be made in accordance with the following steps:

(1) The base period expenditure amounts for each expenditure category within the California Necessities Index used to compute the annual grant adjustment are:

Food.....	\$ 3,027
Clothing (apparel and upkeep).....	406
Fuel and other utilities.....	529
Rent, residential.....	4,883
Transportation.....	1,757
	<hr/>
Total.....	\$10,602

(2) Based on the appropriate components of the Consumer Price Index for All Urban Consumers, as published by the United States Department of Labor, Bureau of Labor Statistics, the percentage change shall be determined for the 12-month period ending with the December preceding the year for which the cost-of-living adjustment will take effect, for each expenditure category specified in subdivision (a) within the following geographical areas: Los Angeles-Long Beach-Anaheim, San Francisco-Oakland, San Diego, and, to the extent statistically valid information is available from the Bureau of Labor Statistics, additional geographical areas within the state which include not less than 80 percent of recipients of aid under this chapter.

(3) Calculate a weighted percentage change for each of the expenditure categories specified in subdivision (a) using the applicable weighting factors for each area used by the State Department of Industrial Relations to calculate the California Consumer Price Index (CCPI).

(4) Calculate a category adjustment factor for each expenditure category in subdivision (a) by (1) adding 100 to the applicable weighted percentage change as determined in paragraph (2) and (2) dividing the sum by 100.

(5) Determine the expenditure amounts for the current year by multiplying each expenditure amount determined for the prior year by the applicable category adjustment factor determined in paragraph (4).

(6) Determine the overall adjustment factor by dividing (1) the sum of the expenditure amounts as determined in paragraph (4) for the current year by (2) the sum of the expenditure amounts as determined in subdivision (d) for the prior year.

(b) The overall adjustment factor determined by the preceding computation steps shall be multiplied by the schedules established pursuant to Section 11452 and subdivision (a) of Section 11450 as are in effect during the month of June preceding the fiscal year in which the adjustments are to occur and the product rounded to the nearest dollar. The resultant amounts shall constitute the new schedules which shall be filed with the Secretary of State.

(c) (1) No adjustment to the maximum aid payment set forth in subdivision (a) of Section 11450 shall be made under this section for the purpose of increasing the benefits under this chapter for the 1990-91, 1991-92, 1992-93, 1993-94, 1994-95, 1995-96, 1996-97, and 1997-98 fiscal years, and through October 31, 1998, to reflect any change in the cost of living. For the 1998-99 fiscal year, the cost of living adjustment that would have been provided on July 1, 1998, pursuant to subdivision (a) shall be made on November 1, 1998. No adjustment to the maximum aid payment set forth in subdivision (a) of Section 11450 shall be made under this section for the purpose of increasing the benefits under this

chapter for the 2005–06 and 2006–07 fiscal years to reflect any change in the cost-of-living. Elimination of the cost-of-living adjustment pursuant to this paragraph shall satisfy the requirements of Section 11453.05, and no further reduction shall be made pursuant to that section.

(2) No adjustment to the minimum basic standard of adequate care set forth in Section 11452 shall be made under this section for the purpose of increasing the benefits under this chapter for the 1990–91 and 1991–92 fiscal years to reflect any change in the cost of living.

(3) In any fiscal year commencing with the 2000–01 fiscal year to the 2003–04 fiscal year, inclusive, when there is any increase in tax relief pursuant to the applicable paragraph of subdivision (a) of Section 10754 of the Revenue and Taxation Code, then the increase pursuant to subdivision (a) of this section shall occur. In any fiscal year commencing with the 2000–01 fiscal year to the 2003–04 fiscal year, inclusive, when there is no increase in tax relief pursuant to the applicable paragraph of subdivision (a) of Section 10754 of the Revenue and Taxation Code, then any increase pursuant to subdivision (a) of this section shall be suspended.

(4) Notwithstanding paragraph (3), an adjustment to the maximum aid payments set forth in subdivision (a) of Section 11450 shall be made under this section for the 2002–03 fiscal year, but the adjustment shall become effective June 1, 2003.

(5) No adjustment to the maximum aid payment set forth in subdivision (a) of Section 11450 shall be made under this section for the purpose of increasing benefits under this chapter for the 2007–08 fiscal year.

(d) For the 2004–05 fiscal year, the adjustment to the maximum aid payment set forth in subdivision (a) shall be suspended for three months commencing on the first day of the first month following the effective date of the act adding this subdivision.

(e) For the 2008–09 fiscal year, the adjustment to the maximum aid payment set forth in subdivision (a) shall be effective October 1, 2008. For the 2009–10 fiscal year, the adjustment to the maximum aid payment set forth in subdivision (a) shall take effect on July 1, 2009.

(f) Adjustments for subsequent fiscal years pursuant to this section shall not include any adjustments for any fiscal year in which the cost of living was suspended pursuant to subdivision (c).

SEC. 2. Section 12201 of the Welfare and Institutions Code is amended to read:

12201. (a) Except as provided in subdivision (d), the payment schedules set forth in Section 12200 shall be adjusted annually to reflect any increases or decreases in the cost of living. Except as provided in subdivision (e), these adjustments shall become effective January 1 of

each year. The cost-of-living adjustment shall be based on the changes in the California Necessities Index, which as used in this section shall be the weighted average of changes for food, clothing, fuel, utilities, rent, and transportation for low-income consumers. The computation of annual adjustments in the California Necessities Index shall be made in accordance with the following steps:

(1) The base period expenditure amounts for each expenditure category within the California Necessities Index used to compute the annual grant adjustment are:

Food.....	\$ 3,027
Clothing (apparel and upkeep).....	406
Fuel and other utilities.....	529
Rent, residential.....	4,883
Transportation.....	1,757
	<hr/>
Total.....	\$10,602

(2) Based on the appropriate components of the Consumer Price Index for All Urban Consumers, as published by the United States Department of Labor, Bureau of Labor Statistics, the percentage change shall be determined for the 12-month period which ends 12 months prior to the January in which the cost-of-living adjustment will take effect, for each expenditure category specified in paragraph (1) within the following geographical areas: Los Angeles-Long Beach-Anaheim, San Francisco-Oakland, San Diego, and, to the extent statistically valid information is available from the Bureau of Labor Statistics, additional geographical areas within the state which include not less than 80 percent of recipients of aid under this chapter.

(3) Calculate a weighted percentage change for each of the expenditure categories specified in subdivision (a) using the applicable weighting factors for each area used by the State Department of Industrial Relations to calculate the California Consumer Price Index (CCPI).

(4) Calculate a category adjustment factor for each expenditure category in paragraph (1) by (1) adding 100 to the applicable weighted percentage change as determined in paragraph (2) and (2) dividing the sum by 100.

(5) Determine the expenditure amounts for the current year by multiplying each expenditure amount determined for the prior year by the applicable category adjustment factor determined in paragraph (4).

(6) Determine the overall adjustment factor by dividing (1) the sum of the expenditure amounts as determined in paragraph (4) for the current

year by (2) the sum of the expenditure amounts as determined in paragraph (4) for the prior year.

(b) The overall adjustment factor determined by the preceding computational steps shall be multiplied by the payment schedules established pursuant to Section 12200 as are in effect during the month of December preceding the calendar year in which the adjustments are to occur, and the product rounded to the nearest dollar. The resultant amounts shall constitute the new schedules for the categories given under subdivisions (a), (b), (c), (d), (e), (f), and (g) of Section 12200, and shall be filed with the Secretary of State. The amount as set forth in subdivision (h) of Section 12200 shall be adjusted annually pursuant to this section in the event that the secretary agrees to administer payment under that subdivision. The payment schedule for subdivision (i) of Section 12200 shall be computed as specified, based on the new payment schedules for subdivisions (a), (b), (c), and (d) of Section 12200.

(c) The department shall adjust any amounts of aid under this chapter to insure that the minimum level required by the Social Security Act in order to maintain eligibility for funds under Title XIX of that act is met.

(d) (1) No adjustment shall be made under this section for the 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 2004, 2006 and 2007 calendar years to reflect any change in the cost of living. Elimination of the cost-of-living adjustment pursuant to this paragraph shall satisfy the requirements of Section 12201.05, and no further reduction shall be made pursuant to that section.

(2) Any cost-of-living adjustment granted under this section for any calendar year shall not include adjustments for any calendar year in which the cost of living was suspended pursuant to paragraph (1).

(e) For the 2003 calendar year, the adjustment required by this section shall become effective June 1, 2003.

(f) For the 2005 calendar year, the adjustment required by this section shall become effective April 1, 2005.

(g) (1) For the 2008 calendar year, the annual adjustment required by this section shall be effective October 1, 2008.

(2) Commencing with the 2009 calendar year and in each calendar year thereafter, annual adjustment required by this section shall be effective June 1 of that calendar year.

(3) Notwithstanding paragraph (2), the pass along of federal benefits provided for in Section 12201.05 shall be effective on January 1 of each calendar year.

SEC. 3. Section 15153 of the Welfare and Institutions Code is amended to read:

15153. Notwithstanding the provisions of any other section of this code, the method of computing and advancing funds to counties, both

as to state funds and funds made available by the United States government, shall be as follows:

1. The department, prior to the beginning of each month, shall estimate the amount to be paid for the month to each county under this part.

2. The department shall then certify to the State Controller the amounts so estimated by it for each county, adjusted by any sum by which it finds that its estimate for any prior period was greater or less than the amount which should have been paid.

3. The State Controller shall thereupon draw the necessary warrants, and prior to audit or settlement by the department and the State Controller, the State Treasurer shall pay to the treasurer of each county the amount so certified.

4. Moneys may be advanced by or on behalf of any county to a corporation or association in accordance with the provisions of a contract executed between the county and the corporation or association pursuant to Section 14052 or 14556.

5. The monthly advance of state general funds to counties for benefits or aid grants, administration, and for employment and supportive services, shall be temporarily suspended for the months of July and August 2008. The advance of funds for these two months shall resume on September 1, 2008. In addition to the advance for the month of September, counties shall be paid for the advances that would have been made in July and August 2008 no later than September 30, 2008. Advances for the Supplemental Security Income/State Supplementary Payment Program for the Aged, Blind and Disabled (Chapter 3 (commencing with Section 12000)) and the In-Home Supportive Services program (Article 7 (commencing with Section 12300) of Chapter 3) shall not be affected by this temporary suspension.

SEC. 4. This act addresses the fiscal emergency declared by the Governor by proclamation on January 10, 2008, pursuant to subdivision (f) of Section 10 of Article IV of the California Constitution.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure the fiscal integrity of essential social services programs, at the earliest possible time, it is necessary for this act to take effect immediately.

---

## CHAPTER 5

An act to amend Sections 2104, 2105, 2106, 2107, and 2107.5 of the Streets and Highways Code, relating to transportation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 16, 2008. Filed with  
Secretary of State February 16, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 2104 of the Streets and Highways Code is amended to read:

2104. A sum equal to the net revenue derived from a per gallon tax of 2.035 cents (\$0.02035) under the Motor Vehicle Fuel License Tax Law (Part 2 (commencing with Section 7301) of Division 2), 1.80 cents (\$0.0180) under the Use Fuel Tax Law (Part 3 (commencing with Section 8601) of Division 2), and 1.80 cents (\$0.0180) under the Diesel Fuel Tax Law (Part 31 (commencing with Section 60001) of Division 2) of the Revenue and Taxation Code, shall be apportioned among the counties, as follows:

(a) Each county shall be paid one thousand six hundred sixty-seven dollars (\$1,667) during each calendar month, which amount shall be expended exclusively for engineering costs and administrative expenses with respect to county roads.

(b) A sum equal to the total of all reimbursable snow removal or snow grooming, or both, costs filed pursuant to subdivision (d) of Section 2152, or seven million dollars (\$7,000,000), whichever is less, shall be apportioned in 12 approximately equal monthly apportionments for snow removal or snow grooming, or both, on county roads, as provided in Section 2110.

(c) A sum equal to five hundred thousand dollars (\$500,000) shall be apportioned in 12 approximately equal monthly apportionments, as provided in Section 2110.5.

(d) Seventy-five percent of the funds payable under this section shall be apportioned among the counties monthly in the respective proportions that the number of fee-paid and exempt vehicles which are registered in each county bears to the total number of fee-paid and exempt vehicles registered in the state.

For purposes of apportionment under this subdivision, the Department of Motor Vehicles shall, as soon as possible after the last day of each calendar month, furnish to the Controller a verified statement showing the number of fee-paid and exempt vehicles which are registered in each

county and in the state as of the last day of each calendar month as reflected by the records of the Department of Motor Vehicles.

(e) Of the remaining money payable, there shall be paid to each eligible county an amount that is computed monthly as follows: The number of miles of maintained county roads in each county shall be multiplied by sixty dollars (\$60); from the resultant amount, there shall be deducted the amount received by each county under subdivision (d) and the remainder, if any, shall be paid to each county.

(f) The remaining money payable, after the foregoing apportionments, shall be apportioned among the counties in the same proportion as the money referred to in subdivision (d).

(g) (1) Transfers of revenues from the Highway Users Tax Account to counties pursuant to this section collected during the months of March, April, May, June, and July of 2008, shall be made with the transfer of August 2008 revenues in September of 2008.

(2) For the purpose of meeting the cash obligations associated with ongoing budgeted costs, a county may make use of any cash balance in its county road fund, including that resulting from the receipt of funds pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 (Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2 of the Government Code (hereafter bond act)) for local streets and roads maintenance, during the period of this suspension, without the use of this cash being reflected as an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008. Counties may accrue the revenue received in September 2008 as repayment of these suspensions for the months of April, May, and June of 2008 back to the 2007–08 fiscal year. Nothing in this paragraph shall change the fact that expenditures must be accrued and reflected from the appropriate funding sources for which the moneys were received and meet all the requirements of those funding sources.

SEC. 2. Section 2105 of the Streets and Highways Code is amended to read:

2105. In addition to the apportionments prescribed by Sections 2104, 2106, and 2107, from the revenues derived from a per gallon tax imposed pursuant to Section 7351 of the Revenue and Taxation Code, and a per gallon tax imposed pursuant to Section 8651 of the Revenue and Taxation Code, and a per gallon tax imposed pursuant to Sections 60050 and 60115 of the Revenue and Taxation Code, the following apportionments shall be made:

(a) A sum equal to the net revenue from a tax of 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Section 7351 of the Revenue and Taxation Code, 11.5 percent of any per gallon

tax in excess of nine cents (\$0.09) per gallon under Section 8651 of the Revenue and Taxation Code, and 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Sections 60050 and 60115 of the Revenue and Taxation Code, shall be apportioned among the counties, including a city and county.

The amount of apportionment to each county, including a city and county, during a fiscal year shall be calculated as follows:

(1) One million dollars (\$1,000,000) for apportionment to all counties, including a city and county, in proportion to each county's receipts during the prior fiscal year under Sections 2104 and 2106.

(2) One million dollars (\$1,000,000) for apportionment to all counties, including a city and county, as follows:

(A) Seventy-five percent in the proportion that the number of fee-paid and exempt vehicles which are registered in the county bears to the number of fee-paid and exempt vehicles registered in the state.

(B) Twenty-five percent in the proportion that the number of miles of maintained county roads in the county bears to the miles of maintained county roads in the state.

(3) For each county, determine its factor which is the higher amount calculated pursuant to paragraph (1) or (2) divided by the sum of the higher amounts for all of the counties.

(4) The amount to be apportioned to each county is equal to its factor multiplied by the amount available for apportionment.

(b) A sum equal to the net revenue from a tax of 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Section 7351 of the Revenue and Taxation Code, 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Section 8651 of the Revenue and Taxation Code, and 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Sections 60050 and 60115 of the Revenue and Taxation Code, shall be apportioned to cities, including a city and county, in the proportion that the total population of the city bears to the total population of all the cities in the state.

(c) (1) Transfers of revenues from the Highway Users Tax Account to counties or cities pursuant to this section collected during the months of March, April, May, June, and July of 2008, shall be made with the transfer of August 2008 revenues in September of 2008.

(2) For the purpose of meeting the cash obligations associated with ongoing budgeted costs, a city or county may make use of any cash balance in the city account that is designated for the receipt of state funds allocated for local streets and roads or the county road fund, including that resulting from the receipt of funds pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 (Chapter 12.49 (commencing with Section 8879.20) of Division 1 of

Title 2 of the Government Code (hereafter bond act)) for local streets and roads maintenance, during the period of this suspension, without the use of this cash being reflected as an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008. Counties and cities may accrue the revenue received in September 2008 as repayment of these suspensions for the months of April, May, and June of 2008 back to the 2007–08 fiscal year. Nothing in this paragraph shall change the fact that expenditures must be accrued and reflected from the appropriate funding sources for which the moneys were received and meet all the requirements of those funding sources.

SEC. 3. Section 2106 of the Streets and Highways Code is amended to read:

2106. A sum equal to the net revenue derived from one and four one-hundredths cent (\$0.0104) per gallon tax under the Motor Vehicle Fuel License Tax Law (Part 2 (commencing with Section 7301) of Division 2 of the Revenue and Taxation Code) shall be apportioned monthly from the Highway Users Tax Account in the Transportation Tax Fund among the counties and cities as follows:

(a) Four hundred dollars (\$400) per month shall be apportioned to each city and city and county and eight hundred dollars (\$800) per month shall be apportioned to each county and city and county.

(b) Commencing on July 31, 2007, and on the last day of each month after that date, the sum of six hundred thousand dollars (\$600,000) per month shall be transferred to the Bicycle Transportation Account in the State Transportation Fund.

(c) The balance shall be apportioned, as follows:

(1) A base sum shall be computed for each county by using the same proportions of fee-paid and exempt vehicles as are established for purposes of apportionment of funds under subdivision (d) of Section 2104.

(2) For each county, the percentage of the total assessed valuation of tangible property subject to local tax levies within the county which is represented by the assessed valuation of tangible property outside the incorporated cities of the county shall be applied to its base sum, and the resulting amount shall be apportioned to the county. The assessed valuation of taxable tangible property, for purposes of this computation, shall be that most recently used for countywide tax levies as reported to the Controller by the State Board of Equalization. If an incorporation or annexation is legally completed following the base sum computation, the new city's assessed valuation shall be deducted from the county's assessed valuation, the estimate of which may be provided by the State Board of Equalization.

(3) The difference between the base sum for each county and the amount apportioned to the county shall be apportioned to the cities of that county in the proportion that the population of each city bears to the total population of all the cities in the county. Populations used for determining apportionment of money under Section 2107 are to be used for purposes of this section.

(d) (1) Transfers of revenues from the Highway Users Tax Account to counties or cities pursuant to this section collected during the months of March, April, May, June, and July of 2008, shall be made with the transfer of August 2008 revenues in September of 2008.

(2) For the purpose of meeting the cash obligations associated with ongoing budgeted costs, a city or county may make use of any cash balance in the city account that is designated for the receipt of state funds allocated for local streets and roads or the county road fund, including that resulting from the receipt of funds pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 (Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2 of the Government Code (hereafter bond act)) for local streets and roads maintenance, during the period of this suspension, without the use of this cash being reflected as an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008. Counties and cities may accrue the revenue received in September 2008 as repayment of these suspensions for the months of April, May, and June of 2008 back to the 2007–08 fiscal year. Nothing in this paragraph shall change the fact that expenditures must be accrued and reflected from the appropriate funding sources for which the moneys were received and meet all the requirements of those funding sources.

SEC. 4. Section 2107 of the Streets and Highways Code is amended to read:

2107. A sum equal to the net revenues derived from a per gallon tax of 1.315 cents (\$0.01315) under the Motor Vehicle Fuel License Tax Law (Part 2 (commencing with Section 7301) of Division 2), 2.59 cents (\$0.0259) under the Use Fuel Tax Law (Part 3 (commencing with Section 8601) of Division 2), and 1.80 cents (\$0.0180) under the Diesel Fuel Tax Law (Part 31 (commencing with Section 60001) of Division 2) of the Revenue and Taxation Code, shall be apportioned monthly to the cities and counties of this state from the Highway Users Tax Account in the Transportation Tax Fund as provided in this section.

From that sum, the Controller shall allocate annually to each city that has filed a report containing the information prescribed by subdivision (c) of Section 2152, and that had expenditures in excess of five thousand dollars (\$5,000) during the preceding fiscal year for snow removal, an amount equal to one-half of the amount of its expenditures for snow

removal in excess of five thousand dollars (\$5,000) during that fiscal year.

The balance of that sum from the Highway Users Tax Account shall be allocated to each city, including city and county, in the proportion that the total population of the city bears to the total population of all the cities in this state.

For the purpose of this section, except as otherwise provided in this paragraph, the population in each city is the population determined for that city in the manner specified in Section 11005.3 of the Revenue and Taxation Code. Commencing with the ninth fiscal year of a city described in subdivision (a) of Section 11005.3 of the Revenue and Taxation Code, the sixth fiscal year of a city described in subdivision (b) of Section 11005.3 of the Revenue and Taxation Code, and the 61st month of the city described in subdivision (c) of Section 11005.3 of the Revenue and Taxation Code, the population in each city is the actual population of that city, as defined in subdivision (e) of Section 11005.3 of the Revenue and Taxation Code.

Transfers of revenues from the Highway Users Tax Account to cities pursuant to this section collected during the months of March, April, May, June, and July of 2008, shall be made with the transfer of August 2008 revenues in September of 2008.

For the purpose of meeting the cash obligations associated with ongoing budgeted costs, a city may make use of any cash balance in the city account that is designated for the receipt of state funds allocated for local streets and roads, including that resulting from the receipt of funds pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 (Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2 of the Government Code (hereafter bond act)) for local streets and roads maintenance, during the period of this suspension, without the use of this cash being reflected as an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008. Cities may accrue the revenue received in September 2008 as repayment of these suspensions for the months of April, May, and June of 2008 back to the 2007–08 fiscal year. Nothing in this paragraph shall change the fact that expenditures must be accrued and reflected from the appropriate funding sources for which the moneys were received and meet all the requirements of those funding sources.

SEC. 5. Section 2107.5 of the Streets and Highways Code is amended to read:

2107.5. In addition to the amounts apportioned to cities from the Highway Users Tax Fund under Sections 2106 and 2107, the following amounts shall be allocated annually during the month of July of each

fiscal year for expenditure exclusively for engineering costs and administrative expenses in respect to city streets:

(a) For each city with a population of over 500,000 inhabitants.....	\$20,000
(b) For each city with a population of 100,000 to 500,000 inhabitants.....	10,000
(c) For each city with a population of 50,000 to 99,999 inhabitants.....	7,500
(d) For each city with a population of 25,000 to 49,999 inhabitants.....	6,000
(e) For each city with a population of 20,000 to 24,999 inhabitants.....	5,000
(f) For each city with a population of 15,000 to 19,999 inhabitants.....	4,000
(g) For each city with a population of 10,000 to 14,999 inhabitants.....	3,000
(h) For each city with a population of 5,000 to 9,999 inhabitants.....	2,000
(i) For each city with a population of less than 5,000 inhabitants.....	1,000

For the purpose of this section the population in each city shall be determined in accordance with Sections 2107, 2107.1, and 2107.2 at the time of allocation. Any city incorporated after the first day of July of any year shall receive the full annual allocation prescribed in this section, such allocation to be made during the month succeeding the filing or certification of the incorporation by the Secretary of State.

Any city under subdivision (h) or (i) above may expend the moneys allocated to it hereunder for acquisition of rights-of-way for and construction of its street system.

Transfers of revenues from the Highway Users Tax Account to cities pursuant to this section that are to be allocated during the month of July 2008, shall be made in September of 2008.

For the purpose of meeting the cash obligations associated with ongoing budgeted costs, a city may make use of any cash balance in the city account that is designated for the receipt of state funds allocated for local streets and roads, including that resulting from the receipt of funds pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 (Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2 of the Government Code (hereafter bond act)) for local streets and roads maintenance, during the period of this suspension, without the use of this cash being reflected as

an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008. Nothing in this paragraph shall change the fact that expenditures must be accrued and reflected from the appropriate funding sources for which the moneys were received and meet all the requirements of those funding sources.

SEC. 6. This act addresses the fiscal emergency declared by the Governor by proclamation on January 10, 2008, pursuant to subdivision (f) of Section 10 of Article IV of the California Constitution.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make the necessary statutory changes to Chapter 3 (commencing with Section 2100) of Division 3 of the Streets and Highways Code to achieve cash savings at the earliest possible time, it is necessary that this act take effect immediately.

---

## CHAPTER 6

An act to amend Section 22954 of the Education Code, to amend Sections 17522, 17560, and 17568 of, and to add Section 69614.3 to, the Government Code, relating to state operations, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 16, 2008. Filed with  
Secretary of State February 16, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 22954 of the Education Code is amended to read:

22954. (a) Notwithstanding Section 13340 of the Government Code, a continuous appropriation is hereby annually made from the General Fund to the Controller, pursuant to this section, for transfer to the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund.

(b) The total amount of the appropriation for each year shall be equal to 2.5 percent of the total of the creditable compensation of the fiscal year ending in the immediately preceding calendar year upon which members' contributions are based for purposes of funding the supplemental payments authorized by Section 24415.

(c) Transfers made to the Supplemental Benefit Maintenance Account, pursuant to subdivision (a), for the 2008–09 fiscal year, shall be made on November 1, 2008.

(d) The board may deduct from the annual appropriation made pursuant to this section an amount necessary for the administrative expenses of Section 24415.

(e) It is the intent of the Legislature in enacting this section to establish the supplemental payments pursuant to Section 24415 as vested benefits pursuant to a contractually enforceable promise to make annual contributions from the General Fund to the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund in order to provide a continuous annual source of revenue for the purposes of making the supplemental payments under Section 24415.

SEC. 2. Section 17522 of the Government Code is amended to read:

17522. (a) "Initial reimbursement claim" means a claim filed with the Controller by a local agency or school district for costs to be reimbursed for the fiscal years specified in the first claiming instructions issued by the Controller pursuant to subdivision (b) of Section 17558.

(b) "Annual reimbursement claim" means a claim for actual costs incurred in a prior fiscal year filed with the Controller by a local agency or school district for which appropriations are made to the Controller for this purpose.

(c) "Entitlement claim" means a claim filed by a local agency or school district with the Controller for the purpose of establishing or adjusting a base year entitlement. All entitlement claims are subject to Section 17616.

SEC. 3. Section 17560 of the Government Code is amended to read:

17560. Reimbursement for state-mandated costs may be claimed as follows:

(a) A local agency or school district may, by February 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.

(b) In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of Section 17558 between November 15 and February 15, a local agency or school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

SEC. 4. Section 17568 of the Government Code is amended to read:

17568. If a local agency or school district submits an otherwise valid reimbursement claim to the Controller after the deadline specified in Section 17560, the Controller shall reduce the reimbursement claim in an amount equal to 10 percent of the amount that would have been allowed had the reimbursement claim been timely filed, provided that

the amount of this reduction shall not exceed ten thousand dollars (\$10,000). In no case shall a reimbursement claim be paid that is submitted more than one year after the deadline specified in Section 17560.

SEC. 5. Section 69614.3 is added to the Government Code, to read:

69614.3. Upon appropriation by the Legislature, the 100 additional new judges provided for in Sections 69614 and 69614.2 shall be allocated to the various county superior courts, pursuant to the following appointment schedule:

(a) On or before June 30, 2008, 40 additional judges shall be appointed.

(b) On or after July 1, 2008, 10 additional judges shall be appointed.

(c) On or after June 1, 2009, 50 additional judges shall be appointed.

SEC. 6. This act addresses the fiscal emergency declared by the Governor by proclamation on January 10, 2008, pursuant to subdivision (f) of Section 10 of Article IV of the California Constitution.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the revisions made by this act to the administration of the state's operations to occur as soon as possible, it is necessary that this act take effect immediately.

---

## CHAPTER 7

An act to amend Sections 2104, 2105, and 2106 of the Streets and Highways Code, and to amend Section 15153 of the Welfare and Institutions Code, relating to the support of counties, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 21, 2008. Filed with  
Secretary of State May 21, 2008.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 2104 of the Streets and Highways Code is amended to read:

2104. A sum equal to the net revenue derived from a per gallon tax of 2.035 cents (\$0.02035) under the Motor Vehicle Fuel License Tax Law (Part 2 (commencing with Section 7301) of Division 2), 1.80 cents (\$0.0180) under the Use Fuel Tax Law (Part 3 (commencing with Section

8601) of Division 2), and 1.80 cents (\$0.0180) under the Diesel Fuel Tax Law (Part 31 (commencing with Section 60001) of Division 2) of the Revenue and Taxation Code, shall be apportioned among the counties, as follows:

(a) Each county shall be paid one thousand six hundred sixty-seven dollars (\$1,667) during each calendar month, which amount shall be expended exclusively for engineering costs and administrative expenses with respect to county roads.

(b) A sum equal to the total of all reimbursable snow removal or snow grooming, or both, costs filed pursuant to subdivision (d) of Section 2152, or seven million dollars (\$7,000,000), whichever is less, shall be apportioned in 12 approximately equal monthly apportionments for snow removal or snow grooming, or both, on county roads, as provided in Section 2110.

(c) A sum equal to five hundred thousand dollars (\$500,000) shall be apportioned in 12 approximately equal monthly apportionments, as provided in Section 2110.5.

(d) Seventy-five percent of the funds payable under this section shall be apportioned among the counties monthly in the respective proportions that the number of fee-paid and exempt vehicles which are registered in each county bears to the total number of fee-paid and exempt vehicles registered in the state.

For purposes of apportionment under this subdivision, the Department of Motor Vehicles shall, as soon as possible after the last day of each calendar month, furnish to the Controller a verified statement showing the number of fee-paid and exempt vehicles which are registered in each county and in the state as of the last day of each calendar month as reflected by the records of the Department of Motor Vehicles.

(e) Of the remaining money payable, there shall be paid to each eligible county an amount that is computed monthly as follows: The number of miles of maintained county roads in each county shall be multiplied by sixty dollars (\$60); from the resultant amount, there shall be deducted the amount received by each county under subdivision (d) and the remainder, if any, shall be paid to each county.

(f) The remaining money payable, after the foregoing apportionments, shall be apportioned among the counties in the same proportion as the money referred to in subdivision (d).

(g) (1) Transfers of revenues from the Highway Users Tax Account to counties pursuant to this section collected during the months of March, April, May, June, and July of 2008, shall be made with the transfer of August 2008 revenues in September of 2008. This suspension shall not apply to a county with a population of less than 40,000.

(2) For the purpose of meeting the cash obligations associated with ongoing budgeted costs, a county may make use of any cash balance in its county road fund, including that resulting from the receipt of funds pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 (Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2 of the Government Code (hereafter bond act)) for local streets and roads maintenance, during the period of this suspension, without the use of this cash being reflected as an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008. Counties may accrue the revenue received in September 2008 as repayment of these suspensions for the months of April, May, and June of 2008 back to the 2007–08 fiscal year. Nothing in this paragraph shall change the fact that expenditures must be accrued and reflected from the appropriate funding sources for which the moneys were received and meet all the requirements of those funding sources.

SEC. 2. Section 2105 of the Streets and Highways Code is amended to read:

2105. In addition to the apportionments prescribed by Sections 2104, 2106, and 2107, from the revenues derived from a per gallon tax imposed pursuant to Section 7351 of the Revenue and Taxation Code, and a per gallon tax imposed pursuant to Section 8651 of the Revenue and Taxation Code, and a per gallon tax imposed pursuant to Sections 60050 and 60115 of the Revenue and Taxation Code, the following apportionments shall be made:

(a) A sum equal to the net revenue from a tax of 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Section 7351 of the Revenue and Taxation Code, 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Section 8651 of the Revenue and Taxation Code, and 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Sections 60050 and 60115 of the Revenue and Taxation Code, shall be apportioned among the counties, including a city and county.

The amount of apportionment to each county, including a city and county, during a fiscal year shall be calculated as follows:

(1) One million dollars (\$1,000,000) for apportionment to all counties, including a city and county, in proportion to each county's receipts during the prior fiscal year under Sections 2104 and 2106.

(2) One million dollars (\$1,000,000) for apportionment to all counties, including a city and county, as follows:

(A) Seventy-five percent in the proportion that the number of fee-paid and exempt vehicles which are registered in the county bears to the number of fee-paid and exempt vehicles registered in the state.

(B) Twenty-five percent in the proportion that the number of miles of maintained county roads in the county bears to the miles of maintained county roads in the state.

(3) For each county, determine its factor which is the higher amount calculated pursuant to paragraph (1) or (2) divided by the sum of the higher amounts for all of the counties.

(4) The amount to be apportioned to each county is equal to its factor multiplied by the amount available for apportionment.

(b) A sum equal to the net revenue from a tax of 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Section 7351 of the Revenue and Taxation Code, 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Section 8651 of the Revenue and Taxation Code, and 11.5 percent of any per gallon tax in excess of nine cents (\$0.09) per gallon under Sections 60050 and 60115 of the Revenue and Taxation Code, shall be apportioned to cities, including a city and county, in the proportion that the total population of the city bears to the total population of all the cities in the state.

(c) (1) Transfers of revenues from the Highway Users Tax Account to counties or cities pursuant to this section collected during the months of March, April, May, June, and July of 2008, shall be made with the transfer of August 2008 revenues in September of 2008. This suspension shall not apply to a county with a population of less than 40,000.

(2) For the purpose of meeting the cash obligations associated with ongoing budgeted costs, a city or county may make use of any cash balance in the city account that is designated for the receipt of state funds allocated for local streets and roads or the county road fund, including that resulting from the receipt of funds pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 (Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2 of the Government Code (hereafter bond act)) for local streets and roads maintenance, during the period of this suspension, without the use of this cash being reflected as an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008. Counties and cities may accrue the revenue received in September 2008 as repayment of these suspensions for the months of April, May, and June of 2008 back to the 2007–08 fiscal year. Nothing in this paragraph shall change the fact that expenditures must be accrued and reflected from the appropriate funding sources for which the moneys were received and meet all the requirements of those funding sources.

SEC. 3. Section 2106 of the Streets and Highways Code is amended to read:

2106. A sum equal to the net revenue derived from one and four one-hundredths cent (\$0.0104) per gallon tax under the Motor Vehicle

Fuel License Tax Law (Part 2 (commencing with Section 7301) of Division 2 of the Revenue and Taxation Code) shall be apportioned monthly from the Highway Users Tax Account in the Transportation Tax Fund among the counties and cities as follows:

(a) Four hundred dollars (\$400) per month shall be apportioned to each city and city and county and eight hundred dollars (\$800) per month shall be apportioned to each county and city and county.

(b) Commencing on July 31, 2007, and on the last day of each month after that date, the sum of six hundred thousand dollars (\$600,000) per month shall be transferred to the Bicycle Transportation Account in the State Transportation Fund.

(c) The balance shall be apportioned, as follows:

(1) A base sum shall be computed for each county by using the same proportions of fee-paid and exempt vehicles as are established for purposes of apportionment of funds under subdivision (d) of Section 2104.

(2) For each county, the percentage of the total assessed valuation of tangible property subject to local tax levies within the county which is represented by the assessed valuation of tangible property outside the incorporated cities of the county shall be applied to its base sum, and the resulting amount shall be apportioned to the county. The assessed valuation of taxable tangible property, for purposes of this computation, shall be that most recently used for countywide tax levies as reported to the Controller by the State Board of Equalization. If an incorporation or annexation is legally completed following the base sum computation, the new city's assessed valuation shall be deducted from the county's assessed valuation, the estimate of which may be provided by the State Board of Equalization.

(3) The difference between the base sum for each county and the amount apportioned to the county shall be apportioned to the cities of that county in the proportion that the population of each city bears to the total population of all the cities in the county. Populations used for determining apportionment of money under Section 2107 are to be used for purposes of this section.

(d) (1) Transfers of revenues from the Highway Users Tax Account to counties or cities pursuant to this section collected during the months of March, April, May, June, and July of 2008, shall be made with the transfer of August 2008 revenues in September of 2008. This suspension shall not apply to a county with a population of less than 40,000.

(2) For the purpose of meeting the cash obligations associated with ongoing budgeted costs, a city or county may make use of any cash balance in the city account that is designated for the receipt of state funds allocated for local streets and roads or the county road fund, including

that resulting from the receipt of funds pursuant to the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 (Chapter 12.49 (commencing with Section 8879.20) of Division 1 of Title 2 of the Government Code (hereafter bond act)) for local streets and roads maintenance, during the period of this suspension, without the use of this cash being reflected as an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008. Counties and cities may accrue the revenue received in September 2008 as repayment of these suspensions for the months of April, May, and June of 2008 back to the 2007–08 fiscal year. Nothing in this paragraph shall change the fact that expenditures must be accrued and reflected from the appropriate funding sources for which the moneys were received and meet all the requirements of those funding sources.

SEC. 4. Section 15153 of the Welfare and Institutions Code is amended to read:

15153. Notwithstanding the provisions of any other section of this code, the method of computing and advancing funds to counties, both as to state funds and funds made available by the United States government, shall be as follows:

1. The department, prior to the beginning of each month, shall estimate the amount to be paid for the month to each county under this part.

2. The department shall then certify to the State Controller the amounts so estimated by it for each county, adjusted by any sum by which it finds that its estimate for any prior period was greater or less than the amount which should have been paid.

3. The State Controller shall thereupon draw the necessary warrants, and prior to audit or settlement by the department and the State Controller, the State Treasurer shall pay to the treasurer of each county the amount so certified.

4. Moneys may be advanced by or on behalf of any county to a corporation or association in accordance with the provisions of a contract executed between the county and the corporation or association pursuant to Section 14052 or 14556.

5. The monthly advance of state general funds to counties for benefits or aid grants, administration, and for employment and supportive services, shall be temporarily suspended for the months of July and August 2008. This suspension shall not apply to a county with a population of less than 40,000. The advance of funds for these two months shall resume on September 1, 2008. In addition to the advance for the month of September, counties shall be paid for the advances that would have been made in July and August 2008 no later than September 30, 2008. Advances for the Supplemental Security Income/State Supplementary Payment Program for the Aged, Blind and Disabled (Chapter 3

(commencing with Section 12000)) and the In-Home Supportive Services program (Article 7 (commencing with Section 12300) of Chapter 3) shall not be affected by this temporary suspension.

SEC. 5. This act addresses the fiscal emergency declared by the Governor by proclamation on January 10, 2008, pursuant to subdivision (f) of Section 10 of Article IV of the California Constitution.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure the fiscal integrity of essential transportation and social services programs at the earliest possible time, it is necessary for this act to take effect immediately.

RESOLUTION CHAPTER 1

Senate Concurrent Resolution No. 2—Relative to final adjournment of the 2007–08 Third Extraordinary Session of the Legislature.

[Filed with Secretary of State September 17, 2008.]

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the 2007–08 Third Extraordinary Session of the Legislature shall stand adjourned sine die at midnight on the date that this measure has been adopted by both houses of the Legislature.

## **EXTRAORDINARY SESSION SPECIAL RULES OF EFFECTIVENESS**

Except for a statute calling an election, a statute providing for a tax levy or an appropriation calling for the usual current expenses of the state, and an urgency statute, all of which take effect immediately following enactment, a statute adopted during an extraordinary session takes effect on the 91st day following the adjournment of the special session (see subdivision (c) of Section 8 of Article IV of the California Constitution). The effective date of a concurrent or joint resolution is the date it is filed with the Secretary of State.

The 2007–08 Fourth Extraordinary Session convened on November 6, 2008, and adjourned *sine die* on November 30, 2008. No statutes were enacted at the 2007–08 Fourth Extraordinary Session.

EXECUTIVE DEPARTMENT  
STATE OF CALIFORNIA

A PROCLAMATION

BY THE GOVERNOR OF THE STATE OF CALIFORNIA

**WHEREAS**, an extraordinary occasion has arisen and now exists requiring that the Legislature of the State of California be convened in extraordinary session.

**NOW, THEREFORE, I, ARNOLD SCHWARZENEGGER**, Governor of the State of California, by virtue of the power and authority vested in me by Section 3(b) Article IV of the Constitution of the State of California, do hereby convene the Legislature of the State of California to meet in extraordinary session at Sacramento, California on the 6th day of November 2008, at a time to be determined, for the following purpose and to legislate upon the following subjects:

1. To consider and act upon legislation to address fiscal and budget-related matters.
2. To consider and act upon legislation to address the economy, including but not limited to efforts to stimulate California's economy and create and retain jobs.
3. To consider and act upon legislation to address the housing mortgage crisis.
4. To consider and act upon legislation to address the solvency of the Unemployment Insurance Fund.

**IN WITNESS WHEREOF** I have hereunto set my hand and caused the Great Seal of the State of California to be affixed 6<sup>th</sup> day of November, 2008.

  
ARNOLD SCHWARZENEGGER  
Governor of California

## PREFACE

### Digests

The Summary Digest consists of a short summary of each law enacted, and of each concurrent or joint resolution adopted by the Legislature in 2008.

The text of the Summary Digest is arranged numerically by chapter number.

Superior numbers following the title refer to a Governor's Message affecting that law. These are printed after the digests in the "Digest Chapters Superior Numbers" section.

### Cross Reference Tables

Cross reference tables are arranged numerically by bill or resolution number and indicate the chapter number of each.

### New General Laws

Lists new general laws passed in the years 1999–2008 which do not specifically amend, add to, or repeal any existing code or general law.

### Index

A subject matter index to all measures, including constitutional amendments and resolutions, is included.

### Statutory Record

This edition of the Summary Digest includes a statutory record for 1999–2008. Superior numbers following the *Effect* refer to a special condition affecting that section.

Cumulative statutory records for 10-year periods, 1989–1998, 1979–1988, 1969–1978, 1959–1968 and 1949–1958, and for the 16-year period, 1933–1948, are published in separate volumes, which supplement the original statutory record, 1850–1932, published in 1933.

# EFFECTIVE DATES

## Regular Session

The 2007–08 Regular Session reconvened on January 7, 2008, and adjourned *sine die* on November 30, 2008. Statutes enacted in 2008, other than those taking immediate effect, will become effective January 1, 2009. In absence of other considerations, the provisions of a statute become operative on the date it takes effect. Digests indicate statutes taking immediate effect.

An urgency statute, and a statute calling an election, providing for a tax levy, or making an appropriation for the usual current expenses of the state may take effect immediately. Such a statute becomes *effective* on the date it is filed with the Secretary of State.

However, any statute may, by its own terms, delay the *operation* of its provisions until the happening of some contingency, until a specified time, or until a vote of the electors at a statewide election. Also, a later statute or a general provision in a particular code may delay the operation of a statute to a time after its effective date.

The effective date of a joint or concurrent resolution is the date it is filed with the Secretary of State.

A constitutional amendment proposed by the Legislature and adopted by the people takes effect the day after the election unless the measure provides otherwise.

## Extraordinary Sessions

An urgency statute enacted at a special session of the Legislature takes effect immediately, as outlined above, and the same rules apply with respect to a delayed *operative date*. A nonurgency statute takes effect on the 91st day after adjournment of the special session at which the bill was passed. The effective date of a concurrent resolution is the date it is filed with the Secretary of State.

The 2007–08 First Extraordinary Session reconvened on January 7, 2008, and adjourned *sine die* on September 19, 2008. Statutes enacted at an extraordinary session, other than those taking immediate effect, will become effective on the 91st day after adjournment. The 91st day after adjournment is December 19, 2008.

The 2007–08 Second Extraordinary Session reconvened on January 7, 2008, and adjourned *sine die* on November 30, 2008. Statutes enacted at an extraordinary session, other than those taking immediate effect, will become effective on the 91st day after adjournment. The 91st day after adjournment is March 1, 2009.

## **EFFECTIVE DATES—Continued**

The 2007–08 Third Extraordinary Session convened on January 14, 2008, and adjourned *sine die* on September 16, 2008. Statutes enacted at an extraordinary session, other than those taking immediate effect, will become effective on the 91st day after adjournment. The 91st day after adjournment is December 16, 2008.

The 2007–08 Fourth Extraordinary Session convened on November 6, 2008, and adjourned *sine die* on November 30, 2008. No statutes were enacted at the 2007–08 Fourth Extraordinary Session.

## BILL CHAPTERS

### Ch. 1 (SB 608) Wiggins Judges' retirement.

(1) The Judges' Retirement Law permits a judge, at any time, including after reaching retirement age, to designate a beneficiary to receive the benefits as may be payable to his or her beneficiary by a writing filed with the board.

This bill would provide that the designated beneficiary or beneficiaries of a judge who designated a beneficiary to receive an optional settlement benefit by a writing filed with the board, on or after January 1, 2003, and before January 1, 2007, who dies while in office, is entitled to receive the optional settlement benefit the judge elected, subject to specified limitations.

(2) The Judges' Retirement Law provides certain benefits to the surviving spouse of a judge who dies in office, including, but not limited to, a benefit equal to 37.5% of the monthly salary payable, at the time the payment of the allowance falls due, to the judge holding the judicial office to which the deceased judge was last elected or appointed if the deceased judge is credited with 20 years or more of service.

This bill would permit the surviving spouse of a judge to receive an allowance that is equal to the amount that the judge would have received had the judge been retired from service on the date of his or her death and elected a specified retirement option if the judge died in office on or after January 1, 2005, the judge attained the minimum age for service retirement, the judge had a minimum of 20 years of service, and the judge was eligible to receive an allowance under specified provisions of the Judges' Retirement Law.

### Ch. 2 (SB 692) Ashburn In-home supportive services: criminal background checks.

Existing law provides for the In-Home Supportive Services (IHSS) program, under which qualified aged, blind, and disabled persons receive services enabling them to remain in their own homes. Existing law permits services to be provided under the IHSS program either through the employment of individual providers, a contract between the county and an entity for the provision of services, the creation by the county of a public authority, or a contract between the county and a nonprofit consortium. Under existing law, the functions of a nonprofit consortium contracting with the county to operate the program, or a public authority established for this purpose, include investigating the qualifications and background of potential personnel.

Existing law requires the Department of Justice to secure any criminal record to determine whether a person has been convicted or incarcerated within the last 10 years for a sex offense against a minor or for a violation of other prescribed crimes, including any felony, and to provide a subsequent arrest notification, as provided, if an employer of the person requests the determination and submits fingerprints of the person to the department and the person is unlicensed and provides nonmedical domestic or personal care to an aged or disabled adult in the adult's own home. Existing law defines "employer" for purposes of these provisions to include, but not be limited to, an IHSS recipient and any recipient of personal care services under the Medi-Cal program.

This bill would authorize a nonprofit consortium or public authority to assist an aged or disabled adult who is ineligible for IHSS program services in obtaining a criminal background check conducted by the Department of Justice on a provider, as described. The bill would also revise the definition of employer in the above-described provisions that require the Department of Justice to secure a criminal background check to include an aged or disabled adult, or that individual's authorized representative, who is ineligible to receive IHSS benefits and who receives in-home nonmedical domestic or personal care from a provider, as defined.

The bill would authorize a nonprofit consortium or a public authority to recover costs related to administering these provisions.

Ch. 3 (SB 344) Machado State and local governments: public finance.

Existing law authorizes state and local governments to issue bonds and enter into other types of public financing arrangements for specified purposes. Existing law also authorizes, in a prescribed manner, any state or local government, in connection with, or incidental to, the sale and issuance of bonds, or acquisition, or carrying of any investment or program of investment, to enter any contracts that the state or local government determines to be necessary and appropriate to place the investment in whole or in part, on the interest rate, currency, cashflow, or other basis desired by the state or local government.

This bill would provide that the acquisition of bonds by or on behalf of a state or local government that issued the bonds does not cancel, extinguish, or otherwise affect the bonds, and that the issued bonds shall be treated as outstanding bonds for all purposes, except to the extent otherwise determined by the issuer or as provided in the constituent instruments defining the rights of the holders of the bonds.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 4 (SB 562) Wiggins Public resources: salmon and steelhead: protection: fishery restoration.

(1) The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 (bond act), an initiative bond act that was approved by the voters at the November 7, 2006, statewide general election, among other things, makes \$180,000,000 in bond funds available to the Department of Fish and Game (department) for bay-delta and coastal fishery restoration projects. Of those funds, up to \$45,000,000 are available for appropriation for coastal salmon and steelhead fishery restoration projects that support the development and implementation of species recovery plans and strategies for salmonid species listed as threatened or endangered under state or federal law.

This bill would appropriate \$5,293,000 of the \$45,000,000 available from the bond act to the department for the purposes of coastal salmon and steelhead fishery restoration projects and the Coastal Salmonid Monitoring Plan. The department would be permitted to allocate no more than \$2,520,000 for the purposes of the Coastal Salmonid Monitoring Plan, and with the exception of the Coastal Salmonid Monitoring Plan, the department would be required to follow a specified process in expending the funds.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 5 (AB 1100) Ruskin Portable gasoline containers: safety cans.

Existing law requires the State Fire Marshal to approve and list portable gasoline containers that are designed and constructed according to specified child-resistant standards. Existing law prohibits a person from selling, offering for sale, or possessing for sale, on or after April 1, 2008, a portable gasoline container that has not been listed and approved by the State Fire Marshal, except as specified.

This bill would exempt from the above prohibition a safety can that meets the requirements of specified provisions of federal law and, for a can manufactured after October 31, 2008, that contains prescribed language indicating that it is not childproof.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 6 (AB 963) Adams Golf carts.

Existing law authorizes a city or county to designate a highway or a portion of a highway under its jurisdiction, generally not to exceed one mile in length, that is located adjacent to, or provides access to, a specifically described golf course, for the combined use of regular vehicular traffic and golf carts. Existing law also authorizes a city or county to adopt a golf cart transportation plan, under which separated golf cart lanes are to be developed and constructed in the plan area. The construction of separated golf cart lanes is not, however, required in a residence district, as defined, within a city of less than 50,000 residents if the speed limit in the district is 25 miles per hour or less and if certain other criteria are met.

This bill would also, until January 1, 2016, provide an exemption from the separated golf cart lane requirement for street and highway segments in the City of La Verne that, among other requirements, have a speed limit of 25 miles per hour or less and are immediately adjacent to or surrounded by the campus of a university or a retirement community, if the city council makes specified findings.

The bill would state the findings and declarations of the Legislature concerning the need for special legislation.

#### Ch. 7 (SB 1063) Committee on Local Government Validations.

This bill would enact the Third Validating Act of 2008, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

#### Ch. 8 (AB 1251) Tran California State Lottery: multistate lottery.

The California State Lottery Act of 1984, enacted by initiative, authorizes a California State Lottery and provides for its operation and administration by the California State Lottery Commission and the Director of the California State Lottery, with certain limitations. The act gives a player the right to claim prize money for 180 days after a lottery drawing.

This bill would give a player up to one year to claim prize money for a jackpot or grand prize won in a multistate lottery game.

The California State Lottery Act of 1984 provides that none of its provisions may be changed except to further its purpose by a bill passed by a  $\frac{2}{3}$  vote of each house of the Legislature and signed by the Governor.

This bill would declare that its provisions further the purposes of the act.

#### Ch. 9 (AB 1491) Jones Court facilities.

(1) Existing law requires the Judicial Council, in consultation with the superior court of each county and the county, to enter into agreements concerning the transfer of responsibility for court facilities from that county to the Judicial Council. Existing law requires those agreements to be negotiated between July 1, 2003, and June 30, 2007. Transfer of responsibility may occur not earlier than July 1, 2004, and not later than June 30, 2007.

This bill would require the agreements concerning the transfer of responsibility for court facilities to be executed no later than December 31, 2009, as specified. This bill would also provide that the transfer of responsibility may occur not later than December 31, 2009.

This bill would also state that any transfer agreement that is executed on or after October 1, 2008, and on or before March 31, 2009, shall contain a requirement that the county pay, in addition to a specified county facility payment, a continuing amount from the date of transfer calculated by multiplying the county facilities payment by the percentage change in the National Implicit Price Deflator for State and Local Government Purchases, as published by the Department of Finance, for the fiscal year in which the transfer agreement is executed as compared to the prior fiscal year, except as specified.

This bill would also permit the Administrative Office of the Courts and a county, prior to September 30, 2008, to jointly declare that extraordinary circumstances exist that have prohibited successful execution of a transfer agreement; that all relevant transfer documents have been timely submitted and reviewed by the county; that the failure to execute a transfer agreement prior to September 30, 2008, is not caused by the action, inaction, or delay on the part of the county; and that the agreement can reasonably be executed on or before December 31, 2008. If that declaration is signed, then the application of the above-described multiplier will be tolled through December 31, 2008.

This bill would also prohibit a county from arbitrarily or capriciously requesting a joint declaration without a good faith belief that the conditions for that declaration are met. It would also prohibit the Administrative Office of the Courts from arbitrarily or capriciously declining to sign the joint declaration if the conditions for that declaration are otherwise met.

This bill would also state that any transfer agreement that is executed on or after April 1, 2009, shall contain a requirement that the county pay, in addition to a specified county facility payment, a continuing amount from the date of transfer calculated by multiplying the county facilities payment by the year-to-year percentage change in the annual state appropriations limit as described in Section 3 of Article XIII B of the California Constitution for the year in which the transfer agreement is executed.

(2) Under existing law, the transfer of responsibility for court facilities in each building must be subject to a separate agreement.

This bill would permit agreements for the transfer of responsibility for court facilities from the county to the Judicial Council to include multiple buildings within the county, and would not require a separate agreement for each building.

(3) Existing law requires each county to calculate the county facilities payment for each facility, as specified, and to mail the Judicial Council and local court the actual expenditure figures and adjustments at least 90 days prior to the proposed date of transfer of responsibility for that facility. Existing law requires the county auditor to certify the reported expenditures and indexed calculations.

This bill would provide that alternatively, at the discretion of the board of supervisors, the board shall certify the reported expenditures and indexed calculations.

(4) This bill would also make other related, conforming changes.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 10 (SB 1061) Committee on Local Government Validations.

This bill would enact the First Validating Act of 2008, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 11 (AB 242) Blakeslee Land use: annexation: housing.

The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 authorizes local governments to annex portions of territory to other local governments, as specified.

The Planning and Zoning Law requires local governments to adopt comprehensive general plans that address a number of elements, including the housing element. The Department of Housing and Community Development is required to assist local governments in the allocation of the regional housing needs. Existing law also authorizes a city or county to transfer a percentage of its share of the regional housing needs to another city or county, as specified.

Existing law requires each city, county, and city and county to revise its housing element on specified dates, in accordance with a specified schedule, and not less often than once every 5th year after that revision.

Existing law requires, during the period between adoption of a final regional housing needs allocation until the due date of the housing element update, that the council of governments, or the department, whichever assigned the county's share, reduce the share of regional housing needs of a county if certain conditions are met. If an annexation of unincorporated land to a city occurs after the council of governments, or the department for areas with no council of governments, has made its final allocation under these provisions, the city and county are authorized to reach a mutually acceptable agreement on a revised determination of regional housing needs, to reallocate a portion of the affected county's share of regional housing needs to the annexing city, and report the revision to the council of governments and the department, or to the department for areas with no council of governments.

This bill would revise provisions governing the process for making the transfer of the county's regional housing needs allocation to the city.

Ch. 12 (AB 450) Emmerson State Board of Chiropractic Examiners.

Existing law, the Chiropractic Act, enacted by initiative, provides for the licensing and regulation of chiropractors by the State Board of Chiropractic Examiners. The Budget Act of 2007 appropriated specified amounts from the State Board of Chiropractic Examiners' Fund to the board.

This bill would appropriate \$1,542,000 from the State Board of Chiropractic Examiners' Fund, in augmentation of the appropriation to the board in the Budget Act of 2007, which may be expended if specified conditions are met, and would declare the Legislature's intent that protection of the public is the highest priority of the board. This bill would declare that it is to take effect immediately as a statute providing for the usual current expenses of the state.

Ch. 13 (AB 602) DeVore Parking violations: issuing and processing agencies.

(1) Existing law, governing the enforcement and processing of parking violations and penalties, authorizes an issuing agency to contract with a public entity or private vendor for processing notices of parking violations and notices of delinquent parking violations.

This bill would require the above described contracts to be based on either a fixed monthly rate or the number of notices processed if the contract includes the provision of qualified examiners or administrative hearing providers and would prohibit a contract from including incentives for the processing entity based on the number of notices upheld or denied or the amount of fines collected.

(2) Existing law provides for an administrative hearing process in the enforcement and processing of parking violations and penalties, and requires, if an issuing agency contracts with an administrative provider, that hearings be held within the jurisdiction of the issuing agency or no more than 21 miles outside the county.

This bill would instead require these hearings to be held within the jurisdiction or county of the issuing agency.

(3) Existing law requires the issuing agency or the processing agency to mail the results of the initial administrative review to the person contesting the notice of parking violations or delinquent parking violations and places a similar notification requirement on an administrative examiner following an administrative review hearing.

This bill would require the issuing agency or the processing agency, following an initial review, and a qualified examiner, following the issuance of an examiner's decision, to include in the notice to the person a reason for the denial of a cancellation of a notice of parking violations or delinquent parking violations.

(4) Because this bill would increase the level of service of a city or county processing agency and because a violation of these provisions would be a crime under an existing provision of law, this bill would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 14 (AB 1158) Benoit Witnesses: conditional examinations.

Existing law authorizes the conditional examination of a witness who may be unavailable at trial for a specific reason.

This bill would allow the examination to be conducted through a contemporaneous, 2-way video conference system if the witness is so sick or infirm as to be unable to attend the examination in person, as specified.

Ch. 15 (AB 2215) Berryhill Peace officers: county custodial officers.

Existing law provides that a custodial officer is a public officer, not a peace officer, employed by a law enforcement agency in specified counties or in a county with a population of 425,000 or less, as specified.

Existing law defines various persons as peace officers, including, among others, custodial officers in certain counties.

This bill would include custodial officers, as specified, in the Counties of Calaveras, Lake, Mariposa, and San Benito within the definition of peace officer.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 16 (AB 2574) Emmerson Jails: inmate welfare funds.

Existing law, until January 1, 2013, creates a pilot program that authorizes the sheriff of certain counties to spend money from the inmate welfare fund for the purpose of assisting indigent inmates with the reentry process, as specified.

This bill would add Kern County, San Bernardino County, and Santa Clara County to those counties. This bill would specify that the chief of correction of Santa Clara County has this same authority regarding inmate welfare fund moneys as the sheriffs of the other specified counties.

Ch. 17 (SB 1040) Kehoe Telecommunications: Emergency Telephone Users Surcharge Act.

Existing provisions of the Warren-911-Emergency Assistance Act establish the number "911" as the primary emergency telephone number of use in the state. The existing Emergency Telephone Users Surcharge Act ("911" surcharge act) generally imposes a surcharge on amounts paid by every person in the state for intrastate telephone service that is imposed at a percentage rate, not less than 0.5% nor more than 0.75% as annually estimated to provide revenues sufficient to fund "911" emergency telephone system costs for the current fiscal year. Surcharge amounts are paid to the State Board of Equalization on a monthly basis by the telephone service supplier and are deposited into the State Treasury to the credit of the State Emergency Telephone Number Account in the General Fund, to be expended for limited purposes, including to pay the Department of General Services for its costs in administration of the "911" emergency telephone number system. Existing law defines a "service supplier," for purposes of the "911" surcharge act, as meaning a person supplying intrastate telephone communication services, as defined, pursuant to California intrastate tariffs to any service user, as defined, in the state and includes any person supplying intrastate telephone communications services for whom the Public Utilities Commission has eliminated the requirement for filing an intrastate tariff. Existing law also defines a "service user" as meaning any person using intrastate telephone communication services in this state who is required to pay a surcharge under the act.

This bill would expand the definition of a "service supplier," for purposes of the "911" surcharge act, to include any person supplying Voice over Internet Protocol (VoIP) service to any service user in this state and providing access to the "911" emergency system by utilizing the digits 9-1-1. This bill would also expand the definition of a "service user" to include any person using VoIP service in this state who is required to pay a surcharge under the act. This bill would specify that the "911" surcharge act applies to VoIP service, as defined, commencing on January 1, 2009, but would provide that the surcharge does not apply to customers whose primary place of using the service is outside the state. This bill would also specify that charges not subject to the surcharge may be calculated by a service supplier based upon books and records kept in the regular course of business, and for purposes of calculating the interstate revenue portion not subject to the surcharge, a service supplier may also choose a reasonable and verifiable method, as specified.

This bill would state that it is not the intent of the Legislature to regulate telephone quality communication utilizing VoIP, as defined, but rather its sole purpose is to ensure that all

forms of telephonic quality communication that connect to the “911” emergency system contribute to the State Emergency Telephone Number Account. The bill would also make conforming changes to other provisions of the act to include VoIP service.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 18 (AB 23) Ma Alcoholic Beverage Control Act: cabaret theaters.

Existing law provides that any on-sale beer and wine public premises licensee that has been licensed at premises, operated as a cabaret theater for at least 10 years, with a seating capacity for at least 375 patrons may admit persons under 21 years of age to matinee theater performances on Sundays, provided that alcoholic beverages are not sold, served, or consumed on the premises during those performances.

This bill would allow those licensees operating a cabaret theater to admit persons under 21 years of age to theater performances at any time, provided that alcoholic beverages are not sold, served, or consumed on the premises during those performances.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 19 (AB 813) Portantino Harness racing: first aid and emergency medical services: wager distributions.

Existing law requires every racing association and racing fair to maintain specified equipment and staff for an on-track first aid facility. Existing law requires a qualified and licensed physician to be on duty at all times during live racing, except for any quarter horse racing at the racetrack if certain conditions are met.

This bill would apply the exception to having a qualified and licensed physician on duty at all times during live racing to a quarter horse racing association rather than applying it to any quarter horse racing at the racetrack, and would also except a harness racing association if certain conditions are met.

Existing law requires that the total percentage deducted from wagers at satellite wagering facilities in the northern zone be the same as deductions for wagers at the racetrack where the racing meeting is being conducted and amounts deducted are to be distributed as specified. Existing law provides that, for harness meetings, 0.5% of the total amount handled by satellite wagering shall be distributed to a specified organization for the promotion of the program at satellite wagering facilities and 0.5% of the total amount handled by each satellite wagering facility shall be distributed according to a written agreement for each race meeting between the licensed racing association and the organization representing the horsemen participating in the meeting.

This bill would provide that, with respect to harness meetings, if there are funds unexpended from this 1%, those funds may be expended for other purposes with the consent of the horsemen and the racing association to benefit the horsemen, or the racing association, or both, pursuant to their agreement.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 20 (AB 1856) Jeffries Elsinore Water District.

The California Water District Law prescribes the powers and purposes of California water districts, which are local agencies. That law requires a California water district to hold regular meetings at times and places agreed to by resolution and authorizes those districts to hold special meetings in accordance with the Ralph M. Brown Act. The Ralph M. Brown Act generally requires the legislative body of a local agency to hold its meetings within the boundaries of the territory over which the local agency exercises jurisdiction.

This bill would authorize the Board of Directors of the Elsinore Water District to conduct its meetings at the district office, or at any publicly owned location that is within the boundaries, or not more than one mile outside the boundaries, of the territory over which the district exercises jurisdiction.

This bill would make certain findings and declarations regarding the inapplicability of a general statute within the meaning of Section 16 of Article IV of the California Constitution.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 21 (SB 579) Wiggins County Employees Retirement Law of 1937.

The County Employees Retirement Law of 1937 provides a comprehensive set of rights and benefits for county and district employees who are members of a retirement system subject to that law. Certain members, who come within the definition of a safety member, qualify for greater benefits than other members upon retirement calculated on the basis of years of service. The law authorizes the mandatory retirement of certain safety members, including firefighters, on the basis of age. However, in the County of Los Angeles a safety member may be permitted to continue to serve, or may be reinstated after retiring, if a physician certifies that the member is capable of performing his or her assigned duties, as specified, pursuant to a provision operative upon the adoption of a resolution by the board of supervisors. The law also provides that the resolution adopted by the board of supervisors may designate a date, which may be prior to the date of the resolution or the effective date of these provisions, upon which date the resolution shall be operative in Los Angeles County.

This bill would also provide that the resolution may additionally provide that a firefighter member who retired on the basis of age prior to April 1, 2007, is not eligible to reinstate from retirement, as specified.

Existing law specifically requires the Fire Chief of Los Angeles who was employed as fire chief on May 1, 2005, to retire on April 1, 2009. Existing law prohibits that person and specified other safety members, including other county firefighters, from applying for reinstatement pursuant to the provisions described above.

This bill would repeal those provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 22 (SB 1068) Ducheny Budget Act of 2007: augmentation.

The Budget Act of 2007 appropriated specified amounts from the General Fund for specified programs.

This bill would appropriate \$22,031,000 from the General Fund in augmentation of appropriations in that Budget Act. The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 23 (AB 164) Smyth Immunity: marriage and family therapy schools.

Existing law provides immunity from liability to any person whose communications to a hospital, hospital medical staff, veterinary hospital staff, professional society, or any medical, dental, podiatric, psychology, or veterinary school, among others, are intended to aid in the evaluation of the qualifications, fitness, character, or insurability of a practitioner of the healing or veterinary arts.

This bill would extend that immunity to a person whose communications to a marriage and family therapy school are intended to aid in the evaluation of the qualifications, fitness, character, or insurability of a practitioner of the healing or veterinary arts.

Ch. 24 (AB 1895) Silva Sales and use taxes: administration.

The Sales and Use Tax Law imposes personal liability for unpaid taxes, interest, and penalties on an officer or other person who willfully failed to pay these amounts, upon the termination, dissolution, or abandonment of business of the corporation or other business entity, with the sum due to be collected by deficiency determination and collection in the manner provided under this law.

This bill would specify the time in which a notice of deficiency determination must be mailed pursuant to these provisions, and would make additional technical, nonsubstantive changes.

Ch. 25 (AB 1922) Hernandez Healing arts practitioners: peer review.

Existing law provides various due process rights for specified healing arts licentiates who are the subject of a final proposed disciplinary action of a peer review body. Existing law defines the term “licentiate” for purposes of those provisions as a physician and surgeon, podiatrist, clinical psychologist, or dentist.

This bill would revise that definition to also include a marriage and family therapist and a clinical social worker.

Ch. 26 (AB 2693) Karnette Vehicles: taxicabs.

Existing law requires a magistrate, who is presented with the affidavit of a peace officer establishing reasonable cause to believe that a vehicle, described by vehicle type and license number, is being operated as a taxicab or other passenger vehicle for hire in violation of the licensing requirements adopted by a local authority, to issue a warrant or order authorizing any peace officer to immediately seize and cause the removal of the vehicle.

This bill would also authorize a designated local transportation officer, as defined, to act as a peace officer under these procedures.

Ch. 27 (AB 2906) Tran Vehicles: high-occupancy vehicle lane: buffer area.

(1) Existing law requires specified high-occupancy vehicle lanes to be separated from adjacent mixed-flow lanes by a buffer area of at least 4 feet in width.

This bill would repeal these provisions.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 28 (SB 607) Wiggins Winegrowers.

Existing law defines a winegrower as any person who has the facilities and equipment for the conversion of fruit into wine and is engaged in the production of wine, except for those persons who produce less than 200 gallons of wine per year for their personal consumption.

This bill would expand the definition of a winegrower by removing that exception.

Existing law authorizes a person to manufacture beer for personal or family use without the need for a license or permit. Existing law authorizes the removal of beer, manufactured for personal or family use, from the premises where manufactured for use in competition at organized affairs, exhibitions, or competitions, including homemakers’ contests, tastings, or judgments.

This bill would additionally authorize a person to manufacture wine for personal or family use in an amount not to exceed 100 or 200 gallons per household per calendar year without the need for a license or permit, as provided. This bill would also authorize the removal of wine, manufactured for personal or family use, from the premises where manufactured for use, including use at organized affairs, exhibitions or competitions, such as homemakers’ contests, tastings, or judgments.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 29 (AB 1699) Duvall Insurance: surplus line brokers’ fees.

Existing law requires certain types of licensees to pay in advance to the department, a fee for filing an application for licensure, as specified.

This bill would, in addition, require surplus line brokers transacting only on behalf of a surplus line organization to pay in advance a filing fee of \$250 per year or part of a year, as specified. All other surplus line brokers would be required to pay in advance a filing fee of \$500 per year or part of a year, as specified.

Existing law provides that the filing fee for a license to act as a surplus line broker is \$700 every 2 years, or for any initial fractional license year.

This bill would provide that the filing fee for a license to act as a surplus line broker is \$1,000 every 2 years, or for any initial fractional license year.

This bill would provide that for an individual licensed as a surplus line broker who only transacts on behalf of a surplus line broker organization the filing fee is \$500 every 2 years, or for any initial fractional license year.

This bill would provide that the department is authorized to collect additional license fees resulting from the increases in licensee fees provided by the bill and shall refund or credit any overpayment resulting from reductions in license fees provided by the bill.

Existing law generally requires that surplus line insurance be transacted through a surplus line broker, and requires an individual to be licensed in order to transact surplus line brokerage business.

This bill would repeal the requirement of licensure of individuals.

Existing law provides that surplus line brokers satisfy continuing education requirements, as specified.

This bill would provide that an entity licensed as a surplus line broker provide 2 hours of appropriate training every 5 years to its employees who solicit, negotiate, or effect insurance coverage placed by a nonadmitted insurer. The surplus line advisory organization would develop the curriculum for the training, as specified.

Existing law provides that a surplus line license may be issued to an individual or any legal business entity. If issued to a business entity or individual that maintains more than one surplus line office in this state, it shall name the natural person or persons located at each surplus line office maintained in this state by the licensee who is or are to be responsible for the proper discharge at each office of all duties placed upon the licensee acting as a surplus line broker or who transacts insurance with the public as distinguished from insurance producers. Existing law provides that each of these natural persons must meet all of the requirements for the license.

This bill would instead require that each person who is to be responsible for the proper discharge of licensee duties at each office from which a surplus line broker transacts that business with California residents be licensed as a surplus line broker. This bill would apply that provision to every business entity or individual that maintains more than one such surplus line office.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 30 (AB 1893) Garrick Class size reduction.

(1) Existing law allows a school district that maintains kindergarten or grades 1 to 3, inclusive, to apply to the Superintendent of Public Instruction for an apportionment to implement a K–3 Class Size Reduction Program. The purpose of the program is to ensure that instruction is received in classrooms where there are not more than 20 pupils. The Controller is required to deduct an amount equal to the amount received by the school district for class size reduction from the district's next principal apportionment or apportionments of state funds if the district does not implement its class size reduction program for all grades and classes for which it received funding. School districts located in specified counties affected by the October 2003 fires may claim funding for the 2003–04 school year based on enrollment counts before the fires, as specified.

This bill would allow school districts located in the County of Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, or Ventura to claim funding for a K–3 Class Size Reduction Program for the 2007–08 school year based upon enrollment counts before the October 2007 fires if specified criteria are met. School districts in these counties also would be allowed to claim funding for a class size reduction program if the class size exceeds 20 pupils, or the class is housed with another class, and specified criteria are met. These provisions would remain in effect until July 1, 2009, and would be repealed on January 1, 2010.

(2) Existing law, the Morgan-Hart Class Size Reduction Act of 1989, allows a school district that maintains grade 9, to apply to the Superintendent of Public Instruction for an apportionment to implement a Program to Reduce Class Size in Two Courses in Grade 9.

Existing law requires the Superintendent to make an apportionment to each applicant district if the district certifies an average class size of 20 pupils and no more than 22 pupils in each participating class at each participating school.

This bill would allow school districts located in the County of Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, or Ventura to claim funding for a Program to Reduce Class Size in Two Courses in Grade 9 for the 2007–08 school year based upon enrollment counts before the October 2007 fires if specified criteria are met.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 31 (SB 853) Perata Dentistry: dental assistants and hygienists.

(1) Existing law provides for the licensure and regulation of the practice of dentistry by the Dental Board of California, and authorizes the board to appoint an executive officer. The provisions establishing the board and authorizing the board to appoint an executive officer, are inoperative as of July 1, 2008, and are repealed as of January 1, 2009.

This bill would provide that a new board, vested with the same powers as the previous board, including the authority to appoint an executive officer, shall be created on July 1, 2009. The bill would make that provision inoperative and repeal it as of January 1, 2012.

(2) Existing law, the Dental Practice Act, provides for the licensure and regulation of dental auxiliaries. Under that act, dental auxiliaries are defined as including, among others, dental assistants, registered dental hygienists, registered dental hygienists in extended functions, and registered dental hygienists in alternative practice. The act establishes the Committee on Dental Auxiliaries, which has a specified membership that includes 3 registered dental hygienist members, as specified, and makes it responsible for licensing those who practice as a dental auxiliary and makes the Dental Board of California responsible for all disciplinary actions against a dental auxiliary and for approving all of their continuing education requirements. Under the act, fees collected in connection with the practice of a dental auxiliary are deposited into the State Dental Auxiliary Fund, in the Professions and Vocations Fund. The act provides that specified conduct by a dentist or dental auxiliary constitutes unprofessional conduct.

This bill would abolish the Committee on Dental Auxiliaries and transfer its authority to the board. The bill would establish in the board a full-time management level staff position to manage matters related to dental assisting. The bill would also abolish the State Dental Auxiliary Fund and would create the State Dental Assistant Fund, to which would be transferred funds in the State Dental Auxiliary Fund related to dental assistants for specified use, and in which would be deposited all funds from the regulation of dental assistants. The bill would make funds in the State Dental Assistant Fund subject to appropriation by the Legislature in the annual Budget Act.

The bill would also create, within the jurisdiction of the board, the Dental Hygiene Committee of California, which would have specified memberships and duties. The bill would establish criteria for licensure by the committee of a registered dental hygienist, a registered dental hygienist in alternative practice, or a registered dental hygienist in extended functions. The bill would set forth the committee's functions and duties, including issuing, reviewing, and revoking licenses, developing and administering examinations, determining fees and education programs and continuing education requirements for a registered dental hygienist, a registered dental hygienist in alternative practice, and a registered dental hygienist in extended functions, and adopting regulations.

This bill would create the State Dental Hygiene Fund in the Professions and Vocations Fund and would require that fees paid by dental hygienists, dental hygienists in alternative practice, and dental hygienists in extended functions and certain fines be deposited into the fund. The bill would require a transfer into the fund of a designated amount of moneys related to dental auxiliaries from the State Dental Auxiliary Fund, for specified use. The bill would also require that the funds deposited in the State Dentistry Fund and the State Dental Hygiene Fund be subject to appropriation by the Legislature in the annual Budget Act. The bill would

revise the licensure and examination fee provisions for dental assistants, dental hygienists, dental hygienists in alternative practice, and dental hygienists in extended functions, as specified.

This bill would revise certain provisions related to unprofessional conduct by a dentist. The bill would also specify acts by dental hygienists, dental hygienists in alternative practice, and dental hygienists in extended functions that would constitute unprofessional conduct and specify acts that would constitute crimes. The bill would require the Dental Hygiene Committee of California to establish a diversion program for licensees whose competency may be impaired due to drug or alcohol abuse and to establish diversion evaluation committees, with specified duties in that regard.

The bill would make its provisions operative on July 1, 2009, except as specified.

Because a violation of certain provisions of the bill would be a crime, the bill would create a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 32 (SB 602) Torlakson Physical education.

Existing law authorizes the governing board of a school district or the office of the county superintendent of schools of a county to grant a pupil an exemption from courses in physical education for 2 years any time during grades 10 to 12, inclusive, with the consent of a pupil, if the pupil has met satisfactorily any 5 of the 6 standards of the physical performance test administered in grade 9.

This bill would clarify that a pupil may be granted an exemption from courses in physical education if the pupil has met at least 5 of the 6 standards of the physical performance test.

#### Ch. 33 (SB 797) Ridley-Thomas Professions and vocations.

(1) Existing law provides for the licensure and regulation of various professions and vocations by boards within the Department of Consumer Affairs. Existing law authorizes a board to suspend or revoke a license on certain bases, including the licensee's conviction of a crime that is substantially related to the qualifications, functions, or duties of the business or profession for which the license was issued.

This bill would specify that this authorization to suspend or revoke a license is in addition to any other action that a board is permitted to take against the licensee.

(2) Existing law establishes the Dental Board of California, the Speech-Language Pathology and Audiology Board, the Board of Vocational Nursing and Psychiatric Technicians, and the Board of Barbering and Cosmetology in the Department of Consumer Affairs. Existing law authorizes the Dental Board of California and the Speech-Language Pathology and Audiology Board to appoint executive officers, requires the Board of Vocational Nursing and Psychiatric Technicians to select an executive officer, and requires the Board of Barbering and Cosmetology to appoint an executive officer, as specified. Under existing law, the provisions establishing these boards and their authority to appoint or select executive officers will become inoperative on July 1, 2008, and be repealed on January 1, 2009.

This bill would extend the inoperative and repeal dates for the provisions relating to the boards' appointment of executive officers to January 1, 2012. The bill would delete the requirement that the Board of Vocational Nursing and Psychiatric Technicians and the Board of Barbering and Cosmetology appoint or select executive officers, and would instead authorize those boards to do so. The bill, until January 1, 2009, would provide that, if any of these boards becomes inoperative or is repealed, the Governor shall succeed to the authority of that board to appoint an executive officer and the executive officer of that board shall have the same administrative duties with regard to the bureau replacing the board as it

had with regard to the board, and would authorize the Department of Consumer Affairs to create an advisory committee with specified members to advise and direct the executive officer.

(3) Existing law, the Architects Practice Act, establishes the California Architects Board and provides for its licensure and regulation of architects. Under existing law, the board is authorized to implement an intern development program until July 1, 2009.

This bill would extend the authority of the board to implement this program to July 1, 2011.

(4) Existing law provides for the certification of optometrists to diagnose and treat certain conditions of the human eye or its appendages, and to use therapeutic pharmaceutical agents. It requires the board to decide all issues relating to the equivalency of an optometrist's education or training for certification, as specified.

This bill would delete an obsolete reference to the Therapeutic Pharmaceutical Agent Advisory Committee.

(5) Existing law, the Contractors' State License Law, creates the Contractors' State License Board within the Department of Consumer Affairs and provides for the licensure and regulation of contractors. Existing law makes it a misdemeanor for any person to engage in the business or act in the capacity of a contractor without having a license, and subjects a person who violates this prohibition to specified fines and imprisonment.

This bill would apply specified penalty provisions to a person named on a revoked license and held responsible for the act or omission resulting in the revocation.

(6) Existing law provides for the licensure or registration, and regulation of marriage and family therapists, licensed educational psychologists, and clinical social workers by the Board of Behavioral Sciences. Under existing law, the board may refuse to issue a registration or license, or may suspend or revoke a license or registration, if the applicant, registrant, or licensee has been guilty of unprofessional conduct, as specified. Existing law authorizes the board to file a specified accusation against these licensees or registrants within certain limitations periods for, among other things, an alleged act or omission involving a minor that is the basis for disciplinary action.

This bill would specify that unprofessional conduct includes engaging in specified acts with a minor regardless of whether the act occurred prior to or after the time the registration or license was issued by the board, and would apply this provision to acts that occurred prior to the effective date of the bill. The bill would also specify that, if after the limitations periods have expired, the board discovers a specified alleged act with a minor, and there is independent evidence corroborating the allegation, an accusation shall be filed within 3 years from the date the board discovers that alleged act.

(7) Existing law imposes specified requirements and prohibitions on tax preparers, as defined, and exempts specified persons from these requirements and prohibitions. A violation of those provisions is a misdemeanor. Under existing law, those provisions will become inoperative on July 1, 2008, and will be repealed on January 1, 2009.

This bill would extend the inoperative and repeal dates for these provisions, making the provisions inoperative and repealing them on January 1, 2012. The bill would also expand the category of persons exempted from these provisions and revise the requirements for exemption, including imposing a requirement that specified tax returns are signed by a licensed accountant, attorney, or by a person who is enrolled to practice before the Internal Revenue Service. The bill would also specify that preparation of a tax return includes the inputting of tax data into a computer. Because this bill would impose additional qualifications on the exemption from tax preparer provisions, the violation of which would be a crime, and would extend the operation of existing crimes provisions, it would impose a state-mandated local program.

(8) Existing law authorizes the Court Reporters Board to, among other things, appoint an executive officer and employ other employees as may be necessary. These provisions will become inoperative on July 1, 2008, and be repealed on January 1, 2009.

This bill would extend those dates, making the provisions inoperative and repealing them on January 1, 2012.

(9) Existing law creates the Health Quality Enforcement Section within the Department of Justice with the primary responsibility of investigating and prosecuting proceedings against licensees and applicants within the jurisdiction of the Medical Board of California and various other boards. On and after July 1, 2008, existing law removes the section's responsibility to investigate proceedings against licensees and applicants, and instead requires it to provide ongoing review of the investigative activities conducted in support of those prosecutions, as specified. Existing law also, until July 1, 2008, simultaneously assigns a complaint received by the medical board to an investigator and a deputy attorney general in the Health Quality Enforcement Section, and provides that, for the duration of the assignment, the investigator is under the direction of the deputy attorney general. Existing law also requires the medical board, in consultation with specified agencies, to report and make recommendations to the Governor and the Legislature on this prosecution model by July 1, 2007.

This bill would instead remove the section's responsibility to investigate proceedings against licensees and applicants on July 1, 2010, and would make other related changes. The bill would specify that an investigator is not under the supervision of the deputy attorney general simultaneously assigned to a complaint. The bill would require the medical board to increase its computer capabilities and compatibilities with the Health Quality Enforcement Section and to establish and implement a plan to locate its enforcement staff and the staff of the Health Quality Enforcement Section in the same offices, as specified. The bill would also require the medical board, in consultation with specified agencies, to report and make recommendations to the Governor and the Legislature on this enforcement and prosecution model by July 1, 2009.

(10) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(11) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 34 (AB 66) Dymally Infant botulism treatment and prevention.

Existing law requires the State Department of Public Health to establish an Infant Botulism Treatment and Prevention Unit for the production and distribution of human Botulism Immune Globulin (BIG), to charge a fee for BIG, and to deposit the fees, and any earned interest, into the Infant Botulism Treatment and Prevention Fund. Existing law requires funds deposited in the Infant Botulism Treatment and Prevention Fund to be made available to the department for expenditure for the purposes of the program upon appropriation by the Legislature in the annual Budget Act.

Existing law authorizes the department to manufacture, test, distribute, and maintain licensure of BIG if all necessary federal licenses are obtained. Existing law states that the department was issued a license by the federal Food and Drug Administration on October 23, 2003, and that the product may be labeled with the proprietary name BabyBIG (R).

This bill would appropriate \$1,472,000 from the Infant Botulism Treatment and Prevention Fund for the 2007–08 fiscal year in augmentation of the amount appropriated in the 2007 Budget Act for allocation by the Controller for any purpose that is described in the above provisions, including the purpose of supporting the continued production of BabyBIG (R) for distribution to patients with infant botulism.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 35 (AB 1545) Eng Professions and vocations.

Existing law establishes the Dental Board of California, the Speech-Language Pathology and Audiology Board, the Board of Vocational Nursing and Psychiatric Technicians, and the

Board of Barbering and Cosmetology in the Department of Consumer Affairs. Existing law authorizes the Dental Board of California and the Speech-Language Pathology and Audiology Board to appoint executive officers, requires the Board of Vocational Nursing and Psychiatric Technicians to select an executive officer, and requires the Board of Barbering and Cosmetology to appoint an executive officer, as specified. Under existing law, the provisions establishing these boards and their authority to appoint or select executive officers will become inoperative on July 1, 2008, and be repealed on January 1, 2009.

This bill would establish a new Dental Board of California, Speech-Language Pathology and Audiology Board, Board of Vocational Nursing and Psychiatric Technicians, and Board of Barbering and Cosmetology and would vest each board with the same powers as the previous board of the same name. The bill would require the Board of Vocational Nursing and Psychiatric Technicians, and would authorize the other boards, to appoint an executive officer. The bill would repeal the authority for these boards and their executive officers on January 1, 2012. The bill would authorize the executive officer of a previous board to serve as interim executive officer of a board until the appointment of a permanent executive officer, as specified, and would provide that members of a previous board would serve temporarily as interim board members until the appointment of members to the board.

Ch. 36 (AB 1667) La Malfa County fairs: carnivals.

Existing law regulates carnivals operating at county fairs.

This bill would define “carnival” and “carnival workers” as specified.

Ch. 37 (AB 2597) Leno State claims.

Existing law requires the California Victim Compensation and Government Claims Board to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state allowed by the board.

This bill would appropriate \$618,479.82 from various funds to the California Victim Compensation and Government Claims Board for the payment of specified claims against the state.

This bill would appropriate \$555,508.17 from a specified item in the Budget Act of 2008 to the board to pay Hearn Construction Company of Vacaville, California, for a claim arising from the renovation of the Lincoln Theater in Yountville, California.

This bill would appropriate \$878,000 from the General Fund to the board to pay claims resulting from county special election costs.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 38 (SB 1126) Cedillo Criminal street gangs: nuisances: damages.

Existing law authorizes any prosecuting attorney to maintain an action for money damages for injuries caused by a nuisance created by a criminal street gang, as specified. Under existing law, only assets derived from the criminal activity being abated or enjoined may be collected from the criminal street gang or its members to pay for the money damages award. Under existing law, only persons who knew or should have known of the unlawful acts are personally liable for the payment of damages.

This bill would remove that restriction and allow the collection of any assets of the criminal street gang or any member of the criminal street gang who created, maintained, or contributed to the creation or maintenance of the nuisance to pay for the money damages award, as specified.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 39 (AB 1252) Caballero Housing and Emergency Shelter Trust Fund Act of 2006: Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006.

(1) The Housing and Emergency Shelter Trust Fund Act of 2006 and the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 authorize the issuance

of general obligation bond funds for various purposes relating to housing and transportation infrastructure improvements.

This bill would make legislative findings and declarations regarding the need to expedite the funding of planning, housing, and infill incentive programs to address housing and infrastructure needs, and to expedite funding to improve streets and roads, and to improve traffic congestion, safety, and air quality. The bill would also declare that the combined effects of the infrastructure improvements funded by the bill will be more housing that is closer to jobs; shorter, faster, and safer commutes with improved air quality; and a commensurate reduction in energy usage.

(2) The Housing and Emergency Shelter Trust Fund Act of 2006 authorizes the issuance of bonds in the amount of \$2,850,000,000 pursuant to the State General Obligation Bond Law. Proceeds from the sale of these bonds are required to be used to finance various existing housing programs, capital outlay related to infill development, brownfield cleanup that promotes infill development, and housing-related parks. The act establishes the Housing and Emergency Shelter Trust Fund of 2006 in the State Treasury, requires the sum of \$850,000,000 to be deposited in the Regional Planning, Housing, and Infill Incentive Account, which the act establishes in the fund, and makes the money in the account available, upon appropriation, for infill incentive grants for capital outlay related to infill housing development and other related infill development, and for brownfield cleanup that promotes infill housing development and other related infill development consistent with regional and local plans, subject to the conditions and criteria that the Legislature may provide in statute. The act requires the amount of \$300,000,000 to be deposited in the Transit-Oriented Development Account, which the act establishes in the fund, for transfer to the Transit-Oriented Development Implementation Fund, for expenditure, upon appropriation by the Legislature, pursuant to the Transit-Oriented Development Implementation Program established under the act.

This bill would appropriate the sum of \$100,000,000 to the Department of Housing and Community Development from the Regional Planning, Housing, and Infill Incentive Account, for the purposes of augmenting the Infill Infrastructure Grant Program Notice of Funding Availability issued by the department on February 28, 2008, and for associated support costs.

The bill would also appropriate the sum of \$50,000,000 to the department from the Transit-Oriented Development Account, for the purposes of augmenting the Transit-Oriented Development Grant Program Notice of Funding Availability issued by the department on December 7, 2007, and for associated support costs.

(3) The Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 authorizes the issuance of \$19,925,000,000 in general obligation bonds for various transportation improvements. The act requires the sum of \$250,000,000 to be deposited in the Highway-Railroad Crossing Safety Account and be available to the Department of Transportation, upon appropriation, for the completion of high-priority grade separation and railroad crossing safety improvements. The act requires the sum of \$2,000,000,000 to be deposited in the Local Streets and Road Improvement, Congestion Relief, and Traffic Safety Account of 2006 and, upon appropriation, be allocated to cities and counties for specified local street and road improvements.

This bill would appropriate the sum of \$63,000,000 from the Highway-Railroad Crossing Safety Account for allocation to the department and other eligible applicants consistent with certain guidelines adopted by the California Transportation Commission relating to high-priority grade separation and railroad crossing safety improvement projects.

The bill would appropriate the sum of \$87,000,000 from the Local Streets and Road Improvement, Congestion Relief, and Traffic Safety Account of 2006 for allocation to counties for specified local street and road improvements.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 40 (AB 1892) Smyth Common interest developments: solar energy.

The Davis-Stirling Common Interest Development Act provides for the creation and regulation of common interest developments. Under existing law, the governing documents of a common interest development include the recorded declaration and any other document governing the operation of the common interest development. Existing law provides that any covenant, restriction, or condition contained in any deed, contract, security instrument, or other instrument affecting the transfer or sale of, or any interest in, real property that effectively prohibits or restricts the installation or use of a solar energy system is void and unenforceable, except as specified.

This bill would apply the above provision regarding the unenforceability of prohibitions or restrictions relating to solar energy systems, in addition, to the governing documents of a common interest development.

Ch. 41 (AB 2302) Bass Teacher credentialing: specialist credential: pupils with autism.

(1) Existing law requires the Commission on Teacher Credentialing, by December 1, 2007, to report to the Legislature and the Governor on the current existing process and requirements for obtaining a specialist credential in special education and recommend modifications to enhance and expedite those procedures.

This bill would authorize a local educational agency or school to assign a teacher who holds a level 1 education specialist credential, or a previously issued credential, that authorizes him or her to provide instruction to individuals with mild and moderate disabilities to provide instruction to pupils with autism, as defined, if the teacher consents to the assignment and satisfies certain criteria, as determined by the local educational agency or school. Local educational agencies and schools that assign teachers to provide instruction to pupils with autism pursuant to the bill would be required to report teacher assignments made pursuant to that authority as part of their annual assignment monitoring pursuant to a specified statutory provision. These provisions would become inoperative 2 years after the commission adopts regulations to implement the recommended modifications regarding specialist credentials, or on August 31, 2011, whichever occurs first, and would be repealed on January 1, 2012.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 42 (AB 2688) De La Torre Assigned risk plan: motor vehicle operator reports.

Existing law provides for an assigned risk plan for applicants for automobile bodily injury and property damage liability insurance who are in good faith entitled to but are unable to obtain that insurance through ordinary methods. Existing law requires the insurer to obtain from the Department of Motor Vehicles a report, for the purpose of determining premium adjustments, on the applicant and any other person who may reasonably be expected to operate the applicant's motor vehicle with the permission of the applicant, as specified.

This bill would allow the insurer to obtain the required report from a subscribing loss underwriting exchange carrier, or from the Department of Motor Vehicles.

Ch. 43 (AB 3043) Committee on Public Employees, Retirement and Social Security Public employees.

Existing law requires the Department of Personnel Administration to provide to the Joint Legislative Budget Committee any side letter, appendix, or other addendum to a properly ratified memorandum of understanding that requires the expenditure of \$250,000 or more related to salary and benefits and that is not already contained in the original memorandum of understanding or the Budget Act. Existing law requires the Joint Legislative Budget Committee, within 30 days after receiving the side letter, appendix, or other addendum, to determine if the addendum presents substantial additions that are not reasonably within the

parameters of the original memorandum of understanding and thereby requires legislative action to ratify the addendum.

This bill would approve addenda to memoranda of understanding entered into by the state employer and State Bargaining Units 2, 4, 16, 17, 19, and 20 that require the expenditure of funds. The bill would provide that those provisions shall not take effect unless the funds are specifically appropriated by the Legislature or already exist within available appropriations, and would allow the reopening of negotiations if the Legislature does not approve or fully fund any addendum.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 44 (SB 1159) Cox Alcoholic beverages: possession: Truckee River.

(1) Existing law establishes the Alcoholic Beverage Control Act to regulate the possession, sale, and consumption of alcohol. Existing law makes it a crime to violate any provision of the Alcoholic Beverage Control Act.

This bill would prohibit specified persons on certain portions of the Truckee River from possessing a container, as defined, with an alcoholic beverage during the summer holiday periods that the Placer County Board of Supervisors prohibits the consumption of an alcoholic beverage or possession of an open alcoholic beverage container on the land portions along those portions of the river. The bill would require Placer County to provide notice on the land portions along the Truckee River that this conduct is punishable as an infraction.

Because this bill would create a new crime and require Placer County to provide notice on the land portions along the river that this conduct is punishable as an infraction, this bill would impose a state-mandated local program.

This bill would make legislative findings and declarations as to the necessity of a special statute.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 45 (SB 1196) Runner Local government: coroners.

(1) Existing law requires the coroner to inquire into, and determine the circumstances, manner, and cause of, among others, all deaths where the deceased has not been attended by a physician in the 20 days before death.

This bill would instead require the coroner to inquire into, and determine the circumstances, manner, and cause of, among others, all deaths where the deceased has not been attended by either a physician or a registered nurse who is a member of a hospice care interdisciplinary team in the 20 days before death.

(2) Existing law requires the coroner to perform, or cause to be performed, an autopsy on a decedent if the surviving spouse, or other specified person if no surviving spouse exists, requests the coroner to do so.

This bill would require the coroner to perform an autopsy on a decedent for which an autopsy has not already been performed, if requested by the surviving spouse, or other specified person if no surviving spouse exists. The bill would authorize the coroner to perform an autopsy on a decedent for which an autopsy has already been performed, if requested by the surviving spouse, or other specified person if no surviving spouse exists.

Ch. 46 (SB 1206) Calderon Pest control.

Existing law provides for the regulation of registered structural pest control companies by the Structural Pest Control Board. Existing law authorizes a registered company with a branch registration that restricts the method of eradication or control permitted to enter into a contract for the eradication or control of pests within the scope of its branch registration if it subcontracts the actual performance of the work to a company holding the branch registration authorizing the particular method to be used. Existing law prohibits a registered company from subcontracting structural fumigation work without the written consent of the consumer, as specified. Existing law also prohibits a registered company from advertising, or holding out to the public or to any person, that it is authorized, qualified, or registered to perform pest control work in any branch, or by any method, for which it is not registered.

This bill would instead authorize a Branch 2 or Branch 3 registered company to advertise fumigation or any all encompassing treatment, as specified, if the company complies with specified requirements.

Ch. 47 (SB 612) Simitian Crime.

Existing law provides that the jurisdiction of a criminal action for unauthorized use of personal identifying information includes the county in which the theft of the information occurred and the county in which the information was used for an illegal purpose.

This bill would expand these jurisdiction provisions to include the crimes of unauthorized retention and transfer of personal identifying information, as defined. This bill would also add the county in which the victim resided at the time the offense was committed to the jurisdictions in which a criminal action may be brought for commission of these crimes.

Ch. 48 (SB 1343) Battin Witness testimony: support persons: elder abuse.

Existing law authorizes a prosecuting witness in specified cases to have up to 2 persons of his or her own choosing for support at the preliminary hearing and at trial, or at a juvenile court proceeding, during the testimony of the prosecuting witness, as specified.

This bill would add specified crimes against elder or dependent adults when the prosecuting witness is the elder or dependent adult to the offenses for which a prosecuting witness may have up to 2 support persons while testifying.

Existing law requires that, if a person chosen by a prosecuting witness for support is also a prosecuting witness, the prosecution must present specified evidence if the court is to permit the person to serve as support, and provides standards for the court in this regard. It also requires the support witness to present testimony before the supported witness presents testimony.

This bill would require these procedures be applied for any witness chosen as a support person, not only for a prosecuting witness so chosen.

Ch. 49 (SB 1356) Yee Contempt: victim of domestic violence.

Existing law generally empowers a court to punish for acts of contempt, including authorizing a court to direct the incarceration of a defendant until he or she complies with the court's order. Existing law provides exceptions to this general rule by providing that (1) a court may not imprison a victim of sexual assault for contempt when the contempt consists of refusing to testify concerning that sexual assault; and (2) in a finding of contempt for a victim of domestic violence who refuses to testify, the court shall not incarcerate the victim, but may require the victim to attend a domestic violence program for victims or perform appropriate community service, provided that in a subsequent finding of contempt for refusing to testify arising out of the same case, the court shall have the option of incarceration.

This bill would revise the above provisions to provide, instead, that in a finding of contempt for a victim of a sexual assault or domestic violence crime for refusing to testify concerning that sexual assault or domestic violence crime, the court may not imprison the victim of the sexual assault or domestic violence crime.

Ch. 50 (AB 1679) Evans Paternity actions: records.

The Uniform Parentage Act governs the determination of parent and child relationships in this state, including a judgment of paternity. Existing law requires that, in a trial or hearing held pursuant to provisions governing paternity, papers and records, other than the final judgment, pertaining to the action or proceeding, whether part of the permanent record of the court or of a file in a public agency or elsewhere, are subject to inspection only in exceptional cases upon an order of the court for good cause shown. However, papers and records pertaining to the action or proceeding that are part of the permanent record of the court are subject to inspection by the parties to the action and their attorneys.

This bill would additionally authorize an agent acting pursuant to written authorization from the parties to the action or their attorneys to inspect those records, as specified.

Ch. 51 (AB 1824) Beall Regional centers: employee liability.

Existing law, the Lanterman Developmental Disabilities Services Act, requires the State Department of Developmental Services to allocate funds to private nonprofit regional centers for the provision of community services and support for persons with developmental disabilities and their families.

Existing law, operative until January 1, 2009, limits the liability of a regional center employee for civil damages on account of an injury or death resulting from the employee's discretionary act or omission.

This bill would delete the repeal date of this provision, thereby extending its operation indefinitely.

Ch. 52 (AB 2014) Tran Conservators and guardians: property in foreign jurisdictions.

Existing law requires that a guardian or conservator, or limited conservator to the extent specifically and expressly provided in a court's order, use ordinary care and diligence in the management and control of the estate of the ward or conservatee. Existing law specifies the powers and duties of a guardian or conservator in this regard. Existing law requires that a guardian or conservator at the expiration of one year from the time of appointment and thereafter not less frequently than biennially, unless otherwise ordered, present an accounting of the assets of the estate of the ward or conservatee. Existing law limits the authority of a guardian or conservator to the jurisdiction of the government under which that person was invested with authority, except as specified.

This bill, in reference to the powers and duties of a guardian or conservator of the estate and in reference to the inventory and accounts of the guardianship or conservatorship estate, would define estate to mean all of the ward's or conservatee's personal property, wherever located, and real property located in this state. The bill would also require a guardian or conservator to use ordinary care and diligence to determine whether the ward or conservatee owns property in a foreign jurisdiction and to preserve and protect that property. The bill would require a guardian or conservator who has knowledge of any real property of a conservatee or ward in a foreign jurisdiction to include in an accounting a schedule that identifies the real property, provides a good faith estimate of the fair market value of the real property, and states what action, if any, will or has been taken to preserve and protect the real property, including a recommendation whether an ancillary proceeding is necessary to preserve and protect the real property.

Ch. 53 (AB 2248) Spitzer Wills: requirements.

Existing law requires, except as specified, that a will be in writing and be signed by the testator, or by another person in the testator's presence in the testator's name and at the testator's direction, or by a conservator pursuant to a court order to make a will. Existing law also requires that a will be witnessed by being signed by at least 2 persons, each of whom being present at the same time witnessed either the signing of the will or the testator's

acknowledgment of the signature or of the will and understand that the instrument they sign is the testator's will.

This bill would require the witnesses to the will to sign the will during the testator's lifetime. The bill would also require that a will that fails to meet the above-described requirements to be treated as if it has met those requirements if the proponent of the will establishes by clear and convincing evidence that the testator, at the time the testator signed the will, intended the will to constitute his or her will.

Ch. 54 (AB 2960) La Malfa Custody orders: evidence of sexual abuse.

Existing law provides that a court shall refrain from making an order granting or modifying a custody order on an ex parte basis, unless there has been a showing of immediate risk that the child will be removed from the State of California, or a showing of immediate harm to the child. "Immediate harm to the child" is defined to include having a parent who has committed acts of domestic violence, as specified.

This bill would include sexual abuse of the child, where the court determines that the acts of sexual abuse are of recent origin or are a part of a demonstrated and continuing pattern of acts of sexual abuse, within the definition of "immediate harm to the child," a showing of which authorizes a court to make an order granting or modifying a custody order on an ex parte basis.

Ch. 55 (AB 3060) Committee on Labor and Employment Contractors: license enforcement.

Under existing law, a person without a valid state contractor's license who employs a worker to perform services for which such a license is required is subject to a specified civil penalty. Civil penalties collected pursuant to these provisions must be deposited in the Industrial Relations Construction Industry Enforcement Fund to be used, upon appropriation by the Legislature, for the purpose of enforcing these provisions relating to prohibited employment by unlicensed contractors, as well as an obsolete provision relating to mandatory itemized wage statements for employees paid in cash. The obsolete provision has long been subsumed into other provisions relating to wage statements.

This bill would delete the reference to the obsolete provision, thereby restricting the use of the moneys in the fund to the enforcement of the laws relating to prohibited employment by unlicensed contractors.

Ch. 56 (SB 1182) Ackerman Trial courts: restructuring.

Existing law provides for the restructuring of the trial court system, including the abolition of municipal courts, the unification of those courts with superior courts, and state funding of trial courts.

This bill would delete provisions that have become obsolete as a result of that trial court restructuring.

Ch. 57 (SB 1255) Harman Child custody.

Existing law, until January 1, 2009, authorizes a court to require any person who is seeking custody of, or visitation with, a child who is the subject of a custody, visitation, or guardianship proceeding, to undergo testing for the illegal use of controlled substances and the use of alcohol under certain circumstances.

This bill would extend the effective date of these provisions until January 1, 2013.

Ch. 58 (SB 1333) Ashburn Paternity judgment: reconsideration.

Existing law provides that a judgment establishing paternity may be set aside or vacated upon a timely filed motion by, among others, any previously established father of a child who is the legal father as the result of a default judgment, as specified, if genetic testing indicates that the previously established father of the child is not the biological father.

This bill would authorize the reconsideration of the denial of a motion filed under the above provision if specified requirements are met.

Ch. 59 (SB 242) Torlakson Claims against the state.

Existing law requires the California Victim Compensation and Government Claims Board to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state allowed by the board.

This bill would appropriate \$793,730.76 from the General Fund to the Department of Justice for payment of specified claims against the state and would require that appropriated funds in excess of the amount required to pay these claims revert to the General Fund on June 30, 2008.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 60 (SB 1236) Padilla Fines and forfeitures.

Existing law, until January 1, 2009, authorizes a county board of supervisors to elect to levy an additional penalty in the amount of \$2 for every \$10, upon fines, penalties, and forfeitures collected for criminal offenses, as specified.

Existing law, until January 1, 2009, requires 15% of the funds collected pursuant to that additional penalty to be expended for pediatric trauma centers.

This bill would extend the repeal date of these provisions until January 1, 2014.

Ch. 61 (SB 1304) Simitian Child care: County of San Mateo child care subsidy plan.

Existing law, until January 1, 2009, authorizes the County of San Mateo to develop and implement an individualized county child care subsidy plan to ensure that child care subsidies received by the county are used to address local needs, conditions, and priorities. Existing law requires the County of San Mateo to phase out the plan between January 1, 2009, and January 1, 2011.

This bill would extend those provisions for 5 years, and would therefore authorize the County of San Mateo to develop and implement the plan until January 1, 2014, and to phase out the plan between January 1, 2014, and January 1, 2016.

Ch. 62 (SB 1696) Yee California Public Records Act: disclosure.

Existing law, the California Public Records Act, requires each state and local agency to make its records available for public inspection during office hours and, upon request of any person, to make copies available upon payment of fees, unless the records are exempt by law from disclosure.

This bill would provide that a state or local agency may not allow another party to control the disclosure of information that is otherwise subject to disclosure under the act. This bill would state that this provision is declaratory of existing law.

This bill would also provide that any contract entered into by a state or local agency subject to the act, including the University of California, that requires a private entity to review, audit, or report on any aspect of that agency shall be public and to the extent the contract is subject to the act, shall be disclosed pursuant to its provisions, notwithstanding any contrary term in the contract.

Ch. 63 (SB 1732) Romero Local agencies.

(1) The Ralph M. Brown Act requires that all meetings of a legislative body of a local agency be open and public and all persons be permitted to attend unless a closed session is authorized. The act prohibits any use of direct communication, personal intermediaries, or technological devices that is employed by a majority of the members of the legislative body to develop a collective concurrence as to action to be taken on an item, with an exception for an authorized teleconference. An appellate court in *Wolfe v. City of Fremont* (2006) 144

Cal.App.4th 533 held that a violation of this prohibition occurs only if a series of meetings by members of a body results in a collective concurrence.

This bill would instead prohibit a majority of members of a legislative body of a local agency from using, outside a meeting authorized by the act, a series of communications of any kind, directly or through intermediaries, to discuss, deliberate, or take action on any item of business that is within the subject matter jurisdiction of the legislative body. It also would state the Legislature's declaration that it disapproves the holding of the court in the case named above to the extent it construes the prohibition on serial meetings and would state its intention that the changes made by this bill supersede that holding. It would also provide that the changes made by this bill shall not be construed as preventing an employee or official of a local agency, from engaging in separate conversations or communications, outside of a meeting authorized by the Ralph M. Brown Act, with members of a legislative body in order to answer questions or provide information regarding a matter that is within the subject matter jurisdiction of the local agency, if that person does not communicate to members of the legislative body the comments or position of any other member or members of the body.

(2) The California Public Records Act requires state and local agencies to make their records available for public inspection and to make copies available upon request and payment of a fee unless they are exempt from disclosure. The Ralph M. Brown Act provides that, notwithstanding any other provision of law, agendas of public meetings and any other writings, when distributed to all, or a majority of all, of the members of a legislative body of a local agency by any person in connection with a matter subject to discussion or consideration at a public meeting of the body, are disclosable public records under the California Public Records Act unless exempt from disclosure under that act. The Ralph M. Brown Act requires that these writings be made available for public inspection at the meeting if prepared by the local agency or a member of its legislative body, or after the meeting if prepared by some other person.

This bill would provide that, notwithstanding any other provision of law, when the members of a legislative body of a local agency are authorized to access a writing of the body or of the agency as permitted by law in the administration of their duties, the local agency shall not discriminate between or among any of those members as to which writing or portion thereof is made available or when it is made available.

Ch. 64 (AB 1263) Caballero Local agency formation commissions: statement.

(1) Existing law authorizes a Local Agency Formation Commission to initiate, conduct, and complete proceedings for annexations, except for territories that, after January 1, 2000, became surrounded or substantially surrounded by the city to which annexation is proposed.

This bill would provide that this exception does not apply to islands created after January 1, 2000, as a result of boundary adjustments between 2 counties.

The bill would also specifically authorize a commission to initiate proposals to form a new district.

(2) Existing law authorizes the commission to establish a schedule of fees for the costs of proceedings for filing and processing applications filed with the commission, proceedings undertaken by the commission and any reorganization committee, amending a sphere of influence, and reconsidering a resolution to make determinations.

This bill would also authorize the commission to establish a schedule of service charges to not exceed the cost of providing the service. The commission would be authorized to require an applicant to deposit, as specified, some or all of the required amount that will be owed as part of the application. The reduction or waiver of a fee, service charge, or deposit would be limited to the costs incurred by the commission in the processing of an application. Any mandatory time limits for commission action may be deferred until the applicant pays the required fee, service charge, or deposit.

Ch. 65 (AB 2148) Jeffries Firefighters.

(1) Existing law permits fire companies in unincorporated towns to be organized by recording with the county recorder a certificate signed by the foreman or presiding officer and by the secretary.

This bill would instead permit fire companies in unincorporated towns to be organized by filing a certificate signed by the foreman or presiding officer and by the secretary, with the Fire and Rescue Operational Area Coordinator in the same county, or other county agency as designated by ordinance of the county board of supervisors.

The bill would also permit fire companies in incorporated cities to be organized, subject to any local ordinance, as specified, by filing a certificate signed by the foreman or presiding officer and by the secretary, with the city council or other agency as designated by ordinance of the city council and with the Fire and Rescue Operational Area Coordinator in the same county as the city.

(2) Existing law requires the certificate of organization of a fire company in an unincorporated town to include, among other things, the roll of active and honorary members.

This bill would instead require the certificate to include the roll of active volunteer firefighters and those volunteer firefighters on leave.

(3) Existing law requires the certificate to be renewed and re-recorded every 6 months.

This bill would instead require the certificate to be filed by February 1 of each year. The bill would also authorize the board of supervisors to, by ordinance, require an updated or 2nd filing each year.

(4) Existing law requires every fire company to choose or elect a foreman, who is the presiding officer.

This bill would instead require every fire company to choose or elect a foreman or president, who would be the presiding officer.

(5) Existing law requires the chief of every fire company to inquire into the cause of and keep a record of every fire occurring in the town.

This bill would specify that either the chief or ranking officer of every fire company shall perform that duty.

(6) Existing law entitles the officers and members of unpaid fire companies regularly organized, and exempt firemen, to privileges and exemptions, including exemption from payment of poll tax, road tax, and head tax of every description, and exemption from military duty, except in case of war, invasion, or insurrection.

This bill would instead provide active volunteer firefighters of volunteer fire companies or departments regularly organized and recognized by the Fire and Rescue Operational Area Coordinator or the county board of supervisors are exempt from military duty, except in case of war, invasion, or insurrection. The bill would also provide that the burden of providing proof of eligibility for those exemptions shall be the responsibility of the volunteer firefighter with the reasonable cooperation of his or her department.

This bill would also authorize the city council of an incorporated city to, by ordinance, regulate the formation and continued existence of fire companies providing services within its city.

This bill would also require that fire company vehicles granted exempt California vehicle registration or displaying exempt California license plates be properly insured, marked, and identified as a fire company vehicle. The bill would prohibit the fire company from allowing those vehicles to be loaned, rented, or used for personal pleasure or by for-profit businesses for private economic gain of a business or contractor. The bill would state that this limitation is not intended to prohibit or hinder the fire company's legitimate use of fire company vehicles for emergency services, including contract arrangements or agreements to provide temporary emergency services or standby services to organizations or governmental agencies requesting those services.

(7) Existing law declares that every firefighter who has served 5 years in an organized fire company in this state is an “exempt fireman” and provides requirements and procedures related to firefighters obtaining certain certificates regarding their status in the fire company.

This bill would delete those provisions.

This bill would also make technical, nonsubstantive changes to these and other related provisions.

#### Ch. 66 (AB 2335) Nakanishi Building permits.

Existing law, in separate provisions, requires every city or county that necessitates the issuance of a permit as a condition precedent to the construction, alteration, improvement, demolition, or repair of any building or structure, at a minimum, to have the owner of the building or structure complete specific forms and declarations that identify the property and any agents or contractors performing the work, if applicable, and declaring the project complies with various laws. Existing law also requires the city or county to provide notice to the owner of the property of the legal implications of construction on the property.

This bill would repeal those separate provisions and create a single provision that combines and modifies the existing forms, declarations, and notice to the property owner and expands the acknowledgments property owners are required to make.

#### Ch. 67 (AB 2452) Davis Notaries public.

Existing law specifies certain documents as allowable forms of identification for a credible witness, who, by oath or affirmation, attests to the identity of an individual executing a written instrument in the presence of, and acknowledged by, a notary public.

This bill would add specified governmental employee identification cards as an allowable form of identification for a credible witness to prove the identity of an individual who executes a written instrument. This bill would delete a provision allowing a witness to an individual’s identification who is personally known to the officer to serve as evidence for an acknowledgment.

#### Ch. 68 (AB 3047) Committee on Local Government Local agency formation commissions: notice requirements.

(1) The Cortese-Knox-Hertzberg Act of 2000 requires the local agency formation commission in each county to review and approve or disapprove proposals for changes of organization or reorganization of cities and districts within the county. The legislative body of the affected local agency is authorized to adopt, by resolution, a proposal for a change of organization or a reorganization. At least 20 days before the adoption of the resolution of application for organization or reorganization, the legislative body is authorized to give mailed notice of its intention to do so to the commission and to each interested agency and each subject agency. All provisions in the act governing the time within which an official or the commission is to act are required to be deemed directory, rather than mandatory, except for notice requirements and the specified requirements for conducting a hearing in relation to an application to initiate proceedings.

This bill would instead authorize the legislative body to give mailed notice of its intention to adopt a resolution of application at least 21 days before the adoption of the resolution to the commission and to each interested agency and each subject agency. The bill also would make a conforming addition to the exceptions to the requirement that the time within which an official or the commission is to act is to be deemed directory, rather than mandatory, and would make other conforming changes.

(2) Under the act, when mailed notice is required to be given to landowners, the notice must be addressed to each person to whom the land is assessed, as specified, and to the most recent address of all registered voters within the affected territory, as specified.

This bill would provide that when the landowner or landowners and the registered voter or voters are the same individual or individuals, only one notice is required to be mailed.

(3) The act requires a local agency formation commission to carry out specified duties with regard to a proposal for the annexation of territory to a city, as specified.

This bill would revise these provisions to require the local agency formation commission to carry out these duties with regard to proposals for a change of organization or reorganization that meet the specified requirements.

(4) The act prohibits proceedings from being initiated for a proposal for annexation of inhabited territory to a city with over 100,000 residents that is located in a county with a population of over 4,000,000 unless the proposal is consistent with the sphere of influence of any affected city or district.

This bill would repeal these provisions.

(5) The act requires the executive officer to, within 30 days after the date of receiving a petition, cause the petition to be examined by, in the case of a registered voter petition, the county elections official, or in the case of a landowner petition, the county assessor, and prepare a certificate of sufficiency indicating whether the petition is signed by the requisite number of signers.

This bill would require these actions to take place within 30 days, excluding Saturdays, Sundays, and holidays.

(6) This bill would incorporate additional changes in Section 56654 of the Government Code, proposed by AB 2484, to become operative only if AB 2484 and this bill are both chaptered and become effective January 1, 2009, and this bill is chaptered last.

Ch. 69 (SB 1137) Perata Residential mortgage loans: foreclosure procedures.

(1) Upon a breach of the obligation of a mortgage or transfer of an interest in property, existing law requires the trustee, mortgagee, or beneficiary to record in the office of the county recorder wherein the mortgaged or trust property is situated, a notice of default, and to mail the notice of default to the mortgagor or trustor. Existing law requires the notice to contain specified statements, including, but not limited to, those related to the mortgagor's or trustor's legal rights, as specified. Existing law also requires that the notice of sale in the case of default be posted on the property, as specified.

Until January 1, 2013, and as applied to residential mortgage loans made from January 1, 2003, to December 31, 2007, inclusive, that are for owner-occupied residences, this bill would, among other things, require a mortgagee, trustee, beneficiary, or authorized agent to wait 30 days after contact is made with the borrower, or 30 days after satisfying due diligence requirements to contact the borrower, as specified, before filing a notice of default. The bill would require contact with the borrower, as defined, in order to assess the borrower's financial situation and explore options for the borrower to avoid foreclosure. The bill would require the mortgagee, beneficiary, or authorized agent to advise the borrower that he or she has the right to request a subsequent meeting within 14 days, and to provide the borrower the toll-free telephone number made available by the United States Department of Housing and Urban Development (HUD) to find a HUD-certified housing counseling agency. The bill would require the notice of default to include a specified declaration from the mortgagee, beneficiary, or authorized agent regarding its contact with the borrower or that the borrower has surrendered the property. If a notice of default had already been filed prior to the enactment of this act, the bill would instead require the mortgagee, trustee, beneficiary, or authorized agent, as part of the notice of sale, to include a specified declaration regarding contact with the borrower. The bill would authorize a borrower to designate a HUD-certified housing counseling agency, attorney, or other advisor to discuss with the mortgagee, beneficiary, or authorized agent, on the borrower's behalf, options for the borrower to avoid foreclosure. The contact and meeting requirements of these provisions would not apply if a borrower has surrendered the property or the borrower has contracted with an organization, as specified. The bill would also require specified mailings to the resident of a property that is the subject of a notice of sale, as specified. In addition, the bill would make it a crime to

tear down the notice of sale posted on a property within 72 hours of posting, thereby imposing a state-mandated local program.

Until January 1, 2013, this bill would require a legal owner to maintain vacant residential property purchased at a foreclosure sale, or acquired by that owner through foreclosure under a mortgage or deed of trust. The bill would authorize a governmental entity to impose civil fines and penalties for failure to maintain that property of up to \$1,000 per day for a violation. The bill would require a governmental entity that seeks to impose those fines and penalties to give notice of the claimed violation and an opportunity to correct the violation at least 14 days prior to imposing the fines and penalties, and to allow a hearing for contesting those fines and penalties.

(2) Existing law governs the termination of tenancies and generally requires 30 days' notice of the termination thereof, except under specified circumstances. Existing law also establishes the criteria for determining when a tenant is guilty of unlawful detainer.

Until January 1, 2013, this bill would give a tenant or subtenant in possession of a rental housing unit at the time the property is sold in foreclosure, 60 days to remove himself or herself from the property, as specified.

(3) This bill would set forth specified findings and declarations and intent provisions with regard to the above, and would provide that its provisions are severable.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 70 (SB 1191) Alquist Local government: community service districts.

(1) Existing law authorizes a community services district to be formed to, among other things, provide fire protection services, organize, promote, conduct, and advertise programs of community recreation, provide transportation services, abate graffiti, and construct, maintain, and operate mailboxes.

This bill would authorize a community services district to construct, own, improve, maintain, and operate broadband facilities and to provide broadband services, under specified circumstances, until a private person or entity is ready, willing, and able to acquire, construct, improve, maintain, and operate broadband facilities and to provide broadband services, and to sell those services at a comparable cost and quality of service to the district and its property owners, residents, and visitors.

(2) Existing law provides that the Mountain House Community Services District is not authorized to operate television, cable, or telecommunications systems.

This bill would instead provide that the district is not authorized to operate television, cable, or telecommunications systems except as provided for community services districts with respect to broadband services.

Ch. 71 (AB 1964) Evans Alcoholic beverages: nonprofit corporations.

The Alcoholic Beverage Control Act authorizes the issuance of a special temporary on-sale and off-sale license to a nonprofit corporation, as specified, in accordance with, among other things, a requirement that this license shall be issued only once in a calendar year.

This bill would provide that a special temporary on-sale and off-sale license shall be issued only 3 times in a calendar year.

The Alcoholic Beverage Control Act regulates the possession, distribution, and sale of alcoholic beverages within this state and prohibits the possession of alcoholic beverages for sale unless a person and premises have been issued a specified license authorizing the possession of the alcoholic beverages for sale.

This bill would authorize a nonprofit corporation that has not been issued a license authorizing the possession and sale of alcoholic beverages, to have upon their premises wine donated to the nonprofit corporation, to be sold at a later event, if the nonprofit corporation has submitted a specified license application with the Department of Alcoholic Beverage Control.

The Alcoholic Beverage Control Act provides that a violation of specified provisions of the act is a misdemeanor.

This bill, by including provisions that would be subject to those existing criminal sanctions, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 72 (AB 2041) Fuentes County employees' retirement: noncontributory plans: death of member.**

The County Employees Retirement Law of 1937 establishes noncontributory retirement plans for employees in specified counties. Under existing law, if approved by the county board of supervisors, members of those plans in the Counties of Los Angeles and Santa Barbara who have completed at least 5 years of credited service may elect to purchase retirement service credit.

This bill would require, with respect to members of the noncontributory retirement plans in the Counties of Los Angeles and Santa Barbara, that, upon the death of an active or former member of the plan, the accumulated contributions made by the member, with interest, be paid to the member's beneficiaries.

**Ch. 73 (AB 2079) Emmerson Food.**

Existing law, the Sherman Food, Drug, and Cosmetic Law, makes it unlawful for any person to misbrand any food. Misbranded food includes food that is labeled in a manner that does not conform with requirements for nutrition labeling and nutrient content or health claims set forth in the federal Food, Drug, and Cosmetic Act. Violation of these provisions is a crime.

This bill would deem food to be misbranded if its labeling does not conform with requirements for allergen labeling set forth in the federal Food, Drug, and Cosmetic Act. By changing the definition of a crime, this bill would impose a state-mandated local program.

Existing law, the Sherman Food, Drug, and Cosmetic Law, requires any person in this state who engages in the packaging or manufacture of olive oil, or in the wholesale distribution of olive oil where his or her name and address will appear on containers of one pint capacity or larger as the distributor and his or her name will appear on the containers as the only California addressee to have a license from the State Department of Public Health. Under existing law, the department is required to issue a nontransferable license, free of charge, to qualified applicants, as specified, and may revoke or suspend the license after a hearing.

This bill would repeal these provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 74 (AB 2156) Hernandez Public employee benefits.**

The Public Employees' Retirement Law provides a comprehensive set of rights and benefits based upon age, service credit, and final compensation to members of the Public Employees' Retirement System. The law provides that a special death benefit is payable if the deceased was a patrol, state peace officer/firefighter, state safety, state industrial, or local

safety member, if his or her death was industrial, and if there is a survivor who qualifies, as specified.

This bill would provide that the special death benefit described above is payable if the death of the member occurred from a single event injury arising out of and in the course of his or her official duties which, based on competent medical opinion, rendered the member into a persistent vegetative state devoid of cognitive function at the time of injury until the time of death. The bill would apply only to a member who retired and then died on or after July 3, 2006.

Ch. 75 (AB 2397) Aghazarian Alcoholic beverages: labels.

The Alcoholic Beverage Control Act provides for specified labeling requirements for containers of alcoholic beverages sold within this state.

This bill would require any wine labeled with a viticultural area appellation of origin established pursuant to federal law, other than the viticultural area "Lodi," that is located entirely within the "Lodi" viticultural area name to bear the designation "Lodi" on the label in conjunction with the area designation of wine. This bill would provide that any wine labeled with a viticultural area appellation of origin established pursuant to federal law when the appellation includes the term "Lodi" does not need to bear the additional designation of "Lodi."

The Alcoholic Beverage Control Act provides that a violation of its provisions is a misdemeanor, unless otherwise specified. This bill, by creating a new crime, imposes a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 76 (AB 2482) Maze Physician assistants: continuing education.

Existing law, the Physician Assistant Practice Act, establishes the Physician Assistant Committee of the Medical Board of California. Under existing law, the committee licenses physician assistants under the name of the board and regulates the practice of physician assistants. Existing law provides for the renewal of unexpired licenses and certain expired licenses by applying for renewal on a form provided by the committee and paying certain fees, as specified.

This bill would authorize the committee to require a licensee to complete continuing education as a condition of license renewal. The bill would prohibit the committee from requiring more than 50 hours of continuing education every 2 years and would require the committee to, as it deems appropriate, accept certification by a specified commission or another qualified certifying body as evidence of compliance with continuing education requirements.

Ch. 77 (AB 2524) Benoit California Gambling Control Commission: employees: fingerprints.

The Gambling Control Act provides for the licensure of certain individuals and establishments involved in various gambling activities, and for the regulation of those activities, by the California Gambling Control Commission. Existing law authorizes the commission to take actions to ensure that no ineligible, disqualified, or unsuitable persons are associated with controlled gambling activities.

This bill would authorize the commission to require fingerprint images and associated information from a prospective employee if the employee's duties include, or would include, access to specified information or accountable items. It would provide that the commission shall require that any services contract include a provision requiring the contractor to agree to permit the commission to require fingerprint images and associated information from the

contractor's employees, contractors, agents, or subcontractors, whose duties include, or would include, access to that information or those accountable items. The bill would allow the submission of these fingerprints to obtain specified criminal history information, and would authorize the executive director of the commission to investigate the criminal history of persons applying for employment and prospective service contractors and their agents, subcontractors, or employees, in order to make a final determination of a person's fitness to perform duties that would include access to that information or those accountable items. The bill would prohibit a person who would be disqualified from holding a state gambling license from being selected, appointed, or hired in a position that would include any duties involving access to that information or those accountable items.

Ch. 78 (AB 2731) Emmerson Insurance: qualified custodian.

Existing law defines "qualified custodian," for purposes of regulating domestic admitted insurers, as commercial banks, savings and loan associations, trust companies, or any entities approved by the commissioner as qualified custodians that, among other things, are domiciled and have a principal place of business in this state.

This bill would change that definition to include each of those same entities that is either domiciled and has a principal place of business in this state, or is a national banking association with a trust office located in this state.

Ch. 79 (AB 3024) Duvall Payment bonds: public works.

Existing law requires every original contractor who is awarded a public works contract by a state entity, as defined, involving an expenditure in excess of \$5,000, to file a payment bond.

This bill instead would require every original contractor who is awarded a public works contract by a state entity involving an expenditure in excess of \$25,000, to file a payment bond.

Ch. 80 (AB 3055) Committee on Insurance Insurance: Guarantee Association.

Existing law establishes the California Insurance Guarantee Association to provide coverage against losses arising from the failure of an insolvent property, casualty, or workers' compensation insurer to discharge its obligations under its insurance policies. The association is managed by a board of governors appointed by the commissioner, the President pro Tempore of the Senate, and the Speaker of the Assembly. Existing law defines a "covered claim" for purposes of the association's operations.

This bill would delete from a list of categories of claims excluded from that definition of "covered claims" those claims made after the insurance policy has been canceled by the association, as specified.

Existing law provides that the association shall pay covered claims either directly or through designated 3rd parties. If a covered claim is paid in excess of the amount authorized, as specified, the excess amount may be recovered by an action brought by the association.

This bill would authorize the association to recover these overpayments by an action or other proceeding.

Existing law provides that any bonds to provide funds for covered claim obligations for workers' compensation claims shall be issued, as specified, prior to January 1, 2009.

This bill would extend the date for bonds to be issued to provide funds for covered claim obligations for workers' compensation claims, as specified, to January 1, 2011.

This bill would also make technical and conforming changes.

Ch. 81 (SB 1164) Scott Investigators.

Existing law specifies certain persons who, although not peace officers, are authorized to serve search warrants and to receive state summary criminal history information.

This bill would add to the list of persons so authorized investigative auditors employed by the Department of Justice whose primary duty is investigating financial crimes. The bill

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

would authorize investigative auditors to only serve warrants for the production of documentary evidence held by financial institutions, Internet service providers, telecommunications companies, and third parties who are not reasonably suspected of engaging or having engaged in criminal activity related to the documentary evidence for which the warrant is requested.

Ch. 82 (SB 1436) Ducheny Protected species: accidental take: agricultural activities.

The California Endangered Species Act, until January 1, 2009, exempts from its provisions the accidental take of candidate, threatened, or endangered species resulting from acts that occur on a farm or a ranch in the course of otherwise lawful routine and ongoing agricultural activities.

This bill would change the repeal date of that exemption to January 1, 2011.

Ch. 83 (SB 1685) Kehoe Regional comprehensive plan: San Diego County.

The San Diego Regional Transportation Consolidation Act provides for the consolidation of certain transportation responsibilities in a single consolidated agency, as specified. Existing law requires the consolidated agency to prepare and adopt a regional comprehensive plan that integrates land uses, transportation systems, infrastructure needs, and public investment strategies within a regional framework and in cooperation with member agencies and the public. Existing law authorizes the consolidated agency, acting as the San Diego County Regional Transportation Commission, to impose up to a 1% retail transactions and use tax, subject to voter approval, for various purposes, and to expand the use of tax revenues to certain transportation, natural habitat and open space, watershed management, and stormwater conveyance systems.

This bill would revise and expand the purposes for which revenues from the tax could be used to provide for implementation of the regional comprehensive plan, water quality improvement, beach sand replenishment projects, and various other projects and purposes. The bill would authorize the consolidated agency to transfer environmental mitigation or conservation property to a public agency or nonprofit corporation for management and monitoring, and would authorize the awarding of grants in that regard, subject to various auditing, reversion, and other related conditions. The bill would authorize the consolidated agency to increase the tax rate up to the maximum tax rate authorized under existing law, subject to voter approval. The bill would also provide for a transactions and use tax ordinance adopted under these provisions to become operative on the first day of the calendar quarter commencing more than 110 days, rather than 120 days, after adoption of the ordinance. The bill would enact other related provisions.

Ch. 84 (AB 591) Dymally Community colleges: temporary employees.

Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law requires that a person employed to teach adult or community college classes for not more than 60% of the hours per week of a full-time employee having comparable duties, excluding substitute service, be classified as a temporary employee.

This bill would, instead, require that any person who is employed to teach adult or community college classes for not more than 67% of the hours per week considered a full-time assignment for regular employees having comparable duties, excluding substitute service, be classified as a temporary employee. If these provisions are in conflict with the terms of a collective bargaining agreement in effect on or before January 1, 2009, the provisions of this bill would govern the employees subject to that agreement upon the expiration of the agreement.

Ch. 85 (AB 1115) Sharon Runner Peace officers: accidents.

Existing law provides that no peace officer, member of the Department of the California Highway Patrol, or firefighter shall be required to report any accident in which he or she is involved while operating an authorized emergency vehicle, as defined, in the performance of his or her duty during the hours of his or her employment, to any person who has issued that peace officer, member of the Department of the California Highway Patrol, or firefighter a private automobile insurance policy.

This bill would provide that no peace officer, member of the Department of the California Highway Patrol, or firefighter shall be required to report any accident in which he or she is involved while operating any employer-leased or employer-rented vehicle, in the performance of his or her duty during the hours of his or her employment, to any person who has issued that peace officer, member of the Department of the California Highway Patrol, or firefighter a private automobile insurance policy. This bill would make a conforming change relating to proof of financial responsibility, in the event of an accident involving a vehicle operated on behalf of a public agency.

Ch. 86 (AB 1771) Ma Domestic violence: restraining orders.

Existing law authorizes a court to issue a domestic violence restraining order upon a good cause belief that harm to a victim has occurred or is reasonably likely to occur.

This bill would provide that, in determining whether good cause exists to issue an order under that provision, in any case in which a complaint, information, or indictment charging a crime of domestic violence has been filed, the court may consider the underlying nature of the offense charged, and information provided to the court pursuant to a criminal history search, as specified.

Ch. 87 (AB 1810) Galgiani Horses: shows, competitions, and sales.

Existing law regulates horse shows, competitions, and sales. Existing law defines “event manager” for those purposes to be the person in charge of an event, including the person responsible for registering the event with the Department of Food and Agriculture.

This bill would change that definition to be the person in charge of an event, including the entity or individual financially responsible for the event that is responsible for registering the event with the department.

Under existing law, the Secretary of Food and Agriculture is required to appoint an advisory committee, comprised of representatives from various organizations with an interest in horse shows, competitions, and sales. The committee is required to meet at least twice per year.

This bill would require the committee to meet once per year, with additional meetings to be called as deemed necessary by the chairperson.

Ch. 88 (AB 1864) DeVore Juveniles.

Existing law provides that whenever a person confined in any state institution subject to the jurisdiction of the Department of Corrections and Rehabilitation, Division of Juvenile Facilities, escapes, or is discharged, or paroled from that institution, and any personal funds or property of that person remains in the hands of the Chief Deputy Secretary for Juvenile Justice, and no demand is made upon the chief deputy by the owner of the funds or property or his or her legally appointed representative, that person’s money and property, as specified, remaining in the custody or possession of the chief deputy shall be held for 7 years, as specified.

This bill would instead require the chief deputy to hold those funds or property for 3 years, as specified. This bill would also make technical, nonsubstantive changes to those provisions.

Ch. 89 (AB 1976) Benoit Emergency telephone system: abuse.

Under existing law, any person who knowingly allows the use of, or who uses, the 911 telephone system for any reason other than because of an emergency is guilty of an infraction.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

The penalty for a first or 2nd violation of that provision is a written warning, as specified. The penalty for a 3rd, 4th, or 5th violation, depending upon the violator's ability to pay, is \$50, \$100, and \$200, respectively.

This bill would make a written warning the penalty for a first violation only and would make the penalties for a 2nd and each subsequent violation monetary fines, as specified.

**Ch. 90 (AB 2010) DeSaulnier Affiliate clinics: provisional licenses.**

Under existing law, the State Department of Public Health regulates the licensure and operation of clinics, including community clinics and primary care clinics, as defined. Existing law permits a primary care clinic meeting prescribed conditions to file an application to establish another primary care clinic at an additional site, which shall be known as an affiliate clinic, in accordance with specified requirements. Existing law provides that if a clinic or an applicant for a license has not been previously licensed, the department may only issue a provisional license to the clinic as provided.

This bill would exempt an affiliate clinic from this provision.

**Ch. 91 (AB 2039) Arambula Department of Motor Vehicles: records.**

Existing law makes confidential the home address of any of a list of state officers and employees that appears in the Department of Motor Vehicles records, if the officer or employee requests it be kept confidential, with certain exemptions for information available to specified governmental agencies. Existing law provides that the home address shall be withheld from public inspection for 3 years following termination of office or employment, except with respect to retired peace officers, whose home addresses shall be withheld from public inspection permanently upon request.

This bill would revise that provision and allow inspection of the home address, until reinstatement to an office or employment, if the termination of office or employment is the result of conviction of a criminal offense. This bill would require that, if the termination or separation is the result of the filing of a criminal complaint, the department withhold a confidential home address from public inspection during the time in which the appeal process is exhausted. The bill would make it discretionary for the employing agency to keep the home address confidential once the appeal process is complete and the termination or separation is upheld.

This bill would also make clarifying technical changes.

**Ch. 92 (AB 2060) Jeffries Vehicles: fee exemption: tribal firefighting equipment.**

Existing law exempts certain firefighting and rescue vehicles and ambulances owned by a public fire department or a voluntary fire department, as prescribed, from certain vehicle fees.

This bill would extend those fee exemptions to these vehicles and ambulances that are owned by federally recognized Indian tribes that have entered into a mutual aid agreement with a state, county, city, or other governmental municipality for fire protection and emergency response.

**Ch. 93 (AB 2080) La Malfa Alcoholic beverages: licensees.**

The Alcoholic Beverage Control Act contains various provisions regulating the application for, the issuance of, the suspension of, and the conditions imposed upon, alcoholic beverage licenses by the Department of Alcoholic Beverage Control. Existing law provides that an on-sale licensee whose licensed premises were destroyed as a result of fire or any act of God or other force beyond the control of the licensee may carry on his or her business for a period of up to 60 days at a location within 500 feet of the licensed premises while the destroyed premises are being repaired or rebuilt.

This bill would authorize a licensee to carry on its business at a substitute location, within 500 feet of the destroyed premises, for a period of up to 180 days.

Existing law also provides that the license of a licensee whose premises were destroyed as a result of a fire or an act of God, that has been transferred to another location within the same county, may be transferred back to the original premises within 6 months, under specified circumstances, without a fee transfer payment.

This bill would authorize a licensee to transfer a license back to the original premises, without payments of a transfer fee, if the transfer is made within 18 months of the destruction of the original premises.

Ch. 94 (AB 2092) De La Torre Criminal procedure: discharge of accusation or information: bar to public office.

Existing law authorizes a court to dismiss accusations or information against a defendant after successful completion of probation under specified circumstances. Other existing law provides that a conviction for certain offenses disqualifies a person from holding certain public offices.

This bill would provide that dismissal of an accusation or information underlying a conviction pursuant to those provisions, as described, does not permit a person prohibited from holding public office as a result of that conviction to hold public office.

Ch. 95 (AB 2188) Arambula Community Development Block Grant Program: funds.

Existing law requires the Department of Housing and Community Development to allocate funds under the federal Community Development Block Grant Program to cities and counties. Existing law requires the department, until January 1, 2009, to determine, and announce in the applicable Notice of Funding Availability, the maximum amount of grant funds that may be used for economic development projects and programs, housing for persons and families of low or moderate income or for purposes directly related to the provision or improvement of housing opportunities for these persons and families, and for cities and counties that apply on behalf of certain Indian tribes. Existing law requires the department, until January 1, 2009, to specify the percentage of the total funds available for, and the maximum amount for grants that may be awarded to, small cities and counties for specified purposes.

This bill would delete the repeal date specified in existing law.

Ch. 96 (AB 2245) Soto Illegal dumping enforcement officers: use of batons.

Existing law provides that certain public officers, like animal control officers, are not prohibited from carrying any wooden club or baton if the officers have satisfactorily completed a specified course of instruction in the carrying and use of the club or baton.

This bill would apply this provision to illegal dumping enforcement officers.

Ch. 97 (AB 2273) Fuentes Vehicles: nonrepairable vehicle certificates.

Existing law requires, if an insurance company makes a total loss settlement on a nonrepairable vehicle and takes possession of that vehicle, either itself or through an agent, the insurance company, an occupational licensee of the Department of Motor Vehicles authorized by the insurance company, or a salvage pool authorized by the insurance company, within 10 days after receipt of title by the insurer, free and clear of all liens, to forward the properly endorsed certificate of ownership or other evidence of ownership acceptable to the department, the license plates, and a fee in the amount of \$15 to the department. Existing law also requires the department, upon receipt of the certificate of ownership or other evidence of title, the license plates, and the fee, to issue a nonrepairable vehicle certificate for the vehicle. A violation of these provisions is a misdemeanor.

This bill would authorize these entities if they are unable to obtain the properly endorsed certificate of ownership or other evidence of ownership acceptable to the department within 30 days following oral or written acceptance by the owner of an offer of an amount in settlement of a total loss, to request, on a form provided by the department and signed under

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

penalty of perjury, the department to issue a nonrepairable vehicle certificate for the vehicle. The bill would require that the request include and document that the requester has made at least 2 written attempts to obtain the certificate of ownership or other acceptable evidence of title.

Because the bill would create a new crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 98 (AB 2330) Gaines Wildlife: hunting licenses.

Existing law requires all permits, license tags, license stamps, applications, reservations, or other entitlements authorized by the Fish and Game Code to be prepared and issued by the Department of Fish and Game. Existing law permits the Fish and Game Commission to determine the terms, conditions, and fees for which a permit, license tag, license stamp, application, reservation, or other entitlement will be issued, unless otherwise specified.

This bill would authorize the department to issue a temporary document that authorizes the holder of a license, permit, license tag, license stamp, application, reservation, or other entitlement purchased through the Internet, to enjoy the privileges of the entitlement for a period not to exceed 30 calendar days from the date of purchase.

Existing law requires every person who takes any bird or mammal to first obtain a license issued by the department. Existing law requires the department to issue a license, upon payment of a base fee of \$8.25, to a resident or nonresident who is under 16 years of age at any time during the licensing year for which they seek a license.

This bill would provide that a resident or nonresident shall be issued a license, upon payment of a base fee of \$8.25, if that person is under 16 years of age on July 1 of the licensing year for which they seek a license regardless of whether that person applies before or after July 1 of that year.

#### Ch. 99 (AB 2437) Ruskin Regional water systems.

The Wholesale Regional Water System Security and Reliability Act (the act) requires the City and County of San Francisco (city) to adopt a specified program of capital improvement projects designed to restore and improve the bay area regional water system, as defined, and to submit a report, on or before September 1 of each year, to various entities describing the progress made on the implementation of the capital improvement program during the previous fiscal year. The act authorizes the city to determine that the completion dates for projects contained in the program should be delayed or that different projects should be constructed.

The act imposes various other requirements on regional wholesale water suppliers, as defined, including a requirement that these suppliers submit an annual report to the Legislature and the State Department of Public Health describing the progress made on securing supplemental sources of water to augment existing supplies during dry years.

Existing law makes inoperative these and related provisions on December 31, 2010, or on the date on which the State Director of Public Health makes a specified notification and certification, whichever is earlier, and repeals those provisions on the January 1 following that earlier date.

This bill would require the city to identify in its progress report, any project that is behind schedule, and, for each project so identified, to describe its plan and timeline for making up the delay or adopting a revised implementation schedule.

This bill would delete the December 31, 2010, repeal date, and would instead, repeal the act on January 1, 2015, and would make certain technical changes to the act. By extending

the period of time to January 1, 2015, during which certain requirements would apply to regional wholesale water suppliers, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 100 (AB 2503) Wolk Delta Protection Commission.

The Delta Protection Act creates the Delta Protection Commission consisting of 23 specified members, 3 of whom are appointed by the Governor, and authorizes the commission to promote, facilitate, and administer the acquisition of voluntary private and public wildlife and agricultural conservation easements in the delta. That act also requires the commission to prepare and adopt, by a majority vote of the membership of the commission, and thereafter review and maintain, a comprehensive long-term resource management plan for land uses within the primary zone of the delta.

This bill would authorize specified members of the commission to select a designee. The bill would authorize specified members, subject to the confirmation of the member's appointing power, to appoint an alternate to represent him or her at a commission meeting. The alternate would have all powers and duties of the member and be subject to all provisions of law relating to conflicts of interest that are applicable to the member. The bill would also permit the Governor to appoint 3 alternates who would be authorized to serve in the absence of a member appointed by the Governor.

#### Ch. 101 (AB 2559) Smyth State parks: concession contracts.

Existing law authorizes the Department of Parks and Recreation to enter into contracts with natural persons, corporations, partnerships, and associations for the construction, maintenance, and operation of concessions within units of the state park system. Existing law requires those concession contracts to contain certain specified provisions, including a provision that the maximum term shall be 10 years, except that a term of more than 10 years may be provided if the Director of Parks and Recreation determines that the longer term is necessary to allow the concessionaire to amortize improvements made by the concessionaire, to facilitate the full utilization of a structure that is scheduled by the department for replacement or redevelopment, or to serve the best interests of the state. Existing law prohibits a term of a concession contract from exceeding 20 years without specific authorization by statute.

This bill would authorize the department to enter into a concession contract for a term of 50 years if the concession contract is for the construction, development, and operation of multiple-unit lodging facilities, as specified, that is expected to exceed an initial cost of \$1,500,000 in capital improvements in order to begin operation. This bill would prohibit a term for this type of concession contract from exceeding 50 years without specific authorization by statute.

#### Ch. 102 (AB 2778) Mendoza Small business and procurement.

Under the Small Business Procurement and Contract Act, a state agency is authorized to award a contract for construction, including the erection, construction, alteration, repair, or improvement of any state structure, building, road, or other state improvement of any kind that has an estimated value of greater than \$5,000, but less than a specified cost limit, to a certified small business, including a microbusiness, or to a disabled veteran business enterprise, as long as the agency obtains written bid submittals from 2 or more certified small businesses, including microbusinesses, or from 2 or more disabled veteran business enterprises. For purposes of the act, "small business" and "microbusiness" are defined, among other things, as including a manufacturer with a maximum number of employees. "Manufacturer" is defined as a business that is primarily engaged in the chemical or

mechanical transformation of raw materials or processed substances into new products and is within a specified classification of the Standard Industrial Classification (SIC) Manual.

This bill would replace the reference to a manufacturer within that particular classification of the SIC Manual with a requirement that a manufacturer falls within a specified classification of the North American Industry Classification System.

**Ch. 103 (AB 2802) Houston Vehicles: alcohol-related reckless driving.**

(1) Existing law provides that, when a person is charged with, and pleads guilty or nolo contendere to, reckless driving in satisfaction of, or as a substitute for, an original charge for driving under the influence of an alcoholic beverage or drug (DUI), and the court accepts the plea of guilty or nolo contendere, the conviction is a prior offense for purposes of specified laws relating to punishments imposed for DUI convictions.

Under existing law, if a court places a person on probation for a conviction of alcohol-related reckless driving, the court is required to order that person to enroll in a licensed alcohol and drug education program and complete, at a minimum, the educational component of that program as a condition of probation. Existing law requires the Department of Motor Vehicles to include an evaluation of the effectiveness of that program in an annual report to the Legislature.

This bill would require a court to order a person convicted of alcohol-related reckless driving to participate for at least 9 months or longer, as ordered by the court, in a licensed program that consists of specified activities, including education, group counseling, and individual interview sessions, if that person has a prior conviction of a violation of the alcohol-related reckless driving law or another specified DUI law and the prior convicted offense occurred within 10 years. The bill would require the Department of Motor Vehicles to additionally include in the annual report to the Legislature an evaluation of the effectiveness of that program.

The bill would require the court to revoke the person's probation for failure to enroll in, participate in, or complete the program.

This bill would increase the penalty for a conviction of alcohol-related reckless driving, thereby imposing a state-mandated local program.

(2) Existing law authorizes the State Department of Alcohol and Drug Programs to issue, deny, suspend, or revoke the license of a driving-under-the-influence program that has been recommended by a county board of supervisors to provide alcohol or drug recovery services in that county to persons who have been convicted of violations of DUI laws, including persons who have been admitted to the program for alcohol-related reckless driving.

This bill would additionally include programs that provide alcohol or drug recovery services to persons who have been admitted to those programs for alcohol-related reckless driving with a prior conviction of a violation of the alcohol-related reckless driving law or another specified DUI law.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 104 (AB 2803) Horton Payments to public agencies: court-ordered restitution.**

Existing law authorizes a public agency to accept a credit card, debit card, or electronic fund transfer as payment for specified charges, including the payment of a court-ordered fee, fine, forfeiture, penalty, or assessment.

This bill would expand this authorization to allow a public agency to accept these designated instruments as payment for a court-ordered restitution.

Ch. 105 (AB 2827) Sharon Runner Property crimes: public housing authority: fraud.

Existing law categorizes the crime of theft into 2 degrees: petty theft and grand theft. Under existing law, grand theft is committed when the money, labor, or real or personal property taken is of a value exceeding \$400.

This bill would specify that anyone who defrauds a housing program of a public housing authority of more than \$400 is guilty of grand theft. By creating a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 106 (AB 3020) Salas State Contract Act: definition: department.

The State Contract Act generally governs contracting between state agencies and private contracts. Existing law authorizes specified departments to enter into contracts for public works. The specified departments are the Department of Water Resources, the Department of General Services, the Department of Boating and Waterways, the Department of Corrections and Rehabilitation, and the Department of Transportation.

This bill would expand the definition of “department” for purposes of contracting for a public work to include the Military Department.

Ch. 107 (AB 3057) Committee on Insurance Insurance: vehicles.

Existing law provides that whenever an insurer gives notice of rescission of an automobile liability policy, upon request of the driver, as defined, the insurer, within 15 days of receipt of the request, shall furnish to the insured a statement setting forth the ground or grounds upon which the notice of rescission is based.

This bill would delete an obsolete cross-reference in this provision.

Existing law provides that assigned risk automobile plans must afford coverage, as specified, or in such minimum amounts as are set forth in specified security requirement provisions.

This bill would change an obsolete cross-reference in this provision.

Ch. 108 (AB 3070) Committee on Elections and Redistricting Special primary election: vacancies.

Existing law requires that a special primary election be held in the district in which the vacancy occurred on the 8th Tuesday or, if the 8th Tuesday is the day of or the day following a state holiday, the 9th Tuesday preceding the day of the special general election at which the vacancy is to be filled.

This bill would also require that a special primary election be held in the district in which the vacancy occurred on the 9th Tuesday preceding the day of the special general election at which the vacancy is to be filled if specified conditions apply.

Ch. 109 (SB 129) Kuehl Criminal communications.

Existing law makes it a misdemeanor punishable by a maximum of 6 months in the county jail or a \$1,000 fine or both for a person to make telephone calls or contact with an electronic communication device with the intent to annoy another person at his or her residence. Existing law additionally makes it a misdemeanor punishable by a maximum of one year in the county jail or a \$1,000 fine or both for a person to make telephone calls or contact with an electronic communication device with the intent to annoy another person at his or her place of work if one of 2 specified circumstances exist.

This bill would, instead, make it a misdemeanor punishable by a maximum of 6 months in the county jail or a \$1,000 fine or both for a person to make telephone calls or contact with

an electronic communication device, as defined, with the intent to annoy another person at any place.

This bill would also provide that a person is subject to the described penalties if the person knowingly permits any telephone or electronic communication device under the person's control to be used for the prohibited purpose.

Because this bill would expand the scope of a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 110 (SB 610) Corbett Criminal proceedings: commencement.

Existing law provides that prosecution for an offense is commenced when any of certain things occurs, including when a complaint charging a felony is filed or a case is certified to the superior court.

This bill would instead provide that a prosecution for a felony offense is commenced when the defendant is arraigned on a complaint that charges the defendant with a felony.

#### Ch. 111 (SB 1033) Runner Undetectable knives.

Existing law provides that any person who commercially manufactures or causes to be commercially manufactured, knowingly imports into the state for commercial sale, keeps for commercial sale, or offers or exposes for commercial sale, any undetectable knife is guilty of a misdemeanor. Existing law provides that these provisions do not apply to the manufacture or importation of undetectable knives for sale to a law enforcement or military entity.

This bill would additionally provide that any person who knowingly exports out of this state for commercial, dealer, wholesaler, or distributor sale, or who offers or exposes for dealer, wholesaler, or distributor sale any undetectable knife is guilty of a misdemeanor. This bill would require a valid agency, department, or unit purchase order to exempt from these provisions the manufacture or importation of undetectable knives for sale to a law enforcement or military entity. Because this bill would expand the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 112 (SB 1116) Alquist Crimes.

Existing law establishes the High Technology Crime Advisory Committee, composed of members representing various governmental agencies and professional organizations, for the purpose of formulating a comprehensive written strategy for addressing high technology crime and advising the agency or agencies designated by the Department of Finance, as specified, on the appropriate disbursement of funds from the High Technology Theft Apprehension and Prosecution Program Trust Fund to regional task forces.

This bill would revise and recast the above language by replacing references to the agency or agencies designated by the Department of Finance with the Office of Emergency Services. The bill would further change the composition of the committee by revising the designees from specified associations and offices. The bill would also add an additional member to the committee, who would be a representative of the State Chief Information Officer.

#### Ch. 113 (SB 1207) Scott Public schools: open enrollment policies.

Existing law requires, as a condition for the receipt of school apportionments from the state school fund, the governing board of each school district, other than a district that has only one school or that has schools that do not serve any of the same grade levels, to adopt rules and regulations establishing a policy of open enrollment within the district for residents of the district. Existing law requires that the open enrollment policy include, among other specified elements, a selection policy for a school that receives requests for admission in excess of the capacity of the school. Existing law also requires the governing board of a school district to determine the capacity of the schools in the district for purposes of the district's open enrollment policy.

This bill would require the governing board of a school district to calculate the capacity of the schools in the district for purposes of the open enrollment policy in a nonarbitrary manner using pupil enrollment and available space. The bill also would make various technical and conforming changes in these provisions.

**Ch. 114 (SB 1225) Harman Private cemeteries: limited liability companies.**

Existing law, the Cemeteries Act, provides for the licensing and regulation of private cemeteries by the Cemetery and Funeral Bureau.

Existing law defines cemetery authority as any cemetery association, corporation sole, or other person owning or controlling cemetery lands or property.

This bill would include a limited liability company within the definition of a cemetery authority, and would make conforming changes.

Existing law, the Beverly-Killea Limited Liability Company Act, generally authorizes a business to organize as a limited liability company and to engage in any lawful business activity, except the banking business, the business of issuing policies of insurance and assuming insurance risks, or the trust company business. Existing law provides that this general authorization does not permit a limited liability company to render professional services, defined to mean any type of professional services that may be lawfully rendered only pursuant to a license, certification, or registration authorized by the Business and Professions Code, the Chiropractic Act, or the Osteopathic Act.

This bill would prohibit licensed cemetery brokers, cemetery salespersons, cemetery managers, funeral directors, embalmers, crematorium licensees, or other persons licensed to provide services related to cemeteries and funerals from owning any ownership interest as a member in a limited liability company licensed as a cemetery authority. This bill would require the bureau, upon a determination that a licensed cemetery broker, cemetery salesperson, cemetery manager, funeral director, embalmer, crematorium licensee, or other person licensed to provide services related to cemeteries and funerals has an ownership interest as a member in the limited liability company, to suspend the limited liability company's certificate of authority and would require the bureau to reinstate the certificate of authority only upon finding that the person has been divested of his or her ownership interest in the limited liability company or has voluntarily surrendered his or her license.

This bill would require a limited liability company transacting intrastate business as a cemetery authority to provide security, as specified, for claims against it based upon acts, errors, or omissions of its licensed cemetery brokers, cemetery salespersons, cemetery managers, funeral directors, embalmers, crematorium licensees, and any other person licensed to provide services related to cemeteries and funerals by employing one or more of these licensed persons.

**Ch. 115 (SB 1234) Correa Mobilehomes: privacy.**

Existing law provides that the ownership or management of a mobilehome park shall have no right of entry to a mobilehome, except in an emergency or when the resident has abandoned the mobilehome, without the prior written consent of the resident.

This bill would expand that prohibition to include an enclosed accessory structure.

Ch. 116 (SB 1261) Cox Corrections: inmate and ward labor.

Under existing law, the general manager of the Prison Industry Authority is authorized to order any public works project involving construction, renovation, or repair of prison facilities to be performed by inmate labor, as specified.

This bill would instead authorize the Secretary of the Department of Corrections and Rehabilitation to order any public works project involving construction, renovation, or repair of prison facilities to be performed by inmate labor and juvenile facilities to be performed by ward labor.

Existing law requires any public works project described above that entails the expenditure of greater than specified project limits to be reviewed and approved by the Secretary of the Department of Corrections and Rehabilitation.

The bill would instead require those projects to be reviewed and approved by the chairperson of the Prison Industry Board, in consultation with the board.

Existing law establishes the Inmate Construction Revolving Account, in the Prison Industries Revolving Fund, to receive funds transferred or deposited for the public works projects described above.

This bill would rename that account the Inmate and Ward Construction Revolving Account.

Existing law abolished the Youth Authority and instead established the Department of Corrections and Rehabilitation, which among other divisions, consists of the Division of Juvenile Facilities. Existing law, however, still contains references to the Youth Authority, including provisions specifying that the Director of the Department of the Youth Authority may require wards to provide labor to construct, renovate, or maintain facilities of the Youth Authority, as long as the cost of the project does not exceed a certain amount.

This bill would repeal those provisions and would instead authorize the Department of Corrections and Rehabilitation to provide for the payment of wages to wards for work performed, the sums earned to be paid in reparation, or to the parents or dependents of the ward, or to the ward, in any manner and in any proportions that the department directs. This bill would also make a technical amendment in a provision relating to the use of day labor by the department.

Ch. 117 (SB 1287) Hollingsworth Local government: records: Riverside County.

Existing law authorizes the Los Angeles County Board of Supervisors to adopt a resolution to authorize the county recorder to notify the party or parties executing a deed, quitclaim deed, or deed of trust.

This bill would also authorize the Riverside County Board of Supervisors to adopt such a resolution.

Ch. 118 (SB 1482) Correa Local government: forfeiture of office.

Existing law sets forth the circumstances under which an office is forfeited, including, among other things, upon the conviction of certain crimes specified under the California Constitution or state law.

Under the federal Stolen Valor Act of 2005, a person is guilty of a crime, and may be imprisoned, fined, or both, if that person, among other things, makes a false claim of receipt of any decoration or medal authorized by Congress for the Armed Forces of the United States or any of the service medals or badges awarded to the members of those forces.

This bill would provide that an elected officer of a city, county, city and county, or district in this state forfeits his or her office upon the conviction of a crime pursuant to the federal act, that involves a false claim of receipt of a military decoration or medal described in that act.

Ch. 119 (SB 1554) Dutton Burglary tools: bump keys.

Existing law provides that every person having upon him or her or in his or her possession, specified tools or other items, with the intent to feloniously break or enter any building or other specified place, is guilty of a misdemeanor.

This bill would add bump keys to the list of tools and other items the possession of which is an element of the offense.

By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 120 (SB 1727) Negrete McLeod Highway safety: flares: electronic beacons.

(1) Existing law makes it unlawful to traverse a flare pattern, cone pattern, or combination of flare and cone pattern, provided for the regulation of traffic or emergency scene management.

This bill would additionally make it unlawful to traverse an electronic beacon pattern, thereby imposing a state-mandated local program by creating a new crime.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 121 (SB 1419) Yee Highways: Safety Enhancement-Double Fine Zones.

Existing law requires that a state highway segment be designated as a Safety Enhancement-Double Fine Zone if, among other requirements, the segment is eligible for designation and the Director of Transportation, in consultation with the Commissioner of the California Highway Patrol, certifies that the segment of state highway meets specified criteria. Existing law requires the Department of Transportation to conduct a Safety Enhancement-Double Fine Zone study that relates to pedestrian safety and evaluates the appropriateness of adding to those criteria.

This bill would, notwithstanding these requirements and until January 1, 2014, designate specified segments of State Highway Routes 1 and 101 in the City and County of San Francisco as Safety Enhancement-Double Fine Zones. The bill would require that the Safety Enhancement-Double Fine Zone study discussed above be conducted on these segments and include, among other things, a review of traffic volume, speed, and collisions, as specified. The bill would require the department to report its findings from this study to the appropriate committees of the Legislature on or before January 1, 2013.

Ch. 122 (SB 1572) Wyland Veterans' Bond Act of 2008.

This bill would enact the Veterans' Bond Act of 2008 which, if approved, would authorize, for purposes of financing a specified program for farm, home, and mobilehome purchase assistance for veterans, the issuance, pursuant to the State General Obligation Bond Law, of bonds in the amount of \$900,000,000.

The bill would provide for submission of the act to the voters at the November 4, 2008, statewide general election in accordance with specified law.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 123 (SB 1680) Wyland Student financial aid: Military and Veterans Offices.

Under existing law, the segments of the public higher education system in the state include the University of California, which is administered by the Regents of the University of California, the California State University, which is administered by the Trustees of the California State University, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would authorize the California Community Colleges and California State University, and request the University of California, to coordinate services for qualified students who are veterans or members of the military by clearly designating Military and Veterans Offices and individuals to provide specified services.

The bill would authorize the California Community Colleges and the California State University, and would encourage the University of California, to report to the Department of Veterans Affairs, on an annual basis, specified information relating to Military and Veterans Offices.

Ch. 124 (SB 1185) Lowenthal Land use: subdivision maps.

(1) The Subdivision Map Act establishes a statewide regulatory framework for controlling the subdividing of land. It generally requires a subdivider to submit, and have approved by, the city, county, or city and county in which the land is situated a tentative or vesting tentative map, which confers a vested right to proceed with development in substantial compliance with specified ordinances, policies, and standards. The act provides for the expiration of tentative or vesting tentative maps, after specified periods of time, and specifically extends by 12 months the expiration date of any tentative or vesting tentative map or parcel map for which a tentative or vesting tentative map has been approved that had not expired on May 15, 1996. This extension is in addition to any other extension of the expiration date provided for in specified provisions of the act. Any legislative, administrative, or other approval by any local agency, state agency, or other political subdivision of the state that pertains to a development project included in a map that is extended is to be extended by 12 months under specified conditions.

This bill would extend the applicable expiration date to 12 months, as specified, for any vesting tentative map, in addition to a tentative map, generally, that has not expired as of the date adding these provisions and that will expire, as specified, before January 1, 2011. By adding to the procedures officials in counties, cities, and cities and counties must follow, this bill would impose a state-mandated local program.

(2) The Subdivision Map Act provides that when a tentative map is required, an approved or conditionally approved tentative map must expire 24 months after its approval or conditional approval, or after any additional time period as prescribed by local ordinance, not to exceed an additional 12 months. A subdivider may file with the appropriate legislative body, prior to the expiration of the approved or conditionally approved tentative map, an application to extend the time at which the map will expire for a period or periods not to exceed a total of 5 years.

This bill instead would allow the subdivider to file an application to extend the time at which the map will expire for a period or periods not to exceed a total of 6 years. By adding to the procedures officials in counties, cities, and cities and counties must follow, this bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 125 (AB 1301) Gaines Financial institutions.

(1) Existing law, the Banking Law, provides for the licensure and regulation by the Commissioner of Financial Institutions of various financial institutions, including banks, commercial banks, and trust companies.

This bill would revise and recast various provisions applicable to these financial institutions, including, among others, provisions relating to the location of bank offices and to the powers, prohibited practices, and penalties applicable to banks. The bill would authorize the commissioner to adopt and implement methods of accepting electronic filings

of applications, reports, and other matters. The bill would authorize a bank, with the approval of the commissioner, to be formed to facilitate a merger or an acquisition of control, as specified. The bill would establish loan and investment limitations for a bank to hold obligations made by a person and securities issued by that same person. The bill would require the applicable minimum of specified eligible assets of a foreign (other nation) bank to be no less than 1% of the adjusted liabilities of the bank, instead of 5%. The bill would require the commissioner to examine California state banks and foreign banks no less than once every 12 months, except that specified California state banks and foreign banks would be required to be examined pursuant to federal standards. The bill would make various conforming and related changes.

(2) Existing law makes it a crime for a subject person of a bank, as defined, or a former subject person of a bank to engage in specified acts with any bank, if that person was issued an order of suspension or removal from his or her office with the bank, except with the prior consent of the commissioner.

This bill would make it a crime for such a subject person or former subject person to engage in those acts with any licensee, as defined. By expanding the scope of a crime, the bill would impose a state-mandated local program.

(3) Existing law prohibits the amount of funds of a bank or trust company that are deposited in any other financial institution from exceeding 10% of the sum of the shareholders' equity allowance for loan losses, capital notes, and debentures of the depositing bank or trust company, unless the financial institution has been approved by the commissioner as a depository for these purposes, and other conditions are met. Existing law allows the commissioner to revoke approval of a depository or limit the amount of funds that may be deposited by a bank or trust company with any other financial institution, as specified.

This bill would delete this prohibition and would make conforming changes.

(4) Existing law requires the Department of Justice to maintain state summary criminal history information, as defined. Existing law requires the Department of Justice to disseminate certain criminal history information to financial institutions that have applied to the Department of Justice for the information to be used for employment, licensing, or certification purposes.

This bill would revise those provisions relating to the furnishing of summary criminal history information to banks and their affiliates by the Department of Justice for those purposes and would authorize the department to charge a fee sufficient to cover its costs in that regard.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 126 (AB 1932) Smyth Simi Valley: public cemeteries.

Existing law authorizes incorporated cities, and for unincorporated towns the supervisors of the county, to survey, lay out, and dedicate for burial purposes not more than 5 acres of public lands. Existing law authorizes the inhabitants of any city to purchase or receive by gift or donation lands not exceeding 5 acres to be used as a cemetery.

This bill would authorize the City of Simi Valley to survey, lay out, dedicate, own, and operate for burial purposes, or to purchase, or receive by gift or donation, 5 acres or more of public lands to be used as a public cemetery.

This bill would state the findings and declarations of the Legislature concerning the need for special legislation.

#### Ch. 127 (AB 2004) Evans Alcoholic beverages: winegrowers: licenses.

The Alcoholic Beverage Control Act contains various provisions regulating the application for, the issuance of, the suspension of, and the conditions imposed upon, alcoholic beverage licenses by the Department of Alcoholic Beverage Control. Existing law authorizes a licensed winegrower to, among other things, sell wine and brandy for consumption to consumers for on-premises consumption, as specified.

This bill would authorize a licensed winegrower to sell wine for consumption to consumers for on-premises consumption.

Ch. 128 (AB 2197) Mullin School facilities.

(1) Existing law requires a school district to notify the county superintendent of schools and the county auditor when the governing board of the school district approves proceeding with the issuance of certificates of participation or revenue bonds or entering into specified agreements for financing school construction pursuant to the California School Finance Authority Act. The superintendent of the school district is required to provide specified information to the county auditor, the county superintendent of schools, the governing board, and the public regarding that debt.

Existing law requires the county superintendent of schools or superintendent of a school district for which the county board serves as governing board to notify the Superintendent of Public Instruction when the county board of education approves proceeding with the issuance of certificates of participation or revenue bonds or to entering into an agreement for financing pursuant the California School Finance Authority Act. The county superintendent of schools or the superintendent of a school district for which the county board serves as the governing board is required to provide specified information to the Superintendent of Public Instruction, the governing board, and the public.

This bill would require these notices to be made no later than 30 days before the approval of the debt in the case of certificates of participation and would impose this notice requirement on other debt instruments that are secured by real property and do not require the approval of the voters of the school district. The county superintendent of schools and the county auditor would be authorized to comment publicly to the governing board of the school district regarding the capability of the school district to repay the debt obligation. By requiring the county superintendent of schools and county auditor to receive the notice and information, the bill would impose a state-mandated local program.

(2) Existing law prohibits the proceeds obtained by a school district from the sale of a saleback or leaseback agreement, or interests in that agreement, or a debt instrument payable from payments under a saleback or leaseback agreement from being used for general operating purposes of a school district.

This bill would extend that prohibition to proceeds from the issuance of certificates of participation or other debt instruments that are secured by real property and do not require the approval of the voters of the district.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 129 (AB 2203) De Leon Insurance: foreign investments.

Existing law limits foreign investments by domestic incorporated insurers. Under existing law, those insurers, if they have outstanding insurance on risks located in a foreign country, may invest in securities and investments in those foreign countries if they are substantially of the same kinds as those permitted under California law, but they may not exceed the amount the insurer is required to invest in that country, or one and one-half the amount of

reserves under those contracts, whichever is greater. Existing law permits foreign investments in certain additional circumstances.

This bill would instead provide that a domestic insurer authorized to do business in a foreign jurisdiction or that has outstanding insurance on risks in that foreign jurisdiction, may acquire foreign investments from that jurisdiction or investments denominated in the currency of that jurisdiction. For those insurers authorized to do business in a foreign jurisdiction, the investment may not exceed the amount required by law, as specified, or 115% of the amount of reserves under those contracts, whichever is greater, and for domestic insurers that are not authorized to do business in a foreign jurisdiction and have outstanding insurance on risks in that foreign jurisdiction, the investment may not exceed 105% of the amount of reserves under those contracts. These investments would be classified as excess funds investments. The bill would permit foreign investments in certain additional instances.

The bill would prohibit domestic insurers from acquiring foreign investments from or located in foreign jurisdictions designated as state sponsors of terrorism by the United States Secretary of State.

The bill would prohibit, subject to exceptions, domestic insurers from acquiring an investment of more than 3% of its admitted assets in specified investments held by a single person, or more than 5% in the voting securities of a depository institution, as specified.

#### Ch. 130 (AB 2266) Evans Alcoholic beverages: licenses.

The Alcoholic Beverage Control Act, administered by the Department of Alcoholic Beverage Control, regulates the sale and distribution of alcoholic beverages and the granting of licenses for the manufacture, distribution, and sale of alcoholic beverages within the state. The act also provides for a limitation on the amount of on-sale general licenses that may be issued by the department based on the population of the county in which the licensed premises are located, as provided.

This bill would provide an exception to this limitation for a county of the 29th class, as specified. The bill makes legislative findings and declarations regarding the necessity of a special statute.

#### Ch. 131 (AB 2310) Maze Dependent children.

Existing law imposes various duties on the county welfare department at any hearing to terminate jurisdiction over a dependent child who has reached the age of majority. Among other duties, the county must submit a report verifying that certain information, documents, and services have been provided to the child including written information concerning the child's dependency case, that includes his or her family history and placement history. The documents provided must also include, if applicable, a social security card, a certified birth certificate, a health and education summary, an identification card, a death certificate of parent or parents, and proof of citizenship or residence.

The bill would additionally require that the written information include information regarding the child's Indian heritage or tribal connections, if applicable, and any photographs of the child or his or her family in the possession of the department, except as specified. The bill would also make technical changes. The bill would also require the documents to include a letter prepared by the county welfare department that includes specified information regarding the child. By imposing additional duties on local employees, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 132 (AB 2483) Bass Wards and dependent children: program of supervision.

Existing law authorizes certain persons, including social workers, to file a petition to declare a child a ward or dependent child of the juvenile court. Existing law provides that, in any case in which a social worker, after an investigation, determines that a child is within the jurisdiction of the juvenile court or will probably soon be within that jurisdiction, the social worker may, in lieu of filing a petition or after dismissal of a petition already filed, and with consent of the child's parent or guardian, undertake a program of supervision of the child.

This bill would provide that, if the parent is a dependent of the juvenile court at the time that a social worker seeks to undertake a program of supervision described above, and if counsel has been appointed for the parent under specified provisions of law, the program of supervision shall not be undertaken until the parent has consulted with his or her counsel.

Ch. 133 (SB 1070) Committee on Budget and Fiscal Review Elections: ballot pamphlets.

(1) Existing law requires that ballot pamphlet pages be at least 8 1/2 by 11 1/2 inches in size.

This bill would instead authorize the Secretary of State to choose the size of the ballot pamphlet which, in his or her judgment, best serves the voters.

(2) Existing law authorizes the Secretary of State to mail only one ballot pamphlet to 2 or more registered voters who have the same surname and the same postal address.

This bill would instead authorize the Secretary of State to mail only one ballot pamphlet to 2 or more registered voters who have the same postal address.

(3) The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes upon a 2/3 vote of each house and compliance with specified procedural requirements.

This bill would declare that it furthers the purposes of the act.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 134 (SB 400) Corbett Medi-Cal: outpatient prescription drugs.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which health care services are provided to qualified low-income persons.

Under existing law, one of the benefits provided to Medi-Cal recipients is outpatient prescription drugs subject to the Medi-Cal List of Contract Drugs and utilization controls.

This bill would provide that the purchase of outpatient prescribed drugs executed in written, nonelectronic form, on or after April 1, 2008, be on tamper resistant prescription forms to the extent required by federal law.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 135 (SB 1431) Wiggins Parks and recreation: easements.

Under existing law, the Department of Parks and Recreation has control of the state park system, and is authorized to grant easements for specified purposes.

This bill would authorize the department to acquire conservation easements, as the bill would define that term, on real property if the department determines that the conservation easement is necessary to protect a unit of the state park system from an incompatible use or to preserve and enhance the natural resource, cultural, or historic value of the unit of the state park system.

The bill would authorize the department to make grants to a state or local government agency or a nonprofit land trust organization to purchase and hold one of those conservation easements, if specified requirements are met.

This bill would require the department to adopt, on or before July 1, 2009, written policies regarding conservation easement purchases and make those policies available on the department's Internet Web site.

Ch. 136 (AB 1764) Blakeslee Land use: agricultural use.

Existing law, for purposes of the Williamson Act, defines agricultural commodity to mean any and all plant and animal products produced in this state for commercial purposes.

This bill would include in the definition of agricultural commodity plant products used for producing biofuels.

Existing law, for purposes of the Williamson Act, defines open-space use to mean the use of land in a manner that preserves its natural characteristics, beauty, or openness for the benefit and enjoyment of the public, to provide essential habitat for wildlife, or for the solar evaporation of seawater within the course of salt production for commercial purposes, if the land is within, among other things, a wildlife habitat area or a managed wetland area, as defined.

This bill would include land that is within an area enrolled in the United States Department of Agriculture's Conservation Reserve Program or Conservation Reserve Enhancement Program.

Ch. 137 (AB 1808) Huff Ballot statements: candidates for federal office.

Existing law permits candidates for nonpartisan elective office in local agencies to prepare and submit to the elections official a candidate's statement of specified length and subject to specified conditions and at the candidate's expense, to appear in the voter's pamphlet accompanying the sample ballot. The existing Political Reform Act of 1974 also allows candidates for statewide elective office and candidates for the State Senate and Assembly to purchase the space to place a statement in the state ballot pamphlet or voter information portion of the sample ballot, as appropriate, of specified length and subject to specified conditions.

This bill would allow candidates for United States Senator and United States Representative to purchase space to place a statement in the state ballot pamphlet and the voter information portion of the sample ballot, respectively, of a specified length and subject to specified conditions. By placing new duties on local elections officials, the bill would impose a state-mandated local program.

The bill also would require the Secretary of State to include in the ballot pamphlet, for elections that include a question as to the confirmation or retention of justices of the Supreme Court, information on the justices, and, for elections that include the offices of President and Vice President of the United States, a notice that refers voters to its Internet Web site for information about the candidates for those offices.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 138 (AB 2554) Mullin Housing: local enforcement: relinquishment.

The Employee Housing Act, the Mobilehome Parks Act, and the Special Occupancy Parks Act authorize enforcement by a city, county, or city and county upon compliance with certain procedural requirements, and authorize relinquishment of local enforcement authority upon provision of written notice to the Department of Housing and Community Development. The department is required to assume responsibility for local enforcement within 30 days after receipt of the written notice.

This bill would require the department to assume responsibility for local enforcement within 90 days after receipt of the written notice.

The bill would provide for repayment of fees collected by the local authorities under the relinquished authority.

Ch. 139 (AB 2588) Charles Calderon Commercial vehicle vending: restrictions.

Existing law authorizes local authorities, by ordinance or resolution, to adopt requirements for the public safety regulating any type of vending from vehicles upon any street.

This bill would additionally authorize local authorities to impose time, place, and manner restrictions on vending activities from those vehicles.

Existing law, the California Retail Food Code (CRFC), provides for the regulation by the State Department of Public Health of health and sanitation standards for retail food facilities, as defined, including mobile food facilities.

This bill would expressly provide that the CRFC does not prohibit a local governing body from adopting requirements for the public safety regulating the type of vending and the time, place, and manner of vending from vehicles upon a street.

#### Ch. 140 (AB 2840) Berg Humboldt County: South Spit.

Existing law creates the Department of Fish and Game, within the Resources Agency, and by and through the department the fish and wildlife resources of the state are held in trust for the people of the state.

This bill would name certain specified portions of the South Spit in Humboldt County the Mike Thompson Wildlife Area, South Spit Humboldt Bay, upon the completion of Representative Thompson's legislative service.

#### Ch. 141 (SB 1127) Dutton State parks: cooperating associations.

Existing law establishes, within the Resources Agency, the Department of Parks and Recreation, which administers the state park system within the state.

Existing law authorizes the department, as a means of furthering the interpretive and educational functions of the state park system, to enter into agreements to act cooperatively with private nonprofit scientific or historical associations engaged in educational or interpretive work in state park system units. Existing law further authorizes the department to enter into contracts with certain parties for the construction, maintenance, and operation of concessions within the units of the state park system.

This bill, instead, would authorize the department to enter into agreements with nonprofit cooperating associations, as defined, rather than with the private nonprofit scientific or historical associations. The bill would also authorize concessions to provide materials and services intended to add to the convenience, enjoyment, and safety of visitors and would authorize concessions to provide certain educational and interpretive materials and services with the approval of the department.

#### Ch. 142 (SB 1169) Runner Inmates: health care services.

Existing law authorizes a county sheriff, police chief, or other public agency that contracts for emergency health services, to contract with providers of emergency health care services for care to local law enforcement patients. Under existing law, a county sheriff or police chief is prohibited from releasing inmates from custody for the purpose of seeking medical care, with the intent to rearrest, unless the hospital determines the action would enable it to collect from a third-party source. Existing law requires an Inmate Health Care and Medical Provider Fair Pricing Working Group to be convened and to meet at least 3 times annually to resolve industry issues that create fiscal barriers to timely and affordable emergency inmate health care, among other things. Under existing law, all of these provisions are to be repealed as of January 1, 2009.

This bill would extend those provisions to January 1, 2014, and would require the Inmate Health Care and Medical Provider Fair Pricing Working Group to meet as needed instead of at least 3 times annually. Because the bill would extend existing duties imposed upon local law enforcement, the bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 143 (SB 1378) Dutton Teachers: professional development.

Existing law establishes the professional development block grant and requires the Superintendent of Public Instruction to apportion block grant funds to a school district in the same relative statewide proportion that the school district received in the 2003–04 fiscal year for specified staff development programs. A school district may expend these funds for any purpose authorized by those programs. Among the purposes for which these funds may be expended are staff development instructional methods, including teaching strategies, classroom management and other training designed to improve pupil performance, conflict resolution, intolerance and hatred prevention, and academic content in the core curriculum areas.

This bill would authorize a school district that receives a professional development block grant to offer to each of its teachers 2 hours of staff development in the prevention of youth suicide.

Ch. 144 (SB 1684) Machado California Rehabilitation Oversight Board: reports.

Existing law establishes the California Rehabilitation Oversight Board in the Office of the Inspector General to regularly examine and report to the Legislature and Governor on the various mental health, substance abuse, educational, and employment programs for inmates and parolees operated by the Department of Corrections and Rehabilitation. Existing law requires the board to report to the Governor and the Legislature biannually, on January 15 and July 15.

This bill would instead require the board to report to the Governor and the Legislature biannually, on March 15 and September 15.

Ch. 145 (AB 1980) Swanson Peralta Community College District: transportation fees.

(1) Existing law establishes the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as one of the segments of public postsecondary education in this state. Existing law establishes community college districts throughout the state, and authorizes them to maintain campuses at which instruction is provided to students. Existing law authorizes the governing boards of the Los Rios and Rio Hondo community college districts to require that a transportation service fee be paid only by students and employees using the services, as specified. Existing law provides that these governing boards may adopt rules and regulations to exempt low-income students from this fee, or to require low-income students to pay all or part of this fee. Existing law prohibits the governing boards of the Los Rios and Rio Hondo community college districts from entering into, or extending, a contract for transportation services, funded by the proceeds of a transportation fee and provided by a common carrier or a municipally owned transit system, unless specified conditions are met.

This bill would make the Peralta Community College District as a community college district subject to these provisions.

This bill would, in the alternative, permit these fees to be assessed against all students taking a prescribed minimum number of course credits upon a majority vote of those students.

(2) An existing provision of the California Constitution provides that a local or special statute is invalid in any case if a general statute can be made applicable.

The bill would express a finding and declaration of the Legislature that, due to unique circumstances relating to the transportation services utilized by the community served by the

Peralta community college district, a general statute cannot be made applicable, and the enactment of this bill as a special statute is therefore necessary.

Ch. 146 (AB 2306) Karnette Battering: writ of habeas corpus.

Existing law, operative until January 1, 2010, establishes circumstances under which a writ of habeas corpus may be prosecuted for certain violent felonies on the basis of expert testimony regarding intimate partner battering that was not received in evidence at trial and may be sufficient to undermine confidence in the conviction, as specified.

This bill would extend the operation of those provisions until January 1, 2020.

Ch. 147 (AB 2349) Fuller Diseased animals and poultry: violations and penalties: administrative penalty.

Existing law provides for the regulation of animals and pests for the prevention and control of disease. Existing law also makes specified actions unlawful and subject to investigation by the Secretary of Food and Agriculture.

Existing law provides that any person who violates the provisions of law or regulations relating to diseased animals and poultry is liable for a civil penalty of not more than \$500 for each violation.

This bill would instead provide that, in addition to any other penalty or fine prescribed by law, any person who violates that law, is subject to an administrative penalty of not less than \$100 or more than \$1,000 for each violation. The bill would provide that if the secretary finds that a violation has occurred, he or she shall give the person charged notice of the nature of the violation and an opportunity to be heard pursuant to specified administrative adjudication provisions.

Ch. 148 (AB 2720) Levine Environment: environmental impact report.

(1) The California Environmental Quality Act (CEQA) requires a lead agency to prepare, or cause to be prepared by contract, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect.

CEQA prohibits an environmental impact report or negative declaration from being approved for any project involving the purchase of a schoolsite or the construction of a new elementary or secondary school by a school district unless specified conditions are met. CEQA further provides that, if a school district, as the lead agency, has carried out a specified consultation, the environmental impact report or the negative declaration shall be conclusively presumed to comply with those conditions, notwithstanding any failure of the consultation to identify an existing facility or other pollution source, as specified.

This bill would make technical, nonsubstantive changes in these provisions and would revise a cross-reference.

(2) CEQA prohibits the certification of an environmental impact report or the approval of a negative declaration for a project involving the construction or alteration of a facility within  $\frac{1}{4}$  of a mile from a school that might reasonably be anticipated to emit hazardous air emissions or a mixture containing extremely hazardous substances that may pose a health or safety hazard to persons who would attend or would be employed at the school unless a specified event occurs.

This bill would define “hazardous air emissions” and “extremely hazardous substances” for the purposes of that provision.

Ch. 149 (AB 2932) Karnette Instructional materials: submissions: criteria.

(1) Existing law requires the State Board of Education to adopt basic instructional materials for use in kindergarten and grades 1 to 8, inclusive, for governing boards of school districts. The state board is required to adopt at least 5 basic instructional materials for all applicable grade levels in language arts, mathematics, science, social science, bilingual or

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

bicultural subjects, and other subjects, disciplines, or interdisciplinary areas for which the state board determines instructional materials are necessary or desirable.

Existing law requires that instructional materials for language arts be submitted to the state board for adoption in 2008.

This bill would require instructional materials for foreign languages to be submitted to the state board for adoption in 2012, and instructional materials for health to be submitted to the state board for adoption in 2013.

(2) Existing law requires the state board to ensure that the instructional materials it adopts meet specified criteria, including, among others, the criteria the state board establishes as being necessary, as specified, and requires those criteria to be approved by resolution at the time the resolution adopting the framework for the current adoption is approved, or at least 30 months before the date that the materials are to be approved for adoption.

This bill would specify that the approval of criteria by those deadlines does not apply if specified conditions are met.

Ch. 150 (AB 3042) Committee on Public Employees, Retirement and Social Security Civil service.

(1) Existing law, with regard to the civil service, generally provides that whenever a notice, paper, or other document, except a subpoena, is directed to be given to or served upon any person or state agency, the notice, paper, or document may be personally served or served by mail to the last known residence or business address of the addressee. Existing law requires that giving of notice of matters to be heard or considered by the State Personnel Board or the Department of Personnel Administration be governed by board or department rule. Existing law provides a specified process for service by mail of the charges in a disciplinary proceeding, the notice of an employee's suspension, and the notice of a probationer's rejection.

This bill would revise and recast these provisions. The bill would require the appointing power to provide service of notice of certain actions, including a disciplinary action, a rejection during probation, a medical action, and various termination actions, by personal service or by mail or express service carrier, pursuant to a specified process. The bill, in permitting service by Express Mail, as specified, and by overnight delivery by express service carrier, would provide that any period of notice or any right or duty to do any act or make any response is extended as specified. The bill would also require service of an appeal or complaint filed with the board to follow this process. The bill would require a signed affidavit, in a specified form, of the person making service as proof of service for all papers, excluding appeals and complaints. The bill would require additional information on the affidavit if service is made by mail or express service carrier. The bill would delete provisions regarding matters to be heard or considered by the State Personnel Board or the Department of Personnel Administration, described above.

(2) Existing law contains various provisions relating to civil service and employer-employee relations between the state and its employees. Among other things, these provisions include procedures for disciplining state employees, including State Personnel Board investigations and hearings, the review of administrative decisions, and suspensions.

Existing law provides that certain of those disciplinary procedures do not apply to, and provides alternative procedures for, state employees in State Bargaining Unit 8 and state employees in State Bargaining Unit 11 who have been disciplined for positive drug test results and who expressly waive appeal to the State Personnel Board and invoke arbitration proceedings pursuant to a collective bargaining agreement. Existing law also provides that certain of those disciplinary procedures, as they apply to members of State Bargaining Units 8, 12, and 13, are subject to modification pursuant to the terms of a memorandum of understanding between the state employer and that bargaining unit, as specified.

Under existing case law, certain of the above provisions, which permit specified state employees to seek review of disciplinary actions through grievance or arbitration procedures outside of the State Personnel Board, were held to violate the state constitutional mandate that the board review disciplinary actions against state civil service employees.

This bill would repeal the disciplinary procedures described above, and certain other provisions relating to probationary periods, as those procedures and provisions apply to State Bargaining Units 8, 11, 12, and 13. The bill would make other related changes.

Ch. 151 (AB 372) Salas Consumer credit reports: security freezes.

Existing state and federal law defines and regulates consumer credit reports. Existing state law permits a consumer to place a security freeze on his or her credit report by making a request in writing by certified mail to a consumer credit reporting agency. Existing law requires an agency to place a security freeze on the consumer's credit report within 5 business days after receiving a request by the consumer. Existing law allows an agency to charge a fee of no more than \$10 to a consumer for each freeze, removal of a freeze, or temporary lift of a freeze, and no more than \$12 for a temporary lift of a freeze for a specific party, except as specified. Existing law requires a consumer credit reporting agency to provide a written summary of rights to a consumer in specified circumstances.

This bill would instead require that a request be sent by mail rather than by certified mail and would require a consumer credit reporting agency to place a security freeze within 3 business days after receiving a request from a consumer. The bill would authorize an agency to charge a fee of no more than \$10 to a consumer under 65 years of age and \$5 to a consumer 65 years of age or older for placing, temporarily lifting, or permanently removing a security freeze, except as specified. The bill would make certain changes to the written summary of rights described above.

Ch. 152 (AB 1424) Davis Elder and dependent adult abuse.

Existing law provides that violation of specified restraining or stay-away orders constitutes a contempt of court, and is punishable by imprisonment in the county jail not exceeding one year, a fine not exceeding \$1,000, or both imprisonment and that fine.

This bill would add to these provisions, orders relative to criminal proceedings involving elder or dependent adult abuse, as specified.

By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 153 (AB 2068) Aghazarian Domestic violence: elder abuse: harassment: workplace violence: orders and injunctions: service: notice to protected person.

Existing law excepts orders and injunctions relating to harassment, workplace violence, domestic violence, and elder abuse from a provision authorizing a sheriff or marshal to require the prepayment of fees prior to the performance of any official act.

This bill would authorize a sheriff or marshal, for any order or injunction relating to harassment, workplace violence, domestic violence, or elder abuse, for which the sheriff or marshal provides service of process and is prohibited under existing law from requiring payment of a fee, to notify the protected person by electronic or telephonic means within 24 hours after service of process that the order or injunction has been served on the restrained person, including the date and time when the order or injunction was served, if the protected person has requested this notification and has registered a telephone number or e-mail address at which the protected person may be contacted for this purpose.

Ch. 154 (AB 2289) Sharon Runner Victims' rights.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law generally provides for the confidentiality of juvenile records and proceedings, except as specified.

Existing law requires that the Chief Deputy Secretary for Juvenile Justice release specified information regarding a person committed to the Division of Juvenile Facilities for certain offenses, to the victim of the offense, the next of kin of the victim, or his or her representative as designated by the victim or next of kin, upon request, unless the court has ordered confidentiality for good cause. Existing law also requires that the chief deputy secretary or the chief deputy secretary's designee, with respect to persons committed to the Division of Juvenile Facilities for certain offenses, inform each victim of one of those offenses, the victim's next of kin, or a representative as designated by the victim or next of kin, of his or her right to request and receive that specified information.

This bill would require the release of that specified information regarding a person who has been committed to the Division of Juvenile Facilities for any offense instead of certain offenses. The bill would also require the victim, next of kin, or a representative as specified, to be informed of his or her right to request and receive that information with respect to persons committed to the Division of Juvenile Facilities for any offenses instead of certain offenses.

The bill would make other technical conforming changes.

#### Ch. 155 (AB 2410) Nava Sexually violent predators.

Existing law requires, prior to release from the custody of the Department of Corrections and Rehabilitation of a person who has been convicted of certain crimes of a sexual nature, the director to refer that person to the State Department of Mental Health for evaluation if the director determines that person may be a sexually violent predator.

Under existing law, if the State Department of Mental Health determines that the person is a sexually violent predator, the department is required to forward a request for the filing of a petition to the counsel designated by the county in which the person was convicted. The law authorizes civil commitment of the person to the State Department of Mental Health as a sexually violent predator for treatment in a secure facility, if the person is adjudicated to be likely to engage in sexually violent criminal behavior if discharged.

This bill would prohibit an attorney from disclosing the name, address, telephone number, or other identifying information of a victim or witness in a sexually violent predator civil commitment proceeding, except to their staff, to opposing counsel as needed to prepare the case, or pursuant to a court order after a hearing. Willful violation of this prohibition would be a misdemeanor. If the defendant is acting as his or her own counsel, this bill would require that contact with the victim or witness be through a private investigator or otherwise restricted to protect the identity and personal information of the victim or witness.

This bill would also prohibit disclosure of a victim's identifying information that is discovered in the process of preparation for a sexually violent predator civil commitment proceeding by an agent of the Department of Corrections and Rehabilitation, Board of Parole Hearings, or the State Department of Mental Health.

This bill would also allow the court to identify the victim in all records and during all proceedings of a sexually violent predator civil commitment proceeding as Jane Doe or John Doe, as long as it is not prejudicial to either side and the jury is instructed that the victim's identity is being withheld to protect his or her privacy.

Because the bill would create a new crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 156 (SB 1448) Scott Real estate brokers and salespersons: fines.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law, the Real Estate Law, provides for the licensure and regulation of real estate salespersons and real estate brokers by the Real Estate Commissioner. Existing law specifies the punishment for conviction of the offense of acting as a real estate broker or salesperson or advertising as a real estate broker without being licensed.

This bill would increase the maximum fine for that offense from \$10,000 to \$20,000 if the violation is committed by a person and from \$50,000 to \$60,000 if the violation is committed by a corporation. The bill would require, if a Real Estate Fraud Prosecution Trust Fund exists in the county where the person or corporation is convicted, any fine collected from the person or corporation in excess of the existing maximum amount be deposited in that fund.

Ch. 157 (SB 1432) Margett Contractors.

(1) Existing law, the Contractors' State License Law, provides for licensure and regulation of contractors by the Contractors' State License Board and requires a licensee to notify the registrar of contractors in writing of any unsatisfied judgment imposed on the licensee. Existing law requires that a licensee, or applicant for a license, and the qualifying individual of a licensee or applicant file or have on file a \$12,500 contractor's bond, except as specified. Existing law requires that these bonds be for the benefit of, among others, a homeowner contracting for home improvement upon the homeowner's personal family residence damaged as a result of a violation of the Contractors' State License Law.

This bill would also require that the contractor's bond and the qualifying individual's bond be for the benefit of a property owner contracting for the construction of a single-family dwelling who is damaged as a result of a violation of the Contractors' State License Law, if the dwelling is not intended or offered for sale at the time the damages were incurred.

(2) Existing law provides that a contractor, or a qualifying individual acting in the capacity of a contractor, shall provide a bond or deposit, as specified, for the benefit of homeowners and other persons damaged as a result of specified violations. Existing law provides that any action, other than to recover wages or fringe benefits, against a contractor's bond or the bond of a qualifying individual shall be brought within 2 years after the expiration of the license period during which the act or omission occurred or within 2 years of the date that the license was inactivated, canceled, or revoked, whichever first occurs.

This bill would instead provide that the action, other than to recover wages or fringe benefits, against the contractor's bond or the bond of a qualifying individual must be brought within 2 years after the expiration of the license period during which the act or omission occurred or within 2 years of the date the license of the active licensee would have expired had the license not been inactivated, canceled, or revoked.

(3) Existing law specifies that the jurisdiction of the small claims court includes various actions in which the demand does not exceed \$5,000, with specified exceptions. This jurisdiction includes (1) any action brought by a natural person against the Registrar of the Contractors' State License Board as the defendant guarantor if the demand does not exceed \$7,500, except as specified, (2) any action against a defendant guarantor that does not charge a fee for its guarantor or surety services, if the amount of the demand does not exceed \$2,500, and (3) any action against a defendant guarantor that charges a fee for its guarantor or surety services or an action brought by an entity other than a natural person against the Registrar of the Contractors' State License Board as the defendant guarantor, if the amount of the demand does not exceed \$4,000.

This bill would increase the jurisdiction of the small claims court for any action brought by a natural person against a defendant guarantor that charges a fee for its guarantor or surety services from \$4,000 to \$6,500.

Ch. 158 (SB 1458) Committee on Local Government Local government: the County Service Area Law.

(1) The County Service Area Law authorizes the formation of county service areas to provide authorized services, as specified.

This bill would revise and recast the County Service Area Law and make conforming changes.

(2) This bill would incorporate additional changes in Section 56375 of the Government Code, proposed by AB 1263, to be operative only if AB 1263 and this bill are both chaptered and become effective January 1, 2009, and this bill is chaptered last.

(3) This bill would incorporate additional changes in Section 57075 of the Government Code, proposed by AB 2484, to be operative only if AB 2484 and this bill are both chaptered and become effective January 1, 2009, and this bill is chaptered last.

Ch. 159 (AB 811) Levine Contractual assessments: energy efficiency improvements.

Existing law authorizes the legislative body of any city, as defined, to determine that it would be convenient and advantageous to designate an area within which authorized city officials and free and willing property owners may enter into contractual assessments and make arrangements to finance public improvements to specified lots or parcels under certain circumstances. Existing law requires the legislative body to make these determinations by adopting a resolution indicating its intention to do so and requires the resolution to include certain information, including, but not limited to, identification of the kinds of public works that may be financed, a description of the boundaries of the area within which contractual assessments may be entered into, and a description of the proposed arrangements for financing the program. Existing law also requires the resolution to direct an appropriate city official to prepare a report to include, among other things, the terms and conditions that would be agreed to by a property owner within the contractual assessment area and the city and identification of the types of facilities that may be financed through the use of contractual assessments.

This bill would require the resolution adopted by the legislative body to direct an appropriate official to enter into consultations with the county auditor's or controller's office regarding additional fees, if any, to be charged for incorporating the proposed contractual assessment into the assessments of general real property taxes.

The bill would additionally authorize a legislative body of any city, as defined, to determine that it would be in the public interest to designate an area within which authorized city officials and free and willing property owners may enter into contractual assessments to finance the installation of distributed generation renewable energy sources or energy efficiency improvements that are permanently fixed to real property, as specified. The bill would require the resolution of intention to include, among other things, the kinds of distributed generation renewable energy sources or energy efficiency improvements that may be financed as well as a statement specifying that it is in the public interest to finance those distributed generation renewable energy sources or energy efficiency improvements. The bill would further require the report to include, among other things, the types of distributed generation renewable energy sources or energy efficiency improvements that may be financed through the use of contractual assessments. The bill would authorize a property owner, upon written consent of an authorized city official, to purchase directly the related equipment and materials for the installation of distributed generation renewable energy sources or energy efficiency improvements and to contract directly for the installation of those sources or improvements. The bill would make findings and a declaration in this regard.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 160 (AB 1812) Arambula Taxpayer contributions: California firefighters' and peace officer memorial funds.

Under existing law regulating the administration of personal income taxes and corporation taxes, individual taxpayers are allowed to contribute amounts in excess of their tax liability for the support of specified funds or accounts, including, among others, the California

Firefighters' Memorial Fund and the California Peace Officer Memorial Foundation Fund. Existing law provides for the repeal of the contribution provisions for these funds on January 1, 2011.

This bill would instead repeal those provisions on January 1, 2016.

Ch. 161 (AB 2025) Silva Commercial real property: termination of tenancy: disposition of personal property.

Existing law provides for the disposition of personal property remaining on the premises at the termination of a tenancy, as specified. Existing law generally provides that if the landlord reasonably believes that the total resale value of the personal property is less than \$300, the landlord may retain the property for his or her own use or dispose of it in any manner.

This bill would provide for the disposition of personal property remaining on the premises of commercial real property, as defined, at the termination of a tenancy, as specified. The bill would also generally provide that, in the case of a tenancy of commercial real property, if the landlord reasonably believes that the total resale value of the personal property is the lesser of \$750 or \$1 per square foot of the premises occupied by the tenant, the landlord may retain the property for his or her own use or dispose of it in any manner. The bill would make conforming changes to related provisions.

Ch. 162 (AB 2307) Price Telephone services: change in telephone service provider.

Existing law prohibits a telephone corporation, or any person, firm, or corporation representing a telephone corporation, from changing a subscriber's telephone service provider without specified verification, including for residential service, independent 3rd-party verification meeting specified requirements, and notification by the United States Postal Service.

This bill would provide that a subscriber's decision to change the residential telephone service provider may be verified by using electronic means that comply with specified requirements set forth in federal law.

Ch. 163 (AB 2801) Carter Conflict of interest: settlements.

Existing law provides that Members of the Legislature and state, county, district, judicial district, and city officers or employees shall not be financially interested in any contract made by them in their official capacity, or by any body or board of which they are members.

Existing law also provides that an officer shall not be deemed to be interested in a contract under these provisions if the officer has only a remote interest, as specified.

This bill would provide that a remote interest for this purpose includes that of a party to litigation involving the body or board of which the officer is a member in connection with a settlement agreement in which the body or board is represented by legal counsel, a court finds, after a review of the merits and other relevant facts and circumstances, that the agreement serves the public interest, and the interested member has recused himself or herself from all participation, direct or indirect, in the making of the agreement on behalf of the body or board.

Ch. 164 (AB 3044) Committee on Public Employees, Retirement and Social Security County employees' retirement.

(1) The County Employees Retirement Law of 1937 governs retirement plans for county employees.

This bill would make various technical, nonsubstantive changes to the County Employees Retirement Law of 1937 by deleting obsolete provisions and updating references.

(2) Existing law, applicable to the County of Los Angeles and any other county that has elected to apply this provision, provides that a member's ex-spouse who is receiving or is entitled to receive payments under the above retirement system pursuant to an order of the

court dividing the community property interest in the member's retirement allowance may designate one or more beneficiaries who shall receive those payments following the death of the ex-spouse.

This bill would provide, in addition, that if there is no designated beneficiary, payment shall be made to the estate of the ex-spouse.

(3) Existing law requires that certain expenses relating to administration of a county retirement system be charged against the earnings of the retirement fund. Existing law, applicable in certain counties, including the Counties of Orange and San Bernardino, provides that the board of retirement pay, from system assets, reasonable compensation for legal services. Existing law, applicable to the Counties of Orange and San Bernardino, allows the board of retirement to appoint specified administrative personnel, including legal counsel, and requires that compensation of personnel so appointed be an expense of administration of the retirement system.

This bill would clarify the requirement that the boards of retirement for the Counties of Orange and San Bernardino pay reasonable compensation for legal services from system assets. This bill would also incorporate an additional technical change in the provisions described above that would be operative only if AB 2666 and this bill are both operative and become effective on or before January 1, 2009, and AB 2666 adds a specified section to the Government Code.

(4) Under existing law, a board of supervisors may, by resolution, require that the retirement allowance of safety members in a specified category within a county employee retirement plan be computed based on a member's eligibility for federal old age and survivors' insurance coverage.

This bill would allow a board of supervisors, in addition, to require that the retirement allowance of safety members in another specified category within a county employee retirement plan be computed based on a member's eligibility for federal old age and survivors' insurance coverage.

(5) Existing law permits the board of supervisors of a county to make different, specified pension benefit formulas applicable to members who are classified as safety members. Certain of these pension benefit formulas prohibit a safety member from continuing to make employee contributions to the retirement fund if the member has credit for 30 years continuous service. Existing law provides for reciprocity of retirement benefits for a member of a retirement system established under the County Employees Retirement Law of 1937 and other specified public retirement systems who retires concurrently from those retirement systems, as specified.

This bill would provide, in Los Angeles, that service for the purposes of specified pension benefit formulas applicable to safety members includes service as an employee of the state, a contracting agency under the Public Employees' Retirement System, another county having a retirement system established under the County Employees Retirement Law of 1937, or another public agency, as specified. The bill would specify that these provisions are declaratory of existing law.

#### Ch. 165 (AB 3049) Committee on Judiciary State Bar Act: fees.

Existing law, the State Bar Act, provides for the licensure and regulation of attorneys by the State Bar of California, a public corporation. Existing law requires the Board of Governors of the State Bar to charge an annual membership fee to active members of up to \$315 for the year 2008. Existing law authorizes the board, until January 1, 2011, to increase the annual membership fee by an additional amount not exceeding \$10 for the costs of upgrading the board's information technology system, as specified.

This bill would require the board to fix the annual membership fee for active members for 2009 at a sum not to exceed \$315. The bill would require the board to report to the Assembly and Senate Committees on Judiciary, on or before April 1, 2009, and twice thereafter as specified, on the use of the additional funds collected for the costs of upgrading the board's

information technology system. The bill also would, until January 1, 2014, authorize the board to increase the annual membership fees by an additional amount not exceeding \$10 to be used only for the costs of financing, constructing, purchasing, or leasing facilities to house State Bar staff, as specified, and for major capital improvement projects related to facilities owned by the State Bar, as specified, and would require the board, at least 60 days, or 90 days in certain circumstances, prior to entering into an agreement for purchase of a facility in southern California, to submit its proposed decision and cost estimate for the facility to the Assembly and Senate Committees on Judiciary for review. If the board does not enter into such a contract, and other conditions are not satisfied, the bill would require these additional fees to be credited to members, as specified. The bill would also delete obsolete provisions relating to certain reporting requirements.

#### Ch. 166 (AB 3051) Jones Dependent children.

(1) Existing law regulates the establishment and termination of guardianships. Existing law excepts from these provisions guardianships that result from the selection and implementation of a permanent plan for a child adjudged a dependent child of the court under specified circumstances.

This bill would prohibit the guardianship laws described above from being construed to prevent a court that assumes jurisdiction of a minor child or a probate court, as specified, from issuing orders or making appointments, on the motion of the child's counsel, necessary to ensure the appropriate administration of funds for the benefit of the child, as specified. The bill would provide that orders or appointments established under these circumstances may continue after the court's jurisdiction is terminated, as specified. The bill also would correct obsolete cross-references in connection with these provisions.

(2) Existing law entitles a minor who is the subject of a juvenile court hearing involving dependent child proceedings to be present at that hearing. The minor has the right to be represented at the hearing by counsel of his or her own choice.

This bill would require the court to allow a minor who is the subject of a juvenile court hearing involving dependent child proceedings and who is present at the hearing, to address the court and participate in the hearing, if the minor so desires.

(3) Existing law requires the court to determine whether a minor was properly notified of his or her right to attend the hearing when that minor is 10 years of age or older, is the subject of a juvenile court hearing involving dependent child proceedings, and is not present at the hearing.

This bill would also require the court to inquire whether the minor was given an opportunity to attend the hearing. This bill would require the court to continue the hearing to allow the minor to be present, if the court finds the minor was not properly notified or if he or she wished to be present and was not given an opportunity to be present, unless the court finds that it is in the best interest of the minor not to continue the hearing. The bill would require that the court continue the hearing only for that period of time necessary to provide notice and secure the presence of the child. The bill would also authorize the court to issue any and all orders reasonably necessary to ensure that the child has an opportunity to attend. The bill would also declare that nothing in those provisions shall prevent or limit any child's right to attend or participate in the hearing.

#### Ch. 167 (SB 662) Wiggins Veterans' Home of California.

Existing law provides for the establishment and operation of the Veterans' Home of California at various sites, and requires each home to be under the management and control of the Department of Veterans Affairs, subject to the policies adopted by the California Veterans Board.

Existing law also requires that there be an administrator at each home or homesite, who shall manage and administer its affairs, and, subject to direction of the Director of Veterans Affairs, adopt rules and regulations for the government of the home.

This bill would make technical changes and nonsubstantive, clarifying changes to these provisions.

Ch. 168 (SB 685) Yee Pet trusts.

Existing law provides that a trust for the care of a designated domestic or pet animal may be performed by the trustee for the life of the animal, whether or not there is a beneficiary who can seek enforcement or termination of the trust and whether or not the terms of the trust contemplate a longer duration.

This bill would repeal the provisions regarding domestic or pet animal trusts and would provide instead that a trust for the care of an animal is for a lawful noncharitable purpose and terminates when no animal is living on the date of the settlor's death, unless otherwise provided in the trust. The bill would require a court to liberally construe an animal trust to bring it within the bill's provisions, to presume against an interpretation that would render the disposition a mere request or an attempt to honor the animal, and to carry out the general intent of the trust. The bill would provide an order of disposition of trust property upon termination of the trust and would provide authority for the court to name a trustee and to transfer trust property, as specified. This bill would permit any person interested in the welfare of the animal or any nonprofit charitable organization that has as its principal activity the care of animals to petition the court regarding the trust, as specified. The bill would provide a process for an accounting of the trust, to be waived if the value of the trust assets does not exceed \$40,000, as specified. The bill would permit beneficiaries of the trust, a person designated by the trust, or certain nonprofit charitable organizations, upon reasonable request, to inspect the animal, the premises where the animal is maintained, or the books and records of the trust. The bill would except these trusts from the application of specified provisions generally regarding the termination of trusts.

Ch. 169 (SB 940) Yee Temporary services employees: wages.

Existing law requires that all wages be paid twice during each calendar month, that wages be paid immediately upon discharge, and that wages be paid within 72 hours if an employee quits, with certain exceptions.

This bill would provide that for employees of temporary services employers, as defined, wages shall be paid weekly, or daily if an employee is assigned to a client, as defined, on a day-to-day basis or to a client engaged in a trade dispute. This bill would not apply to employees who are assigned to a client for over 90 consecutive calendar days unless the employer pays the employee weekly in compliance with this bill.

Existing law imposes civil and criminal penalties on an employer who violates certain wage payment requirements.

This bill would apply these civil and criminal penalties to the wage payment requirements established by this bill. Because the bill would create a new crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 170 (SB 1107) Correa Mobilehome parks: disabled accommodations and caregivers.

The Mobilehome Residency Law governs residency in mobilehome parks and includes provisions that are applicable to those who have an ownership interest in a subdivision, cooperative, or condominium for mobilehomes, or a resident-owned mobilehome park, as specified. Among other things, these provisions set forth the rights of residents and homeowners regarding the use of the property.

This bill would require the management of a mobilehome park to permit a homeowner or resident to install accommodations for the disabled on the home or the site, lot, or space on which the mobilehome is located, under specified conditions. The bill would authorize the management to require that the accommodations installed be removed by the current homeowner at the time the home is removed from the park or pursuant to a written agreement prior to the completion of the resale of the home, as specified. The bill would specify that these provisions are not exclusive.

Existing law authorizes a homeowner who is 55 years of age or older and has a tenancy in a mobilehome park under a rental agreement to share his or her mobilehome with any person over 18 years of age if that person is providing live-in health care or live-in supportive care to the homeowner pursuant to a written treatment plan prepared by the homeowner's physician, and prohibits the management of the mobilehome park from charging a fee for that person. A similar provision applies if the homeowner has an ownership interest in a subdivision, cooperative, or condominium for mobilehomes, or a resident-owned mobilehome park in which the homeowner's mobilehome is located and a person provides live-in health care, live-in supportive care, or supervision to the homeowner. The person providing care or supervision does not have rights of tenancy in the mobilehome park.

This bill would expand those provisions to apply to any homeowner without regard to age.

Ch. 171 (SB 1216) Scott Insurance: long-term care.

Existing law generally regulates long-term care insurance policies.

This bill would provide that, as to accepted long-term care claims accepted on or after December 1, 2008, interest shall accrue and shall be payable to the claimant at the rate of 10% per annum on the amount of any accepted claim, beginning on the first calendar day after payment of the accepted claim is due, as specified.

Ch. 172 (SB 1258) Lowenthal Building standards: graywater.

The California Building Standards Law provides for the adoption of building standards by state agencies by requiring all state agencies that adopt or propose adoption of any building standard to submit the building standard to the California Building Standards Commission for approval and adoption.

Existing law requires the Department of Housing and Community Development to propose the adoption, amendment, or repeal of building standards to the commission relating to hotels, motels, lodging houses, apartment houses, and dwellings, and the buildings and structures accessory thereto, except as specified.

Existing law authorizes a city or county to make changes or modifications in the building standards proposed by the department and approved by the commission, to provide for local variances relating to local climatic, geological, or topographical conditions, upon making certain findings and filing those findings with the commission.

This bill would require the department, at the next triennial building standards rulemaking cycle that commences on or after January 1, 2009, to adopt and submit to the commission for approval building standards for the construction, installation, and alteration of graywater, as defined, systems for indoor and outdoor uses. The bill would terminate the authority of the Department of Water Resources to adopt graywater standards for residential buildings upon the approval by the commission of the standards submitted under the bill.

The bill would authorize a city, county, or other local agency to adopt, after a public hearing and enactment of an ordinance or resolution, building standards that prohibit entirely the use of graywater, or building standards that are more restrictive than the graywater building standards adopted by the department and published in the California Building Standards Code.

Ch. 173 (SB 1263) Ashburn Intercity rail services: feeder buses.

Existing law authorizes the Department of Transportation to contract with Amtrak to provide intercity rail passenger services. Existing law also authorizes the department to provide funding to Amtrak to contract for feeder bus services operated in conjunction with the intercity trains, but subject to the restriction, among others, that the bus services be used only by passengers who are connecting to or from a train, subject to specified exceptions, including an exception for passengers traveling solely on the feeder bus between Sacramento and Lake Tahoe and intermediate points if no private intercity bus company provides bus service on that route.

This bill, with respect to feeder bus service contracted by Amtrak, would add an additional exception to allow passengers to travel solely by bus between the community of Lebec in Kern County and the City of Santa Clarita if no private intercity bus company provides bus service on that route. The bill would authorize the department to amend its contract with Amtrak for that purpose.

Ch. 174 (SB 1264) Harman Wills and trusts: no contest clauses.

Existing law, in relation to wills, trusts, and other instruments, defines and regulates no contest clauses, which are provisions in otherwise valid instruments that, if enforced, penalize beneficiaries if the beneficiaries file a contest with the court. Existing law provides that a no contest clause in a will or a trust is generally enforceable and defines a “contest” and “direct contest” in this regard. Existing law provides that certain actions do not constitute a contest unless expressly identified in the no contest clause as a violation. Existing law exempts certain contests from the enforcement of the no contest clause under specified circumstances, including if there is reasonable cause to believe that instrument has been revoked. Existing law permits a beneficiary to apply to a court for a determination of whether a particular motion, petition, or other act by the beneficiary would be a contest within the terms of a no contest clause.

This bill, beginning January 1, 2010, would revise, recast, and clarify these provisions. The bill would limit the application of a no contest clause to specific contests. The bill would redefine “direct contest,” and would provide that a no contest clause may be enforced against a direct contest only when it is brought without probable cause, which the bill would define for these purposes. The bill would delete the provisions regarding the authority of a beneficiary to apply to a court for a determination regarding a no contest clause, as described above.

Ch. 175 (SB 1393) Scott Nursing programs.

(1) Existing law provides that a student of a registered nursing program at a campus of the California State University or California Community Colleges, who holds a baccalaureate degree from a regionally accredited institution, may not be required to complete general education requirements. Instead, the student may only be required to complete coursework that is necessary for licensing as a registered nurse.

This bill would specifically prohibit a campus of the California State University or California Community Colleges from requiring a student of a registered nursing program with a baccalaureate degree from a regionally accredited institution to complete any coursework other than that which is unique and exclusively required to earn a nursing degree from that institution.

(2) Existing law prohibits a community college district from excluding an applicant to a registered nursing program on the sole basis that the applicant is not a resident of that district or has not completed prerequisite courses in that district.

This bill would instead specify that a district is prohibited from either excluding an applicant on the basis that the applicant is not a district resident or has not completed prerequisite courses in that district, or from implementing policies, procedures, and systems, including, but not limited to, priority registration systems, that have the effect of excluding

an applicant or student who is not a resident of that district from a registered nursing program of that district.

Ch. 176 (SB 1399) Simitian Public resources: solar shading.

Existing law prohibits a person owning or in control of a property from allowing a tree or shrub to be placed or to grow on the property subsequent to the installation of a solar collector on the property of another if the tree or shrub casts a shadow of a specified size on the collector absorption area during specified times. A person who violates this prohibition and who fails to remove or alter the tree or shrub after receiving reasonable notice is guilty of an infraction for maintaining a public nuisance and subject to a criminal fine not to exceed \$1,000 for each violation. Existing law exempts trees and shrubs under specified conditions. Existing law authorizes a city, county, or city and county to adopt an ordinance exempting its jurisdiction from the above prohibition. Existing law defines "solar collector" for these purposes as a device or structure used primarily to transform solar energy into thermal, chemical, or electrical energy.

This bill would authorize the owner of property where the solar collector is to be installed to provide, prior to its installation, a written notice by certified mail containing specified information to owners of affected property. The bill would, further, exempt trees and shrubs planted prior to the time of the installation of a solar collector, trees and shrubs that are subject to a local ordinance, or the replacement of trees or shrubs that have been growing before the installation of a solar collector and that are subsequently removed for the protection of public health, safety, or the environment. The bill would redefine "solar collector" to be the above described device or structure on the roof of a building, except it would include the device or structure installed on the ground if it cannot be installed on the roof of the building due to specified conditions, and would exclude a device or structure that is designed and intended to offset more than the building's electricity demand. The bill would repeal the public nuisance violation of the above requirement, and would provide that a tree or shrub maintained in violation of the above requirement is instead a private nuisance if the person who maintains or permits the maintenance of the tree or shrub receives a written notice from the owner of the affected solar collector requesting compliance. The bill would provide that a local ordinance specifying the requirements for tree preservation or solar shade control would govern within the jurisdiction that adopted the ordinance. The bill would also make technical nonsubstantive changes.

Ch. 177 (SB 1409) Ackerman Corporations: annual reports.

Existing law, the General Corporation Law, requires corporate boards to send a specified annual report to shareholders, consisting of, but not limited to, a balance sheet, an income statement, and a statement of cashflows accompanied by any report by independent accountants. Existing law, except as otherwise specified, requires that this report be sent to shareholders at least 15 days prior to the annual meeting of shareholders.

This bill would specify that these requirements shall be considered satisfied if a corporation with an outstanding class of securities registered under specified provisions of federal law complies with certain federal regulations relating to the Internet availability of an annual report.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 178 (SB 1435) Ducheny Marinas and harbors: funding.

Existing law authorizes the Department of Boating and Waterways to make loans to private marina owners for construction costs, not including planning, design, and other similar expenses, to develop a recreational marina.

This bill would instead allow loan funds also to be utilized for collateral appraisals, permit fees, planning, engineering, and design expenses directly related to developing a recreational marina.

Ch. 179 (SB 1498) Committee on Judiciary Maintenance of the codes.

Existing law directs the Legislative Counsel to advise the Legislature from time to time as to legislation necessary to maintain the codes.

This bill would make nonsubstantive changes in various provisions of law to effectuate the recommendations made by the Legislative Counsel to the Legislature.

Ch. 180 (SB 1530) Hollingsworth Office of the Governor: succession.

Existing law lists, in order, the state officers that succeed to the office of the Governor under certain circumstances.

This bill would add the Superintendent of Public Instruction, the Insurance Commissioner, and the Chair of the Board of Equalization to those lists.

Ch. 181 (SB 1612) Kuehl Guardian ad litem.

Existing law permits a court in which an action or proceeding is prosecuted to appoint a guardian ad litem to represent a minor, incompetent person, or person for whom a conservator has been appointed, even if the person may have a guardian or conservator of the estate and may have appeared by means of the guardian or conservator of the estate. Existing law permits a minor 12 years of age or older to appear in court without a guardian, counsel or guardian ad litem for specified purposes. Existing law establishes a procedure for the determination of a father and child relationship and permits a natural mother to be made a party and given notice of the action.

This bill would permit a minor child who is the parent of a child who is the subject of certain proceedings, including those involving child dependency, parentage, and guardianship, to appear in court without a guardian ad litem. The bill would require a court to appoint a guardian ad litem in these circumstances if the court finds that the minor parent is unable to understand the nature of the proceedings or to assist counsel in preparing the case.

Ch. 182 (SB 1615) Florez Attorney General: designations.

Existing law provides that any officer whose office is created by the California Constitution and who is made a member of a state board, commission, or committee, or of the governing body of any state agency or authority may designate a deputy of his or her office holding a specified position to act as the member in the constitutional officer's place and stead to all intents and purposes as though the constitutional officer were personally present. Existing law expressly provides the circumstances under which the Lieutenant Governor, Attorney General, and Superintendent of Public Instruction may designate a deputy of his or her office for that purpose.

This bill would expressly provide that the Attorney General may designate any employee in his or her office to act as a deputy for those purposes.

Ch. 183 (SB 1621) Ashburn Nursing education.

(1) Existing law establishes the Student Aid Commission as the primary state agency for the administration of state-authorized student financial aid programs available to students attending all segments of postsecondary education. Existing law establishes the State Nursing Assumption Program of Loans for Education (SNAPLE), administered by the commission, under which any person enrolled in, or a graduate of, an institution of postsecondary education or who has earned a baccalaureate or graduate level degree, and who meets the other requirements of the program, is eligible to receive a conditional loan assumption agreement, to be redeemed upon becoming employed as a full-time nursing faculty member at a California college or university.

This bill would specify that an otherwise qualified person who has obtained a baccalaureate or graduate degree from an institution of postsecondary education is eligible to receive a conditional loan assumption agreement. The bill would limit participation in the SNAPLE program to those who, at a minimum, possess a baccalaureate degree in nursing or a field related to nursing. The bill would prohibit a person who is currently teaching

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

nursing at a regionally accredited California college or university from entering into an agreement for loan assumption.

(2) Existing law requires the commission to award loan assumption agreements to undergraduate and graduate students with demonstrated academic ability and financial need, as specified. Existing law requires that, unless an exception applies, program participants agree to teach nursing at a college or university within 12 months after obtaining an academic degree.

The bill would delete provisions of law relating to the award of loan assumption agreements to undergraduate students. The bill would make conforming changes to existing law. The bill would require a participant possessing a baccalaureate or graduate degree at the time of application to agree to teach nursing on a full-time or part-time basis commencing not more than 12 months after receiving a loan assumption award.

(3) Existing law requires a program participant pursuing a baccalaureate or graduate degree to be enrolled on at least a half-time basis each academic term and to agree to maintain satisfactory academic progress.

This bill would, unless certain exceptions apply, invalidate the loan assumption agreement if a participant fails to maintain half-time enrollment. The bill would provide that a participant who fails to maintain half-time enrollment receive a deferral of the resumption of the full liability for the loan or an extension of the loan assumption agreement for a period not to exceed one calendar year, unless approved by the commission for a longer period, under specified circumstances.

(4) Existing law extends the term of a loan assumption agreement if a program participant fails to complete one of the 3 years of teaching service on a full-time basis, or the equivalent on a part-time basis, due to specified circumstances.

This bill would, in addition, extend the term of a loan assumption agreement if a program participant fails to complete one of the 3 years of teaching service due to being called to military active duty status.

(5) Existing law requires the commission to develop and adopt a rule or regulation no later than 6 months after the operative date of a statute that adds a provision of law to the SNAPLE program.

This bill would extend this period to 12 months after the operative date of the statute that amends the program.

Ch. 184 (AB 259) Adams Crimes: sale or distribution of *Salvia divinorum*.

Under existing law, the sale or distribution of specified intoxicating substances is a crime, punishable by imprisonment or a fine.

This bill would make the sale or distribution of *Salvia divinorum* or *Salvinorin A*, or any substance or material containing *Salvia divinorum* or *Salvinorin A*, to any person under 18 years of age a misdemeanor, punishable by imprisonment in a county jail for not more than 6 months, by a fine of no more than \$1,000, or both.

Because this bill would create a new crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 185 (AB 387) Duvall Design-build: transit contracts.

Existing law authorizes, until January 1, 2011, transit operators to enter into a design-build contract, as defined, according to specified procedures. Existing law requires a transit operator to select a design-build entity based on either the lowest responsible bidder or best value for nonrail transit projects that exceed \$2,500,000.

This bill would provide that there would be no cost threshold for the acquisition and installation of technology applications or surveillance equipment designed to enhance safety, disaster preparedness, and homeland security efforts, and would allow those projects to be awarded based on either the lowest responsible bidder or best value.

**Ch. 186 (AB 415) Karnette Public school employees: merit system.**

Existing law requires all vacancies in the classified service of a school district that has adopted the merit system to be filled from applicants on eligibility lists that are made up from promotional examinations or other specified methods. Existing law requires that if a vacancy is filled from applicants on an eligibility list, the appointment is to be made from the eligible candidates having the first 3 ranks on the list. Existing law, until January 1, 2012, in a school district with a pupil population over 400,000, authorizes an appointment to be made from other than the first 3 ranks on the eligibility list if specialized licenses, certifications, knowledge, or ability that cannot reasonably be acquired during the probationary period or a specific gender is required for successful job performance of a position, in which case the appointment is required to be made from among the highest 3 ranks of applicants on the list who meet the special requirements. Existing law makes these provisions apply only to specified classifications of positions.

This bill in addition would make these provisions apply to classifications that have been designated as management.

**Ch. 187 (AB 518) Mendoza Barbering and cosmetology: threading.**

Existing law, the Barbering and Cosmetology Act, regulates barbering, cosmetology, skin care, nail care, and electrolysis. Existing law, until July 1, 2009, excludes threading, as defined, from the practice of barbering and cosmetology.

This bill would delete the July 1, 2009, inoperative date for that provision, thereby excluding threading, as defined, from the practice of barbering and cosmetology indefinitely.

**Ch. 188 (AB 1150) Lieu Health care coverage: underwriting practices.**

The Knox-Keene Health Care Service Plan Act of 1975, the willful violation of which is a crime, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. Existing law also provides for the regulation of health insurers by the Insurance Commissioner. Under existing law, persons retained by a health care service plan or a disability insurer to review claims for health care services may not be compensated based either on a percentage of the amount by which a claim for payment is reduced or on the number of claims or the cost of services for which the person has denied authorization or payment.

This bill would prohibit the compensation of a person or entity employed by, or contracted with, a health care service plan or disability insurer from being based on, or related to, the number of health care service plan or health insurance contracts, policies, or certificates that the person has caused or recommended to be rescinded, canceled, or limited, or the resulting cost savings to the plan or insurer. The bill would also prohibit a plan or insurer from setting performance goals or quotas, or providing compensation to any person or entity employed by or contracted with the plan or insurer, based on the number of persons whose health coverage is rescinded or any financial savings to the plan or insurer associated with rescission of coverage. Because this bill would create a new prohibition applicable to health care service plans, the willful violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 189 (AB 1913) Fuller Cotton.**

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law establishes within state government the San Joaquin Valley Cotton Board, which is composed of 10 cotton growers, 6 cotton industry members operating in the San Joaquin Valley, and one public member.

This bill would change the composition of that board to 7 cotton growers, 3 cotton industry members, and one public member, as specified, and would make other changes related to the board's duties.

Existing law relating to the San Joaquin Valley Cotton Board defines terms governing those provisions.

This bill would define "cotton growers" or "growers" to mean any person in the district who produces or causes to be produced cotton for market. The bill would also define "handlers of whole cottonseed" as any person or organization that is engaged in the business of buying, selling, or processing whole cottonseed.

Existing law makes it unlawful for a person in the San Joaquin Valley Quality Cotton District to plant, possess for planting, pick, harvest, gin, or delint any cotton, except as specified.

This bill would exempt from that restriction certain provisions related to the growing of nonapproved varieties of cotton.

The bill would also revise the legislative findings governing those provisions and would make other related and technical changes.

#### Ch. 190 (AB 1923) Anderson Local correctional facilities: contraband.

Existing law generally regulates the conditions of incarceration for prisoners in a local correctional facility, and specifically prohibits the unauthorized possession of a wireless communication device or the possession of tobacco products by inmates, as defined.

This bill would prohibit any unauthorized person housed in a local correctional facility from possessing a handcuff key, as defined. A violation of that provision would be a misdemeanor. Because the bill would create a new crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 191 (AB 1936) Emmerson Public Employees' Retirement System: nonprofit mutual water companies.

The Public Employees' Retirement Law permits various public agencies, as defined, to enter into contracts to participate in the Public Employees' Retirement System, upon obtaining a specified advisory opinion from the United States Department of Labor. Member contributions are deposited in the Public Employees' Retirement Fund, a continuously appropriated fund.

This bill would permit a nonprofit mutual water company that operates pursuant to specified provisions of law and that meets certain requirements to enter into a contract to participate in this system upon obtaining that advisory opinion. By increasing member contributions to the Public Employees' Retirement Fund, this bill would make an appropriation.

#### Ch. 192 (AB 1998) Silva Political Reform Act of 1974: local agency formation commissions.

Existing law provides for the existence, in each county, of a local agency formation commission (LAFCO), an administrative body vested with the authority and responsibility to control the process of municipal expansion by overseeing local agency boundary changes, including the incorporation, annexation, and reorganization of cities and special districts. The LAFCO for each county reviews and approves or disapproves proposed local

government changes of organization; and, under specified circumstances, the determinations of the LAFCO are subject to voter approval through the circulation of a signature petition and a subsequent ballot measure.

Existing law further provides, through the Political Reform Act of 1974, for the comprehensive regulation of campaign financing, including the filing of campaign statements that report contributions and expenditures by committees formed to support or oppose ballot measures.

This bill would impose on a committee formed to support or oppose a LAFCO proposal, as defined, requirements regarding the filing of campaign statements. The bill would require the committee to file monthly campaign statements from the time circulation of a petition begins until a measure is placed on the ballot or the committee is terminated. After a LAFCO proposal measure is placed on the ballot, the bill would require a committee formed to support or oppose the proposal to file those campaign statements required of other committees formed to support or oppose ballot measures under the Political Reform Act of 1974.

Existing law makes a willful violation of the Political Reform Act of 1974 a misdemeanor and subjects offenders to criminal penalties.

This bill would impose a state-mandated local program by creating additional crimes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes upon a  $2/3$  vote of each house and compliance with specified procedural requirements.

This bill would declare that it furthers the purposes of the act.

Ch. 193 (AB 2091) Fuentes Workers' compensation: annual study: access to pharmacy services.

Existing law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an employee for injuries sustained in the course of his or her employment.

Existing law requires the administrative director to contract with an independent consulting firm, as specified, to perform an annual study of access to medical treatment by injured workers, and make recommendations to ensure continued access to that treatment.

This bill would additionally require that the study analyze and make recommendations regarding continued access to prescription drugs and pharmacy services by injured workers.

Ch. 194 (AB 2098) Krekorian Animals: nonambulatory: cruelty.

Existing law prohibits a nonfederally inspected slaughterhouse, stockyard, or auction from buying, selling, or receiving nonambulatory animals, as defined.

This bill would instead prohibit a slaughterhouse, stockyard, auction, market agency, or dealer from buying, selling, or receiving a nonambulatory animal. It would also prohibit a slaughterhouse from processing, butchering, or selling meat or products of nonambulatory animals for human consumption.

Existing law also prohibits a slaughterhouse, stockyard, auction, market agency, or dealer from holding a nonambulatory animal without taking immediate action to humanely euthanize the animal or remove the animal from the premises. Existing law makes a violation of those provisions a misdemeanor.

This bill would revise and recast those provisions. It would prohibit a slaughterhouse from holding a nonambulatory animal without taking immediate action to humanely euthanize the animal. It would also require a stockyard, auction, market agency, or dealer, holding a nonambulatory animal, to take immediate action to either humanely euthanize the animal or

provide immediate veterinary treatment. This bill would also prohibit a person from selling, consigning, or shipping a nonambulatory animal, or receiving such an animal for transport or delivery, to a slaughterhouse, stockyard, auction, market agency, or dealer. The bill would make these crimes punishable by imprisonment in a county jail for a period not to exceed one year, by a \$20,000 fine, or by both that fine and imprisonment, as specified. By changing the scope of crimes, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 195 (AB 2232) De La Torre Telephone corporations: state video franchiseholders: video providers: employee background checks.

Existing law, the Digital Infrastructure and Video Competition Act of 2006, establishes a procedure for the issuance of state franchises for the provision of video service, defined to include cable service and open-video systems (state video franchiseholder), administered by the Public Utilities Commission. The act includes findings and declarations of the Legislature with respect to certain matters, including that the Legislature intends that collective bargaining agreements be respected.

Existing law requires background checks be conducted for applicants for employment by a telephone corporation only when those applicants will have direct contact with, or access to, the telephone corporation's network, central office, or subscriber premises. Existing law requires an equivalent background check be conducted for persons hired under a personal services contract, or hired by independent contractors or vendors of a telephone corporation, only when those hires have direct contact with, or access to, the telephone corporations's network, central office, or subscriber premises. Existing law provides that these background check provisions apply only to applicants for employment who apply for employment on and after January 1, 2003, and to contracts entered into on or after January 1, 2003.

The existing Video Customer Service Act requires a video provider, as defined, to establish customer service standards.

This bill would prohibit any individual from entering upon the premises of a customer on behalf of a telephone corporation, state video franchiseholder, or video provider unless he or she has had a background check. The bill would require background checks be conducted for applicants for employment by a telephone corporation, state video franchiseholder, or video provider if those applicants have direct contact with, or access to, the company's network or central office. The bill would require an equivalent background check be conducted for persons hired under a personal services contract, or hired by independent contractors or vendors of a telephone corporation, state video franchiseholder, or video provider when those hires have direct contact with, or access to, the company's network or central office. This bill would make these background check provisions apply only to applicants for employment who apply for employment on and after January 1, 2009, and to contracts entered into on or after January 1, 2009.

This bill would state the intent of the Legislature that the well-being of employees of video service providers be promoted.

Ch. 196 (AB 2484) Caballero Local government: special districts.

(1) Existing law, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 defines "change of organization" to mean, among other things, a district formation, a consolidation of cities or special districts, or a merger or establishment of a subsidiary district.

This bill would include within the definition of "change of organization" a proposal for the exercise of new or different functions or classes of services, or the divestiture of the power

to provide particular functions or classes of services, within all or part of the jurisdictional boundaries of a special district.

(2) Existing law authorizes a proposal for a change of organization or a reorganization to be made by the adoption of a resolution of application by the legislative body of an affected local agency.

This bill would require a change of organization proposal that involves the exercise of new or different functions or classes of services, or the divestiture of the power to provide particular functions or classes of services, within all or part of the jurisdictional boundaries of a special district to be initiated only by the legislative body of that special district.

(3) Existing law requires, in addition to the proposal for a change of organization or reorganization, that the legislative body of a special district submit a plan for services, including, among other things, a plan for financing the establishment of the new or different function or class of services within the special district's jurisdictional boundaries.

This bill would also require the legislative body of a special district to include in the plan a written summary of whether the new or different function or class of services, or divestiture of the power to provide particular functions or classes of services within all or part of the jurisdictional boundaries of a special district, will involve the activation or divestiture of the power to provide a particular service or services, service function or functions, or class of service or services.

(4) Existing law requires a local agency formation commission to review and approve or disapprove proposals for the establishment of new or different functions or class of services within the jurisdictional boundaries of a special district, as specified.

This bill would also require the commission to review and approve or disapprove proposals for the divestiture of the power to provide particular functions or class of services, within all or part of the jurisdictional boundaries of a special district, and would prohibit the approval of proposals where the commission has determined that the special district will not have sufficient revenues to carry out the proposed new or different functions or class of services, except as specified.

(5) Existing law requires a local agency formation commission to take specified actions with regard to written protests against a proposal for a change of organization or reorganization that consists solely of annexations, detachments, or formation of a county services area in the case of registered voter districts or cities, and where the proposal for a change of organization consists solely of annexations or detachments in the case of landowner-voter districts, as specified.

This bill would require the commission to take the same actions with regard to written protests against a proposal for the exercise of new or different functions or class of services, or the divestiture of the power to provide particular functions or class of services, within all or part of the jurisdictional boundaries of a special district, in both a registered voter district or city, or a landowner-voter district.

(6) This bill would incorporate additional changes in Section 56654 of the Government Code, proposed by AB 3047, to be operative only if AB 3047 and this bill are both chaptered and become effective January 1, 2009, and this bill is chaptered last.

(7) This bill would incorporate additional changes in Section 57075 of the Government Code, proposed by SB 1458, to be operative only if SB 1458 and this bill are both chaptered and become effective January 1, 2009, and this bill is chaptered last.

#### Ch. 197 (AB 2673) Feuer County employees' retirement: death benefits.

Existing law provides that registered domestic partners shall have the same rights, protections, and benefits, and shall be subject to the same responsibilities, obligations, and duties under law, as are granted to and imposed upon spouses.

The County Employees Retirement Law of 1937 provides that any death benefits, optional retirement allowances, or survivor's allowances accorded to a spouse may be accorded to a domestic partner.

This bill would make the above provision of the County Employees Retirement Law of 1937 inapplicable to any member whose death occurs on or after January 1, 2009.

Ch. 198 (AB 2758) Krekorian Voting systems.

Existing law requires an exact copy of the source code for all ballot tally software programs certified by the Secretary of State, including all changes or modifications and new or amended versions, to be placed in an approved escrow facility prior to its use. Existing law prohibits the use of a voting system for an election unless an exact copy of the ballot tally software program source codes is placed in escrow. The Secretary of State has reasonable access to the materials placed in escrow, under specified circumstances. The Secretary of State may seek injunctive relief requiring the elections officials, or any vendor or manufacturer of a voting machine, voting system, or vote tabulating device, to comply with these provisions and related regulations.

This bill would require, no later than 10 business days after the Secretary of State approves the use of a new or updated voting system, that the vendor of the voting system cause an exact copy of the approved source code for each component of the voting system, including complete build and configuration instructions and related documents for compiling the source code into object code, to be directly transferred and deposited into an approved escrow facility. The Secretary of State is also required to adopt regulations regarding the definition of source code components of a voting system, and requirements for the vendor to include specified build and configuration instructions and documents in the material deposited in escrow.

Ch. 199 (AB 2963) Gaines Neighborhood electric vehicles.

Existing law authorizes, until January 1, 2009, the Cities of Lincoln and Rocklin in Placer County to establish a neighborhood electric vehicle (NEV) transportation plan that enables these low-speed vehicles to travel, among other things, on or along various roadways. A person operating a NEV in the plan area in violation of permit and safety rules adopted as part of the plan is guilty of an infraction. If a NEV transportation plan is implemented, the cities are required to submit a report to the Legislature by January 1, 2008, evaluating the effectiveness of the NEV plan and containing a recommendation for either terminating, continuing, or expanding these provisions.

This bill would extend the January 1, 2009, termination date applicable to these NEV provisions to January 1, 2012. Because the bill would change the definition of a crime in that regard, it would impose a state-mandated local program. The bill would extend the time for the City of Rocklin to submit a report to the Legislature from January 1, 2008, to January 1, 2009, relative to its implementation of these provisions. The bill would declare that the City of Lincoln has complied with these provisions and is thereby authorized to proceed with the implementation of its NEV transportation plan. The bill would require both cities, to the extent they implement a NEV transportation plan, to report to the Legislature by January 1, 2011, relative to whether the NEV transportation provisions should be terminated, continued, or expanded statewide.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 200 (AB 3026) Saldana Elections: voting systems.

(1) Existing law authorizes an elections official to establish one or more multiple centers to count ballots from designated precincts and to transmit the results via telephone, facsimile, or modem. Existing law requires the list of designated precincts for each multiple counting center to be available for public inspection no later than 15 days before the election.

This bill would instead authorize an elections official to establish one or more centers to count ballots from designated precincts and to transmit the results via voice telephone connection or facsimile transmission. The bill would also delete references to multiple counting centers in this provision.

(2) Existing law specifies the requirements for approval of voting systems and inspection of approved voting systems. Existing law also prohibits the Secretary of State from approving any voting system, including a direct recording electronic voting system, unless the paper used for its voter verified paper audit trail is of sufficient quality that it maintains its integrity and readability throughout the required retention period.

This bill would additionally prohibit the use of a voting system that connects to the Internet at any time, that electronically receives or transmits election data through an exterior communication network, including a public telephone system, when the communication originates from or terminates at a polling place, satellite location, or counting center, or that receives or transmits wireless communications or wireless data transfers.

(3) Existing law prohibits the Secretary of State from approving a direct recording electronic voting system unless the system meets specified requirements, including receiving federal qualification and a voter verified paper audit trail. Existing law also prohibits a direct recording electronic voting system from being connected to the Internet at any time, receiving or transmitting official election results through an exterior communication network, or receiving or transmitting wireless communications or wireless data transfers.

This bill would delete the above prohibitions related to a direct recording electronic voting system being connected to the Internet at any time, receiving or transmitting official election results through an exterior communication network, or receiving or transmitting wireless communications or wireless data transfers.

Ch. 201 (AB 3035) Huffman Property taxation: exemptions: supplemental assessment.

Existing law exempts from property taxation specified types of property or property owned by specified taxpayers. Existing law specifies that a property tax exemption applies to a supplemental assessment if the person claiming the exemption meets the qualifications for the exemption, as specified, no later than 90 days after the date the new construction or change in ownership occurred.

This bill would extend the time that a qualified organization, as defined, is required to meet the qualifications for the exemption from 90 days to 180 days.

Ch. 202 (SB 392) Ducheny County employees' retirement: cost-of-living adjustments.

The County Employees Retirement Law of 1937 authorizes specified cost-of-living increases to be applied to allowances paid to or on account of members of county and district retirement systems. Existing law, applicable to Sonoma County, permits the board of retirement of the retirement system in Sonoma County, if approved by the county board of supervisors, to provide cost-of-living adjustments, on a prefunded basis, to certain of the monthly allowances paid by the system to or on account of members of the system, as specified.

This bill would extend the provisions described above to Imperial County.

Ch. 203 (SB 1101) Cedillo Personal income taxes: contributions: Emergency Food for Families Fund.

The Personal Income Tax Law allows taxpayers, until January 1, 2009, to designate on their tax returns that a specified amount in excess of their tax liability be contributed to the Emergency Food Assistance Program Fund.

This bill would change the name of the designation to the "Emergency Food for Families Fund," and would extend the operation of those provisions until January 1, 2014.

Ch. 204 (SB 1272) Cox California Health Facility Construction Loan Insurance Law.

Existing law, the California Health Facility Construction Loan Insurance Law, provides an insurance program administered by the Office of Statewide Health Planning and Development for health facility construction, improvement, and expansion loans made to a political subdivision or nonprofit corporation, as defined. Loans made pursuant to the program in the amount of \$5,000,000 or less may be insured up to 95% of the total construction cost. Otherwise, the loan is required to have a principal obligation not in excess of an amount equal to 90% of the total construction cost.

This bill would instead, provide that loans made in the amount of \$10,000,000 or less may be insured up to 95% of the total construction cost.

Ch. 205 (SB 1464) Maldonado State agencies: Resources Agency.

Existing law establishes the Resources Agency in state government and sets forth the entities that are within that agency.

This bill would rename the Resources Agency the Natural Resources Agency, would revise the provision identifying the entities within the agency to reflect its current composition, and would make related changes. The bill would prohibit any supplies, forms, insignias, signs, or logos from being destroyed or changed as a result of the name change and would require their continued use until exhausted or unserviceable.

Ch. 206 (SB 1770) Padilla Anti-reproductive-rights crime.

Existing law requires the Attorney General to assume specified duties relating to planning, information gathering, and analysis with respect to anti-reproductive-rights crimes, as defined, including consultation with specified subject matter experts. Existing law also requires the convening of an advisory committee that is responsible for evaluating the effectiveness of existing law and that must submit a report to the Legislature on the evaluation. Existing law requires the Commission on Peace Officer Standards and Training to develop an optional course of training for law enforcement agencies regarding anti-reproductive-rights crimes, as specified. Existing law provides for the repeal of these provisions as of January 1, 2009.

This bill would extend the date of repeal to January 1, 2014. This bill would delete the requirement that the Attorney General analyze and report on the information relating to anti-reproductive-rights crimes and instead would require the Attorney General to collect and annually publish the information on its Internet Web site. This bill would require the advisory committee to submit a 2nd report to the Legislature, as specified. This bill would also require the commission to prepare guidelines establishing standard procedures that may be followed by law enforcement agencies in the investigation and reporting of cases involving anti-reproductive-rights crimes. This bill would require the commission distribute, as necessary, training bulletins, via the Internet, to law enforcement agencies that participate in the anti-reproductive-rights training already offered by the commission.

Because the bill would impose additional duties on local law enforcement agencies, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 207 (AB 97) Mendoza Food facilities: trans fats.

Existing law, the California Retail Food Code, provides for the regulation of health and sanitation standards for retail food facilities by the State Department of Public Health. Under

existing law, local health agencies are primarily responsible for enforcing this code. A violation of this code is a misdemeanor.

This bill would require every food facility, except a public school cafeteria, to maintain on the premises the label required for any food or food additive that is, or includes, any fat, oil, or shortening, for as long as this food or food additive is stored, distributed, or served by, or used in the preparation of food within, the food facility.

This bill would also, commencing January 1, 2010, prohibit oil, shortening, or margarine containing specified trans fats for specified purposes, from being stored, distributed, or served by, or used in the preparation of any food within, a food facility. It would also, commencing January 1, 2011, prohibit any food containing artificial trans fat, from being stored, distributed, or served by, or used in the preparation of any food within, a food facility. The bill would exempt from these prohibitions, specified public school cafeterias and food sold or served in a manufacturer's original, sealed package.

By creating a new crime and adding to the duties of local officials, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

#### Ch. 208 (AB 1767) Ma Civil compromise: vandalism.

Existing law establishes a procedure for the civil compromise of misdemeanor offenses, whereby a person injured by an act constituting a misdemeanor has a remedy through a civil action, and the criminal proceeding may be stayed by the court and the defendant discharged if the victim acknowledges receiving satisfactory compensation for the injury.

This bill would authorize the City and County of San Francisco, as a pilot program, to require a person who has committed an act of vandalism by graffiti to complete a minimum of 24 hours of community service if the person engages in a civil compromise, as specified. The above provision would remain in operation until January 1, 2012.

#### Ch. 209 (AB 2609) Davis Vandalism: penalties: community service.

Existing law, amended by Proposition 21, an initiative measure enacted by voters at the March 7, 2000, statewide primary election, and requiring a  $\frac{2}{3}$  vote of the Legislature to amend, makes a person who maliciously commits specified destructive acts with respect to another's property guilty of vandalism. Existing law grants the court the authority to order a defendant who is convicted of violating this provision, or to order the defendant and his or her parents, if the defendant is a minor, to clean up, repair, or replace the damaged property or keep the damaged property or another specified property in the community free of graffiti for up to one year.

This bill would, in addition, require a court, when appropriate and feasible, to impose the above cleanup penalties for any defendant who was convicted of violating those vandalism provisions, as specified. By increasing the penalties for a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 210 (AB 439) Ma Inmates: funds.

Existing law requires the Secretary of the Department of Corrections and Rehabilitation to deposit any inmate funds in his or her possession in trust with the Treasurer. However, upon written authorization by an inmate, and subject to the approval of the Department of Finance, the secretary may deposit those funds in interest-bearing accounts or invest or reinvest the funds in any of specified securities and for the purposes of deposit or investment may only mingle the funds of any inmate with the funds of other inmates.

This bill would delete the above requirement that an inmate give specific authorization for, and that the Department of Finance give approval for, any deposit, investment, or reinvestment of those funds. The bill would also require the secretary to deposit those funds in interest-bearing accounts or invest or reinvest the funds in any of specified securities.

Existing law also requires the Secretary of the Department of Corrections and Rehabilitation to deposit the interest or increment accruing on those funds in the Inmate Welfare Fund and to deposit the interest or increment accruing on the funds of a parolee in his or her account.

This bill would delete the above provisions. The bill would instead specify that any interest or increment accruing on those funds, less expenses incurred in the investment, would be deposited in individual inmate or parolee trust accounts on a proportional basis depending on the amount of funds each individual inmate or parolee account has on deposit. The bill would also make technical, nonsubstantive changes to those provisions.

Ch. 211 (AB 1479) Mendoza State bodies: governance.

(1) Existing law establishes in state government the California Health Facilities Financing Authority, the California Debt Limit Allocation Committee, the Pooled Money Investment Board, the California Educational Facilities Authority, California School Finance Authority, the California Pollution Control Financing Authority, the California Alternative Energy and Advanced Transportation Financing Authority, and the California Tax Credit Allocation Committee, with specified members, duties, and authority. Under existing law, certain of these entities are authorized to delegate to their executive director the authority to enter into contracts on behalf of the entity.

This bill would authorize certain of these entities, to delegate to an official or employee of the entity any powers and duties deemed proper, including entering into contracts on behalf of the entity. With respect to each specified entity of which the Director of Finance is a member, this bill would authorize the director to designate a deputy or other official to represent and act for the director at all meetings of that entity.

(2) Existing law establishes in state government the California Debt Limit Allocation Committee with duties that include annually determining a state ceiling on the aggregate amount of private activity bonds that can be issued and allocating that amount among state and local agencies. Existing law, the Administrative Procedure Act, sets forth procedures a state agency is required to follow when adopting, amending, or repealing any regulation, including providing public notice and time for public comment, with exceptions for emergency regulations in the case of a situation that calls for immediate action to avoid serious harm to the public peace, health, safety, or general welfare.

This bill would authorize the committee to adopt, amend, or repeal any regulation within its authority under the procedures for emergency regulations and would declare that the adoption, amendment, or repeal of any regulation by the committee is conclusively presumed to be necessary for the immediate preservation of the public peace, health, safety, or general welfare.

Ch. 212 (AB 1626) Mullin County employees' retirement: conformance with federal law.

The County Employees' Retirement Act of 1937 prescribes the rights, benefits, and duties of members of the retirement systems established pursuant to its provisions. Existing federal law regulates the provision of pension benefits and a retirement system providing pension

benefits must meet prescribed requirements to maintain its tax qualified status. Federal law requires, in this regard, that a defined benefit plan prohibit the application of forfeitures to increase the benefits any employee would otherwise receive under the plan. Federal law also establishes requirements for the distribution of benefits by a pension trust, including the timing of those benefits and their form, and requirements for the transfer of eligible rollover distributions.

This bill would specify that a retirement system established pursuant to the County Employees Retirement Act of 1937 shall act in accordance with the requirements of federal law described above.

**Ch. 213 (AB 1820) Galgiani Counties: homicide trials: reimbursement.**

Existing law authorizes a county that is responsible for the cost of a trial or trials or any hearing of a person for the offense of homicide to apply to the Controller for reimbursement of a portion of the costs incurred by the county in excess of the amount of money derived by the county from a tax of 0.0125 of 1% of the full value of property assessed for purposes of taxation within the county.

This bill would limit this authorization to a county that is responsible for the cost of a trial or trials or any hearing of a person for the offense of homicide that was committed on or after January 1, 2005. This bill would authorize a county to receive reimbursement for homicide trials for crimes committed prior to January 1, 2005, at the rate specified at the time the crime was committed. The bill would also revise the definition of "costs incurred by the county" to mean, among other things, court-appointed expert witness fees and expenses, and would provide that reimbursement funds appropriated pursuant to these provisions are available for 3 fiscal years from the date of the appropriation, after which time the funds revert back to the General Fund.

**Ch. 214 (AB 1826) Beall Seized property: fees.**

Existing law authorizes the seizure of property in connection with certain controlled substance offenses, and provides a procedure for persons claiming an interest in the seized property to seek return of the property. Existing law provides that no filing fee be charged where the subject property is valued at \$5,000 or less.

This bill would authorize imposition of a \$320 filing fee, as specified, in those claim cases where the subject property is valued at more than \$5,000.

**Ch. 215 (AB 1877) Adams Child custody evaluations: confidentiality.**

Existing law provides that in any contested proceeding involving child custody or visitation rights, the court may appoint a child custody evaluator to conduct a child custody evaluation in cases where the court determines it is in the best interests of the child. If directed by the court, the court-appointed child custody evaluator shall file a written confidential report on his or her evaluation, which report shall not be made available other than as specified. In addition, any information obtained from access to a juvenile court case file is confidential and shall only be disseminated as specified.

This bill would authorize the court, commencing January 1, 2010, to impose a monetary sanction for the unwarranted disclosure of a written confidential report, as specified. The bill would require that the Judicial Council, by January 1, 2010, adopt a form that informs the report recipient of the confidentiality of the report and the potential consequences for the unwarranted disclosure of the report; and adopt a rule to require that, when a court-ordered child custody evaluation report is served on the parties, the form shall be included with the report.

**Ch. 216 (AB 1924) Jeffries Charitable bingo: overhead.**

The California Constitution allows the Legislature, by statute, to authorize cities and counties to provide for bingo games for charitable purposes. Existing law requires that the proceeds of bingo games be used only for charitable purposes, with certain exceptions,

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

including an exception providing that no more than 20% of the proceeds before the deduction for prizes, or \$2,000 per month, whichever is less, may be used for the rental of property and for overhead.

This bill, with respect to bingo games conducted by the Lake Elsinore Elks Lodge only, would increase the amount of bingo proceeds that may be used for rental and overhead, as described above, to 20% of the proceeds before the deduction for prizes, or \$3,000 per month, whichever is less, and would require that the amount of proceeds otherwise permitted, as specified, be used only for the purpose of financing the rebuilding of the facility and replacing equipment that was destroyed by fire in 2007. The bill would provide that these provisions are to remain in effect only until the cost of rebuilding the facility is repaid, or January 1, 2019, whichever occurs first.

Ch. 217 (AB 1931) Silva Peace officer powers: illegal dumping enforcement officers.

Existing law grants certain persons who are not peace officers the power of arrest, after successfully completing a course in the exercise of these powers. Existing law further grants the above powers to illegal dumping enforcement officers, in specified circumstances, and defines "illegal dumping enforcement officer" as a person regularly employed by a city, county, or city and county, whose duties include illegal dumping enforcement and is designated by local ordinance as a public officer.

This bill would revise the above definition to include a person employed full-time, part-time, not regularly employed, or as a volunteer after completing training prescribed by law, by one of those entities. In addition, only those illegal dumping enforcement officers who are regularly employed would have access to summary criminal history information.

Ch. 218 (AB 1949) Evans Court operations.

(1) Existing law requires the court to grant a motion for preference by a party to a civil action if it makes specified findings. Under existing law, unless the court otherwise orders, notice of a motion for preference shall be served with the memorandum to set or the at-issue memorandum by the party serving the memorandum, or 10 days after that service by any other party, or thereafter during the pendency of the action upon the application of a party who reaches 70 years of age.

This bill would provide that unless the court otherwise orders, a party may file and serve a motion for preference supported by a declaration of the moving party that all essential parties have been served with process or have appeared. In addition, this bill would provide that unless the court otherwise orders, at any time during the pendency of the action, a party who reaches 70 years of age may file and serve a motion for preference. This bill would also delete obsolete references and make other conforming changes.

(2) Under existing law, neither the state nor any county, city, district, or other political subdivision, nor any public officer or body, acting in his or her official capacity on behalf of the state, or any county, city, district or other political subdivision, shall pay or deposit any fee for the filing of any document or paper, for the performance of any official service, or for the filing of any stipulation or agreement which may constitute an appearance in any court by any other party to the stipulation or agreement, except as specified.

This bill would provide that this provision does not apply to civil jury fees or civil jury deposits.

(3) Under existing law, no rule adopted by a superior court shall take effect until January 1 or July 1, whichever comes first, following the 30th day after it has been filed with the Judicial Council and the clerk of the court and made available for public examination.

This bill would provide instead that no rule adopted by a superior court shall take effect until January 1 or July 1, whichever comes first, following the 45th day after it has been filed with the Judicial Council and the clerk of the court and made available for public examination.

(4) Existing law defines subordinate judicial officer as an officer appointed to perform subordinate judicial duties, as authorized, including, but not limited to, a court commissioner, probate commissioner, referee, traffic referee, juvenile referee, and judge pro tempore. Under existing law, "trial court employee" does not include temporary employees hired through agencies, jurors, individuals hired by the trial court pursuant to an independent contractor agreement, individuals for whom the county or trial court reports income to the Internal Revenue Service on a Form 1099 and does not withhold employment taxes, sheriffs, or judges whether elected or appointed.

This bill would delete judge pro tempore from the list of subordinate judicial officers. The bill would include temporary judges in the definition of trial court employee.

(5) Existing law requires an additional county penalty of \$7 for every \$10, or part of \$10, to be levied upon every fine, penalty, or forfeiture imposed and collected by the courts for all criminal offenses, for deposit into specified county funds relating to the construction of courthouses, criminal justice facilities, and forensic laboratories, and the support of emergency medical services. That \$7 penalty is required to be reduced by specified amounts in certain counties, including Madera County, in connection with the transfer of responsibility for court facilities from the county to the Judicial Council.

This bill would increase the county penalty in Madera County from \$4.50 to \$7.

(6) Under existing law, a governmental entity employing a peace officer, as defined, judge, court commissioner, or an attorney employed by the specified agencies or offices, is required to reimburse the moving and relocation expenses of those employees, or any member of his or her immediate family residing with the officer in the same household or on the same property when it is necessary to move because the officer has received a credible threat that a life threatening action may be taken against that person or his or her immediate family as a result of his or her employment. For the purposes of this provision, a court commissioner is deemed to be an employee of the county in which the court where he or she is employed is located.

This bill would provide, instead, that a court commissioner is an employee of the court by which he or she is employed.

(7) Existing law authorizes a special assessment to be levied in an amount equal to \$1 for every fine, forfeiture, and traffic violator school fee imposed and collected by any court that conducts a night or weekend session of the court, on all offenses involving a violation of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code, except offenses relating to parking. The clerk of the court is required to collect the amount due and transmit it to the county treasury to be deposited in the night court session fund for maintaining courts in the county that have night or weekend sessions for traffic offenses.

This bill would require the clerk of the court, if a specified transfer of responsibility for a court facility that holds night or weekend sessions has occurred, to collect any special assessment imposed pursuant to these provisions and transmit it to the Court Facilities Trust Fund to be used for the operation, repair, and maintenance of court facilities, as specified, and other authorized purposes. The bill would require the county treasurer of each county to transfer certain percentages of those moneys from the night court session fund to the Court Facilities Trust Fund, as specified.

Ch. 219 (AB 1963) Carter Public employees' retirement: service credit.

Existing law prohibits a person from receiving credit for the same service in two retirement systems supported wholly or in part by public funds, with specified exceptions. Existing law exempts from this prohibition concurrent participation and credit for service in the defined benefit plan provided by the Public Employees' Retirement System (PERS) and a supplemental defined benefit plan offered by an employer, provided that supplemental defined benefit plan meets specified federal tax requirements and certain conditions exist. The County Employees Retirement Law of 1937 permits a participant in specified deferred

compensation plans to participate also in a retirement system established pursuant to its provisions.

This bill would specify that a participant in a retirement system established under the County Employees Retirement Law of 1937 is permitted to concurrently participate in individual account retirement plans and is permitted to concurrently participate in, and to receive credit for service in, a supplemental defined benefit program maintained by his or her employer, provided that the supplemental program meets specified requirements.

Ch. 220 (AB 1971) Portantino Vehicles: studded pneumatic tires.

Existing law prohibits a tire on a vehicle upon a highway from having on its periphery any block, stud, flange, cleat, ridge, bead, or other protuberance of metal or wood that projects beyond the tread of the traction surface of the tire. The prohibition does not apply to pneumatic tires containing specified metal-type studs that are inserted or constructed to meet prescribed conditions during a specified time period each year. Violation of these provisions is a crime.

This bill would, additionally, exempt from the prohibition pneumatic tires with retractable metal-type studs and would allow the use of these pneumatic tires outside the specified time period if their studs are retracted. The bill would prohibit a tire with retractable metal-type studs on a vehicle from being worn to a point at which the studs protrude beyond the tire tread when retracted. By expanding the definition of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 221 (AB 2009) Hernandez Utility user taxes: exemption.

Existing law authorizes the board of supervisors of any county to levy a utility user tax on the consumption of electricity, gas, water, sewer, telephone, telegraph, and cable television services in the unincorporated area of the county.

This bill would provide that no utility user tax shall be imposed upon compressed natural gas dispensed by a gas compressor within a local jurisdiction, as defined, if that natural gas is dispensed by a gas compressor that is separately metered and dedicated to serve the local agency or public transit operator.

Ch. 222 (AB 2047) Horton State Board of Equalization: business and special taxes: compromises.

Existing law provides for the administration of various taxes, fees, and surcharges by the State Board of Equalization. The Sales and Use Tax Law, Use Fuel Tax Law, Cigarette and Tobacco Products Tax Law, Alcoholic Beverage Tax Law, Emergency Telephone Users Surcharge Act, Oil Spill Response, Prevention, and Administration Fees Law, Underground Storage Tank Maintenance Fee Law, Fee Collection Procedures Law, and Diesel Fuel Tax Law authorize the State Board of Equalization to compromise a final tax, fee, or surcharge liability that was generated from a business that has been discontinued or transferred, where the person making the offer to compromise no longer has a controlling interest or association with the transferred business or a similar business. Existing law provides for criminal penalties if the person making the offer conceals property, destroys documents, or provides false information.

This bill would authorize, until January 1, 2013, the compromise of a final liability that was generated from a business that has been discontinued or transferred, where the person making the offer of compromise has a controlling interest or association with the transferred business or a similar business.

By expanding the scope of existing criminal penalties, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 223 (AB 2057) Committee on Education Education.

(1) Existing law provides for the lapsation of school districts under certain circumstances. After a hearing on the issues concerning the lapsation of a school district is held, the county committee on school district organization or the county board of education, as appropriate, is required to order the territory of the lapsed school district to be annexed to one or more adjoining school districts. The order annexing the territory is effective for all purposes on the date of the order.

This bill would correct a reference to the county entity that is required to order the annexation.

(2) Existing law authorizes the Commission on Teacher Credentialing to review requests from school districts, county offices of education, private schools, postsecondary institutions, and individual applicants for the waiver of provisions governing the preparation or licensing of educators.

This bill would remove individual applicant requests from the waiver requests the commission is authorized to review.

(3) Existing law requires the Commission on Teacher Credentialing to establish standards for the issuance and renewal of credentials, certificates, and permits, including the designated subjects career technical education teaching credential.

This bill would update references to the designated subjects vocational teaching credential to the designated subjects career technical education teaching credential.

(4) Existing law authorizes the Commission on Teacher Credentialing to waive a subject matter examination authorizing multiple subject classroom instruction for holders of approved diversified degrees and, for these purposes, defines "diversified" as including study in 10 subject areas.

This bill would update a cross-reference to the number of areas included in a diversified major.

(5) Existing law establishes the California Beginning Teacher Support and Assessment Program and defines a "beginning teacher" for purposes of the program.

This bill would revise that definition and delete an obsolete provision relating to the professional growth requirement.

(6) Existing law sets forth the minimum requirements for a preliminary multiple or single subject teaching credential. Among those requirements is satisfactory completion of a program of professional preparation that has been accredited by the committee on accreditation on the basis of standards of program quality and effectiveness that have been adopted by the commission. Programs that meet this requirement for professional preparation include internship programs of professional preparation.

This bill would delete obsolete provisions prohibiting the Commission on Teacher Credentialing from approving district intern programs and requiring the commission to review district intern programs on the basis of standards related to the quality of the training, support, evaluation, and performance of district interns.

(7) Existing law provides that a valid teaching credential issued by the State Board of Education or the Commission for Teacher Preparation and Licensing qualifies the holder for assignment as a teacher in specified assignments, including home teacher, adult education, hospital classes, continuation schools, juvenile court schools, and county community schools, if the teacher consents to the assignment.

This bill would update the reference to the Commission for Teacher Preparation and Licensing to the Commission on Teacher Credentialing and add independent study to the assignments that may be made.

(8) The Child Nutrition Act of 1974 authorizes a child nutrition entity, as defined, to apply to the State Department of Education for all available federal and state funds so that a nutritionally adequate breakfast or lunch, or both, may be provided to pupils.

The Pupil Nutrition, Health, and Achievement Act of 2001 requires a school to be reimbursed \$0.21 for free and reduced-price meals sold or served to pupils. To qualify for this reimbursement, a school is required, and a child development program is encouraged, to comply with specified nutrition-related prohibitions and requirements, among which is a prohibition against selling or serving a food item containing artificial trans fat. As a condition of receiving the \$0.21 reimbursement, a school and school district is required, no later than June 30, 2008, to provide the State Department of Education with a one-time certification of compliance with these prohibitions and requirements.

This bill would require a school and school district to make this certification annually.

(9) Existing law requires a regional occupational center or program to develop a plan for establishing occupational sequences of courses by July 1, 2008, to present the plan to the governing board of each school district served by the center or program, the county board of education, and the governing board of community college districts with an articulated program, to submit to the local community colleges and the Superintendent of Public Instruction a copy of the approved plan also by July 1, 2008, and to submit an update to the plan to the local community colleges and the Superintendent every 4 years after July 1, 2008.

This bill would require a center or program instead to submit the approved plan by September 1, 2008, and the updates on or before July 1 every 4 years after that date.

(10) Existing law provides for a 3 part phase-in between July 1, 2008, and July 1, 2013, of a reduction in the amount of state-funded average daily attendance that a regional occupation center or program may claim for services provided to students who are not enrolled in grades 9 to 12.

This bill would provide that the first part of the phase-in applies to the 2008–09 fiscal year, the 2nd part of the phase-in applies to the 2009–10 fiscal year, and the final part of the phase-in applies to the 2011–12 fiscal year and every fiscal year thereafter.

(11) Existing law defines “parent” for purposes of provisions governing special education and specifies the purposes for which the definition of “parent” extends if a judicial decree or order identifies the person who is defined as a parent.

This bill would include in that definition a responsible adult appointed in accordance with specified provisions of the Welfare and Institutions Code and would broaden the purposes for which the definition of “parent” extends if a judicial decree or order identifies the person who is defined as a parent.

(12) Existing law sets specified timelines affecting special education programs and also sets forth those timelines in one provision.

This bill would update the provision that sets forth those timelines in one provision and changes a cross-reference.

#### Ch. 224 (AB 2075) Fuentes Wages: execution of release of claim or right.

Existing law prohibits an employer from requiring the execution of a release of a claim or right on account of wages due, or to become due, or made as an advance on wages to be earned unless payment of those wages has been made. Under existing law, it is a misdemeanor for an employer to violate the prohibition and a release required or executed in violation of the prohibition is null and void.

This bill would define execution of a release to include requiring an employee, as a condition of being paid, to execute a statement of the hours he or she worked during a pay period which the employer knows to be false and would make additional technical, nonsubstantive changes. By adding to what is included within the prohibition of an

execution of a release, the bill would expand the crime resulting from a violation of that prohibition, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 225 (AB 2128) Emmerson Health facilities: dietitians.

Under existing law, the State Department of Public Health licenses and regulates health care facilities. Violation of the provisions constitutes a misdemeanor.

This bill would require that specified health facilities employ a full-time, part-time, or consulting dietitian. The bill would require those facilities that employ a registered dietitian less than full time to also employ a full-time dietetic services supervisor. The dietetic services supervisor would be required to receive frequently scheduled consultation from a qualified dietitian and meet educational requirements, as specified. This bill would allow the department to issue a program flexibility request to a facility to exempt from the educational requirements any individual who has been working full time as a dietetic services supervisor in a health facility for 5 years or more when the bill becomes operative and allow them to continue to function as a dietetic services supervisor for 18 months as long as they are enrolled in a specified education program. The exemption could be extended an additional 6 months if the individual can demonstrate to the department that the education program could not be completed within the original 18-month period. The bill would require program flexibility requests to be submitted not later than December 31, 2009. By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 226 (AB 2131) Niello Peace officers and firefighters: canine units.

Existing law provides that individuals with disabilities are entitled to full and equal access, as other members of the general public, to accommodations, advantages, facilities, medical facilities, including hospitals, clinics, and physicians' offices, and privileges of all common carriers, airplanes, motor vehicles, railroad trains, motorbuses, streetcars, boats, or any other public conveyances or modes of transportation (whether private, public, franchised, licensed, contracted, or otherwise provided), telephone facilities, adoption agencies, private schools, hotels, lodging places, places of public accommodation, amusement, or resort, and other places to which the general public is invited, as specified. Existing law also permits disabled individuals to be accompanied in those places by guide dogs, signal dogs, or service dogs without paying an extra charge. Existing law provides that any person, firm, association, or corporation, or the agent of any person, firm, association, or corporation, who prevents a disabled person from exercising, or interferes with a disabled person in the exercise of, the rights to have with him or her a specially trained guide dog, signal dog, or service dog, as specified, is guilty of a misdemeanor, punishable by a fine not exceeding \$2,500.

This bill would provide that a peace officer or firefighter assigned to a canine unit, who is assigned to duty away from his or her home jurisdiction because of a declared federal, state, or local emergency, and in the course and scope of his or her official duties, may not be discriminated against in hotels, lodging establishments, eating establishments, or public transportation by being required to pay an extra charge or security deposit for the peace officer's or firefighter's dog.

This bill would provide that any person, firm, association, or corporation, or the agent of any person, firm, association, or corporation, that prevents a peace officer or firefighter from

exercising, or interferes with the exercise of, specified rights, is subject to a civil fine not exceeding \$1,000.

The bill would state the intent of the Legislature with regard to access by a peace officer or firefighter with a trained service dog to lodging, eating establishments, and public transportation, during a declared emergency.

Ch. 227 (AB 2137) Saldana Insurance: rescission of long-term care contracts.

Existing law provides requirements relating to long-term care insurance, including that every insurer shall maintain a record, as specified, of all policy or certificate rescissions, both state and countrywide, except those voluntarily initiated by the insured, and shall annually furnish this information to the Insurance Commissioner in a format prescribed by the commissioner.

This bill would delete the recordkeeping exception for rescissions that are voluntarily initiated by the insured, and require that the information furnished to the commissioner include the reason for rescission, the length of time the policy or certificate was in force, and the age and gender of the insured person. The bill would authorize the commissioner to make that information public, upon request.

Ch. 228 (AB 2142) Swanson Vehicle rental agreements: customer facility charge.

Existing law governs contracts between vehicle rental companies and their customers. Existing law authorizes a company that rents passenger vehicles to the public to collect a customer facility charge, which is required by an airport to be collected, under specified circumstances, to finance, design, and construct consolidated airport car rental facilities and to finance, design, construct, and provide common use transportation systems to move passengers between airport terminals and those consolidated airport car rental facilities. Existing law provides that the authorization for an airport to impose a customer facility charge becomes inoperative when the bonds used for financing are paid.

This bill would permit the Oakland International Airport to require the collection of a customer facility charge for a period of up to 10 years from the imposition of the charge, as specified, if a bond or other form of indebtedness is not used for financing, or if the bond or other form of indebtedness used for financing has been paid. The bill would also make technical, nonsubstantive changes.

Ch. 229 (AB 2176) Caballero Energy: federal block grants.

The federal Energy Independence and Security Act of 2007 (federal act) provides energy efficiency and conservation block grants to states for the purposes of reducing fossil fuel emissions, improving energy efficiency, and reducing total energy use. That act requires not less than 60% of the funds allocated to a state to be used to provide subgrants to local governments that are not eligible to receive block grants under the act. Existing law authorizes the State Energy Resources Conservation and Development Commission to apply for and accept grants.

This bill would require the commission to administer funds received by the state pursuant to the federal act and would require not less than 60% of the funds received to be used to provide subgrants to cities and counties of specified population sizes. The bill would require the remaining funds to be used to provide grants to entities eligible under the federal act. All grants would be prioritized based on cost-effective energy efficiency. The bill would require that no more than 5% of the funds received be expended on administrative expenses.

Ch. 230 (AB 2191) Mullin Public employees: annuities.

Existing law prohibits state and local agencies from negotiating life and disability insurance or requiring the placing of that insurance through particular agents, brokers, or companies, except to the extent that the state has a direct financial interest in the subject of the insurance, as specified. Existing law excepts from these provisions a tax-sheltered annuity under an annuity plan that meets the requirements of Section 403(b) of the Internal

Revenue Code to be placed or purchased for an employee, as specified. Existing law permits the Controller to purchase annuity contracts for permanent employees of specified state entities, and requires the Controller to install and operate a uniform state payroll system, as specified. Existing law requires an annuity contract and custodial account as described in Section 403(b) of the Internal Revenue Code to be offered to all employees of any state agency who are members of the State Teachers' Retirement Plan. The Teachers' Retirement Law provides a registration process for information relating to tax-deferred retirement investment products.

This bill would revise the authority of the Controller to purchase annuity contracts for employees of state entities, as described above, to specify that this authority may be exercised on behalf of any state employer under the uniform state payroll system, excluding the California State University System, that employs persons eligible to participate in an annuity contract and custodial account as described in Section 403(b) of the Internal Revenue Code of 1986. The bill would require the Teachers' Retirement Board of the State Teachers' Retirement System to offer an annuity contract and custodial account as described in Section 403(b) of the Internal Revenue Code to eligible state employees of a state employer under the uniform state payroll system, excluding the California State University System, as described above. The bill would make the registration process for information relating to tax-deferred retirement investment products applicable to eligible state employees of these employers. The bill would make various conforming changes.

Ch. 231 (AB 2193) Tran Civil discovery: out-of-state proceedings.

Existing law permits a California court, by subpoena, to compel a natural person to submit to oral or written deposition, and to produce documents and things, in connection with actions pending outside of California. Existing law specifies the circumstances pursuant to which this power will be exercised, including when the out-of-state court has issued a mandate, a writ, and a letter of request.

This bill would repeal these provisions and would enact the Interstate and International Depositions and Discovery Act. The provisions of the bill, beginning January 1, 2010, would apply to an organization as well as a natural person, and would apply to depositions for the production of tangible items and inspection of premises, in addition to those requiring testimony. The bill would broaden the range of documents issued by an out-of-state court pursuant to which a California court would be authorized to issue a subpoena in this regard. The bill would establish a process for obtaining a subpoena, which would require payment of a fee, to be deposited in the Trial Court Trust Fund, and submitting the subpoena of the out-of-state court with a specified application. The bill would establish a specified fee to be paid related to disputes that arise under its provisions. The bill would provide that a party is not required to retain a local attorney to depose a witness in these circumstances. The bill would permit an active member of the California State Bar who is retained by a party to an out-of-state proceeding to issue a deposition subpoena, as specified. The bill would provide a process for the resolution of a dispute regarding discovery conducted in California in connection with an out-of-state proceeding, and a request for relief in this regard would be filed in the superior court in which the discovery is sought with payment of specified fees. The bill would permit a party to appeal court orders in connection with a dispute by extraordinary writ to the appropriate court of appeal. The bill, beginning January 1, 2009, would require the Judicial Council to prepare an application form, and to either create subpoena forms, or modify existing subpoena forms, for issuance pursuant to its provisions.

The bill would also provide an alternative definition of a subpoena in connection with the proposed Interstate and International Depositions and Discovery Act that would be operative only if AB 926 and this bill are both enacted and become effective on or before January 1, 2009, and AB 926 makes a specified amendment to the Code of Civil Procedure.

Ch. 232 (AB 2216) Gaines Diesel generators: health facilities.

(1) Existing law requires a health facility, as defined, to test its diesel-powered backup generators using the most recent standard set by the Joint Commission on the Accreditation of Healthcare Organizations, and requires a diesel backup generator to be started once per week when it is not being tested. Violation of these requirements constitutes a crime. These requirements will be repealed on January 1, 2009.

This bill would extend this repeal date to January 1, 2011, and would eliminate the requirement that a health facility's diesel backup generator be started once per week when it is not being tested. This bill would require a health facility to test its diesel-powered backup generators as prescribed.

By extending the operation of a crime, this bill would create a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 233 (AB 2226) Ruskin Teachers: special education teacher preparation programs: comparability of coursework.

Existing law establishes in state government the Commission on Teacher Credentialing, and authorizes the commission to issue teaching and services credentials, including a special education credential. Existing law authorizes the commission to approve any institution of higher education to recommend the issuance of credentials to persons who have successfully completed a teacher education program.

This bill would require the commission to convene a workgroup for the purpose of providing guidance to programs in determining the comparability of coursework or field experience completed in other commission-accredited programs to special education programs. The bill would require the commission to report the findings of the workgroup to the Legislature, the Governor, and the Secretary for Education on or before December 1, 2009.

Ch. 234 (AB 2249) Niello Financial institutions: accounts.

(1) Existing law provides that when any police or sheriff's department or district attorney in this state certifies to a bank, credit union, or savings association in this state or doing business in this state that a crime report has been filed that involves the alleged fraudulent use of drafts, checks, access cards, or other orders, and so requests, the financial institution must furnish specified information with regard to a customer account, including, but not limited to, the dates and amounts of deposits and debits and the account balance on those dates, and a copy of the signature card.

Upon the circumstances described above, this bill would also require those financial institutions to furnish that account information, upon request, to a county adult protective services office and long-term care ombudsman, when those entities are investigating the financial abuse of an elder or dependent adult.

(2) Existing law provides that when the governing board of the Public Employees' Retirement System or the State Teachers' Retirement System, or the retirement board of a retirement system established under the County Employees Retirement Law of 1937, certifies in writing to a financial institution that a benefit recipient has died and that transfers to the benefit recipient's account at the financial institution from the retirement system occurred after the benefit recipient's date of death, the financial institution must furnish the retirement system with the name and address of any coowner, cosigner, or any other person who had access to the funds in the account following the date of the benefit recipient's death, or if the account has been closed, the name and address of the person who closed the account.

This bill would additionally provide that when the Franchise Tax Board certifies in writing to a financial institution that (1) a taxpayer filed a tax return that authorized a direct deposit

refund with an incorrect financial institution account or routing number that resulted in all or a portion of the refund not being received, (2) the refund was not returned to the Franchise Tax Board, and (3) the refund was deposited into the account of an accountholder of the financial institution who was not entitled to receive the refund, the financial institution must furnish to the Franchise Tax Board the name and address of any coowner, cosigner, or any other person who had access to the funds in the account following the date of direct deposit refund, or if the account has been closed, the name and address of the person who closed the account. The bill would also make a specified statement of intent with regard to that certification and request.

(3) Existing law allows the Franchise Tax Board to, upon making or allowing a refund or credit that it determines to be erroneous, assess and collect the erroneous amount, after notice and demand, as specified.

This bill would apply that authority to misdirected refunds, defined as a direct deposit refund that was deposited in the account with a financial institution of a person other than the taxpayer entitled to the refund, and would set forth procedures by which the account of the taxpayer entitled to the refund would be credited. The bill would also make conforming changes to a related provision.

#### Ch. 235 (AB 2260) Committee on Higher Education Postsecondary education.

(1) Existing law, known as the Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Program, establishes, among other programs, the Cal Grant A Entitlement Program, the Cal Grant B Entitlement Program, the California Community College Transfer Cal Grant Entitlement Program, and the Competitive Cal Grant A and B Awards under the administration of the Student Aid Commission, and establishes eligibility requirements for awards under these programs.

The minimum requirements for the competitive Cal Grant B award includes attaining a high school grade point average of 2.0 or higher, but authorizes a student, in lieu of meeting that grade point average requirement, to reestablish his or her grade point average by completing at least 16 cumulative units of credit for academic coursework at an accredited California community college, as defined by the commission, by regulation, with at least a 2.0 community college grade point average.

This bill would revise the minimum requirements for the competitive Cal Grant B award to additionally authorize a student, in lieu of meeting the grade point average requirements, to demonstrate attainment of a community college or college grade point average of at least 2.0 on a 4.0 scale.

(2) Existing law permits the governing board of a community college district to establish a bookstore on district property. In the event the governing board decides not to operate its own bookstores, existing law permits the governing board to contract out the operation of bookstores. The authority to contract out the operation of bookstores was only to remain in effect until one year from the date the section became effective, or when the California Supreme Court decision on the appellate case of 1st Street Books v. Marin Community College District (1989) 208 Cal.App.3d 1275 was issued, whichever occurred last.

This bill would repeal the above-described statute authorizing a governing board to contract out the operation of bookstores, and would declare that this repeal is declaratory of existing law.

#### Ch. 236 (AB 2284) Galgiani Market milk standards: frozen yogurt: Milk Producers Security Trust Fund.

Existing law requires market milk dairies to provide sufficient refrigeration capacity to reduce the temperature of milk to certain temperatures within certain timeframes and to maintain the milk at a certain temperature until delivery. Existing law requires raw market milk in bulk milk tankers to be maintained in transit at a temperature not exceeding 52 °F.

This bill would delete those requirements and instead provide that market milk shall be cooled to 50 °F or less within 4 hours of the commencement of the first milking and to 45 °F or less within 2 hours of the completion of milking.

Existing law provides that any violation of these provisions is a misdemeanor.

Because this bill would change the terms of a crime, the bill would impose a state-mandated local program.

Existing law provides standards for frozen yogurt and frozen yogurt mix and labeling requirements for frozen yogurt.

This bill would repeal certain of those standards relating to fruit and acidity in frozen yogurt, and other standards relating to frozen yogurt mix. The bill would also repeal certain labeling requirements for frozen yogurt.

Existing law confers upon the Secretary of Food and Agriculture the ability to establish and administer the Milk Producers Security Trust Fund to protect producers against loss of payment for bulk milk. Existing law requires the secretary to require a handler to provide acceptable security, as defined, under certain circumstances.

Existing law provides that letters of credit and any other instrument used as acceptable security are subject to certain specified requirements and that acceptable securities shall not be released by the secretary unless the handler's average monthly purchases fall below \$30,000,000.

This bill would provide that any instrument used as acceptable security is subject to a revised set of requirements. The bill also would revise the circumstances under which the secretary may release the issuer of acceptable security from liability secured by that security, and would grant a handler the right to replace an acceptable security with a new one, as provided.

Existing law provides that if, on the date of the notice of ineligibility for coverage from the fund, a producer has a contract with the handler which is on file with the secretary, shipments by that producer after 45 days from the date of the notice will not be considered in determining any claim the producer may make against the fund, except as provided.

This bill would instead provide that if, on the date of the notice of ineligibility, a producer has a contract with the handler which is on file with the secretary, and that producer has received payment from a handler whose milk purchases have been declared ineligible, shipments by that producer which occur more than 5 days from the date of the notice of ineligibility issued by the secretary will not be considered in determining any claim the producer may make against the fund, except as provided.

This bill would also make clarifying and technical, nonsubstantive changes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 237 (AB 2343) Caballero Public administrators and conservators.

(1) Existing law requires the public guardian of a county to comply with the continuing education requirements that are established by the California State Association of Public Administrators, Public Guardians, and Public Conservators.

This bill would require, on or before January 1, 2010, that the public conservator and administrator of a county to comply with the continuing education requirements that are established by the California State Association of Public Administrators, Public Guardians, and Public Conservators. By increasing the duties of local officials, this bill would impose a state-mandated local program.

(2) Existing law provides a method for filling a vacancy if a trust has no trustee or the trust requires a vacancy in the office of cotrustee to be filled. Existing law provides that, if other specified methods of appointing a trustee to fill a vacancy fail, a court may appoint a trustee

on the petition of any interested person. Existing law prohibits the public guardian being appointed as a trustee unless the court finds, on reasonable inquiry, that no other qualified person is willing to act as trustee. Existing law creates in each county the office of public administrator.

This bill would permit a public guardian or public administrator to be appointed as a trustee only if certain conditions are met. The bill would prohibit appointment of a public administrator unless the court finds, after reasonable inquiry, that no other qualified person is willing to act as trustee. The bill would prohibit the public administrator from being appointed unless, at the time of the appointment, the entire trust is to be distributed outright or he or she consents. The bill would require that the public guardian or public administrator receive notice prior to the hearing to appoint him or her as trustee, or prior to appointment as a temporary trustee, and would prohibit appointment of the public guardian or public administrator as a cotrustee without his or her consent. If the public guardian or public administrator consents to appointment as trustee, he or she would be required to submit a written certification of the consent to the court. The bill would specify the expenses and compensation that a public guardian, public administrator, and his or her attorney are to receive for acting as a trustee, under specified circumstances, including a minimum compensation of \$1,000, to be paid to the public guardian or public administrator and his or her attorney. The bill would require that the public administrator receive a bond fee, calculated pursuant to a specified method, to be deposited in the county treasury.

(3) Existing law authorizes the boards of supervisors of specified counties to provide, by ordinance, that the public administrator be appointed by the board. Existing law also authorizes the boards of supervisors of specified counties, by ordinance, to appoint the same person to the offices of public administrator and public guardian.

Existing law authorizes the board of supervisors, by ordinance, to consolidate the duties of certain county offices, including the treasurer and public administrator.

This bill would authorize the Board of Supervisors of Ventura County to provide, by ordinance, that the public administrator be appointed by the board, and to authorize the board to appoint the same person to the offices of public administrator and public guardian. The bill would also authorize the Board of Supervisors of Ventura County to separate the consolidated offices of public administrator and treasurer in order to consolidate the offices of public administrator and public guardian, as specified. The bill would authorize the Board of Supervisors of Kings County to appoint the same person to the offices of public administrator and guardian.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 238 (AB 2374) Spitzer Radiologic and nuclear medicine technology: scans.

Existing law, the Radiation Control Law, designates the State Department of Public Health (department) as the department responsible for the regulation of radiation control in the state, and imposes various duties on the department in connection with that designation, including developing programs for evaluating the health and safety hazards associated with using sources of ionizing radiation, licensing and regulating byproduct, source, and special nuclear materials, and adopting regulations relating to the control of sources of ionizing radiation. A violation of the Radiation Control Law is a crime.

Existing law provides for the Radiation Control Fund, which is a special fund in the State Treasury into which the fees, penalties, interest earned, and fines imposed under the Radiation Control Law and other specified provisions of law relating to the regulation of nuclear medicine and radiologic technology are deposited. Existing law authorizes the

department to expend moneys in the fund, upon appropriation by the Legislature, for the costs related to, among other things, the enforcement of the Radiation Control Law and for certain provisions regulating radiologic technology and nuclear medicine.

This bill would specify that the moneys in the fund are also available for expenditure by the department to implement the on-the-job registration requirements of the bill.

Existing law requires the department to provide for certification of diagnostic radiologic technologists and standards of competence for persons who perform nuclear medicine technology.

Existing law authorizes any person who is currently certified as meeting the standards of competence in nuclear medicine technology to perform a computerized tomography scan only on a dual mode machine on which both a nuclear medicine procedure, including a positron emission tomography scan, and a computerized tomography scan may be performed if certain conditions are met.

This bill would authorize any person who has registered with the department as participating in on-the-job training to meet required clinical competencies, as described below, and who is under the direct supervision of a person who holds a current, valid certificate in diagnostic radiologic technology to also perform these scans.

Existing law also authorizes a person who holds a current, valid certificate in diagnostic radiologic technology to perform a positron emission tomography scan only on a dual mode machine on which both a positron emission tomography scan and a computerized tomography scan may be performed if certain conditions are met.

This bill would authorize any person who has registered with the department as participating in on-the-job training to meet required clinical competencies, as described below, and who is under the direct supervision of a person who currently meets the standards of competence for the performance of nuclear medicine technology, to also perform these scans.

This bill would require any person seeking to participate in the on-the-job training described above to register with the department for a period of no more than 2 years by submitting an application containing prescribed information and a fee of a specified amount. The bill would provide that the fee shall not exceed the department's costs of administering the on-the-job training registration, and would require moneys collected from the fee to be deposited in the Radiation Control Fund, as specified. The bill would authorize the department to grant a one-time 6-month extension of the registration period under specified circumstances, as provided, and would make a violation of these provisions punishable as a misdemeanor.

By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 239 (AB 2391) Solorio Teachers: Mathematics and Reading Professional Development Program.

Existing law establishes the Mathematics and Reading Professional Development Program, which is administered by the Superintendent of Public Instruction with the approval of the State Board of Education. Under this program, a local educational agency, as defined, receives incentive funding to provide training in mathematics and reading to teachers and to provide training to instructional aides and paraprofessionals, as defined, who directly assist with classroom instruction in mathematics and reading. A local educational agency is required to certify that 40 hours of specified professional development and 80 hours of followup instruction, coaching, or additional schoolsite assistance, as specified, was provided to specified teachers.

This bill would allow a teacher to fulfill the requirement to receive 80 hours of followup training with up to 40 hours of instruction in areas that include data analysis, alignment of assessment and instruction, implication of data analysis and its effect on increasing pupil achievement, impact on pupil success through diagnostic teaching, differentiating instruction through pacing and complexity, grouping as an aid to instruction, and statewide and local data management systems. If a local educational agency chooses to offer that option, the local educational agency would be required to contract with a training provider that is approved by the state board and whose training curriculum is based on those areas and meets the criteria established by the state board. The Superintendent would be authorized to appoint an advisory committee to ensure the quality and effectiveness of this training.

Ch. 240 (AB 2404) Salas Energy efficiency: water efficiency programs.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations and gas corporations. Existing law requires the commission to require electrical corporations to identify a separate rate component to fund programs that enhance system reliability and provide in-state benefits. This rate component is a nonbypassable element of local distribution and is collected on the basis of usage. The funds are collected, in part, to support cost-effective energy efficiency and conservation activities. Existing law establishes a surcharge on all natural gas consumed in the state to fund certain low-income assistance programs, cost-effective energy efficiency and conservation activities, and public interest research and development. Existing law requires a public utility gas corporation, as defined, to collect the surcharge from natural gas consumers, as specified. The money from the surcharge is deposited in the Gas Consumption Surcharge Fund and is continuously appropriated to specified entities, including to the commission, or to an entity designated by the commission, to fund low-income assistance programs, cost-effective energy efficiency and conservation activities. An existing decision of the commission approved pilot programs for the state's largest electrical and gas corporations through which they will develop partnerships with water agencies to undertake specific water conservation programs and will measure the results and fund studies necessary to understand more accurately the relationship between water savings and the reduction of energy use and the extent to which those reductions would vary for different water agencies.

This bill would require the commission, by March 31, 2010, to report to the Legislature on the results of the pilot programs, provide conclusions drawn from the pilot programs, and make recommendations as to whether the electrical and gas corporations would or could achieve cost-effective energy efficiency improvements through water conservation programs.

Ch. 241 (AB 2405) Arambula Domestic violence: additional fee.

Existing law provides for the imposition of various fines, forfeitures, and penalties upon a criminal conviction.

This bill would permit a county to authorize an additional fee of not more than \$250 to be imposed upon a conviction for specified crimes of domestic violence, to be deposited into a fund in each county, to be used for domestic violence prevention programs that focus on assisting immigrants, refugees, or persons who live in rural communities.

Ch. 242 (AB 2444) Nakanishi Medical Board of California: disciplinary actions.

Existing law, the Medical Practice Act, provides for the licensure and regulation of physicians and surgeons by the Medical Board of California. Under existing law, the board is responsible for administering the disciplinary provisions of the act and is authorized to issue public letters of reprimand under specified circumstances, rather than filing or prosecuting a formal accusation.

This bill would allow the board to include a requirement for specified training or education in a public letter of reprimand.

Ch. 243 (AB 2449) Davis Military service: privileges: job protection.

Existing law provides protections for members of the National Guard ordered into active state service by the Governor or active federal service by the President of the United States for emergency purposes, and for reservists called to active duty, as specified.

Existing law provides protections for these persons during their period of military service with respect to their private employment rights upon return from service, and authorizes a district attorney of the county in which an employer maintains a place of business to act as an attorney on behalf of a service member in any action, as specified, against an employer who fails or refuses to comply with those provisions.

This bill would expand those provisions by additionally allowing any city prosecutor of the city in which an employer maintains a place of business to act as an attorney on behalf of a service member in any action, as specified, against an employer who fails or refuses to comply with those provisions.

Ch. 244 (AB 2510) La Malfa Local government: special districts: audits.

Existing law requires the county auditor to make an annual audit of the accounts and records of every special district, as specified, except that a special district may, with unanimous approval of the board of supervisors, replace the annual audit with a biennial audit covering a 2-year period or, if the district's annual budget does not exceed an amount specified by the board of supervisors, an audit covering a 5-year period.

This bill would recast those provisions and would authorize the use of the biennial audit; the 5-year audit, if the district's annual revenues do not exceed an amount specified by the board of supervisors; an audit conducted at intervals specified by the county auditor; or a financial review in accordance with specified procedures, if the special district revenues and expenditures are transacted through the county's financial system and the special district's annual revenues do not exceed \$150,000.

Ch. 245 (AB 2555) Torrico Special education: initial assessment: individualized education program.

Existing law requires that the parent or guardian of a pupil be given, in writing, a proposed assessment plan within 15 days of the referral of the pupil for an assessment for the development or revision of an individualized education program, unless the parent or guardian agrees, in writing, to an extension. Existing law requires that a copy of the notice of a parent's or guardian's rights be attached to the assessment plan. Existing law establishes state special schools, including the California School for the Deaf and the California School for the Blind, as part of the public school system of the state.

This bill would require that the copy of the notice of parent rights include information regarding the state special schools for pupils who are deaf, hard of hearing, blind, visually impaired, or deaf-blind.

By requiring local educational agencies to include additional information in the copy of the notice of parent rights attached to the assessment plan, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 246 (AB 2604) Torrico Developer fees.

Existing law prohibits a local agency that imposes any fees or charges on a residential development for the construction of public improvements or facilities from requiring the payment of those fees or charges until the date of the final inspection or the date the certificate

of occupancy is issued, whichever occurs first, with specified exceptions. If the fee or charge is not fully paid prior to issuance of a building permit, existing law authorizes the local agency issuing the building permit to require the property owner, as a condition of issuance of the building permit, to execute a contract to pay the fee or charge within the specified time.

This bill would authorize a local agency to defer the collection of one or more fees up to the close of escrow.

Ch. 247 (AB 2445) Nakanishi Medical Board of California: disciplinary procedures: applicants.

Existing law, the Medical Practice Act, creates the Medical Board of California and makes it responsible for issuing a physician's and surgeon's certificate to qualified applicants. Upon a determination that an applicant is guilty of unprofessional conduct or of any cause that would subject a licensee to revocation or suspension of his or her license, the act authorizes the board to deny his or her application or to issue a probationary certificate that is subject to conditions of probation.

This bill would authorize the board to issue a physician's and surgeon's certificate to an applicant who has committed minor violations, as specified, and to concurrently issue a public letter of reprimand, which would be purged 3 years from the date of issuance. The bill would require that the public letter of reprimand be disclosed to an inquiring member of the public and be posted on the board's Internet Web site.

This bill would also make technical, nonsubstantive, and clarifying changes to a related provision with regard to reapplication procedures and obsolete references, as specified.

Ch. 248 (AB 2650) Carter Department of Transportation: environmental review process: reports.

Existing law gives the Department of Transportation full possession and control of state highways and associated property. Existing federal law requires the United States Secretary of Transportation to carry out a surface transportation project delivery pilot program, as specified. The secretary has authorized California to participate in that program, and California has agreed to that participation. A 3-year memorandum of understanding was negotiated between the parties for purposes of state assumption of responsibility for categorical exclusions.

Existing law, until January 1, 2009, provides that the State of California consents to the jurisdiction of the federal courts with regard to the compliance, discharge, or enforcement of the responsibilities assumed pursuant to the surface transportation project delivery pilot program. Existing law requires the department to submit a specified report to the Legislature by January 1, 2008, relating to the surface transportation project delivery pilot program.

This bill would require the department to submit that report to the Legislature by January 1, 2009, and again by January 1, 2011. The bill would require the report to include an assessment of project delivery time. The bill would also extend the operation of the above-described pilot program provisions until January 1, 2012.

Ch. 249 (AB 2658) Horton Disease prevention: reportable diseases.

Existing law requires the State Department of Public Health to establish a list of reportable diseases and conditions, which may include both communicable and noncommunicable diseases. The list is required to include the urgency of reporting each disease and condition. Violation of these provisions is a misdemeanor.

This bill would revise the contents of this list by requiring the department to specify the timeliness requirements related to the reporting of each disease and condition, and the mechanisms required for, and the content to be included in, reports made pursuant to these provisions.

The bill would also require, by July 1, 2009, or within one year of the establishment of a state electronic laboratory reporting system, whichever is later, any laboratory that generates

a report pursuant to these provisions to submit that report electronically in a manner specified by the department.

This bill would also authorize the department, on its Web site and via e-mail, to advise out-of-state laboratories that are known to the department to test specimens of California residents of the new reporting requirements.

By changing the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would incorporate additional changes to Section 120130 of the Health and Safety Code proposed by SB 356, to become operative only if both this bill and SB 356 are enacted and become effective on or before January 1, 2009, each bill amends Section 120130 of the Health and Safety Code, and this bill is enacted after SB 356.

#### Ch. 250 (AB 2714) Keene Cargo loads: spilling.

Existing law requires, among other things, that a vehicle may not be driven or moved on any highway unless the vehicle is so constructed, covered, or loaded as to prevent any of its contents or load other than clear water or feathers from live birds from dropping, sifting, leaking, blowing, spilling, or otherwise escaping from the vehicle.

This bill would specify that the above requirement does not apply to the loss of hay or straw that is not considered to be a loss of load by the federal regulations relating to cargo securement.

#### Ch. 251 (AB 2730) Leno Beverage containers: nonprofit convenience zone recyclers.

Under existing law, the California Beverage Container Recycling and Litter Reduction Act, every beverage container sold or offered for sale in this state is required to have a minimum refund value. A distributor is required to pay a redemption payment for every beverage container sold or offered for sale in the state to the Department of Conservation and the department is required to deposit those amounts in the California Beverage Container Recycling Fund. The money in the fund is continuously appropriated to the department for the payment of refund values and processing fees, and, among other things, for the payment of handling fees to supermarket sites, nonprofit convenience zone recyclers, and rural region recyclers for every beverage container redeemed by those entities.

Existing law defines the term “convenience zone” for the purposes of the act and requires every convenience zone to be served by at least one certified recycling center. The Director of Conservation is authorized to grant an exemption from these convenience zone requirements based on specified factors. The act also defines the term “nonprofit convenience zone recycler” as a recycling center that meets certain requirements, including that the recycling center is located within a convenience zone, but is not necessarily a supermarket site.

This bill would, in the alternative, require that a nonprofit convenience zone recycler have operated in the same location for not less than 5 years and be located within one mile of a supermarket that is in a convenience zone that is exempt from the requirement that there be a certified recycling center or location within every convenience zone.

#### Ch. 252 (AB 2786) Salas Elections: ballots.

Existing law permits a voter to return a vote by mail ballot either by mail to the elections official from whom it came or by personal delivery to the elections official or to a precinct board member at any polling place within the jurisdiction.

Existing law also permits until January 1, 2009, a voter who is temporarily living outside of the territorial limits of the United States, the District of Columbia, or is called to military service, to return his or her vote by mail ballot by facsimile transmission to the elections official. The ballot has to be received by the closing of the election day polls and accompanied by an identification envelope and an oath of voter declaration in a prescribed form.

Existing law requires a special absentee voter to agree under penalty of perjury to waive his or her right to a secret ballot and that he or she has not applied for a vote by mail ballot from any other jurisdiction for the election. The elections official is required to determine the voter's eligibility to vote by comparing the voter's signature from the materials returned by facsimile transmission to the signature on the voter's affidavit of registration.

This bill would extend these provisions to January 1, 2011. Because the bill requires elections officials to provide a higher level of service for 2 additional years and creates perjury crimes during those 2 years, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

#### Ch. 253 (AB 2791) Blakeslee Energy: Waste Heat and Carbon Emissions Reduction Act.

Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities, including electrical corporations, as defined. Existing law authorizes the PUC to fix the rates and charges for every public utility, and requires that those rates and charges be just and reasonable. The existing Waste Heat and Carbon Emissions Reduction Act authorizes the PUC to require an electrical corporation to purchase excess electricity, as defined, from any customer of the electrical corporation that is delivered by a combined heat and power system, as defined, that complies with the sizing, energy efficiency, and air pollution control requirements of the act. The act requires every electrical corporation to file a standard tariff with the PUC for the purchase of excess electricity from an eligible customer-generator, as defined, requires the electrical corporation to make the tariff available to eligible customer-generators within the service territory of the electrical corporation upon request, and authorizes the electrical corporation to make the terms of the tariff available in the form of a standard contract. The existing definition of an eligible customer requires that the customer of an electrical corporation use a combined heat and power system with a generating capacity of not more than 20 megawatts that is in compliance with the act's requirements and be a nonprofit organization that is exempt from taxation pursuant to a specified provision of federal law.

This bill would define an eligible customer to require that the customer of the electrical corporation use a combined heat and power system with a generating capacity of not more than 20 megawatts that is in compliance with the act's requirements and that the customer either be a nonprofit organization that is exempt from taxation or be a federal, state, or local government facility. The bill would provide that an approval made by the Department of Finance for a state agency to purchase, lease, or otherwise acquire a combined heat and power facility financed through the pay-as-you-save program may not be made sooner than after a specified time written notification is provided to certain Members of the Legislature.

#### Ch. 254 (AB 2893) Hancock Alcoholic beverages: license transfers: conditions.

The Alcoholic Beverage Control Act authorizes the Department of Alcoholic Beverage Control to impose reasonable conditions on the exercise of retail privileges under the act. The department may impose conditions on certain license transfers at the request of a local governing body in whose jurisdiction a license is located.

This bill would authorize the department to also impose conditions that it determines reasonable on license transfers regarding the presence of the license transferor on the licensed premises without lawful business, as defined, if that license transferor was cited with multiple violations of the Alcoholic Beverage Control Act when in possession of the license.

The Alcoholic Beverage Control Act provides that a violation of specified provisions of the act is a misdemeanor.

This bill, by including provisions that would be subject to those existing criminal sanctions, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 255 (AB 2904) Hayashi County child welfare services: mortality review.

Existing law requires counties to establish and maintain specialized entities within the county welfare department to provide child welfare services.

This bill would allow a county board of supervisors to receive and review certain information relating to the death of a child who had previously come to the attention of, or was under the supervision of, the county child welfare agency, as specified.

Ch. 256 (AB 2919) Garcia Advertising.

Existing law makes it unlawful for any person, firm, or corporation, or association that is a nongovernmental entity to solicit funds or information by means of a mailing, electronic message, or Internet Web site that contains a seal, insignia, trade, or brand name, or any other term or symbol that reasonably could be interpreted or construed as implying any state or local government connection, approval, or endorsement, unless the nongovernmental entity has an expressed connection with a state or local entity or unless the solicitation contains a specified disclosure. A violation of these or other provisions related to advertising is a crime.

This bill would, except as specified, require a business that solicits the purchase of, or payment for, a service by means of an unsolicited mailing offering to assist the recipient in dealing with a state or local governmental agency to state on the envelope and in the mailing that the business is not a governmental agency and is not associated with the governmental agency, and to include in the mailing the contact information for the governmental agency.

Because this bill would impose new advertising requirements, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 257 (AB 2999) Huffman Animal carcasses: removal from highways.

Existing law provides that the accidental taking of a bird, mammal, reptile, or amphibian by collision with a motor vehicle while the vehicle is being operated on a road or highway is not a violation of law. However, this provision does not authorize a person to possess the bird, mammal, reptile, or amphibian.

This bill would authorize the state or local agency having jurisdiction of a road or highway to remove an accidental take from the road or highway.

Existing law prohibits a dead animal hauler or any other person from transporting any dead animal to any place, other than to certain specified facilities or destinations, unless a certain waiver is granted by the State Veterinarian.

This bill would make those provisions inapplicable to the Department of Transportation or local agencies having jurisdiction over a road or highway when engaged in removing animal carcasses from the road or highway.

Existing law provides that the Department of Transportation has full possession and control of the state highway system and associated property.

This bill would require the department, within its maintenance program, to establish certain procedures for the removal and disposal of animal carcasses on state highways. The bill, notwithstanding other laws, including laws relative to prohibitions on the possession and transportation of endangered or protected species, or the property rights associated with livestock and other commercially valuable animals, would authorize the department to remove or relocate an animal carcass from a state highway for safety purposes.

#### Ch. 258 (AB 1278) Lieber Crimes.

Existing law provides that certain contract provisions are void as against public policy.

This bill would provide that any provision of a contract that purports to allow a deduction from a person's wages for the cost of emigrating and transporting that person to the United States would be void as against public policy.

Existing law provides jurisdiction over certain crimes in more than one territory if specified facts are shown.

This bill would require a local prosecutor to present evidence to the court, and would require the court to hold a hearing to consider, whether a matter involving human trafficking in multiple jurisdictions should proceed in the county of filing, or whether one or more counts should be severed, as specified. Because this bill would impose additional duties on local prosecutors, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 259 (AB 1883) Keene Fire: inmate crews: nonprofit organizations.

The Department of Forestry and Fire Protection is required to use inmates and wards assigned to conservation camps for fire prevention, fire control, and other work of the department. The department is authorized to enter into contracts and cooperative agreements with public agencies for the performance of other conservation projects appropriate for that public agency, under the policies established by the Prison Industry Authority.

This bill would enact the Wildfire Prevention Assistance Act of 2008 and would expand the department's authority to include entering into contracts and cooperative agreements with qualified nonprofit organizations that have a demonstrated ability to plan, implement, and complete a conservation project and meet other criteria, as determined by the department.

#### Ch. 260 (AB 2120) Galgiani Medical telemedicine.

Existing law, the Medical Practice Act, regulates the practice of telemedicine, defined as the practice of health care delivery, diagnosis, consultation, treatment, transfer of medical data, and education using interactive audio, video, or data communications.

Existing law, until January 1, 2009, authorizes under the Medi-Cal program, to the extent that federal financial participation is available, "teleophthalmology and teledermatology by store and forward," as defined.

This bill would extend, until January 1, 2013, the repeal of the above-described authorization.

Ch. 261 (AB 2202) Caballero Public Employees' Retirement System.

(1) The Public Employees' Retirement Law provides that public employees become members of the Public Employees' Retirement System (PERS) upon entry into employment, with specified exceptions. Existing law excludes from membership in PERS part-time employees unless certain requirements are met. Existing law requires state agencies, school employers, and contracting agencies of PERS to provide specified information to the Board of Administration of PERS regarding employees who are members of the system.

This bill would require every state agency, school employer, or contracting agency of PERS to provide information to the board, upon request, regarding its employees who are not enrolled as members of PERS. The bill would require that this information be treated as confidential, as specified.

(2) Existing law permits any public agency to participate in and make all or part of its employee members of PERS by contract, except when the agency, within the last 3 years, has terminated a previous contract. Existing law permits a contracting agency to terminate, as specified, a contract that has been in effect for at least 5 years.

This bill would permit the Board of Administration of PERS to enter into an agreement with the governing body of a contracting agency for the termination of a portion of the contract with respect to a member classification with no active employees. The bill would require that the agreement be reflected in an amendment to the agency's contract, and would permit the board to require that the portion of the contract being terminated be in effect for at least 5 years. The bill would require the board to take certain actions upon the termination of the contract with respect to holding contributions, merging plan assets and liabilities, and entering into an agreement with the agency regarding the calculation of final compensation for its employees and the funding of benefits.

Ch. 262 (AB 2323) Huff Escrow agents.

Existing law, the Escrow Law, provides for licensing and regulation by the Commissioner of Corporations of persons engaged in business as escrow agents, unless specifically exempted. Existing law requires persons licensed as escrow agents to be members of the Escrow Agents' Fidelity Corporation (Fidelity Corporation), which is established as a nonprofit corporation to indemnify its members against loss, and which is funded by fees and assessments on its members. Existing law requires an applicant for a license as an escrow agent or for a Fidelity Corporation Certificate to submit fingerprints for a Department of Justice criminal background check. Existing law also requires an escrow agent to submit to the commissioner, by certified mail, the fingerprints of persons seeking employment with the agent, as specified.

This bill would expand these provisions to also include federal summary criminal history information from the Federal Bureau of Investigation and other related information, and would allow the submission of fingerprint images and related information by escrow agents to be transmitted electronically. The bill would require the Department of Justice to forward the commissioner's or Fidelity Corporation's request to the Federal Bureau of Investigation and to compile and disseminate a response to the requesting party. The bill would require the Department of Justice to charge a fee for these services sufficient to cover its related costs.

Ch. 263 (AB 2553) Solorio Domestic violence: ex parte orders.

Existing law, the Domestic Violence Prevention Act, authorizes the court to issue ex parte orders for the prevention, or the prevention of the recurrence of, domestic violence. Existing law authorizes the court to issue an ex parte order enjoining a party from molesting, attacking, striking, stalking, threatening, sexually assaulting, battering, harassing, telephoning,

including, but not limited to, annoying telephone calls, destroying personal property, contacting, either directly or indirectly, by mail or otherwise, coming within a specified distance of, or disturbing the peace of the other party, and, in the discretion of the court, on a showing of good cause, of other named family or household members.

This bill would require the court to include in any order denying a petition for that ex parte order the reasons for denying the petition. This bill would also require any order denying a jurisdictionally adequate petition for that ex parte order to provide the petitioner the right to a noticed hearing on the earliest date that the business of the court will permit, within specified limits. The bill would also provide that nothing in those provisions shall preclude a petitioner who waives his or her right to a noticed hearing from refileing a new petition, without prejudice, at a later time, and would require the Judicial Council to develop a form to implement these provisions.

#### Ch. 264 (AB 2606) Emmerson Bad check diversion program.

Existing law authorizes a prosecution diversion program for bad check criminal cases. Existing law sets the maximum amount of processing fees that may be collected for each bad check in addition to the actual amount of any bank charges at \$35, for an aggregate total not to exceed \$1,000. Existing law sets the maximum amount that the district attorney may pay victims for bank fees that have been assessed for a bad check at \$10.

This bill would increase the maximum amount of processing fees to \$50 per check, would authorize inclusion of returned check fees in the processing fees, and would increase the allowable aggregate total to be collected to \$1,200. The bill would increase the amount that the district attorney may pay victims for assessed bank fees to a maximum of \$15 per check. The bill would make other technical changes.

#### Ch. 265 (AB 2949) DeSaulnier Involuntary deposits: abandoned pets.

Existing law provides that an involuntary deposit is made by the accidental leaving or placing of personal property in the possession of any person, without negligence on the part of its owner, or by the delivery to, or picking up by, and the holding of, a stray live animal by any person or public or private entity. The person or private entity with whom a thing or animal is deposited is bound to take charge of it, if able to do so.

Existing law also provides that every owner, driver, or keeper of any animal who permits the animal to be in any building, enclosure, lane, street, square, or lot of any city, county, city and county, or judicial district without proper care and attention is guilty of a misdemeanor.

This bill would provide that an involuntary deposit is made by the abandonment or leaving of a live animal in or about any premises or real property that has been vacated upon, or immediately preceding, the termination of a lease or other rental agreement or foreclosure of the property. The bill would require any person or private entity with whom a live animal is involuntarily deposited to immediately notify animal control officials for the purpose of retrieving the animal.

#### Ch. 266 (AB 3000) Wolk Health care decisions: life-sustaining treatment.

Existing law defines a "request to forgo resuscitative measures" as a written document, signed by an individual, or a legally recognized surrogate health care decisionmaker, and a physician, that directs a health care provider to forgo resuscitative measures for the individual. Existing law provides that a health care provider who honors a request to forgo resuscitative measures is not subject to criminal prosecution, civil liability, discipline for unprofessional conduct, administrative sanction, or any other sanction, as a result of his or her reliance on the request, provided that he or she meets certain requirements.

This bill would make findings and declarations regarding health care planning. The bill would redefine a request to forgo resuscitative measures as a "request regarding resuscitative measures," which would be a written document, signed by an individual with capacity, or a legally recognized health care decisionmaker, and that individual's physician, that directs

a health care provider regarding resuscitative measures. The bill would include within this definition a Physician Orders for Life Sustaining Treatment (POLST) form, as specified. The bill would authorize a legally recognized health care decisionmaker to execute the POLST form only if the individual lacks capacity, or the individual has designated that the decisionmaker's authority is effective, and would require a health care provider to explain the form, as specified. The bill would allow an individual having capacity to revoke a POLST form, as specified. The bill would require a health care provider to treat an individual in accordance with a POLST form, except as specified, and would permit a physician to conduct an evaluation of the individual and issue a new order consistent with the most current information available about the individual's health status and goals of care. The bill would require the legally recognized health care decisionmaker of an individual without capacity to consult with the individual's treating physician prior to making a request to modify that individual's POLST form, and would provide that an individual with capacity may at any time request alternative treatment to that treatment that was ordered on the form. The bill would provide that if the orders in an individual's request regarding resuscitative measures directly conflict with his or her individual health care instruction, the most recent order or instruction is effective. The bill would also make conforming changes.

Ch. 267 (AB 3034) Galgiani Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century.

Existing law, Chapter 697 of the Statutes of 2002, as amended by Chapter 71 of the Statutes of 2004 and Chapter 44 of the Statutes of 2006, provides for submission of the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century to the voters for approval at the November 4, 2008, general election. Subject to voter approval, the act would provide for the issuance of \$9.95 billion of general obligation bonds, \$9 billion of which would be available in conjunction with any available federal funds for planning and construction of a high-speed train system pursuant to the business plan of the High-Speed Rail Authority, and \$950 million of which would be available for capital projects on other passenger rail lines to provide connectivity to the high-speed train system and for capacity enhancements and safety improvements to those lines.

This bill would repeal the above-referenced provisions and enact new provisions submitting a \$9.95 billion general obligation bond act to the voters for approval at the November 4, 2008, general election for the same purposes. The bill would revise and recast the previously proposed bond act. The bill would refer to construction of a high-speed train system consistent with the authority's certified environmental impact reports of November 2005 and July 9, 2008, rather than with the final business plan of June 2000. The bill would revise the descriptions of route corridors of the proposed high-speed train system. The bill would require excess revenues from operation of the high-speed train system beyond the amount needed for operating and maintenance costs and financing obligations, as determined by the authority, to be used for construction, expansion, improvement, replacement, and rehabilitation of the high-speed train system. The bill would require that not more than 10% of high-speed rail bond proceeds be used for environmental studies, planning, and preliminary engineering activities and that not more than 2.5% of high-speed rail bond proceeds be used for administrative expenses, except as specified. The bill would generally require the authority to complete various funding plans and financial analyses, as specified, prior to submitting a request for appropriation of bond funds for eligible capital costs and prior to committing bond proceeds for expenditure for construction and real property and equipment acquisition, but would also provide that up to 7.5% of high-speed rail bond proceeds may be used for specified expenditures outside of those requirements. The bill would require the authority to give priority in selecting corridors for construction to those corridors that are expected to require the least amount of bond funds as a percentage of total cost of construction, among other considerations. The bill would provide for the bonds to have a final maturity of not more than 40 years.

This bill would require the bond measure to appear first on the November 4, 2008, general election ballot and to be designated as Proposition 1A. The bill would specify the ballot label and title and summary to be used for the measure.

Existing law creates the High-Speed Rail Authority with specified powers and duties relative to the development and implementation of a high-speed train system. Existing law makes the Department of Transportation responsible for improving and maintaining the state highway system.

This bill would require the authority to revise its business plan by September 1, 2008, as specified, and to submit the revised plan to the Legislature. The bill would also require the authority to establish an independent peer review group for the purpose of reviewing the planning, engineering, financing, and other elements of the authority's plans and issuing an analysis of appropriateness and accuracy of the authority's assumptions and an analysis of the viability of the authority's funding plan for each corridor. This bill would, for any project along the high-speed rail network, authorize the authority to contract with the department to perform project design and engineering services, including construction inspection services, as defined.

Existing law authorizes the authority to, among other things, enter into contracts for the design, construction, and operation of high-speed trains upon approval by the voters of a specified financial plan.

This bill would provide that approval by the voters of the Safe, Reliable High-Speed Passenger Train Bond Act constitutes approval of a financial plan for purposes of that provision.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 268 (AB 1781) Laird Budget Act of 2008. <sup>1</sup>

This bill would make appropriations for support of state government for the 2008–09 fiscal year.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 269 (AB 88) Committee on Budget Budget Act of 2008. <sup>2</sup>

AB 1781, as proposed by Conference Report No. 1 on July 17, 2008, would make appropriations for the support of state government for the 2008–09 fiscal year.

This bill would amend and supplement the Budget Act of 2008 by revising items of appropriation for the Office of Planning and Research; the Office of Emergency Services; the Department of Justice; the Controller; the Secretary of State; the Treasurer; the Department of General Services; the State Personnel Board; the Department of Technology Services; the Department of Forestry and Fire Protection; the Department of Parks and Recreation; the State Air Resources Board; the State Department of Developmental Services; the State Department of Health Care Services; the State Department of Mental Health; the State Department of Social Services; the Department of Corrections and Rehabilitation; the Student Aid Commission; the State Department of Education; the California State Library; the University of California; the California State University; the California Community Colleges; the Department of Personnel Administration; the Public Utilities Commission; the Department of Finance; the Military Department; the Financial Information System for California; and local government financing.

The bill also would make technical, nonsubstantive changes to various items.

This bill would become operative only if AB 1781, as proposed by Conference Report No. 1 on July 17, 2008, is enacted on or before January 1, 2009.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 270 (SB 28) Simitian Motor vehicles: electronic wireless communications device.

(1) Under existing law, on and after July 1, 2008, it is an infraction for any person to drive a motor vehicle while using a wireless telephone, unless that telephone is designed and configured to allow hands-free listening and talking operation, and is used in that manner while driving, except as otherwise provided. A violation point is not given for a violation. A violation is punishable by a base fine of \$20 for a first offense and \$50 for each subsequent offense.

This bill would also prohibit a person from driving a motor vehicle while using an electronic wireless communications device to write, send, or read a text-based communication, except as specified. The bill would also provide that a violation point is not given for a violation of these provisions and would impose a base fine of \$20 for a first offense and \$50 for each subsequent offense. By creating a new infraction, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 271 (SB 658) Romero School facilities.

Existing law establishes the Year-Round School Grant Program to provide financial assistance to school districts operating year-round educational programs. The State Department of Education, in consultation with school districts, the Department of Finance, the Legislative Analyst's Office, and other affected parties, is required to conduct a study of the grant program to develop an equitable method of phasing out the program over a multiyear period.

Existing law establishes the Charter School Facility Grant Program to provide assistance with facility rent and lease costs for pupils in charter schools and states the intent of the Legislature that not less than \$18,000,000 annually be appropriated for purposes of the program.

This bill would phase out the Year-Round School Grant Program over a 4-year period by reducing grant amounts by 20% each fiscal year commencing with the 2008–09 fiscal year, would prohibit the Superintendent of Public Instruction from approving new year-round school grants, and would require that the Budget Act for the 2008–09 fiscal year and the Budget Acts for each fiscal year thereafter appropriate to the State Department of Education an amount equal to the amount appropriated for the program for the 2007–08 fiscal year, plus the amount equal to the reduction in funding for the Year-Round School Grant Program. If the Budget Act of 2008 is enacted before this bill and does not reflect the reallocation, or if the Budget Act for any of the 2009–10 to 2012–13 fiscal years, inclusive, does not reflect the reallocation, the Director of Finance would be required to transfer a specified amount appropriated in the Budget Act for the Year-Round School Grant Program to the Charter School Facility Grant Program to accomplish the reallocation of funding.

The bill would make the Year-Round School Grant Program inoperative on July 1, 2013, and would repeal it on January 1, 2014.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 272 (AB 498) Hernandez Public contracts: state contract eligibility: business activities in Sudan.

Existing law authorizes contracting between state agencies and private contractors and sets forth requirements for the procurement of goods and services by state agencies and the various responsibilities of state agencies and the Department of General Services in implementing state contracting procedures and policies.

This bill would prohibit a scrutinized company, as defined, that is involved in specified activities in Sudan, from entering into a contract with a state agency for goods or services. The bill also would require a prospective bidder for those state contracts, that currently or

within the previous 3 years has had business activities or other operations outside of the United States, to certify that the company is not a scrutinized company and would impose civil penalties, as specified, for a company that provides a false certification. The bill would allow the Director of General Services, under specified conditions, to permit a scrutinized company to enter into state contracts for goods and services.

Ch. 273 (AB 2033) Nunez School facilities: charter schools.

Existing law establishes as part of the Leroy F. Greene School Facilities Act of 1998 the Charter Schools Facilities Program to provide funding to qualifying entities for the purpose of establishing school facilities for charter school pupils. The School Finance Authority, in consultation with the State Allocation Board, is required to adopt regulations establishing uniform terms and conditions that apply equally to the funding of charter school projects. The regulations are required to provide for the payment schedule for lease payments in lieu of the local matching funds and requires those payments to include interest at the rate paid on moneys in the Pooled Money Investment Account, as specified.

This bill would revise the manner in which the interest rate is determined and would prohibit the authority from setting the interest rate at lower than 2%.

Ch. 274 (AB 2917) Torrico Emergency medical services personnel.

Under existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, the Emergency Medical Services Authority is responsible for establishing minimum standards and promulgating regulations for the training and scope of practice for emergency medical technicians-paramedic (EMT-P). Violation of the act is a misdemeanor. Under existing law, these standards and regulations would be applicable to local governments, agencies, and other organizations that provide this training.

The act also provides for the certification of emergency medical technicians through the issuance of certificates, including EMT-I and EMT-II certificates, by local entities, known as local EMS agencies, which are designated by counties. Existing law also permits public safety agencies, for public safety personnel, and the State Board of Fire Services, for fire safety personnel, to issue EMT-I certificates. Existing law provides that the medical director of a local EMS agency or the Emergency Medical Services Authority may deny, suspend, or revoke certificates issued under these provisions, or may place a certificate holder on probation, upon the occurrence of any of specified events.

This bill would, among other things, require the authority to establish and maintain a centralized system for monitoring and tracing EMT-I and EMT-II certification status and EMT-P licensure status to be used by certifying entities, as defined, and would require specified fees to be collected and expended, upon appropriation, for related purposes. The bill would require the authority to adopt regulations regarding the submission of fingerprint images and related information to the Department of Justice.

This bill would require the authority to establish EMT-I and EMT-II certification and disciplinary guidelines. This bill would authorize an EMT-I or EMT-II employer to investigate and discipline those EMT-I and EMT-II employees who commit specified acts. This bill would require the medical director to investigate and discipline specified EMT-I's and EMT-II's. By imposing new duties upon local officials, this bill would create a state-mandated local program.

By changing the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

This bill would make the operation of its provisions contingent upon the enactment of SB 997 of the 2007–08 Regular Session.

Ch. 275 (SB 997) Ridley-Thomas Emergency medical services: certification and licensure.

Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, provides for the certification of emergency medical technicians through the issuance of certificates, including EMT-I and EMT-II certificates, by local entities, known as local EMS agencies, which are designated by counties. Under existing law, an Emergency Medical Technician II or EMT-II is defined as an EMT-I with additional training in limited advanced life support according to prescribed standards and who has a validly issued certificate.

This bill would also define an EMT-I with the additional training in limited advanced life support described above as an Advanced Emergency Medical Technician or Advanced EMT.

Existing law requires the Commission on Emergency Medical Services, which consists of 16 members, including an active member of the California State Fireman’s Association or the California Professional Firefighters, to perform various duties regarding the Emergency Medical Services Authority and emergency medical services.

The bill would revise the membership of the commission to include 18 members. The 2 additional members would include one person who is employed by the Department of Forestry and Fire Protection and one person who is employed by a city, county, or special district that provides fire protection. The bill would provide that each of these additional members are to be appointed by the Governor from lists of 3 names submitted by the California Professional Firefighters.

This bill would make the operation of its provisions contingent upon the enactment of AB 2917 of the 2007–08 Regular Session.

Ch. 276 (SB 1660) Romero Teachers: compensation.

Existing law requires the governing board of a school district to fix and order paid the compensation of persons in public school service requiring certification qualifications employed by the governing board. The governing board of each school district also is required to adopt, cause to be printed, and make available to each certificated employee a schedule of salaries to be paid.

Each person employed by a school district in a position requiring certification qualifications, except a person employed in a position requiring administrative or supervisory credentials, is required to be classified on the salary schedule on the basis of uniform allowance for years of training and years of experience, except if a salary schedule based on criteria other than that uniform allowance is negotiated and mutually agreed upon by a public school employer and the exclusive representative of the employees. Public school employers and exclusive representatives of credentialed teachers are encouraged to recognize teacher contributions to improving pupil achievement, provide incentives to teachers to accept teaching assignments in areas of highest need, and recognize relevant professional experience on the salary schedule in lieu of units and degrees or in lieu of teaching experience.

Existing law establishes the professional development block grant, and requires the Superintendent of Public Instruction to apportion block grant funds to a school district in the same relative statewide proportion that the school district received in the 2003–04 fiscal year for specified staff development programs. A school district may expend these funds for any purpose authorized by those programs. Among the purposes for which these funds may be

expended are staff development instructional methods, including teaching strategies, classroom management and other training designed to improve pupil performance, conflict resolution, intolerance and hatred prevention, and academic content in the core curriculum areas.

This bill would authorize a school district to use funds received pursuant to the professional development block grant to compensate new and existing mathematics, science, and special education teachers in schools ranking, in the 2008–09 school year or any subsequent school year, in decile 1, 2, or 3 of the Academic Performance Index, in a manner separate from the uniform allowance for years of training and years of service, as permitted pursuant to the exception described above. The bill would require a school district to submit an annual educational report to specified government officials of the amount of funds used pursuant to this provision to compensate mathematics, science, and special education teachers.

#### Ch. 277 (AB 69) Lieu Mortgage lending: reporting.

Existing law provides for the licensure and regulation of finance lenders and brokers and residential mortgage lenders and residential mortgage loan servicers by the Commissioner of Corporations.

This bill would authorize the commissioner to require these licensees to provide reports concerning residential mortgage loan servicing activities. The bill would authorize the commissioner to seek and receive information from residential mortgage loan servicers not subject to the commissioner's jurisdiction. The bill would require the commissioner to post aggregated survey results on the Department of Corporation's Internet Web site, as specified.

#### Ch. 278 (AB 180) Bass Mortgages: foreclosure consultants.

Existing law defines a foreclosure consultant as a person who offers, for compensation, to perform specified services for a homeowner relating to a foreclosure sale, except as specified. Existing law prohibits a foreclosure consultant from entering into an agreement to assist the owner in arranging, or arrange for the owner, the release of surplus funds prior to 65 days after the trustee's sale is conducted.

This bill would, instead, prohibit a foreclosure consultant from entering into an agreement described above at any time.

Existing law allows a homeowner to cancel a contract with a foreclosure consultant within 3 days after signing the contract by providing written notice of the cancellation at the address provided by the foreclosure consultant. Existing law requires that the contract be written in the same language as principally used by the foreclosure consultant to describe his or her services or to negotiate the contract. Existing law prohibits a foreclosure consultant from taking any power of attorney from an owner, except to inspect documents as provided by law.

This bill would instead allow a homeowner to cancel a contract with a foreclosure consultant within 5 days after signing the contract, and to do so by mail, e-mail, or facsimile. It would require that a contract with a foreclosure consultant be written in the language principally used by the foreclosure consultant to describe his or her services or to negotiate the contract, and would require the foreclosure consultant, in specified circumstances, to provide the owner, before the owner signs the contract, with one or more copies of a completed contract written in specified other languages, and would make a conforming change in this regard. The bill would prohibit a foreclosure consultant from taking any power of attorney from an owner for any purpose.

The bill would require a foreclosure consultant to register with the Department of Justice in accordance with certain requirements, and to obtain and maintain a surety bond of \$100,000. A violation of these provisions would be a crime. By creating a new crime, the bill would impose a state-mandated local program. The bill would permit the Department of Justice to refuse to issue, or to revoke, a foreclosure consultant's registration for any violation of the law regulating foreclosure consultants. The bill would create the Foreclosure

Consultant Regulation Fund in the State Treasury for the deposit of fees submitted to the Department of Justice for registration as a foreclosure consultant, and make moneys in that fund available to the department upon appropriation by the Legislature for the costs of administering the registration program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The bill would provide that its provisions will become operative on July 1, 2009.

Ch. 279 (AB 2454) Emmerson Real estate: Recovery Account.

Existing law, the Real Estate Law, provides for the licensure and regulation of real estate brokers and real estate salespersons by the Department of Real Estate. Existing law provides for creation of the Recovery Account in the Real Estate Fund, which is funded by fees imposed on licensees. Existing law provides that when an aggrieved person obtains a final judgment, as specified, against a defendant based upon the defendant's fraud, misrepresentation, or deceit, made with intent to defraud, or the defendant's conversion of trust funds, arising directly out of any transaction in which the defendant, while a real estate licensee, performed acts for which his or her license was required, the aggrieved person may file an application with the department for payment from the Recovery Account of the amount unpaid in the judgment that represents an actual and direct loss to the claimant in the transaction. Existing law prohibits the liability of the Recovery Account from exceeding \$20,000 for any one transaction and \$100,000 for any one licensee.

This bill would limit the liability of the Recovery Account for applications for payment filed on or after January 1, 2009, to \$50,000 for any one transaction and \$250,000 for any one licensee. The bill would also delete certain obsolete language from that provision.

Ch. 280 (SB 133) Aanestad Title insurance: title solicitors.

The Insurance Commissioner generally regulates insurance, including title insurance. Violation of certain of these provisions is a misdemeanor.

This bill would prohibit a person from being employed as a title marketing representative unless he or she holds a valid certificate of registration as a title marketing representative issued by the commissioner for a 3-year period. This bill would exempt specified activities from its scope. Violation of these provisions would be a misdemeanor, pursuant to provisions of existing law.

By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

This bill would define "title marketing representative" and provide that this does not include a person whose primary duties directly involve the creation, production, or issuance of the title policy or the performance of escrow services.

This bill would provide that if a person markets title insurance without a valid certificate, as defined, the commissioner may issue a cease and desist order prohibiting that person from further marketing. This bill would require title companies to notify the commissioner when a title marketing representative is terminated or employed, as specified.

This bill would specify the information that the applicant for a certificate must supply in writing under penalty of perjury to the commissioner.

By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

This bill would specify an application process for the certificate of registration and provide that the commissioner shall set a fee to obtain or renew a certificate in an amount sufficient to defray the actual costs of processing the application.

This bill would provide that the Department of Insurance may revoke, suspend, restrict, or decline to issue a certificate of registration if it determines, after a hearing, that the title

marketing representative has committed specified acts. The bill specifies other remedies available to the commissioner for misconduct.

The bill would make a technical change by deleting an obsolete statutory cross-reference.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 281 (SB 870) Ridley-Thomas California Housing Finance Agency: resolutions, rules, and regulations.

Existing law requires the California Housing Finance Agency to make financing opportunities available for the construction, rehabilitation, and purchase of housing for persons and families of low or moderate income by borrowing in the securities markets and relending to housing sponsors, developers, and homeowners and by insuring loans made by the agency or by others for these same purposes.

Existing law enumerates the powers of the agency, including the power to adopt, and from time to time amend and repeal, by action of the agency's governing board, resolutions, rules, and regulations, not inconsistent with existing law, to carry into effect the powers and purposes of the agency and the conduct of its business.

This bill would authorize the agency to act through resolution, except when expressly required under existing law to act through rule or regulation, and would delete certain requirements that the agency adopt rules or regulations.

The bill would specify that the agency is not required to promulgate rules and regulations in order to establish or operate a mortgage refinance program. The bill would authorize the agency to establish that program through resolutions adopted by the agency governing board, and operated by the agency in accordance with resolutions adopted by the board. The bill would exempt those resolutions from the requirements of the Administrative Procedures Act.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 282 (SB 1055) Machado Taxation: cancellation of indebtedness: mortgage debt forgiveness.

The Personal Income Tax Law, in modified conformity to federal income tax laws, requires a borrower to include in his or her income, with certain exceptions, the amount of debt canceled or discharged, as specified.

This bill would provide further conformity to federal income tax laws by conforming to specified provisions of the federal Mortgage Forgiveness Debt Relief Act of 2007, relating to the exclusion of the discharge of qualified principal residence indebtedness, as defined, from a taxpayer's income if that debt is discharged after January 1, 2007, and before January 1, 2009, as provided.

This bill would take effect immediately as a tax levy.

Ch. 283 (SB 1065) Correa Home financing programs.

Existing law, for purposes of a home financing program, provides that a city or county has specified powers and duties and may administer a home financing program to acquire, contract, and enter into advance commitments to acquire home mortgages, as defined, made or owned by lending institutions at the purchase prices and upon other terms and conditions as determined by the city or county.

This bill would include the refinancing of home mortgages in the criteria for establishing a maximum household income for the purposes of a city- or county-administered home financing program. The bill would also revise the definition of home mortgage for purposes of the above provisions. These provisions would be repealed January 1, 2012.

Ch. 284 (SB 1461) Negrete McLeod Real estate licensees.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law, the Real Estate Law, governs the licensing and regulation of real estate licensees, as defined, as administered by the Real Estate Commissioner. Under those provisions, a real estate licensee is prohibited from publishing, circulating, distributing, or causing to be published, circulated, or distributed in any newspaper or periodical, or by mail, any matter pertaining to any activity for which a real estate license is required that does not contain a designation disclosing that the licensee is performing acts for which a real estate license is required.

This bill would, on and after July 1, 2009, require a licensee to disclose his or her license identification number on specified solicitation materials, as defined, and on real property purchase agreements when acting as an agent in those transactions. The bill would authorize the Real Estate Commissioner to adopt regulations in that regard.

#### Ch. 285 (SB 1604) Machado Escrow Agents' Fidelity Corporation.

Existing law, the Escrow Law, provides for licensure and regulation by the Commissioner of Corporations of persons engaged in business as escrow agents, unless specifically exempted. Existing law requires persons licensed as escrow agents to be members of the Escrow Agents' Fidelity Corporation (Fidelity Corporation), which is established as a nonprofit corporation to indemnify its members against loss, and which is funded by fees and assessments on its members. Existing law limits the coverage provided by Fidelity Corporation to certain types of transactions and provides that indemnity coverage for other transactions be provided by escrow agents through bonding requirements.

This bill would require any private insurance coverage of a member, that also covers a loss that would be covered by Fidelity Corporation, to be applied as primary coverage.

Existing law requires employees of escrow agents and various other persons to obtain a certificate from Fidelity Corporation as a condition of employment or compensation. Existing law requires Fidelity Corporation to deny an application for a certificate or to revoke the certificate under certain circumstances.

This bill would allow a person whose certificate application has been denied or whose certificate has been revoked to file a reapplication for a certificate after a specified time, provided that the person has satisfied all obligations to Fidelity Corporation under any prior arbitration award or judgment.

Existing law requires a licensee under the Escrow Law to submit an annual audit report to the commissioner as well as various other financial reports that the commissioner may require. Existing law requires an independent accountant who prepares certain reports in that regard to provide copies directly to the commissioner.

This bill would require a licensee who engages an independent accountant or 3rd-party contractor to reconcile trust account records to request that accountant or 3rd-party contractor to immediately notify the commissioner and Fidelity Corporation upon the occurrence of various events or discoveries.

Existing law specifies the types of financial institution accounts that are allowable depositories for moneys deposited in escrow with a licensee.

This bill would require that an agreement by a licensee with a financial institution to establish a trust account be accompanied by a letter from the licensee authorizing and requesting the financial institution to immediately notify the commissioner and Fidelity Corporation of account closure or the occurrence of an overdraft balance under specified circumstances.

#### Ch. 286 (SB 1737) Machado Real estate: brokers and salespersons.

Existing law, the Real Estate Law, provides for the licensure and regulation of real estate brokers and real estate salespersons by the Real Estate Commissioner and provides that a willful violation of that law is a crime. Existing law authorizes the commissioner to direct a person to desist and refrain from activities that are in violation of that law, as specified, and

also authorizes the commissioner to suspend or revoke the license of a real estate licensee who performs or has been guilty of specified acts.

This bill would authorize the commissioner to suspend or bar a person from a position of employment, management, or control for a specified period if the commissioner finds that the suspension or bar is in the public interest and that the person has committed or caused a violation of the Real Estate Law or a rule or order of the commissioner, as specified. The bill would also authorize the commissioner to impose that discipline if the person has been convicted of, or pleaded nolo contendere to, a crime or been held liable in a civil action by final judgment, or any administrative judgment by any public agency, if the crime or civil or administrative judgment involves an offense involving dishonesty, fraud, or deceit, or any other offense reasonably related to the qualifications, functions, or duties of a person engaged in the real estate business. In addition, the bill would authorize the commissioner to suspend or revoke the license of a real estate licensee who has been guilty of generating an inaccurate opinion of the value of residential real property, requested in connection with a debt forgiveness sale, in order to manipulate the lienholder to reject the proposed debt forgiveness sale or to acquire a financial or business advantage, as specified, or both.

Existing law requires listing and selling agents, as defined, to provide sellers and buyers in a residential real property transaction with a disclosure form, as prescribed, containing general information on real estate agency relationships. Existing law also requires the listing or selling agent to disclose to the buyer and seller whether he or she is acting as the buyer's agent exclusively, the seller's agent exclusively, or as a dual agent representing both the buyer and the seller.

This bill would require a person or entity that arranges financing in connection with a sale, lease, or exchange of real property and acts as an agent with respect to that property to make a written disclosure of those roles, within 24 hours, to all parties to the sale, lease, or exchange and any related loan transaction.

By imposing additional requirements under the Real Estate Law, the willful violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 287 (SB 1675) Cox Veterans' Revenue Debenture Act of 1970.

The Veterans' Revenue Debenture Act of 1970 prescribes procedures for the issuance of debentures by the Department of Veterans Affairs and for the administration thereof. Those provisions require the department to adopt a resolution of issuance whenever the department determines that debentures should be issued, and requires the resolution to be submitted to the Veterans' Debenture Finance Committee for their consideration. Upon approval by the Veterans' Debenture Finance Committee, the resolution of issuance becomes effective and the State Treasury prepares the debentures in accordance with the resolution.

This bill would authorize that a resolution of issuance may provide the department with the discretion to structure the terms and conditions of any authorized issuance of debentures, as specified, including the discretion to determine interest rates and payment dates.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 288 (AB 2702) Nunez Maddy Emergency Medical Services Fund: hospital and physician and surgeon reimbursement: Los Angeles County.

Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act (the EMS Act), establishes the Emergency Medical Services Authority (the authority) to administer the emergency medical services system to coordinate and integrate effective and efficient emergency medical services throughout the 58 counties of the state.

Existing law establishes the Maddy Emergency Medical Services (EMS) Fund, authorizing each county to establish an emergency medical services fund and provides for deposit of certain penalties, forfeitures, and fines into the fund.

Existing law requires use of the local fund for reimbursement of physicians and surgeons and hospitals for uncompensated emergency medical services pursuant to a prescribed schedule. Under this schedule, 58% of the balance in the fund is to be used for emergency medical services provided by all physicians and surgeons, except those employed in county hospitals, in general acute care hospitals that provide basic or comprehensive emergency medical services up to the time the patient is stabilized.

This bill would, instead, require distribution of 58% of the balance in the fund for emergency medical services provided by all physicians and surgeons, except those employed in county hospitals, in general acute care hospitals that provide basic, comprehensive, or standby emergency medical services pursuant to prescribed provisions of law relating to standby emergency rooms or departments in certain small and rural hospitals and hospitals located in Los Angeles County that meet prescribed requirements, up to the time the patient is stabilized, and would make conforming changes.

Existing law, until January 1, 2009, requires 15% of the funds collected pursuant to a specified penalty to be deposited in each county's Maddy Emergency Medical Services Fund and expended for pediatric trauma centers.

This bill would extend the repeal date of this provision until January 1, 2014.

Ch. 289 (SB 1141) Margett Emergency medical services: public aircraft.

Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, establishes the Emergency Medical Services Authority and requires it to develop planning and implementation guidelines for local emergency medical services systems which address, among other components, transportation, system organization and management, and disaster response.

Existing law requires the authority to adopt regulations that provide specific requirements for the care of trauma cases and ensure that the trauma care system is fully coordinated with all elements of the existing emergency medical services system. A local emergency medical services agency implementing a trauma care system is required to establish policies and procedures which are concordant and consistent with the minimum standards set forth in the regulations adopted by the authority. Existing law provides that nothing in the act regarding the trauma care system is to be construed as restricting the use of a helicopter of the Department of the California Highway Patrol from performing missions which the department determines are in the best interests of the people of the State of California.

This bill would prohibit a construction of the act that regulates, or authorizes the regulation of, specified matters relating to public aircraft.

Ch. 290 (AB 55) Laird Referral fees: information technology and training services.

Existing law, relative to insurance fraud, makes it a crime for healing arts practitioners to receive money or other consideration for, or to engage in, various related activities with respect to, the referral of patients, clients, or customers to any person, with certain exceptions. Existing law, upon the effective date of specified regulations adopted by the Secretary of the United States Department of Health and Human Services pursuant to the Medicare Prescription Drug, Improvement and Modernization Act of 2003, exempts from these provisions specified entities that receive nonmonetary remuneration in the form of hardware, software, or information technology training services necessary and used solely to receive and transmit electronic prescription information, under certain conditions. Existing law provides that any person who solicits, receives, offers, or pays any remuneration in return for the referral, or promised referral, of any individual to a person for the furnishing or arranging for the furnishing of any service or merchandise for which payment may be made under the

Medi-Cal program, or in return for the purchasing, leasing, ordering, or arranging for, or recommending the purchasing, leasing, or ordering of any goods, facility, service, or merchandise for which payment may be made under that program, is guilty of a crime, except as specified.

This bill would delete the exemptions relative to insurance fraud related to nonmonetary remuneration necessary to receive and transmit electronic prescription information, and would instead exempt from all of the above provisions nonmonetary remuneration in the form of hardware, software, or information technology and training services, as described in specified regulations adopted pursuant to the Medicare Prescription Drug, Improvement and Modernization Act of 2003.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 291 (AB 978) Benoit Care facilities.

(1) Existing law, the California Community Care Facilities Act, and the California Residential Care Facilities for the Elderly Act, provide for the licensure and regulation of community care facilities and residential care facilities for the elderly respectively and requires every licensed community care facility and residential care facility for the elderly to be subject to unannounced visits by the State Department of Social Services.

Existing law authorizes the department to levy civil penalties upon community care facilities licensed pursuant to the act, licensed residential care facilities for persons with chronic, life-threatening illness, licensed residential care facilities for the elderly, and licensed day care centers, whereby the nature or seriousness of the violation warrants a higher penalty or an immediate assessment.

This bill would, among other things, provide that serious violations include specified situations. It would also require the department to assess an immediate civil penalty, as prescribed, for any of those specified serious violations, and would require that moneys collected from those civil penalties imposed for those specified serious violations be expended by the department for specified purposes, upon appropriation by the Legislature.

(2) Existing law, the California Child Day Care Facilities Act, provides for the licensure and regulation of child day care facilities, including day care centers and family day care homes, by the State Department of Social Services.

The bill would, among other things, require the department to specify in its licensing report all violations that, if not corrected, will have a direct and immediate risk to the health, safety, or personal rights of children in care. The bill would impose additional inspection requirements upon child day care facilities, including day care centers and family day care homes, and would require the department to ensure that a licensee's plan of correction is verifiable and measurable.

The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 292 (AB 1141) Anderson Controlled substances.

Existing law classifies certain controlled substances into designated schedules. Under existing law, unlawful possession of specified controlled substances is either a misdemeanor or a felony.

This bill would add Khat and Cathinone, as specified, to the controlled substances listed in Schedule II and would also add Cathine, as specified, to the controlled substances listed in Schedule IV. This bill would also provide that unlawful possession of Khat, Cathinone, and Cathine is a misdemeanor.

Because this bill would expand the definition of existing crimes, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 293 (AB 1340) Jones Guardians and conservators.

(1) Existing law provides for the creation of conservatorships and guardianships. Existing law requires that a petition to establish conservatorship include specified information.

This bill would require, if the petitioner to establish conservatorship is licensed as a professional fiduciary, that the petition contain the petitioner's registration information and other specified information, unless the petition for a temporary guardianship or conservatorship is filed together with a petition for a permanent appointment. The bill would require, if the petition is filed by a person other than the proposed conservatee, that the petition include a declaration of due diligence showing efforts to find relatives and to ascertain preferences of the proposed conservatee or why it was not feasible to contact the relatives or ascertain those preferences.

(2) Existing law requires that notice be given to specified persons before a hearing on a petition for appointment of a conservator.

This bill would require, in addition, that if the petition states that the petitioner and the proposed conservator have no prior relationship with the proposed conservatee and are not nominated by a family member, friend, or other person with a relationship to the proposed conservatee, notice be mailed to the public guardian of the county in which the petition is filed.

(3) Existing law allows a court to take specified actions with respect to a vexatious litigant, as defined.

This bill would provide that, if a person other than the conservatee files a petition for termination of the conservatorship, or instruction to the conservator, that is unmeritorious or intended to harass or annoy the conservator, and the person has previously filed pleadings in the conservatorship proceedings that were unmeritorious or intended to harass or annoy the conservator, the petition shall be grounds for the court to determine that the person is a vexatious litigant for the purposes of the above provisions.

(4) Existing law permits any person entitled to petition for the appointment of a guardian or conservator to file a petition for the appointment of a temporary guardian or temporary conservator of the person or estate or both. Existing law requires that notice for the hearing on the appointment be given, as specified, at least 5 days before the hearing on the petition, unless the court for good cause otherwise orders.

This bill would require that the notice for the hearing on the appointment of a temporary guardian or temporary conservator, as described above, be given at least 5 court days before the hearing.

(5) Existing law generally requires every person appointed as guardian or conservator to, before letters are issued, give a bond approved by the court. Existing law enumerates exceptions to that law, including that the court may dispense with the requirement of a bond if it appears likely that the estate will satisfy specified conditions for its duration. Existing law also provides that if at any time it appears that the estate does not satisfy those conditions, the court may require the filing of a bond.

This bill would instead provide that if at any time it appears that the estate does not satisfy those conditions, the court would be required to require the filing of a bond unless the court determines that good cause exists, as specified. The bill would also make technical, nonsubstantive changes to that provision.

(6) Existing law, operative on and after January 1, 2009, prohibits any person from acting as a professional fiduciary unless that person is licensed as a professional fiduciary. Existing law creates the Professional Fiduciaries Bureau to administer a licensing and regulatory program in this regard. Existing law, on and after July 1, 2008, prohibits a superior court from appointing a person to carry out the duties of a professional fiduciary unless that person has a valid professional fiduciary's license.

This bill would prohibit a superior court from permitting a person without a valid professional fiduciary's license to continue to carry out the duties of a professional fiduciary,

unless that person is excluded from the definition of professional fiduciary or is exempt from professional fiduciary licensing requirements, as specified.

(7) Existing law provides that a conservator may establish the residence of the conservatee at any place within this state without the permission of the court. Existing law requires permission of the court before the residence of a ward or conservatee is established outside the state.

This bill would apply the provisions described above to proposed wards and conservatees. If the residence of a ward or conservatee is to be established outside the state, the bill would require that notice of this action, together with a copy of the petition to do so, be given in a specified manner. The bill would except a person with developmental disabilities for whom the Director of Developmental Services or a regional center, as defined, acts as the conservator from these provisions, and would generally except a regional center, as defined, from the definition of personal residence in connection with provisions relating to conservatorship and guardianship.

(8) Existing law requires a guardian or conservator to present an accounting of the assets of the estate of the ward or conservatee to the court for settlement and allowance in a specified manner at the end of one year from the time of appointment and, after that, not less frequently than once every 2 years, unless otherwise ordered by the court to be more frequent. Existing law requires the guardian or conservator to file specified supporting documents with the accounting. If the accounting is the first court accounting of the guardianship or conservatorship, existing law requires the guardian or conservator to provide all account statements showing the account balance immediately preceding the date the conservator or guardian was appointed and all account statements showing the account through the closing date of the first court accounting.

This bill would require a guardian or conservator, in a first court accounting, to provide the court all account statements showing the account balance as of, rather than through, the closing date of the first court accounting.

(9) Existing law requires a conservator served pursuant to specified provisions of law to appear at a hearing and represent a spouse alleged to lack legal capacity for a proposed transaction involving community property. Existing law allows the court, if the spouse is not otherwise represented, to appoint the public guardian, the public administrator, or a guardian ad litem to represent the interests of the spouse. Existing law requires that, if the spouse is unable to retain legal counsel, upon request of the spouse, the court appoint specified counsel to represent the spouse.

This bill would permit a court to appoint an investigator to review the proposed transaction and report to the court regarding its advisability. The bill would permit a court, if the petition proposes a transfer of substantial assets to the petitioner from the other spouse, to appoint counsel for the other spouse, if the court finds that the spouse has not competently retained independent counsel for the proceeding.

#### Ch. 294 (SB 158) Florez Hospitals: patient safety and infection control.

Existing law provides for the licensure and regulation by the State Department of Public Health of health facilities, including general acute care hospitals, acute psychiatric hospitals, and special hospitals, as defined. A violation of these provisions is a crime.

This bill would require health facilities, as defined, to develop, implement, and comply with a patient safety plan for the purpose of improving the health and safety of patients and reducing preventable patient safety events. The bill would require the patient safety plan to establish a patient safety committee composed of health care professionals, and to contain other prescribed elements.

This bill would also require health facilities, as defined, to implement a facility wide hand hygiene program and, beginning January 1, 2011, would prohibit the use of intravenous, epidural, or enteral feeding connections that would fit into a connection port other than the

type it was intended for, unless an emergency or urgent situation exists and the prohibition impairs the ability to provide health care.

Existing law establishes the Hospital Infectious Disease Control Program, which, among other things, requires the department and general acute care hospitals to implement various measures relating to disease surveillance and the prevention of health-care-associated infection (HAI). In that regard, the department is required, by July 1, 2007, to appoint a Healthcare Associated Infection Advisory Committee (HAI-AC), composed of specified members, to make recommendations related to methods of reporting cases of hospital acquired infections occurring in general acute care hospitals, as provided.

Existing law also requires each general acute care hospital, in collaboration with infection prevention and control professionals, and with the participation of senior health care facility leadership, as a component of its strategic plan, at least once every 3 years, to prepare a written report that examines the hospital's existing resources and evaluates the quality and effectiveness of the hospital's infection surveillance and prevention program, including specified information.

This bill would establish a health care infection surveillance, prevention, and control program within the department and require the department, the HAI-AC, and general acute care hospitals, as defined, to take specified actions to implement the program.

This bill would also require, no later than January 1, 2010, specified training for a physician designated as the hospital epidemiologist or infection surveillance, prevention, and control committee chairperson. Also, beginning in January 2010, the bill would require prescribed training for other hospital staff, as specified.

By changing the definition of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 295 (SB 891) Correa Health facilities: Elective Percutaneous Coronary Intervention (PCI) Pilot Program.

Existing law provides for the licensure and regulation of health facilities by the State Department of Public Health. Existing law authorizes health facilities to engage in various types of cardiac intervention and surgery.

This bill, until January 1, 2014, would establish the Elective Percutaneous Coronary Intervention Pilot Program in the department, which would authorize up to 6 eligible acute care hospitals that are licensed to provide cardiac catheterization laboratory service in California, and that meet prescribed, additional criteria to perform scheduled, elective primary percutaneous coronary intervention (PCI), as defined, for eligible patients.

#### Ch. 296 (SB 1058) Alquist Health facilities: bacterial infections.

Existing law provides for the licensure and regulation of health facilities by the State Department of Public Health. A violation of these provisions is a crime.

This bill would establish the Medical Facility Infection Control and Prevention Act or Nile's Law, which would require general acute care hospitals to implement certain procedures for the screening, prevention, and reporting of specified health-care-associated infections. This bill would require the department to carry out certain duties in order to implement the bill. Because a violation of the health facility provisions is a crime, the bill would impose a state-mandated local program.

This bill would require health facilities to report to the department and the federal Centers for Disease Control and Prevention, specified infections. This bill would require the department to develop and implement various Internet-based reporting systems, as prescribed.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 297 (AB 550) Ma Property taxation: business property: audit.

Existing property tax law requires the county assessor to audit the books and records of a profession, trade, or business at least once every 4 years in the case of a taxpayer engaged in a profession, trade, or business that is not fully exempt from property taxation and that owns, claims, possesses, or controls locally assessable trade fixtures and business tangible property with a full value of at least \$400,000.

This bill would delete the requirement that a taxpayer own, claim, possess, or control locally assessable trade fixtures and business tangible property with a full value of at least \$400,000 in order to be audited. This bill would require the county assessor to annually conduct a significant number of audits, as specified, to encourage accurate and proper reporting. This bill would require 50% of the required audits, as specified, to be performed on those taxpayers that have the largest assessments of locally assessable trade fixtures and business tangible personal property in the county, as provided.

By changing the manner in which county assessors audit the books and records of taxpayers engaged in a profession, trade, or business, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 298 (AB 990) Berg Spud Point Marina.

Existing law authorizes the loan payments on the loan for the planning, acquisition, construction, improvement, maintenance, or operation of the Spud Point Marina in Bodega Bay, administered by the Department of Boating and Waterways, to be renegotiated by the department and the County of Sonoma, with the advice and consent of the Boating and Waterways Commission, to solve the fiscal problems involving the marina, as specified.

This bill would authorize, notwithstanding specified laws or any contract or agreement to the contrary, the County of Sonoma to provide facilities at the Spud Point Marina for commercial, recreational, or other vessels, as specified. The County of Sonoma would be authorized to maintain an advisory committee, as prescribed, for the Spud Point Marina. The bill would also repeal certain requirements for the terms of the loan from the department, including that the loan be repaid in full.

The bill would make legislative findings and declarations as to the necessity of a special statute.

Ch. 299 (AB 1927) Galgiani Vocational nursing and psychiatric technicians.

Existing law, until July 1, 2008, establishes the Board of Vocational Nursing and Psychiatric Technicians. Existing law requires the board to prepare and maintain a list of accredited schools of vocational nursing and to make certain determinations regarding courses of instruction of accredited schools of vocational nursing. Existing law requires the board to deny or revoke accreditation for any school of vocational nursing that does not give student applicants credit in the field of nursing for previous education, and requires the board to prescribe the education for which credit is to be given, including the amount of credit to be given to a certified nurse assistant and to a nurse assistant who has provided direct nursing services in health facilities. Existing law requires schools accredited for the training of

psychiatric technicians to meet certain requirements related to assessment, credit, and course availability.

The bill would delete the requirements on schools accredited for the training of psychiatric technicians related to assessment, credit, and course availability, and would instead require the board to deny or revoke accreditation for any psychiatric technician school that does not give student applicants credit in the fields of nursing and psychiatric technician practice for previous education and the opportunity to obtain credit for other acquired knowledge, as specified. The bill would also require the board to prescribe the education for which credit is to be given and the amount of credit that is to be given for each type of education for a psychiatric technician assistant and an applicant for licensure as a vocational nurse or psychiatric technician who has successfully completed specified courses that are assessed for equivalency by a vocational nursing school or psychiatric technician school.

#### Ch. 300 (AB 2044) Duvall Insurance licensees.

(1) Existing law authorizes the Insurance Commissioner of the Department of Insurance to issue resident and nonresident agent and broker-agent licenses, as specified. Existing law defines the terms “resident” and “nonresident” and specifies the requirements for a person to apply for and receive either a resident or nonresident license. Under existing law, a person applying for a nonresident license may have to pay a higher application fee than a person applying for a resident license, as specified.

This bill would state that for licensing purposes, a person could be considered a resident of this state if one of 2 specified sets of circumstances exists. This bill would also allow a broker or agent to designate one state as his or her resident state. This bill would also exempt a licensed nonresident who is licensed in his or her resident state from the requirement of taking a qualifying examination in order to receive a resident license, as specified. This bill would authorize the commissioner to charge an applicant for a nonresident license a fee equal to what the applicant’s resident state would charge a California resident for a license in that state, as specified.

(2) Existing law requires certain licensees to disclose financial records, certain licensees to hold certain funds as a fiduciary, and certain licensees to have an appointment for authority to act as an insurance agent.

This bill would add specified licensees to those required to disclose financial records, to hold certain funds as a fiduciary, and to have an appointment for authority to act as an insurance agent, as specified.

(3) Existing law requires licensees to complete a certain number of hours of continuing education.

This bill would specify the types of training and the number of hours required for certain licensees, as specified.

(4) Existing law requires that a person must have previously worked as a life licensee or as an employee of a life licensee in order to be eligible for a life and disability analyst license.

This bill would, instead, require that a person must have worked as both a life-only and accident and health licensee in order to be eligible for a life and disability analyst license.

(5) Existing law requires the licensing of and regulates the activities of insurance adjusters, as specified.

This bill would, in addition, require insurance adjusters to complete a certain number of continuing education hours and would require that an insurance adjuster license be renewed every year instead of every 5 years.

(6) Existing law sets a 2-year term for personal lines licenses and provides that the licenses renew on the last day of December.

This bill would instead provide that each license shall renew 2 years from the date it was issued, as specified.

(7) Existing law authorizes the commissioner to mail an order reprimanding the licensee if the commissioner believes that a licensee has committed an offense, as specified. Under

existing law, if the licensee requests formal notice and hearing, the order becomes void and certain proceedings are initiated, as specified.

This bill would repeal these provisions and authorize the commissioner to mail an applicant or a licensee a citation and an order assessing a specified fine for a violation the commissioner believes the applicant or licensee committed, as specified. This bill would specify the required contents of the citation and order and would provide that, if the licensee requests a hearing, certain proceedings would be initiated regarding the validity of the citation and order, as specified. This bill would provide that the issuance of a notice, citation, or order under this provision would not constitute a disciplinary action or an administrative action, as specified, against the licensee. This bill would specify circumstances where the commissioner may elect to proceed against a licensee by way of notice and hearing, as specified, rather than citation.

#### Ch. 301 (AB 2111) Smyth Physical therapy: regulation.

Existing law, the Physical Therapy Practice Act, creates the Physical Therapy Board of California and makes it responsible for the licensure and regulation of physical therapists and physical therapist assistants. Under the act, an applicant for licensure is required to take and obtain a passing score on an examination testing specified subjects, and impersonating or acting as a proxy for an applicant in an examination is a basis for disciplinary action by the board. The act also makes a violation of its provisions a crime. Under the act, the board is authorized to charge licensure fees, which are deposited into the Physical Therapy Fund.

This bill would recast the examination provisions for licensure as a physical therapist and as a physical therapist assistant. The bill would delete impersonating or acting as a proxy for an examinee as a cause for disciplinary action and would instead authorize the board to disqualify an applicant or revoke the license of a person who engaged in conduct, as specified, that interferes with the examination process. The bill would expand the types of disciplinary action the board may take to include the issuance of a public letter of reprimand in certain circumstances and would revise the amount of licensure fees charged by the board.

By specifying additional prohibited conduct under the Physical Therapy Practice Act, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 302 (AB 2321) Feuer Transportation funding: County of Los Angeles.

Existing law authorizes the Los Angeles County Metropolitan Transportation Authority (MTA) to impose, in addition to any other tax that it is authorized to impose, a transactions and use tax at the rate of 0.5% for 6½ years or less, for the funding of specified transportation-related purposes designated as capital projects or capital programs. Existing law conditions the imposition of a tax under this authority upon voter approval as otherwise required by law. It also prohibits the MTA from incurring bonded indebtedness payable from the tax proceeds to fund those projects or programs or from substituting revenue from the tax proceeds for current funding commitments to the projects or programs. Existing law requires the MTA to prepare an expenditure plan prior to submitting the tax ordinance to voters, describing the projects and programs and their cost and funding sources. Existing law also creates the Capital Project Development Fund, into which the tax revenue is to be deposited, and makes those moneys available for expenditure by the MTA to fund the designated projects and programs.

This bill would modify these provisions to require the MTA tax ordinance to specify that the tax is to be imposed for a period not to exceed 30 years, and to require the MTA to include specified projects and programs in its Long Range Transportation Plan. This bill would require the MTA to notify Members of the Legislature representing the County of Los

Angeles of proposed amendments to the expenditure plan, as specified. This bill would also authorize the MTA to incur bonded indebtedness, as specified, and would make other related changes.

Ch. 303 (AB 2619) Charles Calderon Civil actions and proceedings.

Existing law sets forth numerous provisions governing discovery in civil actions and proceedings. Existing law requires the deposition of any expert witness, as described, to be taken at a place that is within 75 miles of the courthouse where the action is pending. Existing law requires the party desiring to depose an expert witness, as described, other than a party or an employee of a party, to pay the expert's fee for any time spent at the deposition, as specified.

This bill would correct an erroneous cross-reference in these provisions.

Ch. 304 (AB 2956) Coto Insurance: agents and brokers.

Existing law provides that an insurance agent is a person authorized by and on behalf of an insurer to transact all classes of insurance, except life insurance. Existing law provides that an insurance broker is a person who, for compensation and on behalf of another person, transacts insurance other than life insurance with, but not on behalf of, an insurer.

This bill would instead provide that an insurance agent is a person who transacts insurance other than life, disability, or health insurance, on behalf of an admitted insurance company. The bill would state that it is presumed that a person is acting as an insurance broker if the person is licensed to act as an insurance broker, maintains a specified bond, and discloses specific information to the consumer. The bill would provide that the presumption of broker status is rebutted if specified facts exist, or based on the totality of the circumstances, as defined.

Under existing law, a person licensed as a fire and casualty broker-agent acting as an insurance broker may act as an insurance agent in collecting and transmitting premium or return premium funds and delivering policies and other documents evidencing insurance.

This bill, instead, would provide that a person acting as an insurance broker may, on behalf of an insurance company, collect and transmit premium or return premium and deliver policies and other documents evidencing insurance. The bill would state that performance of those functions shall not be construed to mean that the person is an insurance agent.

Ch. 305 (AB 3078) Committee on Revenue and Taxation Taxation: tax administration: group returns: real estate withholding requirements: penalties: income apportionment.

(1) The Personal Income Tax Law provides various credits against "net taxes" to taxpayers for income taxes paid to another state on income that is taxable by that law. That law generally provides that no credit or refund is allowed after a specified period of time unless, before the expiration of that period, a claim for refund or credit is filed by the taxpayer or the Franchise Tax Board allows a credit, makes a refund, or mails a notice of proposed assessment.

This bill would permit a claim for credit or refund of an overpayment of income tax attributable to a credit allowable under the above provisions to be filed within one year from the date tax is paid to the other state or within the period provided in the franchise and income tax laws, whichever period expires later.

This bill would also declare that this act is not to be construed to change the requirements of Section 18007 of the Revenue and Taxation Code.

(2) The Katz-Harris Taxpayers' Bill of Rights Act establishes the position of Taxpayers' Rights Advocate and provides specified protections for taxpayers for purposes of, among other things, determining their correct tax liability.

This bill would, until January 1, 2012, authorize the Taxpayers' Rights Advocate to abate penalties, fees, additions to tax, or interest attributable to error of the Franchise Tax Board, as specified.

(3) The Katz-Harris Taxpayers' Bill of Rights Act requires the Franchise Tax Board to annually identify areas of recurrent taxpayer noncompliance and report its findings to the Legislature.

This bill would require the Franchise Tax Board to include in its report a summary of cases where relief was granted and to keep a public record regarding the relief granted.

(4) Existing income tax laws authorize the Franchise Tax Board to provide for the filing of a group return for electing nonresident partners, as specified. Existing law authorizes the board to provide for the filing of a group return for electing nonresident directors of a corporation, as specified, and to adjust the income of those taxpayers to properly reflect income, as provided.

This bill would allow the board to include entities with less than 2 electing nonresident individuals, and electing individuals with more than a specified amount of California taxable income, in a group nonresident return, as provided.

(5) Existing law requires the transferee of California real property, in specified circumstances, to withhold, for income tax purposes,  $3\frac{1}{3}\%$  of the sales price of the property when the property is acquired from either an individual or a corporation without a permanent place of business, as specified.

This bill would also impose those withholding requirements on a sale of California real property, as defined, by a non-California partnership, as provided, at a rate of either  $3\frac{1}{3}\%$  of sales proceeds or 9.3% of gain, as specified.

(6) Existing law provides that, in the case of a sale of California real property by a non-California "S" corporation, the "S" corporation may elect the alternative withholding rate of 1.5%, based on the gain recognized by the "S" corporation on the sale, instead of the default withholding rate of  $3\frac{1}{3}\%$  based on the "S" corporation's sales proceeds.

This bill would increase the alternative withholding rate for a sale of California real property by a non-California "S" corporation to 10.8% or 12.8%, as applicable, of the gain recognized by the "S" corporation on the sale.

(7) Existing law provides that a nonresident seller of California real property pursuant to an installment agreement is not subject to withholding when payments are received by the seller in later years, unless the buyer makes an election to withhold on a payment-by-payment basis rather than on the entire sale in the year of sale.

This bill would instead require the buyer to withhold on each installment sale payment if the sale of California real property is structured as an installment sale, as provided.

This bill would also delete redundant provisions and would make clarifying changes relating to the assessment and collection of unremitted withholding.

(8) Existing law allows a seller of California real estate to make an election, pursuant to a certification made under penalty of perjury, as specified, for an alternative withholding rate based on the amount certified by the transferor, provided that the certified amount is not less than the gain required to be recognized by the seller under the Corporation Tax Law or the Personal Income Tax Law, as applicable. By modifying existing withholding requirements to include sellers that are non-California partnerships and by requiring a certification under penalty of perjury for alternative withholding from those partnerships, this bill would expand the scope of the existing crime of perjury, and would thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(9) The Personal Income Tax Law and the Corporation Tax Law impose a penalty for underpayment of an estimated income tax. Those laws also specify that a penalty shall not

be imposed if, specified taxes imposed for the preceding taxable year, minus the sum of any credits against the tax, or, the tax computed under specified provisions upon the estimated income for the taxable year, minus the sum of any credits against the tax, is less than \$200, and in the case of a separate return filed by a married person, is less than \$100.

This bill would increase the amounts excluded from that penalty from \$200 to \$500, and in the case of a separate return filed by a married person, from \$100 to \$250.

(10) The Corporation Tax Law imposes taxes measured by income and, in the case of a corporation that conducts a unitary business generally requires or, in some cases, permits the members of the group to compute their tax by utilizing the “combined report” approach. Existing law provides that dividends paid by one member of a unitary group to another member of that group may be eliminated from the recipient corporation’s taxable income, provided that the dividends are paid out of earnings and profits accumulated by the payer when the payer and recipient were members of the same combined unitary group, as specified.

This bill would clarify that the dividend elimination, as provided, is allowed regardless of whether the payer and payee are taxpayer members of the California combined unitary group return, or whether the payer or payee had previously filed California tax returns, as long as the payer and payee filed as members of a comparable unitary business outside of this state when the earnings and profits from which the dividends were paid arose. This bill would declare that these changes are declaratory of existing law.

This bill would also specify that the dividend elimination provisions apply to dividends paid out of the specified income by a member of a combined unitary group to a newly formed member, as defined.

#### Ch. 306 (AB 3079) Committee on Revenue and Taxation Taxation: State Board of Equalization: administration.

(1) The State Board of Equalization is authorized to enter into agreements for the reciprocal exchange of information or for release of information, including personal or confidential information, with state agencies, including providing information to the Department of Industrial Relations regarding the sales and use tax and use fuel tax programs.

This bill would authorize the Department of Industrial Relations to transmit to the State Board of Equalization, specified information in its records to assist the State Board of Equalization in determining compliance with the Sales and Use Tax Law, as provided.

(2) The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. Existing law provides for an 8-year statute of limitations for the collection of use taxes that are not reported under that law. Existing law provides for a 3-year statute of limitations in the case of an unregistered out-of-state retailer that voluntarily registers with the State Board of Equalization, if a determination is made that the failure to report and pay the tax was due to reasonable cause.

Prior to December 31, 2007, the statute of limitations for the collection of unreported use taxes on specified purchases by a qualified purchaser was 3 years if a determination was made that the failure to report and pay the tax was due to reasonable cause. That law also allowed the qualified purchaser to file a statement under penalty of perjury, requesting relief from penalties.

This bill would reinstate the 3-year statute of limitations for reasonable cause, including allowing a taxpayer to file a statement, under penalty of perjury, requesting relief from penalties imposed.

(3) The Sales and Use Tax Law, until January 1, 2009, provides for a managed audit program and allows a taxpayer to participate in the program if that taxpayer meets certain criteria.

This bill would repeal the termination date of the managed audit program, thereby extending the managed audit program indefinitely.

(4) The Diesel Fuel Tax Law and the Motor Vehicle Fuel Tax Law generally impose a tax at specified rates, when fuel is removed from a refinery or terminal or imported into this state. Pipeline and vessel operators are required to obtain a license from the State Board of Equalization and to file reports with the board regarding motor vehicle fuel and diesel fuel carried by their vessels and pipelines. Train operators are required to obtain a license or permit from the State Board of Equalization for the purpose of reporting the fuel purchased under an exemption certificate for use in their trains.

This bill would require train operators that carry motor vehicle fuel, alcohol, aircraft jet fuel, and diesel fuel to obtain a license from the State Board of Equalization and to file reports with the board regarding those fuels carried by their trains.

(5) This bill, by allowing a taxpayer to file a request for relief under penalty of perjury, would create a new crime and thereby would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 307 (SB 1629) Steinberg State preschool programs: Early Learning Quality Improvement System Advisory Committee.

Existing law requires the Superintendent of Public Instruction to administer state preschool programs, including part-day and preschool appropriate programs for prekindergarten children 3 to 5 years of age, inclusive, in educational development, health services, social services, nutritional services, parent education and participation, evaluation, and staff development.

This bill would establish the Early Learning Quality Improvement System Advisory Committee, which would consist of 13 members. The advisory committee would be required to develop the policy and implementation plan for an Early Learning Quality Improvement System, and would be required to submit an interim report on its recommendations to the Legislature and the Governor by December 31, 2009, and a final report by December 31, 2010. The bill would require the Superintendent to apply to the California Children and Families Commission for funding to cover costs. The bill's provisions would become inoperative on July 1, 2011, and would be repealed on January 1, 2012. The bill would become operative only if AB 2759 of the 2007–08 Regular Session of the Legislature is enacted and becomes effective on or before January 1, 2009.

Ch. 308 (AB 2759) Jones State preschool programs: reform.

(1) Existing law requires the Superintendent of Public Instruction to administer state preschool programs, including part-day and preschool appropriate programs for low-income or otherwise disadvantaged prekindergarten age children.

This bill would recast those provisions as the California state preschool program, which would include both part-day and full-day education programs for 3- and 4-year-old children.

(2) Existing law requires the Superintendent to administer child care and development programs, which include programs that offer a full range of services for children from infancy to 13 years of age for any part of a day.

This bill would delete campus child care and development programs and child abuse protection and prevention services from the definition of child care and development programs.

(3) Existing law requires the Superintendent to administer preschool programs in accordance with specified funding priorities.

This bill would revise those funding priorities.

The bill would establish minimum hours per day and days per year for part-day and full-day California state preschool programs. The bill would require fees to be assessed and collected for families with children in full-day programs in accordance with fee schedules

established by the Superintendent for families utilizing child care and development services, and would prohibit fees from being assessed for families whose children are enrolled in part-day programs.

(4) Existing law, for state preschool programs operating with funding that was initially allocated in a prior fiscal year, requires at least  $\frac{1}{2}$  of the children enrolled at the preschool site to be 4 years old, and requires any exception to be approved by the Superintendent, and the Superintendent is required to inform the Secretary of Child Development and Education of any exceptions that have been granted.

This bill would instead require the Superintendent to inform the Secretary for Education and the Department of Finance, and would also require the Superintendent to inform those entities of the reasons the exceptions were granted.

(5) Existing law establishes an enrollment priority for agencies that receive funding for the expansion of a state preschool program.

This bill would delete that enrollment priority. The bill would require the State Department of Education to annually monitor funding utilized in child care and development programs for infants and toddlers and hours of service provided in the California state preschool program, and to annually report on specified matters to the Department of Finance and the Legislature.

(6) Existing law requires a state preschool program contracting agency to certify eligibility and enroll families within a specified timeframe each year.

This bill would specify that subsequent to enrollment, a child shall be deemed eligible for a part-day California state preschool program for the remainder of the program year. The bill would establish reimbursement rates for California state preschool program contracting agencies that offer full-day services to parents who have a qualifying need.

(7) Existing law provides for the allocation of funds for expenditure by the Superintendent for specified child development and preschool programs that serve children who would attend kindergarten in the subsequent academic year.

This bill would specify that those programs may participate in California state preschool programs, and would restrict the allocation of specified funds to eligible programs that were eligible to receive funding in the 2007–08 fiscal year.

(8) The bill would become operative on July 1, 2009, and only if SB 1629 of the 2007–08 Regular Session of the Legislature is enacted and becomes effective on or before January 1, 2009.

#### Ch. 309 (SB 1455) Cogdill Vehicles: specialized license plates.

Under existing law, the Department of Motor Vehicles issues environmental and other specialized license plates. The issuance of some of those license plates is subject to additional fees. Existing law prohibits the department from establishing a specialized license plate program for a state agency until the department has received not less than 7,500 applications for the plates.

This bill would authorize the Department of Veterans Affairs to sponsor a Gold Star Family specialized license plate program and would waive the 7,500 minimum applications requirement. The bill would authorize a person who is an eligible family member, as defined, of a member of the Armed Forces who was killed in the line of duty, as specified, to apply for the specialized license plate. The bill would establish the Gold Star Family license plate Account in the Specialized License Plate Fund. The bill would authorize the Department of Veterans Affairs to actively request and receive donations that would be deposited in the account and, upon appropriation by the Legislature, those moneys would be available to the Department of Motor Vehicles for the necessary administrative costs of establishing the Gold Star Family specialized license plate program. The bill would exempt the participants in this program from the payment of additional specialized license plate fees for the issuance or renewal of the plate. The bill would also specify the conditions pursuant to which a Gold Star Family specialized license plate would be retired from use.

Ch. 310 (AB 171) Beall Estates and trusts.

Existing law establishes a uniform filing fee for petitions or accounts filed in connection with the administration of an estate or trust. Existing law establishes a graduated fee based on the size of the estate or trust.

This bill would eliminate the graduated fee and instead establish a single uniform filing fee. The bill would also make related changes.

Ch. 311 (SB 1407) Perata Court facilities: financing.

(1) The Trial Court Facilities Act of 2002 establishes the State Court Facilities Construction Fund and provides that moneys in that fund may be used to acquire, rehabilitate, construct, or finance court facilities, as defined, and to implement trial court projects in designated counties, as specified.

This bill would extend the purposes for which moneys in that fund may be used to include the planning, design, construction, rehabilitation, replacement, leasing, or acquisition of court facilities. The bill would establish the Immediate and Critical Needs Account of the State Court Facilities Construction Fund, the proceeds of which would be used for the planning, design, construction, rehabilitation, renovation, replacement, or acquisition of court facilities, for the repayment of moneys appropriated for lease of court facilities pursuant to the issuance of lease-revenue bonds, and for the payment for lease or rental of court facilities. The bill would require the Judicial Council to collect and make available information regarding moneys in the account, as specified, and to make recommendations to the Governor and the Legislature for projects based on its determination that the need for a project is most immediate and critical, as specified. The bill would authorize the Judicial Council to acquire sites for the replacement of deficient court facilities in 4 specified counties. The bill would require any moneys remaining in, or that would otherwise be payable into, the Immediate and Critical Needs Account of the State Court Facilities Construction Fund, to be transferred to the Controller for deposit into the State Trial Court Operations Trust Fund, as established by this bill, upon the retirement of any bonded indebtedness that may be incurred in connection with immediate and critical trial court projects, the proceeds of which would be available upon appropriation by the Legislature only for trial court operations.

(2) Existing law provides that the Judicial Council, as the policymaking body for the judicial branch, shall have certain responsibilities and authorities with regard to court facilities, including to conduct audits of the collection of fees by the local courts, and to establish and consult with local project advisory groups on the construction of new trial court facilities.

This bill would further authorize the Judicial Council to conduct audits of the collection of fees to be transmitted to the state for deposit in the Immediate and Critical Needs Account of the State Court Facilities Construction Fund. The bill would include the local sheriff among those local project advisory groups with which the Judicial Council consults in the construction of new trial court facilities, as specified.

(3) Existing law specifies various uniform fees for filing specified documents in connection with certain civil proceedings, including a fee schedule for filing a first petition or first account in connection with a trust or estate. Existing law also imposes a fee of \$20 upon every conviction for a criminal offense, other than parking offenses, for funding of court security, and a fee of \$10 for corrections of violations of license, registration, or mechanical requirements of the Vehicle Code. Supplemental penalties and fees are imposed upon specified parking offenses and persons ordered to attend traffic violator school. Existing law specifies the disposition of fines and forfeitures, and traffic violator fees, collected by the courts for crimes other than parking violations.

This bill would generally increase those fees, and would impose an additional assessment upon every conviction for a criminal offense, but would eliminate the fee schedule for filing a first petition or first account in connection with a trust or estate and replace it with a set filing

fee. The bill would eliminate certain exemptions from payment of filing fees in connection with an estate. The bill would impose a fee for filing in the superior court an application to appear as counsel pro hac vice. The bill would provide for a specified portion of all of those fees to be deposited into the Immediate and Critical Needs Account of the State Court Facilities Construction Fund, as described in (1) above. The bill would make other conforming changes, and would declare the intent of the Legislature to establish a moratorium on increases in filing fees until January 1, 2012.

(4) This bill would incorporate additional changes in Section 68085.1 of the Government Code proposed by AB 1873, to be operative if AB 1873 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

(5) This bill would incorporate additional changes in Sections 68085.3, 68085.4, 68086.1, 70611, 70612, 70613, 70614, 70621, 70650, 70651, 70652, 70653, 70654, 70655, 70656, 70658, and 70670 of the Government Code, Section 103470 of the Health and Safety Code, and Section 7660 of the Probate Code, proposed by SB 1177, to be operative if SB 1177 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

Ch. 312 (AB 3018) Nunez California Green Collar Jobs Act of 2008: green jobs.

Existing law contains various programs for job training and employment investment.

This bill would set forth legislative findings and declarations relating to the state's green economy and the increasing demand for a highly skilled and well-trained green collar workforce, and would enact the California Green Collar Jobs Act of 2008 requiring the California Workforce Investment Board to establish the Green Collar Jobs Council that shall, in consultation with representatives from various public and private groups, develop a comprehensive array of programs, strategies, and resources to address the workforce needs that accompany California's growing green economy and to establish, among other programs, green job training programs for eligible individuals, as provided.

Ch. 313 (AB 109) Nunez Air pollution: alternative fuels and vehicle technologies.

(1) Existing law establishes the Alternative and Renewable Fuel and Vehicle Technology Program, administered by the State Energy Resources Conservation and Development Commission (Energy Commission), to provide to specified entities, upon appropriation by the Legislature, grants, loans, loan guarantees, revolving loans, or other appropriate measures, for the development and deployment of innovative technologies that transform California's fuel and vehicle types to help attain the state's climate change goals. The Energy Commission is required to provide preferences to specified projects that include projects involving the use of alternative fuel blends of at least 20% and higher blend ratios in the future, with a preference for projects with higher blends.

This bill would require the Energy Commission to implement the Alternative and Renewable Fuel and Vehicle Technology Program by regulation pursuant to the rulemaking requirements of the Administrative Procedure Act. The bill would require both this program and the program discussed in (3) below to provide a public competitive process for the allocation of funds. The bill would authorize the Energy Commission to make a single source or sole source award for applied research meeting specified requirements, including the applied research to be conducted by the Quiet Motorized Road Vehicle and Safe Mobility Committee that would be created by Senate Bill 1174 of the 2007–08 Regular Session, if that bill is enacted.

The bill would require the Energy Commission to approve projects funded by the program at a noticed public hearing. The bill would provide that the above-described preference related to alternative fuels would not apply to renewable diesel or biodiesel infrastructures, fueling stations, and equipment used solely for renewable diesel or biodiesel fuel. The bill would, additionally, specify projects eligible for funding under the program to include projects involving battery electric vehicle technology and specified assessments and

analyses performed by state agencies to determine impacts of increasing the use of low-carbon transportation fuels and technologies. The Energy Commission would be required to include an evaluation of research, development, and deployment efforts funded by the program in the 2011 issue of the integrated energy policy report the commission is required to adopt and in subsequent reports required to be adopted thereafter under existing law.

The bill would authorize the Energy Commission, until January 1, 2012, to contract with the Treasurer to expend funds through programs implemented by the Treasurer.

(2) Existing law defines “full fuel-cycle assessment” or “life-cycle assessment” for the purposes of the Alternative and Renewable Fuel and Vehicle Technology Program as evaluating and comparing the full environmental and health impacts of each step in the life cycle of a fuel, including, but not limited to, specific activities.

This bill would recast the definition of “full fuel-cycle assessment” or “life-cycle assessment” to additionally include within the specified activities feedstock cultivation, fuel manufacturing and marketing, and the transportation and use of water and changes in land use and land cover, as provided.

(3) Existing law establishes the Air Quality Improvement Program, administered by the State Air Resources Board (state board), to fund, upon appropriation by the Legislature, air quality improvement projects related to fuel and vehicle technologies. The program is limited to competitive grants.

This bill would expand the Air Quality Improvement Program to revolving loans, loan guarantees, loans, or other appropriate funding measures. The bill would require the state board to develop and adopt guidelines to implement the Air Quality Improvement Program. The state board would be required to hold at least 3 public workshops in specified areas of the state prior to the adoption of the guidelines. Beginning January 1, 2011, and biennially thereafter, the state board would be required to submit to the Legislature a report evaluating the implementation of the program.

(4) Existing law makes any project undertaken pursuant to state or federal law or district rules or regulations ineligible for funding from both the Air Quality Improvement Program and the Alternative and Renewable Fuel and Vehicle Technology Program.

This bill would make ineligible any project undertaken pursuant to memoranda of understanding with a governmental entity or legally binding agreements or documents. The state board would be required to advise the commission to ensure these requirements are met.

Ch. 314 (AB 642) Wolk Design-build: counties, cities, and special districts.

(1) Existing law, until January 1, 2011, authorizes certain cities, with the approval of the appropriate city council, to enter into design-build contracts, as defined, in accordance with specified provisions.

This bill would authorize any city, with the approval of the appropriate city council, to enter into design-build contracts, as defined, in accordance with specified provisions. The bill also would extend these provisions until January 1, 2016.

(2) Existing law requires public entities to comply with certain procedures in soliciting and evaluating bids and awarding contracts for the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement.

This bill would authorize a qualified entity, as defined, that operates a wastewater facility, solid waste management facility, or water recycling facility, with the approval of the appropriate governing body, to enter into design-build contracts, as defined, in accordance with specified provisions. The bill also would repeal these provisions on January 1, 2020.

(3) This bill would require specified information to be verified under oath, thus imposing a state-mandated local program by expanding the scope of an existing crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 315 (AB 660) Galgiani Railroad-highway grade separations.

Existing law provides for the Department of Transportation to include \$15,000,000 in its annual proposed budget for highway-railroad grade separation projects. Existing law requires the Public Utilities Commission to establish an annual priority list for expenditure of these funds, which may be allocated by the California Transportation Commission for various kinds of projects, including alteration of existing grade separations, construction of new grade separations for existing or proposed grade crossings, and removal or relocation of highways or railroad tracks to eliminate existing grade crossings. Existing law provides that allocations from these funds may not exceed 80% of project costs, and generally limits the maximum total allocation amount for a single project to \$5,000,000 unless there is specific legislative authorization, with certain exceptions. Existing law generally sets the percentage contribution required of railroads for grade separation projects at 10% of project costs, but if federal funds are used for a project, it provides that the railroad contribution is to be computed pursuant to federal law. Existing law requires that an amount equal to a portion of the funds received by cities and counties for grade separation projects shall be deducted by the Controller from apportionments to those cities and counties of specified fuel tax revenues.

This bill would revise the program to delete funding eligibility for a new grade separation to eliminate a proposed grade crossing or for removal or relocation of highways or railroad tracks to eliminate existing grade crossings. The bill would provide for a maximum allocation of 80% of project costs for all projects funded but would modify the provisions limiting the maximum amount that may be allocated to a single project to \$5,000,000, unless there is specific legislative authorization. The bill would redefine the terms “grade separation” and “project” for these purposes. The bill would set a railroad’s contribution for a project, if state funds are used, to a percentage of the cost of the grade separation, but not including the cost of any other part of the project. The bill would also modify the calculation of the amount of funds deducted from the apportionments of the fuel tax revenues, and delete provisions requiring the reduction of cost to a party to a grade separation project when the National Railroad Passenger Corporation (Amtrak) contributes towards a specified amount of the project.

Ch. 316 (AB 873) Davis Public utilities: procurement.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical, gas, water, and telephone corporations. Existing law authorizes the commission to establish rules for all public utilities, subject to control by the Legislature. Existing law directs the commission to require every electrical, gas, and telephone corporation with annual gross revenues exceeding \$25,000,000, and their regulated subsidiaries and affiliates, to implement a program developed by the commission to encourage, recruit, and utilize minority-, women-, and disabled veteran-owned business enterprises, as defined, in the procurement of contracts from those corporations or from their regulated subsidiaries and affiliates, and to require the reporting of certain information. The commission has, by rulemaking, adopted General Order 156, applicable to certain electrical, gas, and telephone corporations, to effectuate these requirements.

This bill would extend the minority-, women-, and disabled veteran-owned business enterprises procurement requirements to water corporations with gross annual revenues of more than \$25,000,000 and would encourage each electrical, gas, water, and telephone corporation that is not required to submit a plan to voluntarily adopt a plan for increasing women, minority, and disabled veteran business enterprise procurement in all categories. Because a violation of certain of the requirements by an electrical, gas, or telephone corporation is a crime, this bill would impose a state-mandated local program by expanding

the definition of a crime to include violations by a water corporation with gross annual revenues of more than \$25,000,000.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 317 (AB 981) Leno Treasure Island Transportation Management Act.

Existing law authorizes the City and County of San Francisco to designate the Treasure Island Development Authority as a redevelopment agency under the Community Redevelopment Law for the purpose of converting and redeveloping certain property that formerly constituted the Naval Station Treasure Island.

This bill would enact the Treasure Island Transportation Management Act and would authorize the Board of Supervisors of the City and County of San Francisco to designate a board or agency to act as the transportation management agency for Treasure Island, defined to also include Yerba Buena Island. The bill would authorize the transportation management agency, pursuant to the terms of a resolution or ordinance adopted by the board of supervisors, to recommend an initial fee structure for congestion pricing fees to be adopted by the board of supervisors and the San Francisco County Transportation Authority, and to adopt on-street and off-street parking fees, fines, and penalties, and other parking-related revenues and a transit pass fee structure for Treasure Island. The bill would specify the powers and duties of the agency on these and other related matters, including adoption and administration of a transportation program, collection and use of revenues generated from those fees, and coordination with the San Francisco Municipal Transportation Agency.

Existing law provides that a local agency may not impose a new tax, permit fee, or other charge for the privilege of using its streets and roads on or after June 1, 1989, except a permit fee for extra legal loads.

This bill would provide that this prohibition does not apply to the fees authorized by this bill.

The bill would make findings and declarations of the Legislature that the adoption and implementation of the transportation program for Treasure Island is a matter of statewide concern, as specified, and, therefore, no local ordinance, charter provision, or local law shall apply to Treasure Island or the transportation program.

The bill would make findings and declarations of the Legislature that because of the unique circumstances applicable to Treasure Island, a general statute cannot be made applicable, and that, therefore, enactment of a special statute is necessary.

#### Ch. 318 (AB 1496) Leno Redevelopment: Treasure Island Development Authority.

The Community Redevelopment Law requires the establishment of a project area committee when a redevelopment plan contains authority for a redevelopment agency to acquire by eminent domain property on which persons reside and where a substantial number of low- or moderate-income persons, or both, reside within one project area. A project area committee also must be established when a redevelopment plan contains one or more public projects that would displace a substantial number of low- or moderate-income persons, or both. Under the Community Redevelopment Law, the legislative body of a city or county is required to call upon the residents and existing community organizations in a redevelopment project area to form a project area committee if a substantial number of low- or moderate-income persons, or both, reside within the project area, and the redevelopment plan as adopted will contain authority for the agency to acquire, by eminent domain, property on which any persons reside or if the redevelopment plan as adopted contains one or more public projects that will displace a substantial number of low- or moderate-income persons, or both.

Existing law, the Treasure Island Conversion Act of 1997, also authorizes the City and County of San Francisco to designate the Treasure Island Development Authority and any successor entity thereof as the redevelopment agency for the purposes of acquiring, using, operating, maintaining, converting and redeveloping Naval Station Treasure Island.

This bill would authorize the authority to follow a different procedure for the redevelopment of the Naval Station Treasure Island if the authority follows specified procedures, including the addition of residents to the current citizens advisory board, holding at least one noticed public meeting, and offering current low- and moderate-income residents new permanent housing adequate to accommodate the household to be constructed within the redevelopment project area, at a cost or rent not exceeding the affordable housing costs or affordable rent, as specified.

#### Ch. 319 (AB 1674) Jones In-home supportive services.

Existing law provides for the county-administered In-Home Supportive Services (IHSS) program, under which qualified aged, blind, and disabled persons are provided with services in order to permit them to remain in their own homes and avoid institutionalization. The State Department of Social Services administers the program at the state level.

Existing law permits services to be provided under the IHSS program either through the employment of individual providers, a contract between the county and an entity for the provision of services, the creation by the county of a public authority, or a contract between the county and a nonprofit consortium. Under existing law, the functions of a nonprofit consortium contracting with the county, or a public authority established for this purpose, include investigating the qualifications and background of potential personnel.

Existing law provides, to the extent that an appropriation is made for investigating potential personnel, that no fee shall be charged by the nonprofit consortium or public authority to a provider, potential personnel, or service recipient to cover any costs of the investigation, or the cost to the Department of Justice or any law enforcement agency for processing the criminal background check.

This bill would instead, effective January 1, 2009, prohibit a fee from being charged to a provider, potential personnel, or service recipient to cover any costs of the investigation associated with the criminal background checks, or the cost to the Department of Justice or any law enforcement agency for processing the criminal background check.

This bill would require the establishment of a pilot project in 5 consenting counties that provides severely impaired IHSS recipients, as described, with the choice to receive in-home supportive services either through a public authority or a contracting voluntary nonprofit or proprietary agency, as specified. The bill would provide that the administrative costs of the pilot project shall be paid by the voluntary nonprofit or proprietary agency, as specified.

The bill would require the pilot project to be monitored by each participating county's IHSS advisory committee, established pursuant to existing law.

The bill would require each participating county, by the end of the program's 3rd year, to provide for an independent evaluation to assess the success of the pilot program, based on specified criteria.

#### Ch. 320 (AB 1780) Galgiani Mental health managed care contracts.

Existing law provides for administration of the Early and Periodic Screening, Diagnosis, and Treatment Program (EPSDT) by the State Department of Mental Health (hereafter, the department).

Existing law separately provides for the Medi-Cal program, administered by the State Department of Health Care Services, under which qualified low-income persons are provided with health care services, including mental health services.

Under existing law, the department is required to implement managed mental health care for Medi-Cal recipients through fee-for-service or capitated contracts with counties, counties acting jointly, qualified individuals or organizations, or nongovernmental entities. The

department is responsible for assuming specified program oversight authority formerly provided by the State Department of Health Care Services, including, but not limited to, oversight of certain utilization controls.

This bill would provide that the department's oversight may include client record reviews, as defined, of EPSDT specialty mental health services. The bill would authorize the department to contract with an independent, nongovernmental entity to conduct the client record reviews, as described, and would require the department to recover overpayments of federal and state funds, as provided.

The bill would also require the department, in consultation with specified stakeholders, to provide an appeals process that provides for a progressive process to resolve disputes about claims or recoupment relating to specialty mental health services under the program, as specified, and would require the department to propose, by no later than the end of the 2009–10 fiscal year, a rulemaking package to amend its existing appeals process in accordance with these provisions.

Existing law requires, beginning each fiscal year following the transfer of funds from the State Department of Health Care Services, that state matching funds for the mental health services provided under the Medi-Cal program be included in the annual budget for the department, based on historical cost, and adjusted in accordance with specified factors.

The bill would require the appropriation for funding the state share of costs for the EPSDT specialty mental health services provided under the Medi-Cal program only to be used for reimbursement of claims for those services.

The bill would also require the department, commencing in the 2009–10 fiscal year, and each fiscal year thereafter, to amend its interagency agreement with the State Department of Health Care Services in accordance with various requirements and goals. The bill would further require the department to, semiannually, and in consultation with specified entities, review the methodology used to forecast future trends in the provision of EPSDT specialty mental health services provided pursuant to the Medi-Cal program and make estimates of specified costs, as provided.

#### Ch. 321 (AB 1846) Adams Inedible kitchen grease.

Existing law regulates transporters of inedible kitchen grease, and requires those transporters to be registered. Existing law also authorizes the Department of Food and Agriculture to assess an additional fee on transporters of inedible kitchen grease, as specified, for purposes of administering the provisions regulating these transporters.

This bill would exempt from 75% of that additional fee, transporters of inedible kitchen grease who transport inedible kitchen grease for their own personal, noncommercial use as an alternative fuel, subject to other restrictions, and would require these individuals meet other requirements, as specified.

By placing restrictions on the actions of certain transporters of inedible kitchen grease, the violation of which is a misdemeanor pursuant to other provisions of existing law, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 322 (AB 1874) Coto State Compensation Insurance Fund.

Existing law provides for the existence of the State Compensation Insurance Fund to be administered by its board of directors for the purpose of transacting workers' compensation insurance, and insurance against the expense of defending any suit for serious and willful misconduct, against an employer or his or her agent, and insurance to employees and other persons of the compensation fixed by the workers' compensation laws for employees and their dependents. Existing law provides that the board of directors of the State Compensation

Insurance Fund is composed of 5 members, one of whom shall be from organized labor, appointed by the Governor. Existing law provides that the Governor shall appoint the chairperson who shall serve at the pleasure of the Governor, and makes the Director of Industrial Relations, the Speaker of the Assembly, and the President pro Tempore of the Senate, or their designees, ex officio, nonvoting members of the board. Existing law requires each board member to have been a policyholder or an employee or member of a policyholder in the fund, as specified, and to remain in that status during board membership.

This bill would provide that the Board of Directors of the State Compensation Insurance Fund is composed of 11 members, 9 of whom shall be appointed by the Governor. The members appointed by the Governor would include one from organized labor and the others would be required to have substantial experience in various positions, as specified. The Governor would appoint the chairperson. The Speaker of the Assembly would appoint one member who would represent organized labor, and the Senate Committee on Rules would appoint one member who shall have been a policyholder of the State Compensation Insurance Fund or an officer or employee of a policyholder, as specified. This bill would provide for the terms of office of board members, as specified.

The bill would remove the Speaker of the Assembly and the Speaker pro Tempore of the Senate and their designees from membership on the board.

Existing law provides that members of the board shall receive their actual and necessary traveling expenses incurred while performing their duties and, with the exception of ex officio members, \$100 per day when they attend meetings.

This bill would provide that each voting member of the board shall be paid an annual compensation of \$50,000, to be automatically adjusted for inflation, as specified, beginning January 1, 2010. The bill would specify that these board members shall be excluded from the Public Employees' Retirement System. This bill would require each board member to attend training, as specified, and not have a financial conflict of interest, as defined. This bill would provide for removal of a board member, and appointment of his or her replacement, as specified. The bill would specify the committee structure of the State Compensation Insurance Fund.

This bill would state findings and declarations of the Legislature in regard to the State Compensation Insurance Fund and its board.

#### Ch. 323 (AB 1900) Nava Penalty assessments: Santa Barbara County Level II Trauma Center.

Existing law generally provides, for purposes of supporting emergency medical services in Santa Barbara County, that a specified penalty shall be imposed on every fine, penalty, or forfeiture collected for all criminal offenses, including, except as specified, all offenses involving a violation of the Vehicle Code, and shall be specially distributed, as specified. These provisions are scheduled to be repealed on January 1, 2009.

This bill would extend the repeal dates of the above provisions until January 1, 2011. The bill would provide that the above penalty assessment shall not be applicable to offenses involving a violation of the Vehicle Code, except for specified offenses involving alcohol or drugs, and would delete the above distribution procedure. The bill would make conforming changes to a related provision. The bill would make specified findings and declarations, including that, for specified reasons, the special legislation contained in the act is necessarily applicable only to Santa Barbara County. By extending the above penalty assessment provisions, and by revising the offenses subject to the penalty assessment and the current penalty assessment distribution procedure, this bill would impose new duties on local officials relating to the imposition of penalty assessments, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 324 (AB 1935) Fuller Taxpayer contributions: California Ovarian Cancer Research Fund.

Existing law, relating to the administration of personal income taxes, authorizes individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds or accounts.

This bill would additionally allow taxpayers to designate on their tax returns, that a specified amount in excess of their tax liability be transferred to the California Ovarian Cancer Research Fund, which would be created by this bill. This bill would provide that all moneys contributed to the fund pursuant to these provisions, upon appropriation by the Legislature, be allocated to the Franchise Tax Board and the Controller for reimbursement of costs, as provided, and to the University of California for the support of ovarian cancer research, as provided.

This bill would provide that these voluntary contribution provisions are repealed on either January 1 of the 5th taxable year following the taxable year the fund first appears on the personal income tax return, or on January 1 of an earlier calendar year, if the Franchise Tax Board estimates that the annual contribution amount will be less than \$250,000, or an adjusted amount for subsequent taxable years.

Ch. 325 (AB 2001) Swanson Local government: whistleblower hotlines.

Existing law requires the State Auditor to maintain a whistleblower hotline to receive calls from persons who have information regarding possible violations of state or federal statutes, rules, or regulations, or violations of fiduciary responsibility by a corporation or limited liability company to its shareholders, investors, or employees.

This bill would authorize a city, county, or city and county auditor or controller to maintain a whistleblower hotline to receive calls from persons who have information regarding possible violations by local government employees of state, federal, or local statutes, rules, or regulations.

Ch. 326 (AB 2125) Price Supplemental local law enforcement funding.

Existing law establishes in each county treasury a Supplemental Law Enforcement Services Fund and requires that moneys from this fund be allocated in accordance with specified requirements for, among other things, juvenile justice plans. Existing law requires juvenile justice plans to include specified assessments of services and strategies to assist at-risk juveniles.

This bill would require juvenile justice plans to also assess job training services and strategies, and require, under certain conditions, a demonstration of the effectiveness at reducing delinquency through job training and employment, as specified, to qualify for funding allocation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 327 (AB 2150) Berg Insurance: sales designations.

Existing law provides that no insurer, agent, broker, solicitor, or other person or other entity shall solicit persons 65 years of age and older in this state for the purchase of disability insurance, life insurance, or annuities through the use of a true or fictitious name which is deceptive or misleading with regard to the status, character, or proprietary or representative capacity of the entity or person, or to the true purpose of the advertisement.

This bill would provide that a broker or agent may not use a senior designation, as defined, unless specified conditions have been met. This bill would provide that in determining whether to approve a senior designation for use, the commissioner shall ensure that the organization that issues the senior designation fulfills specified requirements. This bill would require certain experience and education, as specified, before the commissioner may approve

the use of a senior designation by a broker or agent. The bill would specify the penalties and remedies if its provisions are violated, and make related changes.

**Ch. 328 (AB 2291) Mendoza Taxpayer contributions: Municipal Shelter Spay-Neuter Fund.**

Existing law, relating to the administration of personal income taxes, authorizes individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds or accounts.

This bill would allow taxpayers to designate on their tax returns that a specified amount in excess of their tax liability be transferred to the Municipal Shelter Spay-Neuter Fund, which would be created by this bill. However, the bill would provide that a voluntary contribution designation for this fund may not be added on the tax return until another voluntary contribution designation is removed from the return.

This bill would provide that all money contributed to the fund pursuant to these provisions, upon appropriation by the Legislature, be allocated to the Franchise Tax Board and the Controller for reimbursement of costs, as provided, and to the Department of Food and Agriculture for distribution of grants to eligible municipal shelters on a first-come-first-served basis, as specified, for the purposes of providing low cost or free spay-neuter services and for administrative costs. This bill would require eligible municipal shelters, as defined, in order to receive a grant, to file an application with the Department of Food and Agriculture, as specified.

This bill would provide that these voluntary contribution provisions are repealed on either January 1 of the 5th taxable year following the taxable year the fund first appears on the personal income tax return, or on January 1 of an earlier calendar year, if the Franchise Tax Board estimates that the annual contribution amount will be less than \$250,000, or an adjusted amount for subsequent taxable years.

**Ch. 329 (AB 2411) Caballero Property tax: refunds.**

Existing law requires the assessor to notify an assessee, if a correction to the roll will increase the amount of unpaid taxes, of the procedure for obtaining review by the county board and the procedure for applying for cancellation.

This bill would require the auditor, if a correction to the roll will result in a reduction of an assessment that would entitle the assessee to a refund, to either process the refund or notify the assessee in writing, as specified, of the requirements for obtaining a refund.

Existing property tax law requires property taxes to be refunded upon the filing of a claim filed within 4 years after making the payment sought to be refunded, within one year after the mailing of a specified notice, or within a specified period agreed to, whichever is later. Existing property tax law also provides for the payment of interest on those refunds at the greater of, 3% per annum or the county pool apportioned rate.

This bill would require property taxes to be refunded, if a specified application for a reduction in an assessment or an application for equalization of an assessment has been filed, upon the filing of a claim within specified time periods. This bill would also make clarifying changes to the method used to calculate interest on the refunds.

This bill would provide that changes made by this act shall not affect any litigation involving property tax refunds pending before January 1, 2009, as specified, and would declare that nothing in the legislative history of this act shall be construed as any indication of the meaning of the law as it existed prior to the effective date of this act.

By changing the manner in which local officials administer property tax refunds, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 330 (AB 2518) Torrico Taxpayer contributions: California Cancer Research Fund.

Existing law, relating to the administration of personal income taxes, authorizes individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds or accounts.

This bill would allow taxpayers to designate on their tax returns, that a specified amount in excess of their tax liability be transferred to the California Cancer Research Fund, which would be created by this bill. However, the bill would provide that a voluntary contribution designation for this fund may not be added on the tax return until another voluntary contribution designation is removed from the return.

This bill would provide that all moneys contributed to the fund pursuant to these provisions, upon appropriation by the Legislature, be allocated to the Franchise Tax Board and the Controller for reimbursement of costs, as provided, and the Regents of the University of California for distribution of grants for the purposes of conducting cancer research, expanding education on cancer, and providing prevention and awareness activities, as provided, and for reimbursement of any costs incurred by the regents for administering the grants.

This bill would provide that these voluntary contribution provisions are repealed on either January of the fifth taxable year following the taxable year the fund first appears on the personal income tax return or on January 1 of an earlier calendar year, if the Franchise Tax Board estimates that the annual contribution amount will be less than \$250,000, or an adjusted amount, as specified, for subsequent taxable years.

Ch. 331 (AB 2589) Solorio Health care coverage: public agencies.

The Knox-Keene Health Care Service Plan Act of 1975, the willful violation of which is a crime, provides for the licensing and regulation of health care service plans by the Department of Managed Health Care. Existing law provides for the regulation of health insurers by the Department of Insurance. Under existing law, health care service plans and health insurers are required to make certain disclosures to enrollees and insureds. Existing law also provides for the licensing and regulation of insurance agents and brokers.

This bill would require a health care service plan or a health insurer to annually disclose to the governing board of a public agency that is the subscriber of a group contract or the policyholder of a group health insurance policy specified information, including, but not limited to, any fees or commissions paid to any agent, broker, or other individual related to the public agency's group contract or policy. Because the bill would create a new requirement under the Knox-Keene Health Care Service Plan Act of 1975, the willful violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 332 (AB 2670) Salas Department of Veterans Affairs: qualified residential rental project programs.

The Department of Veterans Affairs administers state military affairs and has responsibility for, among other things, veterans' welfare and homes. Existing law also establishes the California Debt Limit Allocation Committee for the purpose of implementing the unified volume limit for the state on private activity bonds established pursuant to federal law. Under existing law, state or local agency applicants may apply for the issuance of tax-exempt private

activity bonds under 6 different programs, including the qualified residential rental project program.

This bill would authorize the Department of Veterans Affairs to apply to the California Debt Limit Allocation Committee for the issuance of a private activity bond under the qualified residential rental project program.

Ch. 333 (AB 2785) Ruskin Wildlife conservation: habitat connectivity.

Existing law requires the Department of Fish and Game to administer the Significant Natural Areas Program, and requires the department, among other things, to identify and seek the maintenance of significant natural areas, as defined, and to maintain, expand, and keep current a data management system, designated the California Natural Diversity Data Base.

The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 (bond act), an initiative statute approved by the voters at the November 7, 2006, statewide general election makes about \$5.4 billion in bond funds available for safe drinking water, water quality and supply, flood control, natural resource protection, and park improvements, including \$450 million to the Wildlife Conservation Board for the protection and conservation of forests and wildlife.

This bill would revise the program to require the department, contingent upon funding being provided by the board from moneys made available by the bond act for the protection and conservation of forests and wildlife, or from other appropriate bond funds, upon appropriation by the Legislature, to investigate, study, and identify those areas in the state that are most essential as wildlife corridors and habitat linkages and prioritize vegetative data development in those areas. The bill would require the department to develop and maintain a spatial data system that identifies those areas in the state that are most essential for maintaining habitat connectivity, including wildlife corridors and habitat linkages. The bill would require the department to make all of the described data sets and associated analytical products available to the public and other government entities. The bill would require the department to actively pursue grants and cost-sharing opportunities with local, state, or federal agencies, or private entities that use the data sets and benefit from their creation and maintenance.

Ch. 334 (AB 3072) Price Tribal gaming: compact ratification.

Existing federal law, the Indian Gaming Regulatory Act, provides for the negotiation and execution of tribal-state gaming compacts for the purpose of authorizing certain types of gaming on Indian lands within a state. The California Constitution authorizes the Governor to negotiate and conclude compacts, subject to ratification by the Legislature. Existing law expressly ratifies a number of tribal-state gaming compacts, and amendments of tribal-state gaming compacts, between the State of California and specified Indian tribes.

This bill would ratify an amendment to a tribal-state gaming compact entered into between the State of California and the Shingle Springs Band of Miwok Indians, executed on June 30, 2008. The bill would require that related revenue contributions be deposited into the General Fund, except as specified, and would also provide that, in deference to tribal sovereignty, certain actions may not be deemed projects for purposes of the California Environmental Quality Act.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 335 (SB 107) Alquist Wave pools.

Existing law regulates safe recreational water use, including, but not limited to, the recreational use of reservoirs, public beaches, and swimming pools. The Swimming Pool Safety Act establishes certain safety standards requiring swimming pool enclosures, safety pool covers, or exit alarms, as defined, or certain other means of protection.

This bill would enact the Wave Pool Safety Act and require a wave pool operator to comply with several specified safety requirements, including, but not limited to, providing a United States Coast Guard-approved Type II or Type III lifevest that is free and available for use by any nonswimmer, as defined, any child under 48 inches in height, or any other patron at the request of the patron, as specified. The bill would require children under 48 inches in height, regardless of whether the child is accompanied by an adult, to wear a properly fitting United States Coast Guard-approved Type II or Type III lifevest to gain access to a wave pool. The bill would further require an audible signal, as specified, to sound within 15 seconds immediately prior to resuming the breaking wave action in order to warn patrons, as defined, of impending waves. The bill would require the wave pool operator to deny entrance into the park, or require the removal from the park, of a person or child under specified circumstances. The bill would also require signs indicating these requirements to appear at the ticket booth or entrance gate to the park or other facility where the wave pool is located. The bill would require lifeguards to be assigned to guard a wave pool, as specified. The bill would also set forth legislative findings and declarations.

Ch. 336 (SB 111) Ashburn Property tax: seismic retrofitting: tax assessments.

(1) The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, "full cash value" is defined as the assessor's valuation of real property as shown on the 1975–76 tax bill under "full cash value" or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. The California Constitution excludes from classification as "new construction" the portion of reconstruction or improvement to a structure, constructed of unreinforced masonry bearing wall construction, necessary to comply with any local ordinance relating to seismic safety during the first 15 years following the reconstruction or improvement. Pursuant to an authorization in the California Constitution, existing law excludes from classification as "new construction" the construction or installation in existing buildings of certain seismic retrofitting improvements or improvements utilizing earthquake hazard mitigation technologies.

A proposed amendment to the California Constitution, Senate Constitutional Amendment 4 of the 2007–08 Regular Session, would eliminate the 15-year exclusion from classification as "new construction" of structures constructed of unreinforced masonry bearing wall construction and would instead generally exclude from classification as "new construction" the specific portion of construction or reconstruction of seismic retrofitting components on an existing structure.

This bill would implement the proposed amendment to the California Constitution, and would also specify that those that qualified for the 15-year exclusion relating to structures constructed of unreinforced masonry also qualify for the general exclusion for seismic retrofitting components.

(2) Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

(3) This bill would take effect immediately as a tax levy, but would become operative, as specified, only if Senate Constitutional Amendment 4 of the 2007–08 Regular Session is approved by the voters.

Ch. 337 (SB 157) Wiggins Alcoholic beverages: winegrower's license.

(1) The Alcoholic Beverage Control Act authorizes the issuance of a wine sales permit to any licensee under a winegrower's license, which authorizes the sale of bottled wine

produced by the winegrowers at specified events that are sponsored by an organization that is exempt from taxation, as specified.

This bill would expand the list of organizations that are exempt from taxation that are authorized to sponsor specified events.

(2) The Alcoholic Beverage Control Act provides that nothing in that law prohibits a winegrower or a beer and wine wholesaler, as specified, from giving or selling wine, a beer manufacturer from giving or selling beer, a distilled spirits manufacturer or its agent from giving or selling distilled spirits, or a licensed importer from giving or selling beer, wine, or distilled spirits to certain nonprofit organizations, as specified, at prices other than those contained in schedules filed with the Department of Alcoholic Beverage Control.

This bill would revise the prohibition exemption for licensed importers by providing that nothing in the Alcoholic Beverage Control Act prohibits beer and wine wholesalers that also hold an importer's license from giving or selling beer, wine, or distilled spirits to certain nonprofit organizations. This bill would also expand the list of nonprofit organizations that are authorized to receive or purchase wine, beer, and distilled spirits at prices other than those contained in schedules filed with the Department of Alcoholic Beverage Control.

(3) The Alcoholic Beverage Control Act provides that a violation of its provisions is a misdemeanor, unless otherwise specified. This bill, by changing the definition of an existing crime, imposes a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 338 (SB 462) Torlakson State claims.

Existing law requires the California Victim Compensation and Government Claims Board to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state allowed by the board.

This bill would appropriate \$552,483.73 from various funds to the Executive Officer of the California Victim Compensation and Government Claims Board to pay claims accepted by the board. This bill would require the Controller, upon the request of the board, in a form prescribed by the Controller, to transfer surcharges and fees from the Budget Act items of appropriation identified in this bill to Item 1870-001-0001 of Section 2.00 of the Budget Act of 2008, as specified.

Existing law requires the state to pay counties for the costs of conducting specified elections proclaimed by the Governor.

This bill would appropriate \$234,000 from the General Fund to the board to pay a claim resulting from county election costs under these provisions.

This bill also would appropriate to the board \$31,700 to pay a specified claim accepted by the board and \$17,279.52 to pay specified victim compensation claims.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 339 (SB 491) Alquist State Alzheimer's Disease and Related Disorders Advisory Committee.

Existing law requires the State Department of Public Health to implement and administer various health promotion and preventative health services for older adults, as defined, in the state.

Existing law establishes the Alzheimer's Disease and Related Disorders Advisory Committee in the California Health and Human Services Agency. Existing law requires the committee to be composed of 12 members.

This bill would increase the committee's membership to 14 by adding 2 members who have been diagnosed with Alzheimer's disease, to serve one-year terms.

This bill would require the committee to collaborate with a broad range of stakeholders, and to review current state policies and practices concerning treatment for Alzheimer's disease, and to develop specified recommendations relating to Alzheimer's care in the state.

Ch. 340 (SB 580) Calderon Pawnbrokers.

Existing law authorizes a pawnbroker to charge or receive compensation at a rate not exceeding specified amounts based upon the unpaid principal balance of the loan, but at least \$1 per month. Existing law also limits the loan setup fees a pawnbroker may charge. A knowing violation of the laws regulating pawnbrokers is a crime.

This bill would increase that minimum charge to \$3 per month. The bill would also prohibit the loan setup fee from exceeding \$5 or 2%, whichever is greater, for each loan and from exceeding \$10.

Because a knowing violation of this bill's provisions would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 341 (SB 593) Margett Department of Transportation: retention proceeds.

Existing law contains various provisions relating to contracts for the performance of public works of improvement, including provisions for the disbursing and withholding of retention proceeds.

This bill would prohibit the Department of Transportation from withholding retention proceeds when making progress payments for work performed by a contractor.

This bill would provide for the repeal of these provisions on January 1, 2014.

Ch. 342 (SB 780) Wiggins Telecommunications: universal service.

(1) Existing law authorizes the Public Utilities Commission to supervise and regulate every public utility in the state, including telephone corporations, and to fix just and reasonable rates and charges for the public utility. Existing law establishes the California High-Cost Fund-A Administrative Committee Fund (CHCF-A) and the California High-Cost Fund-B Administrative Committee Fund (CHCF-B) in the State Treasury, and requires that moneys in the funds are the proceeds of rates and are held in trust for the benefit of ratepayers and to compensate telephone corporations for their costs of providing universal service and may be expended only to accomplish specified telecommunications universal service programs, upon appropriation in the annual Budget Act or upon supplemental appropriation.

Existing law requires the commission, until January 1, 2009, to develop, implement, and maintain the following: (a) a suitable program to establish a fair and equitable local rate structure aided by transfer payments to small independent telephone corporations serving rural and small metropolitan areas; and (b) a suitable, competitively neutral, and broadbased program to establish a fair and equitable local rate support structure aided by transfer payments to telephone corporations serving areas where the cost of providing services exceeds rates charged by providers, as determined by the commission. Existing law requires the commission to structure the programs so that any charge imposed to promote the goals of universal service reasonably equals the value of the benefits of universal service to contributing entities and their subscribers. Existing law requires the commission to investigate reducing the level of universal service rate support, or eliminating universal service rate support, in service areas with demonstrated competition.

This bill would require the commission to develop, implement, and maintain the above-described programs until January 1, 2012, but would provide that the program requirements only apply to the CHCF-B. The bill would require the commission, by July 1,

2010, to prepare and submit to the Legislature a report on the affordability of basic telephone service in areas funded by the CHCF-B.

The bill also would require the commission, until January 1, 2013, to develop, implement, and maintain a suitable program to establish a fair and equitable local rate structure aided by universal service rate support to small independent telephone corporations that serve rural areas and are subject to rate of return regulation by the commission.

Under existing law, a violation of the Public Utilities Act or an order or direction of the commission is a crime.

Because the programs extended under the provisions of this bill are within the act and a decision or order of the commission implements the requirements of the programs, a violation of these provisions would impose a state-mandated local program by creating a new crime.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 343 (SB 1016) Wiggins Diversion: compliance: per capita disposal rate.

(1) The California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, requires each city, county, and regional agency, if any, to develop a source reduction and recycling element of an integrated waste management plan containing specified components. Those entities are required to divert, from disposal or transformation, 50% of the solid waste through source reduction, recycling, and composting subject to the element, except as specified. A city, county, or regional agency is required to submit an annual report to the board summarizing its progress in reducing solid waste. Existing law requires the board to review, at least once every 2 years, a jurisdiction's source reduction and recycling element and household hazardous waste element. The board is required to issue an order of compliance if the board finds that a jurisdiction has failed to implement its source reduction and recycling element or its household hazardous waste element, pursuant to a specified procedure. If, after issuing an order of compliance, the board finds the city, county, or regional agency has failed to make a good faith effort to implement those elements, the board is authorized to impose administrative civil penalties upon the city, county, or regional agency.

This bill would define the terms "diversion program," "jurisdiction," and "multicounty regional agency," for purposes of the act and would revise the definitions of the terms "rural city" and "rural county." The bill would delete the condition that the solid waste subject to source reduction, recycling, and composting under these provisions be diverted from landfill disposal or transformation.

The bill would repeal the board's existing 2-year process. The bill would instead require the board to make a finding whether each jurisdiction was in compliance with the act's diversion requirements for calendar year 2006 and to determine compliance for the 2007 calendar year, and after, based on the jurisdiction's change in its per capita disposal rate. The board would be required to review a jurisdiction's compliance with those diversion requirements in accordance with a specified schedule, which would be conditioned upon the board finding that the jurisdiction is in compliance with those requirements or has implemented its source reduction and recycling element and household hazardous waste element.

The bill would require the board to issue an order of compliance if the board finds that the jurisdiction has failed to make a good faith effort to implement its source reduction and recycling element or its household hazardous waste element, pursuant to a specified procedure. The board would be required to comply with certain requirements in making this determination, including considering the extent to which the jurisdiction has maintained its per capita disposal rate.

The bill would repeal this review schedule on January 1, 2018, and, after that date, would require the board to review each jurisdiction's source reduction and recycling element and household hazardous waste element at least once every 2 years.

The bill would revise the information required to be included in the jurisdiction's annual report to the board and would require the report to be submitted to the board electronically. The bill would make conforming changes regarding the compliance order and related enforcement provisions. The bill would impose a state-mandated local program by imposing new duties upon local agencies.

(2) Existing law requires each state agency, as defined, to develop and adopt, in consultation with the board, an integrated waste management plan. Each state agency and large state facility is required to divert at least 50% of the solid waste generated by the state agency or large state facility from landfill disposal or transformation facilities. "State agency" is defined, for purposes of these requirements to include the California Community Colleges.

This bill would require the board to determine if a state agency or large state facility is in compliance with the 50% diversion requirement by comparing the annual per capita disposal rate of the state agency or large state facility with the per capita disposal rate that would be necessary to comply with the 50% diversion requirement. The board would be authorized to consider an agency's or facility's per capita disposal rate as a factor in determining whether the agency or facility is adequately implementing its integrated waste management plan.

The bill would require a community college district to give first priority in the expenditure of the revenues derived from the sale of recyclable materials resulting from implementation of the district's integrated waste management plan for the purposes of offsetting recycling program costs and to expend all cost savings that result from implementation of the district's integrated waste management plan to fund the continued implementation of the plan. A community college district would be required to provide information to the board annually, on the quantities of recyclable materials collected for recycling, according to a schedule determined by the board and the district. The bill would impose a state-mandated local program by imposing new duties upon community colleges.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 344 (SB 1145) Machado State Compensation Insurance Fund.

Existing law provides for the existence of the State Compensation Insurance Fund to be administered by a board of directors for the purpose of transacting workers' compensation insurance, and insurance against the expense of defending any suit for serious and willful misconduct, against an employer or his or her agent, and insurance to employees and other persons of the compensation fixed by the workers' compensation laws for employees and their dependents.

Existing law establishes the Bagley-Keene Open Meeting Act, which generally provides for open meetings of state bodies, and the California Public Records Act, which generally requires that government records be available for inspection by the public, with specified exceptions. Other provisions of existing law exempt the board of directors of the fund from the application of the 2 acts.

This bill would repeal those exemptions, would specify that both the Bagley-Keene Open Meeting Act and the California Public Records Act apply to the fund, and would make conforming changes. The bill would specify that, notwithstanding the open meeting and public record requirements, specified information would not be subject to open meetings or public disclosure.

Existing law provides that the board of directors shall appoint a president of the fund and fix his or her salary, and provides that the president shall manage and conduct the business

and affairs of the fund under the general direction and subject to the approval of the board of directors, and shall perform other duties as the board of directors prescribes.

This bill would provide that the board of directors shall appoint a president, a chief financial officer, a chief operating officer, a chief information technology officer, a chief investment officer, a chief risk officer, and a general counsel. It would provide that the board of directors shall set the salary for each position. The positions would not be subject to otherwise applicable provisions of the Government Code and the Public Contract Code, and for those purposes, the fund would not be considered a state agency or other public entity. The bill would further provide that the president shall manage and conduct the business and affairs of the fund under the general direction and subject to the approval of the board of directors, and shall perform other duties as the board of directors prescribes. The bill would provide that the Milton Marks Postgovernment Employment Restrictions Act of 1990 applies to the fund.

This bill would incorporate additional changes in Section 6254 of the Government Code proposed by AB 2810 and AB 38, to be operative if this bill and one or both of the other bills are chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 345 (SB 1146) Cedillo Tax administration: disclosure of information: Franchise Tax Board and cities.

Existing income tax laws authorize tax officials of a political subdivision of the state to request information from the Franchise Tax Board by using an affidavit, as provided. Existing law also authorizes the Franchise Tax Board, until December 31, 2011, to disclose to tax officials of any city that executed an agreement with the Franchise Tax Board, subject to certain specified requirements, a taxpayer's name, address, social security or taxpayer identification number, and business activity code, as provided, but limits the use of that information to employees of the taxing authority of a city.

This bill would revise those provisions by extending that repeal date to January 1, 2014, by authorizing a city that has entered into a reciprocal agreement, as defined, with the Franchise Tax Board to exchange tax information, as provided, and by allowing a city to request any other information from the Franchise Tax Board by using an affidavit, as provided.

This bill would, with a specified exception, require cities to annually furnish to the Franchise Tax Board, upon request of the Franchise Tax Board, specified information that is collected in the course of administration of the city's business tax program, as described, and would repeal these provisions on January 1, 2014. By imposing additional duties on local agencies, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that reimbursement for these costs shall be provided for at a specified rate in the annual Budget Act beginning in the 2009–10 fiscal year and each fiscal year thereafter. This bill would also provide that, if the Commission on State Mandates determines that the costs to local agencies exceed the specified rate, the provisions of the bill shall be repealed or if a California court of appellate jurisdiction determines that the costs to local agencies exceed the specified rate, the provisions of the bill shall be repealed.

Ch. 346 (SB 1162) Maldonado Hard plastic knuckles.

Existing law makes it an offense for any person who commercially manufactures or causes to be commercially manufactured, or who knowingly imports into the state for commercial sale, keeps for commercial sale, or offers or exposes for commercial sale, any hard plastic knuckles, as defined.

This bill would expand those provisions to include hard wooden knuckles, as defined.

By expanding the scope of an existing offense, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 347 (SB 1184) Kuehl Public health.

Existing law prohibits the transfer of any tissues, as defined, into the body of another person by means of transplantation, unless the donor of the tissues has been screened and found nonreactive for evidence of infection with human immunodeficiency virus (HIV), agents of viral hepatitis (HBV and HCV), human T lymphotropic virus-1 (HTLV-1), and syphilis, except as provided.

Existing law requires that all donors of sperm be screened and found nonreactive under the above provisions, except as provided. Existing law further requires the physician providing insemination or advanced reproductive technologies to, among other things, provide, as appropriate, antiretroviral treatment to a donor who tests reactive for HIV or HTLV-1, as prescribed.

This bill would, instead, require a physician providing insemination or advanced reproductive technologies to, among other things, verify, and document in the recipient's medical record, that the donor of sperm who tests reactive for HIV or HTLV-1 is under the care of a physician managing the HIV or HTLV-1 to minimize the risk of transmission during the course of insemination or advanced reproductive technology services.

Existing law requires health care providers and laboratories to report cases of HIV infection to local public health officers using patient names. Local health officers are required to report unduplicated HIV cases by patient name to the State Department of Public Health.

This bill would require each clinical laboratory to report all CD4+ T-Cell test results, as defined, to the local health officer within 7 days of the completion of the CD4+ T-Cell test. If a CD4+ T-Cell test result is related to a case of HIV infection, the local health officer would be required to report the case of HIV infection or AIDS to the department within 45 days of receipt of the laboratory report. By increasing the duties of local officials, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 348 (SB 1211) Harman Alcoholic beverage control: caterer's permits.

The Alcoholic Beverage Control Act provides for the issuance of licenses for which various annual fees are charged depending upon the type of license issued. The act authorizes the issuance of a caterer's permit, upon application to the Department of Alcoholic Beverage Control, to any licensee under an on-sale general license, a club license, or a veterans' club license authorizing the sale of alcoholic beverages at specified locations and events.

This bill would authorize the issuance of a caterer's permit to any licensee under an on-sale beer and wine license, authorizing the sale of beer and wine at specified locations and events.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 349 (SB 1233) Harman Property tax: change in ownership: administration.

The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, “full cash value” is defined as the assessor’s valuation of real property as shown on the 1975–76 tax bill under “full cash value” or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. The California Constitution excludes from a “change in ownership” specified property transfers of a principal residence and the first \$1,000,000 of the value of other real property between parents and their children, as defined by the Legislature. Existing law requires those seeking this exclusion to file a claim within specified times.

This bill would require, upon written notification by the county assessor of potential eligibility for exclusion, a transferee eligible for the exclusion to file a certified claim for exclusion within the time specified in the notice. This bill would authorize the assessor, if a certified claim for exclusion is not filed within the time specified in the notice, to send a 2nd notice of potential eligibility for exclusion, notifying the transferee that a certified claim has not been received and that reassessment of the property will commence, as specified. This bill would provide that if the eligible transferee fails to timely file the claim and subsequently qualifies for exclusion, the assessor may require the eligible transferee to be subject to a one-time processing fee, as specified.

Ch. 350 (SB 1262) Cogdill Sport fishing: fish hatcheries: trout.

Existing law requires 33<sup>1</sup>/<sub>3</sub>% of the fees derived from the issuance of sport fishing licenses, with certain exceptions, to be deposited into the Hatchery and Inland Fisheries Fund within the State Treasury. Moneys in the fund may be expended, upon appropriation, in support of Department of Fish and Game programs related to the management, maintenance, and capital improvement of California’s fish hatcheries, the Heritage and Wild Trout Program, enforcement activities, and other activities eligible to be funded from revenue generated by sport fishing license fees.

Existing law also requires the sport fishing license fees subject to appropriation to be used, among other things, to attain state fish hatchery production goals relating to the release of trout, measured in pounds of released trout per sport fishing license. Existing law requires the department, by July 1, 2011, and according to a specified schedule, to ensure that 25% of the fish produced by state fish hatcheries are used for the purpose of initiating and managing the restoration of naturally indigenous stocks of trout to their original California source watersheds. Existing law requires the department to report to the Legislature on the implementation of these provisions on an annual basis.

This bill would require, instead, that the department, by January 1, 2012, ensure that the numbers of native California trout, as defined, produced are sufficient to equal or exceed 25% of the numbers of trout produced by the state fish hatcheries to comply with those existing goals for pounds of released trout. The bill would require that native trout produced be naturally indigenous stocks from their original source watersheds, but would authorize the release of native trout into watersheds other than their original source watershed if the released trout will cause no harm to other native trout in their original watersheds. The bill would exclude certain fish produced for mitigation purposes from the computation of the restoration goals.

Ch. 351 (SB 1279) Maldonado Insurance: electronic records.

Existing law provides that the county clerk of any county shall, upon request of any person, issue a certificate stating the status of the certificate of authority of an admitted surety insurer, as specified.

This bill would provide that upon review of the Internet Web site of the department, the county clerk of any county shall, upon request of any person, issue a certificate stating whether a surety is admitted or stating the status of the certificate of authority of an admitted

surety insurer, as specified. By imposing a duty on a county official, this bill would impose a state-mandated local program.

Existing law provides that, if an objection is made to the sufficiency of an admitted surety insurer, the person making the objection must include in the objection either the certificate of the county clerk of the county in which the court is located stating that the insurer has not been certified by the commissioner as an admitted surety insurer or that the certificate of authority of the insurer has been impaired, as specified, or an affidavit stating facts that establish the insufficiency.

This bill would provide that the certificate of the county clerk included in the objection shall state that the insurer is not listed as an admitted surety insurer on the department's Internet Web site, or that the certificate of authority of the insurer has been impaired, as specified.

Existing law requires certain annual and quarterly statements to be filed in triplicate, by the insurer, with the office of the Department of Insurance in Los Angeles, as specified.

This bill would repeal that provision.

Existing law provides that the commissioner shall certify and provide to the county clerks specified information concerning various types of bail agents and admitted surety insurers. Upon change of status, as specified, of any license or certificate of authority of one of these agents or insurers, the commissioner is required to notify the respective county clerks. Existing law requires county clerks to maintain these records for 2 years, after which they may be destroyed, as specified.

This bill would eliminate these existing obligations of the commissioner to certify and provide this information, and of county clerks to maintain these records, and would instead require the commissioner to publish and maintain a list of these various bail agents and admitted surety insurers on the department's Web site with specified information. Upon change of status of any license or certificate of authority, the commissioner would be required to update the department's public Web site. This bill would also make conforming changes.

Existing law specifies the powers and duties of the Insurance Commissioner and requires that certain records be maintained by the department, as specified.

This bill would provide that notwithstanding any other provision of law, the commissioner may accept and maintain records in electronic form, process transactions electronically, and adopt regulations regarding these functions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 352 (SB 1406) Correa Optometry.

Existing law, the Optometry Practice Act, creates the State Board of Optometry, which licenses optometrists and regulates their practice. The act defines the practice of optometry as including the prevention and diagnosis of disorders and dysfunctions of the visual system, and the treatment and management of certain disorders and dysfunctions of the visual system. The act also prescribes certain eye or eye appendage conditions which an optometrist who is certified to use therapeutic pharmaceutical agents may diagnose and treat, as specified and subject to certain limitations, and requires additional certification for the performance of primary open-angle glaucoma and lacrimal irrigation and dilation procedures, respectively.

This bill would revise and recast those provisions to further allow an optometrist who is certified to use therapeutic pharmaceutical agents to, among others, treat glaucoma, as defined, under specified certification standards, order X-rays necessary for the diagnosis of conditions or diseases of the eye or adnexa, perform venipuncture for testing patients suspected of having diabetes, administer oral fluorescein to patients suspected of having diabetic retinopathy, prescribe lenses or devices that incorporate a medication or therapy the

optometrist is certified to prescribe or provide, and use specified instruments within the central 3 millimeters of the cornea. The bill would further allow an optometrist who graduated from an accredited school of optometry on or after May 1, 2000, to perform lacrimal irrigation and dilation procedures without additional certification. The bill would also make other changes with regard to the circumstances under which an ophthalmologist or an appropriate physician and surgeon is required to be consulted with, or patients referred to, and to certain age requirements related to treatment or diagnosis, as specified. The bill would further make a conforming change to a related provision.

Until January 1, 2010, this bill would also provide for a Glaucoma Diagnosis and Treatment Advisory Committee to consist of 6 members appointed by the State Board of Optometry for purposes of establishing certain requirements for glaucoma certification. The bill would require the committee to submit its final recommendations to the Office of Examination Resources of the Department of Consumer Affairs by April 1, 2009, would require the office to present its findings and any modifications thereof to the board by July 1, 2009, and require the board to adopt the office's findings by January 1, 2010.

#### Ch. 353 (SB 1472) Ashburn Public employment.

Existing law establishes a state civil service system that includes career executive assignments. Career executive assignments are appointments to a high administrative and policy influencing position within the state civil service in which the incumbent's primary responsibility is the managing of a major function or the rendering of management advice to top-level administrative authority.

This bill would, until January 1, 2013, expand the category of persons eligible for a career executive assignment to include those persons who previously had permanent status in the civil service and those who, for 2 or more consecutive years, were either employed by the Legislature or held nonelected exempt positions in the executive branch, as specified. The bill would require a state entity that employs a person in a career executive assignment to notify the Controller of this person's employment status and would require the Controller to forward this information to the State Personnel Board.

Existing law provides that those persons who, for 2 or more consecutive years, were either employed by the Legislature or held nonelected exempt positions in the executive branch, and who resigned or were released from service, are eligible to apply for promotional civil service examinations, including examinations for career executive assignments, for which they meet the minimum qualifications as prescribed by the class specification, for one year following their resignation or release, as specified.

This bill would, until January 1, 2013, eliminate that one year time limit for eligibility for examinations for career executive assignments for those persons.

The bill would provide the means for calculating the final compensation of persons who are appointed to certain career executive assignments who previously had, but do not currently have, permanent civil service status, certain persons employed by the Legislature, and certain persons holding nonelected exempt positions in the executive branch for the purposes of any pension or benefits with respect to benefits based on service with the state, as specified.

The bill would also require the State Personnel Board to report to the Legislature by January 1, 2012, with a summary of specified career executive assignment hires. The bill would require a state entity hiring specified persons in career executive assignments to provide information to the Controller and would require the Controller to forward information to the State Personnel Board and the Public Employees' Retirement System.

#### Ch. 354 (SB 1502) Steinberg Amyotrophic lateral sclerosis (ALS).

Existing law contains various provisions relating to the administration of personal income taxes allowing individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds.

This bill would allow taxpayers to designate on their tax returns that a specified amount in excess of their tax liability be transferred to the ALS/Lou Gehrig's Disease Research Fund, which would be created by this bill.

This bill would provide that all money contributed to the fund pursuant to these provisions would be subject to appropriation by the Legislature, as specified.

This bill would provide that these voluntary contribution provisions are repealed on January 1, 2013, or for the taxable year beginning on or after January 1 of the calendar year in which the Franchise Tax Board estimates, by September 1, that the contributions made on returns filed in that calendar year will be less than a minimum contribution amount, whichever occurs first.

Ch. 355 (SB 1537) Kehoe Disaster assistance: 2007 southern California wildfires.

Under existing law, the California Disaster Assistance Act, the state share for eligible project costs is no more than 75% of total state eligible costs, and for specific incidents, the state share is up to 100% of total eligible state costs.

This bill would include, as eligible for 100% state share, the wildfires that occurred in southern California commencing on or about October 20, 2007, as specified in agreements between the state and the United States for federal financial assistance. This bill would become effective only if SB 1764 of the 2007–08 Regular Session is enacted.

Ch. 356 (SB 1562) Hollingsworth Property taxation: exemption: fruit-bearing and nut-bearing trees and grapevines: freeze, wildfire, and wind relief.

The California Constitution exempts from property taxation fruit and nut trees until 4 years after the season in which they were planted in orchard form and grapevines until 3 years after the season in which they were planted in vineyard form. Existing statutory law implementing these exemptions specifies that any fruit-bearing or nut-bearing tree or any grapevine that was severely damaged during the exemption period by the December 1990 freeze, or any fruit-bearing or nut-bearing tree that was severely damaged during the exemption period by the December 1998 or January 2007 freeze so as to require pruning to the trunk or bud union to establish a new shoot as a replacement for the damaged tree or grapevine, is to be considered a new planting in orchard form.

This bill would modify this statutory provision to also apply to any fruit-bearing or nut-bearing tree or any grapevine that was similarly damaged by the extremely strong and damaging winds that commenced on October 20, 2007, and by the wildfires that commenced on October 21, 2007, that were the subject of the Governor's proclamations of a state of emergency.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

This bill would take effect immediately as a tax levy.

Ch. 357 (SB 1613) Margett Department of Transportation: contracts.

Existing law generally requires contracts for public works to be awarded pursuant to various procedures in the State Contract Act. Existing law exempts certain types of contracts awarded by the Department of Transportation from the State Contract Act, including contracts for major damage mitigation, equipment leasing or renting, and removal or relocation of structures or improvements on highway rights-of-way. These exempt contracts are generally required to be awarded to the lowest responsible bidder after competitive bidding on any reasonable notice prescribed by the department, but only if the estimated

amount of the contract exceeds \$2,500. Exempt contracts up to and including \$2,500 are not subject to those alternative bidding procedures.

This bill would provide that exempt contracts up to and including \$25,000 for the leasing or renting of operated heavy highway equipment for state highway maintenance purposes are also not subject to those alternative bidding procedures.

**Ch. 358 (AB 2810) Brownley Human trafficking.**

Existing law defines human trafficking as the deprivation of the personal liberty of another person with the intent to effect a specified sex crime or to obtain forced labor or services, as specified.

This bill would require law enforcement to use due diligence to identify all victims of human trafficking, regardless of citizenship, and would provide specific indicators of human trafficking. This bill would also provide that a victim of human trafficking could request, and upon that request require, that his or her name not become a matter of public record, as specified.

Because this bill would impose additional duties on local officials, it would impose a state-mandated local program.

This bill would incorporate additional changes in Section 6254 of the Government Code proposed by SB 1145 and AB 38, to be operative if this bill and one or both of the other bills are chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

This bill would incorporate additional changes in Section 293 of the Penal Code, proposed by AB 3038, to be operative only if AB 3038 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

**Ch. 359 (AB 499) Swanson Commercially sexually exploited minors.**

Existing law declares the findings of the Legislature that there is a need to develop programs to ameliorate, reduce, and ultimately eliminate the trauma of child sexual abuse, and that, for the purposes of developing and providing these programs and services, and for the training of, and providing information to, city and county personnel throughout the state, it is necessary to expand specified services.

This bill would, until January 1, 2012, authorize the District Attorney of Alameda County to create a pilot project, contingent upon local funding, for the purposes of developing a comprehensive, replicative, multidisciplinary model to address the needs and effective treatment of commercially sexually exploited minors, as specified. The bill would authorize the District Attorney of Alameda County, as part of the pilot project, to develop protocols for identifying and assessing minors, upon arrest or detention by law enforcement, who may be victims of commercial sexual exploitation, and to develop a diversion program reflecting the best practices to address the needs and requirements of those minors. The district attorney would also be authorized to develop, offer, and provide a training curriculum that would provide training for certain county employees on the commercial sexual exploitation of minors in Alameda County, as specified.

**Ch. 360 (SB 1213) Ducheny Mobile health care units: site reporting requirements.**

Existing law establishes the Mobile Health Care Services Act under which the State Department of Public Health regulates the operation of a mobile unit, as defined, as an

adjunct to a licensed parent health facility or clinic, an independent-freestanding clinic, or another type of approved mobile unit.

Existing law provides that a mobile unit shall not operate at any site, unless the site has been reported by the licensee to the department at least 15 days before the mobile unit's first visit to the site. Existing law also provides that prior to the operation of a mobile unit at any site for the first time, the licensee shall report the site to local authorities for purposes of obtaining approvals as provided under the above provisions.

This bill would eliminate these reporting requirements. The bill would, instead, require that the licensee of a mobile unit operating at a new site report the location of the site to the department at least 24 hours prior to the operation at the site unless this requirement is waived, as specified.

Ch. 361 (AB 2327) Caballero Emergency services: humanitarian and relief services.

Existing law, the California Emergency Services Act, creates the Office of Emergency Services in the office of the Governor. Under the act, the Director of Emergency Services is required to coordinate the emergency services of all state agencies in connection with emergencies, and the office is required to establish a standardized emergency management system for use by all emergency response agencies. Existing law requires state entities and employees to render all possible assistance to the director and cooperate with each other and other specified relief agencies.

This bill would require all entities providing disaster-related services and assistance to strive to ensure that victims receive the assistance they need and are eligible to receive, and would require public employees to provide assistance without eliciting information or documents that are not strictly necessary to determine eligibility under state or federal law.

Ch. 362 (SB 1227) Hollingsworth Disaster assistance: emergencies.

Existing law, the California Disaster Assistance Act, establishes, until January 1, 2009, the Disaster Response-Emergency Operations Account in the Special Fund for Economic Uncertainties and continuously appropriates its revenue for allocation by the Director of Finance to state agencies for disaster response operation costs incurred by state agencies as a result of a proclamation by the Governor of a state of emergency.

This bill would extend the termination date for these provisions until January 1, 2014, and would thereby make an appropriation by extending the time during which funds may be continuously appropriated from the account.

The bill would also preclude expenditure of funds in this account for conditions in the state's prisons, medical facilities, or youth correctional facilities resulting solely from the action or inaction of the Department of Corrections and Rehabilitation in administering those facilities.

Ch. 363 (AB 2796) Nava Office of Emergency Services: statewide registry.

The California Emergency Services Act authorizes the Office of Emergency Services to include private businesses and nonprofit organizations within its responsibilities to prepare the state for emergencies and disasters. The act provides certain registered volunteers and individuals impressed into service during a state of war emergency, a state of emergency, or a local emergency with specified legal immunities. Violation of the provisions of the act is punishable as a misdemeanor. Existing law prohibits certain entities from being held civilly liable for civil damages alleged to have resulted from specified emergency medical services training.

This bill would authorize the office to establish a statewide registry of private businesses and nonprofit organizations that are interested in donating, under certain conditions, services, goods, labor, equipment, resources, or dispensaries or other facilities to prepare the state for emergencies and disasters, and would impose certain duties on these entities in this

regard. By making these entities subject to a criminal penalty for violation of the act, this bill would impose a state-mandated local program. This bill would relieve a private business or nonprofit organization included on the statewide registry from civil liability for a death, injury, illness, or other damage to a person or property caused by its donation of services, goods, labor, equipment, resources, or dispensaries or other facilities during a declared state of war, state of emergency, or state of local emergency, except for liability caused by its grossly negligent act or omission, or willful or wanton misconduct. This bill would also prohibit a private business or nonprofit organization included on the statewide registry from being held civilly liable for civil damages alleged to have resulted from specified emergency medical services training.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 364 (AB 3075) Committee on Governmental Organization Office of Emergency Services: firefighting apparatus and equipment.

Existing law authorizes the Office of Emergency Services to contract with a local agency that serves a rural area for the resale of new or used firefighting apparatus and equipment, and specifies certain contract terms.

This bill would require the office to give first priority for the sale of new or used firefighting apparatus and equipment to a local agency that serves a rural area, and to give 2nd priority for the sale of new or used firefighting apparatus and equipment to any local agency. The bill also would allow the office to sell the apparatus and equipment to public agencies outside California, the federal government, and Indian tribes, under certain circumstances. The bill would also make various technical, nonsubstantive changes.

Ch. 365 (AB 2859) Gaines Public resources: fire prevention and control: forest protection.

(1) Existing law, the Z'berg-Nejedly Forest Practice Act of 1973, is intended to create and maintain an effective and comprehensive system of regulation and use of all timberlands to ensure, among other things, that productivity of timberlands is restored, enhanced, and maintained, where feasible. The act defines timber operations to mean the cutting or removal, or both, of timber or other solid wood forest products, including Christmas trees, from timberlands for commercial purposes, together with all the incidental work, including, but not limited to, construction and maintenance of roads, fuelbreaks, firebreaks, stream crossings, landings, skid trails, and beds for the falling of trees, fire hazard abatement, and site preparation that involves the disturbance of soil or burning of vegetation following timber harvesting activities conducted after a certain date, but excludes preparatory work such as treemarking, surveying, or roadflagging.

This bill would exclude from the definition of timber operations the removal of certain size trees from firebreaks and fuelbreaks that meet specified criteria, including that the project and project-based review for projects on forested landscapes be prepared by or in consultation with a registered professional forester.

(2) Existing law requires owners of timber or timberlands to control or eradicate insect pests and plant diseases on lands they own or control. Whenever the Director of Forestry and Fire Protection determines that an area is infested or infected with insect pests or plant diseases injurious to timber or forest growth and the infestation is a menace to adjacent owners' timber or timberland, the director, with approval of the State Board of Forestry and Fire Protection, is authorized to declare a zone of infestation or infection, and the department may go upon state or private lands, within the zone. The department is required to eradicate or control the infestation or infection in a manner approved by the board.

The bill would set parameters authorizing the department to take certain preventative actions within a zone of infestation or infection.

Ch. 366 (SB 1595) Kehoe Public resources: fire protection: fuels management: forest protection.

(1) Existing law requires that a person who owns, leases, controls, operates, or maintains an occupied dwelling or occupied structure in, upon, or adjoining a mountainous area, forest-covered lands, brush-covered lands, grass-covered lands, or land that is covered with flammable material that is within a very high fire hazard severity zone, as designated by a local agency, maintain at all times a firebreak by removing all brush, flammable vegetation, or other combustible growth for a prescribed number of feet from the occupied dwelling or occupied structure, with exceptions, as well as take other required fire prevention actions.

A person who owns, leases, controls, operates, or maintains a building or structure in, upon, or adjoining a mountainous area, forest-covered lands, brush-covered lands, grass-covered lands, or land that is covered with flammable material, within a state responsibility area, is required to maintain at all times a firebreak by removing all brush, flammable vegetation, or other combustible growth for a prescribed number of feet from the dwelling or structure, with exceptions, as well as taking other required fire prevention actions. A violation of these provisions is a crime.

This bill would change these brush clearance requirements to instead require that defensible space, as prescribed, be maintained within a certain number of feet from the above-described dwellings, buildings, or structures. The bill would require the Department of Forestry and Fire Protection to develop, periodically update, and post on its Internet Web site a guidance document on fuels management.

Because this bill would change the definition of a crime, it would impose a state-mandated local program.

This bill would add to the criteria under which the Director of Forestry and Fire Protection designates an area as a very high fire hazard severity zone. The bill would also define various terms for purposes of these provisions and revise legislative findings and declarations concerning fire risks and site fuel management.

(2) This bill would make conforming changes and delete obsolete provisions.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 367 (SB 1668) Migden State Fire Marshal: fire and panic safety requirements.

Existing law requires the State Fire Marshal, with the advice of the State Board of Fire Services, to prepare, adopt, and submit building standards for approval, as specified, and to prepare and adopt other regulations establishing minimum requirements for the prevention of fire, and for the protection of life and property against fire and panic, in any building or structure used or intended for use as an asylum, jail, mental hospital, hospital, home for the elderly, children's nursery, children's home or institution, as specified, school, or any similar occupancy of any capacity, and in any assembly occupancy where 50 or more persons may gather together in a building, room, or structure for the purpose of amusement, entertainment, instruction, deliberation, worship, drinking or dining, awaiting transportation, or education.

This bill would require the State Fire Marshal to prepare and adopt regulations establishing minimum requirements for the prevention of fire, and for the protection of life and property against fire and panic, for any laboratory or research and development facility that stores, handles, or uses regulated hazardous materials.

Ch. 368 (AB 2742) Furutani Firefighting equipment: leased or rented.

(1) Existing law authorizes the Department of Motor Vehicles to issue a restricted driver's license for the appropriate class of vehicle to a firefighter for the operation of firefighting equipment. Existing law defines firefighting equipment as a motor vehicle used to travel to and from the scene of any emergency situation, or to transport equipment used in the control of any emergency situation, and that is owned by, or under the exclusive control of, a federal or state agency, a regularly organized fire department of a city, county, city and county, or district, or a volunteer fire department having official recognition of the city, county, city and county, or district in which the fire department is located.

This bill would add firefighting equipment that is leased or rented to this definition.

(2) Existing law requires motor carriers and drivers to comply with federal requirements relating to, among other things, controlled substances and alcohol use and testing for the same. Existing law prohibits an applicant for employment as a commercial driver from being placed on duty by the motor carrier until compliance with certain federal regulations concerning controlled substance and alcohol use and employment history has occurred, as specified. A violation of these provisions is a misdemeanor.

Existing law exempts a peace officer, as defined, who is authorized to drive specified vehicles if the peace officer is participating in a substance abuse detection program within the scope of his or her employment.

This bill would also exempt firefighters who are operating firefighting equipment if the firefighter is participating in a substance abuse detection program within the scope of his or her employment.

#### Ch. 369 (AB 1844) Hernandez Public employee benefits.

(1) Existing law provides that it is a crime to make a knowingly false material statement or representation for the purpose of obtaining workers' compensation, or supporting or denying a workers' compensation claim. The Public Employees' Retirement Law, the Teachers' Retirement Law, and the County Employees Retirement Law of 1937 prescribe the rights, benefits, and duties of members of the retirement systems established by those laws.

This bill would make it a crime for a person to make or present false material statements and representations in connection with those retirement systems' benefits and applications, as specified, or to aid or abet someone in this regard. The bill would also make it a crime for a person to knowingly accept, with the intent to keep for personal benefit, a payment from any of those retirement systems with the knowledge that he or she was not entitled to the benefit. The bill would provide that a violation of these provisions is punishable by up to one year in a county jail, or a fine, or both, and restitution, as specified. The bill would require any restitution order imposed to be satisfied before any criminal fine imposed may be collected, and would further provide that its provisions are cumulative. By creating a new crime or expanding an existing crime, the bill would create a state-mandated local program.

(2) Existing law requires an insurer, upon written request of an authorized governmental agency, as defined, to release to the agency all relevant information deemed important to the agency that the insurer may possess relating to any specific workers' compensation insurance fraud investigation.

This bill would authorize the Public Employees' Retirement System to obtain information from an insurer for purposes of determining the eligibility of a member, or unlawful application or receipt of benefits, under the Public Employees' Retirement System, and would add the Public Employees' Retirement System to the list of authorized governmental agencies to which an insurer is required to release that information, as specified.

(3) Existing law authorizes the Director of the Employment Development Department to permit the use of information in his or her possession for specified purposes.

This bill would additionally authorize the director to release specified information to the Public Employees' Retirement System. The bill would also make nonsubstantive changes.

(4) Existing law requires all state and local retirement systems to secure, not less than triennially, the services of an enrolled actuary, who is to perform a valuation of the system. Existing law requires all state and local public retirement systems to secure the services of a qualified person to perform an attest audit of the system's financial statements and to provide reports in this regard to the Controller. Existing law requires the Controller to review these reports and requires the Controller to publish an annual report on the financial condition of all state and local public retirement systems, as specified.

This bill would require the Controller's report to be published within 12 months of the receipt of the information, and in no case later than 18 months after the end of the fiscal year upon which the information in the report is based.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 370 (AB 2023) Houston Public employee disability benefits.

The Public Employees' Retirement System provides for the granting of disability benefits to members in state service. Existing law generally provides that if a medical examination and other available information show to the satisfaction of the Board of Administration of the Public Employees' Retirement System that a member in state service is incapacitated physically or mentally for the performance of his or her duties and is eligible to retire for disability, the board shall immediately retire him or her for disability. The State Teachers' Retirement System permits the board of administration of the system to authorize payment of a disability allowance or disability retirement allowance, requires a member to provide medical documentation to substantiate the claim qualifying the member for the disability allowance or disability retirement allowance, and permits the board to order a medical examination in this regard, as specified. The County Employees Retirement Law of 1937 permits a member permanently incapacitated for duty to retire for disability only if specified criteria are met. Existing law permits the legislative body of a local agency to establish a pension trust, as specified, for the benefit of its officers and employees and permits that legislative body to establish reciprocal retirement benefits with other specified retirement systems.

This bill would restrict the board or body administering a retirement system or a pension trust, as described above, with respect to the medical opinion or documentation used to determine whether a member is eligible to retire for disability, as specified, and would prohibit the use of disability retirement as a substitute for the disciplinary process.

#### Ch. 371 (SB 1123) Wiggins Public employee benefits.

(1) Existing law requires a state or local retirement system to secure, not less than triennially, the services of an enrolled actuary, who is to perform a valuation of the system. Existing law requires the Legislature and local legislative bodies to secure the services of an enrolled actuary to provide a statement of the actuarial impact upon future annual costs before authorizing increases in public retirement plan benefits. Existing law requires the future annual costs of the public retirement plan benefits, as determined by the actuary, to be made public at a public meeting at least 2 weeks prior to the adoption of any increases in the benefits.

This bill would revise and recast provisions regarding the services of an enrolled actuary and the disclosure of public retirement plan benefits, as described above. The bill would redefine the qualifications of actuaries for these purposes. The bill would include other postretirement benefits, with specified exceptions, within the subject matter of the actuary's statement that is provided before the Legislature or a local legislative body may authorize an increase in benefits. The bill would require the future annual costs of other postemployment benefits to be made public, as specified, and would require local legislative bodies to have

an actuary present to provide information at the meeting where the adoption of a new benefit will be considered, subject to certain exceptions. The bill would prohibit the adoption of any benefit to which its provisions apply by means of a consent calendar. The bill would require, upon the adoption of any benefit change to which its provisions apply, that the person with the responsibilities of a chief executive officer acknowledge in writing that he or she understands the current and future cost of the benefit as determined by the actuary, and would specify that the Director of the Department of Personnel Administration perform this function for the adoption of benefit changes by the state. By increasing the duties of local entities, this bill would impose a state-mandated local program. The bill would except from these provisions a school district or a county office of education and specify that these entities remain subject to other regulations.

The bill would also create the California Actuarial Advisory Panel, which would be required to provide impartial and independent information on pensions, other postemployment benefits, and best practices to public agencies. The bill would specify various responsibilities of the panel, including defining actuarial model policies and best practices for public retirement plan benefits and postemployment benefits, developing pricing and disclosure standards for California public sector benefit improvements, and developing quality control standards for California public sector actuaries. The panel would consist of 8 actuaries who would be appointed by specified entities and parties and who would serve terms of 3 years, except as specified. The bill would provide that the panel be located in the Controller's office, which would be required to provide support staff to the panel. The bill would provide that the opinions of the panel are nonbinding and advisory only and would prohibit the opinions of the panel from being used as the basis of litigation. The bill would require that a member of the panel receive reimbursement for expenses, to be paid by the authority that appointed the member. The bill would require the panel to report to the Legislature on or before February 1 of each year.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 372 (AB 38) Nava State agencies: California Emergency Management Agency.

(1) Existing law provides for the Office of Homeland Security within the office of the Governor. The Governor is required to appoint a Director of Homeland Security to perform specified duties in coordinating all homeland security activities in the state.

The California Emergency Services Act establishes the Office of Emergency Services within the office of the Governor, under the charge of the Director of Emergency Services appointed by the Governor. The act and other existing law set forth the duties and authority of the office and the director with respect to specified emergency preparedness, mitigation, and response activities in the state. Any person who violates any provision of the act or who refuses or willfully neglects to obey any lawful order or regulation promulgated or issued as provided in the act is guilty of a misdemeanor.

This bill would delete the provisions of law governing the Office of Homeland Security, establishing the Office of Emergency Services, and providing for the appointment of their respective directors. It would instead establish, under the provisions of the California Emergency Services Act, the California Emergency Management Agency (Cal EMA), in the office of the Governor, which would succeed to and be vested with the duties, powers, purposes, responsibilities, and jurisdiction vested with the Office of Homeland Security and the Office of Emergency Services. The bill would specify that the agency would be under the supervision of the Secretary of California Emergency Management appointed by the

Governor, who would succeed to and be vested with the duties, powers, purposes, responsibilities, and jurisdiction of the directors of the respective offices. It would additionally set forth the duties and authority of the agency and the secretary with respect to specified homeland security activities in the state. It would make various conforming changes.

By providing for new duties relating to homeland security under the California Emergency Services Act, which imposes a criminal penalty for violation of its provisions, this bill would impose a state-mandated local program by expanding the scope of the act's provisions, the violation of which would be a crime.

(2) The act requires the Office of Emergency Services to develop and complete, by January 2002, a guidance document to the state emergency plan with respect to agriculture-related disasters.

This bill would require the document to be updated by January 2009, and make a conforming change with respect to the name of that office.

(3) Existing law establishes the Emergency Response Team for State Operations, with a specified membership, and sets forth the duties of the team in improving the ability of state agencies to resume operations after specified types of business interruptions.

This bill would repeal these provisions.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(5) This bill would incorporate changes made by AB 2327 that would become operative if both bills are enacted and this bill is enacted after AB 2327.

(6) This bill would incorporate additional changes in Section 6254 of the Government Code proposed by SB 1145 and AB 2810, to be operative if this bill and one or both of the other bills are chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

(7) This bill would incorporate changes made by SB 1056 that would become operative if both bills are enacted and this bill is enacted after SB 1056.

Ch. 373 (SB 286) Lowenthal Transportation enhancement funds: conservation corps.

Existing federal law, as part of the comprehensive surface transportation program, allocates transportation funds to each state for transportation enhancement projects.

This bill, with respect to federal funds made available to the state for transportation enhancement projects, would require the department to develop and transportation planning agencies, county transportation commissions or authorities, and congestion management agencies to utilize criteria that give priority in the selection of these projects to the sponsors of eligible projects that partner with, or commit to employ the services of, a community conservation corps, as defined, or the California Conservation Corps to construct or undertake the project. The bill would authorize these agencies and the Department of Transportation to enter into cooperative agreements, grant agreements, or procurement contracts with community conservation corps pursuant to certain simplified contract requirements. The bill would require the California Transportation Commission, when developing guidelines for the state transportation improvement program and the state highway operations and protection program, to include guidance to encourage the allocation of funds for transportation enhancement projects to community conservation corps and the California Conservation Corps as partners with applicants that commit to employ the services of corps members in the construction of those projects. The bill would make related legislative findings and declarations.

Ch. 374 (SB 187) Ducheny Salton Sea Restoration Fund: restoration project.

The Salton Sea Restoration Act establishes the Salton Sea Restoration Fund administered by the Director of Fish and Game for purposes related to restoring the Salton Sea. The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 provides \$928,000,000 for the protection and restoration of rivers, lakes, and streams, their watersheds and associated land, water, and other natural resources, including \$47,000,000 for deposit into the fund.

This bill would require that, upon appropriation by the Legislature in the annual Budget Act, those bond funds deposited in that fund be expended for a Salton Sea restoration project that is consistent with a preferred alternative that provides the maximum feasible attainment of specified environmental objectives. This bill would limit the activities and expenditures authorized by the bill to funding those activities identified in a specific preferred alternative report and funding plan for completion in the first 5 years of implementation. The bill would require the Resources Agency to act as the lead agency and work cooperatively with designated staff from the Department of Water Resources, the State Air Resources Board, the State Water Resources Control Board, and the Department of Fish and Game. The bill would require the agency to remain the lead agency for implementation, in partnership with one or more of its departments, unless and until legislation is enacted on or after January 1, 2009, establishing a new governance structure for restoration.

Ch. 375 (SB 301) Romero Local government finance.

The Vehicle License Fee (VLF) Law establishes, in lieu of any ad valorem property tax upon vehicles, an annual license fee for any vehicle subject to registration in this state. Under existing law, the Controller is required to allocate VLF revenues in the Motor Vehicle License Fee Account in a specified order to, among others, each city that was incorporated from an unincorporated territory after August 5, 2004, but before July 1, 2009. Existing law also requires cities that were incorporated before August 5, 2004, be allocated additional VLF revenues in an amount determined pursuant to a specified formula. For purposes of this formula, existing law specifies that the population of a city that is incorporated before August 5, 2004, is that city's actual population, as defined, residing in areas annexed after August 5, 2004, but before July 1, 2009.

This bill would delete the requirement that a city be incorporated before July 1, 2009, in order to be allocated VLF revenues. This bill would specify, for purposes of this formula used to determine additional VLF revenues for cities that were incorporated before August 5, 2004, that the city's actual population is the population residing in areas annexed after August 5, 2004.

Existing law, for purposes of these allocations of VLF revenues, establishes a formula to determine the population of a city that was incorporated from an unincorporated territory after August 5, 2004, and before July 1, 2009, and provides that the population of a city that was incorporated from an unincorporated territory after July 1, 2009, shall be its actual population.

This bill would extend indefinitely the formula method used to determine the population of a city that was incorporated from an unincorporated territory after August 5, 2004, and would delete the method for determining the population of a city that was unincorporated from an incorporated territory after July 1, 2009.

Ch. 376 (SB 302) Ducheny Employment Development Department: training expenditures: unemployment insurance: California Workforce Investment Act: local boards.

(1) Existing law authorizes the Employment Development Department to administer various job training and placement programs and services for eligible persons, as provided, and requires that the department, among other things, develop a statewide plan and area plans to coordinate all programs it administers, as specified.

This bill would require the Employment Development Department, in addition to its existing duties and obligations, to report annually to the Governor, the Legislature, and the

California Workforce Investment Board, no later than November 30, regarding the training expenditures made by local workforce investment boards in the prior fiscal year, as provided.

(2) The federal Workforce Investment Act of 1998 provides for workforce investment activities, including activities in which states may participate. Existing law contains various programs for job training and employment investment, including work incentive programs, as specified, and authorizes a local workforce investment board to prepare and submit a unified local plan, with respect to welfare-to-work programs, as specified.

This bill would provide further guidance to the California Workforce Investment Board regarding the development of a strategic workforce plan and would include customized training within the definition of training services provided by the local boards. This bill would restructure and revise those provisions relating to local job training services and would also make technical changes to correct erroneous references.

This bill would authorize the Employment Development Department to establish accounting, monitoring, auditing, and reporting procedures and criteria to ensure compliance with the objectives and requirements of the federal Workforce Investment Act.

This bill would also require the department to adopt, amend, or repeal any rules and regulations necessary to implement the California Workforce Investment Act.

This bill, by imposing additional duties on local governments with respect to the implementation of these local programs, would impose a state-mandated local program.

(3) This bill would incorporate additional changes in Section 14013 of the Unemployment Insurance Code proposed by AB 2998, to be operative only if AB 2998 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 377 (SB 348) Simitian Local government: vehicle fee for congestion and stormwater management.

Existing law provides for the imposition by air districts and other local agencies of fees on the registration of motor vehicles in certain areas of the state that are in addition to the basic vehicle registration fee collected by the Department of Motor Vehicles. Existing law authorizes the City/County Association of Governments of San Mateo County to impose a fee of up to \$4, until January 1, 2009, on motor vehicles registered within San Mateo County for a program for the management of traffic congestion and stormwater pollution within that county.

This bill would provide that the City/County Association of Governments of San Mateo County may reauthorize that fee for a period of 4 years until January 1, 2013, as specified.

Ch. 378 (SB 377) Aanestad Highway signs: pharmacies and attractions.

Existing law requires the Department of Transportation to adopt rules and regulations that allow the placement, near exits on freeways in rural areas, of information signs identifying specific roadside businesses offering fuel, food, lodging, or camping and that prescribe the standards for those signs.

This bill would require the department to additionally adopt rules and regulations governing the placement and standards for signs in those locations relative to approved 24-hour pharmacy services and specified categories of approved attractions.

Ch. 379 (SB 483) Kuehl Medi-Cal: home and facility care.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, and which provides health care services to qualified low-income recipients. Existing law establishes various criteria for eligibility for Medi-Cal

benefits. The Medi-Cal program is partially governed and funded by federal Medicaid provisions.

Under existing law, Medi-Cal benefits include nursing facility services and home- and community-based services.

This bill would, to the extent required by federal law, require any applicant for, or recipient of, Medi-Cal benefits who requests medical assistance for home and facility care, as defined, to meet the specific eligibility requirements for the receipt of medical assistance for home and facility care set forth in these provisions.

The bill would require an individual, as a condition of eligibility for medical assistance for home and facility care, to disclose a description of any interest that the individual or his or her spouse has in an annuity, as specified. The bill would also require the state, as an operation of law, to become a remainder beneficiary of certain annuities, as described, unless the individual notifies the state in writing that he or she prohibits the state from becoming a remainder beneficiary, as provided, and would require the department to inform an individual and his or her spouse of this fact at the time of the individual's application or redetermination of Medi-Cal eligibility. The bill would also require that before any penalties, as provided for in the bill, are imposed that may result in a period of ineligibility for medical assistance for home and facility care, an individual shall have the right to demonstrate that a period of ineligibility would be an undue hardship, as defined. It would require the state to provide notice to individuals requesting medical assistance for home and facility care of the undue hardship exception and would require a determination of whether an undue hardship exists to be made before an applicant is denied eligibility for medical assistance for home and facility care. If an individual or his or her spouse notifies the state in writing that he or she prohibits the state from becoming a remainder beneficiary to his or her annuity, the bill would require the annuity to be treated as a transfer of assets for less than fair market value for purposes of determining Medi-Cal eligibility.

This bill would express the intent of the Legislature that its provisions shall apply prospectively to any individual to whom the bill applies commencing from the date regulations adopted pursuant to this bill are filed with the Secretary of State.

#### Ch. 380 (SB 561) Margett Horse racing: racing days.

Existing law limits an association licensed to conduct thoroughbred racing in the northern zone to 22 weeks of that racing.

This bill would instead allow an association licensed to conduct thoroughbred racing in the northern zone up to 35 weeks of that racing.

Existing law generally limits the maximum number of racing days allocated to a fair to 14 days each year and limits those racing days to the period in which general fair activities are conducted.

This bill would expand the maximum period for racing allocated to a fair to 4 weeks each year and would remove the prohibition on racing outside of the period in which general fair activities are conducted.

Existing law limits the allocation of dates for a combined fair horse racing meeting to between July 1 and October 31, and places a limit on the total combined number of dates allocated for those meetings.

This bill would authorize combined fair horse racing meetings during the month of June, and would delete that limitation on the total combined number of dates for combined fair horse racing meetings.

By expanding the number of racing dates each year, this bill would authorize additional wagering and would increase the amount of continuously appropriated license fees, thereby making an appropriation.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 381 (SB 564) Ridley-Thomas Public School Health Center Support Program.

Existing law requires the State Department of Public Health, in cooperation with the State Department of Education, to establish a Public School Health Center Support Program to perform specified functions relating to the establishment, retention, or expansion of school health centers in California. Existing law, for purposes of those provisions, defines a “school health center” to mean a center or program that provides age-appropriate health care services at the program site or through referrals, and may be located on or at a local educational agency.

This bill would also specify that a “school health center” may conduct routine physical health, mental health, and oral health assessments, and provide for any services not offered onsite or through a referral process.

The bill would require the State Department of Public Health, to the extent funds are appropriated to the department for implementation of the Public School Health Center Support Program, to establish a grant program to provide technical assistance, and funding for the expansion, renovation, and retrofitting of existing school health centers, and the development of new school health centers, in accordance with specified procedures.

#### Ch. 382 (SB 585) Lowenthal Farmworker housing assistance tax credits.

Existing law establishes a low-income housing tax credit program, administered by the California Tax Credit Allocation Committee, which provides procedures and requirements for the allocation of state tax credit amounts among low-income housing projects based on federal law. Existing law also establishes a farmworker housing assistance program and prescribes requirements for claiming tax credits under the program, including a requirement that expenditures upon which the amount of the credit is based shall be eligible costs, as defined, and a limitation on the amount of development fees that may be included as eligible costs.

This bill would, in the case of a partnership, require the allocation of the credits, on or after January 1, 2009, and before January 1, 2016, to partners based upon the partnership agreement, regardless of how the federal low-income housing tax credit, as provided, is allocated to the partners, or whether the allocation of the credit under the terms of the agreement has substantial economic effect, as specified. This bill would make findings and declarations with regard to the public interest served by this credit as proposed to be amended by this bill.

This bill would incorporate specified changes proposed by SB 1247 if both this bill and SB 1247 are chaptered, as provided.

This bill would take effect immediately as a tax levy.

#### Ch. 383 (SB 640) Simitian Government tort claims: childhood sexual abuse.

Existing law bars a suit for money or damages against a public entity on a cause of action for which a claim is required to be presented, until a written claim therefor has been presented to the public entity and acted upon by the Victim Compensation and Government Claims Board or, in the case of a local public entity, the governing body of the local public entity, or has been deemed to have been rejected, except as specified. Existing law requires a claim for personal injury against a public entity, or against an employee of a public entity, to be presented not later than 6 months after accrual of the cause of action.

Existing law requires that an action for recovery of damages suffered as a result of childhood sexual abuse, as defined, be commenced within 8 years of the date the plaintiff attains the age of majority or within 3 years of the date the plaintiff discovers or reasonably should have discovered that the psychological injury or illness occurring after the age of majority was caused by the sexual abuse, whichever occurs later, and provides that certain of those actions may not be commenced on or after the plaintiff’s 26th birthday.

This bill would exempt claims made against a local public entity pursuant to the above provision for the recovery of damages suffered as a result of childhood sexual abuse from the requirement to file a claim against a public entity within 6 months after accrual as a

prerequisite to filing a cause of action for money damages. The bill would limit this exemption to claims arising out of conduct occurring on or after January 1, 2009.

Ch. 384 (SB 731) Oropeza Massage therapy.

Existing law provides for the regulation of various healing arts professionals, including physicians and surgeons, chiropractors, physical therapists, and acupuncturists. Existing law authorizes the legislative body of a city or county to enact ordinances providing for the licensing and regulation of the business of massage when carried on within the city or county.

This bill would, commencing September 1, 2009, provide for the certification of massage practitioners and massage therapists by the Massage Therapy Organization, which would be a nonprofit organization meeting specified requirements, and would impose certain duties on the organization. The bill would require applicants for certification to be 18 years of age or older, to meet specified educational criteria, to provide to the organization and update certain information, to provide fingerprints for submission to the Department of Justice for a criminal background check, and to pay fees required by the organization. The bill would require the Department of Justice to review specified information and to provide to the organization fitness determinations and certain other information. The bill would allow the organization to take certain disciplinary action against certificate holders and would require the organization to take certain action with regard to suspending or revoking a certificate if the certificate holder has been arrested for, and charged with, specified crimes. The bill would make it an unfair business practice for a person to state, advertise, or represent that he or she is certified or licensed by a governmental agency as a massage therapist or practitioner, or to make other false representations, as specified. The bill would prohibit a city, county, or city and county from enacting certain ordinances regulating the practice of massage by a certificateholder, as specified. The bill would make its provisions subject to review by the Joint Committee on Boards, Commissions, and Consumer Protection. The bill would repeal these provisions on January 1, 2016.

Ch. 385 (SB 963) Ridley-Thomas Department of Consumer Affairs: regulatory boards.

(1) Existing law establishes the Board of Psychology, the Acupuncture Board, the Board of Behavioral Sciences, the Contractors' State License Board, the Board for Geologists and Geophysicists, the Court Reporters Board of California, and the State Athletic Commission. Existing law authorizes or requires those boards to appoint an executive officer. Under existing law, excess funds, as specified, generated by the initial certificate fee collected by the Court Reporters Board of California are used to provide shorthand reporting services for indigent persons, as defined, and are transferred from the Court Reporters' Fund into the Transcript Reimbursement Fund, which is created in the State Treasury as a continuously appropriated fund, for expenditure for that purpose. Existing law provides that these provisions become inoperative on July 1, 2009, and are repealed on January 1, 2010.

This bill would change the dates on which these provisions are to become inoperative and repealed to January 1, 2011. Because this bill would extend the appropriation of funds in the Transcript Reimbursement Fund, it would make an appropriation.

(2) Senate Bill 823 of the 2007–08 Regular Session would, among other things, establish the Bureau for Private Postsecondary Education in the Department of Consumer Affairs as a successor agency to the former Bureau for Private Postsecondary and Vocational Education in the Department of Consumer Affairs.

This bill would make the bureau inoperative and repealed on January 1, 2013. The bill would provide that this provision shall become operative only if SB 823 of the 2007–08 Regular Session is also enacted and becomes operative.

(3) This bill would incorporate additional changes to Section 4990 of the Business and Professions Code made by this bill and AB 239 to take effect if both bills are chaptered and this bill is chaptered last.

Ch. 386 (SB 1064) Hollingsworth Disaster relief.

(1) Existing law authorizes a county board of supervisors to provide by ordinance for the reassessment of property that is damaged or destroyed, without fault on the part of the assessee, by a major misfortune or calamity, upon the application of the assessee or upon the action of the county assessor with the board's approval. With respect to certain counties that have adopted reassessment ordinances and have been declared by the Governor to be in a state of emergency as a result of certain events, existing law provides for state allocations of the estimated amounts of the reductions in property tax revenues resulting in certain fiscal years from reassessments under those ordinances. With respect to the County of El Dorado, which has been declared by the Governor to be in a state of emergency as a result of wildfires that commenced on June 24, 2007, existing law provides for state allocations of the estimated amounts of the reductions in property tax revenues resulting in the 2006–07 fiscal year from reassessment under those ordinances. Existing law also continuously appropriates, without regard to fiscal years, moneys in the Special Fund for Economic Uncertainties for purposes of funding these state allocations.

This bill would provide for similar state allocations with respect to property tax revenue reductions resulting from a reassessment for damages incurred within the Counties of Inyo, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, and Ventura, which were declared by the Governor to be in a state of emergency due to the wildfires that occurred during the 2007 calendar year, the County of Riverside, which was declared by the Governor to be in a state of emergency due to extremely strong and damaging winds that occurred in October 2007, and the Counties of Butte, Kern, Mariposa, Mendocino, Monterey, Plumas, Santa Clara, Santa Cruz, Shasta, and Trinity, which were declared by the Governor to be in a state of emergency due to the wildfires that occurred in May or June 2008. This bill would, with respect to the County of El Dorado, instead provide for state allocations with respect to property tax revenue reductions from a reassessment for the 2007–08 fiscal year.

This bill would provide for similar state allocations with respect to property tax revenue reductions resulting from a reassessment for damages incurred within the County of Santa Barbara, which was declared by the Governor to be in a state of emergency due to the wildfires that occurred in July 2008.

This bill would also provide for similar state allocations with respect to property tax revenue reductions resulting from a reassessment for damages incurred within the County of Inyo, which was declared by the Governor to be in a state of emergency as a result of severe rainstorms that occurred in July 2008.

This bill would provide for similar state allocations with respect to property tax revenue reductions resulting from a reassessment for damages incurred within the County of Humboldt, which was declared by the Governor to be in a state of emergency due to the wildfires that commenced in May 2008.

By requiring moneys continuously appropriated from the Special Fund for Economic Uncertainties to be allocated for the new purpose of reimbursing these counties for these property tax revenue reductions, this bill would make an appropriation.

(2) Existing property tax law provides, pursuant to a specified provision of the California Constitution, for a homeowners' property tax exemption in the amount of \$7,000 of the full value of a "dwelling," as defined.

This bill would provide that any dwelling that qualified for the exemption prior to the commencement dates, as listed in the Governor's disaster proclamations during the 2007 calendar year, that was damaged or destroyed by the wildfires in the Counties of Inyo, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, and Ventura, and that has not changed ownership since the commencement dates, as listed in the Governor's disaster proclamations of 2007, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to wildfires.

This bill would also provide that any dwelling that qualified for the exemption prior to October 20, 2007, that was damaged or destroyed by the extremely strong and damaging winds in the County of Riverside, as declared by the Governor in November 2007, and that has not changed ownership since October 20, 2007, may not be denied an exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to the extremely strong and damaging winds.

This bill would also provide that any dwelling that qualified for the exemption prior to the commencement dates, as listed in the Governor's proclamations in May, June, or July 2008, that was damaged or destroyed by the wildfires in the Counties of Butte, Kern, Mariposa, Mendocino, Monterey, Plumas, Santa Clara, Santa Cruz, Shasta, and Trinity, and that has not changed ownership since the commencement dates, as listed in the Governor's proclamation in May, June, or July 2008, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to wildfires.

This bill would also provide that any dwelling that qualified for the exemption prior to July 1, 2008, that was damaged or destroyed by the wildfires in the County of Santa Barbara, as declared by the Governor in July 2008, and that has not changed ownership since July 1, 2008, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to wildfires.

This bill would also provide that any dwelling that qualified for the exemption prior to July 12, 2008, that was damaged or destroyed by severe rainstorms, floods, landslides, or the accumulation of debris in a disaster in the County of Inyo, as declared by the Governor in July 2008, and that has not changed ownership since July 12, 2008, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to floods, landslides, the accumulation of debris, or washed-out and damaged roads.

This bill would provide that any dwelling that qualified for the exemption prior to May 22, 2008, that was damaged or destroyed by the wildfires in the County of Humboldt, as declared by the Governor in August 2008, and that has not changed ownership since May 22, 2008, may not be denied the exemption solely on the basis that the dwelling was temporarily damaged or destroyed or was being reconstructed by the owner, or was temporarily uninhabited as a result of restricted access to the property due to wildfires.

The California Constitution requires the Legislature, in each fiscal year, to reimburse local governments for the revenue losses incurred by those governments in that fiscal year as a result of the homeowners' property tax exemption.

This bill would state the intent of the Legislature to make this required reimbursement in the annual Budget Act. By requiring local tax officials to implement new exemption criteria, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) The Personal Income Tax Law and the Corporation Tax Law provide for the carryover to specified taxable years of specified losses sustained as a result of certain disasters occurring in California in an area determined by the President of the United States to warrant specified federal assistance, or proclaimed by the Governor to be in a state of emergency.

This bill would extend these provisions to losses sustained in the Counties of Inyo, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, and Ventura,

proclaimed by the Governor to be in a state of emergency, as a result of the wildfires that occurred during the 2007 calendar year, the County of Riverside as a result of the extremely strong and damaging winds that occurred in October 2007, the Counties of Butte, Kern, Mariposa, Mendocino, Monterey, Plumas, Santa Clara, Santa Cruz, Shasta, and Trinity, proclaimed by the Governor to be in a state of emergency, as a result of the wildfires that occurred in May or June 2008, in the County of Humboldt as a result of the wildfires that commenced in May 2008, in the County of Santa Barbara as a result of the wildfires that occurred in July 2008, and in the County of Inyo as a result of severe rainstorms that occurred in July 2008. This bill would authorize a taxpayer to make an election to claim a deduction for those losses on the tax return for the preceding year.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 387 (SB 1093) Wiggins San Francisco Bay Area Water Emergency Transportation Authority.

Existing law, the San Francisco Bay Area Water Emergency Transportation Response and Disaster Recovery Act, establishes the San Francisco Bay Area Water Emergency Transportation Authority as a local governmental entity of regional government and gives that entity the authority to plan, manage, operate, and coordinate the emergency activities of all water transportation and related facilities within the bay area region, except as specified. Existing law requires the transfer of public transportation ferries and related water transportation services and facilities in the bay area region, as specified, to the authority and requires the authority to adopt a transition plan to facilitate that transfer. Existing law requires that the planning, management, and operation of any existing or planned public transportation ferries and related facilities and services in the bay area region be consolidated under the authority's control.

This bill would make that consolidation subject to the authority's adoption of the transition plan and would prohibit the authority from compelling property transfers or operational changes to water transportation services provided by public agencies on or before January 1, 2008, prior to the adoption of that plan. The bill would require the transition plan to include specified information, including, among other things, a description of the capital assets, leasehold interests, and personnel, as specified, that the authority proposes to be transferred; a specified operating plan; an initial 5-year Capital Improvement Program, as specified; and the date that the ferry services are to be transferred to the authority. The bill would provide that the transfer of assets or services from a local agency shall be subject to negotiation and agreement by the local agency. The bill would require that proposed changes to the water transportation services or related facilities historically provided by the City of Vallejo or the City of Alameda be consistent with the city's general plan, its redevelopment plans, and its development and disposition agreements for specified projects. The bill would authorize the authority to establish a community advisory committee to receive community and passenger recommendations related to consolidation or operational issues affecting existing and proposed water transportation services.

Existing law requires the authority to create and adopt the transition plan on or before January 1, 2009, and requires the authority to prepare a specific transition plan for any transfer not anticipated by the former. Existing law also requires the authority to create and adopt an emergency water transportation system management plan on or before July 1, 2009. Under existing law, the authority is required to provide a copy of those plans to each city and county in the bay area region at least 45 days prior to adopting the plans.

This bill would extend the date for the creation and adoption of the transition plan to July 1, 2009. In addition, the bill would require the authority to establish a process for taking public input on the plans in consultation with existing operators of public ferry services affected by the plans. The bill would require that the public input process include at least one public hearing conducted at least 60 days prior to adopting the plans in each city where an operational ferry facility existed as of January 1, 2008.

Existing law authorizes the authority to accept the transfer of ownership, operation, and management of any other public transportation ferries and related water transportation services and facilities within the bay area region developed or adopted by any general purpose local government or special district that operates or sponsors water transit.

This bill would also authorize the authority to accept leasehold interests of those ferries and related water transportation services and facilities. The bill would require the authority, in accepting a transfer, to commit to maintaining the ferry and related services for at least 5 years.

Existing law provides that the authority is governed by a board of 5 members and prohibits a local jurisdiction or agency from having more than one representative on the board.

This bill would instead prohibit a public agency from having more than one representative on the board.

Existing law authorizes the board to appoint an auditor among other officers.

This bill would instead authorize the board to appoint a chief financial officer.

Existing law requires the board to supervise and regulate every water transportation services facility owned or operated or controlled by the authority, including the establishment of rates and the making and enforcement of schedules, among other things, for or in connection with any transportation facility owned or operated or controlled by the authority.

This bill would require the board to establish a process for taking public input on rates or schedules that the board proposes to establish or change. The bill would require the board to conduct a public hearing prior to adopting those rates schedules, or changes and to provide notification of those rates, schedules, or changes to the city where the ferry terminal affected by the rates, schedules, or changes is located at least 30 days prior to the hearing.

Existing law requires the authority to bear reasonable administrative costs incurred by public transportation ferries and related water transportation services related to specified transfers to the authority.

This bill would instead require the authority to bear the reasonable administrative costs incurred by operators of water transportation services related to specified transfers to the authority or the implementation of the San Francisco Bay Area Water Emergency Transportation Response and Disaster Recovery Act.

Existing law requires the authority to assume and be bound by the employment terms and conditions set forth in any collective bargaining agreement or employment contract between the San Francisco Bay Area Water Transit Authority and any labor organization or employee affected by the creation of the authority, as specified.

This bill would also require the authority to assume and be bound by the employment terms and conditions set forth in any collective bargaining agreement or employment contract between any public or private entity whose services the authority directly assumes, and any labor organization or employee included within the assumption of those services.

The bill would enact other related provisions.

By imposing additional duties on the authority, the bill would impose a state-mandated local program.

Existing law requires the Metropolitan Transportation Commission to allocate certain amounts of the toll increase approved in 1988 for specified purposes and requires that funds made available for rapid water transit systems pursuant to that provision be allocated to the authority.

This bill would require that allocation to the authority to begin on the date specified in the transition plan described above.

Existing law authorizes the Metropolitan Transportation Commission to fund certain operating programs as a component of the Regional Traffic Relief Plan and identifies the authority as the project sponsor for certain of those projects.

With regard to funds provided to the authority, this bill would require that funds historically made available to the City of Vallejo or the City of Alameda continue to be

allocated to those cities until the date specified in the transition plan described above. The bill would authorize the authority to use those funds, not exceeding \$600,000, to support development of the transition plan and for transition-related costs incurred on or after July 1, 2008, upon a determination by the commission that the costs meet certain requirements. The bill would also authorize the authority to use those funds for operating purposes if consistent with the transition plan and approved by the commission.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 388 (SB 1149) Wiggins Telecommunications: grants to areas not served by local exchange carriers.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations. The commission is required until January 1, 2009, to establish a grant program to aid in the establishment of telecommunications service in areas not currently served by existing local exchange carriers. The grant program is funded out of either the California High-Cost Administrative Committee Fund-A or California High-Cost Administrative Committee Fund-B, or both, and the funding level is prohibited from exceeding \$10,000,000 per year. Existing law prohibits any one applicant from receiving more than 25% of the designated program funds in a single fiscal year. The Warren-911-Emergency Assistance Act establishes the number "911" as the primary emergency telephone number for use in the state.

This bill would title the grant program as the Rural Telecommunications Infrastructure Grant Program, would extend the grant program until January 1, 2013, and would authorize grants to areas that lack access to an emergency telephone system as described in the Warren-911-Emergency Assistance Act. This bill would also provide that no more than \$40,000,000 shall be encumbered from the funds during the 4-year period ending on December 31, 2012, for the program. The bill would prohibit any single grant from exceeding \$5,000,000.

Ch. 389 (SB 1166) Cox Game refuges.

(1) Existing law permits all officers and employees of the department and all game wardens to enter a game refuge in performance of their duties.

This bill would add a provision permitting law enforcement officers to enter a game refuge while in the performance of their duties.

(2) Existing law enumerates 21 specific game refuges, and describes their boundaries, including the California Sea Otter and Farallon Islands refuges.

This bill would require the Department of Fish and Game to undertake prescribed education and outreach efforts, including efforts regarding the potential closure of all state game refuges other than 2 specified refuges. The department would be required to provide an opportunity for public comment. The bill would require the department, on or before January 1, 2011, to prepare and submit to the Legislature a report on those efforts and a summary of any information provided by the public that is relevant to the potential closure of those state game refuges.

Ch. 390 (SB 1168) Runner Health care coverage: dependent children.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975 (Knox-Keene Act), provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law also provides for the regulation of health insurers by the Department of Insurance. Under existing law, a plan and a health insurer are required to continue coverage for a dependent child who attains a limiting age specified in the plan or insurance policy if the child is and continues to

be both incapable of self-sustaining employment by reason of physically or mentally disabling injury, illness, or condition and chiefly dependent upon the subscriber or insured for support.

This bill would provide that if a plan or insurance policy provides coverage for a dependent child who is over 18 years of age and enrolled at a secondary or postsecondary educational institution, the plan or policy may not terminate that coverage if the child takes a medical leave of absence, as specified.

Because the bill would specify additional requirements under the Knox-Keene Act, the willful violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 391 (SB 1173) Scott Unemployment insurance: employers: motion picture industry.

Existing law provides, for purposes of the Unemployment Insurance Code, that, until January 1, 2012, any employing unit that is a motion picture payroll services company, as defined, shall be treated as an employer of a motion picture production worker, as defined. Existing law requires any employing unit operating as a motion picture payroll services company that quits business to file with the director of the Employment Development Department a final return and report of wages, as provided, and, within 30 days of quitting business, to notify the motion picture production companies and allied motion picture services of its intent to quit business.

This bill would extend to 45 days the time period within which a motion picture payroll services company that quits business must notify the motion picture production companies and allied motion picture services of its intent to quit business, as provided.

This bill also would allow a motion picture payroll services company that has elected to be treated as an employer to apply to the director to extend an existing voluntary plan for the payment of disability benefits to motion picture production workers of the company's affiliated entities. This bill would require the director to approve the extension of the plan upon specified conditions. This bill would deem the extension of a plan approved by the director to have met employee consent requirements for the adoption of a voluntary plan, if the plan met the consent requirements when initially adopted, and the plan provides for giving specified written notices and statements that are approved by the director.

Ch. 392 (SB 1190) Oropeza Certified ignition interlock devices.

(1) Existing law authorizes a court to require that a person who is convicted of a first offense violation of one of 2 specified driving while under the influence (DUI) offenses install a certified ignition interlock device (IID) on any vehicle that the person owns or operates and prohibits that person from operating a motor vehicle unless that vehicle is equipped with a functioning, certified (IID). Existing law also requires that the court give heightened consideration to applying this sanction to a first offense violator with a 0.20% or more, by weight, of alcohol in his or her blood at arrest, or with 2 or more prior moving traffic violations, or to persons who refused the chemical tests at arrest.

This bill would lower this percentage to 0.15% or more, by weight, of alcohol in a person's blood at the time of his or her arrest. By changing the definition of a crime, the bill would impose a state-mandated local program.

The bill would also authorize the Department of Motor Vehicles to undertake a specified study and, if the department exercises that authority, to report its findings of that study to the Legislature on or before January 1, 2013, regarding the overall effectiveness of the use of IIDs to reduce the recidivism rate of first-time DUI violators.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 393 (SB 1193) Padilla Telecommunications: universal service: California Advanced Services Fund.

The existing federal Telecommunications Act of 1996 establishes a program for the regulation of telecommunications to attain the goal of local competition, while implementing specific, predictable, and sufficient federal and state mechanisms to preserve and advance universal service, consistent with certain universal service principles. The universal service principles include the principle that consumers in all regions of the nation, including low-income consumers and those in rural, insular, and high-cost areas, should have access to telecommunications and information services, including interexchange services and advanced telecommunications and information services, that are reasonably comparable to those services provided in urban areas and that are available at rates that are reasonably comparable to rates charged for similar services in urban areas.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations. Existing law authorizes the commission to supervise and regulate every public utility and to do all things necessary and convenient in the exercise of its power and jurisdiction. Existing law establishes the California High-Cost Fund-A Administrative Committee Fund (CHCF-A Fund), the California High-Cost Fund-B Administrative Committee Fund, the Universal Lifeline Telephone Service Trust Administrative Committee Fund, the Deaf and Disabled Telecommunications Program Administrative Committee Fund, the Payphone Service Providers Committee Fund, and the California Teleconnect Fund Administrative Committee Fund in the State Treasury, and requires that moneys in the funds are the proceeds of rates and are held in trust for the benefit of ratepayers and to compensate telephone corporations for their costs of providing universal service and may be expended only to accomplish specified telecommunications universal service programs, upon appropriation in the annual Budget Act or upon supplemental appropriation.

In Decision 07-12-054, pursuant to its authority to do all things necessary and convenient in the exercise of its power and jurisdiction, the commission imposed a surcharge beginning January 1, 2008, collected through retail telecommunications customers' bills, to fund the California Advanced Services Fund (CASF), for the purpose of encouraging deployment of broadband facilities for use in provisioning advanced telecommunications and voice service in unserved and underserved areas. Decision 07-12-054 further ordered that prior to any CASF disbursements, the commission would seek statutory authority to add the CASF as one of the funds authorized for handling by the State Treasury and to seek statutory authority for specific direction to telephone corporations for remitting CASF collections and for use of the funds by the commission.

This bill would, until January 1, 2013, establish the CASF in the State Treasury, subject to the conditions and restrictions applicable to the 6 existing universal service funds described above. The bill would require that moneys collected by the surcharge authorized by the commission to fund the CASF, whether collected before or after the operative date of the bill, be transmitted to the commission pursuant to a schedule established by the commission. The bill would require the commission to transfer the moneys received to the Controller for deposit in the fund. The bill would prohibit the commission from collecting those moneys in an amount that exceeds a total amount of \$100,000,000. The bill would specify that any moneys appropriated from the CASF to the commission may only be expended for limited purposes.

The bill would require the commission to develop, implement, and administer the CASF to provide for transfer payments to encourage deployment of high-quality advanced

communications services to all Californians that will promote economic growth, job creation, and substantial social benefits of advanced information and communications technologies, as provided in commission Decision 07-12-054. The bill would require the commission to conduct both a financial audit and a performance audit of the implementation and effectiveness of the CASF to ensure that moneys have been expended in accordance with (a) the approved terms of the winning bids, and (b) the requirements of the bill. The bill would require the commission to report its findings to the Legislature by December 31, 2010. The bill would appropriate \$25,000,000 to the commission from the fund, to be expended in the 2008–09 fiscal year, and would require the commission to report on its expenditures pursuant to this appropriation, as provided.

Ch. 394 (SB 1228) Maldonado Vehicles: maximum combination length.

Existing law prohibits any combination of vehicles coupled together, including any attachments, from exceeding a total length of 65 feet, subject to certain specified exceptions, including an exemption for a combination of a motortruck and 2 trailers. This law authorizing this exemption is repealed as of January 1, 2009, unless a later enacted statute deletes or extends that date.

This bill would extend the repeal date for that exemption to January 1, 2010, and make conforming changes.

Ch. 395 (SB 1246) Negrete McLeod Alcoholic beverages: beer wholesalers: exterior signs.

The Alcoholic Beverage Control Act provides that any manufacturer, winegrower, manufacturer's agent, rectifier, distiller, bottler, importer, or wholesaler, or any officer, director, or agent of any of those persons, may furnish, give, lend, or rent specified types of signs, including signs relating to advertising beer.

This bill would allow beer wholesalers to sell or rent exterior signs at not less than cost, as defined in the Alcoholic Beverage Control Act.

The Alcoholic Beverage Control Act provides that a violation of its provisions is a misdemeanor, unless otherwise specified. This bill, by changing the definition of an existing crime, imposes a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 396 (SB 1260) Runner Hospital licensing.

Existing law provides for the licensure of health facilities, including general acute care hospitals, acute psychiatric hospitals, and special hospitals, as defined, by the State Department of Public Health.

This bill would require that, upon the issuance or renewal of a general acute care, acute psychiatric, or special hospital license, the department separately identify on the license each supplemental service, including the address of where each outpatient service is provided and the type of services provided at each outpatient location. The bill would require, on or before July 1, 2010, the department to post and make available on its Web site a listing of all outpatient services of licensed hospitals identified on the hospital's license as a supplemental service.

Ch. 397 (SB 1268) Denham Nursing home administrators.

Existing law provides for the licensing of nursing home administrators by the State Department of Public Health. To become a nursing home administrator, an applicant must pass the nursing home administrator licensing examination.

Existing law requires, in order to take the examination, that minimum educational and experiential qualifications must be met.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

This bill would permit the department, upon the request of an applicant who is a member of a recognized church or religious denomination that operates a faith-based skilled nursing facility and historically prohibits the acquisition of the formal education that would otherwise be required for the applicant to take the licensing examination, to waive the licensing examination educational requirements for that applicant if he or she has completed a program-approved Administrator-in-Training Program (AIT Program). An applicant receiving this waiver would only be allowed to oversee a facility that is owned by the applicant's church or religious denomination.

This bill would also permit an applicant who qualifies for the above exemption to request an educational waiver for admission to the AIT Program.

Under existing law, a person with a doctorate degree in medicine and a current valid license as a physician and surgeon with 10 years of recent work experience meets the educational requirements for the AIT program and, after completing the program, he or she would meet the educational requirements for taking the licensing examination.

This bill would remove the educational requirement of 10 years of work experience for a person with a doctorate in medicine who holds a current valid license as a physician and surgeon for both the AIT program and the licensing examination.

#### Ch. 398 (SB 1277) Maldonado Synthetic turf.

Existing law requires all new playgrounds open to the public built by a public agency or any other entity to conform to the playground-related standards set forth by the American Society for Testing and Materials and the playground-related guidelines set forth by the United States Consumer Product Safety Commission.

This bill would require, on or before September 1, 2010, the Integrated Waste Management Board, in consultation with the Office of Environmental Health Hazard Assessment and the State Department of Public Health, to prepare and provide to the Legislature and post on the board's Internet Web site a study on the effects of synthetic turf and natural turf on the environment and public health.

#### Ch. 399 (SB 1280) Maldonado Agriculture: seed: advisory board: registration.

Existing law, the California Seed Law, generally regulates seed sold in California to ensure that seed purchased by the consumer-buyer is properly identified and of the quality represented on the tag or label.

Existing law establishes a Seed Advisory Board to make recommendations to the Secretary of Food and Agriculture on all matters pertaining to the seed law. The board is required to consist of 11 members appointed by the secretary and 9 of those members are required to be registered labelers and 2 are required to be members of the public.

This bill would revise the composition of the board to consist of 7 registered labelers, 2 persons who receive or possess seed for sale in this state, and 2 members of the public.

Existing law requires every labeler of agricultural or vegetable seed offered for sale or sold in this state, or any person who receives or possesses for sale or sells in this state any such seed that is not grown in this state, to annually register with the secretary for authorization to sell agricultural or vegetable seed.

This bill would, instead, require every labeler of agricultural or vegetable seed offered for sale in this state, or any person who sells that seed in this state, to annually register with the secretary for authorization to sell agricultural or vegetable seed.

Because a violation of these provisions would be a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 400 (SB 1308) Cox Disaster assistance.

(1) The California Disaster Assistance Act authorizes a local agency to receive state financial assistance for a repair or restoration project following the proclamation of a local emergency. The state share for eligible projects is generally no more than 75% of total state eligible costs, unless the local agency is located within a city, county, or city and county that has adopted a local hazard mitigation plan in accordance with the federal Disaster Mitigation Act of 2000 as part of the safety element of its general plan, in which case the Legislature may provide for a state share of local costs that exceeds 75% of total state eligible costs. For certain, listed events, the state share is up to 100% of total state eligible costs.

This bill would add the wildfire that occurred in the Lake Tahoe Basin commencing on June 24, 2007, as specified, to the list of specific events eligible for the higher state share of costs.

The bill would provide that the requirement to adopt a local hazard mitigation plan in order to qualify for the specified exception shall not apply to the Lake Tahoe Basin wildfire event.

(2) This bill would provide that these provisions would become operative only if SB 1764 of the 2007–08 Regular Session is enacted.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 401 (SB 1311) Simitian California Pollution Control Financing Authority: Capital Access Loan Program.

Existing law establishes the Capital Access Loan Program for small businesses, administered by the California Pollution Control Financing Authority, which provides loans through participating financial institutions to qualifying small businesses. The authority is required to create a loss reserve account for each financial institution. The financial institution and the borrower are each required to pay a fee of an equal amount into the loss reserve account. The authority is required to contribute an amount not less than the total amount of the combined fees paid by the borrower and the participating financial institution, if no matching funds are available under a federal capital access program or other source.

This bill would reduce the contribution of the authority to an amount not less than the amount of fees paid by the participating financial institution. The bill would authorize the authority to withdraw from the loss reserve account all interest or other income that has been credited to the loss reserve account, to be used for the sole purpose of offsetting costs associated with carrying out the program, including administrative costs and loss reserve account contributions.

Ch. 402 (SB 1352) Wyland Public works: prevailing wage rates: wage and penalty assessments.

Existing law requires the Labor Commissioner to issue a civil wage and penalty assessment to a contractor or subcontractor, or both, if the Labor Commissioner determines, after investigation, that the contractor or subcontractor, or both, violated the laws regulating public works contracts, including the payment of prevailing wages. Existing law permits the affected contractor or subcontractor to obtain review of a civil wage and penalty assessment or a notice of withholding, as defined, by transmitting a written request for a hearing to the office of the Labor Commissioner within 60 days after service of the assessment or notice and requires a hearing officer, as specified, or, after January 1, 2009, an administrative law judge appointed by the Director of Industrial Relations, to commence a hearing within 90 days of receipt of the request. Existing law provides that, after 60 days following the service of the assessment or notice, the affected contractor, subcontractor, and surety on a bond issued to secure the payment of wages, as provided, become liable for liquidated damages in an amount equal to the amount of unpaid wages, as specified. Existing law authorizes the hearing officer, as specified, or, after January 1, 2009, an administrative judge, to waive payment of the liquidated damages if the affected contractor or subcontractor demonstrates, as provided, that he or she had substantial grounds for believing the assessment or notice to

be in error, and also permits the affected contractor or subcontractor to obtain review of the administrative decision by filing a petition for a writ of mandate to the superior court within 45 days after service of the decision.

This bill would continue to require a hearing officer, as specified, to hold the hearings, as provided, and would not require that an administrative law judge hold these hearings after January 1, 2009.

This bill would allow a contractor, subcontractor, or surety to deposit the full amount of the assessment for the Department of Industrial Relations to hold in escrow pending review, as specified, and to be distributed, as specified. If so deposited, there would be no liability for liquidated damages. This bill would authorize the Director of Industrial Relations to waive payment of liquidated damages, or a portion thereof, if the contractor or subcontractor demonstrates that there were substantial grounds for its appeal, as specified.

Ch. 403 (SB 1387) Padilla Dental coverage: provider overpayments.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law provides for the regulation of health insurers by the Department of Insurance.

Under existing law, each contract between a health care service plan or a health insurer and a provider must contain provisions requiring a fast, fair, and cost-effective dispute resolution mechanism, as specified. Existing law requires a provider to reimburse a health care service plan or a health insurer for an overpayment within a specified period of time after receiving notice of the overpayment, unless that overpayment is contested by the provider. If an overpayment is contested, existing law requires that the plan or insurer be notified in writing within 30 days.

This bill would enact various provisions regarding overpayments by plans and health insurers providing dental coverage. The bill would require that the overpayment notice sent by the plan or insurer contain specified information.

Because a willful violation of the bill's provisions with respect to health care service plans would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 404 (SB 1388) Torlakson Vehicles: DUI: ignition interlock.

(1) Existing law makes it unlawful to operate a motor vehicle while under the influence of alcohol or drugs, or both, or when the driver has a specified percent, by weight, of alcohol in his or her blood, or if the driver is addicted to the use of any drug. A separate provision makes it unlawful to engage in this conduct and to drive in a certain unlawful manner if that conduct causes bodily injury to a person other than the driver.

A person is prohibited from driving a vehicle when his or her driver's license has been suspended or revoked for violating specified provisions relating to DUI. Existing law requires a court to require a person convicted of specified offenses to install a certified ignition interlock device on a vehicle that person owns or operates. The Department of Motor Vehicles is prohibited from reinstating the privilege to operate a vehicle until the department receives specified proof that the ignition interlock device has been installed as ordered.

This bill would additionally require that a person immediately install a certified ignition interlock device on all vehicles he or she owns or operates for a period of one to 3 years when he or she has been convicted of violating specified DUI provisions and driving a motor vehicle when his or her license has been suspended or revoked as a result of a DUI-related conviction. The number of years the ignition interlock device would be required to be

installed would be based upon the number of prior convictions and the length of time between convictions as prescribed.

The bill would also set up a statutory scheme under which the department would, with regard to the installation of a certified ignition interlock device described above, inform the person of the ignition interlock device installation requirements established under the bill, accept notification from the ignition interlock device installer of attempts to remove, bypass, or tamper with the device or if the person fails 3 or more times to comply with the maintenance requirements, monitor the installation and maintenance of the ignition interlock device, determine a fee sufficient to cover administrative costs, including startup costs, to be paid by the person, and keep specified records. The department would also be required to notify the court of the failure of a person, required to install an ignition interlock device pursuant to this section, to show proof of installation within 30 days of being informed of these requirements. The bill would provide that a person required to install an ignition interlock device under this provision who willfully fails to install an ignition interlock device within 30 days of the notification is guilty of a misdemeanor and would be punished by not more than 6 months imprisonment in the county jail or by a fine of not more than \$5,000, or both.

A person who does not own or does not have access to a vehicle and who complies with all of the prescribed requirements, would be exempt from the ignition interlock device installation requirements. A violation of the terms of the exemption would be a misdemeanor punishable by not more than 6 months imprisonment in the county jail or by a fine of not more than \$5,000, or both.

These provisions would become operative on July 1, 2009.

These requirements would be in addition to existing law.

(2) Because it is a crime to operate a vehicle that is not equipped with a functioning, certified ignition interlock device by a person whose driving privilege is so restricted and because failure to install the ignition interlock device within 30 days after notification by the department would be a misdemeanor, the bill would impose a state-mandated local program, by expanding the scope of an existing crime and creating a new crime.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 405 (SB 1396) Cox Local government: recording fees.

Existing law authorizes a county board of supervisors to impose a fee of up to \$2 to be paid at the time of recording of every real estate instrument, paper, or notice required or permitted by law to be recorded within that county, and defines "real estate instrument" to mean a deed of trust, an assignment of deed of trust, a reconveyance, a request for notice, and a notice of default.

This bill would authorize a county board of supervisors to impose a fee of up to \$3 to be paid at the time of recording of every real estate instrument, paper, or notice required or permitted by law to be recorded within that county, except as specified, and would define "real estate instrument" to mean a deed of trust, an assignment of deed of trust, a reconveyance, a request for notice, a notice of default, a substitution of trustee, a notice of trustee sale, and a notice of rescission of declaration of default.

#### Ch. 406 (SB 1428) Kehoe San Diego River Conservancy.

Existing law authorizes the San Diego River Conservancy to acquire and manage certain public lands in the San Diego River area. These provisions are repealed on January 1, 2010, unless a later enacted statute, that is enacted before January 1, 2010, deletes or extends that date. The governing board of the conservancy consists of 11 voting members, including the Mayor of San Diego, and 2 nonvoting members.

This bill would extend the repeal date until January 1, 2020. The bill would provide that the Mayor of San Diego or his or her designee shall be a voting member.

Existing law states that the conservancy has developed a Five Year Strategic and Infrastructure Plan that is consistent with the San Diego River Parkway Concept Plan.

This bill would delete this provision.

Ch. 407 (SB 1467) Machado Insurance: guarantee fund.

Existing law establishes the California Guarantee Association to provide coverage against losses arising from the failure of an insolvent property, casualty, or workers' compensation insurer to discharge its obligations under its insurance policies.

This bill would provide that all meetings of the board of governors of the association and its investment and audit committees shall be open and public and all persons shall be permitted to attend, as specified. The bill would define "meeting" to include any congregation of a majority of the members of the board of governors or the investment and audit committee, as applicable, at the same time to hear, discuss, or deliberate upon any item that is within the responsibility of the association, as defined, or in the association's plan of operation, with specified exceptions. The bill would provide that the meetings shall comply with the Americans with Disabilities Act of 1990, that meetings be noticed, as specified, and that the public be given an opportunity to comment on issues addressed at the meetings. The bill would provide for closed meetings under specified circumstances. The bill would also define the commissioner's role in the meetings of the association.

Ch. 408 (SB 1496) Ashburn Public Employees' Retirement System: member classifications.

Existing law classifies certain police officers, sheriff deputies, and firefighters who have responsibility for the direct supervision of state peace officer/firefighter personnel as state peace officer/firefighter members under the Public Employees' Retirement System (PERS). Employees classified as safety members under PERS, including state peace officer/firefighter members, are generally entitled to higher benefits and subject to higher contribution rates than employees classified as miscellaneous or general members. Member contributions to PERS are deposited in the Public Employees' Retirement Fund, a continuously appropriated fund.

This bill would instead provide that those peace officers and firefighters are classified as state peace officer/firefighter members if the majority of their duties consists of responsibility for the direct supervision of state peace officer/firefighter personnel, conducting investigations or audits of investigatory practices and other audits of, or in, the Department of Corrections and Rehabilitation, or the administration of programs of an agency, department, or other organizational unit that is primarily responsible for active law enforcement or active firefighting/fire suppression, except as specified. The bill would define administration for these purposes. The bill would also include in that classification individuals hired prior to January 1, 2009, who do not meet the criteria for this classification if those individuals have been continuously employed in positions that were deemed to come within the classification prior to January 1, 2009. The bill would also require the Department of Personnel Administration to annually determine which classes meet these conditions and report its findings to the Legislature and to this system, to be effective July 1 of each year. The bill would prohibit an agency or department from designating a classification as a state peace officer/firefighter member classification without prior approval from the Department of Personnel Administration. The bill would make an appropriation by increasing the amount of employee contributions to the Public Employees' Retirement Fund.

Ch. 409 (SB 1503) Steinberg Public health: Lou Gehrig's disease.

Existing law provides for regulation and licensing of health care service plans by the Department of Managed Health Care. Existing law requires every health care service plan,

except a specialized health care service plan, to establish and implement procedures by which an enrollee could receive a standing referral, as defined, to a specialist and by which an enrollee with a condition or disease that requires specialized care over a prolonged period of time and is life-threatening, degenerative, or disabling could receive a referral to a specialist who, or a specialty care center, as defined, that, has expertise in treating the condition or disease for the purpose of having the specialist, or the specialty care center, coordinate the enrollee's health care.

This bill would declare that an ALS Association Certified Center is a specialty care center for this purpose.

Existing law provides for programs administered by the State Department of Public Health for the prevention and treatment of various diseases.

This bill would make legislative findings regarding Amyotrophic Lateral Sclerosis (ALS), also known as Lou Gehrig's disease, and its treatment.

#### Ch. 410 (SB 1509) Lowenthal Highway workers: assault and battery.

Existing law establishes the offense of assault, and provides for various species of assault against specified persons.

This bill would provide that when an assault is committed against a highway worker, as defined, engaged in the performance of his or her duties and the person committing the offense knows or reasonably should know that the victim is a highway worker engaged in the performance of his or her duties, the offense shall be punishable by a fine not to exceed \$2,000, or by imprisonment in a county jail up to one year, or by both that fine and imprisonment.

By creating a new crime, this bill would impose a state-mandated local program.

Existing law establishes the offense of battery, and provides for various species of battery against specified persons.

This bill would provide that when a battery is committed against the person of a highway worker, as defined, engaged in the performance of his or her duties and the person committing the offense knows or reasonably should know that the victim is a highway worker engaged in the performance of his or her duties, the offense shall be punished by a fine not exceeding \$2,000, or by imprisonment in a county jail not exceeding one year, or by both that fine and imprisonment.

By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 411 (SB 1538) Steinberg Recovery strategy pilot programs.

(1) Existing law requires the Department of Fish and Game to develop and implement recovery strategy pilot programs for the Greater Sandhill crane and coho salmon. Existing law repeals the authority for the pilot programs on January 1, 2009, but requires any recovery strategy that has been approved or implemented prior to that date to remain in effect.

The bill, except with respect to the authority for the Greater Sandhill crane program, would extend the repeal date for those provisions to January 1, 2014.

(2) Under existing law, a recovery strategy for a species is intended to protect and preserve an endangered, threatened, or candidate species for the purposes of future growth of that species. Existing law requires that a recovery strategy for a species include an explanation of scientific knowledge regarding the species, an explanation of interim and long-term goals and alternative goals, an estimate of time and costs required to meet interim recovery goals, a description of actions and recommendations needed to minimize adverse social and economic impacts of the recovery strategy, a description of elements necessary to achieve the

goals of the recovery strategy, the expected time necessary to meet interim recovery goals, and an implementation schedule.

This bill would revise the information that is required of a recovery strategy to include an explanation of interim long-term goals and objectives for the conservation of the species, an explanation of any recommended activities, objective measurable criteria to determine whether the goals and objectives of the recovery strategy are being met, and a description of actions and recommendations to implement the recovery strategy. The department would be required to include in the recovery strategy certain general policies if the department determines that those policies are consistent with the recommended recovery strategy.

(3) Existing law requires the Fish and Game Commission to approve the recovery strategy if it determines that the recovery strategy meets certain criteria, including that the recovery strategy and implementation schedule are capable of being carried out in a scientifically, technologically, and economically reasonable manner, and that the recovery strategy represents an equitable apportionment of public and private and regulatory and nonregulatory obligations.

This bill would delete those components from the criteria that the commission is required to consider in connection with its review of the recovery strategy and add the requirement that the recovery strategy contain specified information. The bill would provide that it does not affect a specified recovery strategy for coho salmon or certain regulations adopted by the State Board of Forestry and Fire Protection, or change existing requirements for the issuance of incidental take permits pursuant to specified law.

(4) Existing law establishes, in the Special Deposit Fund, the Fish and Game Mitigation and Protection Endowment Principal Account and the Fish and Game Mitigation and Protection Expendable Funds Account. The department may deposit moneys in these accounts for purposes that include mitigating adverse biological impacts of a specific project, activity, spill, or release, and protecting, conserving, restoring, enhancing, managing, and maintaining fish, wildlife, native plants, or their habitats.

This bill would require the Treasurer, at the department's request, to transfer those funds from the Pooled Money Investment Account to another account within the State Treasury system to increase earnings over time while providing adequate liquidity. The bill would authorize the department to retain investment advisers to develop and maintain the investment strategy for these accounts.

#### Ch. 412 (SB 1560) Yee Alcoholic beverages: licenses.

Existing law provides that a retail on-sale license may be issued or transferred to any person with respect to premises which are an integral part of a restaurant owned by, or operated by or on behalf of, the licensee, notwithstanding that a wholesaler licensed to sell alcoholic beverages in states other than California has an interest in the premises, license, or licensee if (1) the licensee purchases no alcoholic beverages for sale in this state from other than a California wholesaler, nor purchases alcoholic beverages from any wholesale licensee or manufacturer holding specified ownership interests and (2) no more than 30% of the revenues of the restaurant are derived from the sale of alcoholic beverages.

This bill would expand that license issuance and transfer provision to provide that a retail license may be issued, transferred, or renewed to any person with respect to premises which are owned by, or operated by or on behalf of, the licensee and would revise one of the conditions of the issuance, transfer, or renewal to provide that no more than 40% of the revenues of the retailer are derived from the sale of alcoholic beverages.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 413 (SB 1567) Oropeza Windshield: GPS device.

Existing law prohibits any person, except as specified, from driving any motor vehicle with any object or material placed, displayed, installed, affixed, or applied in or upon the

vehicle that obstructs or reduces the driver's clear view through the windshield or side windows.

This bill would additionally exempt from these provisions a portable Global Positioning System (GPS), which may be mounted in a 7-inch square in the lower corner of the windshield farthest removed from the driver or in a 5-inch square in the lower corner of the windshield nearest to the driver, if specified conditions are met.

Ch. 414 (SB 1623) Yee Rice industry.

Existing law generally provides that the Department of Food and Agriculture regulates the rice industry and provides for the certification of rice, as specified. Existing law provides for the California Rice Commission, which, among other tasks, is authorized to receive and investigate complaints alleging violations of the California Rice Certification Act of 2000 (the act).

This bill would define the term "process" for purposes of rice production and distribution, and would make conforming and definitional changes in connection with the processing and handling of rice.

Existing law requires the Secretary of Food and Agriculture to appoint a committee to administer certain provisions of the act. Existing law also specifies the powers, duties, and responsibilities of the committee.

This bill would clarify the committee's administration of the act and certain of its powers and duties.

Existing law requires all funds received from the assessments levied under the act to be deposited in banks that the commission may designate and requires agents designated by the commission to handle assessment funds to be bonded by a fidelity bond in favor of the commission in an amount of not less than \$25,000.

This bill would additionally require those assessment funds received under the act to be accounted for in a manner prescribed by the commission. The bill would delete the requirement that those agents be bonded by a fidelity bond.

Existing law requires the secretary to do one of certain things within 30 working days upon the receipt of a recommendation from the committee for the promulgation of regulations.

This bill would also require the secretary to do the same with respect to recommendations from the committee for the amendment or repeal of regulations.

Existing law makes certain conduct in violation of the act unlawful.

This bill would revise the conduct that would be unlawful under the act.

Existing law provides that a violation of any provision of the Food and Agricultural Code is a misdemeanor, unless a different penalty is expressly provided.

Because this bill would change the terms of a crime, the bill would impose a state-mandated local program.

Existing law authorizes the commission to receive and investigate complaints regarding alleged violations of the act and its regulations and to refer cases to the department for action.

Existing law also provides certain related notice and review requirements.

This bill would recast those provisions and revise certain of those notice and review procedures.

Existing law authorizes the commission to investigate and commence civil actions and utilize all remedies for the collection of assessments and for the obtaining of injunctive relief or specific performance regarding the act and its regulations.

This bill would recast those provisions and include certain notice requirements. The bill would also authorize the commission to enter into a written agreement with any person alleged to have violated the act that will cause the cessation of any alleged violation and avoidance of future violations.

This bill would provide that the commission shall be entitled to receive reimbursement for any reasonable attorney's fees and other related costs involved in enforcement of the act.

Existing law requires first in-state handlers of certain rice brought into the state from outside California to report the receipt of the rice or seed and pay a certain assessment to the commission.

This bill would instead require that report to be made to the commission prior to the receipt of the rice or seed.

Existing law authorizes the secretary to levy a civil penalty against any person who violates the act or its regulations in an amount of not more than \$5,000 for each violation and provides various related requirements, including authorizing a maximum civil penalty of \$2,500, upon a finding by the secretary that the violation was unintentional.

This bill would recast those provisions, and would instead authorize the secretary to levy a civil penalty against any person who is grossly negligent or willfully violates the act in an amount of not more than \$15,000 for each violation, as provided. The bill would authorize the secretary to levy that lower civil penalty amount for negligent or unintentional violations.

Existing law authorizes the secretary and the commission to bring an action for injunctive relief for any violation of the act or its regulations, as provided.

This bill would recast those provisions.

This bill would authorize the department to investigate complaints referred to it by the commission regarding violations of the act and would authorize the department to enter and inspect the premises of any person subject to the act and to seize and destroy rice, as provided.

This bill would provide that the department shall be entitled to receive reimbursement for any reasonable attorney's fees and other related costs involved in enforcement of the act.

This bill would provide that all remedies provided by the act are cumulative and not exclusive of any other remedy, whether initiated by the commission or the department.

This bill would make other conforming and clarifying changes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 415 (SB 1699) Wiggins Public contracts: health care districts: design-build.

Existing law provides for local health care districts which govern certain health care facilities. Each health care district has specific duties and powers respecting the creation, administration, and maintenance of the districts, including to purchase, receive, take, hold, lease, use, and enjoy property of every kind and description of property within the district. Existing law establishes bidding procedures for the award of construction contracts by local agencies.

Existing law permits counties, with the approval of the board of supervisors, to use a design-build procedure for building contracts in excess of \$2,500,000.

This bill would permit the Sonoma Valley Health Care District to use this design-build process when contracting for the construction of a building and improvements directly related to a hospital or health facility building at the Sonoma Valley Hospital.

#### Ch. 416 (SB 1701) Romero Sentencing.

Existing law establishes various felonies punishable by a triad of terms of incarceration in the state prison, comprised of low, middle, and upper terms. Existing law provides that the choice of the appropriate term rests within the sound discretion of the court. Existing law repeals the provision giving the court this discretionary authority on January 1, 2009, and on that date, makes operative alternate provisions that require the court to impose the middle term, unless there are circumstances in mitigation or aggravation of the crime.

This bill would repeal the provision that places the choice of the appropriate term in the sound discretion of the court, and would make operative the alternate provisions, on January 1, 2011.

Existing law requires the Judicial Council to promote uniformity in sentencing pursuant to the provisions of law described above by adopting rules with specified criteria. Existing law repeals these provisions on January 1, 2009, and on that date, makes operative other provisions to promote uniformity in sentencing under alternative sentencing provisions.

This bill would repeal those provisions and make operative the alternative provisions as described above on January 1, 2011.

Ch. 417 (SB 1720) Lowenthal Clean Air Sticker: misuse: penalties.

(1) Existing law makes it a felony for any person to forge, counterfeit, or falsify, or utter, publish, pass, or attempt to pass, as true and genuine, any false, altered, forged, or counterfeited certificate of ownership, disabled person placard, registration card, special license plate, or permit, among other documents, issued under the Vehicle Code. Existing law also makes it a misdemeanor for any person, with intent to prejudice, damage, or defraud, to acquire, possess, sell, or offer for sale a genuine or counterfeited disabled person placard.

This bill would apply similar provisions to a "Clean Air Sticker," as defined, the violation of which would be an infraction punishable by a fine of not less than \$100 or more than \$250 for a first offense, a fine of not less than \$250 or more than \$500 for a 2nd offense, and a fine of not less than \$500 or more than \$1,000 for a 3rd or subsequent offense. The bill would require that the penalty imposed not be suspended. By creating a new crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 418 (SB 1772) Committee on Rules Political Reform Act of 1974: behested payments.

The Political Reform Act of 1974 provides for the comprehensive regulation of campaign financing and related matters, including the reporting of campaign contributions, as defined, and payments made at the behest of candidates and elected officers. Existing law defines a payment made at the behest of a candidate as a contribution for purposes of the act unless the payment was made principally for legislative, governmental, or charitable purposes. Existing law nevertheless requires that payments of this type made at the behest of an elected officer shall be reported when those payments equal or exceed \$5,000 in the aggregate from the same source in the same calendar year, and existing law establishes procedures for the filing of those reports.

This bill would impose those reporting requirements on payments made at the behest of a member of the Public Utilities Commission principally for legislative, governmental, or charitable purposes.

Existing law makes a willful violation of the Political Reform Act of 1974 a misdemeanor and subjects offenders to criminal penalties.

This bill would impose a state-mandated local program by creating additional crimes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes upon a  $\frac{2}{3}$  vote of each house and compliance with specified procedural requirements.

This bill would declare that it furthers the purposes of the act.

Ch. 419 (SB 1774) Corbett State Council on Developmental Disabilities.

Existing law creates the 29-member State Council on Developmental Disabilities appointed by the Governor, to advise the State Department of Developmental Services and perform various other duties. Under existing federal law, 5-year grants are given to various University Centers for Excellence in Developmental Disabilities Education, Research, and Service to provide leadership in, advise federal, state, and community policymakers about, and promote opportunities for, individuals with developmental disabilities. Two members of the state council are representatives from university centers of excellence in the state.

Existing law requires that the Governor appoint 6 members at large, of whom 2 shall be persons with developmental disabilities as defined by federal law.

This bill would, instead, require that the state council include a representative from each of the 3 university centers for excellence, and would increase from 2 to 3 the number of appointees with developmental disabilities thus increasing the council membership to 31.

Existing law requires that certain heads of state departments and agencies or their chief deputies be appointed to the state council.

This bill would, instead, allow the heads of these state departments and agencies or their designees to serve on the state council.

Ch. 420 (AB 619) Emmerson Vehicle registration amnesty program: specially constructed vehicles.

(1) Existing law generally requires all vehicles operating upon the highways of this state to be registered and all fees and taxes to have been paid.

This bill would require the Department of Motor Vehicles to develop and administer a vehicle registration amnesty program which would be in effect from January 1, 2010, until December 31, 2010, for vehicles that were previously registered or classified incorrectly and that, pursuant to the program, become correctly registered, as defined. The department would be required to grant amnesty to a vehicle owner if all of the specified conditions are met by December 31, 2010, including, but not limited to, the owner filing a completed application, signed under penalty of perjury, with the department. Because a violation of this provision would expand the scope of the crime of perjury, this bill would impose a state-mandated local program.

These provisions would not become operative until July 1, 2009, and would be repealed on January 1, 2011.

This bill would require that for those specially constructed passenger vehicles or pickup trucks that participated in the amnesty program, the model year of the previous registration would be required to be the calendar year of the year in which the vehicle owner applied for amnesty, but exemptions from smog check requirements based on model-year would not apply.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 421 (AB 1954) Jeffries High-occupancy toll (HOT) lanes.

Existing law authorizes a regional transportation agency, in cooperation with the Department of Transportation, to apply to the California Transportation Commission to develop and operate high-occupancy toll (HOT) lanes, including administration and operation of a value pricing program and exclusive or preferential lane facilities for public transit. Existing law requires the commission to review these applications and submit an eligible application to the Legislature for approval or rejection. Existing law requires approval to be achieved by enactment of a statute. Existing law prohibits approval of an application on or after January 1, 2012.

This bill would authorize a value pricing and transit program involving HOT lanes to be developed and operated on State Highway Route 15 in Riverside County by the Riverside

County Transportation Commission. The bill would require the Riverside County Transportation Commission and the Department of Transportation to implement the program pursuant to a cooperative agreement that addresses specified matters in connection with the program and to establish appropriate traffic flow guidelines, as specified. The bill would authorize the Riverside County Transportation Commission to impose tolls and issue revenue bonds for the HOT lane project, as specified. The bill would authorize toll revenues to be used for specified purposes related to the project and to State Highway Route 15. The bill would state that the commission is not entitled to compensation for the adverse effects on toll revenues due to construction of competing facilities by the department or local agencies.

Ch. 422 (AB 352) Solorio Imitation firearms.

Existing law, subject to exceptions, makes it an offense to openly display or expose an imitation firearm in a public place, as defined.

This bill would include public schools within the definition of “public place” for purposes of these provisions.

By changing the scope of an existing offense, this bill would impose a state-mandated local program.

This bill would incorporate additional changes to Section 12556 of the Penal Code proposed by AB 2470, to be operative only under circumstances specified in the bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 423 (AB 534) Smyth Crimes against children.

Existing law makes it unlawful for any person to abuse children, as specified.

This bill would make it a misdemeanor, punishable as specified, for any person to publish information, as defined, describing or depicting the physical appearance of a child, the location of a child, or locations where children may be found with the intent that another person imminently use the information to commit a crime against a child and the information is likely to aid in the imminent commission of a crime against a child. This bill would also authorize the parent or legal guardian of a child about whom information is published to seek a preliminary injunction enjoining any further publication of that information.

Because this bill would create a new crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 424 (AB 541) Huffman Liability: genetically engineered plants.

Existing law provides that everyone is generally responsible, not only for the result of his or her willful acts, but also for an injury occasioned to another by his or her want of ordinary care or skill in the management of his or her property or person, except so far as the latter has, willfully or by want of ordinary care, brought the injury upon himself or herself.

This bill would provide a protocol for obtaining and testing a crop sample to determine whether a contract has been breached or a patent on a genetically engineered plant has been infringed by a farmer who is planting, managing, or harvesting a crop, as specified. The bill would provide for agreed or court-ordered sampling, with provisions relating to notice to the parties of sampling and results, protective orders against intentional destruction or damage to crops, and fees for sampling by or under agreement with the Secretary of Food and Agriculture. The bill would provide that a farmer is not liable based on the presence or

possession of a patented genetically engineered plant when the farmer did not knowingly buy or otherwise knowingly acquire the genetically engineered plant, acted in good faith and without knowledge of the genetically engineered nature of the plant, and when the genetically engineered plant is detected at a de minimis level, as specified. This bill would limit the applicability of its liability provision, as specified. This bill would state the intent of the Legislature, as specified, in enacting this act.

Ch. 425 (AB 856) Galgiani Agriculture.

Existing law provides that the Department of Food and Agriculture may pay counties an annual subvention for costs incurred in the enforcement of provisions of law relating to seed identification and quality. Existing law provides, pursuant to those provisions, that counties with no registered seed labelers shall annually receive \$100 and that counties with registered seed labeler operations shall receive no less than \$100. Existing law makes that provision inoperative on July 1, 2009, and repeals it on January 1, 2010.

This bill would provide that counties with no registered seed labelers may receive the apportioned \$100 subvention of funds at the discretion of the secretary and at the recommendation of the Seed Advisory Board. This bill would remove language providing that in no case shall a county with registered seed labeler operations receive less than \$100. The bill would also extend the operation of these provisions to January 1, 2010.

Ch. 426 (AB 994) Parra Health care: nurse training scholarship pilot program.

Existing law establishes the statewide Associate Degree Nursing (A.D.N.) Scholarship Pilot Program in the Office of Statewide Health Planning and Development to provide scholarships to students, in accordance with prescribed requirements, in counties determined to have the most need. Under existing law, the program will be repealed as of January 1, 2009.

This bill would extend the operative date of the pilot program to January 1, 2014.

Ch. 427 (AB 1060) Laird Tissue banks: licensure.

Existing law, with certain exceptions, requires every tissue bank operating in California to have a current valid license issued by the State Department of Public Health. Existing law defines a tissue bank as a place, establishment, or institution that collects, processes, stores, or distributes tissue for transplantation into human beings.

This bill would, additionally, exempt the storage of freeze-dried bone and dermis by any licensed dentist practicing in a lawful practice setting, providing that the freeze-dried bone and dermis has been obtained from a licensed tissue bank and is stored in strict accordance with a kit's package insert and any other manufacturer instructions and guidelines and is used for the express purpose of implantation into a patient.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 428 (AB 1188) Coto Multiple employer welfare arrangements: investments.

Existing law provides for the certification by the Insurance Commissioner of self-funded or partially self-funded multiple employer welfare arrangements (MEWAs) if certain requirements are met, including maintaining a specified cash surplus. Existing law requires a self-funded or partially self-funded MEWA to maintain 25% of that surplus in specified investments and authorizes the balance of the assets of the MEWA to be invested in certain other investments, as specified. Existing law requires a self-funded or partially self-funded MEWA transacting business in the state to file certain financial statements with the commissioner.

This bill would authorize a self-funded or partially self-funded MEWA to invest the balance of its assets in an office building or buildings that will be used for its principal operations and business if the MEWA obtains the commissioner's prior written approval and treats the building or buildings as nonadmitted assets in the financial statements filed with the commissioner.

**Ch. 429 (AB 1209) Karnette Vehicles: HOV lanes.**

Existing law authorizes the Department of Transportation to designate certain lanes for the exclusive use of high-occupancy vehicles (HOVs), which lanes may also be used, until January 1, 2011, by certain low-emission and hybrid vehicles not carrying the requisite number of passengers otherwise required for the use of an HOV lane if the vehicle displays a valid identifier issued by the Department of Motor Vehicles. The Department of Motor Vehicles is required to make available no more than 85,000 distinctive decals, labels, and other identifiers for certain hybrid or alternative fuel vehicles meeting specified mileage and emission standards.

This bill would authorize the Department of Motor Vehicles to issue additional distinctive decals, labels, or other identifiers for certain hybrid or alternative fuel vehicles that satisfy specified conditions.

**Ch. 430 (AB 1289) Price Fairs: out-of-zone, out-of-state, and out-of-country races: harness racing: workers' compensation.**

Existing law provides that when the San Mateo County Fair, or other fair or thoroughbred association, and the Humboldt County Fair simultaneously conduct race meetings, the San Mateo County Fair, or other fair or thoroughbred association, is authorized to distribute the signal and accept wagers on out-of-zone, out-of-state, and out-of-country races if it complies with specified conditions.

Under existing law, for the period in which both fairs are conducting race meetings, the San Mateo County Fair, or other fair or thoroughbred association, is required to give to the Humboldt County Fair 0.75% of the out-of-zone, out-of-state, and out-of-country handle. Existing law requires the San Mateo County Fair to distribute the remaining amount by retaining 50% and distributing it equally as commissions and purses with the other 50% being paid to the state as a license fee.

This bill would make clarifying changes to the above provisions.

Existing law authorizes a harness racing association, until January 1, 2009, upon approval of the organization representing harness horsemen and horsewomen, to deduct an additional 1% from the conventional parimutuel pools of harness races for workers' compensation costs of trainers, as specified, with any funds not expended for this purpose in the year in which they are collected to either be used for the following year's workers' compensation costs or to benefit the harness purse pool, as specified. If the harness racing association and the organization representing harness horsemen and horsewomen cannot agree on the manner of distribution of these funds, the matter is required to be submitted to the California Horse Racing Board for a decision.

This bill would extend the operation of these provisions until January 1, 2014.

**Ch. 431 (AB 1394) Krekorian Counterfeit: trademarks.**

Existing law makes it a misdemeanor or a felony for a person to willfully manufacture, intentionally sell, or knowingly possess for sale any counterfeit registered trademark, as specified. Existing law provides for the punishment for the violation and subsequent violations of these provisions if the person is a corporation. Existing law also provides, upon conviction, for the forfeiture and destruction of all the counterfeit trademarks and related articles, as specified. Existing law regarding counterfeited trademarks also applies to unassembled components of computer software packages. Under existing law, a court is required to order restitution, as specified, to a victim of a crime.

This bill would make those punishment provisions relating to corporations instead applicable to business entities, and would define "business entity" as including a corporation, limited liability company, or partnership. This bill would specify the procedure for the forfeiture of the counterfeited items. This bill would also expand the definition of a "counterfeit mark" and would apply those provisions to the unassembled components of any counterfeited article, as specified.

Because this bill would expand the definition of an existing crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 432 (AB 1480) Mendoza** State teachers' retirement: annuity contracts and custodial accounts.

Existing law requires the State Teachers' Retirement System to offer annuity contracts and custodial accounts to all employees of any state agency who are members of the State Teachers' Retirement Plan, as specified, or any employee of a local public agency or political subdivision of the state that employs persons to perform creditable service subject to coverage by the plan, as specified. Existing federal law permits the creation of individual retirement accounts referred to as Roth IRAs, and regulates the conditions under which a taxpayer may make a rollover contribution to a Roth IRA from another individual retirement account.

Existing law provides for the deposit of funds into the Teachers' Deferred Compensation Fund, a continuously appropriated fund.

This bill would permit the State Teachers' Retirement System to administer a Roth IRA for the purpose of accepting a rollover from an annuity contract or custodial account offered by the system to the extent the rollover complies with the federal tax law. The bill would permit the system to provide for the administration of the Roth IRA by a qualified 3rd-party administrator who would provide custodial, investment, recordkeeping, or administrative services. The bill would also provide for the deposit of revenues into the Roth IRA Operating Account within the Teachers' Deferred Compensation Fund. By increasing amounts deposited in that fund, this bill would make an appropriation.

**Ch. 433 (AB 1684) Emmerson** Vital records.

Existing law requires certified copies of birth and death records to include specified security features, including security paper that, commencing January 1, 2009, contains a statement that the document is informational and not a valid document to establish identity.

This bill would delete the statement requirement.

**Ch. 434 (AB 1907) Ruskin** Point-of-sale systems: price accuracy verification.

Existing law provides the criteria and methodology, as specified, by which local officials are to measure and verify the accuracy of a point-of-sale (POS) system used by retail establishments as a means for determining the price of an item being purchased by a consumer. Existing law provides procedures for the initial standard inspection as well as special inspections of a POS system. Under existing law, these provisions remain in effect only until January 1, 2009.

This bill would change the criteria established for an initial standard inspection of a POS system, including the size of the random sample, as specified. This bill would include within the definition of "special inspections" a reinspection of an establishment at which a price violation occurred within the previous 6 months, as opposed to within the previous 3 months. This bill would also extend the date on which these provisions would be repealed from January 1, 2009, to January 1, 2014. By directing local officials to follow a specified standard of inspection, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 435 (AB 1952) Berg** Business licensing: exemptions: veterans.

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Under existing law, every person who was honorably discharged or honorably relieved from the military, naval, or air service of the United States who served on or after June 27, 1950, and prior to February 1, 1955, or on or after August 5, 1964, who is physically unable to obtain a livelihood by manual labor, and who is a resident of the state, is entitled to obtain a license to distribute circulars and sell any goods, other than alcoholic beverages, without payment of applicable license taxes or fees.

This bill would provide that every person who is honorably discharged or honorably relieved from the military, naval, or air service of the United States and is a resident of this state, is entitled to obtain a license to distribute circulars and sell any goods, other than alcoholic beverages, without payment of any business license fees.

Ch. 436 (AB 1972) DeSaulnier Solid waste: plastic bags: food and beverage containers.

(1) Existing law prohibits a person from selling a plastic bag that is labeled as “compostable,” “biodegradable,” “degradable,” or as otherwise specified unless, at the time of sale, the bag meets a current American Society for Testing and Materials (ASTM) standard specification for the term used on the label.

This bill would, instead, prohibit the sale of a plastic bag that is labeled as “compostable” or “marine degradable,” unless that bag meets the ASTM Standard Specification for Compostable Plastics D6400, the ASTM Standard Specification for Non-Floating Biodegradable Plastics in the Marine Environment D7081, or a standard adopted by the California Integrated Waste Management Board, as specified. The bill also would prohibit the sale of a plastic bag that is labeled as “biodegradable,” “degradable,” “decomposable,” or as otherwise specified.

(2) Existing law prohibits a person from selling a plastic food or beverage container that is labeled as “biodegradable,” “compostable,” “degradable,” or as otherwise specified, unless, at the time of sale, the container meets the ASTM Standard Specification for Compostable Plastics D6400-04.

This bill would, instead, prohibit the sale of a food or beverage container, as defined, that is labeled as “compostable” or “marine degradable,” unless that container meets a specified ASTM standard specification or a standard adopted by the California Integrated Waste Management Board, as specified. The bill also would prohibit the sale of a food or beverage container that is labeled as “biodegradable,” “degradable,” “decomposable,” or as otherwise specified.

(3) This bill, for purposes of the provisions relating to labeling plastic bags and food and beverage containers, would require the board to review revisions of specified ASTM standard specifications and would authorize the board, in some cases, to adopt those standards. The bill would authorize the board to review new ASTM standard specifications and other specified standards, and in certain circumstances, to make a recommendation to the Legislature.

Ch. 437 (AB 2028) Solorio Peace officers: hiring.

Existing law requires peace officers to meet specified minimum standards, including being of good moral character, as determined by a thorough background investigation.

Under the Fair Employment and Housing Act, an employer may require a medical or psychological examination or make a medical or psychological inquiry of a job applicant after an employment offer has been made but before the commencement of employment duties, provided that the examination or inquiry is job related and consistent with business necessity and that all entering employees in the same job classification are subject to the same examination or inquiry.

This bill would provide that the collection of nonmedical and nonpsychological information, in accordance with a thorough background investigation required of all peace officers, may be deferred until after a conditional offer of employment is issued if the

employer can demonstrate that the nonmedical and nonpsychological information could not reasonably have been collected prior to issuing the employment offer.

Ch. 438 (AB 2045) De La Torre California Urban Forestry Act of 1978.

Existing law, the California Urban Forestry Act of 1978, authorizes the Department of Forestry and Fire Protection to implement a program in urban forestry to, among other things, encourage better management and planting of trees in urban areas and assist cities in innovative solutions to problems such as tree maintenance and vandalism. In implementing the program the department and the Director of Forestry and Fire Protection are given certain powers and duties, including, but not limited to, entering into agreements with public and private organizations and state agencies to carry out the goals of the program, taking steps necessary to eradicate Dutch elm disease, providing prescribed technical assistance to urban areas, assisting local tree maintenance programs, and providing assistance grants for 25% to 90%, inclusive, of project costs for urban forestry projects meeting certain guidelines. The act authorizes the department to use welfare-to-work participants, and inmates and wards assigned to conservation camps, in implementing the program.

This bill would expand the scope of the program to, among other things, include increasing integrated, multibenefit projects by assisting urban areas with innovative solutions to problems including greenhouse gas emissions, public health impacts of poor air and water quality, urban heat island effect, stormwater management, water shortages, lack of green space, and lack of urban parks accessible to pedestrians. The bill would also expand the powers and duties of the department by requiring the department to cooperate with statewide and regional urban forestry and arboricultural organizations or associations and additional state agencies and provide additional technical assistance to urban areas. The bill would eliminate the requirement that the director take all steps necessary to eradicate Dutch elm disease and remove limitations on the pests and diseases the department has the powers or duties to quarantine, prevent, or eliminate.

The bill would also authorize the department to utilize the California Conservation Corps or certified Community Conservation Corps in implementing the program.

This bill would authorize the director to waive project cost share requirements for applicants in disadvantaged and severely disadvantaged communities, as defined, and would expand the number and scope of urban forestry projects eligible for assistance grants.

Ch. 439 (AB 2048) Silva Horse racing.

Under existing law, the California Horse Racing Board is authorized to permit a harness or quarter horse association conducting a race meeting to accept wagers on the results of out-of-state, out-of-country, and sometimes other harness or quarter horse races, if specified conditions are met, including that the association conducts at least 7 live races and imports not more than 6 races on live racing days.

This bill would revise that provision to instead permit the association to import not more than 8 races on live racing days.

Existing law authorizes the operation of satellite wagering facilities.

This bill would require the board to review the regulations governing the operation of satellite wagering facilities, in an attempt to reduce the cost of operating these facilities.

Existing law authorizes a quarter horse racing association to deduct an additional 0.5% of the total amount handled in its exotic parimutuel pools, under certain conditions, to be distributed as specified. This authorization expires as of January 1, 2009.

This bill would extend that authorization to January 1, 2014.

Under existing law, revenues distributed to the state as license fees from horse racing are required to be deposited in the Fair and Exposition Fund and are continuously appropriated to the Department of Food and Agriculture for various regulatory and general governmental purposes.

By providing for the importation of additional out-of-state and out-of-country races, this bill would authorize additional wagering, and would increase the amount of continuously appropriated license fees, thereby making an appropriation.

Ch. 440 (AB 2052) Lieu Residential tenancies: domestic violence.

Existing law governs the renewal and termination of a lease of real property based on the terms of the lease, or on the behavior of the parties.

This bill would authorize a tenant to notify the landlord in writing that he or she or a household member, as defined, was a victim of an act of domestic violence, sexual assault, or stalking, as defined, and intends to terminate the tenancy. The bill would require the tenant to attach a copy of a temporary restraining order or emergency protective order, or a copy of a specified written report by a peace officer, to the notice. The bill would authorize the tenant to quit the premises and the tenant would be discharged from payment of rent for any period following 30 days from the date of the notice, or as specified. The bill would provide that the notice to terminate the tenancy shall be given within 60 days of the date the order was issued or the report was made, or as specified.

The bill would provide that other tenants, except a household member who is a victim of domestic violence, sexual assault, or stalking and members of that person's family, are not released from their obligations under the rental agreement.

Existing law establishes the criteria for determining when a tenant is guilty of unlawful detainer of a premises, and includes committing nuisance in this regard. Existing law, until January 1, 2010, in specified courts, deems certain conduct involving illegal sales of controlled substances and unlawful use of illegal weapons as committing a nuisance on the premises.

This bill would provide, only until January 1, 2012, for the purposes of the law of unlawful detainer, that if a person commits specified acts of domestic violence, sexual assault, or stalking against another tenant or subtenant on the premises, there is a rebuttable presumption affecting the burden of proof that the person has committed a nuisance on the premises unless the victim or a member of the victim's household has not vacated the premises.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 441 (AB 2090) Evans Alcoholic beverages: licenses.

The Alcoholic Beverage Control Act provides for the issuance of various special or temporary licenses that authorize the furnishing of alcoholic beverages under designated circumstances.

This bill would authorize the issuance of a special, temporary on-sale wine license to a nonprofit corporation, as described, that permits the sale of wine to the general public by the licensee, under specified circumstances, if the sale is part of an educational or instructional event.

The Alcoholic Beverage Control Act provides that a violation of specified provisions of the act is a misdemeanor. This bill, by including provisions that would be subject to those existing criminal sanctions, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 442 (AB 2094) DeSaulnier San Francisco Bay Conservation and Development Commission.

The Metropolitan Transportation Commission Act creates the Metropolitan Transportation Commission as a regional agency in the 9-county Bay Area with comprehensive regional transportation planning and other related responsibilities. Existing

law requires a joint policy committee of the commission, the Association of Bay Area Governments, and the Bay Area Air Quality Management District to coordinate the development and drafting of major planning documents prepared by the 3 agencies. Existing law provides for the San Francisco Bay Conservation and Development Commission and specifies its duties and membership.

This bill would require the San Francisco Bay Conservation and Development Commission to be represented on the joint policy committee with an equal number of committee members as other represented agencies by January 1, 2009, and would require that a majority of the commission's representatives on the committee, on and after January 1, 2011, be locally elected officials. The bill would include the San Francisco Bay Conservation and Development Commission in coordinating the development and drafting of major planning documents prepared by the member agencies. By imposing new duties on local agencies, the bill would impose a state-mandated local program. The bill would also authorize the San Francisco Bay Conservation and Development Commission, in coordination with local governments, regional councils of government, and other agencies and interested parties, to develop regional strategies, as needed, for addressing the impacts of, and adapting to, the effects of sea level rise and other impacts of global climate change on the San Francisco Bay and affected shoreline areas.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 443 (AB 2103) Plescia Horse racing: thoroughbred racing: workers' compensation.

Existing law, operative until January 1, 2009, provides that every thoroughbred association and fair that conducts a racing meet shall deduct a percentage of the total amount handled in exotic parimutuel pools of thoroughbred races, which shall be distributed to a thoroughbred racing association to defray costs of workers' compensation insurance in connection with thoroughbred horses that race in this state, as specified. Existing law provides that any funds that are not used to defray the cost of workers' compensation insurance shall either be carried forward to the subsequent year or used to reimburse racing associations for safety-related expenditures, as specified.

This bill would extend the operation of these provisions until January 1, 2014. The bill would also make conforming and technical, nonsubstantive changes.

Ch. 444 (AB 2133) Hancock State contracts: agency projects: habitat and wetlands.

Existing law requires the Department of General Services to approve certain contracts entered into by a state agency. Existing law allows the Department of General Services to authorize the carrying out of a project directly by a department within the Resources Agency, without the services of the Department of General Services, as long as the estimated project cost does not exceed \$500,000.

This bill would allow the Department of General Services to authorize a board, commission, or conservancy within the Resources Agency to also carry out a project, without the services of the Department of General Services, as long as the estimated project cost does not exceed \$500,000. This bill also would allow the State Coastal Conservancy, with the approval of the Department of General Services, to directly carry out a public works project involving habitat or wetlands restoration and certain improvements other than buildings and nonaccess related structures, on specified state-owned lands.

Ch. 445 (AB 2143) De Leon Insurance: fraud assessment fees.

Existing law provides that each insurer doing business in this state shall pay an annual special assessment to be determined by the commissioner, but not to exceed \$0.50 annually for each vehicle insured under an insurance policy the insurer issues in this state, in order to fund the Fraud Division and an Organized Automobile Fraud Activity Interdiction Program. Under existing law, the commissioner awards grants from this program to district attorneys and other entities to assist in the prosecution and investigation of organized automobile insurance fraud activity. Existing law provides that this assessment will repeal on January 1, 2010.

This bill would extend the repeal date to January 1, 2015.

Ch. 446 (AB 2165) Karnette Tidelands and submerged lands: City of Long Beach: oil reserves.

Under existing law, the State Lands Commission and the City of Long Beach are required to enter into a contractors' agreement and any other necessary contracts or agreements for the production of oil, gas, and other hydrocarbons from specified Long Beach tidelands, in accordance with prescribed requirements.

This bill would authorize the commission to negotiate and execute, on behalf of the state, a contract with the City of Long Beach and its tidelands oil operating contractor, that provides financial incentives for the contractor to explore for and develop additional oil reserves beneath the tidelands and submerged lands covering specified parcels in a certain oil field.

The bill would, with respect to that contract and the development of additional oil reserves, provide for the sharing of revenues among the state, the City of Long Beach, and the contractor, and the payment of and purposes for which the revenues may be used. The bill would also authorize the extension of the term of a related contract.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 447 (AB 2168) Jones Farm stands: direct marketing: retail food.

Existing law sets forth various findings and declarations relating to the direct marketing of agricultural products.

This bill would include certain findings with respect to farm stands and would state that it is the intent of the state to promote the consumption of California-grown produce, as specified.

Existing law authorizes the Secretary of Food and Agriculture to adopt regulations to encourage the direct sale by farmers to consumers of all types of California agricultural products, as specified.

This bill would, instead, authorize the adoption of those regulations to encourage the direct sale by farmers to the public of all types of California agricultural products. The bill would also specify that the regulations may include provisions to ensure that selling activities are conducted without fraud, deception, or misrepresentation.

Existing law provides for the direct marketing of agricultural products, including through certified farmers' markets or at a retail stand located at or near the point of production, subject to specified conditions.

This bill would delete language authorizing this direct marketing by retail stands located at or near the point of production, and would instead authorize field retail stands, as defined, and farm stands, as defined, to engage in similar direct marketing, subject to similar conditions. This bill would also establish farm stands, as defined, subject to certain specified requirements, as another form of direct marketing outlet. The products available from, and the restrictions and requirements that apply to, these direct marketing venues would vary, as specified.

Existing law provides that any violation of these provisions is a misdemeanor.

Because this bill would create a new crime, the bill would impose a state-mandated local program.

Existing law, the California Retail Food Code (CRFC), provides for the regulation of health and sanitation standards for retail food facilities by the State Department of Public Health. Existing law defines “food facility,” “produce,” and “producer” for these purposes. A violation of any provision of the CRFC is a misdemeanor.

This bill would include farm stands, as defined, for purposes of permitting and enforcement, within the definition of “food facility.” The bill would require farm stands to meet specified requirements. By creating new crimes, this bill would impose a state-mandated local program.

This bill would also revise the definitions for “produce” and “producer,” as provided.

This bill would incorporate additional changes to Section 113789 of the Health and Safety Code, proposed by SB 1359, to be operative only if both this bill and SB 1359 are enacted and become effective on or before January 1, 2009, each bill amends Section 113789 of the Health and Safety Code, and this bill is enacted after SB 1359.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 448 (AB 2205) Garrick Horse racing: racing weeks: allocations.

The Horse Racing Law generally regulates horse racing and vests the administration and enforcement of its provisions in the California Horse Racing Board. Existing law requires the board to make allocations of racing weeks as it deems appropriate and specifies the maximum number of racing weeks that may be allocated for horse racing other than at fairs, including, for thoroughbred racing, a maximum of 44 weeks per year in the northern zone, 42 weeks per year in the central zone, and 7 weeks per year in the southern zone.

This bill would authorize the board, if a venue used for thoroughbred racing by an association or racing fair licensed to conduct thoroughbred racing in the central zone in 2008 is not available for racing in 2009 or thereafter, to allocate the dates formerly allocated to that venue to licensed associations or racing fairs in the southern or central zone. The bill would provide that, upon allocation of dates pursuant to these provisions, no association or racing fair licensed to conduct thoroughbred racing in the southern or central zones may receive more than 25 weeks of thoroughbred racing in the combined southern and central zones. The bill would prohibit the aggregate allocation of racing weeks conducted in the southern and central zones from exceeding the total aggregate racing weeks permitted to be run in those zones, as specified.

#### Ch. 449 (AB 2210) Price Dentistry: emergency services.

Existing law, the Dental Practice Act, provides for the licensure and regulation of dentists and dental auxiliaries by the Dental Board of California in the Department of Consumer Affairs. The act provides that a licensee who either in good faith renders emergency care at the scene of an emergency or, upon request of another licensee, renders emergency care for a complication arising from prior dental care, as specified, is exempt from liability for civil damages as a result of any acts or omissions in rendering the emergency care.

This bill would also provide specified immunity to a licensee who voluntarily and without compensation or expectation of compensation provides emergency medical care consistent with his or her dental education and emergency training during a declared state of emergency, as specified, for any personal injury, wrongful death, or property damage caused by the licensee’s good faith but negligent act or omission. The bill would also authorize the board, for the duration of a declared state of emergency, as specified, to suspend compliance with any provision of the Dental Practice Act or regulation adopted thereunder that would adversely affect a licensee’s ability to provide emergency services.

#### Ch. 450 (AB 2223) Horton Structural Fumigation Enforcement Program.

Until January 1, 2010, existing law provides that the Los Angeles County Agricultural Commissioner, the Orange County Agricultural Commissioner, and the Santa Clara County Agricultural Commissioner may contract with the Director of the Department of Pesticide Regulation to perform increased structural fumigation, inspection, and enforcement activities in Los Angeles County, Orange County, and Santa Clara County. Existing law authorizes the director to adopt regulations to carry out these provisions and to levy a civil penalty against a person violating these provisions.

This bill would also apply these provisions to the San Diego County Agricultural Commissioner and to San Diego County. The bill would extend the operation of these provisions to January 1, 2011.

Ch. 451 (AB 2241) Saldana Vehicle operation: temporary permits.

Existing law authorizes the Department of Motor Vehicles in its discretion to issue a temporary permit to operate a vehicle when a payment of fees has been accepted in an amount to be determined by, and paid to, the department, by the owner or other person in lawful possession of the vehicle.

Existing law requires the department to require a person to obtain a valid certification of compliance upon initial registration, transfer of ownership and registration, or biennial renewal of registration of a motor vehicle that is subject to vehicular air pollution control requirements.

This bill would, with regard to biennial renewal of registration of a motor vehicle, require that a fee of \$50 be paid for each temporary permit issued pursuant to these provisions when a certificate of compliance is required, except that the fee would not be charged for a vehicle that has been accepted into the Bureau of Automotive Repair Consumer Assistance Program if the owner of the vehicle qualifies as an income eligible applicant for the program and presents sufficient evidence of this fact. The bill would limit the issuance of a temporary permit under these circumstances to a vehicle that has failed its most recent smog check inspection. The bill would also limit, under these circumstances, the issuance of a temporary permit to not more than one permit to a vehicle owner in a 2-year period, and the temporary permit would be valid for either 60 days from the date of the expiration of the registration of the vehicle or 60 days from the date that the vehicle is removed from nonoperation, as specified.

Ch. 452 (AB 2250) Sharon Runner Public employment: outside compensation.

Existing law authorizes an officer or employee of the state to receive compensation from a nonprofit corporation formed exclusively to aid and assist a state museum for services rendered to the nonprofit corporation and for expenses of performing those services if the nonprofit corporation obtains prior written approval of the Department of Personnel Administration and files a specified statement with the Controller. Existing law prohibits Members of the Legislature, state, county, district, judicial district, and city officers or employees from being financially interested in any contract made by them in their official capacity, or by any body or board of which they are members.

This bill would, in addition, authorize an officer or employee of the state to receive compensation from a nonprofit corporation formed exclusively to aid and assist a district agricultural association, as specified. The bill would require the nonprofit corporation to file the specified statement with the Controller and the Department of Personnel Administration, and would require any subsequent changes to the compensation for any officer or employee provided under this provision to be approved by the Department of Personnel Administration. This bill would require any nonprofit corporation that compensates an officer or employee of the state, as provided, to notify the Division of Fairs and Expositions of the Department of Food and Agriculture, and would require approval of that compensation by the division prior to payment. The bill would also require the Department of Food and Agriculture, during regular audits, to review the payments from the nonprofit

corporation to any state employees and those state employees' responsibilities to the nonprofit corporation, as specified. The bill would also prohibit a state officer or employee of an association from being compensated by the nonprofit corporation when that state officer or employee acts in an official capacity with regard to any contract made with the nonprofit corporation.

Ch. 453 (AB 2258) Evans Horse racing: license fees: shortfalls: pro rata assessment.

Existing law, the Horse Racing Law, provides that if the total amount paid to the state by racing associations and fairs is less than \$40,000,000 in any calendar year, all associations and fairs that conducted live racing during the year of the shortfall are required to remit certain amounts, on a pro rata basis according to the amount handled in-state by each association or fair, in order to attain that \$40,000,000 total.

This bill would specify instead that if the total amount paid to the state as license fees by racing associations and fairs is less than \$40,000,000 in any calendar year, all associations and fairs that conducted live racing during the year of the shortfall shall remit to the state, on a pro rata basis according to the amount paid as license fees by each association or fair, the amount necessary to bring the total amount paid to the state as license fees to \$40,000,000.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 454 (AB 2280) Saldana Density bonus.

The Planning and Zoning Law requires, when a developer of housing proposes a housing development within the jurisdiction of the local government, that the city, county, or city and county provide the developer with a density bonus and other incentives or concessions for the production of lower income housing units or the donation of land within the development if the developer, among other things, agrees to construct a specified percentage of units for low-, very low, or moderate-income households or qualifying residents.

This bill would impose certain procedures on the application for a density bonus and other incentives or concessions.

The bill would require a city, county, or city and county to grant a concession or incentive requested by the applicant under existing law unless the city, county, or city and county makes a written finding, based upon substantial evidence, that, among other things, the concession or incentive would be contrary to state or federal law.

The bill would delete a requirement that an applicant for a waiver or reduction of development standards show that the waiver or modification is necessary to make proposed housing units economically feasible.

The bill would require, as a condition for the granting of a density bonus to a developer in exchange for donating land to a city, county, or city and county for very low income housing, that the local agency identify a source of funding for the very low income units.

Ch. 455 (AB 2287) Evans Firefighters: benefits.

The Public Employees' Medical and Hospital Care Act provides continuing health benefit coverage to the surviving spouse, as defined, or eligible family member of a firefighter or peace officer who dies as a result of an injury or disease sustained in the line of duty, including a firefighter employed by the federal government who was a resident of, and whose regular duty assignment was to perform firefighting services in, this state. Contributions paid by those persons and the state are deposited into one of 2 continuously appropriated funds to provide that coverage. Existing law requires the employer of the deceased firefighter or peace officer to notify the Board of Administration of the Public Employees' Retirement System within 10 days of the death of the employee if a spouse or family member may be eligible for enrollment in a health benefit plan under those provisions.

This bill would instead require the employer of the deceased firefighter or peace officer to make that notification within 10 business days of the employee's death. The bill would also make technical, clarifying changes to that definition of a surviving spouse.

Ch. 456 (AB 2337) Beall Child abuse reporting: mandated reporters.

Existing law, the Child Abuse and Neglect Reporting Act, requires a mandated reporter, as defined, to report whenever he or she, in his or her professional capacity or within the scope of his or her employment, has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. Failure to report an incident is a crime punishable by imprisonment in a county jail for a period of 6 months, a fine of up to \$1,000, or by both that imprisonment and fine.

This bill would add alcohol and drug counselors, as specified, to the list of individuals who are mandated reporters. By imposing the reporting requirement on a new class of persons, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 457 (AB 2341) Maze Reunification services.

Existing law requires the juvenile court to order a social worker to provide child welfare services to a child and the child's mother and statutorily presumed father or guardians when the child is removed from the custody of the parent or guardian, except as specified. If the child was 3 years of age or older on the date of initial removal from the physical custody of his or her parent or guardian, existing law requires that the court-ordered services not exceed a period of 12 months from the date the child entered foster care, except as specified. If the child was under 3 years of age on the date of initial removal from the physical custody of his or her parent or guardian, those court-ordered services shall not exceed a period of 6 months from the date the child entered foster care.

This bill would revise those provisions to require that reunification services be provided during the period of time beginning with the dispositional hearing and ending with the date of the review hearing that is scheduled for either 6 months or 12 months depending upon the age of the child involved. By specifically requiring that services be provided for a minimum time period, the bill would impose additional duties on county employees, thereby imposing a state-mandated local program.

This bill would also allow any party to petition the court and the court to terminate those court-ordered reunification services if it appears that a change of circumstance or new evidence exists that justifies termination, or that the action or inaction of the parent or guardian creates a substantial likelihood that reunification will not occur, and upon a hearing and findings, as specified.

This bill would incorporate additional changes in Section 361.5 of the Welfare and Institutions Code proposed by AB 2070, that would become operative only if both bills are chaptered, as specified.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 458 (AB 2376) Price Small and Emerging Contractors Technical Assistance Program.

Existing law provides that the Department of Transportation shall have full possession and control of all state highways. Existing law establishes the Office of Small Business Advocate and specifies the duties and functions of the office.

This bill would authorize the Department of Transportation, in consultation with the Office of Small Business Advocate, to establish a Small and Emerging Contractor Technical Assistance Program for the purpose of providing training and technical assistance to small contractors, as defined, to improve their ability to secure surety bond guarantees, offered by the federal Small Business Administration, as specified. To cover the cost of providing training under the program, the bill would authorize the department to use up to \$200,000 of state funds if those funds are available to the department and would authorize the department to charge a fee to participants in the program. The bill would repeal these provisions on January 1, 2013.

**Ch. 459 (AB 2400) Price Hospitals: closure.**

Under existing law, the State Department of Public Health is responsible for licensing and regulating health facilities, including hospitals. Existing law, with certain exceptions, requires a hospital that plans to reduce or eliminate emergency medical services to notify various entities at least 90 days before it takes that action.

This bill would, with a certain exception, require, not less than 30 days prior to closing a general acute care or psychiatric hospital, eliminating a supplemental service, as defined, or relocating the provision of a supplemental service to a different campus, the hospital to provide certain notice regarding the proposed closure, elimination, or relocation to the public and the applicable administering department, in accordance with certain procedures.

Under existing law, violation of the provisions relating to health facility licensure is a misdemeanor.

By changing the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 460 (AB 2402) La Malfa Vehicles: removal from roadside rest area or viewpoint.**

Under existing law, a peace officer, as defined, or a regularly employed and salaried employee, who is engaged in directing traffic or enforcing parking laws and regulations, of a city, county, or jurisdiction of a state agency in which a vehicle is located, may remove a vehicle located within the territorial limits in which the officer or employee may act, under specified circumstances, including when a vehicle, with certain exceptions, is stopped, parked, or left standing for more than 8 hours within a roadside rest area or viewpoint.

This bill would, notwithstanding this provision, extend this period to 10 hours for a commercial motor vehicle, as defined.

This bill would incorporate changes to Section 22651 of the Vehicle Code proposed by both this bill and AB 2042, which would become operative only if both bills are enacted and this bill is enacted after AB 2042.

**Ch. 461 (AB 2426) Cook Alcoholic beverages: tied-house restrictions: brewpub restaurants.**

The Alcoholic Beverage Control Act contains limitations on sales commonly known as “tied-house” restrictions, which generally prohibit a manufacturer, winegrower, manufacturer’s agent, California winegrower’s agent, rectifier, distiller, bottler, importer, or wholesaler from owning any interest in an on-sale or off-sale license, licensee, or licensed premises. Existing law contains various exemptions from this restriction on tied interests.

This bill would permit a person that operates an out-of-state winery and produces a limited amount of distilled spirits in another state to hold an interest in no more than 12 brewpub-restaurant licenses, provided specified conditions are met.

The Alcoholic Beverage Control Act provides that a violation of specified tied-house provisions is punishable as a misdemeanor. This bill, by including provisions that would be subject to those existing criminal sanctions, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 462 (AB 2448) Feuer Courts: access to justice.

Existing law requires the Judicial Council to formulate and adopt uniform forms and rules of court for litigants proceeding in forma pauperis, providing, among other things, standard procedures for considering and determining applications for permission to proceed in forma pauperis, and that permission to proceed in forma pauperis be granted to eligible litigants.

This bill would, beginning July 1, 2009, revise and recast these provisions to provide, instead, that an initial fee waiver shall be granted by the court at any stage of the proceedings at both the appellate and trial court levels if an applicant meets specified standards of eligibility and application requirements. The bill would authorize the court to reconsider the initial fee waiver and to recover fees and costs that were waived under specified circumstances. Among other things, the bill would impose a lien in favor of the court against any settlement, compromise, award, or other recovery of \$10,000 or more in value by a party in a civil case whose court fees and costs were initially waived in the amount of those waived fees and costs. The bill would require the Judicial Council to adopt rules and forms to establish uniform procedures to implement these provisions, and would require applicants for an initial fee waiver to complete application forms under penalty of perjury. The bill also would require a party who petitions the court to enter a satisfaction of judgment to declare under penalty of perjury that any order requiring payment of waived fees and costs has been satisfied, and a party who petitions the court for dismissal in a case to declare under penalty of perjury that a lien in favor of the court against any settlement, compromise, award, or other recovery has been paid, as specified. By expanding the scope of the crime of perjury, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 463 (AB 2465) Duvall Insurance: replacement of life and annuity policies.

Existing law regulates the replacement of life insurance and annuity policies. Specified types of life and annuity products and transactions are exempt from the requirements and prohibitions in existing law, including an application to the existing insurer that issued the existing life insurance when a contractual change or a conversion privilege is being exercised.

This bill would add to the transactions exempt from the regulation of insurance and annuity policies, an application to the existing insurer that issued the existing life insurance when a term conversion privilege, as defined, is exercised among corporate affiliates.

#### Ch. 464 (AB 2527) Berg Medi-Cal: Targeted Case Management and Administrative Claiming process programs.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income persons receive health care services.

Under existing law, targeted case management (TCM) is a covered benefit under the Medi-Cal program. Existing law requires a TCM provider to be a local governmental agency (LGA) under contract with the department to provide TCM services, and permits a TCM provider to contract with a nongovernmental entity or the University of California, or both, to provide TCM services on its behalf under the conditions specified by the department in regulations.

This bill would, instead, authorize a LGA to contract with any private or public entity to provide TCM services on its behalf under the conditions specified by the department in regulations.

Existing law authorizes the department to contract with LGAs or local educational consortia to assist with the performance of administrative activities necessary for the proper and efficient administration of the Medi-Cal program, which is known as the Administrative Claiming process. Existing law authorizes a LGA to subcontract with nongovernmental entities, as defined, to assist with the performance of these administrative activities.

This bill would, instead, authorize a LGA or a local educational consortium to subcontract with any private or public entity to assist with the performance of the above-described administrative activities and would make conforming changes.

Existing law requires a LGA that elects to provide TCM services, and each LGA or local educational consortium participating in the Administrative Claiming process, to certify the availability and expenditure of 100% of the nonfederal share for the provision of either TCM services or the cost of performing Administrative Claiming activities, as provided.

This bill would revise these provisions to, instead, require a LGA that elects to provide TCM services, and each LGA or local educational consortium participating in the Administrative Claiming process, to certify the expenditure of 100% of the entity's costs incurred in the provision of TCM services or Administrative Claiming process activities.

This bill would permit, to the extent consistent with federal law, a city or other local governmental entity that contracts with any LGA or educational consortium for TCM services or Administrative Claiming activities, as appropriate, to submit claims for certified expenditures made by the city or entity in providing these services to the LGA or a local educational consortium, as provided.

#### Ch. 465 (AB 2565) Eng Hospitals: brain death.

Existing law, the Uniform Determination of Death Act, defines a person as being "dead" to include when an individual has sustained irreversible cessation of all functions of the entire brain, including the brain stem. Existing law requires a determination of death to be made in accordance with accepted medical standards.

Existing law, administered by the State Department of Public Health, provides for the licensure and regulation of health facilities, including general acute care hospitals. A violation of the provisions regulating health facilities is a crime.

This bill would require a general acute care hospital to adopt a policy for providing a family or next of kin with a reasonably brief period of accommodation, as defined, from the time that a patient is declared dead by reason of irreversible cessation of all functions of the entire brain, including the brain stem, in accordance with a provision of existing law, through discontinuation of cardiopulmonary support for the patient. The bill would also require the hospital to provide the patient's legally recognized health care decisionmaker, if any, or the patient's family or the next of kin, if available, with a written statement of the policy developed pursuant to these provisions, as soon as possible when the potential for brain death is imminent. The bill would require the hospital, if the patient's legally recognized health care decisionmaker, or next of kin voices any special religious or cultural practices or concerns of the patient or the patient's family surrounding the issue of death by reason of irreversible cessation of all functions of the entire brain of the patient, to make reasonable efforts, as described, to accommodate those special religious or cultural practices and concerns. By creating a new crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 466 (AB 2726) Leno Healthy Food Purchase pilot program.

Existing law, until January 1, 2011, requires the State Department of Public Health to develop a "Healthy Food Purchase" pilot program to increase the sale and purchase of fresh fruits and vegetables in low-income communities, as specified. Existing law conditions implementation of the program in any fiscal year upon appropriation by the Legislature of federal or other funds for that purpose.

This bill would authorize the department, on or after July 1, 2009, to implement the program to the extent that the Department of Finance determines that there are sufficient funds available for that purpose from any source, including state funds, federal funds, except as specified, or funds received from grants or private donations. The bill would provide that notwithstanding any other provision of law, no General Fund moneys shall be used to fund the program. This bill would extend to January 1, 2013, the repeal date of the program.

Ch. 467 (AB 2738) Jones Indemnification: construction contracts.

(1) Existing law provides that, except as specified, all agreements affecting any residential construction contract and amendments to such a contract entered into after January 1, 2008, that purport to indemnify the general contractor or contractor not affiliated with the builder by a subcontractor against liability for claims of construction defects or other injury to property arising from, pertaining to, or relating to the negligence of the nonaffiliated general contractor or nonaffiliated contractor or their other agents, servants, or independent contractors who are directly responsible to the nonaffiliated general contractor or nonaffiliated contractor, or for defects in design furnished by those persons, or for claims that are unrelated to the scope of the work in the agreement, are unenforceable.

A similar provision applies with respect to construction contracts for residential construction entered into after January 1, 2006, that purport to indemnify the builder by a subcontractor against liability for claims of construction defects.

This bill would delete the provisions applicable to construction contracts entered into on or after January 1, 2008, that purport to indemnify the general contractor or contractor not affiliated with the builder. The bill would revise the provisions applicable to contracts entered into after January 1, 2006, to instead apply to contracts entered into after January 1, 2009, and to apply to agreements that purport to insure or indemnify the builder or the general contractor or contractor not affiliated with the builder, as described. The bill would provide that if a builder or contractor tenders a claim, or a portion thereof, to a subcontractor, the subcontractor shall be entitled to either defend the claim with counsel of its choice or pay, within 30 days of receipt of an invoice from the builder or general contractor, no more than a reasonable allocated share of the builder's or general contractor's defense fees and costs. The bill would provide that a builder, general contractor, or subcontractor has the right to seek equitable indemnity for construction defect claims pursuant to these provisions.

(2) Existing law defines a wrap-up insurance policy as an insurance policy, or series of policies, written to cover risks associated with a work of improvement and covering 2 or more contractors or subcontractors that work on the work of improvement.

This bill would impose specified requirements upon any wrap-up insurance policy or other consolidated insurance program that insures a private residential work of improvement that first commences construction after January 1, 2009. The bill would require an owner, builder, or general contractor obtaining the policy or program to disclose the total amount or method of calculation of any credit or compensation for premium required from a subcontractor or other participant for that policy or program, and other, specified information regarding the policy.

The bill would impose similar disclosure requirements if an owner, builder, or general contractor obtains a wrap-up insurance policy or other consolidated insurance program for a public work or any other project other than residential construction that is put out for bid after January 1, 2009.

Ch. 468 (AB 2750) Krekorian Music piracy: restitution.

Existing law makes it a crime for a person to fail to disclose the origin of a recording or audiovisual work if the person advertises for sale or sells the work for commercial advantage or private financial gain, as specified. Existing law also makes it a crime to misappropriate recorded music for commercial advantage or private financial gain, as specified. Under existing law, it is also a crime for a person to transport any article containing sounds of a live performance or to record or master any article with the sounds of a live performance and with the intent to sell the article for commercial advantage or private financial gain with knowledge the sounds of the live performance were recorded or mastered without consent of the owner, as specified.

Under existing law, in every case in which a victim has suffered economic loss as a result of the defendant's conduct, the court is required to impose an order upon the defendant to make restitution to the victim or victims, as specified.

This bill would instead require a person convicted of a violation of any of the above-mentioned crimes to make restitution, as specified, to the owner or lawful producer, or trade association acting on behalf of the owner or lawful producer, of the phonograph record, disc, wire, tape, film, or other device or article from which the sound or visual images were derived that suffered economic loss resulting from the violation.

Ch. 469 (AB 2794) Blakeslee Diagnostic imaging services.

Existing law prohibits a healing arts practitioner from charging, billing, or otherwise soliciting payment for anatomic pathology services, as defined, if those services were not actually rendered by the practitioner or under his or her direct supervision, except as specified. Existing law also requires a clinical laboratory and a physician and surgeon performing anatomic pathology services to directly bill the patient, the responsible 3rd-party payer, the clinical laboratory that sent the sample for specialized testing, if certain requirements are met, the requesting hospital or clinic, or the governmental agency or its specified public or private agent, agency, or organization responsible for payment for those services, except as specified.

This bill would additionally prohibit a healing arts practitioner from charging, billing, or soliciting payment from any patient, client, or 3rd-party payer, as defined, for performance of the technical component of specified diagnostic imaging services not rendered by the licensee or a person under his or her supervision, as defined. The bill would also require a radiological facility or imaging center performing the technical component of those diagnostic imaging services to directly bill either the patient or the responsible 3rd-party payer for the services, and would prohibit the radiological facility or imaging center from billing the licensee who requested the services. The bill would exempt specified persons, radiological facilities, imaging centers, clinics, health care programs, or the performance of diagnostic imaging services within a licensee's office, from these provisions. Because a violation of these provisions would be a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 470 (AB 2838) Duvall State employment: serious illness: purchase of service credit.

Existing law allows members of the Public Employees' Retirement System to purchase additional service credit, as specified. Existing law provides that time during which a member is absent from state service because of injury or illness arising out of, and in the course of, employment shall be considered as spent in state service for the purpose of qualification for retirement and death benefits, but not for calculation of retirement benefits, except as specified.

This bill would authorize a member who returns to active service following an employer-approved uncompensated leave of absence because of his or her serious illness to purchase service credit for that period of absence, as specified. The bill would require a member purchasing this service credit to pay an amount equal to the increase in employer liability connected with the costing of the service credit, as specified. The bill would prohibit the purchase of additional service credit pursuant to these provisions from reducing the amount of service credit that the member is otherwise eligible to purchase, as specified. The bill would permit a member to purchase service credit for a leave of absence that occurred either before or after the date the bill became effective.

Ch. 471 (AB 3025) Lieber Solid waste: polystyrene loosefill packaging.

(1) Existing law prohibits the sale of plastic bags labeled with the term "compostable," "biodegradable," "degradable," or any form of those terms unless the bags meet specified standards.

This bill would prohibit on and after January 1, 2012, a wholesaler or manufacturer, as defined, from selling or offering for sale, expanded polystyrene loosefill packaging in this state, unless it is comprised of a specified amount of recycled material, as defined, as provided in a schedule that would increase that percentage until January 1, 2017, when the amount would be required to be 100% recycled material.

A violation of this act would be an infraction punishable by a fine not exceeding \$1,000.

Because this bill would create a new crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 472 (SB 890) Scott Pupils: Early Commitment to College program.

Existing law requires a school district maintaining any of grades 7 to 12, inclusive, to offer to all otherwise qualified pupils in those grades a course of study fulfilling the requirements and prerequisites for admission to the California public institutions of postsecondary education and to provide a timely opportunity to each of those pupils to enroll within a 4-year period in each course necessary to fulfill those requirements and prerequisites.

Existing law authorizes a school district to apply to establish a University and College Opportunities Program with existing local or categorical funds. The program plan developed by a school district or school is required to include, among other things, college counseling to assist pupils in preparing application forms for college admission, to procure scholarships and other financial aid, and to meet all deadlines for these programs.

This bill would establish, until January 1, 2019, the Early Commitment to College program. Participation by pupils, school districts, colleges, and universities in the program would be voluntary. A pupil scheduled to graduate from high school after 2017 would not be allowed to participate. The Superintendent of Public Instruction would be required, among other program duties, to designate the 30% of public schools that maintain any of grades 6 to 9, inclusive, with the highest proportion of low-income pupils, as defined, as College Opportunity Zones. A school that is designated as a College Opportunity Zone by the Superintendent would be required to give all pupils enrolled in grades 6 to 9, inclusive, and their parents or guardians the opportunity to sign a "Save Me a Spot in College" pledge

developed by the Superintendent. Schools not designated as a College Opportunity Zone would be required to give pupils who are eligible for free and reduced-price meals and are enrolled in grades 6 to 9, inclusive, and their parents or guardians the opportunity to sign a pledge. Participating school districts would be required to provide college information and college preparation events inclusive of pupils who sign the pledge.

The bill would provide that a pupil who signs a pledge declares a commitment to prepare for college, finish high school, and enroll in college and commits, among other things, to meet all graduation requirements, take college preparatory coursework, complete and file a free application for federal student aid, and submit his or her grade point average to the Student Aid Commission by March 2 of his or her senior year. A pupil who signs the pledge and is certified by his or her school district as having fulfilled the requirements of the pledge would receive, upon enrollment at a community college, a fee waiver under the fee waiver program of the Board of Governors of the California Community Colleges for 2 or more years of enrollment at a California community college.

The bill would encourage the California Community Colleges, the University of California, the California State University, independent colleges and universities, the California Student Opportunity and Access Program, the Student Aid Commission, and other nonprofit, business, or other community organizations to provide support services as needed in coordination with school districts.

The bill would require the Superintendent to submit a recommendation to the Legislature, on or before November 1, 2017, on whether the program should be continued.

These provisions would be repealed on January 1, 2019.

#### Ch. 473 (SB 946) Scott Community College Early Assessment Pilot Program.

Existing law establishes the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as one of the segments of postsecondary education in this state. Existing law establishes community college districts throughout the state, and authorizes those districts to provide instruction to students at community college campuses.

This bill would express legislative findings and declarations relating to the Early Assessment Program (EAP), a collaborative effort established by the California State University to enable pupils to learn about their readiness for college-level English and mathematics before their senior year of high school. The bill would express legislative intent that the existing EAP be modified by expanding it to include the California Community Colleges. The bill would also express legislative intent that the existing EAP student notification system, as currently operated by agreement between CSU and the State Department of Education, be modified to include specified requirements.

This bill would authorize community college districts to use the California Standards Test (CST) and augmented CST to provide diagnostic advice to prospective community college students participating in the EAP. As authorized by specified law, the individual results of the CST and the augmented CST would be provided to the office of the Chancellor of the California Community Colleges, which would coordinate with community college districts that choose to voluntarily participate in the EAP. The bill would specify that certain provisions apply to those community college districts that choose to work directly with high school pupils who took the CST and choose to offer assistance to these pupils in strengthening their college readiness skills.

The bill would require that the individual results of the CST and the augmented CST be released to, and in addition to any other purposes permit the use by, CSU to provide diagnostic advice to, or for the placement of prospective CSU students participating in the EAP. The bill would prohibit CSU from using the individual results of the CST and the augmented CST as a criterion for admission.

Ch. 474 (SB 1457) Steinberg Golden State Scholarshare Trust Act: CalSAVE program.

The Golden State Scholarshare Trust Act establishes the Golden State Scholarshare Trust, under the administration of the Scholarshare Investment Board, to provide financial aid for postsecondary education costs of participating students. The act, except as otherwise provided, prohibits contributions to the trust by any nonpublic entity, person, firm, partnership, or corporation that is not designated for a specified beneficiary.

This bill would create the California Scholarshare Advancement Vehicle for Education (CalSAVE) program to fund scholarships for beneficiaries to be determined by the board. The bill would create the CalSAVE account, a continuously appropriated fund within the program fund, and would authorize contributions from any person, firm, partnership, or corporation, to be deposited into the CalSAVE account even if not designated for a specified beneficiary. The board would be required to create subaccounts within the CalSAVE account for each category of beneficiary determined to be eligible, and each donor would be able to designate that his or her contribution be deposited into any subaccount within the CalSAVE account.

Ch. 475 (SB 1140) Steinberg Financial abuse of elder or dependent adults.

(1) Under existing law, financial abuse of an elder or dependent adult occurs when a person or entity takes, secretes, appropriates, or retains, or assists in the taking, secreting, appropriating, or retaining, of real or personal property of an elder or dependent adult for a wrongful use or with the intent to defraud, or both.

Existing law makes the failure to report, or impeding or inhibiting a report of, among other things, financial abuse of an elder or dependent adult, in violation of certain reporting requirements a misdemeanor.

Existing law makes it a misdemeanor for any caretaker of an elder or a dependent adult to violate any provision of law proscribing theft or embezzlement, with respect to the property of that elder or dependent adult.

This bill would, among other things, add to the definition of financial abuse the taking, secreting, appropriating, obtaining, or retaining, or assisting in the taking, secreting, appropriating, obtaining, or retaining, of real or personal property of an elder or dependent adult by undue influence, as defined. It would also make various conforming changes to these provisions.

By changing the definition of a crime, this bill would impose a state-mandated local program.

(2) Existing law provides that where it is proven by a preponderance of the evidence that a defendant is liable for financial abuse, the court shall award the plaintiff all remedies provided by law and reasonable attorney's fees and costs.

Existing law requires that specified standards regarding the imposition of punitive damages on an employer based upon the act of an employee be satisfied before any damages or attorney's fees are awarded in a civil action for financial abuse.

The bill would eliminate the requirement that these standards be satisfied before compensatory damages and attorney's fees and costs are awarded.

This bill would also provide that a person or entity that takes, secretes, appropriates, obtains, or retains, or assists in taking, secreting, appropriating, obtaining, or retaining the real or personal property of an elder or dependent adult when the elder or dependent adult lacks capacity, as defined, or is of unsound mind, as defined, but not entirely without understanding, shall, upon demand by the elder or dependent adult or his or her representative, return the property, and if that person or entity fails to return the property, the same remedies available when a defendant is liable for financial abuse shall be available.

(3) Existing law does not provide for a statute of limitations in which to commence a civil action for financial abuse of an elder or dependent adult.

This bill would provide for a 4-year statute of limitations in which to commence a civil action for financial abuse of an elder or dependent adult.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 476 (AB 2149) Berg** Broker-dealers and investment advisers.

Existing law, the Corporate Securities Law of 1968, provides for the certification and regulation, by the Commissioner of Corporations, of broker-dealers and investment advisers. Existing law also provides for the regulation of broker-dealer agents and investment adviser representatives. Existing law makes it unlawful for an investment adviser to, among other things, defraud or engage in any transaction that operates as a fraud or deceit upon any client or prospective client, or represent that he or she is an investment counsel or to use the name "investment counsel" unless certain requirements have been met. Existing law also makes it unlawful for a broker-dealer or investment adviser to represent or imply that he or she has been sponsored, recommended or approved by the commissioner, except as specified. Under existing law, a violation of these provisions is a crime and a violator is subject to specified penalties.

This bill would prohibit a broker-dealer or investment adviser, or an agent or representative thereof, except as specified, from using a senior-specific certification, credential, or professional designation indicating or implying that he or she has a special certification or training in advising or servicing senior citizens or retirees in such a way as to mislead any person. The bill would make these provisions operative on July 1, 2009.

Because a violation of the bill's provisions would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 477 (AB 749) Wolk** Residential care facilities for the elderly: emergency plans.

Existing law provides for the licensure and regulation of residential care facilities for the elderly by the State Department of Social Services. A violation of these provisions is a crime.

This bill would require, as of March 1, 2009, those facilities to have an emergency plan that includes specified provisions and is available, upon request, to residents onsite and available to local emergency responders. Additionally, the bill would require the department to confirm, during comprehensive licensing visits, that the plan is on file at the facility. By expanding the definition of a crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 478 (AB 2370) Bass** Residential care facilities for the elderly: rate increases.

Under existing law, the State Department of Social Services regulates the licensure and operation of community care facilities, including residential care facilities for the elderly. Under existing law, the licensee of a residential care facility for the elderly is required to provide notice to residents when facility rates are increased. Violation of the provisions relating to residential care facilities for the elderly, or related regulations, is a misdemeanor.

This bill would require the licensee of a residential care facility for the elderly, on or before January 31 of each year, to prepare a document disclosing its average monthly rate increases

over the previous 3 years, or less if the facility has been serving residents for less than 3 years. The bill would also require the licensee to provide a written copy of the disclosure to new and prospective facility residents, as specified. This bill would not apply to a licensee of a residential care facility for the elderly that has obtained a certificate of authority to offer a continuing care contract, as defined. By changing the definition of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 479 (SB 1136) Alquist Public social services: unreasonable fees.

Existing law prohibits certain enumerated unfair methods of competition and unfair or deceptive acts or practices undertaken by any person in a transaction intended to result or which results in the sale or lease of goods or services to any consumer.

This bill would provide that, except as specified, it is an unfair or deceptive trade practice for any person to charge or receive an unreasonable fee, as defined, to prepare, aid, or advise any prospective applicant, applicant, or recipient in the procurement, maintenance, or securing of public social services, as defined. The bill would also require the court to award treble actual damages to the plaintiff whenever it is proven by a preponderance of the evidence that a defendant has charged or received an unreasonable fee for those services, except as specified.

Ch. 480 (AB 225) Beall Elder abuse: protective orders.

Existing law sets forth procedures under which an elder or dependent adult who has suffered abuse, as defined, may seek protective orders.

Existing law defines protective order, for purposes of the above provisions, to include an order enjoining a party from abusing, intimidating, molesting, attacking, striking, stalking, threatening, sexually assaulting, battering, harassing, telephoning, destroying personal property, contacting, either directly or indirectly, by mail or otherwise, or coming within a specified distance of, or disturbing the peace of the petitioner.

This bill would make this type of protective order, in the discretion of the court and on a showing of good cause, available for the protection of other named family and household members or a conservator, if any, of the petitioner.

Existing law also defines protective order, for purposes of the above provisions, to include an order excluding a party from the petitioner's residence or dwelling. Existing law provides that a court may issue this type of order ex parte only on a showing of certain facts that demonstrate the party to be excluded is harming or threatening to harm the petitioner.

This bill would provide that the above order could also be issued ex parte on a showing that the party to be excluded is harming or threatening to harm other named family or household members or the conservator of the petitioner.

Existing law provides, for purposes of the above provisions, that the court may issue, after notice and hearing, an order excluding a person from a residence or dwelling if the court finds that physical or emotional harm would otherwise result to the other party.

This bill would provide that the court may also issue the above order if the court finds that physical or emotional harm would otherwise result to other named family or household members or conservator of the petitioner.

Because a violation of a court order issued pursuant to the above provisions would be punishable as contempt, a misdemeanor, this bill would create a new crime and would thereby impose a state-mandated local program.

Existing law provides that upon the filing of a petition for a protective order, the respondent shall be personally served with a copy of the petition and notice of the hearing or order to show cause.

This bill would provide that when a person named in a protective order after a hearing has not been served personally with the order but has received actual notice of the existence and substance of the order through personal appearance in court to hear the terms of the order from the court, no additional proof of service is required for enforcement of the order.

This bill would provide that the foregoing provisions shall become operative January 1, 2010.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 481 (AB 2100) Wolk Elder abuse: reporting.

Existing law, the Elder Abuse and Dependent Adult Civil Protection Act, establishes various procedures for the reporting, investigation, and prosecution of elder and dependent adult abuse. These procedures require certain persons, called mandated reporters, to report known or suspected instances of elder or dependent adult abuse.

Under existing law, if the abuse has occurred in a long-term care facility, the mandated reporter must report the abuse to the local ombudsperson or the local law enforcement agency. Existing law provides that, except in an emergency, the local ombudsperson and the local law enforcement agency are required to make reports about abuse reported to them to specified entities authorized to receive that information as soon as practicable.

This bill would require the local ombudsperson and the local law enforcement agency to immediately report cases of known or suspected physical abuse, which includes sexual abuse, and financial abuse to the local district attorney's office in the county where the abuse occurred.

Because failure to report physical abuse and financial abuse of an elder or dependent adult under the act is a misdemeanor, this bill would change the scope of an existing crime thus constituting a state-mandated local program. By increasing the duties of local district attorneys, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

#### Ch. 482 (AB 2070) Bass Foster care: incarcerated parents.

(1) Existing law requires the juvenile court to order the social worker to provide child welfare services for a child, as specified. Existing law permits the court to extend those child welfare services, as specified. Existing law also requires that when the court orders counseling or other treatment services, it must also order the parent or guardian to participate in those services, unless the parent's or guardian's participation is deemed by the court to be inappropriate or potentially detrimental to the child.

This bill would provide additional circumstances in which court-ordered services may be extended. This bill would also require the court, in determining whether court-ordered services may be extended, to consider the special circumstances of an incarcerated or institutionalized parent or parents, or parent or parents court-ordered to a residential substance abuse treatment program, as specified. This bill would also exempt an incarcerated parent or guardian from participating in those counseling or other treatment services if he or she is incarcerated in a corrections facility that does not provide access to the services ordered by the court.

(2) Existing law requires the court to order reasonable services if the parent or guardian is incarcerated or institutionalized, except as specified. Existing law requires the court to consider certain circumstances to determine if an exception applies.

This bill would require the court, in addition, to consider the likelihood of the parent's discharge from incarceration or institutionalization within a specified reunification time limit.

(3) Existing law requires the court to order the return of the child to the physical custody of his or her parent or legal guardian, at the review hearing held 6 months after the initial dispositional hearing, unless the court finds, by a preponderance of the evidence, that the return of the child to his or her parent or legal guardian would create a substantial risk of detriment to the safety, protection, or physical or emotional well-being of the child. Existing law requires the court to consider the criminal history of the parent or legal guardian subsequent to the child's removal, as specified.

This bill would require the court to consider the criminal history of the parent or legal guardian subsequent to the child's removal to the extent that the criminal record is substantially related to the welfare of the child or the parent's or guardian's ability to exercise custody and control regarding his or her child, as specified. This bill would also require the court to take into account the particular barriers to an incarcerated or institutionalized parent's or guardian's ability to maintain contact with his or her child, as specified.

(4) Existing law requires the court to hold a permanency review hearing, as specified, in which the court determines whether to return the child to his or her parent or legal guardian.

This bill would authorize the court to continue the case, as specified, for a subsequent permanency review hearing only if the court makes certain findings. This bill would also provide for the procedures the court is required to follow at the subsequent permanency review hearing.

(5) Existing law requires that the proceedings to terminate a specified legal guardianship to be held in the juvenile court, except as specified.

This bill would require that the proceedings to terminate a specified legal guardianship shall be held either in the juvenile court that retains jurisdiction over the guardianship or the juvenile court in the county where the guardian and child currently reside, based on the best interests of the child. The bill would require that the juvenile court having jurisdiction over the guardianship receive notice from the court in which the petition is filed within 5 calendar days of the filing.

(6) Existing law provides that if the child is in a placement other than the home of a legal guardian and jurisdiction has not been dismissed, the status of the child shall be reviewed at least every 6 months. At that review hearing, the reviewing body shall make specified determinations, including the extent of the agency's compliance with the child welfare services case plan in making reasonable efforts to return the child to a safe home and to complete whatever steps are necessary to finalize the permanent placement of the child.

This bill would require the reviewing body to determine the extent of the agency's compliance with the child welfare services case plan in making reasonable efforts to return the child to the safe home of the parent or to complete whatever steps are necessary to finalize the permanent placement of the child. This bill would also provide a procedure in the instance that the reviewing body determines that a 2nd period of reunification services is in the child's best interest, as specified.

(7) Existing law requires the social worker to submit to the court a recommendation that the court set a hearing for the purpose of terminating parental rights for every child who is in foster care, or who enters foster care, on or after January 1, 1999, and has been in foster care for 15 of the most recent 22 months, unless a specified exception applies.

This bill would create an additional exception to that requirement if the incarceration or institutionalization of the parent or parents, or the court-ordered participation of the parent or parents in a residential substance abuse treatment program, is a significant factor in the child's placement in foster care for a period of 15 of the most recent 22 months, and

termination of parental rights is not in the child's best interests, considering factors such as the age of the child, the degree of parent and child bonding, the length of the sentence, and the nature of the treatment and the nature of the crime or illness.

(8) (A) This bill would incorporate additional changes to Section 361.5 of the Welfare and Institutions Code, proposed by AB 2029 and AB 2341 to be operative if either or both of those bills are enacted, as specified, and this bill is chaptered last.

(B) This bill would also incorporate additional changes to Section 366.26 of the Welfare and Institutions Code proposed by both AB 2736 and this bill to take effect only if both bills are chaptered and this bill is chaptered last.

(9) By increasing the duties of county social workers, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 483 (AB 2096) Bass Foster children: extracurricular activities.

Existing law provides that every child adjudged a dependent child of the juvenile court shall be entitled to participate in age-appropriate extracurricular, enrichment, and social activities. Existing law requires caregivers, as defined, to use a reasonable and prudent parent standard, as defined, in determining whether to give permission for a child residing in foster care to participate in extracurricular, enrichment, and social activities.

Existing law provides that a minor who has been found to have violated a law or ordinance may be adjudged a ward of the court, and the court may make any and all reasonable orders for the care of the minor.

This bill would, with respect to dependent children, require a group home administrator and a facility manager, or his or her responsible designee, to apply the reasonable and prudent parent standard, as defined, in determining whether to give permission for a child residing in foster care to participate in extracurricular, enrichment, and social activities, and would also require that reasonable steps be taken in determining the appropriateness of the activity. The bill would encourage a group home administrator or a facility manager, or his or her responsible designee, to consult with social work or treatment staff members who are most familiar with the child at the group home in applying and using the reasonable and prudent parent standard.

With respect to wards of the juvenile court, the bill would provide that every ward is entitled to participate in age-appropriate extracurricular, enrichment, and social activities. The bill would require group home administrators, facility managers, and caregivers to use a reasonable and prudent parent standard, as defined, in determining whether to permit a ward who is in foster care to participate in those activities. The bill would also require them to take reasonable steps to determine the appropriateness of the activity, as specified. The bill would encourage a group home administrator or a facility manager, or his or her responsible designee, to consult with social work or treatment staff members who are most familiar with the child at the group home in applying and using the reasonable and prudent parent standard.

#### Ch. 484 (SB 1160) Alquist Children's social services programs.

Existing law provides that no applicant shall be granted public assistance under the CalWORKs program and social services block grant programs until he or she is first personally interviewed by the county or state staff for patients in state hospitals.

This bill would exempt from that requirement a caretaker relative who is caring for a dependent child of the court, and is receiving CalWORKs benefits on behalf of the child, who is changing residence from one county to another county and applying for benefits on behalf

of one or more related children who are receiving benefits under the CalWORKs program, and who is not an applicant for, or a recipient of, benefits under the CalWORKs program.

Existing law authorizes designated participating counties to establish a child and family interagency coordinating council to implement various aspects of a youth pilot program. Under the pilot program, various children's services funds may be transferred to a designated county fund for services for children and families. Existing law terminates the program on January 1, 2009.

This bill would extend the operative duration of the youth pilot program to January 1, 2013.

By requiring the county CalWORKs program to verify that the individual applying for the described benefits meets the criteria set forth in the bill, this bill imposes a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 485 (SB 1341) Padilla CalWORKs: personal property retention.

Existing federal law provides for allocation of federal funds through the federal Temporary Assistance for Needy Families (TANF) block grant program to eligible states, with California's version of this program being known as the California Work Opportunity and Responsibility to Kids (CalWORKs) program.

Existing law provides for the CalWORKs program, under which each county provides cash assistance and other benefits to qualified low-income families and individuals who meet specified eligibility criteria.

Existing law imposes limits on the amount of income and personal and real property, including savings accounts, that an individual or family may possess in order to be eligible for aid under the CalWORKs program, but authorizes an eligible family to retain savings and interest thereon for specified purposes.

This bill would expand the scope of purposes for which eligible savings may be used to include costs associated with securing permanent rental housing or to make rent payments to overcome an episode of homelessness.

Existing law provides for the payment, under the CalWORKs program, of an allowance for nonrecurring special needs, after a family has used all available liquid resources, both exempt and nonexempt, in excess of \$100.

This bill would exempt from that limitation funds deposited into a specified restricted account.

This bill would also make a technical change.

Existing law continuously appropriates moneys from the General Fund to defray a portion of county aid grant costs under the CalWORKs program.

This bill would declare that no appropriation would be made for purposes of the bill.

This bill would incorporate additional changes in Section 11450 of the Welfare and Institutions Code proposed by AB 2844, that would become operative only if AB 2844 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

By expanding the uses for which funds contained in a restricted account may be used, this bill would expand the responsibilities of counties in the administration of the CalWORKs program, and would result in a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 486 (SB 1380) Steinberg Foster care.

Existing law establishes the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which counties provide payments to foster care providers on behalf of qualified children in foster care, pursuant to a schedule of basic rates. The program is funded by a combination of federal, state, and county funds, with moneys from the General Fund being continuously appropriated to pay for the state's share of AFDC-FC costs. Existing law, commencing January 1, 2008, increased by specified percentages and amounts the rate schedules applicable to AFDC-FC payments for group homes and other designated foster care placements, according to the facility's rate classification level (RCL) as established by the State Department of Social Services, pursuant to the assignment of specified point ranges. These point ranges are adjusted for group home programs that receive AFDC-FC payments for services performed during the 2002–03 through 2007–08 fiscal years, inclusive.

This bill would extend the applicability of the adjusted point ranges designating each RCL, through the 2008–09 fiscal year. This bill would declare that no appropriation would be made for purposes of the bill.

Existing law requires the State Department of Social Services to implement programs of intensive treatment foster care (ITFC) for eligible children, as specified.

This bill would revise various eligibility, operational, reporting, and foster parent training components of ITFC programs.

Under existing law, one of the criteria that must be met for a child to be an eligible child under the program is that he or she be emotionally disturbed.

This bill would, instead, provide that the child either be emotionally disturbed or have a serious behavioral problem. This bill would recast and revise the services a foster family agency would be required to provide, or arrange for provision of, on behalf of children in the ITFC program.

This bill would require the department to develop, in consultation with counties, providers, and other interested parties, cost reporting, claiming, and other procedures necessary for the effective implementation of the intensive foster care treatment program, including the maximization of federal financial participation.

Ch. 487 (AB 131) Beall Teacher credentialing: specialist credential: pupils with autism.

Existing law requires the Commission on Teacher Credentialing, by December 1, 2007, to report to the Legislature and the Governor on the existing process and requirements for obtaining a specialist credential in special education and recommend modifications to enhance and expedite those procedures.

This bill would authorize a local educational agency or school to employ and assign an individual to provide instruction to pupils who are 3 and 4 years of age and who are diagnosed as autistic, as defined, if the individual holds a valid level 1 or clear education specialist credential, is authorized to provide instruction to pupils with autism, and meets specified competence criteria, as determined by the local educational agency or school. The local educational agency or school would be required to maintain on file in its office verification that the individual has met the competence criteria. These provisions would become inoperative on August 31, 2011, and would be repealed on January 1, 2012.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 488 (AB 1284) Eng Geologists and geophysicists.

Existing law, the Geologist and Geophysicist Act, provides for the registration and regulation of geologists and geophysicists by the Board for Geologists and Geophysicists. Existing law authorizes the board to issue a certificate of registration as a geologist or geophysicist, without written examination, to any person holding an equivalent certificate of registration as a geologist or geophysicist, issued by any state or country when the applicant's qualifications meet other specified requirements. Existing law requires each applicant for registration to pay an examination fee fixed by the board at an amount, up to \$300, equal to the actual cost to the board for the purchase of a national examination for geologists, including a supplemental California specific examination.

This bill would delete the exemption from the written examination for any person with an equivalent certificate of registration. The bill would also require each applicant for registration to pay an examination fee fixed by the board at an amount, up to \$450, equal to the actual cost to the board to administer the written examination.

#### Ch. 489 (AB 1897) Emmerson Marriage and family therapists: licensure.

Existing law provides for the licensure, registration, and regulation of marriage and family therapists and marriage and family therapist interns by the Board of Behavioral Sciences. Existing law requires applicants for a license or registration to meet certain qualifications, including, but not limited to, the possession of a doctor's or master's degree in a subject related to marriage and family obtained from an educational institution accredited by the Western Association of Schools and Colleges, or approved by the Bureau for Private Postsecondary and Vocational Education or the Commission on Accreditation for Marriage and Family Education, as specified. By operation of law, the Bureau for Private Postsecondary and Vocational Education became inoperative on July 1, 2007.

This bill would specify that a doctor's or master's degree approved by the Bureau for Private Postsecondary and Vocational Education as of June 30, 2007, shall be considered by the board to meet the specified licensure and registration requirements if the degree is conferred on or before July 1, 2010. The bill would also require the board to accept certain doctor's or master's degrees as equivalent degrees if those degrees are conferred by educational institutions accredited by specified associations. The bill would make these provisions inoperative on the date that legislation enacted in the 2007–08 Regular Session reestablishing the Private Postsecondary and Vocational Education Reform Act of 1989 or a successor act and the Bureau for Private Postsecondary and Vocational Education or a successor agency becomes operative.

#### Ch. 490 (AB 1911) Galgiani Funeral establishments.

Existing law provides for the licensure and regulation of funeral directors, embalmers, cemeteries, cemetery managers, cemetery brokers, crematories, and crematory managers by the Cemetery and Funeral Bureau. A violation of the provisions governing funeral directors and embalmers is a misdemeanor.

This bill would require a person who holds or has held, or was named on, any license or registration under the jurisdiction of the bureau that has been, within the past 10 years, revoked, suspended, placed on probation, or surrendered under a stipulated decision, and who is employed by, or who seeks employment with, a licensed funeral establishment, licensed cemetery, licensed crematory, or licensed cemetery broker, to inform the managing funeral director, cemetery manager, crematory manager, or the licensed cemetery broker, as specified. The bill would require the managing funeral director, cemetery manager, crematory manager, or the licensed cemetery broker to notify the bureau, after being so informed, on a form to be made available by the bureau. Failure to comply with these requirements by an employee or person seeking employment would be grounds for disciplinary action, as specified, or denial of a license, and grounds for a warning as applied to an employer or prospective employer who fails to inform the bureau.

Existing law requires a cemetery authority to, among other things, notify the bureau whenever ownership of the authority is proposed to be transferred, and requires a cemetery authority to publish notice of change of ownership, as specified, and to post and maintain signs at each public entrance containing certain information. Existing law requires the bureau to suspend the certificate of authority of any cemetery authority that is in violation of the sign or public notice requirements.

This bill would instead require the bureau to suspend the certificate of authority of a cemetery authority that violates any of the above requirements, and would subject a person or entity that submits false information on that change of ownership to a specified civil penalty. The bill would also prohibit a person from obtaining a certificate of authority under false or misleading statements or from delegating authority of ownership to an unlicensed person.

Because this bill would create new requirements under the Funeral Directors and Embalmers Law, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 491 (AB 2069) Jones Local planning: residential development.

(1) The Planning and Zoning Law prohibits a city, county, or city and county from reducing, or requiring or permitting the reduction of, the residential density for any parcel to, or allow development of any parcel at, a lower residential density, as defined, unless the city, county, or city and county makes certain written findings.

This bill would redefine lower residential density, as specified, for purposes of the above prohibition.

(2) This bill would incorporate additional changes in Section 65863 of the Government Code proposed by SB 1124 that would become operative only if SB 1124 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

Ch. 492 (AB 2296) Mullin Academic research.

Existing law makes it unlawful for any person to willfully engage in threats to commit a crime resulting in death or great bodily injury to another person, as specified.

This bill would enact the Researcher Protection Act of 2008, which would make it a misdemeanor, punishable as specified, for any person to publish information, as defined, describing or depicting an academic researcher or his or her immediate family member, or the location or locations where an academic researcher or his or her immediate family member may be found, with the intent that another person imminently use the information to commit a crime involving violence or a threat of violence against the academic researcher or his or her immediate family member, and the information is likely to produce the imminent commission of such a crime. The bill would authorize an academic researcher to seek a preliminary injunction against publishers of that information unless the publisher is protected under other provisions of law.

Existing law makes it unlawful for persons to engage in certain acts of trespass and punishes most trespasses by a fine not exceeding \$1,000, imprisonment in a county jail for a period not exceeding 6 months, or by both that fine and imprisonment.

This bill would make a person who enters the residential real property of an academic researcher, as defined, for the purpose of chilling, preventing the exercise of, or interfering with the researcher's academic freedom guilty of the crime of trespass, a misdemeanor. By creating new crimes, the bill would impose a state-mandated local program.

The provisions of the bill would not apply to persons lawfully engaged in labor union activities.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 493 (AB 2339) Solorio Advertising displays.

The Outdoor Advertising Act provides for the regulation by the Department of Transportation of advertising displays, as defined, within view of public highways. The act exempts from its provisions certain advertising displays that advertise the business conducted or services rendered or goods produced or sold on the property upon which the display is placed, as specified.

This bill would also exempt from the provisions of the act certain advertising displays in existence before January 1, 2009, at an arena located on public land with a capacity of 5,000 seats or more that provides a permanent venue for professional sports, and that advertises products, goods, or services that are or will be sold on the premise of the arena on a regular basis pursuant to an agreement of at least one year duration between the vendor or business and the property owner, facility owner, or facility operator.

Ch. 494 (AB 2390) Karnette State teachers' retirement: postretirement earnings.

(1) Existing law permits a member of the Defined Benefit Program of the State Teachers' Retirement System to elect to purchase service credit for service as an employee of an educational institution located outside of the United States and its territories that receives a portion of its funding from any foreign or domestic public sources, as specified, among others. Existing law provides that contributions for the purchase of service credit are deposited in the State Teachers' Retirement Fund, a continuously appropriated fund.

This bill would expand the scope of that benefit to apply to members who retired for service between June 1, 2007, and December 31, 2007. By providing for increased contributions to a continuously appropriated fund, this bill would make an appropriation.

(2) The State Teachers' Retirement Law limits the amount of postretirement compensation that may be earned in specified types of employment by a retired member of the Defined Benefit Program without a reduction in the retirement benefits of the member. That law, operative until June 30, 2009, provides exemptions from this limit and specifies that the limitation provisions do not apply to compensation earned by a member retired for service who has returned to work after retirement and, for at least 12 consecutive months, has not performed specified activities.

This bill would extend the operation of that provision until June 30, 2010.

(3) Under that law, operative until June 30, 2009, the service retirement allowance of a retired member of the Defined Benefit Program is exempt from a reduction if the retired member is appointed as a trustee or administrator by the Superintendent of Public Instruction for a maximum period of 2 years, as specified. That law also exempts from the earnings limitation, until June 30, 2009, any specified types of service performed by members who retired for service on or before January 1, 2006, if certain conditions are met.

This bill would extend these provisions until June 30, 2010, and would extend the exemption to members who retired for service on or before January 1, 2007.

(4) That law further exempts from the earnings limitation compensation received by a retired member providing direct remedial instruction, as specified, if that retired member retired on or before January 1, 2006. That law requires a school district that employs the retired member to submit documentation to the retirement system that substantiates the eligibility of the retired member for temporary employment under these provisions.

This bill would provide that the exemption applies to compensation received by a retired member providing direct remedial instruction, who retired for service with an effective date on or before January 1, 2007, only until June 30, 2010.

(5) This bill would incorporate additional changes in Sections 24216, 24216.5, and 24216.6 of the Education Code, proposed by SB 1376, to become operative only if SB 1376 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

Ch. 495 (AB 2403) Smyth Department of Transportation: vehicle and equipment procurement.

Existing law generally requires public contracts to be awarded by competitive bidding pursuant to procedures set forth in the Public Contract Code, subject to certain exceptions.

Until January 1, 2014, this bill would authorize the Department of Transportation to purchase and equip heavy mobile fleet vehicles and special equipment by means of best value procurement, as defined, subject to an annual limitation of \$15,000,000. The bill would require the department to report to the Legislature with regard to this process, as specified.

The bill would provide that it shall become operative only if AB 2560 of the 2007–08 Regular Session is also enacted and becomes operative.

Ch. 496 (AB 2474) Galgiani Health care programs: provider reimbursement rates.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income individuals receive health care benefits.

Existing law also requires the department to administer various health programs, including the California Children’s Services Program, Genetically Handicapped Person’s Program, Breast and Cervical Cancer Early Detection Program, State-Only Family Planning Program, and Family Planning, Access, Care, and Treatment (Family PACT) Waiver Program. Under existing law, provider rates of payment for services under these programs are identical to the rates for payment for the same service performed by the same provider type pursuant to the Medi-Cal program. Rates for these services are reduced by 10% commencing July 1, 2008.

This bill would, until January 1, 2010, revise these provisions to, instead, require provider rates of payment for services under these programs to be identical to the rates of payment for the same service performed by the same provider type pursuant to the Medi-Cal program, except with regard to hospital interim rates of payment, which the bill would require to be 90% of Medi-Cal hospital inpatient rates of payment, as provided. The bill would make a legislative finding and declaration with respect to the Legislature’s intent in enacting the above provisions of existing law relating to reimbursement under the Medi-Cal program for the California Children’s Services Program and the Genetically Handicapped Person’s Program.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 497 (AB 2570) Silva Unemployment insurance: Employment Training Panel.

(1) Existing law provides for the establishment of employment training programs, and specifies those individuals that qualify as “eligible participants” in training programs.

This bill would revise the definition of an eligible participant in training programs, as provided.

(2) Existing law establishes the Employment Training Panel (ETP) in the Employment Development Department and requires the Governor to appoint the executive director and 2 assistant directors of the ETP and specifies that at least one assistant director must have experience in serving the needs of small businesses.

This bill would eliminate the requirement that one assistant director is required to have experience in serving the needs of small businesses.

(3) Existing law provides that 7 out of 8 persons serving on the panel must be appointed by various appointing powers, as provided, but requires that the appointive members of the panel serve for 2-year terms, except that of the initial members of the panel, one initial appointee of each appointing power must serve for a one-year term.

This bill would delete those obsolete provisions relating to the term required to be served by the initial appointive members of the panel.

(4) Under existing law, the Employment Training Panel has specified duties, including the duty to make contracts for training in job-related vocational skills, as specified. Existing law permits the panel, subject to certain requirements, to delegate its authority to approve contracts for new hire training to any entity, as specified, for purposes of serving the needs of small businesses.

This bill would repeal the panel's authority to delegate the approval of contracts for new hire training and the corresponding provisions.

(5) Existing law requires the panel, among other things, to establish a 3-year plan, as specified, that must be updated annually, as provided, to establish minimum standards for the consideration of proposals, including the identification of employers, as specified, and to develop a process by which local workforce investment boards may apply for marketing resources for the purpose of identifying local employers that have training needs reflecting the priorities of the panel. Existing law authorizes the panel to delegate its authority to approve contracts for training to local workforce investment boards, as provided.

This bill would delete obsolete references to the initial 3-year plan and would require the panel to include evidence of labor market demand, instead of the identification of certain employers, as provided, in its minimum standard for the consideration of proposals. This bill would also require the panel to coordinate with local workforce investment boards to promote effective utilization of ETP funds, as specified, instead of developing a process by which a local workforce investment board may apply for marketing resources and would repeal the panel's authority to delegate the approval of contracts for training to local workforce investment boards.

(6) Existing law allows the panel to contract with various entities for purposes of providing employment training and requires contracts for projects involving on-the-job training to specify skills and competencies to be gained as a result of that training, as provided.

This bill would eliminate that requirement applicable to the contracts for projects involving on-the-job training, as specified.

(7) Existing law requires the panel to prepare a budget of its necessary administrative costs and requires the director, among other duties, to furnish, at the request of the panel, equipment, supplies, and housing, as well as nonpersonal and housing services, as specified, and to perform other administrative duties, as provided.

This bill would repeal those provisions relating to the director's duties, as specified.

(8) Existing law requires the Employment Development Department to develop and maintain, subject to the review and approval of the panel and the Legislative Analyst, a continuous employment, wage, and benefit history of participants in the employment training projects, as specified, and of a random sample of unemployment insurance claimants.

This bill would instead require the department to develop and maintain a continuous employment, wage, and benefit history of unemployment insurance participants, as defined, and would repeal the requirement that data be subject to the review and approval of the panel and the review and recommendations of the Legislative Analyst.

(9) Existing law authorizes the panel to allocate up to 10% of the annually available training funds for the purpose of funding special employment training projects that improve

the skills of frontline workers. Existing law also requires the panel to target training to frontline workers who earn at least the state average weekly wage.

This bill would increase the amount of funds that may be allocated to 15% annually. This bill would also change the eligibility requirement for target training to frontline workers who earn at least the state average hourly wage.

(10) Existing law requires the panel to allocate its annual funds for the training programs designed for individuals who are currently working and receiving specified benefits, as provided.

This bill would revise those provisions to instead provide that training programs must be for individuals who are eligible to receive specified benefits.

(11) Existing law authorizes the Employment Training Panel to utilize funds in the Employment Training Fund for, among other expenditures, the purpose of funding up to 5 licensed nurse training programs to train individuals who are currently working as nurse assistants or caregivers in a health facility, as defined.

This bill would delete the existing limitation relating to the funding of up to 5 licensed nurse training programs, and thereby would allow the panel to utilize its funds for purposes of funding an unlimited number of licensed nurse training programs.

(12) (A) This bill would incorporate additional changes to Section 10205 of the Unemployment Insurance Code, proposed by AB 2622, to be operative only if AB 2622 and this bill are both enacted, each bill amends that section, AB 3066 is not enacted, or if enacted, does not amend that section, and this bill is enacted after AB 2622.

(B) This bill would incorporate additional changes to Section 10205 of the Unemployment Insurance Code, proposed by AB 3066, to be operative only if AB 3066 and this bill are both enacted, each bill amends that section, AB 2622 is not enacted, or if enacted, does not amend that section, and this bill is enacted after AB 3066.

(C) This bill would incorporate additional changes to Section 10205 of the Unemployment Insurance Code, proposed by AB 2622 and AB 3066, to be operative only if AB 2622 and AB 3066, and this bill are all enacted, all 3 bills amend that section, and this bill is enacted after AB 2622 and AB 3066.

#### Ch. 498 (AB 2607) Davis Political Reform Act of 1974: electronic filing.

Existing law requires that candidates for and current holders of specified elected or appointed state and local offices and designated employees of state and local agencies file statements of economic interests disclosing their financial interests, including investments, real property interests, and income.

This bill would authorize the Counties of Los Angeles, Merced, Orange, and Stanislaus to participate in a pilot program to permit the electronic filing of statements of economic interests. This bill would authorize the pilot program from January 1, 2009, to January 1, 2012, and would require a county participating in the pilot program to submit a report to the Fair Political Practices Commission containing specified information regarding the electronic filing process no later than July 1, 2011. The Fair Political Practices Commission would transmit these reports to the Legislative Analyst's Office, which would be required to provide a report evaluating the program to the Legislature no later than March 1, 2012. This bill would prohibit certain elected officials from participating in the pilot program, as prescribed.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes upon a  $2/3$  vote of each house and compliance with specified procedural requirements.

This bill would declare that it furthers the purposes of the act.

#### Ch. 499 (AB 2637) Eng Dental auxiliaries.

Existing law, the Dental Practice Act, provides for the licensure and regulation of dentists by the Dental Board of California and dental auxiliaries by the Committee on Dental

Auxiliaries. Existing law, on and after, January 1, 2010, authorizes an unlicensed dental assistant to perform basic supportive dental procedures, as defined, subject to a determination by the supervising licensed dentist that the dental assistant is competent to perform those procedures. Existing law, until January 1, 2011, requires the board to license as a registered dental assistant a person who files an application prior to September 1, 2009, and submits specified written evidence of either graduation from a specified educational program or specified work experience that is satisfactory to the board. Existing law, on and after January 1, 2010, requires the board to license as a registered dental assistant in extended functions a person who submits specified evidence of current licensure as a registered dental assistant or completion of the requirements for licensure, successful completion of a specified extended functions postsecondary program, and board-approved courses in radiation safety, infection control, California dental law, and basic life support, and satisfactory performance on a specified written examination and a clinical or practical examination. Existing law, on and after January 1, 2010, also requires the board to license a person who meets specified requirements as a registered orthodontic assistant, registered surgery assistant, registered restorative assistant, or registered restorative assistant in extended functions.

This bill would repeal those provisions governing registered orthodontic assistants, registered surgery assistants, registered restorative assistants, and registered restorative assistants in extended functions.

The bill would, on and after January 1, 2010, specify the duties that a dental assistant is authorized to perform under the general or direct supervision of a supervising licensed dentist.

The bill would revise and recast the registered dental assistant provisions and would authorize the board to license a person as a registered dental assistant if he or she files an application and submits written evidence, satisfactory to the board, of either (1) graduation from a board-approved educational program in registered dental assisting, or (2) for individuals applying prior to January 1, 2010, satisfactory work experience, as defined, of at least 12 months or, for individuals applying on and after January 1, 2010, satisfactory work experience of at least 15 months, and satisfactory performance on a written and practical examination administered by the committee. The bill would also require that those individuals applying on or after January 1, 2010, pass a written examination in law and ethics and complete board-approved courses in the act, infection control, and basic life support. The bill would, on and after January 1, 2010, impose specific content requirements for the written and practical examinations and would require the board to appoint a registered dental assistant examination committee to assign specific procedures for the practical examination. The bill would, commencing January 1, 2010, specify the duties a registered dental assistant is authorized to perform. The bill would specify that the fee for the written examination in law and ethics shall not exceed the actual cost of the examination.

The bill would, on and after January 1, 2010, modify the requirements for a license as a registered dental assistant in extended functions to include, among other things, completion of a board-approved course in the application of pit and fissure sealants and passage of a written examination and a clinical or practical examination. The bill would specify the duties and procedures a registered dental assistant in extended functions, licensed on or after January 1, 2010, is authorized to perform, as well as those additional procedures that may be performed under the direct supervision of a licensed dentist. The bill would, commencing January 1, 2010, also require applicants for a registered dental assistant in extended functions license to complete a specified examination regarding certain procedures.

The bill would, commencing January 1, 2010, authorize the board to issue an orthodontic assistant permit or a dental sedation assistant permit to a person who files a completed application, including a fee, and provides proof of certain eligibility requirements. The bill would authorize a dental assistant, a registered dental assistant, or a registered dental assistant in extended functions to apply for and maintain an orthodontic assistant permit or a dental

sedation assistant permit. The bill would also, commencing January 1, 2010, specify the duties that may be performed by an orthodontic assistant permitholder or a dental sedation assistant permitholder under the direct supervision of a licensed dentist or, with respect to dental sedation assistant permitholders, another specified licensed health care professional. The bill would subject these permitholders to board established continuing education and renewal requirements. The bill would specify that the fee for these permits shall not exceed \$50 and that the fee for the written examination for these permits shall not exceed the actual cost of the examination.

The bill would require the board, commencing January 1, 2010, at least once every 7 years, to review the allowable duties for the various dental auxiliary categories, the supervision level for those categories, and the settings under which those duties may be performed, and to update the regulations as necessary.

The bill would require a dental assisting program or course, a permit program or course, a registered dental assistant program, a registered dental assistant in extended function program, an orthodontic assistant permit course, a dental sedation assistant permit course, and an infection control course to meet various requirements, relating to, among other things, administration, facilities, supervision, curriculum, instruction, equipment, and examinations in order to secure and maintain approval by the board.

Existing law provides that it is a misdemeanor for any person who does not have a license issued by the board to hold himself or herself out as licensed by the board in specified categories of dental practice.

This bill would revise these provisions to make it a misdemeanor for a person to, without a license or permit issued by the board, hold himself or herself out as, among other things, a registered dental assistant, orthodontic assistant permitholder, or dental sedation assistant permitholder. By expanding the scope of an existing crime, the bill would impose a state-mandated local program.

Existing law provides that all fees collected under the Dental Practice Act in connection with the practice of a dental auxiliary are deposited in the State Dental Auxiliary Fund, in the Professions and Vocations Fund.

This bill would abolish the State Dental Auxiliary Fund and would create the State Dental Assistant Fund, to which would be transferred funds in the State Dental Auxiliary Fund related to dental assistants for specific use, and in which would be deposited all funds from the regulation of dental assistants. The bill would make funds in the State Dental Assistant Fund subject to appropriation by the Legislature in the annual Budget Act.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 500 (AB 2679) Ruskin Solid waste: enforcement: local agencies.

(1) Existing law, the California Integrated Waste Management Act of 1989, regulates the management of solid waste. The act provides that the California Integrated Waste Management Board may designate and certify a local enforcement agency within each county to carry out specified powers and duties and requires the board and certified local enforcement agencies to perform specified functions with regard to the regulation of solid waste management, including the issuance and enforcement of solid waste facilities permits. Existing law defines various terms for purposes of the act, including defining the term "disposal site owner" as a person who holds title to property used as a disposal site after January 1, 1977.

The bill would repeal the definition of disposal site owner and would additionally define the terms "closed disposal site," "composting," "minor violation," and "owner." The bill would also revise the existing definitions of the terms "disposal," "disposal site,"

“hazardous waste,” “operator,” “solid waste disposal,” and “solid waste facility” for purposes of the act.

(2) Existing law prohibits the operation of a solid waste facility without a solid waste facilities permit and authorizes an enforcement agency to issue a solid waste facilities permit only if it makes certain findings regarding the consistency of the permit with the act and the regulations adopted by the board. The enforcement agency is required to take specified actions, including establishing and maintaining an inspection program.

Existing law requires the board to periodically inspect solid waste facilities to determine if the enforcement agency is enforcing state minimum standards. The board is required, upon the request of an enforcement agency, to provide guidance and assistance to the enforcement agency regarding specified activities. Existing law allows an enforcement agency to issue an administrative order requiring the owner or operator of a solid waste facility to take corrective action and to issue a cease and desist order. An enforcement agency is allowed to include an administrative civil penalty of up to \$5,000 for each day on which a violation occurs. Existing law also provides for the imposition of a civil penalty of up to \$10,000 per day upon an owner or operator of a solid waste facility that violates certain requirements or a person that violates a standard adopted by the board. Existing law requires all civil penalties paid to the board pursuant to the enforcement provisions of the act to be deposited in the Solid Waste Disposal Site Cleanup Trust Fund, which is continuously appropriated to the board for specified purposes with regard to the cleanup of solid waste disposal sites.

This bill would make conforming changes to the enforcement and penalty provisions of the act to additionally include violations of the act regarding disposal sites. The bill would authorize the board, under specified circumstances, to take any appropriate enforcement action and would empower the board, under those circumstances, with the authority of an enforcement agency pursuant to the act. The bill would authorize an enforcement agency to include, as part of its funding of the inspection program that is required to be conducted by the enforcement agency, public awareness activities, the prevention of the illegal dumping of solid waste, and the abatement of the illegal dumping of solid waste.

The bill would require the board to make available guidance and assistance to the enforcement agency regarding the inspection, investigation, enforcement, and remediation of illegal, abandoned, inactive, or closed disposal sites and would require the board or enforcement agency to take specified actions when a minor violation is detected in the course of an inspection.

The bill would, with respect only to solid waste disposed of in the state, prohibit a person from disposing of solid waste, causing solid waste to be disposed, arranging for the disposal of solid waste, transporting solid waste, or accepting solid waste for disposal, except at a solid waste disposal facility for which a solid waste facilities permit has been issued, or as otherwise authorized. This bill would revise the procedures for the imposition of civil penalties to authorize the board or an enforcement agency to issue an order imposing a civil penalty of not more than \$5,000 upon a person that violates the act, a regulation adopted pursuant to the act, or an order issued under the enforcement provisions of the act applicable to a solid waste facility or a disposal site, or the terms or conditions of a solid waste facilities permit. The bill would require the board or an enforcement agency before issuing an order, except as specified, to follow specified procedures regarding notification and meeting with the owner or operator to determine what actions, if any, that the operator or owner may voluntarily take to bring the facility or site into compliance by the earliest feasible date.

The bill would impose a state-mandated local program by requiring local agencies to take specified enforcement actions under the act.

The bill would additionally authorize the imposition of a civil penalty of not more than \$10,000 upon a person that owns or operates a disposal site and that intentionally or negligently violates a solid waste facilities permit or a standard, requirement, or order, or a person that intentionally or negligently violates the act or a regulation, administrative order,

or standard, with respect to a solid waste facility or disposal site, for each day the violation or operation occurs.

The bill would require the civil penalties that are collected by the board to be deposited in the Enforcement Penalty Account, which this bill would establish in the Solid Waste Disposal Site Cleanup Trust Fund. The bill would authorize the board to expend the moneys in the Enforcement Penalty Account, upon appropriation by the Legislature, to enforce and implement the act.

The bill would make a person convicted of violating certain provisions of the act guilty of a misdemeanor punishable by a fine in an amount of not less than \$500 and not more than \$10,000, and in addition, under specified circumstances, by imprisonment in a county jail for not more than 6 months, for each violation. The bill would impose a state-mandated local program by creating new crimes.

(3) Existing law requires all orders and determinations issued under the act to take effect immediately after any time period for appeal has expired. However, under existing law, a request for a hearing stays the effect of the order pending completion of all appeals, but a request for a hearing does not stay a provision of the order, or the order as a whole, when there is an imminent and substantial threat to public health and safety or the environment, as specified.

This bill would instead allow the owner or operator of a permitted solid waste facility subject to an order, in the case of extraordinary circumstances, to petition the executive director of the board to stay the order, pending the completion of specified administrative appeals pursuant to a specified procedure and would authorize a person who is not the owner or operator of such a facility to petition the board, as specified.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 501 (AB 2749) Gaines Financial institutions: disclosure and reporting requirements.

Existing law, the Banking Law, provides for the licensure and regulation by the Department of Financial Institutions of various financial institutions, including banks, commercial banks, and trust companies. The Banking Law sets forth specified disclosure and reporting requirements imposed upon those entities. Any person intentionally making a false statement in any report required under the Banking Law is guilty of perjury, a crime.

This bill would revise and recast those disclosure and reporting requirements, as specified, and would provide that those requirements apply to all licensees regulated by the Department of Financial Institutions. For those purposes, "licensee" would be defined to include, among others, banks, industrial banks, trust companies, foreign (other nation) banks, any corporation licensed by the commissioner to transmit money or issue traveler's checks, savings associations, credit unions, foreign (other state) credit unions, and industrial loan companies. The bill would subject a licensee to the above-described perjury provisions, thereby expanding a crime and imposing a state-mandated local program.

Under specified circumstances, this bill would also allow a foreign (other state) or foreign (other nation) financial institutions regulatory agency to examine a licensee and any of its offices. The bill would further set forth procedures related to the furnishing of confidential information, as defined, by the Commissioner of Financial Institutions.

This bill would also set forth definitions relative to the rating of financial institutions pursuant to specified federally established criteria.

Existing law, the Depository Corporation Sale, Merger, and Conversion Law, prohibits the merger or conversion of a California state bank or a California state depository corporation into a depository corporation that is a mutual organization or the merger or conversion of

such a depository corporation into a California state bank or California state depository corporation.

This bill would repeal that prohibition and would instead authorize a California state depository corporation to merge with a corporation or other business entity that is not a depository corporation if the California state depository corporation is the surviving corporation of that merger.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 502 (AB 2846) Feuer Common interest developments: assessments.

The Davis-Stirling Common Interest Development Act provides for the creation and regulation of common interest developments and for the levying of assessments by homeowners' associations. Under the act, a homeowners' association or an owner of a separate interest in a common interest development may not file a civil action in the superior court relating to enforcement of the act or certain other matters unless the parties have endeavored to submit their dispute to alternative dispute resolution in accordance with specified procedures. This requirement does not apply to a small claims action or an assessment dispute. The act requires an association to distribute a written notice regarding assessments and foreclosure to each member of the association during the 60-day period immediately preceding the beginning of the association's fiscal year, as specified.

This bill would provide that, if a dispute exists between the owner of a separate interest and the homeowners' association regarding any disputed charge or sum levied by the association, and the amount in dispute does not exceed the jurisdictional limits of the small claims court, the owner of the separate interest may pay under protest the disputed amount and all other amounts levied, including certain fees, costs, and other specified amounts, and commence an action in small claims court. The bill would make related changes to the notice described above.

Ch. 503 (AB 2921) Laird Local government: agricultural land.

(1) Existing law, the Williamson Act, authorizes a city or county to contract with a landowner to limit the use of agricultural land located in an agricultural preserve designated by the city or county. Under this act, the Department of Conservation is required to notify the city or county if it discovers a possible material breach, as defined, of the contract, and the city or county is required to take certain actions to resolve the breach within designated timeframes. The act provides for reimbursement, as specified, for the costs incurred by the city or county in taking those actions and authorizes the department to discharge the responsibilities of a city or county that fails to take specified actions to resolve the breach. The act exempts, subject to certain exceptions, a contract that has been terminated or canceled from a material breach proceeding under these provisions.

This bill would additionally authorize the Department of Conservation to discharge certain actions if the finding of no material breach by a city or county was not supported by the evidence, as specified, or was not made on the record at a public hearing. The bill would authorize the department and the city or county to agree to extend any deadline within these provisions, and would provide a process by which a landowner may request a meeting between the landowner, the department, and the city or county. The bill would also delete the exemption provided for a canceled contract. The bill would also define and revise the definition of "agricultural use," "development," and "open-space use" for purposes of the act.

(2) The Williamson Act authorizes a landowner to rescind a contract made under its provisions to simultaneously place other land under an agricultural conservation easement, subject to specified conditions.

This bill would revise the conditions under which a landowner may cancel a Williamson Act contract to place other land under an agricultural conservation preserve. The bill would authorize the rescission of a contract for the purpose of restricting the same land by an open-space contract or an open-space easement agreement under specified circumstances.

(3) Existing law authorizes the board or council to grant tentative approval for a cancellation by petition of a landowner as to all or any part of land subject to a contract, if the board or council makes specified findings.

This bill would prohibit a board or council from accepting or approving a petition for cancellation if the board or council discovers or is notified of a likely material breach on the land, except as specified.

(4) The Williamson Act authorizes a landowner to enter into a farmland security zone contract and also to petition the city or county where the land subject to the contract is located for cancellation of the contract. Under the act, the city or county is required to take certain actions in determining whether to approve the petition.

This bill would additionally require the city or county to determine the amount of the cancellation fee required of the landowner and to report that amount to the county auditor before tentatively approving the cancellation petition.

(5) The Williamson Act, until January 1, 2009, authorizes parties to a contract subject to the act's provisions to rescind the contract and simultaneously enter into a new contract in order to facilitate a lot line adjustment, if certain findings are made by the governing body of the city or county where the land is located.

This bill would extend the above authorization until January 1, 2010.

(6) Existing law establishes the Soil Conservation Fund to support, among other things, the cost of the farmlands mapping and monitoring program of the Department of Conservation, and program support costs incurred by the Department of Conservation in administering the open-space subvention program.

This bill would also authorize the use of funds in the Soil Conservation Fund to cover the costs to the department in administering the provisions of the Williamson Act regarding discovering material breaches of a Williamson Act contract.

#### Ch. 504 (AB 2946) Hayashi Cemeteries.

Existing law, the Cemetery Act, requires every cemetery authority and crematory licensee to pay an annual regulatory charge for each cemetery in an amount determined by the Cemetery and Funeral Bureau and, until December 31, 2007, an additional quarterly charge of not more than \$8.50 for each burial, entombment, inurnment, or cremation, as specified. Existing law directs the deposit of these charges in the Cemetery Fund, a continuously appropriated fund.

This bill would reestablish these additional quarterly charges. Because these additional moneys would be deposited into a continuously appropriated fund, the bill would make an appropriation. Appropriati

#### Ch. 505 (AB 3010) Blakeslee State mental hospitals: tobacco products.

Existing law provides for state mental hospitals for the treatment of mentally disordered persons. These hospitals are under the jurisdiction of the State Department of Mental Health which makes regulations regarding the conduct and management of these facilities.

This bill would authorize the Director of Mental Health, upon the request of the director of a specified state hospital, to prohibit the possession or use of tobacco products by patients of state hospitals, or any other person, on hospital grounds, except on the premises of residential staff housing where patients are not present.

This bill would require the Director of Mental Health to create an implementation plan for any state hospital where smoking is prohibited. The implementation plan would be required to include a phase-in period, an exemption for any departmentally approved religious ceremonies, and specified smoking cessation programs for requesting patients.

Existing law permits the Director of Mental Health to designate space on the grounds of a state hospital as a store or canteen for the sale of candies, cigarettes, sundries, and other articles.

This bill would prohibit the sale of tobacco products in a store or canteen at a hospital where an implementation plan is adopted to prohibit tobacco use or possession.

Ch. 506 (AB 3028) Salas Health facilities.

Existing law, the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983, requires the Office of Statewide Health Planning and Development (OSHPD) to observe the construction of, or addition to, any hospital building or the reconstruction or alteration of any hospital building, as it deems necessary to comply with the act for the protection of life and property.

The act requires the OSHPD to pass upon and approve or reject all plans for the construction or the alteration of any hospital building, independently reviewing the design to ensure compliance with the specified requirements. OSHPD may permit electronic submission of the plans.

The act requires that before commencing any construction or alteration of any hospital building, OSHPD provide written approval of the necessary plans as to safety of design and construction.

This bill would authorize OSHPD to permit electronic review and approval of the plans. The bill would authorize OSHPD to utilize an over-the-counter plan review process.

The act authorizes OSHPD to enter into agreements and contracts when necessary in order to facilitate the timely performance of the duties and responsibilities relating to specified reviews and inspections.

This bill would require OSHPD to use information technology, to the extent possible, to facilitate the timely performance of its specified duties and responsibilities.

Ch. 507 (AB 3056) Committee on Insurance Unemployment compensation: eligibility: retraining benefits.

Existing law provides, until January 1, 2010, for retraining benefits for individuals receiving unemployment compensation benefits, who meet certain eligibility criteria, including those federally funded benefits available to individuals pursuant to the federal Trade Act of 1974, as amended (19 U.S.C. Sec. 2101 et seq.).

This bill would instead provide that retraining benefits would include federally funded benefits available to individuals pursuant to the federal Trade Act of 1974, as amended by the federal Trade Act of 2002 (Public Law 107-210), would change the January 1, 2010, sunset date, thereby extending the operation of the retraining benefits provisions until January 1, 2015, and would make technical changes to those provisions.

Ch. 508 (AB 3071) Committee on Governmental Organization Alcoholic beverages.

The Alcoholic Beverage Control Act contains various provisions regulating the application for, the issuance of, the suspension of, and the conditions imposed upon, alcoholic beverage licenses by the Department of Alcoholic Beverage Control.

Existing law defines “public premises” and provides that public premises does not include railroad dining or club cars, passenger ships, airplanes, bona fide clubs, after the clubs have been lawfully operated for not less than one year, historic units of the state park system, premises being operated under a temporary on-sale beer license, on-sale beer licensed stadia, auditoria, fairgrounds, or racetracks, or nonprofit theater companies.

This bill would exempt winegrowers’ premises from the definition of “public premises.”

Existing law allows a retail licensee to return beer to the wholesaler or manufacturer from whom the retail licensee purchased the beer within 15 days from the date the beer was delivered, as provided.

This bill would allow for the return of beer recalled for health or safety issues at anytime.

Existing law generally prohibits the sale or consumption of alcoholic beverages at a public schoolhouse or any grounds thereof. Existing law provides that this prohibition does not apply if the alcoholic beverage is acquired, possessed, or used in connection with a course of instruction given at the school and the person has been authorized to acquire, possess, or use it by the governing body or other administrative head of the school.

This bill would provide that the prohibition against the sale or consumption of alcoholic beverages on the grounds of a public schoolhouse does not apply if the alcoholic beverage is beer or wine acquired, possessed, used, sold, or consumed only in connection with “special events,” as defined, held at the facilities of a public community college.

Existing law does not prohibit the service of any alcoholic beverage by any person between 18 and 21 years of age in any bona fide eating place licensed for the on-sale of alcoholic beverages if certain conditions exist.

This bill would define “service” for purposes of this provision to include the delivery, presentation, opening, or pouring of an alcoholic beverage to customers.

Existing law requires any corporation, limited partnership, or limited liability company holding a license to manufacture, distill, rectify, or sell alcoholic beverages to report any change in the ownership, management, or control of the entity to Department of Alcoholic Beverage Control.

This bill would extend the reporting requirement to any corporation, limited partnership, or limited liability company that holds, directly or indirectly, 10% or more of the ownership of a license to manufacture, distill, rectify, or sell alcoholic beverages.

This bill would also make technical and conforming changes.

This bill would impose a state-mandated local program by changing the definition of an existing crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 509 (AB 3073) Committee on Governmental Organization Horse racing.

Existing law provides that the jurisdiction and supervision over meetings in this state where horse races with wagering on their results are held or conducted, and over all persons or things having to do with the operation of such meetings, is vested in the California Horse Racing Board.

Existing law provides for special races for California-bred horses, with minimum purse money allocated to those races. Existing law defines a “California-bred horse” for that purpose.

This bill would require California-sired horses to be included within the special races designated for California-bred horses, as specified. This bill would define a “California-sired horse” for that purpose.

Existing law makes it a criminal offense for any person to influence, induce, or conspire with any owner, jockey, groom, or other person associated with or interested in any stable, horse, or race in which a horse participates, to affect the result of that race, as specified.

This bill would add trainers to the list of parties whom a person may not influence, induce, or conspire with to affect race results.

Existing law forbids, among other things, the administration of drugs to a horse to affect race results, but exempts from the definition of drugs for this purpose recognized vitamins or supplemental feeds approved by the veterinarian representing the California Horse Racing Board.

This bill would instead exempt recognized vitamins or supplemental feeds approved by or in compliance with the rules and regulations of the board. The bill would make other technical and nonsubstantive changes to these provisions.

By expanding the scope of an existing criminal offense, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 510 (AB 3074) Committee on Governmental Organization Horse racing.

Existing law provides that the California Horse Racing Board may authorize a California harness racing association conducting a live racing meeting to accept wagers on the full card of races conducted by another racing association on the day that other association conducts the Breeder's Crown Stakes, the Meadowlands Pace, the Hambletonian, or the North American Cup.

This bill would authorize the board to permit a California harness racing association conducting a live racing meeting to accept wagers on the full card of races conducted by another racing association on the day that other association conducts the Kentucky Futurity.

Existing law authorizes a thoroughbred racing association or fair to distribute the audiovisual signal and accept wagers on the results of out-of-state thoroughbred races conducted in the United States during the calendar period the association or fair is conducting a race meeting, including days on which there is no live racing being conducted by the association or fair, without the consent of the organization that represents horsemen participating in the race meeting and without regard to the amount of purse, provided however, that the total number of thoroughbred races on which wagers are accepted statewide in any given year does not exceed the total number of thoroughbred races on which wagers were accepted in 1998. Existing law also provides, subject to exceptions, that the total number of thoroughbred races imported by associations or fairs on a statewide basis under these provisions not exceed 23 per day on days when live thoroughbred or fair racing is being conducted in the state.

This bill would delete the restriction limiting the total number of thoroughbred races on which wagers are accepted statewide in any given year to a number not exceeding the total in 1998, as specified. The bill would also provide that, subject to exceptions, the total number of thoroughbred races imported by associations or fairs on a statewide basis under these provisions shall not exceed 32 per day on days when live thoroughbred or fair racing is being conducted in the state.

Under existing law, all revenues distributed to the state as license fees from horse racing are required to be deposited in the Fair and Exposition Fund and are continuously appropriated to the Department of Food and Agriculture for various regulatory and general governmental purposes.

This bill would authorize additional wagering, and would increase correspondingly the amount of continuously appropriated license fees, thereby making an appropriation. This bill would also result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, thereby requiring a  $\frac{2}{3}$  vote for passage.

Ch. 511 (AB 3076) Huffman Vehicles: Maddy Emergency Medical Services Fund.

Existing law requires that in each county a penalty in the amount of \$7 for every \$10 upon a fine, penalty, or forfeiture be imposed and collected by the courts for all criminal offenses to be deposited in various county funds.

Until January 1, 2009, for purposes of supporting emergency medical services, a county board of supervisors may levy an additional penalty in the amount of \$2 for every \$10 upon a fine, penalty, or forfeiture imposed and collected by a court for criminal offenses, and

deposit the collected funds into a Maddy Emergency Medical Services (EMS) Fund established by the county.

Existing law, in lieu of adjudicating a traffic offense of a person who holds a specified type of driver's license, authorizes a court to order or permit a person convicted of a traffic violation to attend traffic violator school, a licensed driving school, or other court-approved program of driving instruction. Existing law requires the clerk of the court to collect a fee from every person who is ordered or permitted to attend a traffic violator school or who attends any other court-supervised program of traffic safety instruction pursuant to these provisions. Existing law requires that revenues derived from collection of this fee be deposited in each county's general fund and distributed in accordance with a specified provision of existing law, including, if applicable, depositing an amount equal to \$2 for every \$7 that would have been collected pursuant to the penalty provisions described above into the county's Maddy Emergency Medical Services (EMS) Fund.

This bill would additionally require revenues from the above-described traffic violator school or traffic safety program fees, in an amount equal to \$2 for every \$10 that would have been collected by a county that imposes that penalty pursuant to the penalty provisions described above, to be deposited into the county's Maddy EMS Fund, commencing January 1, 2009. The bill would provide that a county would not be held liable for depositing these funds into the county EMS fund before January 1, 2009.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 512 (AB 3081) Committee on Natural Resources Sierra Nevada Conservancy.

Existing law establishes the Sierra Nevada Conservancy to undertake various activities related to the Sierra Nevada Region, as defined, and prescribes the management, powers, and duties of the conservancy. Among its duties, the conservancy is to protect, conserve, and restore the region's physical, cultural, archaeological, historical, and living resources. Existing law provides that in the case of a grant of funds to a nonprofit organization or tribal organization to acquire an interest in real property, the agreement between the conservancy and recipient nonprofit organization shall meet certain conditions.

This bill would revise the definition of "nonprofit organization" for purposes of those provisions.

Ch. 513 (SB 140) Kehoe State property: City of San Diego.

(1) Existing law authorizes the Director of General Services to acquire and convey real property for the state, whenever that transfer of the real property is authorized or contemplated by law.

This bill would authorize the director to sell, lease, exchange, or any combination thereof, approximately 2.7 acres of real property in the City of San Diego that is specifically declared not to be surplus to the needs of the state, and, in return, to acquire up to 120,000 net square feet of usable office and related space for consolidated administrative operations of the state. The bill would also provide that funds derived from the sale or exchange of the real property would be appropriated to the Department of General Services to expend for the purposes of the bill.

(2) Existing law authorizes the Director of General Services to purchase, exchange, or otherwise acquire real property, and construct facilities including any improvements, betterments, and related facilities in the City of San Diego, as specified.

This bill would repeal this provision.

Ch. 514 (SB 361) Scott Postsecondary education: California Postsecondary Education Commission.

(1) Existing law establishes the California Postsecondary Education Commission (CPEC) as the statewide postsecondary education coordinating and planning agency and provides for its functions and responsibilities.

This bill would require, unless otherwise specified, that reports submitted to the Legislature by the commission be submitted to the Senate and Assembly budget subcommittees on education, the Senate education and Assembly higher education subcommittees, the Legislative Analyst's Office, the office of the Secretary for Education, and the Department of Finance. This bill would, if full funding is not provided in the annual Budget Act, express the intent of the Legislature that the commission prioritize its workload to ensure, at a minimum, that specified responsibilities are completed in a timely manner.

(2) Existing law requires the governing board of each community college district, the Trustees of the California State University, the Board of Directors of the Hastings College of the Law, the Regents of the University of California, and the governing board of any postsecondary institution receiving public funds for student financial assistance to compile records and safety plans relating to campus security, submit a report of this information to the Legislature and the Governor, and establish guidelines for identifying and reporting occurrences of hate violence.

This bill would require the commission to make these reports available to the Legislature and the general public on its Internet Web site and would delete the requirements that the guidelines be developed in consultation with the commission and that they include specified elements.

(3) Existing law establishes the Student Opportunity and Access Program, administered by the Student Aid Commission, to increase postsecondary educational opportunities, improve students' access to higher education, and reduce the duplication of services by coordinating outreach efforts. The CPEC is required to periodically review and evaluate the program as part of its regular assessment of student academic development programs in the state.

This bill would delete the requirement that the CPEC review and evaluate the program.

(4) Existing law requires the CPEC to prepare and submit a biennial report regarding standardized tests of the state's test subjects to the Governor, the Legislature, the Regents of the University of California, the Board of Governors of the California Community Colleges, the Trustees of the California State University, and the Superintendent of Public Instruction.

This bill would delete this requirement.

#### Ch. 515 (SB 1112) Scott Class size reduction: apportionments.

(1) Existing law establishes the Class Size Reduction Program, in which participating school districts are provided funding for each class in which the class size is reduced to a ratio of 20 or fewer pupils per certificated teacher in kindergarten and any of grades 1 to 3, inclusive. Existing law requires the program to be implemented according to a prescribed order of priority based on grade level, and requires the Controller to deduct a specified amount from the next principal apportionment to the school district for each class that the district failed to reduce to 20 or fewer pupils. The amount deducted is adjusted, for qualifying districts, according to the number of pupils over 20 per class who were enrolled, in effect creating a mitigation formula. Existing law, on July 1, 2009, makes these mitigation provisions inoperative, and repeals them as of January 1, 2010.

This bill would change the date that these provisions will become inoperative to July 1, 2014, and would change the date that these provisions will become repealed to January 1, 2015.

(2) Existing law, on and after July 1, 2009, requires the Controller to deduct an amount equal to the amount received by a participating school district for each class that the school district failed to reduce to a class size of 20 or fewer pupils from the school district's next principal apportionment or apportionments of state funds, as specified.

This bill would provide for these provisions to instead become operative on July 1, 2014.

#### Ch. 516 (SB 1158) Scott Student financial aid: Assumption Program of Loans for Education.

Existing law establishes an assumption program of loans for education, administered by the Student Aid Commission, under which any person enrolled in a participating institution of postsecondary education, or any person who agrees to participate in a teacher trainee or teacher internship program, is eligible to enter into an agreement for loan assumption, to be redeemed pursuant to a prescribed procedure upon becoming employed as a teacher if he or she satisfies certain conditions. Existing law authorizes the commission to issue loan assumption agreements to out-of-state teachers. Existing law also limits the number of loan assumption agreements that can be issued to district interns to 500 per year.

This bill would expand program eligibility by including an otherwise qualified applicant who agrees to teach on a part-time basis for the equivalent of 4 full-time academic years in a public school in the state and a specified credentialed teacher who has not already participated in the program, and who is teaching at a public school ranked in the lowest 2 deciles on the Academic Performance Index. The bill would limit the number of loan assumption agreements that can be provided to specified credentialed teachers to no more than 400 per year and delete the commission's authority to provide agreements to out-of-state teachers. The bill would also reduce the number of loan assumption agreements that can be issued to district interns from 500 to 100 per year.

The bill would provide that a program participant receive a deferral of the resumption of the full liability for the loan for a period not to exceed one calendar year, unless approved by the commission for a longer period, under specified circumstances. The bill would prohibit a participant from owing a refund on any state or federal educational grant or having defaulted on any student loan. The bill would provide that if a participant fails to redeem an agreement for student loan assumption within 10 years of the agreement's issuance, the participant would assume full liability for all student loan obligations. The bill would make technical and clarifying changes and delete obsolete provisions of law.

Ch. 517 (SB 1178) Aanestad Dentistry: registered sex offenders.

Existing law, the Dental Practice Act, provides for the licensing and regulation of the practice of dentistry by the Dental Board of California, in the Department of Consumer Affairs, and authorizes the board to deny, revoke, or suspend a license for specified reasons. Existing law requires the board to deny an application for licensure, renewal, or reinstatement of, or to revoke, the license of an individual who is required to register as a sex offender under the law of this state, another state, or the military. Existing law specifies exceptions to this requirement, including any administrative adjudication fully adjudicated prior to January 1, 2008, as specified.

This bill would also apply these provisions to an individual who is required to register as a sex offender under federal law. The bill would delete the requirement with regard to renewal of a license and would specify that the board may not reissue the individual's license, and may not issue a stay of a license revocation or denial and place the license on probation. The bill would also specify that a petition for reinstatement of a revoked or surrendered license is considered a new proceeding for purposes of the exception related to administrative adjudications.

Ch. 518 (SB 1186) Scott Teachers.

(1) Existing law requires the governing board of a school district to employ for positions requiring certification qualifications only persons who possess the qualifications for those positions. Existing law authorizes the Commission on Teacher Credentialing to waive provisions governing the preparation or licensing of educators in certain situations. If a suitable fully prepared teacher is not available to the school district, the district is required to make reasonable efforts to recruit first a credential candidate who is scheduled to complete initial preparation requirements within 6 months and then a candidate who is qualified to participate in an approved internship program in the region of the school district.

This bill would instead require a school district that seeks a waiver of provisions governing the preparation or licensing of educators to recruit first a candidate who is qualified to participate and enrolls in an approved internship program in the region of the school district and then a candidate who is scheduled to complete preliminary credential requirements within 6 months. The commission would be required to assure that the employer will provide orientation, guidance, and assistance to the candidate.

(2) Existing law requires the Commission on Teacher Credentialing to establish standards and procedures for the initial issuance and renewal of teaching credentials. The commission is prohibited from initially issuing a credential, permit, certificate, or renewal of an emergency credential to a person to serve in the public schools unless the person demonstrates proficiency in basic reading, writing, and mathematics skills in the English language by passing the state basic skills proficiency test, unless the applicant is exempted. The Superintendent of Public Instruction is required, by July 31, 2007, to establish passing scores for the Graduate Record Examinations, the Scholastic Aptitude Test Reasoning Test, and the ACT Plus Writing test that would be substituted for a passing score on the state basic skills proficiency test. A school district is authorized to hire a certificated teacher who has not taken the state basic skills proficiency test if the person has not been afforded an opportunity to take the test.

This bill would exempt from the state basic skills proficiency test an applicant for an eminence credential and an applicant who achieves scores on the writing, reading, and mathematics sections of the College Board SAT Reasoning Test, the enhanced ACT English and mathematics tests, or the California State University Early Assessment Program that are sufficient to waive the English placement test and the entry level mathematics examination administered by the California State University. The bill would delete the requirement that the Superintendent establish passing scores on the specified tests that would be substituted for a passing score on the state basic skills proficiency test. The bill would extend the authority to hire a certificated teacher who has not been afforded an opportunity to take the state basic skills proficiency test to county offices of education and would apply this exemption to certificated personnel rather than certificated teachers.

The bill would make technical changes and delete obsolete provisions regarding the state basic skills proficiency test and holders of specified designated subjects credentials.

(3) Existing law establishes a grant program for qualifying school districts, county offices of education, colleges, and universities that operate alternative certification programs designed to lead to a permanent credential. Alternative certification programs are required to address geographic and subject matter shortage areas and be targeted toward people with work experience and others who already have a bachelor's degree in the field in which they plan to teach. Criteria for selecting grant applicants is required to be limited to specified factors, including geographic distribution and the number of participants to be served. A legislative finding regarding the need for the program states that there is a serious shortage of qualified teachers in the subjects of mathematics, science, and technology, of teachers who work with limited-English-proficient pupils, and of minority teachers.

This bill would delete teachers of technology from the legislative finding that there is a serious shortage of qualified teachers and would add special education teachers to that legislative finding. Geographic distribution would be deleted from the criteria for selecting grantees. The criteria for selecting grantees would be required to include the number of credentialed teachers with at least a preliminary or level 1 credential at each schoolsite where interns will be assigned and the capacity of the grantee to provide mentoring support and assistance to interns.

(4) Existing law establishes the Certificated Staff Mentoring Program for the purpose of encouraging experienced teachers to teach in staff priority schools and to assist teacher interns during their induction and first years of teaching. In order to be eligible for program funding, a school district is required to agree, among other things, to provide an annual salary stipend to each mentor teacher who agrees to teach in certain priority schools.

This bill would include in the purpose of the program encouraging experienced teachers to assist beginning teachers and require a school district, in addition to existing funding requirements, to assure that each experienced teacher receiving a stipend as a certificated staff mentor is providing mentoring and support services first to candidates participating in alternative certification programs and then to beginning teachers participating in a Beginning Teacher Support and Assessment (BTSA) program. A school district would be authorized to assign teachers who serve as support providers in alternative certification or BTSA programs as certificated staff mentors.

Ch. 519 (SB 1197) Alquist Regional occupational centers: joint powers authorities: funding.

Existing law permits the governing board of any high school district, as specified, the governing board of any joint powers regional occupational center or program (ROC/P), or the county superintendent of schools that conducts any county-operated ROC/P, to establish and maintain, in connection with any high school or ROC/P under its or his or her jurisdiction, cooperative career technical education programs or community classrooms as part of a career technical education course in accordance with rules and regulations prescribed by the Superintendent of Public Instruction.

Existing law requires that an ROC/P established and maintained by school districts or joint powers agencies pursuant to a joint powers agreement receive in annual operating funds an amount per unit of average daily attendance equal to the revenue limit received by participating school districts, as specified, from each of the participating school districts.

This bill, commencing in the 2009–10 fiscal year, would require that an ROC/P established and maintained by school districts or joint powers agencies pursuant to a joint powers agreement receive in annual operating funds an amount per unit of average daily attendance equal to the revenue limit received by each of the participating school districts, as specified, directly from the county office of education in which it is located.

Ch. 520 (SB 1245) Negrete McLeod California Mexican American Veterans' Memorial.

Existing law establishes the California Mexican American Veterans' Memorial Beautification and Enhancement Committee and provides for its composition and duties. Existing law authorizes the beautification and enhancement of an existing memorial on state grounds, as defined, provided for through private contributions, and authorizes the committee to, among other things, establish a schedule for its design, construction, and dedication; to solicit designs and devise a process for selection of the final design; to monitor construction; and to consult with and obtain final design and site orientation approval from the Department of General Services.

This bill would require the Department of General Services, in consultation with the committee, to accomplish specified goals with respect to the design and construction of the memorial.

This bill would, before any construction begins, require the Department of Finance to determine that sufficient private funding is available to construct, enhance, and maintain the memorial and the committee to sign a maintenance agreement, as specified.

Ch. 521 (SB 1247) Lowenthal Farmworker housing assistance.

Existing law establishes a low-income housing tax credit program, administered by the California Tax Credit Allocation Committee, which provides procedures and requirements for the allocation of state tax credit amounts among low-income housing projects based on federal law. Existing law also establishes a farmworker housing assistance program and prescribes requirements for claiming tax credits under the program, including a requirement that expenditures upon which the amount of the credit is based shall be eligible costs, as

defined, and a limitation on the amount of development fees that may be included as eligible costs.

This bill would repeal the farmworker housing assistance program and, instead, would require that an amount specified within those tax credit provisions be set aside for projects housing farmworker households, as provided.

This bill would also repeal specified existing tax credits for farmworker housing authorized under the Personal Income Tax Law and the Corporation Tax Law.

This bill would incorporate specified changes proposed by SB 585 if both this bill and SB 585 are chaptered, as provided.

Ch. 522 (SB 1250) Yee Juveniles: communications.

(1) Existing law requires the public officer responsible for the well-being of any minor in the custody of the state or the county to notify the parents or guardians of that minor, if they can reasonably be located, within 24 hours of any serious injury or serious offense committed against the minor, upon reasonable substantiation that a serious injury or offense has occurred. This requirement does not apply if the minor requests that his or her parents or guardians not be informed and the chief probation officer or the Chief Deputy Secretary for Juvenile Justice determines that would be in the best interest of the minor.

This bill would expand the above provision to require the public officer responsible for the well-being of any person in the custody of the Division of Juvenile Facilities to successfully contact at least one individual who is a parent, guardian, or emergency contact of that person, if the individual can reasonably be located, within 24 hours of any suicide attempt, as defined, by the person, or of any serious injury or serious offense committed against the person. The bill would authorize the person, in consultation with division staff, as appropriate, and with concurrence of the public officer responsible for the well-being of that person, to designate other persons who may be notified in lieu of a parent or a guardian. This requirement would not apply if a minor in custody requests that his or her parents, guardians, or other persons not be notified and the director of the division facility determines that would be in the best interest of the minor, or if an adult in custody does not consent to the notification. The bill would require an appropriate staff person, on specified occasions, to explain to a person in custody his or her rights pursuant to these provisions. The bill would require the division to provide the person with forms and any information necessary to provide informed consent as to who shall be notified and would require staff to enter specified information in this regard into the ward's record. The bill would also expand the definition of a "serious injury" for purposes of these provisions.

(2) Existing law requires each facility of the Division of Juvenile Facilities to post a listing of the statutory rights of youth confined in division facilities in a conspicuous location. The Office of the Ombudspersons of the Division of Juvenile Facilities is required to design posters and provide the posters to each division facility.

This bill would require the division, on or before July 1, 2010, to ensure the listing of rights and posters described above are translated into Spanish and other languages as determined necessary by the division. The bill also would require a copy of the rights of the youth to be included in orientation packets provided to parents or guardians of wards, and copies of the rights of youth in English, Spanish, and other languages to be made available in the visiting areas of division facilities and, upon request, to parents or guardians.

(3) Existing law provides that a ward confined in a division facility shall be allowed a minimum of 4 telephone calls to his or her family per month, but authorizes the restriction of telephone usage when calls conflict with institutional operations, supervision, or security, to the extent reasonably necessary for the continued operation and security of the facility.

This bill would provide that those 4 telephone calls may only be temporarily restricted pursuant to these provisions. The bill would authorize a ward, when speaking by telephone or corresponding with a family member, clergy, or counsel, to use his or her native language or the native language of the person to whom he or she is speaking or writing. The bill also

would require, except as specified, the division to encourage correspondence with family or clergy by providing blank paper, envelopes, pencils, and postage, as specified.

(4) Existing law requires the division, not less than 60 days prior to the scheduled parole consideration hearing of a ward eligible for release on parole on or after September 1, 2007, as specified, to provide to the probation department and the court of the committing county, and the ward's counsel, if known, the ward's most recent written case review, along with notice of the parole consideration hearing date.

This bill would require the division to notify the ward of the date and location of the parole consideration hearing not less than 30 days prior to the ward's scheduled parole consideration hearing. The bill would provide that a ward has the right to contact his or her parent or guardian, if he or she can reasonably be located, to inform the parent or guardian of the date and location of the parole consideration hearing. The bill would require the division to also allow the ward to inform other persons identified by the ward, if they can reasonably be located, and who are considered by the division as likely to contribute to a ward's preparation for the parole consideration hearing or the ward's postrelease success. The bill would set forth exceptions to these requirements under specified conditions. The bill would require an appropriate staff person, on specified occasions, to explain to a person in custody his or her rights pursuant to these provisions.

Ch. 523 (SB 1274) Wyland Patriotic exercises and instruction.

Existing law requires a public school to conduct daily patriotic exercises. Existing law provides that this requirement may be satisfied through reciting the Pledge of Allegiance to the Flag of the United States of America.

This bill would specify that instruction that promotes understanding the concepts of "pledge," "allegiance," "republic," and "indivisible," and understanding the importance of the pledge as an expression of patriotism, love of country, and pride in the United States of America satisfies the requirement that patriotic exercises be conducted. This bill would also require that, when pupils in a public school are instructed with regard to the words of the Pledge of Allegiance to the Flag of the United States of America as part of these patriotic exercises, the school is to provide a combination of the giving of the pledge and the instruction described above, which shall be provided by school districts during the time allotted for the patriotic exercise.

Ch. 524 (SB 1284) Lowenthal Property tax: welfare exemptions: rental housing and related facilities.

Existing property tax law establishes a partial welfare exemption for property used exclusively for rental housing and related facilities that are owned and operated by either of any certain types of nonprofit entities or veterans' organizations that meet specified exemption requirements, if either of certain qualifying criteria are met.

This bill would authorize the partial welfare exemption to apply to property that was previously purchased and owned by the Department of Transportation, as specified, and that is now solely owned by an organization that qualifies as an exempt organization, as specified. This bill would require any outstanding tax, interest, or penalty that was levied or imposed upon property that satisfies these criteria for the partial welfare exemption between January 1, 2002, and January 1, 2009, be canceled if the owner of the property certifies that specified conditions were met at the time the tax was levied. This bill would make findings and declarations with regard to the cancellation of this tax.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

This bill would take effect immediately as a tax levy.

Ch. 525 (SB 1370) Yee Education: freedom of speech and of the press.

(1) Existing law grants to public school pupils the right to exercise freedom of speech and of the press, as specified. Existing law also prohibits school districts operating one or more high schools and private secondary schools from making or enforcing a rule that subjects a high school pupil to disciplinary sanctions solely on the basis of conduct that is speech or other communication that is protected by specified provisions of the United States Constitution and the California Constitution. A pupil enrolled in a school that has made or enforced a rule in violation of this prohibition is authorized to commence a civil action for injunctive and declaratory relief.

This bill would specify that the authority to commence a civil action applies to a pupil who is enrolled at the time the secondary educational institution made or enforced a rule in violation of the prohibition. The bill also would prohibit an employee from being dismissed, suspended, disciplined, reassigned, transferred, or otherwise retaliated against solely for acting to protect a pupil engaged in conduct authorized by a specified provision of state law or refusing to infringe upon conduct that is protected pursuant to state law or those constitutional provisions.

(2) Existing law prohibits the Regents of the University of California, the Trustees of the California State University, and the governing board of a community college district from making or enforcing a rule subjecting a student to disciplinary sanction solely on the basis of conduct that is speech or other communication that is protected by specified provisions of the United States Constitution and the California Constitution. A student enrolled in an institution that has made or enforced a rule in violation of this prohibition is authorized to commence a civil action for injunctive and declaratory relief.

This bill would specify that the authority to commence a civil action applies to a student who is enrolled at the time the community college or university made or enforced a rule in violation of the prohibition. The bill also would prohibit an employee from being dismissed, suspended, disciplined, reassigned, transferred, or otherwise retaliated against solely for acting to protect a student engaged in conduct authorized by a specified provision of state law or refusing to infringe upon conduct that is protected pursuant to state law or those constitutional provisions.

(3) Existing law also prohibits a private postsecondary educational institution from making or enforcing a rule that subjects a student to disciplinary sanctions solely on the basis of conduct that is speech or other communication that is protected by specified provisions of the United States Constitution or the California Constitution and authorizes a student enrolled in an institution that has made or enforced a rule in violation of this prohibition to commence a civil action.

This bill would specify that the authority to commence a civil action applies to a student who is enrolled at the time the institution made or enforced a rule in violation of the prohibition.

Ch. 526 (SB 1371) Correa Insurance: automobile repair capping.

Existing law prohibits insurers from engaging in specified acts relating to automotive repair.

This bill would prohibit insurers from capping paint and materials charges, as defined.

Ch. 527 (SB 1511) Ducheny Common interest developments: mortgages: successors in interest.

The Davis-Stirling Common Interest Development Act provides for the creation and regulation of common interest developments. Under existing law, a common interest development is managed by an association pursuant to the provisions of the governing documents of the development.

Existing law requires a trustee or mortgagee to record a notice of default and to post and publish a notice of sale prior to selling real property at a foreclosure sale. Existing law allows any person desiring a copy of any notice of default and notice of sale to cause to be recorded a request for a copy of those notices, as specified, and requires a mortgagee or trustee to provide those notices to a person who has caused that request to be recorded.

This bill would allow an association, with respect to separate interests governed by the association, to record a request that a mortgagee, trustee, or other person authorized to record a notice of default regarding any of those separate interests mail to the association a copy of any trustee's deed upon sale concerning a separate interest, as specified. The bill would require the mortgagee or trustee to mail that information to the association within 15 business days following the date the trustee's deed is recorded. The bill would specify that failure to mail the request, pursuant to that provision, would not affect the title to real property.

Ch. 528 (SB 1561) Steinberg Transit districts: prohibition orders: Sacramento Regional Transit District: Fresno Area Express.

Existing law prohibits certain acts by a person with respect to the property, facilities, or vehicles of a transit district. A violation is an infraction punishable by a fine not exceeding \$75 on a first offense, or a fine not exceeding \$250 or by community service on a subsequent offense.

This bill would, until January 1, 2012, authorize the Sacramento Regional Transit District and the Fresno Area Express to issue a prohibition order to any person cited for committing one or more of certain prohibited acts and under various other circumstances. The prohibition order would prohibit the person subject to the order from entering the property, facilities, or vehicles of the transit district for specified periods of time up to one year. The bill would establish notice requirements in that regard and would provide opportunities for initial and administrative review of the order. The bill would require a transit district exercising this authority to establish an advisory committee, to ensure that personnel charged with issuance and enforcement of prohibition orders receive training, to provide reasonable notice to transit district riders, as specified, and to provide an annual report to the Legislature, as specified. A violation of a prohibition order would be punishable as an infraction. By revising the definition of a crime, the bill would impose a state-mandated local program.

Existing law provides for creation of the Sacramento Regional Transit District, with specified powers and duties relative to operation of public transit services in its service area. Existing law authorizes the board of the district to designate persons regularly employed by the district as inspectors or supervisors with specified authority to enforce district ordinances and specified state laws, and sets forth the procedures to be followed in that regard.

This bill would revise, until January 1, 2012, the authority of all of the persons designated by the board to incorporate additional procedures relating to arrest and issuance of citations.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 529 (SB 1584) Padilla Veterinary medicine.

Existing law, the Veterinary Medicine Practice Act, provides for the licensure or registration and regulation of veterinarians and veterinary technicians by the Veterinary Medical Board of California and makes a violation of that act a crime. Existing law requires the board to adopt a regular inspection program that provides for random, unannounced inspections and authorizes the board to inspect at any time a premises in which veterinary medicine, veterinary dentistry, or veterinary surgery is being practiced.

This bill would require the board to appoint a voluntary, advisory multidisciplinary committee consisting of no more than 9 members to assist, advise, and make recommendations for the implementation of rules and regulations necessary to ensure proper

administration and enforcement of the act, and would make this provision inoperative on July 1, 2011, and repealed on January 1, 2012. The bill would require the board to prioritize its investigative and prosecutorial resources in a specified manner and to annually report and make publicly available the number of disciplinary actions that are taken in each priority category. The bill would require, if the board determines, as a result of inspection, that a premises or place is not in compliance with board standards, that the board provide a notice of deficiencies and a reasonable time for compliance prior to commencing further action.

Existing law authorizes the executive officer of the board to, upon completion of an investigation, issue a citation to a veterinarian or unlicensed person for violations of the act, as specified. Existing law requires that, before issuing a citation, the executive officer submit the alleged violation for review and investigation to at least one designee of the board who is a veterinarian licensed in, or employed by, the state. Existing law provides that a citation may contain a civil penalty and requires the board to adopt regulations covering the assessment of civil penalties that give due consideration to the appropriateness of the penalty with respect to various factors, including, but not limited to, the gravity of the violation.

This bill would require that consideration of the gravity of the violation include whether the violation is minor. In addition, the bill would specifically require that the designee to whom the alleged violation is submitted prior to issuing a citation be licensed in, or employed by, the state either full time or part time and not be out of practice for more than 4 years.

Existing law requires the board to establish an advisory committee on issues pertaining to the practice of registered veterinary technicians and vests that committee with various powers and duties.

This bill would require that the committee consist of 5 members to be appointed by the board commencing January 1, 2009, as specified. The bill would specify the term length and term limit for committee members and would enact other related provisions.

Existing law requires that an applicant for registration as a veterinary technician furnish satisfactory evidence of graduation from a 2-year curriculum in veterinary technology in a college or postsecondary institution approved by the board. Alternatively, existing law authorizes an applicant to furnish satisfactory evidence of the equivalent of that requirement as determined by the board.

This bill would specify that education or a combination of education and clinical practice experience may constitute the equivalent of that requirement, as determined by the board.

Existing law authorizes the board to make a charge for official documents pertaining to the board's affairs. Existing law requires the board to set and collect various other fees, including, but not limited to, a national licensing examination fee for veterinarians, a registration fee for veterinary technicians, a diversion program registration fee, and an application fee for schools seeking approval of a registered veterinary technician curriculum. Existing law sets the maximum amounts of those fees, as specified, and requires deposit of revenue from those fees into the Veterinary Medical Board Contingent Fund, a continuously appropriated fund.

This bill would add a provision to the act requiring a registered veterinary technician to notify the board of his or her new mailing address within 30 days of changing that address and to indicate, in the application for renewal of registration, whether he or she has changed his or her mailing address. The bill would add a fee of \$25 for failing to report that change in mailing address. The bill would delete the provision authorizing the board to make a charge for official documents pertaining to the board's affairs and instead provide that any charge for duplication or other services be set at the cost of rendering the service, except as specified. The bill would also increase the maximum amounts that the board may set for certain other fees, as specified, and would delete the provision of existing law requiring the board to set and collect the fee for the national licensing examination. The bill would require that a school or institution seeking approval of a registered veterinary technician curriculum pay an application fee set by the board not to exceed \$300 and also pay the actual costs of an inspection conducted by the board, as specified. The bill would make other

nonsubstantive, technical changes. By increasing the source of funds for a continuously appropriated fund, the bill would make an appropriation.

Because this bill would create new requirements within the Veterinary Medicine Practice Act, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 530 (SB 1637) Torlakson The California Technology Assistance Project.

Existing law creates the California Technology Assistance Project administered by the State Department of Education to provide a regionalized network of technical assistance to schools and school districts on the implementation of education technology. The California Technology Assistance Project is composed of regional consortia that work collaboratively with school districts and county offices of education to meet locally defined educational needs that can be effectively addressed with the use of technology. Existing law requires the State Board of Education to award grants to fund a school district or county office of education in each region of the California Technology Assistance Project to act as the lead agency to administer the services of that region. Under existing law, these provisions remain in effect only until January 1, 2009.

This bill would instead provide that these provisions would remain in effect until January 1, 2014.

Ch. 531 (SB 1638) Alquist Juveniles: juvenile court schools.

Existing law requires a minor under the jurisdiction of the juvenile court as a consequence of delinquent conduct, in conformity with the interests of public safety and protection, to receive care, treatment, and guidance that is consistent with his or her best interest, that holds the minor accountable for his or her behavior, and that is appropriate for his or her circumstances.

Existing law provides for the establishment of public schools in juvenile halls, juvenile homes, day centers, juvenile ranches, juvenile camps, regional youth educational facilities, or Orange County youth correctional centers, as specified, to provide juvenile court school pupils with quality education and training. Existing law requires a county board of education to provide for the administration and operation of juvenile court schools in the county, either by the county superintendent of schools, as specified, or by contract with the respective governing boards of the elementary, high school, or unified school district in which the juvenile court school is located.

This bill would encourage each county superintendent of schools or governing board of a school district and each county chief probation officer to enter into a memorandum of understanding or an equivalent mutual agreement to support a collaborative process for meeting the needs of wards of the court who are receiving their education in juvenile court schools. The bill would specify various items that may be included in the memorandum of understanding or equivalent mutual agreement.

Ch. 532 (SB 1681) Battin Surplus state real property.

(1) Existing law requires the Department of General Services to offer land that has been declared surplus by the Legislature, and that is not needed by any state agency, to local agencies and private entities and individuals, subject to specified conditions.

This bill would revise the conditions and procedures by which the department may dispose of surplus land to local agencies and private entities and individuals.

(2) Existing law requires any state or local agency disposing of surplus land, prior to disposing of that property, to send a written offer to sell or lease the property for specified

purposes. A state or local agency is not prohibited from selling or leasing surplus land at fair market value or less. If the state or local agency receives offers for the purchase or lease of surplus land from more than one entity, the state or local agency is required to give first priority to the entity that agrees to use the site for housing for persons and families of low or moderate income, but first priority must be given to an entity that agrees to use the site for park or recreational purposes if the land being offered is already being used for those purposes or if the land is designated for park or recreational use in the general plan and will be developed for that purpose.

This bill would, instead, require the state to first offer surplus state real property to local agencies, and next, to offer the property to nonprofit affordable housing sponsors, as defined, prior to offering the property to private entities. The bill would prescribe the procedure for local agencies and nonprofit affordable housing sponsors to use to obtain the surplus state real property.

Ch. 533 (SB 1723) Maldonado Agriculture: pesticide recycling program and certification.

Existing law forbids the sale of a pesticide unless it is in a registrant's sealed or closed container or package.

This bill would require every person who is the first to sell any agricultural- or structural-use pesticide product for use in this state that is packaged in rigid, nonrefillable, high-density polyethylene (HDPE) containers of 55 gallons or less to establish a recycling program, or demonstrate participation in a recycling program to ensure HDPE containers are recycled. Container recycling would be required to comply with specified standards, as published in February 2006, and the recycling program would be required to be certified as being in compliance by a specified 3rd-party organization. This bill would require that records required by those standards shall be maintained for 3 years and shall be subject to audit by the Director of Pesticide Regulation. The bill would provide that any person who is required to establish or participate in this recycling program shall provide to the director, at least annually, a document certifying that this requirement has been met. The bill would allow the director to adopt regulations to carry out the purpose of these requirements, and state the Legislature's intent that any regulatory standards adopted by the department shall be at least as stringent as those standards published in February 2006, as specified. The bill would require specified information be posted on the department's Internet Web site commencing on September 1, 2010. A violation of these requirements would be punishable by a civil fine.

Ch. 534 (SB 1726) Scott Adoption.

(1) Existing law governs the presumptions that apply in a proceeding to determine parentage, including which presumption controls in a case in which 2 or more presumptions arise. Existing law also governs the determination of parentage when a wife undergoes artificial insemination. Existing law specifies that the donor of semen provided to a licensed physician and surgeon for use in artificial insemination of a woman other than the donor's wife is treated in law as if he were not the natural father of a child thereby conceived.

This bill would revise the latter provision to apply also to a donation provided to a licensed sperm bank and to a donation provided for use for in vitro fertilization.

(2) Existing law authorizes the joinder of prospective adoptive parents in a paternity action without the need for a separate motion.

This bill would provide that a joined party shall not be required to pay a fee in connection with this action.

(3) Existing law governs juvenile court proceedings and adoption and foster care proceedings. Among other things, these provisions provide for the confidentiality of juvenile court records, require that notice of hearings in dependency proceedings be given to specified persons, and govern the rights of parents in adoption proceedings. Existing law

generally provides that if a presumed father waives the right to notice in writing before a notary public, no notice of, voluntary relinquishment for, or consent to adoption shall be required from him for the adoption to proceed.

This bill would revise the latter provision to provide that a presumed father may waive the right to notice of any adoption proceeding before or after the birth of the child and in front of an authorized representative of the State Department of Social Services, an authorized representative of a public or private adoption agency, or a notary public.

(4) The Uniform Parentage Act governs the determination of parent and child relationships. Among other things, the act authorizes proceedings to terminate the parental rights of an alleged father when the child is the subject of an adoption proceeding and the alleged father has not, in writing, denied paternity or waived his right to notice of, voluntarily relinquished the child for, or consented to, the adoption.

This bill would revise and recast the provision relating to the termination of the rights of an alleged father of a child that is the subject of an adoption proceeding, as specified. The bill would provide, in addition, that a birth father may validly execute a waiver of notice or denial of paternity before or after the birth of the child, and once signed, no notice of, voluntary relinquishment for, or consent to the adoption of the child shall be required from the birth father for the adoption to proceed.

(5) Existing law provides that if a child is the subject of an adoption and a guardianship petition, the guardianship proceeding shall be consolidated with the adoption proceeding.

This bill would provide that both the guardianship case and the adoption case shall be heard and decided by the court in which the adoption is pending.

(6) Existing law provides that, after a consent to an adoption is signed by the birth parent or parents, the birth parent or parents signing the consent have 30 days to take one of specified actions, including signing a waiver of the right to revoke consent. Existing law requires a waiver to be signed in the presence of a representative of the department or the delegated county adoption agency. If those persons are not available within 10 days, the waiver may be signed in the presence of a judicial officer. Existing law also provides for the waiver to be signed in the presence of a judicial officer, as specified.

This bill would delete the provision authorizing the waiver to be signed in the presence of a judicial officer if neither a representative of the department or agency is available within an unspecified number of days, as specified. The bill would authorize a birth parent to sign the waiver in the presence of an adoption service provider if the birth parent is represented by independent legal counsel and the provider takes specified other action, or in the presence of a judicial officer of a court of record if the birth parent is represented by independent legal counsel. The bill would require that a licensed adoption agency or an adoption service provider provide specified information to a birth parent regarding his or her request to withdraw a relinquishment or a waiver of consent to adoption, as applicable. The bill would also set forth the role of independent legal counsel, as specified. The bill would set forth a specified certificate for that counsel to use in those proceedings. The bill would make other related changes.

(7) Existing law provides for the regulation of adoption facilitators, as defined. Existing law also requires the State Department of Social Services to establish and adopt regulations for a statewide registration process for adoption facilitators.

This bill would require the department to also establish and adopt regulations for a statewide enforcement process for adoption facilitators. The bill would require the process to include a means for removing adoption facilitators from the adoption facilitator registry.

(8) Existing law permits the department to deny inclusion in the registry for adoption facilitators to an applicant who has been convicted of any crime for which the department may deny a license to an adoption agency.

This bill would provide that the department may deny or revoke inclusion in the registry for adoption facilitators to an applicant who does not possess a criminal record clearance or exemption issued by the department, as specified, and the criminal record clearance

regulations applicable to personnel of private adoption services. The bill would also state that criminal record clearances and exemptions granted to adoption facilitators are not transferable.

(9) Existing law requires a person, prior to engaging in the business of or acting in the capacity of an adoption facilitator, to obtain a business license in the appropriate jurisdiction and be bonded, as specified. Existing law also requires the adoption facilitator to file a disclosure form when posting a bond, as specified. Under existing law, along with that disclosure form, the adoption facilitator must provide proof that the facilitator and any member of the staff who provides direct adoption services has a minimum of 3 years of experience employed by a public or private adoption agency, a registered adoption facilitator, or an adoption attorney who assists in bringing adopting persons and placing parents together for the purpose of adoption placement.

This bill would specify that the minimum of 3 years of experience described in that provision must be as an employee of a public or private adoption agency that is licensed by the department.

(10) Existing law also permits an adoption facilitator or staff member subject to that requirement to waive the educational and experience requirements, as specified, including by acquiring over 5 years of work experience providing direct adoption services.

This bill would also specify that the 5 years of work experience must be in providing direct adoption services for a licensed adoption agency.

This bill would also provide that any adoption facilitator who operates without having met certain requirements may be fined \$100 per day, as specified.

Ch. 535 (AB 2863) Leno Independent solar energy producers: master-meter customers.

(1) Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations. An electrical corporation is defined as including every corporation or person owning, controlling, operating, or managing any electric plant for compensation within this state, except where electricity is generated on or distributed by the producer through private property solely for its own use or the use of its tenants and not for sale or transmission to others. Existing law requires that, when gas or electric service is provided by a master-meter customer to users who are tenants of a mobilehome park, apartment building, or similar residential complex, the master-meter customer charge each user at the same rate which would be applicable if the user were receiving gas or electricity directly from the gas or electrical corporation. Existing law creates further requirements for master-meter customers and for the corporations which provide service to them.

This bill would require a master-meter customer to charge each user a rate not to exceed the rate that would be applicable if the user were receiving gas or electricity, or both, directly from the gas or electrical corporation.

This bill would additionally create an exception from the definition of an “electrical corporation” for an independent solar energy producer, as defined.

(2) Existing law defines an “electric service provider” as an entity that offers electrical service to customers within the service territory of an electrical corporation, excluding electrical corporations, local publicly owned electric utilities, and certain cogenerators. Provisions of the existing Public Utilities Act restructuring the electrical services industry require that electric service providers register with the commission and provide for the authorization of direct transactions between electric service providers and end-use customers.

This bill would recast the existing definition and additionally create an exception for an independent solar energy producer, as defined.

(3) This bill would require an independent solar energy producer contracting for the use or sale of electricity or the lease of a solar energy system to an entity or person for use in a

residence to make certain disclosures to the buyer or lessee and to record a Notice of an Independent Solar Energy Producer Contract and related documents, as provided. The bill would impose specific information requirements on independent solar energy producers. The bill would require all contracts for the sale of electricity by an independent solar energy producer to an entity or person for use in a residence to be made available to the commission upon its request, and would provide for confidentiality of those contracts except as otherwise provided. The bill would require a master-meter customer of an electric utility who purchases electricity or leases a solar energy system from an independent solar energy producer, and who provides electric service to users who are tenants of a mobilehome park, apartment building, or similar residential complex, to charge each user of the electric service that is under a submetered system a rate for the solar generated electricity not to exceed the rate charged by the independent solar energy producer or the electric utility's rate for an equivalent amount of electricity, whichever is lower. The bill would impose civil liability on those who violate specified provisions in the amount of actual damages suffered by a transferee or transferor of the real property as a consequence of that violation.

Ch. 536 (AB 2857) Lieber California Alternative Rates for Energy: eligibility.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations and gas corporations, as defined. Existing law authorizes the commission to fix the rates and charges for every public utility, and requires that those rates and charges be just and reasonable. Existing law requires the commission to establish a program of assistance to low-income electric and gas customers, referred to as the California Alternate Rates for Energy (CARE) program.

This bill would prohibit the commission from denying eligibility for the CARE program for a residential user of gas or electric service who is a submetered resident or tenant served by a master-meter customer on the basis that some residential units in the master-meter customer's mobilehome park, apartment building, or similar residential complex do not receive gas or electric service through a submetered system.

Ch. 537 (AB 2267) Fuentes California-based entities: self-generation incentive program.

(1) Existing law establishes the Public Interest Research, Development, and Demonstration Fund in the State Treasury, and provides that the money collected by the public goods charge to support cost-effective energy efficiency and conservation activities, public interest research and development not adequately provided by competitive and regulated markets, be deposited in the fund for use by the State Energy Resources Conservation and Development Commission (Energy Commission) to develop, implement, and administer the Public Interest Energy Research, Development, and Demonstration Program to develop technologies to improve environmental quality, enhance electrical system reliability, increase efficiency of energy-using technologies, lower electrical system costs, or provide other tangible benefits.

This bill would state that it is in the best interest of the people of the state for the Energy Commission to positively contribute to the overall economic climate within its roles and responsibilities, including providing economic benefits to California-based entities, as defined. The bill would require the Energy Commission to give priority to California-based entities in making awards pursuant to the Public Interest Energy Research, Demonstration, and Development Program. The bill would define a California-based entity.

(2) Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities, including electrical corporations and gas corporations, as defined. Existing law requires the PUC, in consultation with the Energy Commission, to administer, until January 1, 2012, a self-generation incentive program for distributed generation resources. The program is applicable to all eligible technologies, as determined by the PUC and subject to certain air emissions and efficiency standards, until January 1, 2008, except

for solar technologies, which the PUC is required to administer separately, after January 1, 2007, pursuant to the California Solar Initiative. Commencing January 1, 2008, until January 1, 2012, existing law limits eligibility for nonsolar technologies to fuel cells and wind distributed generation technologies that meet or exceed emissions standards adopted by the State Air Resources Board (state board). Existing law authorizes the PUC, in administering the program, to adjust the amount of rebates, include other ultraclean and low-emission distributed generation technologies, as defined, and evaluate other public policy interests and energy efficiency and environmental interests. Pursuant to decisions of the PUC, Pacific Gas and Electric Company, Southern California Edison, and Southern California Gas Company are the program administrators throughout their respective service territories and the Center for Sustainable Energy is the program administrator for the San Diego Gas and Electric Company service territory.

This bill would require the PUC to provide from existing program funds an additional incentive of 20% for the installation of eligible distributed generation resources from a California supplier, as defined.

(3) This bill incorporates amendments to Section 25620 of the Public Resources Code proposed by both this bill and SB 1760, which would only become operative if both bills are enacted and become effective on or before January 1, 2009, each bill amends Section 25620 of the Public Resources Code, and this bill is enacted after SB 1760.

(4) Under existing law, a violation of the Public Utilities Act or any order, decision, rule, direction, demand, or requirement of the commission is a crime.

Because certain of the provisions of this bill are within the act and require action by the commission to implement its requirements, a violation of these provisions would impose a state-mandated local program by expanding the definition of a crime.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

Ch. 538 (AB 1451) Leno Property tax: exclusion from newly constructed: active solar energy system.

(1) The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, “full cash value” is defined as the assessor’s valuation of real property as shown on the 1975–76 tax bill under “full cash value” or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. The California Constitution authorizes the Legislature to provide that “newly constructed” does not include, among other things, the construction or addition of an active solar energy system. Existing property tax law excludes from the definition of “newly constructed,” through the 2008–09 fiscal year, the construction or addition of an active solar energy system, as defined.

This bill would modify this exclusion to specify that “the construction or addition of an active solar energy system” includes the construction of an active solar energy system in a new building in which the owner-builder incorporated an active solar energy system in the initial construction of the new building and the owner-builder does not intend to occupy or use the new building. This bill would provide this exclusion to the initial purchaser of the new building, but only if the owner-builder did not receive the exclusion for the same system and the initial purchaser purchased the new building prior to that building becoming subject to reassessment to the owner-builder, as provided. This bill would require the State Board of Equalization, in consultation with the California Assessors’ Association, to prescribe the manner, documentation, and form for a taxpayer to claim this exclusion. This bill would require the county assessor to reduce the base year value of these residences by the value of the active solar energy system, less the total amount of any rebates for the active solar energy system received by either the owner-builder or the initial purchaser of the new building, as specified.

This bill would provide that the changes made by the bill apply beginning with the lien date or the 2008–09 fiscal year. This bill would also extend the active solar energy system exclusion from the definition of “newly constructed” through the 2015–16 fiscal year. This bill would also provide that its provisions are severable.

(2) By imposing new duties on county assessors, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

(4) This bill would take effect immediately as a tax levy.

**Ch. 539 (AB 2180) Lieu Solar energy.**

Existing law provides that a covenant, restriction, or condition contained in any deed, contract, security instrument, or other instrument affecting the transfer or sale of, or any interest in, real property that effectively prohibits or restricts the installation or use of a solar energy system is void and unenforceable, except as specified. Existing law provides that whenever approval is required for the installation or use of a solar energy system, the application for approval shall be processed and approved by the appropriate approving entity in the same manner as an application for approval of an architectural modification to the property, and shall not be willfully avoided or delayed. Any entity, other than a public entity, that willfully violates these provisions is liable to the applicant or other party for actual damages and must pay a civil penalty to the applicant or other party in an amount not to exceed \$1,000.

This bill would require that an approval or denial of an application be in writing. The bill would also provide that an application shall be deemed approved unless it has been denied in writing within 60 days from the date of receipt of the application, unless the delay is the result of a reasonable request for additional information. These provisions would apply only to an approving entity that is a homeowners’ association, and that is not a public entity.

This bill would incorporate changes made by AB 1892 that would become operative if both bills are enacted and this bill is enacted after AB 1892.

**Ch. 540 (AB 2466) Laird Local government renewable energy self-generation program.**

Under existing law, the Public Utilities Commission is vested with regulatory authority over public utilities. Existing law permits a private energy producer to generate electricity not generated from conventional sources, as defined, solely for its own use or the use of its tenants, or to or for any electrical corporation, state agency, city, county, district, or an association thereof, but not the public, without becoming a public utility subject to the general jurisdiction of the commission. Existing law requires the commission to review the charges paid by electrical corporations to private energy producers for electricity not generated from conventional power sources and to review standby and transmission charges made by electrical corporations to private energy producers and, after the review, to adjust those charges to encourage the generation of electricity from other than conventional power sources. Existing law authorizes the City of Davis to receive a bill credit, as defined, to a

benefiting account, as defined, for electricity supplied to the electrical grid by a photovoltaic facility located within and partially owned by the city and requires the commission to adopt a rate tariff for the benefiting account.

This bill would authorize a local government, as defined, to receive a bill credit, as defined, to a designated benefiting account, as defined, for electricity exported to the electrical grid by an eligible renewable generating facility, as defined, and requires the commission to adopt a rate tariff for the benefiting account.

Under existing law, a violation of the Public Utilities Act or an order or direction of the commission is a crime. Because the provisions of this bill would require an order or other action of the commission to implement and a violation of that order or action would be a crime, the bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 541 (AB 2768) Levine Energy: solar energy systems: pricing.

Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities, including electrical corporations. A decision of the PUC adopted the California Solar Initiative. Existing law requires the PUC to undertake certain steps in implementing the California Solar Initiative, including requiring time-variant pricing for all ratepayers with a solar energy system, as defined, pursuant to a time-variant tariff developed by the PUC. Existing law authorizes the PUC to delay implementation of time-variant pricing for ratepayers with a solar energy system, until the effective date of the rates established in the next general rate case of the state's 3 largest electrical corporations. If the commission delays implementation of time-variant pricing, existing law requires that ratepayers required to take service under time-variant pricing between January 1, 2007, and January 1, 2008, and that would otherwise qualify for flat rate pricing, be given the option to take service under flat-rate or time-variant pricing.

This bill would delete that authorization to delay implementation and revise those time-variant pricing provisions by deleting the requirement to impose time-variant pricing on ratepayers with a solar energy system and, instead, authorizing the commission to develop a time-variant tariff.

#### Ch. 542 (AB 2804) Hayashi Renewable energy resources: California Solar Initiative.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations. A decision of the commission adopted the California Solar Initiative. Existing law requires the commission to undertake certain steps in implementing the California Solar Initiative, including authorizing the award of monetary incentives for up to the first megawatt of alternating current generated by a solar energy system, as defined, with the incentive level declining each year following implementation at a rate of no less than an average of 7% per year.

The California Solar Initiative sets forth the procedures by which applicants, including school and community college districts, that have committed to purchase and install a solar energy system may reserve funding to be made available upon installation of the system.

This bill would authorize a school district or community college district to request the extension of a reservation expiration date for monetary incentives for a solar energy system, up to a maximum of 3 extensions of 180 calendar days for each extension. The bill would require that the request be made in writing to the program administrators and contain specified information relating to the need for additional time.

Ch. 543 (SB 1754) Kehoe Energy: California Alternative Energy and Advanced Transportation Financing Authority.

The California Alternative Energy and Advanced Transportation Financing Authority Act established the California Alternative Energy and Advanced Transportation Financing Authority. The authority is authorized to do all things necessary and convenient to carry out the purposes of the act. The authority is also required to establish a renewable energy program to provide financial assistance to certain specified entities to generate new and renewable energy sources, develop clean and efficient distributed generation, and demonstrate the economic feasibility of new technologies.

This bill would additionally authorize the authority to purchase alternative source energy or projects for sale to a specified participating party and to make a loan to a participating party to purchase alternative source energy or projects. The bill would require the authority to ensure that a financed project is limited to resources that the authority determines support the state's goals for the reduction of emissions of greenhouse gases. The bill would specify that certain activities performed for projects financed by bonds for power purchase agreements are subject to requirements for public works projects. The bill would make conforming changes.

This bill would declare specified intent of the Legislature.

Ch. 544 (SB 380) Kehoe Renewable energy resources.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations, as defined. Existing law requires every electrical corporation to file with the commission a standard tariff for electricity generated by an electric generation facility, as defined, that is an eligible renewable energy resource with an effective capacity of not more than one megawatt, is located on property owned or under the control of a public water or wastewater agency, is sized to offset part or all of the electricity demand of the public water or wastewater agency, and meets other deliverability and interconnection requirements. The tariff is required to provide for payment for every kilowatthour of electricity generated by the electric generation facility at a market price determined by the commission pursuant to a specified law, for a period of 10, 15, or 20 years. Existing law requires the electrical corporation to make this tariff available to public water or wastewater agencies that own and operate an electric generation facility within the service territory of the electrical corporation, upon request, on a first-come-first-served basis, until the combined statewide cumulative rated generating capacity of those electric generation facilities equals 250 megawatts, or the electrical corporation meets its proportionate share of the 250 megawatt limit based upon the ratio of its peak demand to total statewide peak demand of all electrical corporations. Existing law authorizes the commission to extend availability of the tariff to electric generation facilities not larger than 1.5 megawatts that otherwise comply with the above-described requirements.

This bill would instead require every electrical corporation to file with the commission a standard tariff for electricity generated by an electric generation facility with an effective capacity of not more than 1.5 megawatts, that is located on property owned or under the control of a customer, and that meets other deliverability and interconnection requirements. The bill would require the electrical corporation to make this tariff available to customers that own and operate an electric generation facility within the service territory of the electrical corporation, upon request, on a first-come-first-served basis, until the combined statewide cumulative rated generating capacity of those electric generation facilities equals 500 megawatts, or the electrical corporation meets its proportionate share of the 500 megawatt limit based upon the ratio of its peak demand to total statewide peak demand of all electrical corporations. The bill would authorize the commission to modify or adjust the above-described requirements for any electrical corporation with less than 100,000 service connections, as individual circumstances merit.

Under existing law, a violation of the Public Utilities Act or an order or direction of the commission is a crime. Because this bill would require an order or other action of the commission to implement its provisions and a violation of that order or action would be a crime, the bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would provide that its provisions would not become operative if SB 1714 of the 2007–08 Regular Session is enacted on or before January 1, 2009, amending Section 399.20 of the Public Utilities Code.

#### Ch. 545 (SB 1135) Ducheny Cemeteries: endowment trust funds.

Existing law, the Cemetery Act, which is administered by the Cemetery and Funeral Bureau, provides for the regulation of private cemeteries, including any cemetery that establishes an endowment care fund or a special care trust fund. Under existing law, an endowment care cemetery is defined as one which has deposited in its endowment care fund at the time of or not later than completion of the initial sale specified minimum amounts for plots sold or disposed of.

This bill would increase the minimum amounts for each plot sold or disposed of that an endowment care cemetery is required to deposit in its endowment care trust fund, as prescribed.

#### Ch. 546 (SB 1147) Calderon Medi-Cal: eligibility: juvenile offenders.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, and under which qualified low-income persons receive health care benefits. The Medi-Cal program is governed, in part, by federal Medicaid provisions.

This bill would, commencing the later of January 1, 2010, or the date that all necessary federal approvals are obtained, require, to the extent permitted under federal law, Medi-Cal benefits provided to an individual under 21 years of age who is an inmate of a public institution to be suspended. This bill would require county welfare departments to notify the department within 10 days of receiving information that an individual under 21 years of age on Medi-Cal in the county is or will be an inmate of a public institution. This bill would also require, by a specified time period, the department, in consultation with the Chief Probation Officers of California and the County Welfare Directors Association, to establish the protocols and procedures necessary to implement these provisions.

By expanding the duties of county welfare departments, this bill would impose a state-mandated local program.

Existing law requires a county juvenile detention facility to provide specified information relating to a ward of the county who is scheduled to be released to the appropriate county welfare department, and requires the county to initiate an application and determine the individual's eligibility for the Medi-Cal program. Existing law also requires a county juvenile detention facility, prior to providing the information to the county welfare department, to notify the parent or guardian of a ward who is a minor of its intention to submit the information. Existing law requires the parent or guardian be given a reasonable time to opt out of the Medi-Cal determination.

This bill would provide that if the cooperation of the minor's parent or guardian is necessary to complete the application, but the parent or guardian fails to cooperate in completing the application, the county shall deny the application in accordance with due process requirements.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 547 (SB 1422) Ridley-Thomas High-occupancy toll (HOT) lanes.

Existing law authorizes a regional transportation agency, in cooperation with the Department of Transportation, to apply to the California Transportation Commission to develop and operate high-occupancy toll (HOT) lanes, including administration and operation of a value-pricing program and exclusive or preferential lane facilities for public transit. Existing law requires the commission to review these applications and submit an eligible application to the Legislature for approval or rejection. Existing law requires approval to be achieved by enactment of a statute. Existing law prohibits approval of an application on or after January 1, 2012.

This bill would authorize a value-pricing and transit development demonstration program involving HOT lanes to be conducted, administered, developed, and operated on State Highway Route 110 and Interstate 10 in Los Angeles County on designated high-occupancy vehicle lanes by the Los Angeles County Metropolitan Transportation Authority (LACMTA) until January 15, 2013. The bill would authorize the LACMTA and the Department of Transportation to implement the program pursuant to a cooperative agreement that addresses specified matters in connection with the program and subject to other conditions, and to establish appropriate traffic flow guidelines, as specified. The bill would authorize the LACMTA to establish, collect, and administer the toll and to use the revenues for the direct expenses related to the program, including administrative costs, as specified. The bill would require the LACMTA and the department to report to the Legislature by December 31, 2012, on the demonstration program. The bill would make findings and declarations in this regard.

Ch. 548 (SB 1441) Ridley-Thomas Healing arts practitioners: substance abuse.

Existing law requires various healing arts licensing boards, including the Dental Board of California, the Board of Registered Nursing, the Physical Therapy Board of California, the Physician Assistant Committee, the Osteopathic Medical Board of California, and the California State Board of Pharmacy to establish and administer diversion or recovery programs or diversion evaluation committees for the rehabilitation of healing arts practitioners whose competency is impaired due to the abuse of drugs or alcohol, and gives the diversion evaluation committees certain duties related to termination of a licensee from the diversion program and reporting termination, designing treatment programs, denying participation in the program, reviewing activities and performance of contractors, determining completion of the program, and purging and destroying records, as specified. Existing law requires the California State Board of Pharmacy to contract with one or more qualified contractors to administer the pharmacists recovery program and requires the board to review the pharmacists recovery program on a quarterly basis, as specified.

This bill would establish in the Department of Consumer Affairs the Substance Abuse Coordination Committee, which would be comprised of the executive officers of the department's healing arts licensing boards, as specified, and a designee of the State Department of Alcohol Drug Programs. The bill would require the committee to formulate, by January 1, 2010, uniform and specific standards in specified areas that each healing arts board would be required to use in dealing with substance-abusing licensees. The bill would specify that the program managers of the diversion programs for the Dental Board of California, the Board of Registered Nursing, the Physical Therapy Board of California, the Physician Assistant Committee, and the Osteopathic Medical Board of California, as

designated by the executive officers of those entities, are responsible for certain duties, including, as specified, duties related to termination of a licensee from the diversion program, the review and evaluation of recommendations of the committee, approving the designs of treatment programs, denying participation in the program, reviewing activities and performance of contractors, and determining completion of the program. The bill would also provide that diversion evaluation committees created by any of the specified boards or committees operate under the direction of the program manager of the diversion program, and would require those diversion evaluation committees to make certain recommendations. The bill would require the executive officer of the California State Board of Pharmacy to designate a program manager of the pharmacists recovery program, and would require the program manager to review the pharmacists recovery program quarterly and to work with the contractors, as specified. The bill would set forth provisions regarding entry of a registered nurse into the diversion program and the investigation and discipline of registered nurses who are in, or have been in, the diversion program, and would require registered nurses in the diversion program to sign an agreement of understanding regarding withdrawal or termination from the program, as specified.

The bill would specify that the diversion program responsibilities imposed on licensing boards under these provisions shall be considered current operating expenses of those boards.

Ch. 549 (SB 1608) Corbett Disabled persons: equal access rights: civil actions.

(1) Existing law provides for the licensure and regulation of persons engaged in the practice of architecture by the California Architects Board.

This bill would require a person licensed to practice architecture, as a condition of license renewal, to complete coursework regarding disability access requirements, as specified, certify that completion to the California Architects Board, and provide specified documentation from the course provider.

(2) Existing law prohibits any person, firm, or corporation from denying or interfering with a disabled person's admittance to or enjoyment of public facilities, or from otherwise interfering with the rights of an individual with a disability, including the right to be accompanied by a guide dog, signal dog, or service dog, as specified. Existing federal law, the Americans with Disabilities Act of 1990, prohibits discrimination against an individual with a disability on the basis of that disability in specified situations, including employment opportunities and access to public accommodations, services, and transportation.

This bill would require an attorney to provide a specified written advisory to a building owner or tenant with each demand for money or complaint for any construction-related accessibility claim, as defined, in a form to be developed by the Judicial Council, and on a separate page clearly distinguishable from the demand for money, as specified.

(3) Existing law authorizes the State Architect to establish a program for voluntary certification by the state of any person who meets specified criteria as a certified access specialist with respect to access to buildings for persons with disabilities.

This bill would authorize the State Architect to implement that program with startup funds derived, as a loan, from the reserve of the Public School Planning, Design, and Construction Review Revolving Fund, upon appropriation by the Legislature, to be repaid as specified. The bill would enact the Construction-Related Accessibility Standards Compliance Act, which would provide for the inspection of sites by certified access specialists and the provision of specified certificates and reports regarding those inspections. The bill would require a local agency, commencing July 1, 2010, to employ or retain at least one building inspector who is a certified access specialist and, commencing January 1, 2014, to employ or retain a sufficient number of building inspectors who are certified access specialists to conduct permitting and plan check services to review for compliance with state construction-related accessibility standards by a place of public accommodation with respect to new construction, as specified. The bill would allow a local agency to charge a permit

applicant or member of the public for these services, and would allow a local government to charge or increase inspection fees to the extent necessary to offset the costs of complying with these provisions. By imposing a new requirement on local agencies with respect to building inspectors, the bill would impose a state-mandated local program.

The bill would require a court, with respect to an action involving a construction-related accessibility claim, to issue an order that, among other things, grants a 90-day stay of the proceedings with respect to that claim, schedules an early evaluation conference, and directs the defendant to file with the court under seal and serve on the plaintiff a copy of any relevant Certified Access Specialist inspection report, which shall be subject to a protective court order, as specified, if the defendant has satisfied certain requirements relating to inspection of the site at issue. The bill would require that early evaluation conferences be conducted by a superior court judge or commissioner, or a court early evaluation conference officer, as defined. The bill would provide that damages may be recovered in a construction-related accessibility claim against a place of public accommodation only if a violation of construction-related accessibility standards denied the plaintiff full and equal access to the place of public accommodation on a particular occasion, as specified.

(4) Existing law establishes various boards and commissions within state government.

The bill would establish the California Commission on Disability Access for certain purposes relating to disability access, and would require the commission to conduct studies and make reports to the Legislature, as specified. The bill would provide that these provisions shall not be implemented, and shall not remain operative, unless funds are appropriated for that purpose. The bill would appropriate \$80,000 from the General Fund to the commission, which would be available May 1, 2009, to fund its startup, as specified.

(5) Existing law requires all construction inspectors, plans examiners, and building officials to complete a minimum of 45 hours of continuing education for every 3-year period, as specified.

This bill would require that at least 8 of those hours of continuing education relate to disability access requirements, as specified. The bill would allow a local government to charge or increase inspection fees to the extent necessary to offset any added costs incurred in complying with these provisions.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(7) The bill would provide that certain provisions described above shall become operative only upon the issuance of a notice by the Director of Finance declaring that the California Commission on Disability Access has been funded and has commenced operations, and certain of those provisions shall cease to be operative if the commission loses funding, or for any other reason ceases operations, as specified.

#### Ch. 550 (SB 1729) Migden Health facilities: training.

Under existing law the State Department of Public Health licenses and regulates skilled nursing facilities and congregate living health facilities, as defined. Violation of these provisions is a misdemeanor.

The bill would require that all registered nurses, certified nurse assistants, licensed vocational nurses, and physicians working in skilled nursing facilities or congregate living health facilities participate in a training program to be prescribed by the State Department of Public Health that focuses on preventing and eliminating discrimination based on sexual orientation and gender identity, as defined. The bill would allow the department to charge each licensee a fee, not to exceed the department's costs, for determining compliance with the program. Because this bill would create a new crime, it imposes a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 551 (AB 1763) Blakeslee Energy: billing information.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations and gas corporations, as defined. Existing law authorizes the commission to fix the rates and charges for every public utility, and requires that those rates and charges be just and reasonable. Existing law requires the commission to designate a baseline quantity of electricity and natural gas necessary for a significant portion of the reasonable energy needs of the average residential customer and requires that electrical corporations and gas corporations file rates and charges, to be approved by the commission, providing baseline rates that apply to the first and lowest block of an increasing block rate structure. Existing law requires the commission to establish an appropriate gradual differential between the rates for the respective blocks of usage.

This bill would require each electrical corporation and each gas corporation to disclose, in a timeframe consistent with each corporation's next general rate case, on the residential customer's billing statement specified information on usage and cost, and contact information for the Public Utilities Commission Consumer Affairs Branch, and to make available online to residential customers specified information on usage and energy conservation measures. The commission would be authorized to modify, adjust, or add to these requirements as the individual circumstances of each electrical corporation or gas corporation merit, or for master-meter customers, as individual circumstances merit. The bill would require the commission, as part of the general rate case of an electrical corporation or gas corporation, to assess opportunities to improve the quality of information contained in the utility's periodic billings. The bill would make various findings and declarations on the need to, and benefits of, providing customers with information regarding their current and historic energy usage, the breakdown of the different costs of their usage, and specific recommendations of measures they can take to reduce their energy consumption.

Under existing law, a violation of the Public Utilities Act is a crime.

Because the provisions of this bill would be a part of the act, the bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 552 (AB 2578) Lieu Public Utilities Commission: procedures and remedies.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities and can establish its own procedures, subject to statutory limitations or directions and constitutional requirements of due process. Existing law authorizes the commission to determine whether a proceeding requires a hearing, authorizes the commission to assign one or more commissioners and administrative law judges to oversee cases, and prescribes separate procedures for proceedings that the commission determines are either quasi-legislative, adjudication, or ratesetting cases. Existing law authorizes the commission to impose various remedies upon finding a violation of the Public Utilities Act or certain other violations, and makes any public utility and any corporation other than a public utility, that violates the act, or that fails to comply with any part of any order, decision, rule, direction, demand, or requirement of the commission guilty of a crime.

This bill would authorize the commission to determine that the respondent lacks, or may lack, the ability to pay potential penalties or fines or to pay restitution that may be ordered by the commission, and if so found, to order the respondent to demonstrate, to the satisfaction

of the commission, sufficient ability to pay potential penalties, fines, or restitution. The bill would require the respondent to demonstrate the ability to pay, or make other financial arrangements satisfactory to the commission, within 7 days of the commission commencing an adjudication case. The bill would authorize the commission to delegate to the attorney to the commission the authority to determine whether a sufficient showing has been made by the respondent of an ability to pay and would authorize the respondent to request impartial review by an administrative law judge. The review of the administrative law judge would become part of the record of the adjudication and would be subject to the commission's consideration in its order resolving the adjudication case. Certain public utilities would be presumed to be able to pay potential penalties or fines or to pay restitution that may be ordered by the commission, and, thus, these ability to pay provisions would not apply to those public utilities.

The commission also has regulatory authority over household goods carriers pursuant to the Household Goods Carriers Act and over charter-party carriers of passengers pursuant to the Passenger Charter-Party Carriers Act.

The bill would authorize the commission to enjoin the sale of the assets of a public utility, common carrier, household goods carrier, or charter-party carrier of passengers to satisfy unpaid fines and penalties, would authorize, until January 1, 2014, the commission to bring an action pursuant to the Uniform Fraudulent Transfer Act, and would make the fraudulent transfer of assets to avoid paying a commission-imposed fine or penalty subject to prosecution under certain existing criminal provisions. By expanding the definition of a crime, the bill would impose a state-mandated local program.

The bill, until January 1, 2014, would extend certain existing authorizations for the state or a department or agency of the state to levy on property by warrant or notice of levy pursuant to any provision of the Public Resources Code, Revenue and Taxation Code, or Unemployment Insurance Code, to any provision of the Public Utilities Code.

The bill would authorize the commission to require, as a precondition to the issuance of certain permits, registrations, or certificates, the procurement of a performance bond sufficient to facilitate the collection of fines, penalties, and restitution related to enforcement actions that can be taken against the applicant.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 553 (AB 2618) Solorio Child abuse reporting: Department of Justice: index.

Existing law requires the Department of Justice to maintain an index of all reports of child abuse and severe neglect submitted by agencies mandated to make those reports. Existing law requires the Department of Justice to make relevant information contained in the index available to specified law enforcement agencies, county welfare departments, and other specified agencies that are conducting a child abuse investigation or an employee or volunteer background investigation.

This bill would require the Department of Justice to make available information regarding a known or suspected child abuser maintained in the index to a county child welfare agency or delegated county adoption agency that is conducting a background investigation of an applicant seeking employment or volunteer status with the agency who, in the course of his or her employment or volunteer work, will have direct contact with children who are alleged to have been or are at risk of being abused or neglected, or have suffered abuse or neglect.

This bill would incorporate additional changes in Section 11170 of the Penal Code proposed by SB 1022 and AB 2651 that would become operative if one or both of those bills are chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

Ch. 554 (AB 2737) Feuer Communicable disease: involuntary testing.

Existing law authorizes a court to order the withdrawal of blood from any person charged in any criminal complaint filed with a magistrate or court and any minor with respect to whom a petition has been filed in juvenile court, in which it is alleged that the defendant or minor interfered with the official duties of a peace officer, firefighter, or emergency medical personnel by biting, scratching, spitting, or transferring blood or other bodily fluids on, upon, or through the skin or membranes of a peace officer, firefighter, or emergency medical personnel for medically accepted indications of exposure to or infection by the acquired immune deficiency syndrome (AIDS) virus, AIDS-related conditions, and those communicable diseases for which medically approved testing is readily and economically available as determined by the court.

Existing law requires copies of the test results to be sent to the defendant or minor, among other specified persons. Existing law authorizes the peace officer, firefighter, emergency medical personnel or the employing agency, officer, or entity to petition the court for this order.

This bill would, instead, authorize a court to order the withdrawal of blood for the above-described purposes from any arrestee whenever a peace officer, firefighter, or emergency medical personnel is exposed to an arrestee's blood or bodily fluids, as defined, while the peace officer, firefighter, or emergency medical personnel is acting within the scope of his or her duties. The bill would require a licensed health care provider, prior to filing a petition with the court, to first make a good faith effort to obtain a voluntary informed consent in writing before filing the petition. The bill would also authorize the petition to be filed *ex parte*. The bill would limit the diseases for which testing is required, to HIV, hepatitis B, hepatitis C. By expanding the duties of local officials, this bill would impose a state-mandated local program.

This bill would require the person whose sample was tested to be advised that he or she will be informed of hepatitis B, and hepatitis C, and HIV test results only if he or she wishes to be so informed.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 555 (AB 2899) Portantino Sexually transmitted diseases: HIV and AIDS: counseling.

Existing law requires the State Department of Public Health to implement and administer various programs relating to treatment of persons with human immunodeficiency virus (HIV) and acquired immunodeficiency syndrome (AIDS).

This bill would allow publicly funded HIV test sites to advise certain people who have been tested before and are following appropriate public health risk reduction measures that they do not need any further education services, to determine whether a person should be allowed to self-administer any data collection forms required by the department, and to provide prevention education through video, small groups, individual interaction, or other methods to small groups or couples.

Ch. 556 (AB 2973) Soto Stun guns.

Existing law makes it a misdemeanor or a felony to assault a person, or to assault a peace officer or firefighter during the performance of his or her duties, as specified, with a stun gun or a taser. Existing law defines "stun gun" for this purpose as any item, except a taser, used or intended to be used as a weapon that is capable of temporarily immobilizing a person by infliction of an electrical charge.

This bill would replace the reference to a taser in the definition of “stun gun” with “less lethal weapon,” as defined. It would instead make it a misdemeanor or felony to assault a person or to assault a peace officer or firefighter in the performance of his or her duties with a stun gun or a less lethal weapon.

By changing the definitions of crimes, the bill would impose a state-mandated local program.

Existing law prohibits a person from selling or furnishing any stun gun to a minor unless the minor is at least 16 years of age and has the written consent of his or her parent or legal guardian. A violation of this prohibition is punishable by a \$50 fine for the first offense, and a subsequent violation is a misdemeanor.

This bill would make it a misdemeanor, punishable as specified, to sell a less lethal weapon to a person under the age of 18 years.

By changing the penalty for a crime and infraction and by creating new crimes, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 557 (AB 3015) Brownley Foster care.

Existing law requires the State Department of Social Services to license community care facilities, including facilities that provide foster care services for children. A violation of community care facility provisions is a misdemeanor. Existing law regulates foster family homes and provides for their licensure by certified foster family agencies, the county, or the State Department of Social Services.

Existing law provides that it is the policy of the state that foster children have specified rights.

Existing law requires an administrator of a group home facility to complete a certification program. It requires every licensed foster parent to complete specified preplacement training and additional annual training. Existing law also requires that each community college district with a foster care education program make orientation and training available to a relative caretaker.

The bill would require the training for administrators, licensed foster parents, and relative caretakers to also include basic instruction of the existing laws and procedures regarding the safety of foster youth at school and the ensuring of a harassment and violence free school environment contained in separate provisions of existing law known as the California Student Safety and Violence Prevention Act of 2000.

By changing the definition of a crime, this bill would create a state-mandated local program.

Existing law provides that it is the policy of this state that all persons engaged in providing care and services to foster children are to have fair and equal access to all available programs, benefits, services, and licensing processes, and shall not be subjected to discrimination or harassment, as specified.

This bill would make technical, nonsubstantive changes to this provision.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 558 (AB 3048) Committee on Utilities and Commerce Public utilities: local publicly owned electric utilities: renewable energy resources.

(1) Existing law requires persons performing electrical work to be certified if required. Certification is required only for work performed by an electrician for a class C-10 electrical

contractor, but not for a person who works for a class C-7 low voltage systems contractor or a class C-45 electric sign contractor.

This bill would exempt from the certification requirements a worker working on a high-voltage electrical transmission or distribution system owned by a local publicly owned electric utility, an electrical corporation, a person, or a corporation, all as defined, when the worker is employed by the utility or a licensed contractor principally engaged in installing or maintaining transmission or distribution systems.

This bill would incorporate additional changes in Section 3099.2 of the Labor Code, proposed by SB 1362, to be operative only if SB 1362 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

(2) Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities, including electrical corporations. The existing Public Utilities Code and Public Utilities Act define certain terms for purposes of the code and the act, respectively.

This bill would provide that the definitions contained in the act govern the construction of the code unless the provision or context otherwise requires. The bill would define the term "Energy Commission" as meaning the State Energy Resources Conservation and Development Commission for purposes of the code, and would define the term "local publicly owned electric utility" within the act.

(3) The existing definition of a "public utility" within the act provides that ownership or operation of a facility that has been certified by the Federal Energy Regulatory Commission (FERC) as an exempt wholesale generator pursuant to a specified section of the Public Utility Holding Company Act of 1935 does not make a corporation or person a public utility solely due to the ownership or operation of the facility. The existing definition of an "exempt wholesale generator" defined the term by incorporating the definition from the Public Utility Holding Company Act of 1935. The federal Energy Policy Act of 2005 repealed the Public Utility Holding Company Act of 1935 and adopted the Public Utility Holding Company Act of 2005, which includes a definition for "exempt wholesale generator." The definition of a "public utility" provides that ownership, control, operation, or management of an electric plant used for sales into the Power Exchange does not make a corporation or person a public utility solely because of that ownership, participation, or sale.

This bill would delete references to facilities certified by the FERC as "exempt wholesale generators" pursuant to the Public Utility Holding Company Act of 1935, and would instead reference the definition of that term in the Public Utility Holding Company Act of 2005. The bill would replace the provision in the definition of a "public utility" that provides that ownership, control, operation, or management of an electric plant used for sales into the Power Exchange does not make a corporation or person a public utility with a provision that ownership, control, operation, or management of an electric plant used for sales into a market established and operated by the Independent System Operator or any other wholesale electricity market does not make a corporation or person a public utility solely due to the ownership, participation, or sale.

(4) The act defines an "electric service provider" as an entity that offers electrical service to customers within the service territory of an electrical corporation, as defined. Pursuant to the act, an "electric service provider" does not include an electrical corporation or a local publicly owned electric corporation, but does include the unregulated affiliates and subsidiaries of an electrical corporation.

Existing law relative to private energy producers defines an "electric service provider" as an electrical corporation, electrical cooperative, or local publicly owned electric utility, excluding a local publicly owned electric utility that serves more than 750,000 customers and that also conveys water to its customers. Existing law relative to private energy producers requires every electric service provider, upon request, to make available to eligible customer-generators contracts or tariffs for net energy metering on a first-come-first-served basis until the time that the total rated generating capacity used by eligible customer-generators exceeds a specified amount.

This bill would replace the definition of “electric service provider” in existing law relative to private energy producers with a definition of “electricity distribution utility or cooperative,” which would not include local publicly owned electric utilities, for which there are separate provisions.

(5) The California Renewables Portfolio Standard Program requires that a retail seller of electricity, including electrical corporations, community choice aggregators, and electric service providers, but not including local publicly owned electric utilities, purchase a specified minimum percentage of electricity generated by eligible renewable energy resources, as defined, in any given year as a specified percentage of total kilowatthours sold to retail end-use customers each calendar year (renewables portfolio standard). The renewables portfolio standard requires each retail seller to increase its total procurement of eligible renewable energy resources by at least an additional 1% of retail sales per year so that 20% of its retail sales are procured from eligible renewable energy resources no later than December 31, 2010. Under existing law the governing board of a local publicly owned electric utility is responsible for implementing and enforcing a renewables portfolio standard for the utility that recognizes the intent of the Legislature to encourage renewable resources, while taking into consideration the effect of the standard on rates, reliability, and financial resources, and the goal of environmental improvement.

This bill would revise the definitions of “eligible renewable energy resource,” “procure,” and “renewables portfolio standard,” and would revise a provision related to the eligibility of certain hydroelectric generation, to include a local publicly owned electric utility, in addition to a retail seller. The bill would revise the definition of “in-state renewable electricity generation facility” that is applicable to renewable energy programs administered by the Energy Commission and is incorporated into the definition of “eligible renewable energy resource” for the purposes of the renewables portfolio standard program, to include the renewables portfolio standard implemented by the governing board of a local publicly owned electric utility, in addition to that adopted for a retail seller, and to delete certain requirements imposed on facilities that generate electricity from biomass energy.

(6) A decision of the PUC adopted the California Solar Initiative. Existing law requires the PUC to undertake certain steps in implementing the California Solar Initiative, defines what is an eligible solar energy system for purposes of the program, and regulates the use of funds under the California Solar Initiative, including ensuring that not less than 10% of the funds for the California Solar Initiative are utilized for the installation of solar energy systems, as defined, on low-income residential housing, as defined.

This bill would conform those definitions of a “solar energy system,” as specified.

(7) Existing law requires the president of the commission to report to the appropriate policy committees of the Legislature, on an annual basis, the costs of specified programs and activities conducted by electrical or gas corporations that have more than a specified number of customers in California.

This bill would require the commission, instead of the president, to prepare the report on an annual basis, and would require the report to be in writing. This bill would also require the report to be submitted to the Governor and the Legislature no later than February 1 of each year, and would require the commission to post the report in electronic format on the Internet Web site of the commission.

(8) This bill would make other technical, nonsubstantive changes, including updating the name of a federal agency office.

Ch. 559 (AB 1879) Feuer Hazardous materials: toxic substances.

(1) Existing law establishes the Department of Toxic Substances Control, in the California Environmental Protection Agency, with powers and duties regarding, among other things, hazardous waste disposal, underground storage of hazardous substances and waste, and the handling and release of hazardous materials.

This bill would require the department by January 1, 2011, to adopt regulations to establish a process by which chemicals or chemical ingredients in products may be identified and prioritized for consideration as being chemicals of concern. The bill would specify a procedure for the adoption of those regulations, including requiring that the department, in adopting those regulations, prepare a multimedia life cycle evaluation, as defined, and submit the regulations and the multimedia life cycle evaluation to the California Environmental Policy Council for review.

The department would also be required to adopt, by January 1, 2011, regulations to establish a process by which chemicals of concern in products, and their potential alternatives, are evaluated to determine how best to limit exposure or to reduce the level of hazard posed by a chemical of concern. The regulations would be required to specify actions that the department may take following the completion of the analysis, including imposing requirements to provide additional information, requirements for labeling or other types of product information, controlling access to or limiting exposure, managing the product at the end of its useful life, or funding green chemistry challenge grants, restrictions on the use of the chemical of concern in the product, or prohibitions on use.

The bill would require the department to establish a Green Ribbon Science Panel to advise the department and the council.

The bill would establish a procedure for the protection of information submitted to the department that is claimed to be a trade secret. Because a violation of the regulations adopted by the department pursuant to the bill would be a crime, this bill would impose a state-mandated local program.

This bill would become effective only if SB 509 is enacted on or before January 1, 2009.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 560 (SB 509) Simitian Hazardous materials: toxic substances.

Existing law establishes the Department of Toxic Substances Control, in the California Environmental Protection Agency, with powers and duties regarding, among other things, hazardous waste disposal, underground storage of hazardous substances and waste, and the handling and release of hazardous materials.

The bill would require the department to establish a Toxics Information Clearinghouse for the collection, maintenance, and distribution of specific chemical hazard traits and environmental and toxicological end-point data. The Office of Environmental Health Hazard Assessment would be required, by January 1, 2011, to evaluate and specify the hazard traits and environmental and toxicological end-points and any other relevant data that are to be included in the clearinghouse.

This bill provides that this act would become effective only if Assembly Bill 1879 is enacted on or before January 1, 2009.

#### Ch. 561 (SB 1298) Simitian California education information.

Under existing law, the State Department of Education maintains the California Education Information System for the purposes of establishing and maintaining a basic, integrated, statewide information system for education. Existing law also establishes the California Longitudinal Pupil Achievement Data System.

This bill would require the department to establish a process by which local educational agencies issue, maintain, and report information for center-based child care and development programs using the unique pupil identifiers established pursuant to the California Longitudinal Pupil Achievement Data System. The bill would specify that these center-based child care and development programs would not be required to implement or maintain unique pupil identifiers until an appropriation for this purpose is provided in the

annual Budget Act or another statute. The bill would require the Chancellor's Office of the California Community Colleges, the University of California, and the California State University to establish a process by which colleges and universities within those systems issue, maintain and report information using specified unique statewide pupil identifiers.

The bill would require the State Chief Information Officer to convene a working group to create a strategic plan that, among other things, provides an overall structural design for the linked education data system and examines the protocols and procedures to be used by state agencies in data processing. The bill would require the strategic plan to be delivered to the Legislature and the Governor on or before September 1, 2009. The bill also would require the State Chief Information Officer to form an advisory committee to the working group that includes specified parties. The bill would be applicable to the University of California only if the Regents of the University of California, by resolution, make it applicable.

The bill would require the Commission on Teacher Credentialing, the State Board of Education, and the department to provide to the State Chief Information Officer the individual nonpersonally identifiable or aggregate data related to teacher distribution, educator credential status, pupil assessment and accountability, or other pupil academic and achievement data, including, but not limited to, data generated from, or related to, the Standardized Testing and Reporting (STAR) Program, the high school exit examination, the English language development test, the Academic Performance Index (API), and adequate yearly progress data and calculations, graduation rates, pupils who drop out of school, and demographics of pupils and teachers.

Ch. 562 (AB 1960) Nava Public resources: oil production facilities and oil spills.

(1) Existing law generally regulates the drilling, operation, maintenance, and abandonment of oil and gas wells. Existing law authorizes the State Oil and Gas Supervisor or district deputy to order the plugging and abandonment of a well that has been deserted, and specifies the circumstances in which a rebuttable presumption of desertion arises. A violation of these provisions of law is a crime. A violation of existing law and regulations regulating the drilling, operation, maintenance, and abandonment of oil and gas wells is punishable by a maximum civil penalty of \$5,000.

Existing law regulates the disposition of oil and gas wells.

This bill would require the Division of Oil, Gas, and Geothermal Resources to prescribe, by regulation, minimum facility maintenance standards for production facilities, as defined. The bill would require a person proposing to construct, acquire, maintain, or alter a production facility to comply with these standards. The bill would require an operator to notify the supervisor of the construction, alteration, or decommission of a production facility, to maintain at the production facility's local office specified records, and to provide access to, and copies of, these records to the supervisor. The bill would require the division to inspect a production facility to ensure compliance with the standards and would authorize the division to charge the production facility operator a fee in an amount sufficient to reimburse the division for the costs of implementing these requirements. The supervisor would be authorized to issue a cease and desist order to a production facility operator if the supervisor determines that the production facility is operated in violation of the prescribed standards. The division would be authorized to impose a life-of-well or life-of-production facility bond requirement on a production facility operator that has a history of violating regulations related to a production facility or has outstanding liabilities to the state. Because a violation of these provisions is a crime, this bill would impose a state-mandated local program. The bill would increase the maximum civil penalty for a violation of laws and regulations related to oil and gas wells to \$25,000.

This bill would also extend the regulations related to the disposition of oil and gas wells to production facilities.

(2) The Lempert-Keene-Seastrand Oil Spill Prevention Act requires a person responsible for a discharge or a threatened discharge of oil in marine waters to immediately report the

discharge to the Office of Emergency Services. A person who fails to notify the Office of Emergency Services, upon conviction, is subject to a fine of not less than \$2,500 or more than \$250,000 for a first violation and a fine of not less than \$5,000 or more than \$500,000 for a 2nd or subsequent violation, or by imprisonment in a county jail for not more than one year, or by both the fine and imprisonment. That act also imposes specified minimum criminal fines for specified violations.

This bill would provide that a person who knowingly makes a false or misleading marine oil spill report to the Office of Emergency Services, upon conviction, is subject to the above-described fine or imprisonment, or both that fine and imprisonment. By creating a new crime, this bill would impose a state-mandated local program. The bill would eliminate the specified minimum criminal fines.

(3) Existing law requires a person who handles hazardous materials, upon discovery, to immediately report a release or a threatened release of a hazardous substance to, among other agencies, the Office of Emergency Services. A person who fails to provide the report, upon conviction, is subject to a specified fine or imprisonment, or both that fine and imprisonment.

This bill would subject, upon conviction, a person who fails to provide the required report or who knowingly makes a false or misleading report on an oil spill in waters of the state other than marine waters to a fine of not more than \$50,000. By creating a new crime, this bill would impose a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 563 (AB 2031) Hancock Oil spill prevention and response.

(1) The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act generally requires the administrator for oil spill response, acting at the direction of the Governor, to implement activities relating to oil spill response, including emergency drills and preparedness, and oil spill containment and cleanup, and to represent the state in any coordinated response efforts with the federal government.

The act also requires the administrator to implement the California oil spill contingency plan and carry out programs to provide training for individuals in response, containment, and cleanup operations and equipment, equipment deployment, and the planning and management of these programs.

The bill would require the administrator, as part of the training and certification program, to authorize a local spill response manager to train and certify volunteers, and the local response managers would be required to participate in all drills upon the administrator's request. The bill would require, in the event of an oil spill, the local spill response manager to provide the state onscene coordinator with timely information on activities and resources deployed by local government in response to the oil spill, cooperate with the administrator, and respond in a manner consistent with the area contingency plan, to the extent possible.

This bill would also require the administrator to offer grants to a local government with jurisdiction over or directly adjacent to marine waters to provide oil spill response equipment to be deployed by a local spill response manager.

(2) Existing law requires, without regard to intent or negligence, a party responsible for the discharge or threatened discharge of oil in marine waters to report the discharge immediately to the Office of Emergency Services which then is required to notify the administrator, the State Lands Commission, the California Coastal Commission, and the California regional water quality control board having jurisdiction over the location of the discharged oil. Existing law requires each public agency receiving notice to adopt an internal protocol over communications regarding the discharge of oil and file the internal protocol with the Office of Emergency Services.

This bill would require a party, responsible for the discharge or threat of a discharge of oil in marine waters whose initial report to the Office of Emergency Services was inaccurate, incomplete, or changed as to the quantity of oil discharged, to report the updated information to the Office of Emergency Services, as prescribed. This bill would also require the Office of Emergency Services to notify the appropriate local governmental agencies in the area surrounding the discharged oil. By requiring these local entities to adopt and file an internal protocol covering communications regarding the discharge of oil, the bill would create a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 564 (AB 2935) Huffman Oil spill prevention and response.

The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act generally requires the administrator for oil spill response, acting at the direction of the Governor, to implement activities relating to oil spill response, including emergency drills and preparedness, and oil spill containment and cleanup, and to represent the state in any coordinated response efforts with the federal government. Existing law requires the administrator to amend, on a triennial basis, the California oil spill contingency plan containing specified elements, including an environmentally and ecologically sensitive element for the preparation and distribution of maps depicting environmentally and ecologically sensitive areas in marine waters or along the coast.

This bill would additionally require the environmentally and ecologically sensitive element to include the identification and prioritization of environmentally and ecologically sensitive areas, a plan for protection actions to be taken in the event of an oil spill in those areas, the location of available response equipment and personnel to deploy the equipment to protect priority environmentally and ecologically sensitive areas, and a program for testing protection strategies for each of the priority environmentally and ecologically sensitive areas. The bill would additionally require the California oil spill contingency plan to include an element that would consider the utilization of specified private working craft and mariners in plans for containment and cleanup.

Existing law with regard to fish generally makes it unlawful to deposit in, permit to pass into, or place where it can pass into, the waters of this state any of certain listed petroleum products. Existing law authorizes the Department of Fish and Game to clean up or abate, or cause to be cleaned up or abated, the effects of any petroleum or petroleum product deposited or discharged in the waters of this state or deposited or discharged in any location onshore or offshore where the petroleum or petroleum product is likely to enter the waters of this state, to order any person responsible for the deposit or discharge to clean up the petroleum or petroleum product or abate the effects of the deposit or discharge, and recover any costs incurred as a result of the cleanup or abatement from the responsible party.

This bill would require the Director of Fish and Game, within 24 hours of notification of a spill or discharge, as described, to close certain waters to the take of all fish and shellfish. The bill would provide that closure is not required if the Office of Environmental Health Hazard Assessment (OEHHA) finds, within 24 hours of the notification, that a public health threat does not or is not likely to exist. The bill would require the director, in consultation with the OEHHA, to make specific determinations with regard to the spill or discharge within 48 hours. The director would also be required, within 48 hours of notification or as soon as is feasible, in consultation with the OEHHA, to assess and determine the potential danger from consuming fish contained in a recirculating seawater tank onboard a vessel.

The director would be required, after complying with the above provisions, but in no event more than 7 days from notification of the spill or discharge, to order expedited tests of fish and shellfish known to be taken for commercial, recreational, or subsistence purposes in the closed area, to determine the levels of contamination, if any, and whether the fish or shellfish are safe for human consumption. The director would be authorized to immediately reopen the closed area and waive the testing requirements if the director determines in the assessment that there is no significant risk to the public or fisheries.

The bill would require the director to reopen the closed areas if the OEHHA notifies the director, within 24 hours of receiving the notification, that the closed areas be reopened but would authorize the director to maintain a closure in a remaining portion of the closed area if the OEHHA makes a specified finding or if the department determines contamination from the spill or discharge persists that may cause the waste of fish or shellfish. The bill would require the director to seek full reimbursement from the responsible party or parties for the spill or discharge for all reasonable costs incurred by the department in carrying out these provisions.

Ch. 565 (AB 2911) Wolk Oil spill prevention and response: inland spills: wildlife contaminations.

The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act generally requires the administrator for oil spill response, acting at the direction of the Governor, to implement activities relating to oil spill response, including drills and preparedness, and oil spill containment and cleanup, and to represent the state in any coordinated response efforts with the federal government.

Existing law defines various terms for the purposes of the act.

This bill would additionally define “inland spill” and “inland waters” for the purposes of the act. The bill would require the Administrator of the Office of Spill Prevention and Response, by January 1, 2010, to submit to the Governor and the Legislature an amended California oil spill contingency plan consisting of both marine and inland oil spill contingency planning sections. The bill would revise provisions regarding containment, cleanup, and removal requirements for oil discharges, liability for damages caused by oil spills, and administrative and civil penalties to include inland spills. The bill would also increase administrative and civil penalties for spills in marine waters.

This bill would provide that any penalties collected with respect to inland spills shall be deposited in the Fish and Wildlife Pollution Account, which is a continuously appropriated fund, and shall be available for specified purposes. By increasing the sources of funds for a continuously appropriated fund, the bill would make an appropriation.

Existing law requires the administrator to establish a network of rescue and rehabilitation stations for sea birds and marine mammals.

This bill would provide that, in addition to rehabilitative care, the primary focus of the Oiled Wildlife Care Network shall include proactive oiled wildlife search and collection rescue efforts. The bill would also require the administrator to ensure the state’s ability to prevent the contamination of wildlife and to identify, collect, rescue, and treat oiled wildlife according to specified requirements, including training of volunteers, stocking emergency equipment for rescue, and providing additional staffing.

Existing law imposes the oil spill prevention and administration fee on persons owning crude oil or petroleum products at a marine terminal. The fee is deposited into the Oil Spill Prevention and Administration Fund in the State Treasury. Upon appropriation by the Legislature, money in the fund is available for specified purposes.

This bill would provide that those moneys shall also be available to cover costs incurred by the Oiled Wildlife Care Network for training and field collection, and search and rescue activities.

Existing law imposes a uniform oil spill response fee on specified persons owning petroleum products during any period that the Oil Spill Response Trust Fund contains less

than a designated amount. The money in the fund is continuously appropriated for specified purposes. Existing law requires the administrator to submit as a proposed appropriation in the Governor's Budget, an amount up to \$1.5 million of the interest earned on the funds deposited into the Oil Spill Response Trust Fund, for the purpose of equipping, operating, and maintaining the network of oiled wildlife rescue and rehabilitation stations.

This bill would instead require the administrator to submit as a proposed appropriation an amount up to \$2 million of the interest earned on the funds in the Oil Spill Response Trust Fund, thereby making an appropriation.

Existing law authorizes the Department of Fish and Game to clean up or abate, or cause to be cleaned up or abated, the effects of any petroleum or petroleum product deposited or discharged in the waters of the state or in any onshore or offshore location where the petroleum or petroleum product is likely to enter the waters of the state, or order any person responsible for the deposit or discharge to clean up or abate the effects, and recover any costs incurred for the cleanup or abatement from the responsible party.

This bill would give the Administrator of the Office of Spill Prevention and Response the primary authority to serve as a state incident commander and direct removal, abatement, response, containment, and cleanup efforts with regard to all aspects of any placement of petroleum or a petroleum product in the waters of the state, as provided.

This bill would incorporate additional changes in Sections 8670.3 and 8670.48 of the Government Code, proposed by AB 2547, to be operative only if AB 2547 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

This bill would incorporate additional changes in Section 8670.40 of the Government Code, proposed by AB 2032, to be operative only if AB 2032 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

#### Ch. 566 (SB 1739) Simitian Oil spill contingency plan.

(1) The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act generally requires the administrator for oil spill response, acting at the discretion of the Governor, to implement activities relating to oil spill response, including drills and preparedness, and oil spill containment and cleanup, and to represent the state in any coordinated response efforts with the federal government. The act requires the administrator to periodically carry out announced and unannounced drills to test response and cleanup operations, equipment, contingency plans, and procedures.

This bill would specify an alternative procedure if the administrator, the United States Coast Guard, or any other qualified public agency, as determined by the administrator, is unable to attend a drill of the oil spill contingency plan held outside the state. The bill would authorize the administrator to require the owner or operator of the vessel or marine facility to provide for an independent drill monitor to evaluate the drill, who would be required to submit the evaluation to the administrator and the owner or operator. Based upon this evaluation, the administrator would be required to determine whether the drill satisfies the requirements of the act. The bill would require the administrator to adopt regulations to implement these provisions on or before January 1, 2010.

(2) The act requires every owner or operator of specified marine facilities and owners or operators of certain vessels to prepare and implement an oil spill contingency plan containing specified provisions that has been submitted to, and approved by, the administrator. With respect to a marine facility, the act requires the plan to include provisions for training and drills on elements of the plan at least annually and provisions for subjecting all elements of the plan to drills or tests, as specified by the administrator, at least once every 3 years.

This bill would instead require the plan for both those marine facilities and for vessels to include training and drills on all elements of the plan at least annually and subject all elements of the plan to a drill at least once every 3 years.

(3) The act authorizes an oil spill response organization (OSRO) to apply to the administrator for a rating of that OSRO's response capabilities. The administrator is authorized to require a rated OSRO to demonstrate that the rated OSRO can deploy the response resources required to meet the applicable provisions of an oil spill contingency plan in which the OSRO is listed. The act requires each rated OSRO to satisfactorily complete at least one unannounced drill every 3 years after receiving its rating, and allows for specified drill substitutions.

This bill would instead require the administrator to require a rated OSRO to demonstrate that the rated OSRO can deploy the response resources required to meet the applicable provisions of an oil spill contingency plan in which the OSRO is listed. The bill would also require the administrator to require satisfactory completion of one unannounced drill for each rated OSRO prior to being granted a renewal or prior to reinstatement of a revoked or suspended rating. The bill would limit certain drill substitutions to acts within the previous 3 years.

(4) This bill would incorporate additional changes in Section 8670.30 of the Government Code, proposed by AB 2547, to be operative only if AB 2547 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

Ch. 567 (SB 1627) Wiggins Board of Pilot Commissioners for the Bays of San Francisco, San Pablo, Suisun, and Monterey.

(1) Existing law provides for the regulation and licensing of pilots for the Bays of San Francisco, San Pablo, Suisun, and Monterey by the Board of Pilot Commissioners for the Bays of San Francisco, San Pablo, and Suisun. Under existing law, the board consists of 7 members who are appointed by the Governor, with the consent of the Senate. Existing law requires the board to appoint and license the number of pilots needed to carry out these provisions and requires the board to consider various factors in making this determination. Existing law specifies that the board has the sole authority to determine the qualifications and requirements for obtaining a pilot license, and it also authorizes the board to suspend or revoke licenses for misconduct, and it specifies procedures for that action. Existing law establishes various rights and duties of these pilots. Existing law provides for an administrative assistant/secretary of the board and assigns various duties to that position. Existing law also prescribes pilotage rates for vessels and requires vessels inward or outward bound to pay a specified rate of bar pilotage through the Golden Gate and into or out of the Bays of San Francisco, San Pablo, and Suisun, and vessels navigating the waters of Monterey Bay are also required to pay a specified rate. Under existing law, there is a San Francisco Bar Pilot Pension Plan, and existing law specifies benefits, administration, eligibility, financing, and other matters relating to the operation of the plan. Existing law also imposes various surcharges for, among other things, pilot trainee training, pilot training, and board operations. Existing law authorizes the board to appoint an executive director who serves at the pleasure of the board.

This bill would revise and recast those provisions by making the board a part of the Business, Transportation and Housing Agency, to be renamed the Board of Pilot Commissioners for the Bays of San Francisco, San Pablo, and Suisun. The bill would eliminate the position of the administrative assistant/secretary and reassign its duties to the board. The bill would establish the position of an assistant director who is appointed by, and serves at the pleasure of, the Governor. The bill would make the Secretary of the Business, Transportation and Housing Agency an ex officio member of the board. The bill would also require the Secretary of the Business, Transportation and Housing Agency to act as the executive director during the absence of the executive director from the state or during a vacancy.

The bill would, until January 1, 2011, require that the Bureau of State Audits complete specified audits of the board by December 1, 2009, and January 1, 2010, respectively. The bill would also require the Business, Transportation and Housing Agency to provide

comments and recommendations, if any, to the board and the Legislature based on the final audits by the Bureau of State Audits no later than 6 months from the date of the receipt of the audits. The bill would provide for reimbursement of the bureau's actual costs in conducting these audits to the extent that these costs are not covered by a legislative appropriation. The bill would make an appropriation of \$350,000 for this purpose.

(2) Existing law provides for the appointment of a port agent by a majority of the licensed pilots subject to the approval of the board and assigns to the port agent various duties, including carrying out the orders of the board and other applicable laws and otherwise administering the affairs of the pilots.

This bill would specify additional duties of the port agent.

(3) Existing law authorizes the board to issue a subpoena for a witness in a case pending before the board. A witness who disobeys the subpoena is subject to a civil penalty of \$100.

This bill would increase the civil penalty to \$500.

(4) Existing law requires that a register of pilots appointed by the board be kept.

This bill would, instead, require the board to keep specified records of each pilot appointed and licensed by the board and would require pilots to provide the board with a notice of change of specified records within 30 days of the change. The bill would specify that personal information in the records is confidential and would require the board to establish procedures for access to that information. An agent of the board who, without authorization, willfully discloses confidential information is subject to a civil penalty not to exceed \$2,500.

(5) Existing law authorizes an incident review committee to take certain action after full consideration of the evidence related to an incident, misconduct, or other matter for which a license may be revoked or suspended.

This bill would, instead, authorize the board, after full consideration of the evidence, report, and recommendations from the incident review committee, to take certain action, including remanding the matter to the incident review committee for further investigation. The executive director would be required to notify the board of any pilot or inland pilot who fails, or refuses, to complete training, practice trips, or other corrective action imposed by the board.

(6) Existing law authorizes the revocation or suspension of a pilot or inland pilot license under specified circumstances.

This bill would, additionally, authorize the revocation or suspension of a license for a pilot's or inland pilot's failure or refusal to complete corrective action imposed by the board.

Ch. 568 (SB 1217) Yee Vessels: Board of Pilot Commissioners: pilots: fitness for duty.

Existing law establishes in state government the Board of Pilot Commissioners, with jurisdiction over Monterey Bay and the Bays of San Francisco, San Pablo, and Suisun. Existing law authorizes the board to appoint an executive director to perform various duties.

This bill would require the board, on or before April 15, 2010, and annually thereafter, to submit to the Secretary of the Senate and the Chief Clerk of the Assembly a report containing specified information describing its activities for the preceding calendar year.

Existing law continuously appropriates the funds in the Board of Pilot Commissioners' Special Fund for the payment of the compensation and expenses of the board, its officers and employees, and training programs.

By imposing the duty to submit an annual report of the board's activities, the bill would make an appropriation.

Existing law requires pilots and inland pilots to undergo physical examinations in accordance with standards prescribed by the board in conjunction with the renewal of their licenses. Existing law requires that the examination designate that each pilot or inland pilot is fit to perform his or her duties as a pilot.

This bill would, instead, require the board to appoint a physician or physicians who are qualified to determine the suitability of a person to perform his or her duties as a pilot, an

inland pilot, or a pilot trainee in accordance with specified requirements, that include, among other things, an evaluation of the effects of the prescription medications that the pilot, inland pilot, or pilot trainee is taking, and would require the appointed physician to designate to the board whether the pilot, inland pilot, or pilot trainee is fit to perform his or her duties as a pilot, inland pilot, or pilot trainee.

The bill would require the board to terminate a pilot trainee or suspend or revoke the license of a pilot or an inland pilot who fails to submit the prescribed medication information required by these provisions.

This bill would also provide that certain provisions would be operative only if SB 1627 and this bill are both enacted and become effective on or before January 1, 2009, and other provisions would be operative only if this bill is enacted and becomes effective on or before January 1, 2009, and SB 1627 is not enacted.

Ch. 569 (AB 1860) Huffman Unsafe products: recall or warning.

Existing federal law authorizes the United States Consumer Product Safety Commission to establish and enforce product safety standards that it finds necessary to protect against unreasonable risk of injury. Once the commission staff determines a product violates a specific statute or regulation, the staff notifies the responsible manufacturer, importer, distributor, or retailer, and assists the responsible firm with the development and implementation of a remedial repair, replacement, or refund program, also known as a recall.

Existing state law provides for the establishment and enforcement of various product safety standards for consumer products, including, among others, requiring specified warning labels for water heaters, and prohibiting the sale of contaminated toys and lead-tainted tableware.

Existing state law prohibits the manufacture, production, preparation, compounding, packing, selling, offering for sale, or keeping for sale within the State of California, or the introduction into this state, of a misbranded hazardous substance or banned hazardous substance. Existing law requires the manufacturer, distributor, or retailer of any banned hazardous substance to repurchase the article or substance from the person to whom it was sold, and to refund the purchase price paid.

This bill would prohibit a commercial dealer, manufacturer, importer, distributor, wholesaler, or retailer from manufacturing, remanufacturing, distributing, selling at wholesale or retail, contracting to sell or resell, leasing, or subletting, or otherwise placing into the stream of commerce, a product that is unsafe knowing that the product is unsafe, as specified. The bill would provide for an unsafe product to be retrofitted, and would permit the sale of the retrofitted product if accompanied by a specified notice.

The bill would require a commercial dealer, manufacturer, importer, distributor, or wholesaler that has placed into the stream of commerce a product for which a recall or warning has subsequently been issued to initiate specified steps within 24 hours after issuing or receiving the recall notice or warning, including contacting all of its customers, other than end consumers, to whom it sold, leased, sublet, or transferred that particular product, and posting prominently on its Internet Web site a link to recall or warning information that contains the specific recall notice or warning that was issued for the product in question and other specified information.

The bill would require the manufacturer of the product to provide for the safe return of the product to the manufacturer at no cost to the end consumer or retailer, and would require the manufacturer to properly dispose of the product and not export the product, or permit it to be exported, for disposal in a manner that poses a significant risk to the public health or the environment. The bill would impose additional requirements upon retailers of products determined to be unsafe, including removing the product from the shelves of its stores or programming its registers to ensure that the item cannot be sold, within 3 days after receiving the recall notice or warning of the unsafe product.

This bill would subject a person who violates these provisions to a civil penalty of up to \$1,000 for each occurrence, up to a maximum of \$20,000.

Ch. 570 (AB 2071) Karnette Plastic bags: plastic food and beverage containers: enforcement.

Existing law prohibits a person from selling a plastic bag or a plastic food or beverage container in this state that is labeled with the term “compostable,” “biodegradable,” “degradable,” or any form of those terms, or in any way that implies that the plastic bag or plastic food or beverage container will break down in a landfill, composting, marine, or other natural terrestrial environment, unless, at the time of the sale, the plastic bag or plastic food or beverage container meets specified standards for the term used on the label. Existing law also requires a manufacturer or supplier of plastic bags or plastic food or beverage containers, upon the request of a member of the public, to submit to that member, within 90 days of the request, specified information and documentation relating to the manufacturer’s or supplier’s compliance with that labeling requirement.

This bill would authorize a city, a county, or the state to impose civil liability, in specified amounts, for violations of the above provisions and would require any civil penalties collected to be paid to the office of the city attorney, city prosecutor, district attorney, or Attorney General, whichever office brought the action. The bill would authorize any penalties collected by the Attorney General to be expended by the Attorney General, upon appropriation by the Legislature, to enforce those provisions. This bill would provide that the remedies are not exclusive and are in addition to the remedies that may be available pursuant to prescribed enforcement provisions of the Unfair Practices Act. The bill would require any costs incurred by a state agency in carrying out the above provisions to be recoverable by the Attorney General, upon the request of the state agency, from the liable person or persons.

Ch. 571 (AB 2286) Feuer Unified hazardous waste and hazardous materials.

(1) Existing law requires the Secretary for Environmental Protection to implement a unified hazardous waste and hazardous materials management regulatory program. A city or local agency that meets specified requirements is authorized to apply to the secretary to implement the unified program, and every county is required to apply to the secretary to be certified to implement the unified program.

Existing law provides that as funding becomes available, the secretary shall maintain a statewide database. Existing law also requires each certified unified program agency to institute a single fee system to implement the consolidation of certain hazardous waste requirements and to ensure the coordination and consistency of any regulations adopted pursuant to those requirements. Existing law requires the single fee system to include an assessment of a surcharge on each person regulated by the unified program, the amount of which shall be determined by the secretary annually, to cover the necessary and reasonable costs of the state agencies in carrying out their responsibilities in a unified hazardous waste and hazardous materials management regulatory program.

This bill would, instead, require that in addition to any other funding that becomes available, the secretary shall increase the oversight surcharge by an amount necessary to establish the data system, but not to exceed \$25 each year for 3 years, to establish the statewide information management system, and would provide that not less than 75% of that funding shall be provided to certified unified program agencies and participating agencies through grant funds for the purposes of the system. The bill would require the secretary to establish milestones to measure the implementation of the information management system and provide periodic status updates to interested parties.

This bill would require certified unified program agencies and participating agencies to report program data electronically not later than 3 years after the information management system is established.

The bill would require the secretary to provide technical assistance to regulated businesses to comply with the electronic reporting requirements and authorize the use of funds from the oversight surcharge for that purpose.

This bill would require a facility that is subject to the unified program and owned or operated by the federal government to pay the increased surcharge to the extent authorized by federal law.

The bill would impose a state-mandated local program by imposing new duties upon local agencies with regard to the implementation of the information management system.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 572 (AB 2347) Ruskin Mercury-added thermostats: collection program.

(1) Existing law prohibits, on and after January 1, 2006, a person from selling, offering to sell, or distributing for promotional purposes, in this state, a mercury-added thermostat, as defined, unless the mercury-added thermostat meets specified criteria. A violation of the hazardous waste control laws is a crime.

This bill would enact the Mercury Thermostat Collection Act of 2008 and would require a manufacturer that owns or owned a name brand of mercury-added thermostats sold in this state before January 1, 2006, to establish and maintain a collection, transportation, recycling, and disposal program for out-of-service mercury-added thermostats.

The bill would authorize a manufacturer to establish a collection and recycling program individually or with other manufacturers and would require manufacturers to meet certain requirements, including, but not limited to, undertaking education and outreach efforts, developing educational and outreach materials, providing incentives and education to contractors, service technicians, and homeowners to encourage return of out-of-service mercury-added thermostats to established collection locations, and on or before April 1, 2010, and on or before April 1 annually thereafter, submitting an annual report to the Department of Toxic Substances Control with specified information and publishing the annual report on the manufacturer's or program's Internet Web site.

The bill would require a wholesaler that has a physical location in the state to act as a collection location for out-of-service mercury-added thermostats, and would require a retailer or wholesaler that distributes new thermostats by mail to buyers in the state to include an Internet Web site address and toll-free telephone number with instructions on obtaining a prepaid mail-in label with the new thermostat. A wholesaler would also be required to distribute to its customers the educational and outreach materials developed by the manufacturers.

The bill would require a contractor who installs heating, ventilation, and air-conditioning components and who removes out-of-service mercury-added thermostats to handle the thermostat in accordance with regulations, adopted pursuant to the hazardous waste control laws, and take the out-of-service mercury-added thermostat to a location with a collection bin operating in accordance with those regulations. A person demolishing a building would be required to remove the out-of-service mercury-added thermostats prior to demolition and dispose of them in the same manner.

The department would be required to adopt regulations on or before January 1, 2012, developing performance requirements that specify collection rates and establishing a methodology for the calculation of the numbers of out-of-service mercury-added thermostats becoming waste annually. The department would be authorized to order a manufacturer, or a group of manufacturers, to revise its collection and recycling program or to undertake actions to comply with the act.

The bill would require a manufacturer, or group of manufacturers operating a collection and recycling program, to conduct a survey, as prescribed, to provide to the department

statistically valid data on the number of out-of-service mercury-added thermostats becoming waste in California.

The bill would require the department to provide a notice on its Internet Web site listing manufacturers that are not in compliance with the act on July 1, 2009, and on January 1 and July 1 annually thereafter. The bill would prohibit a person from selling or offering for sale a thermostat that is manufactured by a manufacturer that is not in compliance with the act, would make that prohibition effective on the 120th day after the notice listing the manufacturer is posted on the department's Internet Web site, and would continue that prohibition until the manufacturer is no longer listed on the department's Internet Web site.

Because a violation of the act's requirements would be a crime, the bill would impose a state-mandated local program by creating new crimes.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 573 (AB 2763) Laird Invasive pests: advance planning: detection and eradication plans.

Existing law generally provides for the eradication of pests that threaten this state's agriculture.

This bill would require the Department of Food and Agriculture to develop and maintain a list of invasive pests, defined to mean animals, plants, insects, and plant and animal diseases or groups of those animals, plants, insects, and plant and animal diseases where introduction into California would or would likely cause economic or environmental harm, that have a reasonable likelihood of entering the state and for which a detection, exclusion, eradication, control, or management action by the state might be appropriate. The department would be required, based on available funding, to develop and maintain a written plan on the most appropriate options for detection, exclusion, eradication, control, or management of high-priority invasive pests on the list, and to include specified information in the plan if the aerial application of pesticides would be among the appropriate responses. Certain state agencies would be required to participate in the preparation of the plan and the department would be required to hold public hearings. The bill would require the department to notify the Governor, the governing boards of affected cities and counties, and county agricultural commissioners if an invasive pest on the list has entered the state, and, if the urban aerial application or communitywide ground application of a pesticide is the preferred eradication, control, or management response, to advise the Governor and provide the Governor with a copy of the plan. The department would also be required to, among other things, notify certain local governmental entities and officers, notify the public of specified health information, hold public hearings under certain circumstances, and establish a telephone hotline, if the department determines that an invasive pest has entered the state, and the urban aerial application or communitywide ground application of a pesticide is the selected response. The bill would require this act to be funded only with federal funds.

Ch. 574 (AB 2765) Huffman Pest eradication: aerial use of pesticide: public hearing: notice.

Existing law establishes the position of county agricultural commissioner, and prescribes duties and powers of that position.

The bill would state the intent of the Legislature in regard to the role of county agricultural commissioners in pest suppression.

Existing law authorizes the Secretary of Food and Agriculture, by regulation, to proclaim any area within the state an eradication area with respect to a pest, prescribe the boundaries of the area, and name the pest or hosts of the pest that are known to exist within the area, together with the means or methods that are to be used to eradicate or control the pest. The

secretary or county agricultural commissioner, when the secretary proclaims an eradication project in an urban area, is required to notify residents and physicians practicing in the area, and the local broadcast and print media, before aerially applying a pesticide to effect the eradication.

This bill would additionally require the secretary or commissioner, when an eradication plan includes potential aerial application of a pesticide in an urban area, before the aerial application of a pesticide, to conduct at least one public hearing, as provided, in order to consider all alternatives to aerial application of a pesticide. The bill would also require the secretary or commissioner to seek an evaluation of human health risks and environmental risks jointly prepared by the Department of Pesticide Regulation and the Office of Environmental Health Hazard Assessment, including findings and recommendations regarding environmental and human risks of the proposed use of a pesticide by aerial application.

Existing law requires the notice to the residents, physicians, and media to contain specified information, including the date and approximate time of all proposed pesticide applications in the eradication area and the type of pesticide to be applied.

This bill would instead require the likely date or dates and approximate time or times of all proposed pesticide applications in the eradication area and the pesticides to be applied. The bill would also require the notice to include specified information regarding each active ingredient and inert material in the pesticide, as provided.

Ch. 575 (AB 2901) Brownley Toxics: enforcement: lead jewelry: packaging.

(1) Existing law prohibits, on and after March 1, 2008, the manufacturing, shipping, selling, or offering for sale of jewelry, as defined, for retail sale in the state, unless the jewelry is made entirely from specified materials. Existing law also prohibits any person, on and after September 1, 2007, from taking those actions with regard to children's jewelry, as defined, unless the children's jewelry is made entirely from certain specified materials.

Existing law excludes a person who violates these prohibitions from the criminal penalties otherwise imposed pursuant to the hazardous waste control laws and instead provides that a person who violates those prohibitions is liable for a civil penalty not to exceed \$2,500 per day for each violation, and a party to a consent judgment entered in a specified consolidated action that contains certain terms or the amended consent judgment is deemed to be in compliance with the article. Existing law requires these collected civil penalties to be deposited in the Hazardous Waste Control Account, for expenditure by the Department of Toxic Substances Control, upon appropriation by the Legislature, to implement and enforce those prohibitions.

Existing law specifies the testing methods and protocols for determining compliance with these prohibitions and authorizes the department to adopt regulations that modify these testing protocols.

This bill would revise the definition of "jewelry" for purposes of those prohibitions and would additionally prohibit a person from offering for promotional purposes jewelry, including children's jewelry, body piercing jewelry, and jewelry placed in the mouth for display or ornament, for retail sale or promotional purposes in the state unless it is made entirely from the specified materials.

The bill would declare that the provisions regulating lead in jewelry do not affect prescribed duties, requirements, obligations, or legal actions.

The bill would additionally subject a person who violates those provisions to administrative or civil penalties and would provide for the deposit of the collected administrative penalties into the account. The bill would instead prohibit parties that are signatories to the amended consent judgment or the consent judgment entered in a specified consolidated action that contains certain terms from being subject to enforcement pursuant to the article.

The bill would allow an authorized representative of the department to enter and inspect a factory, warehouse, or establishment in which jewelry is manufactured, packed, held, or sold, for the purpose of administering and enforcing these provisions, upon obtaining consent or after obtaining an inspection warrant. The bill would specify procedures for the securing of samples and would additionally allow an authorized representative of the department to have access to all records of a carrier in commerce relating to the movement in commerce of jewelry.

The bill would require a manufacturer or supplier of jewelry to prepare and, at the request of the department, submit to the department within 28 days after the date of the request, specified technical documentation. A manufacturer or supplier would also be required to provide a specified certification to a person who sells or offers for sale that manufacturer's or supplier's jewelry, upon the request of that person, or to display the certification prominently on the shipping container or on the packaging of jewelry.

The bill would provide that a manufacturer or supplier of jewelry who knowingly and intentionally manufactures, ships, sells, offers for sale, or offers for promotional purposes jewelry containing lead in violation of those provisions is guilty of a misdemeanor punishable by a specified fine or imprisonment or by both that fine and imprisonment. The bill would also impose criminal penalties upon a manufacturer or supplier of jewelry who knowingly and with intent to deceive, falsifies any document or certificate required to be kept or produced pursuant to those provisions.

The bill would, except as specified, exempt a person who sells jewelry at retail or offers jewelry for retail sale from the administrative or civil penalties imposed by those provisions if the person makes a specified demonstration.

The bill would expand the testing protocols and require that the test methods selected be those that best demonstrate they can achieve total digestion of the sample material being analyzed. Test methods would be prohibited from use if they are inconsistent with the specified application of the test method or do not demonstrate the best performance or proficiency for achieving total digestion of the sample material.

The bill would authorize the department to adopt regulations to implement those provisions, including, but not limited to, adopting regulations that modify the testing protocols. The bill would also make technical and conforming changes regarding the provisions regulating the components of jewelry.

The bill would impose a state-mandated local program by creating new crimes.

(2) Existing law prohibits, on and after January 1, 2006, with exceptions, a manufacturer or supplier from offering for sale or for promotional purposes in this state a package or packaging component that includes an intentionally introduced regulated metal, in the package or in a packaging component. A manufacturer or supplier is required to furnish to the purchaser a certificate of compliance signed by an authorized official of the manufacturer or supplier. A violation of the hazardous waste control laws, and any regulations adopted pursuant to those laws, is a crime. A violation of the provisions prohibiting regulated metal in a package or packaging component, as part of the hazardous waste control laws, is a crime.

Existing law requires the department to keep confidential information submitted to the department by a manufacturer or supplier that the manufacturer or supplier identifies as proprietary in nature, including trade secrets. The department is required to make available to the public any information that is not identified by the manufacturer or supplier as proprietary in nature.

This bill would, for purposes of those provisions regulating certain metals in packaging, revise the definitions of "package" and additionally define the term "authorized official." The bill would revise the procedures for the handling of confidential information to instead require the department to keep confidential any information that is identified as a trade secret, in accordance with departmental procedures, and that the department determines meets the definition of a trade secret. The bill would instead require the department to make available to the public any information that is not a trade secret.

The bill would allow an authorized representative of the department to enter and inspect a factory, warehouse, or establishment in which a package or packaging component is manufactured, packed, held, or sold, and have access to specified records, for the purpose of administering and enforcing these provisions, upon obtaining consent or after obtaining an inspection warrant. The bill would specify procedures for the securing of samples.

The bill would, except as specified, exempt a person who offers for retail sale or promotional purposes a product in a package or a packaging component that includes a regulated metal from administrative or civil penalties if the person makes a specified demonstration.

The bill would provide that a manufacturer or supplier of a package or packaging component who knowingly and intentionally offers for sale or promotional purposes a package or packaging component containing an intentionally introduced regulated metal in violation of those provisions is guilty of a misdemeanor punishable by a specified fine or imprisonment or by both that fine and imprisonment. This bill would thereby impose a state-mandated local program by creating a new crime.

The bill would authorize the department to adopt regulations to implement these provisions, as the department deems necessary to further the purposes of these provisions. The bill would also make technical and conforming changes regarding the provisions regulating certain metals in packaging. Since a violation of these regulations would be a crime, the bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 576 (SB 1104) Scott Teacher credentialing.

(1) Existing law authorizes the Commission on Teacher Credentialing to issue a 2-year preliminary designated subjects teaching credential upon the completion by an applicant of certain specified requirements.

This bill would repeal that authority.

(2) Existing law specifies the requirements for a designated subjects preliminary career technical education teaching credential and for a 5-year renewal of that preliminary credential.

This bill instead would provide that the preliminary credential is valid for a period of 3 years, revise the requirements to receive the credential, and rename it the 3-year preliminary designated subjects career technical education teaching credential. The bill also would revise the renewal requirements and instead apply those requirements to the receipt of a 5-year clear designated subjects career technical education teaching credential. The holder of either a preliminary or clear designated subjects career technical education credential would be required to satisfy the minimum experience requirements established by the local educational agency for each course the credential holder is assigned to teach.

(3) Existing law specifies the requirements to receive a clear designated subjects teaching credential for vocational education or adult education.

This bill instead would rename that teaching credential the clear designated subjects adult education teaching credential and make it applicable only to adult education.

Ch. 577 (SB 1105) Margett Teacher credentialing: criminal convictions.

(1) Existing law provides that whenever the holder of any credential issued by the State Board of Education or the Commission on Teacher Credentialing has been convicted of any sex offense or controlled substance offense, as defined, the commission shall forthwith suspend the credential and that when the conviction becomes final or when imposition of sentence is suspended, the commission shall forthwith revoke the credential.

This bill would authorize a credential holder whose credential has not been revoked as a result of a misdemeanor sex offense that does not require registration as a sex offender to apply for reinstatement of his or her credential if the accusation or information against the holder has been dismissed and he or she has been released from all disabilities and penalties resulting from the offense, as specified.

(2) Under existing law, upon a plea of *nolo contendere* to a sex offense, as specified, all credentials held by the person that have been issued by the State Board of Education or the Commission on Teacher Credentialing are suspended until a final disposition regarding those credentials is made by the Commission on Teacher Credentialing. An action that the commission is permitted to take following a conviction may be taken after the judgment is final, as specified.

This bill would delete those provisions and provide instead that credentials shall be suspended in the manner described above only if the credential holder pleads *nolo contendere* to loitering in or about a public toilet, as specified.

This bill would also require the Legislature to convene a working group to study provisions of law relating to suspension and revocation of credentials issued by the state board or the commission for a sex offense, a controlled substance offense, or another crime, as specified, and to provide a report on its findings on or before December 1, 2009.

(3) Under existing law, a plea or verdict of guilty by a court is deemed to be a conviction for purposes of provisions of law that require the Commission on Teacher Credentialing and the county board of education to suspend a credential issued by the State Board of Education or the commission whenever the holder has been convicted of a sex offense or controlled substance offense. If the conviction is reversed and the holder is acquitted of the offense in a new trial or the charges against him or her are dismissed, the suspension of the credential will be terminated. When the conviction becomes final or when imposition of sentence is suspended, the credential will be revoked.

This bill would expand these provisions to include a plea or verdict of guilty by a court and a conviction following a plea of *nolo contendere* as a conviction for purposes of provisions of law that require the Commission on Teacher Credentialing to suspend, terminate the suspension of, or revoke a credential whenever the holder has been convicted of any sex offense or controlled substance offense. This definition of "conviction" also would apply to other provisions concerning the procedure to be used by the Committee of Credentials upon receipt of allegations of conduct by an applicant for, or holder of, a credential, affecting the right to a credential, and grounds for the Commission on Teacher Credentialing to deny an application for the issuance of a credential or an application for the renewal of a credential. These provisions would no longer apply to the actions required of a county board of education with respect to a credential holder.

(4) Under existing law, each allegation of an act or omission by an applicant for, or holder of, a credential for which he or she may be subject to an adverse action is required to be presented to the Committee of Credentials. Upon completion of an investigation, if adverse action is recommended to the Commission on Teacher Credentialing, the findings of the committee are available upon request within one year from the date that the committee makes its recommendation to a school district providing verification that the credential holder has applied for employment in the district.

This bill would instead allow the release of those findings if the credential holder has not filed a timely appeal of the recommendation of the committee and would require that the request for the findings by a school district providing verification that the credential holder has applied for employment in the district be made within 5 years from the date that the committee makes its recommendation.

Ch. 578 (SB 1110) Scott Teacher credentialing: revocation of credential.

Existing law authorizes the Commission on Teacher Credentialing to privately admonish or publicly reprove or to revoke or suspend the credentials of a holder for, among other

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

things, immoral or unprofessional conduct, any cause that would have warranted the denial of an application for or renewal of a credential, or evident unfitness for service. The commission is required to revoke the credential of a holder who is convicted of specified violent or serious felonies or a sex offense, as defined, is found to be insane before a federal court or a court in this or another state, or is determined to be a sexual psychopath under specified laws.

This bill would require the commission to suspend the credential of a holder when it receives notice that another state has taken final action to revoke a credential or license authorizing the holder of the credential to perform any duty in the public schools of another state. The suspension would not take effect until the commission verifies that the underlying acts of misconduct in the other state could result in a revocation of a credential in this state. The suspension would remain in effect until the commission takes final action on a recommendation of the Committee of Credentials following the committee's review of the matter.

The commission also would be required to revoke the credential of a holder when it receives notice that the ability of the holder to associate with minors has been limited as a term or condition of probation or sentencing resulting from a criminal conviction in this state, another state, or the United States, or the holder has been ordered to surrender a credential or certification document as a term or condition of probation or sentencing resulting from a criminal conviction in this state, another state, or the United States, except as specified. The person whose credential is so revoked would be prohibited from applying for reinstatement of the credential until the terms or conditions imposed by the conviction are lifted.

Ch. 579 (SB 1303) Runner School employees: leaves of absence.

Existing law requires that a certificated or classified employee who was placed on a compulsory leave of absence after being charged with one of a number of sex or controlled substance offenses be paid his or her full compensation for the period of the compulsory leave of absence if he or she is acquitted of the offense or the charges against him or her are dismissed, and the employee previously had elected not to furnish bond or other acceptable security.

This bill would specify that an employee would receive his or her full compensation for the period of the compulsory leave of absence upon his or her return to service in the school district if the employee is acquitted of the offense or if the charges against him or her are dismissed without his or her guilt being established. The bill would provide that, if the charges against the employee are dismissed as a result of the employee's successful completion of a drug diversion program, upon the employee's return to service in the school district, the school district, at the employee's election, would pay to the employee any accrued leave and differential pay, as specified, for the length of the employee's compulsory leave of absence.

Ch. 580 (SB 1334) Calderon Drinking water: pipes and fittings: lead content.

Existing law, with certain exceptions, prohibits the use of any pipe, pipe or plumbing fitting or fixture, solder, or flux that is not lead free, as defined, in the installation or repair of any public water system or any plumbing in a facility providing water for human consumption. Existing law, commencing on January 1, 2010, revises this prohibition to, with certain exceptions, apply to any pipe or plumbing fitting, or fixture intended to convey or dispense water for human consumption.

Existing law prohibits the introduction into commerce of any pipe, pipe or plumbing fitting, or fixture that is not lead free, except for a pipe that is used in manufacturing or industrial processing. Existing law defines lead free as not more than 8% lead when used with respect to pipes and fittings, and not more than 4% by dry weight with respect to plumbing fittings and fixtures. Existing law, commencing on January 1, 2010, revises the term "lead free," for purposes of manufacturing, industrial processing, and conveying or dispensing

water for human consumption, to refer not to the lead content of pipes and pipe fittings, plumbing fittings, and fixtures, but instead, to refer to a weighted average lead content of the wetted surface area of the pipes, fittings, and fixtures of not more than 0.25%, to be determined pursuant to a prescribed formula.

Existing law requires the State Department of Public Health to develop building standards to implement the above-described provisions, and requires these standards to be enforced by the appropriate state and local building and health officials.

This bill would also require that the plumbing material be certified for compliance with these provisions by an independent 3rd party, as provided, and would specify that, notwithstanding this requirement, the department shall retain its authority in implementing the above-described provisions.

The bill would provide that its provisions shall only become operative if SB 1395, of the 2007–08 Regular Session, is enacted and becomes operative on or before January 1, 2009.

**Ch. 581 (SB 1395) Corbett Lead plumbing: monitoring and compliance testing.**

Existing law provides for various restrictions and prohibitions relating to the use of any pipe, pipe or plumbing fitting or fixture, solder, or flux that is not lead free, as defined, in regard to public water systems and plumbing used to provide water for human consumption. Existing law requires the State Department of Public Health to adopt building standards to implement these prohibitions. Appropriate state and local building and health officials are required to enforce these standards.

Under existing law, the Department of Toxic Substances Control (department) enforces hazardous waste control laws that regulate the disposal of discarded appliances, lead acid batteries, small household batteries, recyclable latex paint, and household hazardous waste. The department is also authorized to implement and enforce provisions establishing prohibitions relating to jewelry for retail sale that contains specified amounts of lead.

This bill would establish lead plumbing monitoring and compliance testing as a part of the department's ongoing program to reduce toxic substances from the environment. The bill would require the department, based on its available resources and staffing, to annually select no more than 75 drinking water faucets or other drinking water plumbing fittings and fixtures for testing and evaluation, including the locations from which to select the faucets, fittings, and fixtures, to determine compliance with specified lead plumbing standards established pursuant to a separate provision of existing law.

The department would be required to use test methods, protocols, and sample preparation procedures for the adequate determination of total lead concentration in a drinking water plumbing fitting or fixture. The bill would require the department to annually post the results of its testing and evaluation on its Internet Web site, and to transmit the results in an annual report to the State Department of Public Health.

The bill would provide that its provisions shall become operative only if SB 1334, of the 2007–08 Regular Session, is enacted and takes effect on or before January 1, 2009.

**Ch. 582 (AB 717) Fuller Victims' compensation.**

Existing law provides that crime victims may be awarded compensation by the California Victim Compensation and Government Claims Board from the state Restitution Fund for the pecuniary losses they suffer as a direct result of criminal acts. The awarding of compensation is subject to application procedures, eligibility requirements, and specified limits on the amount of compensation.

Existing law requires that an application for compensation be filed within one year of the date of the crime, one year after the victim attains 18 years of age, or one year of the time injury or death resulting from the crime is discovered, whichever is later.

This bill would provide that an application for compensation based on any of specified crimes involving sex with a minor may be filed any time prior to the victim's 28th birthday.

Existing law authorizes the board to grant an award not to exceed \$2,000 to a victim for expenses of relocation determined by law enforcement to be necessary for the personal safety of the victim or by a mental health treatment provider to be necessary for the personal safety or emotional well-being of the victim. This payment shall only be awarded to one claimant per crime giving rise to the relocation.

This bill would authorize granting relocation expenses under these provisions to the crime victim or, if the victim is deceased, a person who resided with the deceased at the time of the crime.

Existing law requires that when a deceased person has an heir who is confined in a correctional facility, the estate attorney or other specified person give the director of the board notice of the decedent's death not later than 90 days after the date of death.

This bill would require that this notice include specified information about the decedent's heir and a copy of the decedent's death certificate.

This bill would incorporate changes made by AB 2809 that would become operative if both bills are enacted and this bill is enacted after AB 2809.

Ch. 583 (AB 919) Houston Electronic communication devices: threats to safety.

Under existing law, any person who willfully, maliciously, and repeatedly follows or harasses another person and makes a credible threat, intended to place that person in fear for his or her safety or the safety of his or her immediate family, is guilty of the crime of stalking.

This bill would make a person who, with the intent to place another person in reasonable fear for his or her safety, or the safety of the other person's immediate family, by means of an electronic communication device, and without consent of the other person, and for the purpose of imminently causing that other person unwanted contact, injury, or harassment by a 3rd party, distributes specified identifying information that would be likely to incite or produce that unlawful action, guilty of a misdemeanor. By creating a new crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 584 (AB 2043) Spitzer Crime victims' memorial.

Existing law prescribes various duties of the Department of General Services in connection with development and maintenance of the park around the State Capitol Building.

This bill would authorize the California Crime Victims' Memorial Foundation, upon its establishment, in consultation with the department and a specifically created committee, to construct and maintain a memorial in the Capitol Historic Region to honor California residents who are victims of crime. It would require that the planning, construction, and maintenance of the memorial be funded with private donations through a nonprofit foundation to be established. It also would prohibit construction of the memorial until the master plan of the State Capitol Park is approved and adopted by the Joint Committee on Rules, and the Department of Finance and the Joint Committee on Rules have determined that sufficient private funding is available to construct and maintain the memorial.

Ch. 585 (AB 2171) Cook Purple Heart Memorial.

Existing law prescribes various duties for the Department of General Services in connection with development and maintenance of the park around the State Capitol Building.

This bill would authorize the Military Order of the Purple Heart, Capitol Chapter 385, in consultation with the department and a specifically created committee, to construct and maintain a memorial in the Capitol Historic Region to honor California residents who have

been awarded the Purple Heart. It would require that the planning, construction, and maintenance of the memorial be funded with private donations through a nonprofit foundation to be established. It also would prohibit construction of the memorial until the master plan of the State Capitol Park is approved and adopted by the Joint Committee on Rules and the Joint Committee on Rules and the Department of Finance have determined that sufficient private funding is available to construct and maintain the memorial.

**Ch. 586 (AB 2304) Plescia Name changes.**

Existing law establishes the procedure for a person to change his or her name, as specified. When a proceeding for a change of name is commenced by the filing of a petition, existing law requires the court to make an order reciting the filing of the petition, the name of the person by whom it is filed, and the name proposed, except as specified. Existing law also authorizes an address confidentiality program to which victims of domestic violence, sexual assault, or stalking may apply by completing an application in person at a community-based victims' assistance program to be approved by the Secretary of State for the purpose of enabling state and local agencies to respond to requests for public records without disclosing a program participant's residence address contained in any public record and otherwise provide for confidentiality of identity for that person, subject to specified conditions. Existing law provides that if a petition for a change of name alleges a specified reason or circumstance and the petitioner is a participant in the address confidentiality program, that action for a change of name is exempt from the requirement for publication.

This bill would, in addition, require the court to keep confidential the current legal name of the petitioner and prohibit that name from being published in the court's calendars, indexes, or register of actions by any means or in any public forum, including a hardcopy or an electronic copy, or any other type of public media or display when the petition for a change of name of a participant in the address confidentiality program alleges a specified reason or circumstance. The bill would also authorize a petitioner to request that the records be sealed and would require the Judicial Council to develop, on or before January 1, 2010, rules of court and forms for that purpose.

**Ch. 587 (AB 2809) Leno Crime victims: mental health counseling.**

Existing law provides that crime victims and derivative victims, as defined, may be awarded compensation by the California Victim Compensation and Government Claims Board from the state Restitution Fund, a continuously appropriated fund, for the pecuniary losses they suffer as a direct result of criminal acts. The awarding of compensation is subject to application procedures, eligibility requirements, and specified limits on the amount of compensation, subject to specified criteria.

This bill would authorize the board to reimburse the cost of outpatient mental health counseling in an amount not to exceed \$5,000 for any minor who suffers emotional injury as a direct result of witnessing a violent crime if the minor was in close proximity to the victim when witnessing the crime. By making money in a continuously appropriated fund available for a new purpose, this bill would make an appropriation.

This bill would incorporate changes made by AB 717 that would become operative if both bills are enacted and this bill is enacted after AB 717.

**Ch. 588 (AB 190) Bass Vehicles: veterans: parking.**

Existing law authorizes the issuance of special license plates by the Department of Motor Vehicles to certain qualified veterans for their vehicles.

This bill would authorize veterans displaying those special license plates on their vehicles to park, without charge, in a metered parking space, as specified. The bill would provide that a local authority's compliance with this provision is solely contingent upon the approval of its governing body.

**Ch. 589 (AB 2049) Saldana Public schools: children of military families.**

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law authorizes a school district of choice, as defined, to give priority for attendance to children of military personnel, if the school district elected to accept transfer pupils by a resolution adopted by the governing board of the school district prior to April 1, 2005.

This bill would require the Superintendent of Public Instruction to convene and support a task force, with specified membership, to review and make recommendations regarding the Interstate Compact on Educational Opportunity for Military Children. The bill would require the task force to review the compact and issue a final report regarding the compact that includes specified content. The bill would require the task force to present its final report of findings and conclusions to the appropriate committees of the Legislature by January 1, 2009. The bill would provide that these provisions become inoperative on June 30, 2009.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 590 (AB 3065) Committee on Veterans Affairs Public employment: veterans.

Under existing law, persons employed by the Legislature for 2 or more consecutive years are eligible to apply for promotional civil service examinations, including examinations for career executive assignments, for which they meet the minimum qualifications as prescribed by the class specification, as specified.

This bill would permit a person retired from the United States military, honorably discharged from active military duty with a service-connected disability, or honorably discharged from active duty, to be eligible to apply for promotional civil service examinations, including examinations for career executive assignments, for which they meet the minimum qualifications as prescribed by the class specification, as specified.

Ch. 591 (AB 3083) Committee on Veterans Affairs Mental health: veterans.

Existing law, the Adult and Older Adult Mental Health System of Care Act, sets out a system of mental health care services, provided by participating counties and administered by the State Department of Mental Health, for adults and seniors with serious mental disorders. Existing law states that California veterans who meet the existing eligibility requirements for participation be provided services to the extent resources are available. Existing law provides that counties should advise veterans of the services available through the federal government and requires counties to refer the veteran to a county veterans' service officer to determine their eligibility for federal services.

This bill would make services available to the extent that services are available to other adults. This bill would require counties to assist veterans in accessing federal services. The bill would also specifically include bipolar disorder and post-traumatic stress disorder in the definition of "serious mental disorder."

This bill would also require the State Department of Health Care Services, in conjunction with the State Department of Mental Health, to seek all available federal funding for mental health services of veterans.

By imposing new duties upon each county, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 592 (SB 1353) Negrete McLeod State employees: military benefits.

Existing law authorizes a state employee who is a member of the California National Guard or a United States military reserve organization to receive specified compensation benefits for a period not to exceed 365 days if he or she is ordered to serve on active duty on

and after September 11, 2001, as a result of the War on Terrorism. Existing law authorizes the Governor to extend these benefits by executive order by up to an additional 365 days.

This bill instead would authorize the Governor to extend these benefits by executive order by up to an additional 1,460 days.

Ch. 593 (SB 1401) *Simitian Armed Forces: traumatic brain injury and post-traumatic stress disorder screening.*

Existing law provides for certain rights and privileges for active members of the Armed Forces, reservists, and veterans of the Armed Forces, including members of the California National Guard.

This bill would require the Secretary of the California Department of Veterans Affairs, or his or her designees, to assist an eligible member, as defined, or veteran in obtaining an appropriate health screening for traumatic brain injury and post-traumatic stress disorder, as described. A member or veteran would be eligible to receive the assistance when he or she returns to this state after service in specified combat zones. This bill would require the Secretary of the California Department of Veterans Affairs, or his or her designees, to develop a plan for outreach to eligible members and veterans, as described, regarding traumatic brain injury and post-traumatic stress disorder. This bill would also require the Adjutant General, or his or her designee, to develop a plan for outreach to eligible members of the California National Guard, who have returned from combat and remain on duty, regarding traumatic brain injury and post-traumatic stress disorder.

Ch. 594 (SB 1495) *Kehoe Taxation.*

Existing law provides that a disabled veteran's property tax exemption, once granted, remains in continuous effect unless the title to the property changes, the property is altered so that the property no longer qualifies as a dwelling, the owner is no longer considered disabled, or the owner does not occupy the property as his or her principal place of residence on the property tax lien date.

This bill would, for purposes of the disabled veteran's property tax exemption, specify that a dwelling not occupied because of a misfortune or calamity, continues to be the principal residence, for purposes of the exemption, on the property tax lien date provided that the person's absence is temporary and the person intends to return to the dwelling when able to do so. This bill would also provide that, except under specified circumstances where a dwelling is destroyed in a disaster for which the Governor has proclaimed a state of emergency, when a dwelling has been totally destroyed, and thus no dwelling exists on the lien date, the disabled veterans' exemption is not applicable until the structure has been replaced and is occupied as a dwelling.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

Ch. 595 (SB 1534) *Battin Veterans: military decorations.*

Existing law provides that officers, warrant officers, and enlisted men and women may wear specified military decorations in accordance with state and federal law.

This bill would additionally allow uniformed public safety personnel to wear specified military decorations during the business week prior to Veterans Day and Memorial Day, the day of Veterans Day and Memorial Day, and the business day immediately following Veterans Day and Memorial Day, subject to specified conditions.

Ch. 596 (AB 3038) *Tran Probation: sex offenders.*

Current law provides that the victim of a sex offense may request that his or her name and address not be a matter of public record. Current law further provides that the name of a person who is the victim of a sex offense may be disclosed to certain law enforcement officials, including county probation officers, if the person who is alleged to have committed the sex offense is a probationer or is under investigation by a county probation department to prepare a presentence report, as defined.

This bill would delete the requirement that an investigation of a person be for purposes of preparing a presentence report in order for a county probation officer to receive the names and addresses of victims of sex offenses alleged to have been committed by the person.

Existing law prohibits a law enforcement agency from disclosing the name of a victim of a sex offense, under specified circumstances, except to certain parties or entities, including county probation offices.

This bill would exempt from this prohibition disclosure to probation officers instead of probation offices.

This bill would incorporate additional changes in Section 293 of the Penal Code, proposed by AB 2810, to be operative only if AB 2810 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 597 (SB 441) Torlakson State property: vending machines.

Existing law regulates various aspects of the provision of food and beverages in vending machines, including access to carbonated beverages at schools, the giving of priority to blind persons with respect to the operation of vending facilities on state property, the sanitation of vending machines and requiring public health permits, and the placement of vending machines in safety roadside rests on the state highway system.

This bill would require a vendor that operates or maintains a vending machine on designated state property, until a specified date, to offer food and beverages in the vending machine that meet accepted nutritional guidelines, as defined, in accordance with certain percentages.

Ch. 598 (SB 1187) Battin Sex offenses: Internet: public information.

Existing law requires the Department of Justice to publish the names, aliases, photographs, physical descriptions, criminal histories, and addresses of persons convicted of specified sexual offenses via an Internet Web site, and to publish lesser amounts of information for other specified offenses.

This bill would add convictions for certain child pornography offenses to the list of specified sexual offenses requiring the broadest disclosure. This bill would exempt, however, the additional convictions from Internet disclosure if the person submits to the department a certified copy of a probation report filed in court that clearly states that all victims involved in the commission of the offense were at least 16 years of age or older at the time of the commission of the offense. The bill would state that these changes shall not become operative until January 1, 2010, and their costs shall be paid for using existing resources.

This bill would incorporate additional changes in Section 290.46 of the Penal Code, proposed by SB 1302, to be operative only if SB 1302 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

Ch. 599 (SB 1302) Cogdill Sex offenders.

Existing law requires the Department of Justice to publish the names, aliases, photographs, physical descriptions, criminal histories, and addresses of persons convicted of specified sexual offenses via an Internet Web site, and to publish lesser amounts of information for other specified offenses.

This bill would add convictions for murder committed during the commission or attempted commission of specified sex offenses to the list of specified sexual offenses requiring the broadest disclosure.

Existing law provides that, notwithstanding any other provision of law, probation shall not be granted to, nor shall the execution or imposition of sentence be suspended for, any person who is convicted of certain sex offenses.

This bill would add to those certain sex offenses for these purposes specified sex offenses perpetrated against a child who is 10 years of age or younger.

Existing law prohibits probation and the suspension of the execution or imposition of a sentence for, among other crimes, using a minor to perform prohibited sex acts, as specified, a crime punishable by 16 months or 2 or 3 years in prison.

This bill would instead prohibit probation where use of the minor for prohibited sex acts is for commercial purposes, a crime punishable by 3, 6, or 8 years in prison.

Existing law provides that, for persons convicted of certain felony sex offenses, the court must meet certain requirements before the person may be granted probation.

This bill would add the offense of continuous sexual abuse of a child to the list of offenses that are subject to these provisions.

By changing the punishment for an existing crime, this bill would impose a state-mandated local program.

Existing law provides that any person convicted of specified misdemeanors who, within 10 years of the conviction, owns, purchases, receives, or has in his or her possession or under his or her custody or control, any firearm, is guilty of a public offense, as specified.

This bill would add the offense of sexual battery, as specified, to the list of disqualifying misdemeanors.

By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

Existing law provides sentencing enhancements for persons who commit or attempt to commit specified sex offenses while armed with or using a deadly weapon or firearm.

This bill would additionally apply this enhancement to persons who commit assault with the intent to commit certain sex offenses while armed with or using these weapons.

By expanding the scope of an existing sentencing enhancement, this bill would impose a state-mandated local program.

Existing law provides a sentencing enhancement for persons who inflict great bodily injury on victims in the commission or attempted commission of specified sex offenses.

This bill would additionally apply this enhancement to persons who inflict great bodily injury in the commission of assault with the intent to commit certain sex offenses.

By expanding the scope of an existing sentencing enhancement, this bill would impose a state-mandated local program.

This bill would incorporate additional changes in Section 290.46 of the Penal Code, proposed by SB 1187, to be operative only if SB 1187 and this bill are chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 600 (SB 1420) Padilla Food facilities: nutritional information.

The California Retail Food Code provides for the regulation of health and sanitation standards for retail food facilities by the State Department of Public Health. Under existing law, local health agencies are primarily responsible for enforcing this code. A violation of any of these provisions is punishable as a misdemeanor.

This bill would require, commencing July 1, 2009, to December 31, 2010, inclusive, each food facility, as defined, to either disclose nutritional information, as defined, or calorie count information, as defined.

The bill would require, on and after January 1, 2011, each food facility in the state that meets specified criteria to disclose calorie content information per standard menu item, as specified.

The bill would provide that, on and after July 1, 2009, a food facility that violates the provisions of the bill is guilty of an infraction, and would specifically provide that a violation of these provisions is not a misdemeanor. By creating an infraction and adding a new local enforcement duty, this bill would impose a state-mandated local program.

The bill would declare that its provisions, as well as other state laws that regulate the disclosure of nutritional information, is a matter of statewide concern and would prohibit an ordinance or regulation of a local government from regulating the disclosure of nutritional information by a subject food facility.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

#### Ch. 601 (SB 1546) Runner Sexually violent predators.

Existing law requires, prior to release from the custody of the Department of Corrections and Rehabilitation of a person who has been convicted of certain crimes of a sexual nature, the Secretary of the Department of Corrections and Rehabilitation to refer that person to the State Department of Mental Health for evaluation if the secretary determines that person may be a sexually violent predator. The evaluation is to be performed by two practicing psychiatrists or psychologists, or one practicing psychiatrist and one practicing psychologist, designated by the Director of Mental Health. If both evaluators concur that the person has a diagnosed mental disorder so that he or she is likely to engage in acts of sexual violence without appropriate treatment and custody, the director shall forward a request for a petition for commitment to the applicable county. If the evaluators do not agree as to whether the person meets the criteria for a sexually violent predator, the director is required to arrange for examination by 2 independent professionals who are not employees of the state and who meet specified requirements.

This bill would specify that the psychologists or psychiatrists performing the original evaluation may be independent professionals. The bill would repeal its provisions on the date that the director executes a declaration specifying that sufficient qualified state employees have been hired to conduct the evaluations required pursuant to the bill, or January 1, 2011, whichever occurs first.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 602 (AB 211) Jones Public health.

Existing law prohibits a health care provider, health care service plan, or contractor from disclosing medical information regarding a patient of the provider or an enrollee or subscriber of the health care service plan without authorization, except as specified. Existing law makes it a misdemeanor to violate these provisions resulting in economic loss or personal injury to a patient, as specified. In addition, existing law authorizes administrative fines and civil penalties against any person or entity that negligently discloses, or knowingly and willfully obtains, discloses, or uses medical information in violation of these provisions, as

specified. Existing law specifies the entities that may bring a civil action to recover civil penalties.

This bill would require every provider of health care, as defined, to implement appropriate specified safeguards to protect the privacy of a patient's medical information. The bill would require every provider of health care to reasonably safeguard confidential medical information from unauthorized or unlawful access, use, or disclosure. The bill would establish within the California Health and Human Services Agency the Office of Health Information Integrity to assess and impose administrative fines for a violation of these provisions, as provided. The director would be appointed by the Secretary of California Health and Human Services. The bill would establish the Internal Health Information Integrity Quality Improvement Account for the deposit of funds derived from these penalties. Upon appropriation by the Legislature, the bill would authorize money in the account to be used to support quality improvement activities. The bill would also authorize the director to send a recommendation for further investigation of, or discipline for, a potential violation to the licensee's relevant licensing authority.

This bill would provide that any costs created pursuant to this act associated with the implementation and operation of the Office of Health Information Integrity shall be funded through non-General Fund sources.

Ch. 603 (AB 1203) Salas Health care service plans: noncontracting hospitals: poststabilization care.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law also provides for the licensure and regulation of health facilities by the State Department of Public Health and makes a violation of those provisions a misdemeanor.

Existing law provides that for purposes of specified provisions governing the stabilization of patient care, a patient is "stabilized" or "stabilization" has occurred when, in the opinion of the treating provider, the patient's medical condition is such that, within reasonable probability, no material deterioration of the patient's condition is likely to result from, or occur during, a transfer of the patient, as provided.

This bill would also provide that, for purposes of these provisions a patient is "stabilized" or "stabilization" has occurred when, in the opinion of the treating provider, no such material deterioration of the patient's condition is likely to result from, or occur during, the release of the patient, as provided.

Existing law requires a noncontracting hospital to contact an enrollee's health care service plan to obtain the enrollee's medical record information prior to admitting the enrollee as an inpatient for poststabilization care, transferring an enrollee to a noncontracting hospital for poststabilization care, or providing poststabilization care to an enrollee admitted for medically necessary care, under specified conditions. Existing law requires a health care service plan contacted by a hospital under these circumstances to, among other things, discuss the enrollee's medical record with an appropriate hospital representative and transmit any appropriate and requested portion of the enrollee's medical record to the hospital representative. Existing law requires a health care service plan, or its contracting medical providers, to provide 24-hour access for providers to obtain timely authorization for medically necessary care in specified circumstances. Existing law also prohibits a noncontracting hospital that is required to contact an enrollee's health care service plan, and fails to do so, from billing the enrollee for poststabilization care.

This bill would recast those provisions to provide that if a patient with an emergency medical condition, as defined, is covered by a health care service plan that requires prior authorization for poststabilization care, a noncontracting hospital, except as provided, shall, once the emergency medical condition has been stabilized, but prior to providing poststabilization care, retrieve information from the patient and the patient's health care

service plan or the health plan's contracting medical provider, and provide information to the plan or provider about the patient, as specified. The bill would provide that certain provisions governing poststabilization care shall not apply to minor treatment procedures if specified conditions apply. The bill would prohibit a noncontracting hospital from billing that patient for poststabilization care, except for applicable copayments, coinsurance, and deductibles, unless the patient assumes financial responsibility for the care, as specified, or the hospital is unable to obtain the health care service plan's name and contact information, as specified. The bill would delete the requirement that a health care service plan contacted for poststabilization care authorization discuss the enrollee's medical record with an appropriate hospital representative and would, instead, provide that if poststabilization care has been authorized by the health care service plan, that the noncontracting hospital request the patient's medical record from the patient's plan or its contracting medical provider. In addition, the bill would specifically require that a health care service plan, or its contracting medical providers, provide 24-hour access for noncontracting hospitals to obtain timely authorization for poststabilization care, as specified. The bill would enact other related provisions.

Existing law authorizes the Director of the Department of Managed Health Care, after notice and opportunity for a hearing, to suspend or revoke a license or assess administrative penalties if the director determines that the licensee committed an act or omission constituting grounds for disciplinary action, as specified.

This bill would add a plan that violates the above provisions relating to poststabilization care to the list of acts or omissions that constitute grounds for disciplinary action.

Because a violation of the bill's provisions would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would make additional changes to Section 1317.1 of the Health and Safety Code made by AB 2861, contingent upon the prior enactment of AB 2861.

#### Ch. 604 (AB 2569) De Leon Health care coverage: rescission.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law provides for the regulation of health insurers by the Department of Insurance. Existing law prohibits a plan or insurer from rescinding, canceling, or limiting a health plan contract or health insurance policy due to the plan's or insurer's failure to complete medical underwriting and resolve all reasonable questions arising from written information on or with an application before issuing a contract or policy. Existing law requires a health care service plan and individual benefit plans issued, amended, renewed, or delivered on or after January 1, 2007, to permit an individual who has been covered for at least 18 months to transfer, without medical underwriting, as defined, to any other individual plan contract or individual health benefit plan, as defined, that provides equal or lesser benefits, as specified.

This bill would specifically require a health care service plan or health insurer that offers, issues, or renews individual plan contracts or individual health benefit plans to offer to any individual who was covered under an individual plan contract or individual health benefit plan that was rescinded, other than the individual whose information led to the rescission, a new individual plan contract or individual health benefit plan, without a lapse in coverage or medical underwriting, as defined, that provides equal benefits. The bill would also authorize a health care service plan or health insurer to permit these individuals to remain covered under that individual plan contract or individual health benefit plan, with a specified revised premium rate. The bill would also require an agent, broker, or solicitor assisting an

applicant with an application to make a specified attestation on the written application and the bill would specify that a declarant willfully making a false attestation may be subject to a civil penalty up to \$10,000.

Because a willful violation of the bill's provisions relative to health care service plans would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 605 (SB 541) Alquist Clinics, health facilities, home health agencies, and hospices: administrative penalties and patient information.

Existing law provides for the licensure and regulation of clinics, health facilities, home health agencies, and hospices by the State Department of Public Health. A violation of these provisions is a misdemeanor.

Existing law authorizes the department to assess a licensee of a general acute care hospital, an acute psychiatric hospital, or a special hospital an administrative penalty not to exceed \$25,000 if the licensee receives a notice of deficiency constituting an immediate jeopardy to the health or safety of a patient and is required to submit a plan of correction. Existing law makes these provisions applicable to incidents occurring on or after January 1, 2007.

This bill would increase this administrative penalty to be up to \$100,000 for incidents occurring on and after January 1, 2009. This bill would set the administrative penalties, for incidents on and after January 1, 2009, at up to \$50,000 for the first administrative penalty, up to \$75,000 for the 2nd subsequent administrative penalty, and up to \$100,000 for the 3rd and every subsequent violation.

Existing law also provides that, upon the adoption of specified regulations, the administrative penalty for an immediate jeopardy violation may be up to \$50,000. If the violation does not constitute an immediate jeopardy violation, the penalty may be up to \$17,500, except that no penalty shall be assessed for a minor violation.

Under existing law, moneys collected by the department as a result of the imposition of the above penalties are required to be deposited into the Licensing and Certification Program Fund, to be expended, upon appropriation by the Legislature, to support internal departmental quality improvement activities.

This bill would increase the administrative penalties for an immediate jeopardy deficiency from \$50,000 to a graduated scale of a maximum of \$75,000 for a first penalty, a maximum of \$100,000 for the 2nd penalty, and a maximum of \$125,000 for the 3rd and subsequent penalties, and would increase the penalty for deficiencies not causing immediate jeopardy from \$17,500 to \$25,000. The bill would apply the penalty provisions only to incidents occurring on or after January 1, 2009.

The bill would specify that, for any of the above administrative penalties, a penalty issued after 3 years from the date of the last issued immediate jeopardy violation be considered a first administrative penalty so long as the facility has not received additional immediate jeopardy violations and is found by the department to be in substantial compliance with all state and federal licensing laws and regulations. The bill would give the department full discretion to consider all factors when determining the amount of an administrative penalty.

This bill would require health facilities, clinics, hospices, and home health agencies to prevent unlawful or unauthorized access to, or use or disclosure of, a patient's medical information, as defined. The bill would authorize the department to assess an administrative penalty of up to \$25,000 per patient for a violation of these provisions, and up to \$17,500 for each subsequent accessing, use, or disclosure of that information.

The bill would require all of the administrative penalties to be deposited into the Internal Departmental Quality Improvement Account, which would be created within the existing Special Deposit Fund, and would delete the requirement that certain of the penalties be

deposited into the Licensing and Certification Program Fund. The bill would require moneys in the account to be used for internal quality improvement activities in the Licensing and Certification Program.

This bill would impose specified reporting requirements on a health facility or agency with respect to unlawful or unauthorized access to, or use or disclosure of, a patient's medical information, and would authorize the department to assess a penalty for the failure to report, in the amount of \$100 for each day that the unlawful or unauthorized access, use, or disclosure is not reported, up to a maximum of \$250,000. The bill would authorize a licensee to dispute a determination of the department regarding a failure to make a report required by the bill, as provided.

By expanding the definition of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

**Ch. 606 (SB 697) Yee Health care coverage: provider charges.**

Existing law creates the Healthy Families Program and the Access for Infants and Mothers Program, which are administered by the Managed Risk Medical Insurance Board. Under existing law, both programs provide health care coverage, as specified, through participating health plans for persons meeting certain eligibility requirements.

This bill would prohibit, as specified, a health care provider from seeking reimbursement for covered services furnished to a person enrolled in the Healthy Families Program or the Access for Infants and Mothers Program from other than the participating health plan covering that person. The bill would also make findings and declarations in that regard.

**Ch. 607 (SB 1379) Ducheny Physician and surgeon loan repayment: health care service plans: California Major Risk Medical Insurance Program.**

Existing law establishes the Steven M. Thompson Physician Corps Loan Repayment Program, which provides for the repayment of educational loans, as specified, obtained by a physician and surgeon who practices in a medically underserved area of the state, as defined. Existing law establishes the Medically Underserved Account for Physicians within the Health Professions Education Fund for the purpose of funding the loan repayment program and specifies that funds placed in the account are continuously appropriated for those purposes.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975 (the Knox-Keene Act), provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. Existing law subjects health care service plans to various fines and administrative penalties for failing to comply with specified provisions of the act and requires that certain administrative penalties be deposited in the Managed Care Fund. Existing law also requires health care service plans to pay specified assessments each fiscal year as a reimbursement of their share of the costs and expenses reasonably incurred in the administration of the act. Existing law requires the adjustment of those assessments and other charges set forth in the act if the director of the department determines that they are in excess of the amount necessary, or are insufficient, to meet the expenses of the act. Under existing law, the Managed Risk Medical Insurance Board manages the California Major Risk Medical Insurance Program (MRMIP) to provide major risk medical insurance coverage to eligible persons who have been rejected for health care coverage by at least one private health plan. Existing law creates the Major Risk Medical Insurance Fund, and continuously appropriates the fund to the board for purposes of the program.

This bill would prohibit using the fines and administrative penalties authorized by the Knox-Keene Act to reduce those assessments and would prohibit any refunds or reductions in those assessments in specified circumstances. The bill would create the Managed Care Administrative Fines and Penalties Fund and would require those fines and administrative penalties to be deposited in that fund. The bill would require, beginning September 1, 2009, and annually thereafter, that the first \$1,000,000 deposited in that fund be transferred to the Medically Underserved Account for Physicians to be used, upon appropriation by the Legislature, for the purposes of the loan repayment program and that the remaining moneys deposited in that fund be transferred to the Major Risk Medical Insurance Fund to be used, upon appropriation by the Legislature, for purposes of MRMIP. The bill would specify that those funds are not continuously appropriated. The bill would also require the department to make one-time transfers of \$1,000,000 and \$10,000,000 in fines and administrative penalties from the Managed Care Fund to the Medically Underserved Account for Physicians and the Major Risk Medical Insurance Fund, respectively, to be used for the purposes of those programs. By depositing these funds into continuously appropriated funds, the bill would thereby make an appropriation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 608 (SB 27) Simitian Sacramento-San Joaquin Delta Emergency Preparedness Act of 2008.

Existing law prescribes the duties of the Office of Emergency Services in planning and coordinating disaster mitigation and response efforts in the state.

This bill would require the Office of Emergency Services, upon receipt of appropriate funding, to establish, until January 1, 2011, the Sacramento-San Joaquin Delta Multi-Hazard Coordination Task Force, which would be led by the office, and include the Delta Protection Commission, the Department of Water Resources, and a single representative from each of the 5 Delta counties. The task force would be required to make recommendations to the office relating to the creation of an interagency unified command system organizational framework, coordinate the development of a draft emergency preparedness and response strategy for the Delta region, and develop and conduct an all-hazard emergency response exercise in the Delta. The task force would be required to submit a report with its strategy and recommendations to the Legislature and the Governor prior to January 1, 2011, and cease to exist on or before January 1, 2011.

Ch. 609 (AB 2356) Arambula Water quality.

(1) Existing law generally exempts the state, a county, city, or special district from paying or depositing any fee for the performance of any official service. Existing law exempts certain fees or charges for official services from the operation of this provision, including certain fees collected under the Porter-Cologne Water Quality Control Act (state act).

This bill would provide that the exemption generally applies to fees collected for the performance of an official service under the state act.

(2) The state act establishes the State Water Pollution Control Revolving Fund program pursuant to which state and federal funds are continuously appropriated from the State Water Pollution Control Revolving Fund to the State Water Resources Control Board for loans and other financial assistance for the construction of publicly owned treatment works by a municipality, the implementation of a management program, the development and implementation of a conservation and management plan, and other related purposes in accordance with the federal Clean Water Act and the state act.

This bill would authorize the board to assess a specified annual charge in connection with any financial assistance made pursuant to the revolving fund program in lieu of interest that otherwise would be charged. The bill would require the proceeds generated from the imposition of the annual charge, along with other moneys, to be deposited in the State Water Pollution Control Revolving Fund Small Community Grant Fund, which the bill would

create in the State Treasury. The bill would authorize the board to expend the money in the fund, upon appropriation by the Legislature to the board, for grants for eligible projects under the revolving fund program that serve small communities, as defined. For the purpose of expending these funds, the board would be required to give priority to projects that serve severely disadvantaged communities.

The bill would require the board, to the extent permitted by law, to take certain actions for the purpose of allocating funds on behalf of a wastewater collection, treatment, or disposal project, if the financial assistance recipient is a small, disadvantaged community, as defined. Those actions would include allocating to the recipient up to 25% of the financial assistance amount, not exceeding \$1,000,000, in advance of actual expenditures, establishing an expedited payment process as specified, and utilizing wire transfers or other appropriate procedures to expedite project payments.

**Ch. 610 (AB 2882) Wolk Allocation-based conservation water pricing.**

Existing law relative to water conservation programs authorizes any public entity, as defined, that supplies water at retail or wholesale for the benefit of persons within the service area or area of jurisdiction of the public entity to adopt and enforce, by ordinance or resolution, a water conservation program to reduce the quantity of water used by those persons for the purpose of conserving the water supplies of the public entity.

This bill would authorize a public entity to adopt allocation-based conservation water pricing meeting certain requirements. The bill would require that revenues derived from allocation-based conservation water pricing not exceed the reasonable cost of water service, including basic costs and incremental costs, as defined.

**Ch. 611 (AB 3030) Brownley Local publicly owned water utility: rate cases.**

Articles XIII C and XIII D of the California Constitution generally require that assessments, fees, and charges be submitted to property owners for approval or rejection after the provision of written notice and the holding of a public hearing. Existing law, the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with Articles XIII C and XIII D of the California Constitution. Existing law provides notice, protest, and hearing procedures for the levying of new or increased fees and charges by local government agencies pursuant to Articles XIII C and XIII D of the California Constitution.

This bill would authorize an agency providing water, sewer, or refuse collection service to adopt a schedule of fees or charges that authorize automatic adjustments that pass through increases in wholesale charges for water or adjustments for inflation, if prescribed conditions are met, including, but not limited to, that the schedule of fees or charges not exceed a period of 5 years and that the schedule be adopted pursuant to existing law providing notice, protest, and hearing procedures for the levying of new or increased fees and charges by local government agencies.

**Ch. 612 (SB 53) Ducheny Railroads.**

Existing law creates the Department of Transportation in the Business, Transportation and Housing Agency, with various powers and duties relative to the intercity rail passenger program, among other transportation programs. Existing law creates the High-Speed Rail Authority, with various powers and duties relative to development and implementation of a high-speed passenger train system. Existing law creates the Public Utilities Commission, with various powers and duties relative to railroads, among other responsibilities.

This bill would require the California Research Bureau, by May 1, 2009, and in consultation with the Business, Transportation and Housing Agency, the Department of Transportation, the California Transportation Commission, the Public Utilities Commission, the California High-Speed Rail Authority, and the Office of the Legislative

Analyst, to analyze and report to the Legislature its recommendations and the estimated costs for improving the state's rail functions, as specified.

Ch. 613 (SB 381) Calderon Voter registration.

Existing law prohibits any person from being registered as a voter except by affidavit of registration and requires that the affidavit be mailed or delivered to the county elections official. The Secretary of State has certain administrative duties under existing law in providing voter registration materials. The federal National Voter Registration Act of 1993 provides for state departments of motor vehicles to make voter registration information and materials available to an applicant for a driver's license and other vehicular documents. Under existing state law, the Department of Motor Vehicles requires licensed persons to provide a signature and the Department of Motor Vehicles is required to digitize that signature and forward the digitized signature to the Secretary of State if a person wishes to register to vote.

This bill would, after the Secretary of State certifies that the state has a statewide voter registration database that complies with the requirements of the federal Help America Vote Act of 2002, authorize a person who is qualified to register to vote and who has a valid California driver's license or state identification card to submit an affidavit of voter registration electronically on the Internet Web site of the Secretary of State. An affidavit of voter registration submitted through this process is effective if received by the Secretary of State on or before the 15th day prior to an election, subject to specified requirements.

The bill would require the Secretary of State to obtain an electronic copy of an applicant's signature from his or her driver's license or state identification card directly from the Department of Motor Vehicles, and that the electronic voter registration system provide for immediate verification of the applicant's driver's license or state identification card number and the applicant's date of birth. The bill would require the Department of Motor Vehicles to use this electronic registration process to comply with its duties and responsibilities as a voter registration agency pursuant to the federal National Voter Registration Act of 1993.

Ch. 614 (SB 1062) Committee on Local Government Validations.

This bill would enact the Second Validating Act of 2008, which would validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies, and entities.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 615 (SB 1117) Cox Hot Spring Valley Water District.

(1) The California Water District Law provides for the establishment of water districts, and grants a district the power to acquire, plan, construct, maintain, improve, operate, and keep in repair the necessary works for the production, storage, transmission, and distribution of water for irrigation, domestic, industrial, and municipal purposes.

This bill would dissolve the Hot Spring Valley Irrigation District in the County of Modoc, and establish the Hot Spring Valley Water District in that county, which would succeed to, and be vested with, all the powers, duties, responsibilities, obligations, liabilities, and jurisdiction of the former Hot Spring Valley Irrigation District. The bill would declare the Hot Spring Valley Water District to be, and require that the district be deemed, a California water district.

This bill would make legislative findings regarding the necessity of a special statute.

Because this bill would change the manner in which district elections are conducted by a local elections official, it would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 616 (SB 1161) Lowenthal Petroleum underground storage tanks: cleanup.

(1) Existing law, the Barry Keene Underground Storage Tank Cleanup Trust Fund Act of 1989, requires owners and operators of petroleum underground storage tanks to, among other things, pay a storage fee for each gallon of petroleum placed in the tanks and requires the fees to be deposited in the Underground Storage Tank Cleanup Fund (fund). The act defines the term “underground storage tank” for those purposes as having the same meaning as a tank defined in the provisions regulating the storage of hazardous substances in underground tanks, except as specified with regard to only containing petroleum.

This bill would revise the definition of “underground storage tank” for purposes of the act to specify that the term also includes certain components that are either directly or indirectly connected to the tank.

(2) The act authorizes the State Water Resources Control Board to expend moneys from the fund, upon appropriation by the Legislature, for various specified purposes, including for payment of claims for the costs of corrective action, for corrective actions undertaken by the board, a California regional water quality control board, or a local agency, and for the cleanup and oversight of unauthorized releases at abandoned tank sites. The act authorizes the board, a regional board, or a local agency to undertake or contract for corrective action in response to unauthorized releases from tanks that are subject to the act. The act is repealed by its own terms on January 1, 2011, with specified exceptions.

This bill would extend the date of the repeal of the act to January 1, 2016.

(3) The act requires a person applying to the board for a claim of corrective action costs to be in compliance with specified insurance and permit requirements, but authorizes a person to apply to the board without complying with the insurance requirement under specified conditions. The board is prohibited from reimbursing a person whose tanks otherwise meet that exemption for costs attributable to an occurrence that commenced prior to the acquisition of the real property, if certain conditions exist with regard to the purchase of the real property and the person who owned the site or who owned or operated the tank, except as specified.

This bill would define the term “purchases or otherwise acquires real property” for purposes of this reimbursement prohibition and exception to mean the acquisition of fee title ownership or the acquisition of the lessee’s interest in a ground lease of real property on which one or more underground storage tanks are located, if the lease has a specified term.

(4) The board is required to waive the permitting requirement for a claim filed on or after January 1, 2008, if the board, among other things, determines that the claimant was unaware of the permitting requirement and the claimant complies with that requirement within a reasonable period, not to exceed one year, after becoming aware of the requirement, and the claimant obtains a specified level of financial responsibility.

This bill would additionally require the board to waive the permitting requirements as a condition for payment from the fund for a claimant who filed his or her claim on or after January 1, 2008, and before July 1, 2009, but is not eligible for a waiver of the permit requirement pursuant to the board’s regulations and who did not obtain or apply for a permit, if the board makes certain findings, including that the claimant became the owner or de facto owner of an underground storage tank, as defined, prior to December 22, 1998, the claimant did not and does not operate the tank, and the claimant caused the tank to be removed or closed, as specified. The board would be required to rank all claims submitted pursuant to this waiver provision in a specified manner of priority class.

(5) The Cleanup Loans and Environmental Assistance to Neighborhoods (CLEAN) program authorizes the making of loans to eligible persons to assess and respond to hazardous material releases at brownfield sites, as defined.

This bill would establish the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund in the State Treasury and would transfer \$10,000,000 for each of the 2008–09, 2009–10, and 2010–11 fiscal years, into that fund, for expenditure, upon appropriation by the Legislature. The bill would authorize the funds in that Underground

Storage Tank Petroleum Contamination Orphan Site Cleanup Fund to be expended for the costs of a response action to remediate the harm caused by petroleum contamination at a site, if the site meets the conditions to be defined as a “brownfield” under the CLEAN program, petroleum contamination is the site’s principal source of contamination, the source of the contamination is, or was, an underground storage tank, and a financially responsible party has not been identified to pay for remediation at the site.

The bill would allow any funds that are not expended in a given fiscal year to remain in the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund until encumbered and would allow a disbursement in liquidation of an encumbrance to be made before or during the 4 years following the last day the appropriation is available for encumbrance. The bill would also provide that a recipient of a grant awarded under provisions that previously established an Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Subaccount, which were repealed on January 1, 2008, and whose encumbrance under the grant was not liquidated within a prescribed period, may receive the undisbursed balance of that encumbrance from the Underground Storage Tank Petroleum Contamination Orphan Site Cleanup Fund established by this bill consistent with the terms of the grant until June 30, 2011.

Ch. 617 (SB 1175) Steinberg Developmental services: regional center housing.

Under existing law, the State Department of Developmental Services contracts with private nonprofit regional centers to provide services and supports to persons with developmental disabilities.

Existing law permits the department to approve proposals from specified regional centers to provide for, secure, and ensure the payment of a lease or leases on housing for persons with developmental disabilities, if specified requirements are met.

This bill would permit the department to approve proposals for housing, not including adult residential facilities for persons with special health care needs, under these requirements from any regional center. The bill would require proposals, to be approved, to include a process for the regional center to review recent sales of comparable properties to ensure the purchase price is within the range of fair market value and, if significant renovations of a home, as defined, will be undertaken after the home is purchased, competing bids for that renovation work to ensure that the cost of the work is reasonable. The bill would allow the department to limit the number of proposals they consider and to require an application fee for submitting proposals.

The bill would also permit the department to contract or consult with a public or private sector entity, with appropriate experience in structuring complex real estate financial transactions and that is not otherwise involved in any lending related to the project, to review various aspects of the regional center proposals.

The bill would require, upon submission of a regional center proposal, a nonrefundable fee to be paid by the developer of the housing, in an amount to be determined by the department as prescribed, to be used to reimburse the department’s costs for review and approval of the proposal, upon appropriation by the Legislature. The bill would, however, allow the Director of Finance to approve an expenditure by the department in the 2008–09 fiscal year, of up to \$75,000 of the moneys derived from these fees for the above-described purposes, thus constituting an appropriation.

Under the California Health Facilities Financing Authority Act, the California Health Facilities Financing Authority administers various provisions relating to the financing of health facility projects, including construction and renovation projects. Existing law includes within the definition of a health facility, for purposes of the act, a residential facility which is defined to include nonprofit accredited work activity programs. These programs provide specified services to persons with developmental disabilities.

This bill would, in addition, include within the definition of a residential facility, for purposes of the California Health Facilities Financing Authority Act, a residential facility for

persons with developmental disabilities, as provided for under the provisions permitting proposals for housing for these persons to be approved by the department. The bill would specifically exempt from this definition a residential facility for persons with special health care needs, as defined.

Ch. 618 (SB 1220) Cedillo Housing: Multifamily Housing Program: veterans.

Existing law establishes the Multifamily Housing Program under the administration of the Department of Housing and Community Development to provide a standardized set of program rules and features applicable to all housing types based on the department's California Housing Rehabilitation Program.

This bill would authorize a sponsor, as defined, of a supportive housing development funded by the Multifamily Housing Program, to restrict occupancy of a project to persons with veteran status under specified circumstances.

Ch. 619 (SB 1276) Ashburn Vandalia Water District.

(1) The California Water District Law provides for the establishment of water districts, and grants a district the power to acquire, plan, construct, maintain, improve, operate, and keep in repair the necessary works for the production, storage, transmission, and distribution of water for irrigation, domestic, industrial, and municipal purposes.

This bill would dissolve the Vandalia Irrigation District in the County of Tulare, and establish the Vandalia Water District in that county, which would succeed to, and be vested with, all the powers, duties, responsibilities, obligations, liabilities, and jurisdiction of the former Vandalia Irrigation District. The bill would declare the Vandalia Water District to be, and require that the district be deemed, a California water district. Because this bill would establish requirements on the Vandalia Water District, it would impose a state-mandated local program.

This bill would make legislative findings regarding the necessity of a special statute.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 620 (SB 1510) Kehoe San Diego County Regional Airport Authority.

(1) The San Diego County Regional Airport Authority Act establishes the authority as a local entity of regional government with jurisdiction throughout the County of San Diego. The act establishes a board of directors as the governing body of the authority and assigns various powers and duties to the authority regarding the establishment and operation of airports within the county, designates the authority as the entity responsible for coordinating the airport planning of public agencies within the county, and requires the authority to prepare, adopt, and amend an airport land use compatibility plan for each airport in the county utilizing a public collaborative planning process. The act provides for the compensation of members of the board of directors and prohibits a board member from receiving any benefits pursuant to certain provisions of the Government Code that provide a uniform limit on the health and welfare benefits for members of the legislative bodies of all political subdivisions of the state.

This bill would make clarifying changes to how the board is selected and would prohibit a board member from receiving, in compensation, any benefits permitted to be paid to a member of a legislative body pursuant to the above-described Government Code provisions, but would not prohibit a board member from electing to participate in a plan of health and welfare benefits if the costs are paid by the board member and the authority incurs no expense other than those expenses associated with processing the board member's participation, as a result of the election by the board member. The bill would revise how a 3-person executive committee of the board is selected, would clarify certain compensation provisions pertaining

to the board, and would clarify how the terms of the public members of the audit committee of the board would be staggered.

Existing law authorizes the board of directors to adopt and enforce rules and regulations for the administration, maintenance, operation, and use of its facilities and services and makes any person who violates a rule, regulation, or ordinance adopted by the board guilty of a misdemeanor or an infraction.

This bill would authorize the authority to enforce a rule, regulation, or ordinance in an administrative action and would authorize the imposition of a civil penalty in that action if a violation is found to have occurred.

(2) Existing law specifies the rights and duties of persons who find lost money or goods of another or who, either voluntarily or involuntarily, are the depositories of the money or goods of another. Existing law authorizes any public agency to elect to be governed by these provisions of law with respect to disposition of personal property or to adopt reasonable regulations for the care, restitution, sale, or destruction of unclaimed property in its possession.

This bill would authorize the authority to act as a city police department, city, local government, or public agency for these purposes.

(3) Existing law governs contracts between rental car companies and their customers. Existing law authorizes a company that rents passenger vehicles to the public to collect a customer facility charge, which is defined to mean a fee that is required by an airport to be collected for specified purposes, if specified circumstances apply, including that the collection of the fee is required by an airport operated by a city, a county, a city and county, a joint powers district, or a special district.

This bill would, in addition, authorize collection of the customer facility charge if collection of the fee is required by the San Diego County Regional Airport Authority. The bill would incorporate additional changes in Section 1936 of the Civil Code made by AB 2142 (Ch. 228, Stats. 2008).

Ch. 621 (SB 1531) Correa Peace officer training: autistic persons.

Existing law provides that the Commission on Peace Officer Standards and Training establish and keep updated various training programs to maintain the level of competence of various law enforcement officers.

This bill would, upon the next regularly scheduled review of a training module relating to persons with disabilities, require the commission to create and make available on DVD and authorize the commission to distribute electronically a course on how to recognize and interact with persons with autistic spectrum disorders. This course shall be designed for, and made available to, peace officers who are first responders. This bill would specify that the commission shall develop the course in consultation with designated entities, and distribute, as necessary, a training bulletin via the Internet to specified law enforcement agencies.

Ch. 622 (SB 1548) Florez San Joaquin Valley Unified Air Pollution Control District: city selection committee.

Existing law establishes the San Joaquin Valley Unified Air Pollution Control District formed by the Counties of Fresno, Kern, Kings, Madera, Merced, San Joaquin, Stanislaus, and Tulare, and consisting of the Counties of Fresno, Kings, Madera, Merced, San Joaquin, Stanislaus, and Tulare, and that portion of the County of Kern that is within the San Joaquin Valley Air Basin, as a single integrated agency with all staff under one centralized management structure that is able to implement programs on a basinwide basis. Existing law requires the district to be governed by a district board composed of a total of 15 voting members. Of those members, existing law requires 5 members to be appointed by cities within the territory of the district, based on region and population.

This bill would create a local city selection committee to appoint these members pursuant to specified requirements, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 623 (AB 31) De Leon Statewide Park Development and Community Revitalization Act of 2008.

(1) The Urban Park Act of 2006 (act) requires the Department of Parks and Recreation (department) to establish a local assistance program to offer grants, on a competitive basis, to various local entities and nonprofit organizations, as defined, for the acquisition or development, or both, of urban parks and recreational areas and facilities. Heavily urbanized counties are authorized to apply for these grants. The department is required to submit an annual report to the Legislature on the status of each grant made pursuant to the act.

This bill would change the name of the act to the Statewide Park Development and Community Revitalization Act of 2008. A city, regional park district, district, joint powers authority, or county, in addition to specified nonprofit organizations, would be authorized to apply for local assistance program grants. The department would be required to encourage joint partnerships between agencies to enhance investment of public resources. The term “critically underserved community” would replace the term “heavily urbanized county” for purposes of the act and would be defined to include a community with less than 3 acres of usable parkland per 1,000 residents or a disadvantaged community, as defined, that can demonstrate to the Department of Parks and Recreation that the community has insufficient or no park space and recreation facilities. The bill would revise the criteria for awarding grants and revise and create new limitations on grantee allocation of funds, including repealing a grantee’s existing authority to use grant funds to pay costs associated with remediating toxic materials or hazardous substances. The bill would require the department, on or before April 1, 2009, to adopt guidelines to amplify or clarify the grant criteria or develop a procedural guide for the administration of the act and the guidance of applicants. The department would be required to offer technical assistance to all applicants and potential applicants for grant preparation to encourage full participation in the grant program.

The bill would delete the requirement for an annual report and would instead require the department to make certain information available on the department’s Internet Web site 5 business days after awarding a grant.

The bill would make clarifying and conforming changes to other provisions of the act.

(2) The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006, an initiative statute adopted by the voters at the November 7, 2006, statewide general election, among other things, makes \$400,000,000 in bond funds available to the Department of Parks and Recreation for competitive grants for local and regional parks, and authorizes those funds to be allocated pursuant to implementing legislation, subject to certain considerations, including requiring preference to be given to the acquisition and development of new parks and expansion of overused parks that provide park and recreational access to underserved communities.

This bill would state that it is the intent of the Legislature to make those funds available to the department, upon appropriation, to award competitive grants pursuant to the Statewide Park Development and Community Revitalization Act of 2008.

Ch. 624 (AB 346) Beall Alcoholic beverages: labels.

The Alcoholic Beverage Control Act, administered by the Department of Alcoholic Beverage Control, regulates the sale and distribution of alcoholic beverages and the granting of licenses for the manufacture, distribution, and sale of alcoholic beverages within the state. The act also provides for specified labeling requirements for containers of alcoholic beverages sold within this state, as provided.

This bill would require the container of any beer or alcoholic beverage that derives 0.5% or more of its alcoholic content by volume from flavors or other ingredients containing distilled alcohol and that is sold by a manufacturer or importer to a wholesaler or retailer within this state to bear a label or a firmly affixed sticker that includes specified information regarding its alcohol content and its status as an alcoholic beverage. This bill also makes findings and declarations with regard to the need for these labeling requirements.

The Alcoholic Beverage Control Act provides that a violation of its provisions is a misdemeanor, unless otherwise specified. This bill, by creating a new crime, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 625 (AB 433) Beall Food Stamp Program: categorical eligibility.

Existing law provides for the Food Stamp Program, under which each county distributes food stamps provided by the federal government to eligible households, and the CalWORKs program, under which each county provides cash assistance and other benefits to qualified low-income families and individuals.

This bill would require the State Department of Social Services to propose a new name for the Food Stamp Program in California by July 1, 2009, and to convene with a diverse group of stakeholders to develop the new name. The bill would require the new name to reflect one or more designated concepts relating to the operation and significance of the program.

Under existing law, the State Department of Social Services is required to develop a program of categorical eligibility under the Food Stamp Program for persons receiving certain cash assistance for indigent persons.

This bill would revise these requirements, to establish categorical eligibility for the Food Stamp Program to improve nutrition and promote the retention and development of assets and resources for specified categories of needy households who meet all other Food Stamp Program eligibility requirements, in accordance with a designated provision of federal law. The bill would require the department to establish the program by July 1, 2009, and to fully implement it as to new food stamp applicants by January 1, 2010. The bill would require the department to implement these provisions through all-county letters or similar instructions from the director, pending the adoption of regulations, as specified.

Because counties administer the Food Stamp Program, this bill would increase county duties by potentially extending the period of eligibility for these programs for certain recipients, and would thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 626 (AB 545) Walters Judges' retirement.

The existing Judges' Retirement System II Law permits a judge who is a member of the system and eligible to retire to elect to receive a monthly allowance or monetary credits, as specified. The law permits a judge to elect to make contributions and receive service credit in the system for certain active military service performed prior to entering the system. Contributions to the Judges' Retirement System II are deposited in the Judges' Retirement System II Fund, which is continuously appropriated.

This bill would permit a judge to elect to receive service credit for the purposes of retirement, or for purposes of calculating survivor benefits, for the time during which he or

she was absent from his or her position as a judge by reason of service with the uniformed services, as defined, provided that the judge returns to judicial office within 6 months of separation from an eligible period of service in the uniformed services, as specified, and the judge elects and satisfies specified requirements regarding his or her contributions. The bill would require that a judge who satisfies these requirements also receive specified monetary credits. The bill would require the system to comply with specified provisions of federal law. The bill would require the state to contribute an amount equal to the contributions that would have been made by the state during the judge's absence when the judge satisfies the requirements to receive this service credit. By increasing contributions to the Judges' Retirement System II Fund, this bill would make an appropriation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 627 (AB 578) Blakeslee Energy: distributed energy generation: study.

(1) Existing law requires the State Energy Resources Conservation and Development Commission (Energy Commission), in consultation with the Public Utilities Commission (PUC), to evaluate the costs and benefits of having an increased number of operational solar energy systems as part of the electrical system.

This bill would delete this requirement.

(2) Under the existing Public Utilities Act, the PUC is required to report to the Legislature by July 15, 2009, and triennially thereafter, on the energy efficiency and conservation programs overseen by the PUC, as specified.

This bill would require the PUC, on or before January 1, 2010, and biennially thereafter, in consultation with the Independent System Operator and the Energy Commission, to study, and submit a report to the Legislature and the Governor, on the impacts of distributed energy generation on the state's distribution and transmission grid. The bill would require the PUC to specifically assess the impacts of the California Solar Initiative program, the self-generation incentive program, and the biogas customer-generator net energy metering pilot program.

Ch. 628 (AB 638) Bass Student financial aid: California Physician Assistant Loan Assumption Program.

Existing law establishes the Student Aid Commission as the primary state agency for the administration of state-authorized student financial aid programs available to students attending all segments of postsecondary education. Existing law establishes an assumption program of loans for education, administered by the Student Aid Commission, under which any person enrolled in a participating institution of postsecondary education, or any person who agrees to participate in a teacher trainee or teacher internship program, is eligible to enter into an agreement for loan assumption, to be redeemed pursuant to a prescribed procedure upon satisfying certain conditions.

This bill would create the California Physician Assistant Loan Assumption Program, administered by the commission, under which any person enrolled in or admitted to a physician assistant program at an eligible institution, and who meets other requirements, is eligible to receive a conditional agreement for loan assumption, to be redeemed upon working for a specified period as a physician assistant in a designated medically underserved area.

The bill would require the commission to submit a report to the Legislature, on or before January 1, 2012, and annually thereafter, that would include specified data relating to the program. The bill would require the Legislative Analyst's Office, on or before January 1, 2013, in consultation with other specified organizations, to submit a report to the Legislature that describes the experience of the program, evaluates its effectiveness, and makes recommendations for maintaining or expanding the program's operation.

The bill would establish the California Physician Assistant Loan Assumption Program Fund in the State Treasury and would make its revenue available for expenditure for the

program upon appropriation by the Legislature. The bill would make implementation of the program contingent upon sufficient revenue being available to administer the program. The bill would repeal the program on January 1, 2014.

Ch. 629 (AB 1245) Torrico Alcoholic beverages.

The Alcoholic Beverage Control Act prohibits any licensee from giving a premium, gift, or free goods in connection with the sale and distribution of any alcoholic beverage, except as provided. Existing law provides an exception for the furnishing or giving of any retailer advertising specialty with respect to distilled spirits and wines.

This bill would provide that no rule of the department may impose a dollar limit for consumer advertising specialties furnished by a beer manufacturer to the general public of other than \$3 per unit original cost to the beer manufacturer who purchased it.

Ch. 630 (AB 1461) Krekorian Health insurance: liability: alcohol and drug abuse.

Existing law authorizes a disability policy to provide that the insurer is not liable for any loss sustained or contracted in consequence of the insured's being intoxicated or under the influence of any controlled substance unless administered on the advice of a physician.

This bill would exclude a health insurance policy from the application of the above-described provision, thereby allowing for insurer liability under those circumstances.

Ch. 631 (AB 1894) Krekorian Health care coverage: HIV testing.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the regulation of health care service plans by the Department of Managed Health Care. Existing law requires a health care service plan to provide specified coverage to its enrollees and subscribers. Existing law provides that a willful violation of the act is a crime. Existing law provides for the regulation of health insurers by the Department of Insurance. Existing law requires a health insurance policy to provide specified coverage to insureds.

This bill would require health care service plans and health insurers, on or after January 1, 2009, to provide coverage for human immunodeficiency virus (HIV) testing, regardless of whether the testing is related to a primary diagnosis.

Because this bill would place an additional requirement on health care service plans, the willful violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 632 (AB 1898) Evans Flood control subvention funds: Napa River.

Existing law provides for state cooperation with the federal government in the construction of specified flood control projects, and prescribes requirements to be met prior to state authorization of flood management projects that receive state financial aid.

This bill would authorize the state to provide funds, as prescribed, to the City of St. Helena, or to local agencies in the County of Napa, for a flood control project on the Napa River, as described, at an estimated cost to the state of the sum that may be appropriated for state cooperation by the Legislature upon the recommendation and advice of the department and upon a determination by the department that the project meets those financial aid requirements. The bill would provide that the state assumes no liability for damages that may result from the project by authorizing the provision of funds, or by the appropriation of those funds, as specified.

Ch. 633 (AB 1903) Hernandez Liability: flood control and water conservation facilities.

Existing law provides that, except as specified, neither a public entity nor a public employee is liable under this chapter for an injury caused by the condition of a reservoir if at the time of the injury the person injured was using the property for any purpose other than that for which the public entity intended or permitted the property to be used. Existing law also provides that, except as specified, neither an irrigation district nor an employee thereof nor the state nor a state employee is liable under this chapter for an injury caused by the condition of canals, conduits, or drains used for the distribution of water if at the time of the injury the person injured was using the property for any purpose other than that for which the district or state intended it to be used.

This bill would provide that, until January 1, 2013, neither a public agency that operates flood control and water conservation facilities nor its employees shall be liable for injuries caused by the condition or use of unlined flood control channels or adjacent groundwater recharge spreading grounds under prescribed conditions, except as specified. The bill would also specify that nothing in that provision exonerates a public agency or public employee subject to that provision from liability for injury proximately caused by a dangerous condition of public property under specified circumstances.

This bill would require, until January 1, 2013, the County of Los Angeles Department of Public Works to maintain a record of injuries, and the results of any civil actions ensuing therefrom, that are incurred by the public in the unlined flood control channels or adjacent groundwater recharge spreading grounds during groundwater recharge activities and a record of all claims, paid and not paid, arising from those incidents. The bill would require the County of Los Angeles Department of Public Works to annually file a copy of that record with the Judicial Council. This bill would require the Judicial Council to submit a report on these matters to the Legislature on or before January 31, 2012.

Because this bill would create additional duties for local officials, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason. This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 634 (AB 1908) Wolk Dixon Unified School District: school farm property.

Existing law establishes the public school system in this state, and, among other things, provides for the establishment of school districts throughout the state and for their provision of instruction at the public elementary and secondary schools they operate and maintain. Existing law establishes a public school funding system that includes, among other elements, the provision of funding to local educational agencies through state apportionments, the proceeds of property taxes collected at the local level, and other sources. Existing law authorizes school districts to sell surplus real and personal property, as specified. Existing law requires the proceeds obtained by a school district pursuant to the sale of its real property to be expended solely for capital outlay purposes.

This bill would express findings and declarations relating to the financial condition of the Dixon Unified School District. The bill would authorize the Dixon Unified School District to sell its excess farmland previously used as the school farm, as specified, and would require the district to deposit the proceeds of the sale into the general fund of the school district to establish a specified reserve and to deposit the remaining amount into the capital outlay fund of the district. The bill would specify the conditions under which the proceeds from the sale authorized by the bill may be expended. The bill would provide that from July 1, 2008, to June 30, 2010, inclusive, the Dixon Unified School District would not be eligible to receive financial hardship assistance pursuant to a specified statute, and that the district would not be eligible to receive hardship funding from the State School Deferred Maintenance Fund under a specified statute until all remaining funds from the sale of the property authorized

by the bill are exhausted for deferred maintenance or capital outlay purposes. These provisions would be repealed on January 1, 2021.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 635 (AB 1915) Jeffries State Highway Routes 49 and 74: relinquishment.

Existing law provides that the Department of Transportation has full possession and control of all state highways. Existing law describes the authorized routes in the state highway system and establishes a process for adoption of a highway on an authorized route by the California Transportation Commission. Existing law authorizes the commission to relinquish certain state highway segments to local agencies.

This bill would authorize the commission to relinquish portions of State Highway Route 49 that are in the City of Auburn, in Placer County, and portions of State Highway Route 74 that are in the City of Lake Elsinore and the City of Perris, in Riverside County, to those cities under certain conditions.

Ch. 636 (AB 1948) Evans Education finance.

(1) Existing law requires the Superintendent of Public Instruction and the Director of Finance to jointly establish a plan for repayment of school funds that a local educational agency received on the basis of average daily attendance that did not comply with statutory or regulatory requirements that were conditions of apportionments, as determined by an audit or a review. Existing law also requires the Superintendent and the Director of Finance to jointly establish a plan for repayment of a penalty arising from an audit exception.

Existing law establishes the Education Audit Appeals Panel, and requires the panel to hear an appeal, filed by the local educational agency within prescribed timelines, of a finding of a final audit report resulting from audit or review.

This bill would, notwithstanding the appeal timelines in this provision, authorize the panel to accept, at its discretion, an appeal filed one business day late by the Vallejo City Unified School District related to specified findings from that district's 2003–04 local educational agency annual audit.

(2) Existing law appropriates \$60,000,000 from the General Fund to the Superintendent of Public Instruction for apportionment to the Vallejo City Unified School District as an emergency loan. Existing law authorizes the Vallejo City Unified School District, from June 1, 2004, to June 30, 2007, inclusive, to sell property owned by the district and to use the proceeds from the sale to reduce or retire that emergency loan.

This act would extend the termination date of the operation of this provision from June 30, 2007, to July 1, 2010. The bill would make a legislative finding and declaration that the unique circumstances of the Vallejo City Unified School District warrant the enactment of this provision as a special statute.

Ch. 637 (AB 2162) Mullin Bay-Delta Sport Fishing.

(1) Existing law, until January 1, 2009, prohibits a person from sport fishing in the tidal waters of the San Francisco Bay Delta and the main stem of the Sacramento and San Joaquin Rivers, including major tributaries, below the most downstream dam, unless he or she first obtains a Bay-Delta Sport Fishing Enhancement Stamp or validation and affixes that stamp or validation to a valid sport fishing license. Existing law requires the funds generated by the imposition of these fees to be deposited in a separate account in the Fish and Game Preservation Fund, to be used solely for the long term, sustainable benefit of the primary Bay-Delta sport fisheries, as specified.

This bill would extend these provisions to January 1, 2010. Because a violation of these provisions is a misdemeanor under existing law, the bill would impose a state-mandated local program by extending a crime that otherwise would be repealed.

(2) Existing law establishes a Bay-Delta Sport Fishing Enhancement Stamp Fund Advisory Committee and requires the Department of Fish and Game to submit to the

advisory committee, at least annually, an accounting of funds derived from the Bay-Delta Sport Fishing Enhancement Stamps and validations.

This bill, instead, would require the department to submit, at least annually, and on or before January 10 of each year, that accounting of funds to the advisory committee, and to the Chief Clerk of the Assembly and the Secretary of the Senate for distribution to the fiscal and policy committees of the Legislature.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 638 (AB 2293) De Leon Alcoholic beverage licensees.

Existing provisions of the Alcoholic Beverage Control Act generally prohibit manufacturers, winegrowers, bottlers, importers, wholesalers, and others from performing certain activities, with specified exceptions.

This bill would, until January 1, 2014, permit a manufacturer, winegrower, rectifier, or distiller, or any authorized agent of that person to provide, free of charge, entertainment, food, and distilled spirits, wine, or nonalcoholic beverages to consumers over 21 years of age at an invitation-only event in connection with the sale or distribution of wine or distilled spirits, as specified. This bill would authorize the Department of Alcoholic Beverage Control to impose a fee to cover the costs of administering the events authorized by this bill.

The Alcoholic Beverage Control Act provides that a violation of specified provisions of the act is punishable as a misdemeanor. This bill, by including provisions that would be subject to those existing criminal sanctions, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 639 (AB 2326) Lieu State Highway Routes 1 and 107: City of Torrance.

Existing law provides the Department of Transportation full possession and control of all state highways. Existing law establishes State Highway Routes 1 and 107 and relinquishes specified portions of those routes to certain cities.

This bill would provide for the relinquishment of certain portions of State Highway Routes 1 and 107 to the City of Torrance under specified conditions.

#### Ch. 640 (AB 2439) De La Torre Steven M. Thompson Physician Corps Loan Repayment Program: fees.

Existing law establishes the Steven M. Thompson Physician Corps Loan Repayment Program in the California Physician Corps Program within the Health Professions Education Foundation, which provides financial incentives, as specified, to a physician and surgeon for practicing in a medically underserved community. Existing law requires the Medical Board of California to assess an applicant for issuance or renewal of a physician and surgeon's license a voluntary \$50 fee to be deposited into the Medically Underserved Account for Physicians, which is continuously appropriated to provide funding for operations of the loan repayment program. Existing law requires the foundation to use guidelines developed by the board for the selection and placement of program applicants, as specified.

This bill would change the fee to \$25 and make payment of the fee mandatory for applicants for issuance or renewal of a physician and surgeon's license. The bill would also provide that up to 15% of the funds collected shall be dedicated to loan assistance for physicians and surgeons who agree to practice in geriatric care settings or settings that primarily serve adults over the age of 65 years or adults with disabilities.

The bill would require the guidelines for the selection and placement of program applicants to include criteria that would give priority consideration to program applicants who agree to practice in geriatric care settings.

Because this bill would provide for the deposit of additional fees in a continuously appropriated fund, it would make an appropriation.

This bill would incorporate an additional change to Section 128553 of the Health and Safety Code proposed by AB 2543 contingent on the prior enactment of that bill.

This bill would make the operation of its provisions contingent upon the enactment of SB 1379 of the 2007–08 Regular Session.

Ch. 641 (AB 2494) Caballero Housing-Related Parks Program.

The Housing and Emergency Shelter Trust Fund Act of 2006 authorizes the issuance of bonds in the amount of \$2,850,000,000 pursuant to the State General Obligation Bond Law. Proceeds from the sale of these bonds are required to be used to finance various existing housing programs, capital outlay related to infill development, brownfield cleanup that promotes infill development, and housing-related parks. The act establishes the Housing and Emergency Shelter Trust Fund of 2006 in the State Treasury, requires the sum of \$200,000,000 to be deposited in the Housing Urban-Suburban-and-Rural Parks Account, which the act establishes in the fund, and makes the money in the account available, upon appropriation, for housing-related parks grants in urban, suburban, and rural areas, subject to the conditions and criteria that the Legislature may provide in statute.

This bill would establish the Housing-Related Parks Program under the administration of the Department of Housing and Community Development. The bill would require the department to use funds allocated from the account, upon appropriation by the Legislature, to provide grants for the creation, development, or rehabilitation of park and recreation facilities, to cities, counties, and cities and counties that meet certain criteria and issue housing starts, as defined, for newly constructed units that are affordable to very low or low-income households.

The bill would appropriate the sum of \$459,000 from the account to the department to fund the startup administrative costs of the program.

Ch. 642 (AB 2641) Cook Military service: protection: mediator.

Existing law provides certain benefits and protections for members of the state militia, as specified.

This bill would authorize the Governor and each state agency and department to appoint a mediator to take complaints, as specified, and to resolve and coordinate the resolution of those complaints or other issues from state employees that are members of the California National Guard or members of a reserve component of the Armed Forces of the United States, as specified.

Ch. 643 (AB 2680) Adams Counties: water bond loans.

Existing law provides that the California Victim Compensation and Government Claims Board may delegate to the Controller, under terms and conditions that are acceptable to the board, the authority to discharge from accountability a state agency for accounts that do not exceed specified amounts. The California Safe Drinking Water Bond Law of 1976 provides for the proceeds from the sale of bonds issued by the Department of Water Resources to be made available for specified purposes, including making loans to water suppliers to construct projects that will enable suppliers to meet safe drinking water standards.

This bill would provide that, notwithstanding any other provision of law, the board may authorize the Controller to discharge the Department of Water Resources from accountability for collection of the loan issued to the Arrowhead Manor Water Company in 1980 under the California Safe Drinking Water Bond Law of 1976, but only if San Bernardino County or

its county service area acquires the water system financed by that loan and pays \$910,520 in complete satisfaction of that loan, on or before January 30, 2009.

Ch. 644 (AB 2729) Ruskin Hazardous substances: underground storage tanks.

(1) The Barry Keene Underground Storage Tank Cleanup Trust Fund Act of 1989 requires owners and operators of petroleum underground storage tanks to pay a storage fee for each gallon of petroleum placed in the tank and requires the fees to be deposited in the Underground Storage Tank Cleanup Fund (fund). The act authorizes the State Water Resources Control Board, upon appropriation by the Legislature, to expend the moneys in that fund to pay claims to aid eligible owners and operators of petroleum underground storage tanks who take corrective action to clean up unauthorized releases from those tanks. The act imposes various requirements on those claimants and requires the board to adopt a priority ranking list, consisting of 4 ranks, for awarding the claims. Included in the 3rd rank of that list are owners and operators of tanks that are independently owned and operated businesses that employ fewer than 500 employees and cities, counties, districts, or nonprofit organizations that employ fewer than 500 employees.

This bill would create the School District Account (account) in the fund and would transfer a sum of \$10,000,000 per year in the 2009–10, 2010–11, and 2011–12 fiscal years from the fund to the account. The moneys in the account, upon appropriation by the Legislature, would be available for expenditure by the board to pay claims filed by school districts that have a 4th rank on the ranking list. The account would be repealed on July 1, 2014. Upon the repeal of the account, moneys in the account and moneys due to the account would revert to, and accrue to, the benefit of the fund. The board, in consultation with the Department of Toxic Substances Control, would be required to include, in its annual report, information on the expenditure of moneys transferred to the account.

(2) The Carpenter-Presley-Tanner Hazardous Substance Account Act establishes the Hazardous Substance Account and, among other things, requires the department to adopt, by regulation, criteria for the selection of hazardous substance release sites for response actions and to publish and revise a listing of hazardous substance release sites selected for response actions, listed according to a specified order of priority.

The act requires the department or a California regional water quality control board to prepare and approve remedial action plans for all sites on the list and authorizes a potentially responsible party to request the department or the regional board to prepare or approve a remedial action plan for any site not listed if the department or the regional board determines that a removal or remedial action is required to respond to a release of a hazardous substance. Existing law imposes various requirements regarding the content of a remedial action plan. The act provides that a remedial action plan is not required if the department, a regional board, or a responsible party takes a removal action at a site and the estimated cost of the removal action is less than \$1,000,000.

This bill would provide, instead, that a remedial action plan is not required under this provision if the estimated cost of the removal action is less than \$2,000,000.

Ch. 645 (AB 3016) Cook Personal income taxes: contributions: California Military Family Relief Fund.

The Personal Income Tax Law allows taxpayers, until January 1, 2010, to designate on their tax returns that a specified amount in excess of their tax liability be contributed to the California Military Family Relief Fund to provide financial aid grants to members of the California National Guard who are California residents.

This bill would revise these provisions to specify that the contributions to the California Military Family Relief Fund be used to provide financial aid grants to eligible reserve members of the United States who are California residents, and that the awarding of grants be governed by a Memorandum of Agreement.

This bill would specify that moneys transferred to the California Military Family Relief Fund before January 1, 2009, be reserved for the California National Guard. This bill would allow the California National Guard to make moneys transferred to the California Military Family Relief Fund before January 1, 2009, available for distribution to qualified members of the reserve component until adequate moneys are available to ensure that all approved grants are funded.

This bill also would require members to meet certain criteria, as specified, in addition to those criteria already required by these provisions.

This bill would extend the operation of these provisions until January 1, 2015.

Ch. 646 (AB 86) Lieu Pupil safety.

Existing law, the Interagency School Safety Demonstration Act of 1985, states that the intent of the Legislature in enacting its provisions is to encourage school districts, county offices of education, law enforcement agencies, and agencies serving youth to develop and implement interagency strategies, in-service training programs, and activities that will, among other things, reduce school crime and violence, including bullying. Existing law establishes the School/Law Enforcement Partnership and charges it with undertaking several efforts intended to reduce school crime, as specified, including bullying.

This bill would specify that bullying, as used in these provisions, means one or more acts by a pupil or a group of pupils directed against another pupil that constitutes sexual harassment, hate violence, or severe or pervasive intentional harassment, threats, or intimidation that is disruptive, causes disorder, and invades the rights of others by creating an intimidating or hostile educational environment, and includes acts that are committed personally or by means of an electronic act, as defined.

Existing law prohibits the suspension, or recommendation for expulsion, of a pupil from school unless the principal determines that the pupil has committed any of various specified acts, including, but not limited to, hazing, as defined.

This bill, in addition, would give school officials grounds to suspend a pupil or recommend a pupil for expulsion for bullying, including, but not limited to, bullying by electronic act.

Ch. 647 (AB 163) Mendoza Gambling: local ordinances.

The Gambling Control Act authorizes a city or county to permit controlled gambling, consistent with state law, if a majority of voters affirmatively approve an ordinance so permitting, as specified. That law authorizes an amendment of an ordinance permitting an expansion of gambling, within a specified limit, without voter approval, and also authorizes, without voter approval, an amendment to an ordinance permitting an increase of 24.99% in the number of gambling tables that may be operated in a gambling establishment or 2 gambling tables, whichever is greater, compared to the ordinance in effect on January 1, 1996.

This bill would further authorize a city or county, without voter approval, to amend an ordinance to increase the number of gambling tables that may be operated in a gambling establishment by 3 tables if the ordinance in effect on July 1, 2007, provided for 5 to 8 tables, and by 4 tables if the ordinance in effect on July 1, 2007, provided for 9 to 12 tables.

Ch. 648 (AB 572) Berg Adult day health care services.

The California Adult Day Health Care Act provides for the licensure and regulation of adult day health centers, with administrative responsibility for this program shared between the State Department of Public Health, the State Department of Health Care Services, and the California Department of Aging pursuant to an interagency agreement. The Adult Day Health Medi-Cal Law establishes adult day health care services as a Medi-Cal benefit for Medi-Cal beneficiaries who meet certain criteria.

Existing law requires the interagency agreement to, among other things, specify that the California Department of Aging is responsible for making recommendations to the department regarding licensure, as specified. Existing law also requires the interagency agreement to specify that the department shall delegate to the California Department of Aging the responsibility of performing the financial reviews and the resolution of audit appeals that are necessary to ensure the program integrity.

This bill would eliminate the requirement that the interagency agreement contain the above statements.

The bill would impose new qualification requirements on specified adult day health care center employees, and would require all adult day health care centers to provide for various vacancy policies and procedures, as provided.

Existing law requires the State Department of Public Health, the State Department of Health Care Services, and the California Department of Aging to jointly develop and adopt regulations for the provision of different levels of care under the single adult day health care license.

This bill would delete this requirement.

Existing law provides that if an adult day health care center licensee provides adult day care or adult day support center services, the adult day health care license shall be the only license required to provide these additional services.

This bill would revise this provision to, instead, apply to an adult day health care center licensee that provides adult day program services.

The bill would also provide that an adult day health care center licensee shall not be required to meet the licensing and certification staffing requirements of the adult day health care center program during extended hours, as defined.

Existing law requires that adult day health care centers offer specified care services to each participant during each day of the participant's attendance at the center, including at least one meal per day, as prescribed.

This bill would specify that the meal must be provided unless the participant declines the meal or medical contraindications exist, as documented in the participant's health record, that prohibit the ingestion of the meal.

Existing law also requires that an adult day health care center provide transportation services to and from the homes of participants.

This bill would provide that these services may only exceed one hour when necessary to ensure regular and planned attendance at the adult day health care center and when there is documentation in the participant's health record that there is no medical contraindication.

This bill would require that adult day health care centers have both written policies and procedures for dealing with natural disaster and emergency situations.

Ch. 649 (AB 830) Ma Vehicles: transportation of school pupils.

(1) Existing law authorizes the governing board of a school district to contract for the transportation of pupils attending schools within the district to and from specified activities and authorizes the governing board to pay for that transportation out of any funds of the district available for that purpose.

This bill would provide that a school, a school district, or the state would not be liable for transportation services provided by an operator of a charter-party carrier, as defined, for which the school or the school district has not contracted, arranged, or otherwise provided.

(2) Under existing law, the State Department of Education is required to develop or approve driver training courses for drivers of specified types of vehicles.

This bill would require the department, by January 1, 2010, in consultation with the Department of Motor Vehicles and the Department of the California Highway Patrol, to review and, if necessary, revise its training courses and requirements for drivers who operate specified charter-party carrier vehicles used for the transportation of pupils.

(3) Existing law provides for the issuance by the Department of Motor Vehicles of a certificate to drive specified types of vehicles, including a schoolbus or a school pupil activity bus and imposes specified requirements on a person who operates a schoolbus or a youth bus in the transportation of school pupils. Existing law specifically excludes specified motor vehicles from the definition of a schoolbus.

This bill would, in addition, exclude from the definition of schoolbus a motor vehicle designed to carry not more than 25 persons including the driver, while being used for the transportation of pupils to or from school-related activities if the vehicle is operated by a charter-party carrier not under a contractual agreement with a school or school district, and the transportation does not duplicate transportation services for pupils provided by the school or school district. The bill would prohibit a person from operating that type of motor vehicle unless that person has specified documents in his or her immediate possession and would require that person to perform specified duties. The bill would also require that vehicle to pass a specified annual inspection, and would allow the Department of the California Highway Patrol to charge a reasonable fee for that inspection.

(4) Under existing law, a violation of the Vehicle Code is an infraction, unless otherwise provided.

Because this bill would add provisions to the Vehicle Code, the violation of which would be a misdemeanor, the bill would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 650 (AB 876) Davis Career technical education.

Existing law requires the Superintendent of Public Instruction to coordinate the development, on a cyclical basis, of model curriculum standards for a high school career technical course of study pursuant to policies developed by the State Board of Education. Existing law also requires the Superintendent to develop a career technical curriculum framework based on prescribed criteria.

Existing law requires that, if by July 1, 2008, the University of California has not adopted model uniform academic standards for career technical education that will satisfy the completion of a general elective course requirement for the purposes of admission to that university, the Regents of the University of California are requested to recognize the completion of model curriculum standards established by the Superintendent pursuant to the career technical curriculum framework referenced above. Existing law imposes a similar requirement on the California State University, but makes that university's recognition of the model curriculum standards mandatory if it has not adopted model uniform academic standards for career technical education by July 1, 2008.

This bill would request the California State University and the University of California to take specified actions with respect to the recognition of career technical education coursework in connection with the admissions criteria of the respective universities.

#### Ch. 651 (AB 887) De La Torre State surplus property: Lynwood Armory.

Existing law authorizes the Director of General Services to dispose of state surplus property, subject to specified conditions, including authorization by the Legislature. Existing law requires the net proceeds from the lease of state surplus property to be paid into the Deficit Recovery Bond Retirement Sinking Fund Subaccount, except as otherwise provided by law.

This bill would, until January 1, 2010, authorize the director, with the approval of the Adjutant General, to complete a lease to the City of Lynwood at fair market value, of specified state-owned property known as the Lynwood Armory. The bill would specify a 5-year term for the lease and would authorize renewal of the lease or other lease agreements

of the Lynwood Armory for a total term not to exceed 25 additional years. The bill would, notwithstanding the requirement for payment of lease proceeds into the Deficit Recovery Bond Retirement Sinking Fund Subaccount, require the proceeds of the lease to be deposited into the Armory Fund pursuant to a specified provision of law.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 652 (AB 916) Niello School facilities construction: Twin Rivers Unified School District.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires the State Allocation Board to allocate to applicant school districts prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition. The act requires an applicant school district for new construction to submit to the board a one-time report of existing school building capacity that is to be calculated pursuant to a specified formula, and requires ongoing eligibility for new construction funding to be determined by completing a series of calculations based on projected enrollment compared to existing school building capacity. A school district newly formed, reorganized, or affected by reorganization, pursuant to an election that occurred on or after November 4, 1998, is required to calculate or recalculate its existing school building capacity pursuant to regulations adopted by the State Allocation Board.

This bill would authorize the Twin Rivers Unified School District to occupy a portion of the East Natomas Education Complex project without jeopardizing its future eligibility for funding for purposes of constructing and housing up to 1,000 unhoused pupils within the middle school of the East Natomas Education Complex project, pursuant to the Leroy F. Greene School Facilities Act of 1998. The bill would establish a procedure for the nullification of the authority granted under the bill through the submission of a resolution of the governing board of the district to the State Allocation Board.

This bill would state findings and declarations of the Legislature regarding the need for special legislation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 653 (AB 1062) Ma School facilities: uniform standards: solar design plans.

Existing law requires, except for certain specified circumstances, the Department of General Services to supervise the design and construction of any school building or the reconstruction or alteration of, or addition to, any school building to ensure that the plans and specifications comply with the rules and regulations adopted by the department and the applicable requirements of the California Building Standards Code.

This bill would require the Division of the State Architect in the Department of General Services, on or before January 1, 2010, to develop uniform criteria for precheck approval processes for solar design plans for a school facility that comply with the rules and regulations adopted by the department and the applicable requirements of the California Building Standards Code. The Department of General Services would be required to complete review of solar design plan applications submitted by a school district that conform with the standards within 45 calendar days of the receipt of a complete application and to act on corrected complete applications within 10 calendar days of their submission for approval.

Ch. 654 (AB 1088) Carter Surplus line brokers: taxation.

Existing law provides that every surplus line broker shall annually pay to the commissioner a tax of 3% of the gross premiums less return premiums upon business done by him or her during the preceding calendar year, excluding premiums for specified business.

This bill would also exempt the risk finance portion of any blended finite risk product used in the financing element of state or federal Superfund environmental settlements, as specified, from the 3% gross premium tax on surplus line brokers.

This bill would take effect immediately as a tax levy.

Ch. 655 (AB 1163) Krekorian Adult education.

Existing law authorizes the Superintendent of Public Instruction to approve plans for adult education innovation and alternative instructional delivery for school districts making an application that demonstrate how the needs of adults will be addressed by various programs. Existing law authorizes school districts that are approved to implement adult education demonstration programs to expend up to 5% of their adult block entitlement for implementation of those programs.

This bill would instead authorize school districts to claim and expend up to 5% of their adult block entitlement for those programs and more than 5%, but no more than 15%, of its adult block entitlement if the program is approved by the Superintendent under the bill. The bill would require a school district to maintain specified accountability mechanisms for those programs, including maintaining documentation of the hours of student attendance required for apportionment purposes. The bill would require an application for adult education innovation and alternative instructional delivery to include specified information, including the methods of maintaining course and student data, and the specific instructional resources that are available to students to complete course requirements.

Ch. 656 (AB 1225) DeSaulnier Ocean resources: California Ocean Protection Trust Fund.

Existing law establishes the California Ocean Protection Trust Fund in the State Treasury. Moneys deposited in the fund, upon appropriation by the Legislature, are authorized to be expended for specified projects and activities and, upon authorization of the Ocean Protection Council, for grants, specified loans, or direct expenditures on projects or activities that take specified actions.

This bill would include within the council's grant and loan authority, projects to provide funding for adaptive management, planning, coordination, monitoring, research, and other necessary activities to minimize the adverse impacts of climate change on California's ocean ecosystem. The bill would require, as appropriate, that the information or activities developed under these projects be used to provide guidance to the State Air Resources Board on the adoption of early action measures relating to greenhouse gas emissions.

Ch. 657 (AB 1358) Leno Planning: circulation element: transportation.

(1) Existing law requires the legislative body of each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city with specified elements, including a circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, any military airports and ports, and other local public utilities and facilities, all correlated with the land use element of the plan.

This bill would require, commencing January 1, 2011, that the legislative body of a city or county, upon any substantive revision of the circulation element of the general plan, modify the circulation element to plan for a balanced, multimodal transportation network that meets the needs of all users of streets, roads, and highways, defined to include motorists, pedestrians, bicyclists, children, persons with disabilities, seniors, movers of commercial goods, and users of public transportation, in a manner that is suitable to the rural, suburban, or urban context of the general plan. By requiring new duties of local officials, this bill would impose a state-mandated local program.

(2) Existing law establishes in the Office of the Governor the Office of Planning and Research with duties that include developing and adopting guidelines for the preparation of and content of mandatory elements required in city and county general plans.

This bill would require the office, commencing January 1, 2009, and no later than January 1, 2014, upon the next revision of these guidelines, to prepare or amend guidelines for a

legislative body to accommodate the safe and convenient travel of users of streets, roads, and highways in a manner that is suitable to the rural, suburban, or urban context of the general plan, and in doing so to consider how appropriate accommodation varies depending on its transportation and land use context. It would authorize the office, in developing these guidelines, to consult with leading transportation experts, including, but not limited to, bicycle transportation planners, pedestrian planners, public transportation planners, local air quality management districts, and disability and senior mobility planners.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 658 (AB 1510) Plescia Subdivision Map Act: exemptions.

Existing law exempts from the requirements of the Subdivision Map Act specified types of property, including, among others, mineral, oil, or gas leases, land dedicated for cemetery purposes, and boundary line or exchange agreements to which the State Lands Commission or a local agency holding a trust grant of tide and submerged lands is a party.

This bill would also exempt from the requirements of the Subdivision Map Act the leasing of, or the granting of an easement to, a parcel of land or any portion of the land, in conjunction with the financing, erection, and sale or lease of a solar electrical generation device on the land, if the project is subject to review under other local agency ordinances regulating design and improvement or if the project is subject to discretionary action by the advisory agency or legislative body.

This bill would also exempt from the requirements of the Subdivision Map Act the leasing of, or the granting of an easement to, a parcel of land or any portion of the land, in conjunction with a biogas project that utilizes, as part of its operation, agricultural waste or byproducts from the land where the project is located and reduces overall emissions of greenhouse gases from agricultural operations on the land, if the project is subject to review under other local agency ordinances regulating design and improvement or if the project is subject to discretionary action by the advisory agency or legislative body.

Ch. 659 (AB 1859) Adams Theft: fire hydrant parts.

(1) Existing law provides that every person who buys or receives any property that has been stolen or that has been obtained in any manner constituting theft or extortion, knowing the property to be so stolen or obtained, or who conceals, sells, withholds, or aids in concealing, selling, or withholding any property from the owner, knowing the property to be so stolen or obtained, shall be punished by imprisonment in the state prison, or in a county jail for not more than one year.

This bill would specifically provide that any person who buys or receives, for purposes of salvage, any part of a fire hydrant or fire department connection that has been stolen or obtained in any manner constituting theft or extortion, knowing the property to be so stolen or obtained, shall, in addition to any other penalty provided by law, be subject to a criminal fine of not more than \$3,000. By creating a new crime, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 660 (AB 1871) Coto Teacher credentialing: English language development and bilingual-cross-cultural competence.

Existing law authorizes the Commission on Teacher Credentialing to issue certificates of English language development and bilingual-cross-cultural competence to specified holders of credentials who will be serving limited-English-proficient pupils.

This bill would instead authorize the commission to issue authorizations to those credentialholders.

Existing law requires candidates for the certificate to demonstrate the knowledge and skills required for the certificate by oral and written examination.

This bill would instead require candidates for the bilingual-cross-cultural competence to demonstrate the knowledge, skills, and language proficiency required for the authorization, and would also authorize candidates to demonstrate those abilities by completing an approved program that consists of coursework or a combination of coursework and examinations.

Ch. 661 (AB 1889) Berg School districts: four-day school week.

Existing law authorizes the Pacific Unified School District, the Leggett Valley Unified School District, the Reeds Creek Elementary School District, the Death Valley Unified School District, the Borrego Springs Unified School District, the Julian Union Elementary School District, the Julian Union High School District, and the Warner Unified School District to operate one or more schools in each district on a 4-day school week, if the school district complies with specified requirements, including instructional time requirements. Schools in the Death Valley Unified School District and certain school districts in San Diego County that operate on a 4-day school week are required to achieve their Academic Performance Index (API) growth targets in order to maintain the authority to operate on a 4-day school week, as specified. Existing law requires the Superintendent of Public Instruction to reduce the base revenue limit per unit of average daily attendance of a school district that operates one or more schools in its district on a 4-day school week and provides fewer than 180 days of instruction, as specified.

This bill would extend that authorization and those requirements, including that participating schools achieve their API growth targets in order to maintain the authorization, to the Potter Valley Community Unified School District, beginning in the 2009–10 fiscal year. The bill would also authorize the State Board of Education to waive 5-consecutive-day operating requirements for preschools, before and after school programs, independent study programs, child nutrition and food service programs, community day schools, regional occupational centers or programs, and continuation high schools operating on a 4-day week pursuant to the bill, provided that the district meets the minimum time requirement for each program. The bill would require the district to submit a report containing specified information to the State Department of Education, the Senate Committee on Education, and the Assembly Committee on Education on January 15, 2014, if the district operates one or more schools on a 4-day school week. The bill would repeal these provisions on January 1, 2015.

This bill would declare that, due to the unique circumstances applicable to the Potter Valley Community Unified School District, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and the enactment of a special statute is therefore necessary.

Ch. 662 (AB 1974) Nava State property: sale or exchange.

Existing law authorizes the Director of General Services, with the approval of the State Public Works Board and the Director of Parks and Recreation, to sell or exchange certain real property, as specified, including a parcel consisting of a portion of San Buenaventura State Beach. Under existing law, that parcel shall be transferred on the condition that it be used only for public recreational purposes. Existing law authorizes the state to reenter the property if that condition is breached.

This bill would authorize the City of Ventura, upon approval by the Director of Parks and Recreation, to exchange with a private party a portion of the parcel conveyed to the city pursuant to those provisions for an adjacent parcel of equal or greater fair market value. The bill would terminate the public recreational use condition and the state's right of reentry with respect to the property conveyed to the private party and would apply that condition and right of reentry to the property conveyed to the city.

Ch. 663 (AB 1981) Huff Surplus property: Chino Valley Unified School District.

Existing law authorizes a school district to enter into a joint-use agreement with another governmental entity that includes some or all of the territory of the district, for specified purposes.

Existing law vests the Department of General Services with certain duties with respect to the disposition of certain state property that has been transferred to local agencies under specified conditions.

This bill would authorize the Chino Valley Unified School District to transfer specified surplus property owned by the school district to the City of Chino Hills, in the County of San Bernardino, upon payment to the district by the city and the execution of an agreement between the school district and the city for development of the property into a park. This bill would require the district to remit a specified sum to the State Allocation Board. This bill further would require the property to revert to the state if the use of the property changes to a use that is not consistent with parks and recreation purposes, unless specified conditions are met.

This bill would state findings and declarations of the Legislature regarding the need for special legislation.

Ch. 664 (AB 2016) Committee on Housing and Community Development Housing omnibus bill.

(1) The Planning and Zoning Law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. Existing law requires that the housing element identify the existing and projected housing needs of all economic segments of the community. In the proposed final allocation plan of regional housing needs, the council of governments or delegate subregion, as applicable, is required to adjust allocations to local governments based upon the results of a specified appeals process.

This bill, additionally, would require the council of governments or delegate subregion, as applicable, to adjust allocations of regional housing needs in the proposed final allocation plan based upon the results of a specified revision request process.

(2) Existing law, the Budget Act of 2007, provides for the appropriation of moneys, as specified, from the Emergency Housing and Assistance Fund to the Department of Housing and Community Development for, among other things, operating facilities and capital development programs.

This bill would include those provisions in the Emergency Housing and Assistance Program, as specified.

(3) The Mobilehomes-Manufactured Housing Act of 1980 requires the Department of Housing and Community Development to enforce various laws pertaining to the structural, fire safety, plumbing, heat-producing, or electrical systems and installations or equipment of a manufactured home, mobilehome, special purpose commercial coach, or commercial coach. Any person who knowingly violates any provision of this act is guilty of a misdemeanor.

This bill would include multifamily manufactured homes within these provisions. The bill also would provide that any person who is required to file an application for an alteration or conversion of the structural, fire safety, plumbing, heat-producing, or electrical systems and installations or equipment of a manufactured home, mobilehome, multifamily manufactured

home, special purpose commercial modular, or commercial modular, and who fails to do so, would be required to pay double the application fees, as specified, or, for subsequent failures to file within a 5-year period, pay 10 times the application fee, as specified. By creating a new crime or expanding an existing crime, this bill would impose a state-mandated local program.

This bill would allow the replacement of appliances for comfort heating in manufactured homes, mobilehomes, or multifamily manufactured homes with fuel-gas appliances for comfort heating not specifically listed for use in a manufactured home or mobilehome.

(4) This bill would delete obsolete provisions, correct erroneous cross-references, and make various other, technical changes in existing law relating to housing and local land use planning.

(5) This bill would provide that certain of its provisions would become operative only if SB 375 of the 2007–08 Regular Session is not enacted.

(6) This bill would incorporate additional changes in Section 18031.7 of the Health and Safety Code, proposed by AB 2050, to be operative only if AB 2050 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 665 (AB 2020) Fuentes Residential property contracts: liquidated damages.

Existing law provides that a provision in a contract to purchase and sell residential property that provides that all or any part of a payment made by the buyer shall constitute liquidated damages to the seller upon the buyer's failure to complete the purchase of the property is valid to the extent that payment in the form of cash or check, including a postdated check, is actually made if the provision meets specified requirements. In certain circumstances involving the sale of an attached residential condominium unit located within a structure of 10 or more residential condominium units, as specified, the seller is required to perform an accounting of its costs and revenues, as specified. Existing law also provides for what must be taken into account when determining the reasonableness of an amount actually paid as liquidated damages in the event of a buyer's default in one of those sales.

Until July 1, 2014, this bill would require the seller to perform an accounting in certain circumstances involving the sale of an attached residential condominium located within a structure of 20 or more residential condominium units, standing over 8 stories high, that is high-density infill development, as specified, when the purchase price is greater than \$1,000,000. The bill would provide for the annual adjustment of that minimum purchase price. The bill would also require the seller to give notice to the buyer of those provisions, as specified. This bill would also provide for what must be taken into account when determining the reasonableness of an amount actually paid as liquidated damages in the event of a buyer's default in one of those sales. The bill would also make technical, nonsubstantive changes to those provisions.

#### Ch. 666 (AB 2040) Nunez High school exit examination.

Existing law requires the Superintendent of Public Instruction, with the approval of the State Board of Education, to develop a high school exit examination in English language arts and mathematics in accordance with state academic content standards. Each pupil completing grade 12 is required to successfully pass the high school exit examination as a condition of receiving a diploma of graduation or graduation from high school.

Existing law, until December 31, 2007, requires a school district or state special school to grant a high school diploma to a pupil with a disability who is scheduled to graduate from high school in 2007, has not passed the high school exit examination, has not received a high school exit examination waiver, and meets other specified criteria. A school district or state special school that fails to grant a high school diploma to that pupil is required to submit

certain documentation to the state board within 15 days after its determination that the pupil does not meet the specified criteria, and requires the state board to review that failure to grant a high school diploma, as provided. The state board is authorized to direct the school district or state special school to grant a high school diploma to the pupil if the state board finds that the pupil meets the specified criteria. The school district or state special school also is required to report to the Superintendent certain information, including the number of pupils granted diplomas in this manner.

The bill would require the Superintendent to recommend, and the state board to select, members of a panel composed as specified, to make recommendations regarding alternative means for eligible pupils with disabilities to demonstrate that they have achieved the same level of academic achievement in the content standards in English language arts or mathematics, or both, required for passage of the high school exit examination, and would require the state board by October 1, 2010, to adopt regulations, taking into consideration the recommendations of the panel, for alternative means for pupils with disabilities to demonstrate that they have achieved the same level of academic achievement required for passage of the high school exit examination, as specified. Commencing January 1, 2011, an eligible pupil with a disability, as defined, would be authorized to participate in the alternative means of demonstrating the level of academic achievement in the content standards required for passage of the high school exit examination and would be deemed to have satisfied the requirement to successfully pass the parts of the high school exit examination that he or she has not otherwise passed if the school district is notified that the pupil has successfully made this demonstration.

This bill also would provide that funds appropriated in the Budget Act, as specified, shall be allocated by the Superintendent to support the work of the panel and to implement these provisions.

Ch. 667 (AB 2065) Hancock Invasive aquatic species: dreissenid mussels.

Existing law, until January 1, 2012, generally prohibits a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water within the state, dreissenid mussels, and authorizes the Director of Fish and Game or his or her designee to engage in various enforcement activities. Existing law exempts a public or private agency that operates a water supply system from those enforcement activities, if the operator of the facilities has prepared and implemented a prescribed plan to control or eradicate dreissenid mussels.

This bill would require any person, or federal, state, or local agency, district, or authority, that owns or manages a reservoir, as defined, where certain recreational activities are permitted, except a privately owned reservoir that is not open to the public, to assess the vulnerability of the reservoir for the introduction of nonnative dreissenid mussel species and to develop and implement a program designed to prevent the introduction of that species. The bill would require visual monitoring at certain reservoirs where those activities are not permitted. The bill would make violations of its provisions subject to a civil penalty of \$1,000 per violation, imposed administratively by the department. These provisions would not apply to a reservoir in which nonnative dreissenid mussels have been detected.

Ch. 668 (AB 2158) Soto State employees' health benefits: bloodborne diseases.

Existing law provides various health benefits for state employees and annuitants. Existing law holds the state liable for payment of workers' compensation, including medical treatment, for injuries incurred by state employees that arise out of or in the course of employment.

This bill would provide, on and after July 1, 2009, that if a correctional officer who was injured as a result of an incident at a state prison and who retired from state employment and sustained an injury as the result of a work-related event that arose out of and in the course of his or her official duties as a correctional officer at a state prison, before January 1, 1984,

and that meets a specified definition of a bloodborne infectious disease, and a dependent, as defined, or former dependent, as defined, of that person contracts the bloodborne disease, which was diagnosed on or after January 1, 1990, from that person, the dependent or former dependent may receive health care benefits sufficient to cover all medically necessary health care costs associated with the disease, for the duration of the disease. The bill would require the state to contribute the cost of providing that benefit coverage from the General Fund, upon appropriation by the Legislature. The bill would also provide that a person who elects to receive these benefits would be prohibited from bringing a civil action against the state for damages related to contracting the disease. The bill would also specify that a dependent or former dependent who does not elect to receive these benefits may pursue all civil remedies allowed by law and is not subject to a defense that the claim is barred by these provisions. The bill would require the Board of Directors of the State Compensation Insurance Fund to administer this benefit.

Ch. 669 (AB 2211) Karnette State Highway Route 110.

Existing law provides the Department of Transportation full possession and control of all state highways. Existing law establishes State Highway Route 110 from 47th Street in San Pedro to Glenarm Street in Pasadena.

This bill would provide that State Highway Route 110 is from 9th Street in San Pedro to Glenarm Street in Pasadena and would provide for the relinquishment of a portion of State Highway Route 110 to the City of Los Angeles under specified conditions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 670 (AB 2222) Caballero Groundwater quality: monitoring.

The Groundwater Quality Monitoring Act of 2001 requires the State Water Resources Control Board to integrate existing monitoring programs and design new program elements, as necessary, to establish a comprehensive monitoring program capable of assessing each groundwater basin in the state through direct and other statistically reliable sampling approaches.

This bill would require the state board, on or before June 1, 2009, to identify and recommend to the Legislature funding options to extend the comprehensive monitoring program until January 1, 2024, and make recommendations to enhance public accessibility of information on groundwater conditions. The bill would require the state board, on or before January 1, 2012, in consultation with specified agencies, to submit to the Legislature a prescribed report. The bill would require the state board to provide an opportunity for public comment prior to finalizing the report and submitting it to the Legislature.

Ch. 671 (AB 2261) Ruskin Community colleges: open education resources centers.

Existing law establishes the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as one of the segments of public postsecondary education in this state. Existing law establishes community college districts throughout the state, and authorizes these districts to provide instruction to students at community college campuses.

This bill would express findings and declarations of the Legislature relating to open education resources, as defined. The bill would authorize the board of governors to establish a pilot program to provide faculty and staff from community college districts around the state with the information, methods, and instructional materials to establish open education resources centers. The bill would define open education resources for its purposes. The bill would specify that a lead community college district be selected from community college district applicants based upon a demonstration of its ability to accomplish specified objectives. The bill would require participating districts to report program information to the Chancellor's office of the California Community Colleges, who would be required to report

the findings to the Governor and the Legislature on or before January 1, 2012. The bill would specify that no additional state appropriation may be requested or provided for purposes of this act.

The bill would repeal these provisions on January 1, 2012.

Ch. 672 (AB 2272) Fuentes Vehicles: motorcycles.

(1) Existing law defines the word “motorcycle” for purposes of the Vehicle Code as a motor vehicle that, among other things, weighs less than 1,500 pounds or, if electrically powered, weighs less than 2,500 pounds and has a maximum speed of 45 miles per hour.

This bill would delete the weight limitation from the definition of “motorcycle” and would delete the separate definition for electrically powered motorcycles. Because this definitional change would expand the number of motor vehicles that would be classified as motorcycles, this bill would expand the scope of crimes governing the operation of motorcycles, thereby imposing a state-mandated local program.

(2) Existing law prohibits a driver of a fully enclosed 3-wheeled motor vehicle from operating the vehicle in a lane established as an exclusive or preferential use lane for high-occupancy vehicles.

This bill would delete that restriction.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 673 (AB 2300) Laird School lunch and breakfast programs: direct certification.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which eligible low-income individuals receive basic health care services.

Existing law, operative upon receipt of federal funds to assist the state in implementing new direct certification for enrollment in the National School Lunch and School Breakfast Programs, separately requires the State Department of Education to create a computerized data-matching system to directly certify recipients of the Food Stamp Program, the CalWORKs program, and other programs authorized for direct certification under federal law, for enrollment in the National School Lunch and School Breakfast Programs. Medi-Cal benefits, however, are not included within the criteria for direct certification specified in federal law.

This bill would delete provisions regarding the inclusion of Medi-Cal benefits within the criteria for direct certification specified in federal law. The bill would permit the State Department of Education, in consultation with the State Department of Health Care Services, to the extent permitted under federal law, and upon the receipt of federal funds for this purpose, to directly certify children into the school meal program.

Existing law, subject to certain exceptions, requires all types of information concerning a person, made or kept by any public officer or agency in connection with the administration of the Medi-Cal program, to be confidential.

This bill would create an exception to this provision by authorizing the State Department of Health Care Services, in coordination with the State Department of Education, and upon the availability of federal funds and to the extent permitted under federal law, to exercise an option under federal law to exchange the information necessary to perform direct verification of eligibility of children for free or reduced price meals. The bill would also authorize the State Department of Health Care Services, upon the availability of federal funds and to the extent permitted by federal law, to exchange the necessary information to perform direct verification of eligibility of children for, and to perform direct certification for enrolling children to receive, free or reduced price meals, as provided. This bill would authorize, to the

extent permitted by state and federal law, the State Department of Health Care Services and the State Department of Education to review the data only for the purposes of improving the effectiveness of the data matches made pursuant to certifying children to receive free or reduced price meals.

Ch. 674 (AB 2319) Horton Identification cards: renewal by mail.

Existing law requires the Department of Motor Vehicles, upon proper applications, to issue driver's licenses and identification cards. Existing law authorizes the Director of Motor Vehicles to establish a program to renew driver's licenses by mail, as specified.

Existing federal law requires that state drivers' licenses and state identification cards meet specified requirements in order to comply with federal standards for homeland security. Existing state law requires the director to establish programs to ensure that California complies with any federal requirements applicable to driver's licenses and identification cards.

This bill would require the director to establish by January 1, 2011, a specified program that permits the renewal of identification cards by mail or through the department's Internet Web site.

Ch. 675 (AB 2423) Bass Professions and vocations: licensure.

Existing law provides for the licensure, registration, and regulation of various professions and vocations by boards and bureaus, including, but not limited to, the Board of Vocational Nursing and Psychiatric Technicians of the State of California, the Veterinary Medical Board, the State Board of Barbering and Cosmetology, the Structural Pest Control Board, the Bureau of Security and Investigative Services, and the Bureau of Automotive Repair, within the Department of Consumer Affairs.

Existing law authorizes a board to deny licensure on certain bases, including an applicant's conviction of a crime substantially related to the qualifications, functions, or duties of the licensed business or profession, regardless of whether the conviction has been dismissed on specified grounds; an applicant's performance of any act involving dishonesty, fraud, or deceit with the intent to substantially benefit himself or herself or another or to substantially injure another; or an applicant's performance of any act that would be grounds for suspension or revocation of the license. Existing law provides that no person shall be denied a license solely on the basis that he or she has been convicted of a felony, if he or she has obtained a specified certificate of rehabilitation, or that he or she has been convicted of a misdemeanor, if he or she has met certain rehabilitation requirements. Existing law requires a board that denies an application for licensure to either file and serve a statement of issues or provide the applicant with certain information upon doing so. Existing law authorizes a board to suspend or revoke a license on the basis that a licensee has been convicted of a crime that is substantially related to the qualifications, functions, or duties of the licensed business or profession, regardless of whether the conviction has been dismissed on specified grounds, and requires the board to provide the ex-licensee with certain information upon doing so. Existing law also authorizes the Board of Vocational Nursing and Psychiatric Technicians of the State of California and the State Board of Barbering and Cosmetology to issue a probationary license to an applicant who meets specified requirements and conditions. Existing law also authorizes the State Board of Barbering and Cosmetology to revoke, suspend, or deny a license at any time on any of the grounds for disciplinary action and, upon the denial of a license, requires the board to provide a specified statement of reasons for the denial.

This bill would authorize the Veterinary Medical Board, with respect to registered veterinary technicians, the Structural Pest Control Board, and the Director of Consumer Affairs, with respect to licensed private investigators and registered automotive repair dealers, to issue or grant a probationary license or registration to an applicant subject to specified terms and conditions. The bill would require these boards, the Board of Vocational

Nursing and Psychiatric Technicians of the State of California, the State Board of Barbering and Cosmetology, and the director, when considering the issuance or granting of a probationary license or registration, to request that an applicant with a dismissed conviction provide proof of that dismissal and would require that special consideration be given to applicants whose convictions have been dismissed, as specified. The bill would require the boards and the director to develop standard terms of probation, as specified. The bill would also authorize these boards and the director to revoke, suspend, or deny a license or registration at any time on any of the grounds for disciplinary action and, upon the denial of a license or registration, would require these boards and the director to provide a specified statement of reasons for a denial and, if applicable on or after July 1, 2009, a copy of the applicant's criminal history record if the applicant makes a specified written request for it.

The bill would provide that its provisions relating to the Veterinary Medical Board shall become operative only if SB 1584 of the 2007–08 Regular Session is also enacted and becomes operative.

Ch. 676 (AB 2470) Karnette Crimes: weapons.

Existing law, subject to exception, provides that any person who brings or possesses, among other things, any instrument that expels a metallic projectile such as a BB or pellet through the force of air pressure, CO<sub>2</sub> pressure, or spring action, upon the grounds of, or within, any public or private school providing instruction in kindergarten or any of grades 1 to 12, inclusive, is guilty of a public offense, punishable by imprisonment in a county jail not exceeding one year, or by imprisonment in the state prison.

This bill would expand the above prohibition on weapons to make it a misdemeanor to bring or possess a less lethal weapon or stun gun, as defined, upon the grounds of or within a public or private college or university.

Existing law makes it a crime for a person to openly display or expose any imitation firearm in a public place, except in specified circumstances. Existing law defines, for purposes of this provision, "public place" to mean an area open to the public and includes streets, sidewalks, bridges, alleys, plazas, parks, driveways, front yards, parking lots, automobiles, whether moving or not, and buildings open to the general public, including those that serve food or drink, or provide entertainment, and the doorways and entrances to buildings or dwellings.

This bill would expand this definition to include a public or private college or university. By changing the scope of existing crimes, the bill would impose a state-mandated local program.

This bill would incorporate additional changes to Section 12556 of the Penal Code proposed by AB 352, to become operative only under circumstances specified in the bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 677 (AB 2522) Arambula San Joaquin Valley Unified Air Pollution Control District.

Existing law authorizes air pollution control districts and air quality management districts, except as provided, to levy a fee of up to \$2 on motor vehicles, and authorizes the districts to increase this fee to up to \$6 if certain conditions are met.

This bill would authorize the San Joaquin Valley Unified Air Pollution Control District to increase this fee to up to, but not exceeding, \$30 for incentive-based programs to achieve surplus emissions reductions, as specified. The bill would require the state board to assess the use of these fees in achieving and maintaining state and federal ambient air quality standards.

The bill would authorize the San Joaquin Valley district to adopt rules and regulations to reduce vehicle trips in order to reduce air pollution from vehicular sources.

**Ch. 678 (AB 2537) Furutani Public works: volunteers.**

Existing law defines “public works,” for purposes of regulating public works contracts, as, among other things, construction, alteration, demolition, installation, or repair work that is performed under contract and paid for in whole or in part out of public funds. Pursuant to existing law, all workers employed on public works shall be paid not less than the general prevailing rate of per diem wages for work, except for public works projects of \$1,000 or less, or except for any work performed, on or after January 1, 2002, and until January 1, 2009, by a volunteer, a volunteer coordinator, or by members of the California Conservation Corps or of certified Community Conservation Corps, as defined.

This bill would extend, until January 1, 2012, the exclusion from the application of the law governing “public works,” any work performed by a volunteer, a volunteer coordinator, or by members of the California Conservation Corps or of certified Community Conservation Corps, as defined.

This bill would require the Director of Industrial Relations to submit a written report containing information regarding volunteers on public works projects, as specified, to the Legislature by January 1, 2011. The costs incurred in the preparation of this report would be funded by moneys in the Environmental License Plate Fund. By authorizing the expenditure of moneys from this fund, the bill would make an appropriation.

This bill also would state legislative findings and declarations regarding the intent of the bill.

**Ch. 679 (AB 2592) Ma Locksmiths.**

Existing law provides for the licensure and regulation of locksmiths and the registration of employees of locksmiths by the Bureau of Security and Investigative Services in the Department of Consumer Affairs. Under existing law, the bureau is under the supervision and control of the Director of Consumer Affairs. Existing law also requires the Governor to appoint a chief to serve under the direction and supervision of the director. Existing law makes it a misdemeanor for any person to violate the locksmith provisions.

Existing law exempts from licensure or registration as a locksmith or employee of a locksmith certain individuals and practices.

This bill would modify and expand those exemptions, as specified.

Existing law requires a licensee or registrant to carry and display a pocket identification or registration card, issued by the chief, while engaged in the work of a locksmith, as specified. Existing law authorizes the bureau to charge a fee sufficient to reimburse the department for furnishing an enhanced pocket registration card, which is composed of durable material, or a pocket identification card.

This bill would require a partner or officer of a licensee to carry a pocket identification card. In addition, the bill would require a licensee, registrant, or partner or officer of a licensee to also carry and display a valid driver’s license or valid identification card issued by the Department of Motor Vehicles, as specified.

Existing law requires branch offices of licensed locksmiths to be registered with the bureau.

This bill would revise the definition of branch office and would require each locksmith license to be conspicuously displayed at each branch office and in each mobile service vehicle, as defined, for which the license is issued. The bill would authorize the director to assess a \$250 fine for violation of that requirement.

Existing law requires a licensee to notify the bureau of any change in its officers or the addition of new partners, and requires applications to be submitted for those officers and partners. A 2nd or subsequent violation of this requirement is subject to a fine of \$25.

This bill would increase that fine to \$500.

Existing law requires advertisements by a locksmith to contain the locksmith’s address, as specified.

This bill would define “advertisement” for that purpose and require each advertisement to contain certain additional information, and would authorize the director to assess fines for violations of those requirements.

Existing law makes it a misdemeanor, punishable by a fine of \$1,000 or imprisonment in a county jail, as specified, or both that fine and imprisonment, for any unlicensed or unregistered person to engage in certain acts relating to the locksmith business. Existing law also makes it a misdemeanor to violate or conspire to violate any of the provisions governing locksmiths.

This bill would revise and recast those provisions and would increase the fine for violations of those provisions to \$10,000. The bill would authorize the issuance of an injunction by a court and imposition of civil fines, as specified. The bill would prohibit the issuance of licenses to persons convicted of specified violations for certain periods of time and would also prohibit a locksmith from duplicating a key in certain circumstances.

The bill would enact other related provisions.

Because a violation of the requirements and prohibitions created by this bill would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 680 (AB 2599) De Leon Birth Defects Monitoring Program.

Existing law establishes the Birth Defects Monitoring Program within the State Department of Public Health, and requires the department to provide any umbilical cord blood samples it receives from hospitals to the program for storage and research.

This bill would also require that the program collect any umbilical cord blood samples it receives from hospitals for storage and research.

Existing law requires the department to charge a fee for prenatal screening to support the pregnancy blood sample storage, testing, and research activities of the program, with the revenues from those fees required to be deposited into the Birth Defects Monitoring Program Fund, and made available, upon appropriation by the Legislature, to support the pregnancy blood sample storage, testing, and research activities of the program.

Under existing law, the initial prenatal screening fee increase for activities of the Birth Defects Monitoring Program is \$10.

This bill would, instead, require the prenatal screening fee for these activities to be \$10.

The bill would also require the department to establish guidelines for invoicing, charging, and collecting from approved researchers an amount necessary to cover certain expenses associated with research application requests made pursuant to the above provisions, data linkage, retrieval, data processing, data entry, reinventory, and shipping of blood samples or their components, and related data management.

Existing law provides that when pregnancy blood samples are stored, analyzed, or otherwise shared for research purposes with nondepartmental staff, no information may be released identifying the person from whom the samples were obtained.

This bill would require the department to adopt regulations specifying the protocols and conditions under which blood samples will be released for research purposes, as provided.

Existing law requires the department to establish fees in an amount that does not exceed the costs of administering the Birth Defects Monitoring Program to be collected from researchers and health care providers, and requires that any fees collected pursuant to those provisions be deposited into the Birth Defects Monitoring Program Fund, for use by the department, upon appropriation by the Legislature, for specified purposes related to data management, and the collection, storage, retrieval, and processing of blood samples.

This bill would, instead, require that any fees collected from researchers who have been approved by the department pursuant to those provisions be deposited into the Birth Defects

Monitoring Program Fund, the Genetic Disease Testing Fund, or the Cord Blood Banking Fund, which the bill would create as a special fund in the State Treasury. The bill would require that the amounts of fees deposited in these funds be based on the program providing those samples, and the purpose for which the sample was obtained. The bill, in addition, would provide that the moneys in those funds obtained in those fees may be used by the department, upon appropriation by the Legislature, for costs related to data management, and the collection, storage, retrieval, and processing of those blood samples.

Ch. 681 (AB 2648) Bass Career technical education.

Existing law encourages school districts to provide all pupils with a rigorous academic curriculum that integrates academic and career skills, incorporates applied learning in all disciplines, and prepares all pupils for high school graduation and career entry. Existing law provides for the establishment of various programs for career technical education in the public schools, including, but not limited to, regional occupational centers and programs for the purpose of, among other things, providing pupils with an opportunity to acquire entry-level career technical skills.

This bill would require the Superintendent of Public Instruction to develop, in conjunction with the Office of the Secretary for Education, the community colleges, the University of California, the California State University, the Legislature, the Employment Development Department, teachers, chamber organizations, industry representatives, research centers, parents, school administrators, representatives of regional occupational centers and programs, community-based organizations, labor organizations, and others as deemed appropriate by the Superintendent, a report that explores the feasibility of expanding and establishing career multiple pathway programs, as defined, in California. The bill would require that the report include specified components, including, but not limited to, methods for developing and sharing models of integrated curriculum and instruction, strategies for increasing the course options and instructional time for pupils in high school, and recommendations for supporting regional coalitions in planning and developing the programs. The bill would authorize the Superintendent to use existing state resources and federal funds to complete the report. If state or federal funds are not available or sufficient, the bill would authorize the Superintendent to apply for and accept grants and receive donations, and other financial support from public or private sources. The bill would require the Superintendent to report to the Legislature as to the status of completing the report, and any preliminary recommendations, by July 1, 2009. The Superintendent would be required to submit a final report with recommendations to the Legislature by December 1, 2009.

Ch. 682 (AB 2654) Laird Discrimination.

(1) Existing law provides that the purpose of certain provisions regarding human relations is to promote the establishment in counties and cities and counties throughout the state of commissions designed to foster peaceful relations in the interest of preserving the public peace among citizens of different races, religions, and national origins.

This bill would provide that the purpose of those provisions is to promote the establishment of commissions designed to foster peaceful relations in the interest of preserving the public peace among residents. This bill would add ethnic group identification, age, sex, sexual orientation, color, and disability to the characteristics described above.

(2) Existing law allows local agencies to construct or cause to be constructed rental housing for employees. Existing law requires a local agency to require that contractors and subcontractors engaged in construction financed under these provisions provide equal opportunity for employment, without discrimination as to race, sex, marital status, color, religion, national origin, or ancestry, and requires that all contracts and subcontracts for construction financed under this chapter be let without discrimination as to race, sex, marital status, color, religion, national origin, or ancestry.

This bill would, instead, require a local agency to require that the above contractors and subcontractors provide equal opportunity for employment, without discrimination as to marital status, race, national origin, age, sex, sexual orientation, color, medical condition, religious creed, ancestry, mental disability, or physical disability. By increasing duties of local agencies, this bill would impose a state-mandated local program.

(3) Existing law prohibits certain property insurers from taking specified actions regarding the issuance or cancellation of insurance under conditions less favorable to the insured than in other comparable cases, except for reasons applicable alike to persons of every marital status, sex, race, color, religion, national origin, or ancestry, and prohibits sex, race, color, religion, national origin, or ancestry from constituting a condition or risk for which a higher rate, premium, or charge may be required of the insured.

This bill would add medical condition, disability, and sexual orientation, as defined, to the characteristics prohibited for use as described above.

(4) Existing law prohibits an application for certain property insurance, or an insurance investigation report furnished by an insurer to its agents or employees for use in determining the insurability of the applicant, from carrying or requiring any identification of the applicant's race, color, religion, national origin, or ancestry.

This bill would, in addition, prohibit an application described above from carrying or requiring any identification of the applicant's medical condition, disability, marital status, or sexual orientation, as defined.

(5) Existing law provides that the ownership or financial control of any domestic, foreign, or alien insurer, by any state of the United States or by a foreign government, shall not restrict the Insurance Commissioner from issuing, renewing, or continuing in effect the license of that insurer to transact insurance, unless the commissioner makes any of specified determinations, including that the insurer is subject to governmental practices that discriminate on the basis of race, color, creed, or national origin.

This bill would delete creed from the above list of characteristics relating to governmental discrimination that the Insurance Commissioner may consider, and would add sex, ancestry, religion, disability, medical condition, marital status, and sexual orientation, as defined, to that list.

(6) Existing law prohibits certain insurers licensed to issue and issuing motor vehicle liability policies, as defined, from taking certain actions regarding the issuance or cancellation of that insurance under conditions less favorable to the insured than in other comparable cases, except for reasons applicable alike to persons of every race, language, color, religion, national origin, ancestry, or the same geographic area, and prohibits race, language, color, religion, national origin, ancestry, or location within a geographic area from constituting a condition or risk for which a higher rate, premium, or charge may be required of the insured.

This bill would, instead, prohibit the above insurers from taking those actions under conditions less favorable to the insured than in other comparable cases, except for reasons applicable alike to persons of every language, sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, sexual orientation, or the same geographic area, and would prohibit language, sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, sexual orientation, or location within a geographic area from constituting a condition or risk for which a higher rate, premium, or charge may be required of the insured.

(7) Existing law prohibits certain surety insurers from failing or refusing to take specified actions regarding performance bonds under conditions less favorable to the obligor than in other comparable cases, except for reasons applicable alike to persons of every race, color, gender, religion, national origin, ancestry, or geographical area, and prohibits race, color, gender, religion, national origin, ancestry, or location within a county, of itself, from constituting a condition or risk for which a greater rate, premium, charge, guaranty, or collateral may be required of the applicant.

This bill would, instead, prohibit those surety insurers from failing or refusing to take the actions described above under conditions less favorable to the obligor than in other comparable cases, except for reasons applicable alike to persons of every sex, race, color, religion, ancestry, national origin, disability, medical condition, marital status, sexual orientation, or geographical area, and would prohibit any of those characteristics, of itself, from constituting a condition or risk for which a greater rate, premium, charge, guaranty, or collateral may be required of the applicant.

(8) Existing law prohibits any workers' compensation insurer, 3rd-party administrator, or other entity seeking certification as a health care organization from taking specified actions regarding contracts because of the race, color, national origin, ancestry, religion, sex, marital status, sexual orientation, or age of any contracting party, prospective contracting party, or person reasonably expected to benefit from that contract as an employee or otherwise.

This bill would add disability and medical condition to those characteristics.

(9) Existing law provides for the appointment of persons by a juvenile court as court-appointed special advocates. Existing law provides that an adult otherwise qualified to act as a court-appointed special advocate shall not be discriminated against based upon sex, socioeconomic, religious, racial, ethnic, or age factors.

This bill would provide, instead, that an adult otherwise qualified to act as a court-appointed special advocate shall not be discriminated against based upon race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, disability, marital status, or socioeconomic factors.

(10) Existing law provides that the purpose of certain provisions of law relating to prepaid health plans is to afford persons eligible to receive certain government-supported medical benefits the opportunity to enroll as regular subscribers in prepaid health plans, without reference to the race, sex, age, religion, creed, color, national origin, or ancestry of any eligible person.

This bill would provide, instead, that the purpose of those provisions is to afford persons eligible to receive certain government-supported medical benefits the opportunity to enroll as regular subscribers in prepaid health plans, without reference to race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, marital status, or disability.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

#### Ch. 683 (AB 2747) Berg End-of-life care.

Existing law provides for the licensure and regulation of health facilities and hospices by the State Department of Public Health. Existing law provides for the regulation and licensing of physicians and surgeons by the Medical Board of California.

This bill would provide that when a health care provider, as defined, makes a diagnosis that a patient has a terminal illness, the health care provider shall, upon the patient's request, provide the patient with comprehensive information and counseling regarding legal end-of-life options, as specified, and provide for the referral or transfer of a patient, as provided, if the patient's health care provider does not wish to comply with the patient's request for information on end-of-life options.

#### Ch. 684 (AB 2754) Bass Public safety personnel: MRSA skin infections.

Existing law establishes a presumption that if certain safety members, firefighters, county probation officers, or members in active law enforcement who have completed 5 years of service under specified pension or retirement systems develop a blood-borne infectious

disease, the disease arises out of, and in the course of, employment. Existing law extends this presumption to blood-borne infectious diseases that occur within 3 calendar months after termination for each year of service, up to 60 months. Existing law requires those who are permanently incapacitated for the performance of duty as a result of a blood-borne infectious disease to receive a service-connected disability retirement.

This bill would expand the scope of this provision to include any methicillin-resistant *Staphylococcus aureus* (MRSA) skin infection. The bill would make the MRSA presumption applicable for up to 90 days after termination of service, and would also make the presumption applicable to any of the above safety members, regardless of service under the pension or retirement systems.

Existing law provides that an injury of an employee arising out of, and in the course of, employment is generally compensable through the workers' compensation system. Existing law provides that, in the case of certain state and local firefighting and law enforcement personnel, the term "injury" includes, among other conditions, any blood-borne infectious disease that develops or manifests itself during a period while the member is in the service of the governmental entity, and establishes a disputable presumption in this regard. Under existing law, the disputable presumption extends after termination of service for 3 months for each calendar year worked, up to 60 months.

This bill would expand the scope of this provision to include any methicillin-resistant *Staphylococcus aureus* skin infection and would make that presumption applicable for up to 90 days after termination of service.

Ch. 685 (AB 2855) Hancock Career technical education: partnership academies: green technology and goods movement.

Existing law provides for the establishment of partnership academies by participating school districts and establishes criteria qualifying pupils in grades 10, 11, and 12 for enrollment in the academies. Existing law establishes the parameters for the Superintendent of Public Instruction to issue a maximum of 155 grants per year to school districts maintaining high schools that meet the partnership academy eligibility requirements.

This bill would establish 2 new categories of partnership academies, the Green Technology Partnership Academies and the Goods Movement Partnership Academies. Commencing with the 2009–10 school year, when funds become available for additional partnership academies, as specified, the Superintendent would be required to issue grants for the establishment of partnership academies in each of the 9 economic regions established by the state, and would be required to give priority to partnership academies dedicated to educating young people in the emerging environmentally sound technologies. The Superintendent would also be required to issue grants for the establishment of partnership academies and give priority to the establishment of partnership academies dedicated to educating young people in goods movement occupational areas until at least one academy is established in each of the 4 transportation corridors established by the state. The selection of school districts to establish the new partnership academies and the planning and development of the new partnership academies would be required to be conducted pursuant to the procedures and requirements established for all partnership academies under existing law. The bill would provide that the funding priorities it creates may be satisfied when the specified number of green technology and goods movement partnership academies are funded, as specified.

The bill, in the event a school district applies to convert an existing school program to one of the new types of partnership academies and meets all the specified criteria for that new partnership academy, would authorize the department, in coordination with the Superintendent, to provide that academy with first-year implementation funds. In order to be eligible for funding for a new type of partnership academy, this bill would require the coursework and internship or preapprenticeship programs of the proposed academy to focus

on the appropriate academy purposes. This bill would require staff development opportunities to be included in the academy plans.

Ch. 686 (AB 2881) Wolk Nuisance: agricultural activity: recovery of defendant's costs: right to farm.

(1) Existing law requires any person who intends to offer subdivided lands within California for sale or lease to file with the Department of Real Estate an application for a public report, consisting of a completed questionnaire and a notice of intention that includes, among other things, a statement that there is an airport in the vicinity, and that this may affect the use of the property. Existing law makes a violation of these provisions a crime.

This bill would require the notice of intention provided as part of an application for a public report, as described above, to contain a specified notice regarding any property that is presently located within one mile of farm or ranch land designated as specified. By changing the definition of a crime, this bill would impose a state-mandated local program.

(2) Existing law limits the liability of a transferor for failing to disclose natural hazards in specified property transactions if the transferor obtains a report or opinion prepared by a licensed engineer, land surveyor, geologist, or expert in natural hazard discovery dealing with matters within the scope of the professional's license or expertise. Existing law conditions this limitation in specified ways, including the requirement that when an expert responds to a request regarding natural hazards, that the expert also determine whether the property is within an airport influence zone and, if so, provide a specified notice with his or her report.

This bill would condition the limitation on liability described above by requiring an expert, when responding to a request regarding natural hazards, to also determine whether the property is presently located within one mile of farm or ranch land designated as specified, and to provide a specified notice in this regard. The bill would also make conforming changes.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 687 (AB 2922) DeSaulnier Air pollution: penalties: fuel containers.

Existing law declares that emissions of air pollutants from motor vehicles are the primary cause of air pollution in many parts of California, and that the state has the responsibility to establish procedures for compliance with standards that control and eliminate those air pollutants. Existing law requires the State Air Resources Board to prescribe maximum air pollution emission standards to be applied in inspecting motor vehicles. Existing law also requires a person who violates any order, rule, or regulation of the state board adopted pursuant to this authority to pay a civil penalty for deposit into the Air Pollution Control Fund, not to exceed \$500 per vehicle.

This bill would set the maximum civil penalty for a violation of these provisions to be an amount not to exceed \$500 per vehicle, portable fuel container, spout, engine, or other unit subject to regulation under these provisions.

Existing law requires the State Air Resources Board to adopt standards and regulations for motor vehicles and off-road or nonvehicle engine categories to control the emissions of air contaminants.

This bill would require the state board to adopt standards for portable fuel containers and spouts. The bill would provide that this provision is declaratory of existing law.

Ch. 688 (SB 61) Runner Castaic Lake Water Agency.

The Castaic Lake Water Agency Law creates the Castaic Lake Water Agency and generally requires the board of that agency to be comprised of 7 elected directors and 4 appointed

directors that are nominated by specified retail water distributors. The agency law requires the term of office of a director appointed by a private water purveyor that is acquired by the agency to terminate, with a certain exception, at 12 o'clock noon on the first Monday after January 1 of the year following the acquisition, and, subject to that exception, provides for the election of the successor to that director by agency voters at the statewide general election held in November of the even-numbered year following the acquisition. The agency law requires the successor to hold that office for the term of 2 years and each director elected thereafter to that office to hold that office for the term of 4 years.

This bill, instead, would require the successor to hold that office for the term of 4 years. The bill would make other technical nonsubstantive changes to obsolete provisions of law.

Ch. 689 (AB 2945) Laird State parks and wilderness areas.

Existing law, the California Wilderness Act, establishes a California wilderness preservation system composed of state-owned areas designated by the Legislature as wilderness areas and units of the state park system classified as state wildernesses by the State Park and Recreation Commission. The act designates specified state wilderness areas and requires a state agency with jurisdiction over an area designated as a wilderness area to be responsible for preserving the wilderness character of that area. The act prohibits the presence of a commercial enterprise or permanent road within a wilderness area, except as necessary in specified emergencies. The act generally prohibits, among other things, the presence of temporary roads, the use of motorized vehicles, motorized equipment, and motorized transport within a wilderness area and authorizes the state agency with jurisdiction over the area to take measures necessary for the control of fire, insects, and diseases. The act also defines various terms for purposes of the act.

This bill would define "minimum management requirements" and "minimum tool" for purposes of the act. The bill would repeal the above exception to the presence of commercial enterprises or permanent roads within a wilderness area, and would, instead, authorize the presence of temporary roads, the use of motorized vehicles, motorized equipment, and motorized transport within a wilderness area when necessary in specified emergencies or when it is the minimum tool necessary to meet the minimum management requirements. The bill would authorize a state agency having jurisdiction over a wilderness area to authorize measures to address environmental damage or degradation affecting wilderness character and resources if those measures are consistent with the minimum management requirements and only the minimum tools are used. The bill would require guidelines for the determination of the minimum management requirements and the minimum tool to be adopted by regulation.

The bill would add Limekiln State Wilderness to the designated wilderness areas and would provide that the California Coastal Trail may be located, designed, constructed, or operated within the Limekiln State Wilderness.

The bill also would make technical, nonsubstantive changes in those provisions.

Assembly Bill 1781, as proposed by Conference Report No. 1 on July 17, 2008, would make appropriations for the support of state government for the 2008–09 fiscal year and be known as the "Budget Act of 2008."

This bill would amend and supplement that Budget Act of 2008 by revising items of appropriation for the Department of Parks and Recreation related to the Railroad Technology Museum, thereby making an appropriation.

The bill would make legislative findings and declarations regarding the encumbrance and use of funds appropriated to the Department of Parks and Recreation, payable from the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Fund. The bill would appropriate amounts from the fund to the department to make payments submitted by grant recipients prior to June 30, 2008, for projects funded pursuant to Item 3790-103-0005 of the Budget Act of 2000.

Ch. 690 (AB 2954) Lieber San Francisco Bay Restoration Authority.

(1) Existing law establishes the San Francisco Bay Area Conservancy Program, administered by the State Coastal Conservancy, to address the resource and recreational goals of the San Francisco Bay area in a coordinated, comprehensive, and effective manner and authorizes the conservancy to undertake projects and award grants in the San Francisco Bay area to achieve various goals, including the improvement of public access to the coast and the protection, restoration, and enhancement of natural habitats and connecting corridors, watersheds, scenic areas, and other open-space resources.

Existing law also establishes the San Francisco Bay Conservation and Development Commission and requires a person or governmental agency wishing to place fill, extract materials, or make a substantial change in the use of any water, land, or structure within the area of the commission's jurisdiction, as defined, to secure a permit from the commission. Existing law also authorizes the commission to amend, or repeal and adopt, the San Francisco Bay Plan, which is a comprehensive and enforceable plan for the conservation of the water in the San Francisco Bay and the development of its shoreline.

This bill would enact the San Francisco Bay Restoration Authority Act, which would establish the San Francisco Bay Restoration Authority to raise and allocate resources for the restoration, enhancement, protection, and enjoyment of wetlands and wildlife habitat in the San Francisco Bay and along its shoreline. The act would establish a governing board of the authority composed of a resident of the San Francisco Bay Area, as defined, who would be required to serve as chair, and specified local and regional governmental officials, impose membership requirements for the board, and require the board to, among other things, establish policies for the operation of the authority and convene a Bay Restoration Advisory Committee to assist and advise the board in carrying out its functions.

The act would authorize the authority to raise funds and award grants to public and private entities for eligible projects, including projects that restore, protect, or enhance tidal wetlands, managed ponds, or natural habitat on the San Francisco Bay shoreline. The act would authorize the authority to, among other things, levy a benefit assessment, apply for and receive grants from federal and state agencies, solicit and accept gifts, fees, grants, and allocations from public and private entities, issue revenue bonds, incur bond indebtedness, and enter into joint powers agreements.

Because this bill would impose additional duties on local governmental agencies relating to the membership of the governing board of the authority, the bill would impose a state-mandated local program.

This bill would repeal the act on January 1, 2029.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 691 (AB 2991) Nunez Air pollution: research.

Existing law requires the State Air Resources Board to coordinate and collect research data on air pollution, and to administer and coordinate all air pollution research funded, in whole or in part, with state funds. Existing law also requires the state board to appoint a screening committee not to exceed 9 persons, to review, and give advice and recommendations, with respect to all air pollution research projects funded by the state. Existing law requires the committee members to be physicians, scientists, biologists, chemists, engineers, meteorologists, or other persons who are knowledgeable, technically qualified, and experienced in the air pollution problems for which projects are being reviewed.

This bill would require the screening committee to review, and provide advice and recommendations, with respect to any climate change related-research projects funded by the state and subject to approval by the state board. The bill would also expand the number of

members on the screening committee to 11, and would also require that at least 2 of the committee members have demonstrated expertise in the field of climate change.

Ch. 692 (AB 3005) Jones Community development: mitigation fees.

(1) The Mitigation Fee Act authorizes a local agency to charge a variety of fees, dedications, reservations, or other exactions in connection with the approval of a development project, as defined. Existing law provides that when a local agency imposes any fee or exaction as a condition of approval of a proposed development, as defined, or development project, those fees or exactions shall not exceed the estimated reasonable cost of providing the service or facility for which the fee or exaction is imposed.

This bill would require a local agency, when imposing as a condition of approval of a development project an impact fee for mitigating vehicular traffic impacts of a housing development that satisfies certain characteristics, to set the fee, or the portion thereof relating to vehicular traffic impacts, at a rate that reflects a lower rate of automobile trip generation. The bill would, until January 1, 2011, exempt from this requirement a housing development in an area having a capital improvement plan for which traffic mitigation fees are collected. The bill would authorize a local agency to charge an impact fee in proportion to the estimated rate of automobile trip generation associated with a housing development if the housing development does not satisfy the specified characteristics.

(2) Existing law, the Transit Village Development Planning Act of 1994, defines certain terms for its purpose.

This bill would add a definition to this act for the term “bus transfer station.”

(3) This bill would incorporate changes made by AB 1221 that would become operative if both bills are enacted and this bill is enacted after AB 1221.

Ch. 693 (AB 3058) Committee on Utilities and Commerce Electric power contracts: just and reasonable charges.

(1) Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations. Existing law authorizes the commission to fix the rates and charges for every public utility, and requires that those rates and charges be just and reasonable.

Existing law authorized the Department of Water Resources, until January 1, 2003, to enter into contracts for the purchase of electricity, and to sell electricity to retail end-use customers and, with specified exceptions, local publicly owned electric utilities, at not more than the department’s acquisition costs and to recover those costs through the issuance of bonds to be repaid by ratepayers. Existing law requires the department to retain title to all electricity sold by it to retail end-use customers and provides that the department is entitled to recover its costs as a revenue requirement. Existing law requires any determination with regard to whether the rates and charges that apply to those contracts are just and reasonable to be made by the department and not the commission.

This bill, with certain exceptions, would require the department, prior to the execution of any modification of a contract for the purchase of power by the department, on or after the effective date of the bill, to provide a written report to the commission setting forth the justification for the determination that the proposed modification is just and reasonable. The bill would require the commission to review the written report and make public its comments. The bill would prohibit the department from executing the proposed contract modification if the commission recommends against it.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 694 (SB 634) Wiggins Food labeling: olive oil.

(1) Existing law requires the State Department of Public Health to enforce various provisions of existing law regarding the manufacture, blending, production, and sale of olive oil. Existing law makes the violation of these provisions a crime. Existing law requires the

department to issue a license to package, manufacture, or distribute olive oil on receipt of an application.

This bill would repeal the licensure provisions. It would require any olive oil labeled for sale to be consistent with the provisions of existing law regarding olive oil and this bill. By revising the definition of a crime, this bill would impose a state-mandated local program.

(2) Existing law defines olive oil to mean the edible oil obtained from the fruit of an olive tree. Existing law makes it a crime to manufacture, sell, offer for sale, give away, or possess imitation olive oil, as defined. Existing law excludes from this prohibition the blending of olive oil with other edible oils if the blend is not labeled as olive oil or imitation olive oil, and if the contents and proportions of the blend are prominently displayed on the container's label.

This bill would define olive oil to mean the edible oil obtained solely from the fruit of the olive tree to the exclusion of oils obtained using solvents or reesterification processes and of any mixture with oils derived of other kinds except in the making of flavored olive oil.

This bill would also define olive oil grades and provide that olive oil grades are to be in a specified order. It would authorize the addition of alpha-tocopherol to specified olive and olive pomace-oils.

Existing law prohibits reuse of any olive oil container, can, or drum for repacking any fixed oil intended to be used for food purposes, except on a processor's premises.

This bill would also exempt the filling of a clean container by a consumer, as specified, from the reuse prohibition.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 695 (AB 2824) Berryhill Food labeling: olive oil.

Existing law defines olive oil to mean the edible oil obtained from the fruit of an olive tree. SB 634 proposes to redefine olive oil to mean the edible oil obtained solely from the fruit of the olive tree to the exclusion of oils obtained using solvents or reesterification processes and of any mixture with oils derived of other kinds, except as specified. SB 634 would also define olive oil grades.

This bill would revise the definition of extra virgin olive oil as it is proposed to be added by SB 634 to be effective only if both bills are chaptered and this bill is chaptered last.

#### Ch. 696 (SB 1781) Committee on Environmental Quality Environmental quality: solid waste management: used and waste tires: ballast water management.

(1) The California Beverage Container Recycling and Litter Reduction Act requires a beverage distributor to pay a redemption payment for every beverage container sold or offered for sale in the state to the Department of Conservation. The act requires the department to deposit those amounts in the California Beverage Container Recycling Fund and requires every beverage container sold or offered for sale in the state to have a minimum refund value. The money in the fund is continuously appropriated to the department for the payment of the refund values and processing fees.

The act requires a refund to be paid by a certified recycling center to a consumer or dropoff or collection center, by a processor to a certified recycling center, dropoff or collection program, curbside program, or nonprofit dropoff program, and by the department to a processor, for each beverage container received. The act defines "nonprofit dropoff program" for purposes of those provisions.

This bill would remove a nonprofit dropoff program from the list of entities to which a refund is required to be paid and would delete the definition of, and all references to, nonprofit dropoff programs.

(2) The act requires the Department of Conservation to establish and implement an auditing system to ensure that information collected, and refund values and redemption payments, comply with the purposes of the act. The act authorizes the department to audit and investigate specified actions on and before December 31, 2001, and on and after January 1, 2002, and to take specified enforcement and disciplinary actions.

This bill would authorize the department to conduct the audits and investigations on or after January 1 of each year.

(3) The act requires specified recycling centers or locations to be open for business at least 30 hours per week and authorizes the department to certify a recycling center that will operate fewer than 30 hours per week if specified conditions are met, including being in a rural region according to the criteria of the federal Farmers Home Loan Administration.

This bill would change that condition to authorize the department to certify a recycling center in a rural region according to the loan eligibility criteria of the Rural Housing Service of the United States Department of Agriculture Rural Development Administration, or its successor agency. The bill would delete obsolete references and provisions and make other technical corrections in the act.

(4) Existing law relating to tire hauling requires a person who engages in the transportation of waste or used tires, as defined, to register with the California Integrated Waste Management Board. Existing law exempts from the registration requirement a person meeting one of various conditions, including that the person transports fewer than 10 waste or used tires at a time.

Existing law provides that it is unlawful and constitutes an infraction for a person engaged in the transportation of waste tires to violate specified provisions relating to registration.

This bill would expand the scope of that infraction to include a person operating a vehicle, or combination of vehicles, in the transportation of 10 or more used tires or waste tires, or a combination of used tires and waste tires totaling 10 or more. By expanding the application of an existing crime, this bill would impose a state-mandated local program.

(5) Existing law relating to tire recycling imposes a fee on the purchase of new tires and requires the fee to be deposited in the California Tire Recycling Management Fund in the State Treasury. Existing law requires moneys in the fund to be used to pay, among other things, the costs associated with the development and enforcement of regulations relating to the storage of waste and used tires. Existing law requires the board to consider designating a city, county, or city and county as the enforcement authority for regulations relating to the storage of waste and used tires, and if the board makes those designations, to provide funding to the local entity based on available resources. Existing law also imposes specified civil penalties on a person who violates provisions relating to tire hauler registration and authorizes liability to be imposed in a civil action or administratively.

This bill would authorize the board, upon request of a city, county, or city and county, to designate the city, county, or city and county to exercise the board's enforcement authority under the laws relating to tire hauler registration. This bill would authorize, in addition to existing means of imposing liability on a person who violates provisions relating to tire hauler registration, an attorney authorized to act on behalf of a local enforcement agency or the board to apply to the clerk of the court in the county in which a civil penalty was imposed for a judgment to collect the penalty.

(6) The Marine Invasive Species Act generally applies to a vessel carrying or capable of carrying ballast water into the coastal waters of the state after operating outside of the coastal waters of the state, and to all ballast water and associated sediments taken on the vessel. The act requires the State Lands Commission to adopt specified regulations, including regulations requiring an owner or operator of a vessel carrying, or capable of carrying, ballast water that operates in the waters of the state to comply with an implementation schedule for interim performance standards for the discharge of ballast water in accordance with a specified report. The act requires the commission, in consultation with the State Water Resources Control Board, the United States Coast Guard, and a specified advisory panel, to

prepare or update and submit to the Legislature a specified review, relating to available technologies for ballast water treatment systems, on or before January 1, 2008.

This bill would require the commission to adopt regulations requiring compliance with an implementation schedule set forth in the bill and would require the commission to submit the review to the Legislature on or before January 1, 2009.

(7) This bill would also make various technical, nonsubstantive changes in existing law relating to solid waste management, tire hauling, tire recycling, and ballast water management.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(9) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 697 (SB 1357) Padilla Beverage containers: processing payments: grants.

(1) The California Beverage Container Recycling and Litter Reduction Act requires a distributor of specified beverage containers to pay a redemption payment to the Department of Conservation for each beverage container sold or transferred for deposit in the California Beverage Container Recycling Fund. The moneys in the fund are continuously appropriated to the department to pay refund values, administrative fees, and a reserve for contingencies. The department is authorized to expend the moneys in the fund for administrative costs only upon appropriation by the Legislature. The department is then authorized to make other specified expenditures from the moneys remaining in the fund after the moneys for those purposes have been set aside, including the expenditure of \$1,500,000 annually for grants for beverage container recycling and litter reduction programs.

This bill would additionally authorize the department to expend up to \$20,000,000 from July 1, 2009, to January 1, 2012, inclusive, for either grants for beverage container recycling and litter reduction programs or focused, regional community beverage container recycling and litter reduction programs that meet specified requirements, thereby making an appropriation. The bill would require a grant recipient to submit a report to the department and would require the department to publish an evaluation of grants made pursuant to these provisions, including a summary of those reports.

(2) Existing law requires the department to calculate a processing fee and a processing payment for each beverage container with a specified scrap value. The processing fees are required to be paid by beverage manufacturers to the department and are deposited in the fund. The moneys in the fund are continuously appropriated to the department to pay, among other things, processing payments to processors. The department is required to calculate processing payments by conducting a survey every 2nd year to determine the actual recycling costs for certified recycling centers.

This bill would require the department, on and after January 1, 2010, to use the most recently published, measured actual costs of recycling for a beverage container, if the department determines the number of beverage containers of a material type returned for recycling is less than 5% of the total number of beverage containers returned for recycling, for all material types. The bill would also require the department to adjust the costs of recycling by a material type every 2nd year by the percentage change in the most recently measured cost of recycling high density polyethylene (HDPE) plastic beverage containers.

(3) The bill would make an appropriation by revising the requirements for, and increasing the amounts of, the processing payments paid by the department from the continuously appropriated fund.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 698 (AB 837) Feuer Firearms: prohibited persons.

Existing law generally prohibits certain persons from possessing firearms. Existing law requires the Department of Justice to determine and report the status of persons who are prohibited under state law from possessing firearms in various circumstances, including to assist agencies to satisfy licensing responsibilities and to prevent transfers of firearms to those persons who are prohibited from receiving them. Existing federal law requires a designated state point of contact to initiate background checks in connection with the transfer of a firearm, as specified.

The bill would specifically prohibit the issuance of certain firearms permits and the transfer of firearms if the applicant or transferee is prohibited from possessing, receiving, purchasing, or owning a firearm under federal law as well as state law. The bill would make conforming changes related to the department's determination and reporting of the status of applicants.

Ch. 699 (SB 1241) Margett Public safety.

(1) Existing law provides procedures for the enforcement of child custody orders and support obligations.

This bill would make technical, nonsubstantive changes to those provisions.

(2) Existing law requires the Department of Justice to annually report on its activities and accomplishments to the Legislature and to federal, state, and local law enforcement agencies, as well as to other interested groups. Existing law requires that report to include a separate report on the activities of the Crack Down Task Force Program, which has the responsibility for establishing, conducting, supporting, and coordinating crack down task forces composed of state and local law enforcement agencies targeting the investigation and apprehension of the Colombian cartel-street gang cocaine networks.

This bill would delete the requirement that the Department of Justice's annual report include a separate report on the activities of the Crack Down Task Force Program.

(3) Existing law requires peace officers to meet certain minimum standards, including being a high school graduate, as specified, passing the General Education Development Test, or having attained a 2-year or 4-year degree from an accredited college or university.

This bill would revise and recast the above requirements. Among other changes, the bill would expand the category of organizations and agencies that are authorized to accredit schools for purposes of those provisions.

(4) Existing law requires the Department of Justice to establish a Clandestine Laboratory Enforcement Program to assist state and local law enforcement and prosecutorial agencies in apprehending and prosecuting persons involved in the unlawful manufacture of controlled substances. Existing law also requires the Department of Justice to report annually on its activities and on the accomplishments of the Clandestine Laboratory Enforcement Program to the Legislature and to federal, state, and local law enforcement agencies, as well as to other interested groups.

This bill would delete provisions that require the Department of Justice to make those annual reports.

(5) Existing law, enacted by initiative statute, requires sex offenders, as defined, to pay a fine, as specified. Existing law transfers \$100 for each of those fines imposed in excess of \$100 to the Department of Corrections and Rehabilitation to defray the cost of the global positioning system used to monitor sex offender parolees.

Existing law permits the Legislature to amend those provisions by a statute passed in each house by rollcall vote entered in the journal,  $\frac{2}{3}$  of the members of each house concurring, or by a statute that becomes effective only when approved by the voters.

This bill would instead transfer  $\frac{1}{3}$  of every first conviction fine collected and  $\frac{1}{5}$  of the second and each subsequent conviction fine for that purpose. By amending that initiative statute, this bill would require a  $\frac{2}{3}$  vote.

(6) Existing law declares that whenever an employer has agreed with any employee to make payments to a health or welfare fund, pension fund, or vacation plan, or other similar

plan for the benefit of the employees, or a negotiated industrial promotion fund, or has entered into a collective bargaining agreement providing for those payments, it is unlawful for that employer willfully or with intent to defraud to fail to make the payments required by the terms of that agreement. A violation of that provision where the amount the employer failed to pay into the fund or funds exceeds \$500 is punishable by imprisonment in the state prison for a period of not more than 5 years or in the county jail for a period of not more than one year, by a fine of not more than \$1,000, or by both that imprisonment and fine.

This bill would change that punishment to imprisonment in the state prison, or in a county jail for a period of not more than one year, by a fine of not more than \$1,000, or by both that imprisonment and fine, and would state the intent of the Legislature regarding that change.

(7) Existing law grants specified peace officers authority that extends to any place in the state, including any member of the Law Enforcement and Investigations Unit of the Department of Corrections, as specified.

This bill would extend that authority to any member of the Office of Correctional Safety of the Department of Corrections and Rehabilitation whose primary duties are as specified.

(8) Existing law authorizes the imprisonment of a person who manufactures, imports, sells, or possesses specified weapons. Existing law exempts from that provision the sale to, purchase by, or possession of, short-barreled shotguns or short-barreled rifles by police departments, sheriffs' offices, marshals' offices, the California Highway Patrol, the Department of Justice, or the military or naval forces, as specified.

This bill would specify, in addition, that the sale to, purchase by, or possession of, short-barreled shotguns or short-barreled rifles by the Department of Corrections and Rehabilitation, as specified, is not punishable by imprisonment.

(9) Existing law declares the possession of any pistol or revolver upon which the name of the maker, model, manufacturer's number or other mark of identification has been changed, altered, removed, or obliterated, to be presumptive evidence that the possessor has changed, altered, removed, or obliterated the same.

This bill would repeal that provision.

(10) Existing law requires the Department of Justice to prepare and submit an annual report to the Legislature regarding the California Gang, Crime, and Violence Prevention Partnership Program, as specified.

This bill would require the department to file that report only in years in which the program receives funds.

(11) Existing law requires the Corrections Standards Authority to provide for the presentation of training to peace officers which will enable them to more efficiently handle, on the local level, the tracing of missing persons and victims of violent crimes.

This bill would delete that provision.

(12) This bill would also provide that any section of any act, other than SB 1498, enacted by the Legislature during the 2008 calendar year that takes effect on or before January 1, 2009, and that affects, as specified, any one or more of the sections affected by this act shall prevail over this act, whether this act is enacted prior to, or subsequent to, the enactment of that act.

This bill would also make other related, conforming changes.

Ch. 700 (AB 2352) Fuentes Health services: confidential information.

Existing law prohibits a provider of health care, a health care service plan, contractor, or corporation and its subsidiaries and affiliates from intentionally sharing, selling, or otherwise using any medical information, as defined, for any purpose not necessary to provide health care services to a patient, except as expressly authorized by the patient, enrollee, or subscriber, as specified, or as otherwise required or authorized by law. Existing law permits disclosure of medical information to a county social worker, a probation officer, or any other person who is legally authorized to have custody or care of a minor, as defined, for the purpose of coordinating health care services and medical treatment provided to the minor.

This bill would make a technical change to this provision.

Under existing law, the Lanterman-Petris-Short Act, information and records obtained in the course of providing certain services is confidential and may only be released in specific circumstances. The act's confidentiality provisions pertain to persons who are receiving or have received mental health care services or services for persons with developmental disabilities.

This bill would permit release of that information, not including psychotherapy notes, as defined, to a county social worker, probation officer, or any other person who is legally authorized to have custody or care of a minor who is taken into temporary custody or for whom a petition has been filed with the court, or who has been adjudged a dependent child or ward of juvenile court, but only for the purpose of coordinating health care services and medical treatment, as defined, or mental health or developmental services for the minor.

This bill would further permit an individual to whom information was disclosed to further disclose that information to a person who would otherwise be able to obtain that information under the bill or another provision of law.

The bill would further provide that information disclosed pursuant to these provisions may not be admitted into evidence in any criminal or delinquency proceeding against the minor thereby requiring a  $\frac{2}{3}$  vote for enactment pursuant to the Victims' Bill of Rights.

#### Ch. 701 (AB 2651) Aghazarian Foster care, adoption, and dependent children.

Existing law, the California Community Care Facilities Act, provides for the licensure and regulation of community care facilities, including foster family homes and foster family agencies, by the State Department of Social Services.

Existing law requires a criminal record check of applicants for a license, special permit, or certificate of approval for a foster family home or certified family home, and other persons, including nonclients who reside in those homes and staff and employees. Existing law requires that an application be denied, unless the Director of Social Services grants an exemption, if it is found that the applicant or any of the other designated persons has been convicted of prescribed crimes.

Existing law also imposes criminal record and fingerprint check requirements for prospective adoptive parents, as specified.

This bill would, to the same extent required for federal funding, effective October 1, 2008, prohibit the director from granting an exemption where a foster care provider applicant or any of the other designated persons have been convicted of certain felonies at any time and other felonies in the previous 5 years. This bill would prohibit exemptions under these circumstances for foster care providers, as specified, in those homes where the individual has been convicted of murder or voluntary manslaughter. This bill, effective October 1, 2008, would similarly prohibit the department, or a licensed adoption agency or delegated county adoption agency from giving final approval for an adoptive placement in any home where the prospective adoptive parent or an adult living in the prospective home has been convicted of the felonies specified in the bill. This bill would make these prohibitions operative only to the extent that federal law requires the prohibition as a condition of federal funding.

Existing law requires a community care license to be forfeited by operation of law when the licensee moves a facility from one location to another.

This bill would provide that a licensed foster family home, a home certified by a licensed foster family agency, or a home approved by a social worker or county welfare department, as specified, shall not forfeit their license, certification, or approval when the facility is moved from one location to another. This bill would permit the existing license, certification, or approval to be transferred to the new facility location. The bill would require all caregivers to whom this license forfeiture exception applies to meet all applicable licensing laws and regulations at the new location.

Existing law requires certain individuals and agencies to report known or suspected incidents of child abuse and neglect to the Department of Justice. The department may

disclose those reports only in specified circumstances, including to out-of-state agencies responsible for approving prospective foster or adoptive parents or relative caregivers.

Existing law requires the department to maintain an index of all reports of abuse and severe neglect submitted by agencies and found by the submitting agency to be not unfounded. Existing law requires this index to be made available to out-of-state agencies for the purpose of approving a prospective foster or adoptive parent or relative caregiver for placement of a child.

This bill would eliminate the authority of the department to disclose reports and make the index available to out-of-state agencies that are approving placement for prospective relative caregivers.

This bill would require out-of-state agencies to make their request for reports of abuse and severe neglect in compliance with federal law, as specified.

Existing law sets forth circumstances under which a minor may be adjudged a dependent child of the juvenile court, and establishes procedures to determine the temporary placement of a dependent child.

Existing law authorizes temporary placement of a dependent child in the home of an able and willing relative, or an able and willing nonrelative extended family member, upon completion of an assessment of the suitability of the relative or nonrelative extended family member by the county welfare department. Existing law also requires the county welfare department to initiate a criminal records check through the California Law Enforcement Telecommunications System before placing the child.

This bill would prohibit temporary placement of a child in the home of a person if the criminal records check shows that person has been convicted of a crime for which the Director of Social Services cannot grant an exemption with respect to foster family home and certified family home applicants.

This bill would also prohibit temporary placement of a minor child in the home of a person who has been convicted of a crime for which the director may grant an exemption unless a criminal records exemption has been granted by the county based on substantial and convincing evidence to support a reasonable belief that the person with the criminal conviction is of such good character as to justify the placement and not present a risk of harm to the child.

Existing law requires a county social worker to visit the home of a relative or prospective guardian who is not a licensed or certified foster parent, prior to placing the child in that home, to ascertain the appropriateness of the placement. Existing law also requires the court or county social worker to initiate a state and federal criminal records check through the California Law Enforcement Telecommunications System as part of their assessment.

This bill would prohibit placement of the child in the home of a person if the criminal records check indicates the person has been convicted of a crime that the Director of Social Services cannot grant an exemption for with respect to foster family home and certified family home applicants.

This bill would also prohibit placement of a child in the home of a person who has been convicted of a crime that the Director of Social Services may grant an exemption for unless a criminal records exemption has been granted by the county, based on substantial and convincing evidence, to support a reasonable belief that the person with the criminal conviction is of such good character as to justify the placement and not present a risk of harm to the child.

Under existing law, when a child has been placed in foster care out of state, the county social worker or a social worker on the staff of the social services agency in the state in which the child has been placed is required to visit the child in a foster family home or the home of a relative at least every 12 months and submit a report to the court regarding each visit.

This bill would, instead, require these duties to be performed in a manner consistent with federal law and in accordance with the department's approved state plan.

This bill would incorporate additional changes in Section 11170 of the Penal Code proposed by SB 1022 and AB 2618 that would become operative if this bill and one or both of the other bills are chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

To the extent this bill would impose additional duties on county welfare departments, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 702 (SB 155) Cox Gasoline: vapor recovery systems.

Existing law requires the State Air Resources Board to adopt procedures for determining the compliance of any system designed for the control of gasoline vapor emissions during gasoline marketing operations, including storage and transfer operations, and additional performance standards to ensure that systems for the control of gasoline vapors from motor vehicle fueling operations do not cause excessive spillage and emissions.

This bill would prohibit the state board from requiring a gasoline dispensing facility that meets certain requirements to undergo an Enhanced Vapor Recovery Phase II upgrade until April 1, 2011.

Ch. 703 (SB 567) Aanestad Counties: consolidation of offices: watermaster districts.

(1) Existing law authorizes specified boards of supervisors, by ordinance, to consolidate the duties of the offices of Auditor-Controller and Treasurer-Tax Collector into the elected office of Auditor-Controller-Treasurer-Tax Collector.

This bill would authorize the Trinity County Board of Supervisors to consolidate the duties of the offices of auditor-controller and treasurer-tax collector into the elected office of auditor-controller-treasurer-tax collector.

(2) Existing law, the Scott Valley and Shasta Valley Watermaster District Act, requires the Board of Directors of the Scott Valley and Shasta Valley Watermaster District to consist of 5 district voters, as specified, and 2 members appointed by the Siskiyou County Board of Supervisors who are residents of that county and not district voters. Existing law, the Shasta-Tehama County Watermaster District Act, requires the Board of Directors of the Shasta-Tehama County Watermaster District to consist of 5 district voters, as specified, and 2 members appointed by the Shasta County Board of Supervisors who are residents of that county and not district voters.

This bill would specify that, for the purposes of the provisions that require the 5 members of those respective boards to be district voters, the term "voter" includes an officer, director, manager, and shareholder of a voter that is not a natural person. The bill would prohibit the 2 members who are appointed by a county board of supervisors from serving on those respective boards if they are an officer, director, manager, shareholder, or employee of a district voter.

(3) Under the Shasta-Tehama County Watermaster District Act, a quorum of the board of directors is 3 members.

This bill would change that number to 4 members.

Ch. 704 (SB 588) Runner Postsecondary education: community college school buildings.

Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction at community college campuses throughout the state.

Existing law requires the Department of General Services (department) to supervise the design and construction of certain school buildings, including specified community college facilities, to ensure that plans and specifications comply with specified structural safety standards and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. Existing law also requires the department to pass upon and approve or reject all plans for the construction of, and in some cases, the alteration of, any school building subject to those provisions, and to inspect the school buildings and work of construction or alteration that in its judgment is necessary or proper for the enforcement of these requirements and the protection of the safety of the students, the instructors, and the public. These requirements are part of the body of law known as the Field Act.

Existing law requires school buildings that are constructed, reconstructed, modified, or expanded after July 1, 2006, on a community college campus to be built according to the Field Act or according to the California Building Standards Code, as adopted by the California Building Standards Commission.

This bill would require the department to develop and submit, in consultation with the board of governors, by June 1, 2009, to the California Building Standards Commission proposed building standards for adoption as part of the California Building Standards Code that will govern the construction, reconstruction, modification, or expansion of school buildings of a community college district, if the community college district elects not to utilize the Field Act. The department would be required to review and include, where appropriate, in these standards the standards that govern the California State University.

The bill would require the Legislative Analyst's Office (LAO) to undertake a fact-based analysis of the length of time the department and the community colleges take to perform their respective functions to complete community college construction and alteration projects, and compile this information in a report. The bill would require the Department of General Services to convene a working group to analyze the report and the current process to complete community college construction and alteration projects and develop recommendations for changes, if any, in the project development and review process to ensure the public safety of community college facilities through a collaborative, consistent, cost-effective, and timely project development and review process.

#### Ch. 705 (SB 791) Corbett State Highway Route 84.

Existing law authorizes a city or county in which a planned transportation facility was to be located on a specified portion of State Highway Route 84 to develop and file with the California Transportation Commission a local alternative transportation improvement program that addresses transportation problems and opportunities, and provides for the use of revenues from the sales of excess properties acquired for the planned state facility in order to fund the program, but limits the use of revenues from excess property sales to state highway purposes. Existing law provides that the commission may not approve a local alternative transportation improvement program under these provisions after July 1, 2010.

This bill would also authorize the use of revenues from sales of excess properties for projects in the local alternative transportation improvement program that are also in the local voter-approved transportation sales tax measure, subject to approval by the Department of Transportation. The bill would make related changes.

#### Ch. 706 (SB 911) Wiggins Commercial air carriers: hot air balloons.

(1) Existing law requires the Public Utilities Commission to require every commercial air operator, as defined, to procure, and continue in effect, adequate protection against liability for personal bodily injuries and property damage as a result of an accident, that may be imposed by law upon the operator and upon any person using, operating, or renting an aircraft, as defined, with the permission of the operator.

Existing law, until January 1, 2009, excludes from the definition of commercial air operator a person furnishing or providing transportation by hot air balloon for entertainment or recreational purposes and excludes from the definition of aircraft for this purpose a hot air balloon furnished or providing transportation for entertainment or recreational purposes.

This bill would revise the definition of commercial air operator to also exclude any person owning, controlling, operating, renting, managing, furnishing, or otherwise providing transportation by hot air balloon for sporting purposes. The bill would revise the definition of aircraft to also exclude for this purpose a hot air balloon furnished or providing transportation for sporting purposes. The bill would extend those dates of repeal to January 1, 2013.

(2) Existing law, until January 1, 2009, imposes specific liability insurance and passenger notice requirements on a person providing transportation by hot air balloon for hire, for entertainment, or for recreational purposes. Existing law, until January 1, 2009, requires that any person providing such transportation comply with any requirement of a city, county, or city and county (local government) that the person obtain a business license as a condition for operating in the jurisdiction of the local government and to prominently display the license as required. Whenever a local government requires a business license, any person providing such transportation would, until January 1, 2009, be required to provide to the local government certain evidence of insurance coverage.

Existing law imposes a state-mandated local program by requiring local governments, until January 1, 2009, to give reasonable notice of this requirement with any business license renewal notification and to maintain as a public record every business license issued by the local government to any person providing transportation by hot air balloon for hire, for entertainment or recreational purposes, and every currently effective certificate of insurance evidencing the insurance coverage required by the bill. A local government, until January 1, 2009, is authorized to charge a reasonable fee for purposes of carrying out these provisions. Existing law also imposes a state-mandated local program by making it a misdemeanor to fail to obtain and maintain a current valid local business license as required by the bill or to fail to maintain insurance in force as required by the bill.

This bill would delete the requirement that the transportation be provided for entertainment or recreational purposes, and would instead subject transportation by hot air balloon for hire to these provisions. The bill would specify that any person owning, controlling, operating, renting, managing, furnishing, or otherwise providing transportation by hot air balloon for hire, prominently display the license only within the city or county of the person's primary place of business frequented by customers and potential customers. The bill would extend those dates for repeal to January 1, 2013. The bill, in extending those dates, would thereby impose state-mandated local programs for the purposes described above.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

Ch. 707 (SB 947) Hollingsworth California Environmental Quality Act: consultation: transportation facilities.

(1) The California Environmental Quality Act (CEQA) requires a lead agency to prepare an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment, unless the project is exempt from the act.

CEQA requires a lead agency to call at least one scoping meeting for a project of statewide, regional, or areawide significance, and to notify specified entities of at least one scoping meeting.

Existing law for such a project requires the lead agency to consult with transportation planning agencies and public agencies that have transportation facilities within their jurisdiction that could be affected by the project, for the purpose of the lead agency obtaining information concerning the project's effect on major local arterials, public transit, freeways, highways, and rail transit service.

This bill would additionally require notice of at least one scoping meeting to be provided to transportation planning agencies or public agencies required to be consulted concerning such a project, and would require the project's effect on overpasses, on-ramps, and off-ramps to be included in that consultation. By imposing new duties on local governments with respect to notifying additional entities of a scoping meeting and consulting on other effects of the project, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 708 (SB 1007) Machado Exchange facilitators.

Existing law provides for licensure and regulation of various financial institutions by the Commissioner of Financial Institutions or the Commissioner of Corporations, but does not specifically regulate persons engaged in the facilitation of like-kind exchanges of property pursuant to federal tax law.

This bill would require a person engaging in business as an exchange facilitator, as defined, to comply with certain bonding and insurance requirements, as specified, and to notify existing exchange clients whose relinquished or replacement property is located in this state of any change in control, as defined, of the exchange facilitator. The bill would also require a person engaging in business as an exchange facilitator to, among other things, act as a custodian for all exchange funds and to invest those funds in investments that meet a prudent investor standard, as specified. The bill would prohibit these persons from performing specified acts, including, but not limited to, making material misrepresentations and engaging in conduct constituting fraudulent or dishonest dealings. The bill would make any person who violates these provisions subject to civil suit in a court of competent jurisdiction and would provide that a person claiming to have sustained damage because of a failure to comply with these provisions may file a claim on specified bonds, deposits, or letters of credit to recover the damages. These provisions would remain in effect until January 1, 2014, at which point they would be repealed.

#### Ch. 709 (SB 1124) Committee on Local Government Local Government Omnibus Act of 2008.

(1) Existing law authorizes the Governing Board of the Los Angeles Unified School District, the City of Los Angeles, and the Board of Supervisors of Los Angeles County to form a joint powers agency for the financing, construction, and operation of an all-purpose recreational stadium and center in the San Pedro area of Los Angeles County, as specified.

This bill would repeal these provisions.

(2) Existing law requires local governments to provide annual statements of investment policies, and quarterly investment reports to the California Debt and Investment Advisory Commission, as specified.

This bill would repeal that requirement.

(3) Existing law requires the issuer of any new debt issue of state or local government to submit a report of final sale, within 45 days after the signing of the bond purchase contract

or acceptance of a bid in a competitive offering, to the California Debt and Advisory Commission, as specified.

This bill would also require the issuer of any proposed new debt issue of state or local government to give written notice of a proposed sale, no later than 30 days prior to the sale of any debt issue at private or public sale, to the commission, as specified.

(4) The Social Service Transportation Improvement Act requires transportation planning agencies and the county transportation commissions to prepare and adopt an action plan that describes in detail the steps required to accomplish the consolidation of social service transportation services.

Existing law provides immunity to public entities, against certain actions at law, as specified.

This bill would designate an entity formed by the regional transportation planning authority as a nonprofit public benefit corporation, designated as a consolidated transportation services agency, under the Social Service Transportation Improvement Act, as a public agency, within the meaning of "public entity," for the purposes of liability for certain actions, as specified.

(5) Existing law authorizes the board of supervisors of a county to levy in any year, a special tax, in addition to all other taxes provided for, of not to exceed \$0.003 on the \$100 of assessed valuation on all the taxable property in the county, for funding of music free to the public.

Existing law authorizes the board of supervisors of a county to levy in any year, a special tax, in addition to all other taxes provided for, of not to exceed \$0.004 on the \$100 of assessed valuation on all the taxable property in the county, to encourage immigration, increase trade in the products of the state and of the county, and promote the industrial, livestock, agricultural, horticultural, viticulture, and pastoral pursuits of the county.

Existing law authorizes the board of supervisors of a county to levy in any year, a special tax, in addition to all other taxes provided for, of not to exceed \$0.004 on the \$100 of assessed valuation on all the taxable property in the county, to induce immigration to, and increase trade and commerce of, the county, by using the proceeds of the tax for, among other things, advertising, exploiting, and making known the resources of the county.

Existing law authorizes the board of supervisors of a county to levy in any year, a special tax, in addition to all other taxes provided for, of not to exceed \$0.003 on the \$100 of assessed valuation on all the taxable property in the county, for maintaining public airports and landing places for aerial traffic for the use of the public.

Existing law authorizes the legislative body of a city to levy a tax to maintain and purchase necessary property for a municipal hospital, as specified.

This bill would delete these authorizations, and instead authorize local governments to levy voter-approved special taxes, as specified, for these purposes.

(6) Existing law requires the clerk of the legislative body of any city, county, or city and county, following the adoption of any code by the legislative body, to maintain at all times a reasonable supply of copies of the primary code and of any secondary codes incorporated in it by reference, available for purchase by the public, as specified.

This bill would repeal this requirement.

(7) Existing law authorizes a local agency to invest specified funds into, among other things, bonds issued by the local agency, United States Treasury notes, bonds, bills, or certificates of indebtedness, or registered state warrants or treasury notes or bonds of this state, as specified.

This bill would correct various incorrect statutory cross-references to these provisions.

(8) Existing law authorizes the board of supervisors, in specified counties, to appoint the registrar of voters in the same manner as other county officers are appointed.

This bill would also authorize the board of supervisors of the County of Napa to appoint the registrar of voters in the same manner as other county officers are appointed.

(9) Existing law, until December 31, 2009, authorizes special districts to issue securitized limited obligation notes, as specified.

This bill would extend that authorization to December 31, 2014.

(10) Existing law prohibits a determination of a city's sphere of influence, where the sphere of influence includes specified redevelopment projects, from precluding any other agency in addition to that city, from providing facilities or services related to development to, or in that portion of, the redevelopment project area unless specified conditions exist.

This bill would delete an obsolete cross-reference in these provisions.

(11) Existing law, until January 1, 2007, authorizes a court to award attorney's fees if a court finds for the plaintiff in an action against a city, county, or city and county, for failure to ensure that the city, county, or city and county's housing element inventory or housing element program to make sites available, can accommodate its share of the regional housing need throughout the planning period.

This bill would repeal this authorization.

(12) Existing law exempts from the requirements of the Subdivision Map Act, specified types of property, including, among others, mineral, oil, or gas leases, land dedicated for cemetery purposes, and boundary line or exchange agreements to which the State Lands Commission or a local agency holding a trust grant of tide and submerged lands is a party.

This bill would also exempt from the requirements of the Subdivision Map Act, the leasing of, or the granting of an easement to, a parcel of land, or any portion thereof, in conjunction with the financing, erection, and sale or lease of a solar electrical generation device on the land, if the project is subject to review under other local agency ordinances regulating design and improvement or if the project is subject to discretionary action by the advisory agency or legislative body.

(13) Existing law establishes the Sacramento County Sanitation District No. 1, as specified.

This bill would change the name of the district to the Sacramento Area Sewer District.

(14) Existing law authorizes an entity, as defined, to charge a connection fee for the privilege of connecting to its sanitation or sewage facilities, and to provide for the payment of fees or charges prior to connection or in installments over a period of up to 15 years.

This bill would extend the time period that installments may be authorized to not more than 30 years.

(15) Existing law authorizes the Inland Valley Development Agency to locate, construct, and maintain facilities and infrastructure for sewer and water pipelines or other facilities for sewer transmission and water supply or distribution systems along and across any street or public highway and on any lands that are owned by the state, to provide facilities or services related to development to the redevelopment project area, as specified.

This bill would delete an obsolete cross-reference in these provisions.

(16) Existing law, until January 1, 2009, requires any state or local agency responding to an outbreak of West Nile virus or other mosquito-borne disease with an abatement and surveillance program to contract with a local mosquito and vector control agency that is party to a cooperative agreement with the State Department of Public Health, or consult directly with the department, to ensure that outbreak response is supervised appropriately and conducted by licensed personnel using sound integrated mosquito management techniques.

This bill would extend this requirement until January 1, 2011.

By extending the time period that local agencies must comply with these requirements, this bill would impose a state-mandated local program.

(17) Under the Property and Business Improvement District Law of 1994, if a city council proposes to levy a new or increased business assessment, the notice and protest and hearing procedures must comply with the Ralph M. Brown Act, as specified.

This bill would provide additional guidelines for the submission of a written protest against a new or increased business assessment.

(18) This bill would incorporate additional changes to Section 65863 of the Government Code, proposed by AB 2069, to be operative only if AB 2069 and this bill are both enacted, both bills amend Section 65863 of the Government Code, and this bill is enacted after AB 2069.

(19) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 710 (SB 1251) Steinberg School accountability: Academic Performance Index: graduation rates.

Existing law requires the Superintendent of Public Instruction, with approval of the State Board of Education, to develop the Academic Performance Index (API) consisting of a variety of indicators currently reported to the State Department of Education to track the achievement of schools and their pupils. Statutory provisions establish a specific calculation for graduating rates to be included within the API and require the Superintendent to provide an annual report to the Legislature on graduation and dropout rates in California. Existing law requires the API to be used for specified purposes, including, but not limited to, ranking all public schools in the state for purposes of the High Achieving/Improving Schools Program.

This bill would include 5- and 6-year graduation rates in the indicators currently reported to the department for purposes of calculating a school's API. The bill would specify a formula to calculate these rates, and would provide that schools receive partial credit in their API scores for graduating pupils in 5 and 6 years, except that schools would be granted full credit for graduating in 5 or 6 years a pupil with disabilities who graduates in accordance with his or her individualized education program.

Ch. 711 (SB 1285) Corbett Resource conservation lands: acquisition.

Existing law authorizes various agencies to acquire land for purposes related to conservation. Existing law requires an acquisition agency, as defined, prior to approving the acquisition of conservation land, as defined, where an agency proposes to spend more than \$25,000,000 of state funds, to contract for at least one independent appraisal of the fair market value of the land. Existing law defines "acquisition agency" as the Wildlife Conservation Board or the State Coastal Conservancy and defines "conservation lands" as land or an interest therein to be acquired by an acquisition agency, or that is owned by the state and under the jurisdiction of the Wildlife Conservation Board, the State Coastal Conservancy, the Department of Fish and Game, or the Department of Parks and Recreation.

This bill would instead define "acquisition agency" as the Wildlife Conservation Board, the Department of Parks and Recreation, or a state conservancy. The bill would revise the definition of "conservation lands" to delete the requirement that the land owned by the state be under the jurisdiction of the Wildlife Conservation Board, the State Coastal Conservancy, the Department of Fish and Game, or the Department of Parks and Recreation.

This bill would require the Department of General Services to convene a workgroup to develop and adopt standards, subject to the approval of the Resources Agency, with respect to the acquisition of conservation lands concerning the appraisal process, availability of appraisal information, and valuation for purposes of a charitable contribution. The bill would require that the workgroup not exceed 6 members and that it include representatives from the Department of Parks and Recreation, the Wildlife Conservation Board, the State Coastal Conservancy, and one or more other state conservancies with land acquisition responsibilities. The bill would require the workgroup to hold a public hearing to solicit public comments before adopting the standards.

The bill would require the Department of General Services and the workgroup, by January 1, 2010, in developing standards for the appraisal of resource conservation acquisitions, including both direct and state-funded grant acquisitions, to consider specified subjects.

The bill would require a seller claiming a charitable contribution that is over \$5,000 on conservation lands acquired using state funds to follow certain procedures to substantiate the value of the charitable contribution claimed by the seller.

Ch. 712 (SB 1296) Corbett Public Employment Relations Board.

The Meyers-Milias-Brown Act delegates jurisdiction to the Public Employment Relations Board to resolve disputes and enforce the statutory duties and rights of local public agency employers and employees.

The bill would provide that superior courts shall have exclusive jurisdiction over actions involving interest arbitration when the action involves an employee organization that represents firefighters, as specified.

Ch. 713 (SB 1307) Ridley-Thomas Pharmacy: pedigree.

Existing law, the Pharmacy Law, provides for the licensure and regulation of the practice of pharmacy and the sale of dangerous drugs or dangerous devices by the California State Board of Pharmacy, in the Department of Consumer Affairs. Under existing law, on and after January 1, 2009, pedigree means an electronic record containing information regarding each transaction resulting in a change of ownership of a given dangerous drug, from sale by a manufacturer, through acquisition and sale by one or more wholesalers, manufacturers, or pharmacies, until final sale to a pharmacy or other person furnishing, administering, or dispensing the dangerous drug. On and after January 1, 2009, existing law prohibits a wholesaler or pharmacy from selling, trading, or transferring a dangerous drug at wholesale without providing a pedigree or from acquiring a dangerous drug without receiving a pedigree. Existing law, on and after January 1, 2009, requires that a pedigree include certain information, including, but not limited to, the source of the dangerous drug and the trade or generic name of the drug. Existing law exempts specified transactions from the pedigree requirement, and authorizes the board to extend the January 1, 2009, compliance date to January 1, 2011, in specified circumstances. Existing law makes it a crime to knowingly violate the Pharmacy Law.

This bill would instead, on and after January 1, 2015, define a pedigree, as specified, and would revise the information required to be contained in a pedigree to, among other things, include a specified unique identification number.

The bill would prohibit a wholesaler or repackager, as defined, on and after July 1, 2016, or a pharmacy, on and after July 1, 2017, from selling, trading, or transferring a dangerous drug at wholesale without providing a pedigree or from acquiring a dangerous drug without receiving a pedigree, except as specified. The bill would prohibit a pharmacy warehouse, as defined, on and after July 1, 2017, from acquiring a dangerous drug without receiving a pedigree. The bill would delete the board's authority to extend these compliance dates. The bill would also prohibit a repackager or pharmacy from furnishing a dangerous drug or dangerous device to an unauthorized person. The bill would require a manufacturer of a dangerous drug distributed in California to designate certain percentages of the drugs that it manufactures, which would be required to comply with the pedigree requirement by specified dates, and to notify the board of the drugs so designated and of the technology to be used to meet that requirement. The bill would also revise certain exemptions from the pedigree requirement and would exempt specified additional transactions from the pedigree requirement.

The bill would authorize a manufacturer, wholesaler, or pharmacy in possession of dangerous drugs manufactured or distributed prior to the operative date of the pedigree requirements to designate those drugs as not subject to the requirements by preparing a specified written declaration under penalty of perjury, which would be considered trade

secrets and kept confidential by the board. The bill would authorize dangerous drugs designated on such a declaration to be purchased, sold, acquired, returned, or otherwise transferred, without meeting the pedigree requirements if the transfer complies with specified requirements. Because a knowing violation of the bill's provisions would be a crime under the Pharmacy Law and because the bill would expand the crime of perjury, the bill would impose a state-mandated local program.

The bill would require the board to promulgate regulations defining the circumstances under which participants in the distribution chain may infer the contents of a case, pallet, or other aggregate of individual units, packages, or containers of dangerous drugs, from a unique identifier associated with the case, pallet, or other aggregate, if certain standard operating procedures are complied with and made available for the board to review. The bill would require board regulations to specify liability associated with accuracy of product information and pedigree using inference. The bill would declare the intent of the Legislature in this regard.

The bill would make the pedigree requirements inoperative upon the effective date of federal law addressing pedigree or serialization measures for dangerous drugs, or as otherwise specified in the event of a conflict with federal law, and would require the board to take specified action.

Existing law requires an applicant for issuance or renewal of a wholesaler or nonresident wholesaler license to submit a surety bond of \$100,000 or an equivalent means of security to secure payment of any administrative fines and costs imposed by the board. Existing law makes this requirement inoperative and repeals it on January 1, 2015.

This bill would delete the date upon which these provisions become inoperative and are repealed.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 714 (SB 1316) Correa Transportation facilities: tolls: Orange and Riverside Counties.

Existing law provides for the Orange County Transportation Authority to assume responsibility for a toll lane on State Highway Route 91 in Orange and Riverside Counties under an assignment of a franchise agreement between the Department of Transportation and a private toll road operator. Existing law authorizes the authority to issue bonds and impose tolls relative to this toll lane, but not to extend beyond 2030, at which point the toll lane would revert to the department. Existing law requires toll revenues from the toll lane to be used for capital and operating expenses of the toll lane, including debt service, and for transportation purposes related to State Highway Route 91. Existing law creates an advisory committee to make recommendations to the authority regarding the toll lane and related issues.

This bill would authorize the Orange County Transportation Authority to eliminate its rights, interests, and obligations in the Riverside County portion of the State Highway Route 91 toll lane by partial assignment to the Riverside County Transportation Commission or by amendment to the franchise agreement. The bill would delete the 2030 limitation on issuance of bonds and collection of tolls, and would provide for the reversion of the portion of the toll lane under the authority's control from the authority to the department at the expiration of the franchise agreement. The bill would authorize use of toll revenues for the toll lane and for other related transportation purposes in the Route 91 corridor.

This bill would authorize the Riverside County Transportation Commission to impose tolls for 50 years on transportation facilities on its portion of State Highway Route 91, subject to extension beyond that time if reauthorized by the Legislature, and would authorize toll revenues to be used for capital and operating expenses of the facilities, including debt service, and for related transportation purposes in the Route 91 corridor. The bill would authorize the

commission to issue bonds for transportation facilities within the Route 91 corridor. The bill would require reversion of the transportation facilities to the department after bonds are repaid unless tolls have been reauthorized by the Legislature. The bill would state that the commission is not entitled to compensation for the adverse effects on toll revenues from construction of competing facilities within the Route 91 corridor by the department or a local agency. These and other related provisions would only apply if the responsibility for the Riverside County portion of the Route 91 franchise agreement is transferred from the authority to the commission.

The bill would delete the requirement for the existing State Highway Route 91 advisory committee and instead create a new advisory committee, with specified responsibilities. Members would be appointed by both the Orange County Transportation Authority and the Riverside County Transportation Commission, with costs of the committee to be shared by both entities. The bill would also require both entities to conduct an annual audit of toll revenues and expenditures. The bill would thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 715 (SB 1329) Harman Charitable institutions: fund management: dissolution.

Existing law, the Uniform Management of Institutional Funds Act (UMIFA), governs the management and use of endowed institutional funds held by charitable institutions. UMIFA governs, among other things, the standard of conduct of a person managing and investing an institutional fund, the delegation of investment management, the appropriation for expenditure of an institutional fund's net appreciation, the investment authority of the institution's governing board, and the release of donor restrictions on the use or investment of an institutional fund.

This bill would repeal these provisions. The bill would instead enact the Uniform Prudent Management of Institutional Funds Act (UPMIFA), which would revise and reenact the provisions contained in UMIFA. Among other things, the bill would require an institution, when managing and investing an institutional fund, to consider the charitable purposes, as defined, of the institution and the purposes of the fund, to act in good faith and with the care of an ordinarily prudent person, to incur only reasonable and appropriate costs, and to take specified factors into consideration. The bill would establish procedures for the modification of restrictions on the use of institutional funds and would authorize a charitable institution to modify a restriction on the use of institutional funds not exceeding \$100,000 and older than 20 years by making a filing with the Attorney General rather than seeking court relief. The bill would also modify the requirements with respect to expenditures and accumulation of endowment funds. The bill would make various other changes to current UMIFA provisions.

Existing law sets forth the requirements for the winding up and involuntary dissolution of a nonprofit public benefit corporation, which include the final settlement of accounts and the filing of a final franchise tax return, among other things.

This bill would authorize a court, in an action brought by and at the request of the Attorney General, to make an order declaring that a nonprofit public benefit corporation is wound up and dissolved without meeting these requirements, upon a finding by the court that it is impossible or impracticable to meet some or all of those requirements.

Ch. 716 (SB 1362) Margett Electrician certification.

Under the existing Contractors' State License Law, the Contractors' State License Board is authorized to establish fees for, among other things, an application for an original license, rescheduling an examination, and the renewal of an active or an inactive license.

This bill would authorize the board, in addition to any other fees charged to C-10 and C-7 contractors, to charge a fee not to exceed \$20, to be used by the board to enforce provisions of the Labor Code related to electrician certification. Because these fees would be deposited into the Contractors' License Fund, which is continuously appropriated, the bill would make an appropriation.

Existing law requires that persons performing work as electricians for specified contractors be certified pursuant to certification standards established by the Division of Apprenticeship Standards within the Department of Industrial Relations.

This bill would require the Chief of the Division of Apprenticeship Standards to develop a process for referring cases to the Contractors' State License Board upon determining that a violation of certification requirements has likely occurred and to execute a memorandum of understanding with the Registrar of Contractors to further this end by July 1, 2009. The bill would authorize the Registrar of Contractors to open an investigation and initiate disciplinary action against a licensed contractor pursuant to these provisions upon his or her own investigation or upon a finding of the Chief of the Division of Apprenticeship Standards alleging a violation of these provisions.

This bill would incorporate additional changes in Section 3099.2 of the Labor Code, proposed by AB 3048, to be operative only if AB 3048 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

Ch. 717 (SB 1366) Negrete McLeod State highway routes: relinquishments.

Existing law provides that the Department of Transportation has full possession and control of all state highways. Existing law describes the authorized routes in the state highway system and establishes a process for adoption of a highway on an authorized route by the California Transportation Commission. Existing law authorizes the commission to relinquish certain state highway segments to local agencies.

This bill would authorize the commission to relinquish to the City of Oxnard certain portions of State Highway Routes 1, 34, and 232 that are located within the city limits of that city under specified conditions. The bill would also authorize the commission to relinquish to the City of Rialto that portion of State Highway Route 66 within its city limits under specified conditions.

This bill would incorporate additional changes to Sections 301 and 366 of the Streets and Highways Code, proposed by both this bill and SB 432, to be operative only if SB 432 and this bill are both enacted, each bill amends the respective sections, and this bill is enacted after SB 432.

Ch. 718 (SB 1437) Padilla Education technology: California Virtual Campus: pupils of public high schools: community college enrollment.

(1) Existing law establishes the California Community Colleges, under the administration of the Board of Governors of the California Community Colleges, as one of the segments of public postsecondary education in this state. Existing law establishes various programs for the purpose of enhancing and implementing education technology at community college districts.

This bill would, pursuant to funding provided to the Board of Governors of the California Community Colleges, authorize the California Virtual Campus to pursue specified purposes relating to education technology to the extent funding is available. The bill would authorize the California Virtual Campus to partner with other educational entities and community-based organizations to facilitate ongoing collaboration and joint efforts relating to the use of technology resources and Internet connectivity. The bill would authorize the California Virtual Campus grant recipients to accomplish specified objectives relating to online education. The bill would require the board of governors, by February 28, 2009, to require the California Virtual Campus to establish a memorandum of understanding with at least 10 community-based organizations, as specified, that provide residents in low-income

neighborhoods with access to high-speed networking and computers. The bill would require that the 10 community-based organizations be selected by a 6-member committee convened by the California Virtual Campus. The bill would require the California Virtual Campus to ensure that pilot program participants have access to adequate technical and operational support. The bill would require, on or before July 1, 2013, the lead agency for the California Virtual Campus to contract for an independent evaluation of, and submit a report to the Public Utilities Commission on, the achievements of the California Virtual Campus' joint efforts with community-based organizations. The bill would limit community college local assistance expenditures to extend high-speed network connectivity to the community-based organizations to \$100,000. The bill would apply to the University of California to the extent that the Regents of the University of California, acting by appropriate resolution, make it applicable. The bill would repeal these provisions of law on January 1, 2014.

(2) Existing law requires the Public Utilities Commission to develop, implement, and administer a program to advance universal service by providing discounted rates to qualifying schools, libraries, hospitals, health clinics, and community organizations, consistent with a specific law.

This bill would specify that a qualifying school under that program must maintain kindergarten or any of grades 1 to 12, inclusive, and would make community colleges eligible for receipt of funding under the program. The bill would require the office of the Chancellor of the California Community Colleges to report specified discount amount information to the Department of Finance no later than September 1 of each year for the immediately preceding fiscal year.

(3) Existing law authorizes the governing board of a school district, upon recommendation of the principal of a pupil's school of attendance, and with parental consent, to authorize a pupil who would benefit from advanced scholastic or vocational work to attend community college as a special part-time student to undertake one or more courses of instruction at the community college level in order to provide educational enrichment opportunities for a limited number of eligible pupils.

Existing law prohibits a principal from recommending, for any particular grade level, for community college summer session attendance, more than 5% of the total number of pupils who completed that grade immediately prior to the time of recommendation. The 5% limitation exempts high school pupils who meet specified criteria.

Existing law makes inoperative the exemption and related provisions on January 1, 2009.

This bill would extend the operation of those provisions by making them inoperative on January 1, 2014.

(4) This bill would incorporate additional changes in Section 48800 of the Education Code proposed by AB 1821, that would become operative only if AB 1821 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

Ch. 719 (SB 1473) Calderon Building standards.

(1) The California Building Standards Law provides for the adoption of building standards by state agencies by requiring all state agencies that adopt or propose adoption of any building standard to submit the building standard to the California Building Standards Commission for approval or adoption.

This bill would require the commission to adopt, approve, codify, update, and publish green building standards for any occupancy for which no state agency has the authority or expertise to propose those standards.

The bill would require each city, county, or city and county to collect a fee from any applicant for a building permit, assessed at the rate of \$4 per \$100,000 in valuation, as determined by the local building official, with appropriate fractions thereof, but not less than \$1. The bill would authorize the city, county, or city and county to retain not more than 10% of the fees collected for related administrative costs and for code enforcement education,

including certifications in the voluntary construction inspector certification program. The bill would require the city, county, or city and county to transmit the remainder to the commission for deposit in the Building Standards Administration Special Revolving Fund which the bill would establish in the State Treasury. The bill would establish a state-mandated local program by imposing additional duties on local government.

The bill would require that all funds received by the commission under the California Building Standards Law be deposited in the fund and be available, upon appropriation, to the commission for expenditure in carrying out these provisions of existing law and certain other provisions of existing law that relate to building standards, with emphasis placed on the development, adoption, publication, updating, and educational efforts associated with green building standards.

The bill would authorize the commission and the Department of Housing and Community Development to use, as the basis for the California Building Standards Code, certain model codes adopted by the commission as the basis for the 2007 triennial edition of the California Building Standards Code.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 720 (SB 1486) Ducheny Otay Mesa East Toll Facility Act.

Existing law authorizes regional transportation agencies, in cooperation with the Department of Transportation, to apply to the California Transportation Commission to develop and operate a value pricing program with high-occupancy toll (HOT) lanes, under which single-occupant vehicles may use designated high-occupancy vehicle lanes at certain times of day upon obtaining a permit and paying a fee. Existing law authorizes the San Diego Association of Governments (SANDAG) to conduct, administer, and operate a value pricing and transit development demonstration program on a maximum of 2 transportation corridors in San Diego County.

This bill would enact the Otay Mesa East Toll Facility Act, which would authorize SANDAG to, among other things, solicit and accept grants of funds and to enter into contracts and agreements for the purpose of establishing highway toll projects to facilitate the movement of goods and people along the State Route 11 corridor in the County of San Diego or at the Otay Mesa East Port of Entry. The bill would provide SANDAG with various additional powers and duties, including, among others, authorizing SANDAG to issue bonds for the acquisition, construction, and completion of transportation facilities and to impose tolls and user fees for the use of the corridor, as defined. The bill would require toll revenues from the Otay Mesa toll facility project to be used to pay for specified costs, including, but not limited to, repaying bonds, the cost to SANDAG for operating the project, and the cost for capital improvements, pursuant to an expenditure plan, as specified. The bill would authorize SANDAG to enter into agreements with the County of San Diego or a city within that county to accept development impact fees for the construction of, and reimbursement for construction of, improvements in the county or city.

Because the bill would impose additional duties on local governmental agencies, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 721 (SB 1519) Yee Local governments: taxicabs.

(1) Existing law requires every city or county to adopt an ordinance or resolution regarding taxicab transportation service, including, but not limited to, provisions for a policy

for the entry into the business of providing taxicab transportation service and for the establishment or registration of rates for the provision of that service.

This bill would require the local agency, defined as the local entity responsible for the regulation of, and enforcement of, rules, regulations, or ordinances governing, taxicabs within the local jurisdiction, upon receipt of a complaint containing sufficient information to warrant conducting an investigation, to investigate any business that advertises a taxicab transportation service for hire identified in the complaint. The bill would require the local agency, by ordinance, resolution, or other appropriate procedure, to adopt criteria that establishes the type of information, if contained in a complaint, that is sufficient to warrant an investigation.

This bill would also require every taxicab transportation service to include the number of its certificate, license, or permit in every written or oral advertisement, as defined, of the services it offers, and would authorize the local agency to impose a fine of not more than \$5,000 if it finds, after a hearing, that a person or corporation is operating as a taxicab transportation service without a valid certificate, license, or permit, or fails to include the number of the certificate or permit in any written or oral advertisement.

(2) Existing law provides for the termination of telephone service by a telephone corporation or telegraph corporation to a charter-party carrier of passengers without a valid certificate or permit, pursuant to specified procedures by the Public Utilities Commission.

This bill would provide for the termination of telephone service by a telephone corporation or telegraph corporation to a taxicab transportation service without a valid certificate, license, or permit and places enforcement of this prohibition with the local agency. By imposing a new or higher level of service upon local governments, this bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 722 (SB 1553) Lowenthal Health care service plans: mental health services.

Existing law provides for licensure and regulation of health care service plans by the Department of Managed Health Care. Existing law imposes various requirements on health care service plans, including, among other things, requirements related to utilization review procedures regarding approval, modification, delay, or denial of health care services to enrollees. Existing law also requires a health care service plan, other than a plan that primarily serves Medi-Cal or Healthy Families Program enrollees, to establish a Web site. A willful violation of the provisions governing health care service plans is a crime.

This bill, relative to mental health services, would prohibit a health care service plan from basing decisions to deny requests by providers for authorization or to deny claim reimbursement on whether admission was voluntary or involuntary or the method of transportation to the health care facility. The bill would also require a health plan that provides coverage for professional mental health services to include information on its Web site that will assist subscribers and enrollees in accessing mental health services.

Because this bill would impose additional requirements on health care service plans, the willful violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 723 (SB 1556) Ducheny School construction.

Existing law establishes the public school system in this state, and, among other things, provides for the establishment of school districts throughout the state and for their provision of instruction at the public elementary and secondary schools they operate and maintain. Existing law establishes a public school funding system that includes, among other elements, the provision of funding to local education agencies through state apportionments, the proceeds of property taxes collected at the local level, and other sources. Existing law establishes procedures for the approval, funding, and completion of school construction projects financed through state funds, including procedures for the calculation by the State Allocation Board of the eligibility of a school district for new construction funding financed by the issuance of state bonds.

This bill would authorize the State Allocation Board to permit an elementary school district with at least 37 elementary schools that is located within a high school district with at least 12 high schools, that has an average daily attendance exceeding 20,000 pupils, and that has geographical boundaries encompassing more than 100 square miles to calculate its eligibility for new construction funding based on a provision that is otherwise applicable only to high school attendance areas.

Ch. 724 (SB 1646) Padilla South Coast Air Quality Management District: air pollution fee.

Existing law, until January 1, 2010, authorizes the South Coast Air Quality Management District to impose a \$1 fee on the renewal of registration of any motor vehicle in the district, and requires the district to utilize the revenues generated by the imposition of that fee to reduce air pollution from motor vehicles through the implementation of a clean-burning fuel program in that district. Existing law requires these fees to be deposited in a clean fuels and transportation control measures account, and requires that no more than 2½% of the funds in the account be used for administrative costs.

This bill would extend the authority of the district to impose the fee indefinitely, and would require that no more than 5% of the funds in the account be used for administrative purposes.

Ch. 725 (SB 1662) Cox Air districts: emission reduction offsets: Sacramento metro federal nonattainment area.

Under existing law, increases in emissions of air pollutants at a stationary source located in an air pollution control district or air quality management district may be offset by emission reductions credited to a stationary source located in another district if both stationary sources are located in the same air basin.

This bill would allow one stationary source located in the El Dorado County Air Quality Management District, to be determined by the El Dorado County Air Quality Management District, to offset increases in emissions by emission reductions credited to any stationary source located in the Sacramento Metropolitan Air Quality Management District if both stationary sources are in the Sacramento metro federal nonattainment area.

This bill would state the findings and declarations of the Legislature concerning the need for special legislation.

The bill would impose a state-mandated local program by imposing new duties on the districts relative to determining the applicability of the offsets.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 726 (SB 1666) Calderon Crime: school zones.

Existing law defines the term "safe school zone" as an area that encompasses any of specified places during regular school hours or within 60 minutes before or after the schoolday or 60 minutes before or after a school-sponsored activity at the schoolsite.

This bill would specify, for that purpose, that “school” includes any public or private school.

Existing law defines “safe school zone” as the area within 1,000 feet of a school.

This bill would expand the definition of “safe school zone” as the area within 1,500 feet of a school.

Existing law prohibits certain suspended or dismissed students or employees and certain persons who have been directed to leave a school campus or facility from entering the campus or facility.

This bill would specify that these provisions apply to public and private schools.

Existing law provides that a person who comes into any school building or upon any school ground, or adjacent street, sidewalk, or public way, whose presence or acts interfere with or disrupt a school activity, without lawful business, who remains after having been asked to leave as specified, is guilty of a public offense. Existing law also provides that certain drug offenders who come into those areas within 30 minutes of a school activity, as defined, are guilty of a public offense, except as specified.

This bill would specify that these provisions apply to both public and private schools.

The bill would make related changes.

Because this bill would expand the definition of several crimes, it would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

#### Ch. 727 (SB 1690) Wiggins Dungeness crab.

Existing law regulates the Dungeness crab fishery and permits the Director of Fish and Game to delay the opening of the Dungeness crab fishery in specified situations and regulates the taking of crab during those delays. Existing law sets forth the qualifications for a Dungeness crab vessel permit, and provides that no person shall use a vessel to take, possess, or land Dungeness crab for commercial purposes without a Dungeness crab vessel permit.

Existing law establishes the Ocean Protection Council and requires the council to, among other things, coordinate activities of state agencies that are related to the protection and conservation of coastal waters and ocean ecosystems, to improve the effectiveness of state efforts to protect ocean resources within existing fiscal limitations.

This bill would require the council to make a grant, upon appropriation of funding by the Legislature, for the development and administration of a Dungeness crab task force, and would specify the membership of the task force. The bill would require the task force, among other things, to review and evaluate Dungeness crab management measures, with the objective of making recommendations related to Dungeness crab to the Joint Committee on Fisheries and Aquaculture, the Department of Fish and Game, and the Fish and Game Commission by January 15, 2010. The task force would cease to exist on January 1, 2011.

The provisions of the bill would be repealed on January 1, 2011, as specified.

#### Ch. 728 (SB 375) Steinberg Transportation planning: travel demand models: sustainable communities strategy: environmental review.

(1) Existing law requires certain transportation planning activities by the Department of Transportation and by designated regional transportation planning agencies, including development of a regional transportation plan. Certain of these agencies are designated under federal law as metropolitan planning organizations. Existing law authorizes the California Transportation Commission, in cooperation with the regional agencies, to prescribe study areas for analysis and evaluation.

This bill would require the commission to maintain guidelines, as specified, for travel demand models used in the development of regional transportation plans by metropolitan planning organizations. The bill would require the commission to consult with various

agencies in this regard, and to form an advisory committee and to hold workshops before amending the guidelines.

This bill would also require the regional transportation plan for regions of the state with a metropolitan planning organization to adopt a sustainable communities strategy, as part of its regional transportation plan, as specified, designed to achieve certain goals for the reduction of greenhouse gas emissions from automobiles and light trucks in a region. The bill would require the State Air Resources Board, working in consultation with the metropolitan planning organizations, to provide each affected region with greenhouse gas emission reduction targets for the automobile and light truck sector for 2020 and 2035 by September 30, 2010, to appoint a Regional Targets Advisory Committee to recommend factors and methodologies for setting those targets, and to update those targets every 8 years. The bill would require certain transportation planning and programming activities by the metropolitan planning organizations to be consistent with the sustainable communities strategy contained in the regional transportation plan, but would state that certain transportation projects programmed for funding on or before December 31, 2011, are not required to be consistent with the sustainable communities strategy process. To the extent the sustainable communities strategy is unable to achieve the greenhouse gas emission reduction targets, the bill would require affected metropolitan planning organizations to prepare an alternative planning strategy to the sustainable communities strategy showing how the targets would be achieved through alternative development patterns, infrastructure, or additional transportation measures or policies. The bill would require the State Air Resources Board to review each metropolitan planning organization's sustainable communities strategy and alternative planning strategy to determine whether the strategy, if implemented, would achieve the greenhouse gas emission reduction targets. The bill would require a strategy that is found to be insufficient by the state board to be revised by the metropolitan planning organization, with a minimum requirement that the metropolitan planning organization must obtain state board acceptance that an alternative planning strategy, if implemented, would achieve the targets. The bill would state that the adopted strategies do not regulate the use of land and are not subject to state approval, and that city or county land use policies, including the general plan, are not required to be consistent with the regional transportation plan, which would include the sustainable growth strategy, or the alternative planning strategy. The bill would also require the metropolitan planning organization to hold specified informational meetings in this regard with local elected officials and would require a public participation program with workshops and public hearings for the public, among other things. The bill would enact other related provisions.

Because the bill would impose additional duties on local agencies, it would impose a state-mandated local program.

(2) The Planning and Zoning Law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. Existing law requires the housing element to identify the existing and projected housing needs of all economic segments of the community.

Existing law requires the housing element, among other things, to contain a program which sets forth a 5-year schedule of actions of the local government to implement the goals and objectives of the housing element. Existing law requires the program to identify actions that will be undertaken to make sites available to accommodate various housing needs, including, in certain cases, the rezoning of sites to accommodate 100% of the need for housing for very low and low-income households.

This bill would instead require the program to set forth a schedule of actions during the planning period, as defined, and require each action to have a timetable for implementation. The bill would generally require rezoning of certain sites to accommodate certain housing needs within specified times, with an opportunity for an extension time in certain cases, and would require the local government to hold a noticed public hearing within 30 days after the deadline for compliance expires. The bill would, under certain conditions, prohibit a local

government that fails to complete a required rezoning within the timeframe required from disapproving a housing development project, as defined, or from taking various other actions that would render the project infeasible, and would allow the project applicant or any interested person to bring an action to enforce these provisions. The bill would also allow a court to compel a local government to complete the rezoning within specified times and to impose sanctions on the local government if the court order or judgment is not carried out, and would provide that in certain cases the local government shall bear the burden of proof relative to actions brought to compel compliance with specified deadlines and requirements.

Existing law requires each local government to review and revise its housing element as frequently as appropriate, but not less than every 5 years.

This bill would extend that time period to 8 years for those local governments that are located within a region covered by a metropolitan planning organization in a nonattainment region or by a metropolitan planning organization or regional transportation planning agency that meets certain requirements. The bill would also provide that, in certain cases, the time period would be reduced to 4 years or other periods, as specified.

The bill would enact other related provisions. Because the bill would impose additional duties on local governments relative to the housing element of the general plan, it would thereby impose a state-mandated local program.

(3) The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment.

This bill would exempt from CEQA a transit priority project, as defined, that meets certain requirements and that is declared by the legislative body of a local jurisdiction to be a sustainable communities project. The transit priority project would need to be consistent with a metropolitan planning organization's sustainable communities strategy or an alternative planning strategy that has been determined by the State Air Resources Board to achieve the greenhouse gas emission reductions targets. The bill would provide for limited CEQA review of various other transit priority projects.

The bill, with respect to other residential or mixed-use residential projects meeting certain requirements, would exempt the environmental documents for those projects from being required to include certain information regarding growth inducing impacts or impacts from certain vehicle trips.

The bill would also authorize the legislative body of a local jurisdiction to adopt traffic mitigation measures for transit priority projects. The bill would exempt a transit priority project seeking a land use approval from compliance with additional measures for traffic impacts, if the local jurisdiction has adopted those traffic mitigation measures.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 729 (SB 732) Steinberg Environment.

The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006, an initiative statute approved by the voters at the November 7, 2006, statewide general election makes about \$5.4 billion in bond funds available for safe

drinking water, water quality and supply, flood control, natural resource protection, and park improvements.

This bill would require the State Department of Public Health, the Department of Fish and Game, and the San Francisco Bay Area Conservancy, when implementing the provisions of the initiative, among other things, to develop and adopt guidelines and regulations, consult with other entities, conduct studies, and follow certain procedures for establishing a project, grant, loan, or other financial assistance program implementing the initiative.

The bill would establish the Strategic Growth Council and would appropriate \$500,000 from the funding provided by the initiative to the Resources Agency to support the council and its activities. The bill would require the council to take certain actions with regard to coordinating programs of member state agencies to improve air and water quality, improve natural resource protection, increase the availability of affordable housing, improve transportation, meet the goals of the California Global Warming Solutions Act of 2006, encourage sustainable land use planning, and revitalize urban and community centers in a sustainable manner. The council would be required to manage and award grants and loans to support the planning and development of sustainable communities, for preparing, adopting, and implementing general plans, general plan elements, regional plans, or other planning instruments, and for preparing, planning, and implementing urban greening plans. The council would also be required to, not later than July 1, 2010, and every year thereafter, provide a report to the Legislature with specified information regarding the management of the grants and loans.

The bill would provide that in any case in which the provisions of the bill and the initiative conflict, the initiative shall prevail.

#### Ch. 730 (SB 691) Calderon Junk dealers and recyclers: nonferrous material.

Existing law requires junk dealers and recyclers, as defined, to keep written records of all sales and purchases made in the course of their business. Existing law requires these records to include, among other things, the place and date of each sale or purchase of junk, a description of the item of junk, and the personal and vehicle information of the person purchasing or transporting the junk. Existing law exempts certain purchases of scrap metals by a junk dealer or recycler from these provisions. A violation of the provisions regulating junk dealers and recyclers is a crime.

This bill would require a junk dealer or recycler to report the information included in those written records to the chief of police or sheriff, as specified, upon request and on a monthly basis. The bill would authorize the chief of police or sheriff to request weekly reports for no more than a 2-month period, except as specified, if there is an ongoing investigation of the junk dealer or recycler concerning possible criminal activity.

The bill would prohibit a junk dealer or recycler from providing payment for nonferrous material, as defined, unless the payment is made by cash or check, the check is mailed or the cash or check is provided no earlier than 3 days after the date of sale, and the dealer or recycler obtains a photograph or video of the seller and certain other identifying information, as specified, including the thumbprint of a seller, to be retained by the dealer or recycler for a certain period of time. The bill would specify an exception to the payment by cash or check requirement and provide that these requirements do not apply to the redemption of nonferrous materials of a certain value at a recycling center, as specified, or to coin dealers or automobile dismantlers. The bill would also prohibit a city, county, or city and county, from adopting an ordinance related to junk dealer or recycler transactions involving nonferrous material, except under specified circumstances.

Under existing law, a knowing and willful violation of the recordkeeping requirements applicable to junk dealers and recyclers is punishable by specified fines, by imprisonment in the county jail for a specified period of time, or by both that fine and imprisonment. Existing law requires that, for a 3rd or subsequent violation, the court order the defendant to stop engaging in business as a junk dealer or recycler for a period of 30 days.

This bill would increase the minimum fines for those violations, as specified, and would also require the court, for a 3rd or subsequent violation, to order the defendant to stop engaging in business as a junk dealer or recycler for a period not less than one year. The bill would further impose a specified civil fine for the unauthorized disclosure of a seller's personal identification information.

Under existing law, when a peace officer has probable cause to believe that property in the possession of a junk dealer or recycler is stolen, the peace officer may place a hold on that property. Existing law requires a court, upon conviction of a person for the theft of that property, to order the defendant to pay the reasonable costs for the storage of the property.

This bill would also require the court to order the defendant to pay the victim for the value of the property stolen and any reasonable collateral damage caused in the commission of the theft.

Because a violation of the bill's provisions would be a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute and would provide that its provisions shall become operative on December 1, 2008.

#### Ch. 731 (AB 844) Berryhill Junk dealers and recyclers: nonferrous material.

Existing law requires junk dealers and recyclers, as defined, to keep written records of all sales and purchases made in the course of their business. Existing law requires these records to include, among other things, the place and date of each sale or purchase of junk, a description of the item of junk, and the personal and vehicle information of the person selling, purchasing, or transporting the junk. Existing law exempts certain purchases of scrap metals by a junk dealer or recycler from these provisions. A violation of the provisions regulating junk dealers and recyclers is a crime.

This bill would require a junk dealer or recycler to report the information included in those written records to the chief of police or sheriff, as specified, upon request and on a monthly basis. The bill would authorize the chief of police or sheriff to request weekly reports for no more than a 2-month period, except as specified, if there is an ongoing investigation of the junk dealer or recycler concerning possible criminal activity.

This bill would prohibit a junk dealer or recycler from providing payment for nonferrous material, as defined, unless the payment is made by cash or check, the check is mailed or the cash or check is provided no earlier than 3 days after the date of sale, and the dealer or recycler obtains a photograph or video of the seller and certain other identifying information, as specified, including the thumbprint of a seller, to be retained by the dealer or recycler for a certain period of time. The bill would specify an exception to the payment by cash or check requirement and provide that these requirements do not apply to the redemption of nonferrous materials of a certain value at a recycling center, as specified, or to coin dealers or automobile dismantlers. The bill would also prohibit a city, county, or city and county from adopting an ordinance related to junk dealer or recycler transactions involving nonferrous material, except under specified circumstances.

Under existing law, a knowing and willful violation of the recordkeeping requirements applicable to junk dealers and recyclers is punishable by specified fines, by imprisonment in the county jail for a specified period of time, or by both that fine and imprisonment. Existing law requires that, for a 3rd or subsequent violation, the court order the defendant to stop engaging in business as a junk dealer or recycler for a period of 30 days.

This bill would increase the minimum fines for those violations, as specified, and would also require the court, for a 3rd or subsequent violation, to order the defendant to stop engaging in business as a junk dealer or recycler for a period of not less than one year. The

bill would further impose a specified civil fine for the unauthorized disclosure of a seller's personal identification information.

Under existing law, when a peace officer has probable cause to believe that property in the possession of a junk dealer or recycler is stolen, the peace officer may place a hold on that property. Existing law requires a court, upon conviction of a person for the theft of that property, to order the defendant to pay the reasonable costs for the storage of the property.

This bill would also require the court to order the defendant to pay the victim for the value of the property stolen and any reasonable collateral damage caused in the commission of the theft.

Because a violation of this bill's provisions would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute and would provide that its provisions shall become operative on December 1, 2008.

#### Ch. 732 (SB 447) Maldonado Junk dealers.

Existing law requires junk dealers and recyclers, as defined, to keep specified written records of all sales and purchases made in the course of business.

This bill would require a junk dealer or recycler to report that information to the chief of police of the city or the sheriff of the county in which the junk dealer or recycler sold or purchased the junk.

#### Ch. 733 (AB 1778) Ma Junk dealers and recyclers: newspaper and California Redemption Value (CRV) containers.

Existing law requires junk dealers and recyclers, as defined, to keep written records of all sales and purchases made in the course of their business. Existing law requires these records to include specified information, including, among other things, the place and date of each sale or purchase of junk, a description of the item of junk, and the personal and vehicle information of the person purchasing or transporting the junk. Existing law exempts certain purchases of scrap metals by a junk dealer or recycler from these provisions. A violation of these provisions regulating junk dealers and recyclers is a crime.

This bill would prohibit a junk dealer or recycler, as defined, in specified jurisdictions, from providing payment for newspaper and for California Redemption Value (CRV) containers unless, except as specified, the payment is made by check and the dealer or recycler obtains certain identifying information, as specified, to be retained by the dealer or recycler for a certain period of time. The bill would specify that this provision does not apply to the payment for newspaper having a value of \$50 or less in a single transaction or CRV containers having a value of \$100 or less in a single transaction.

Because a violation of these provisions would be a crime, this bill would impose a state-mandated local program.

The bill would also prohibit any unauthorized disclosure of personal identification information collected from a seller by a junk dealer or recycler. Violation of the prohibition would subject the violator to a civil fine not to exceed \$5,000.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 734 (AB 334) Levine Remote caller bingo.

Existing law permits cities, counties, and cities and counties to allow bingo games to be conducted by specified organizations for charitable purposes. Existing law provides for the licensure and regulation of gambling establishments, as defined, by the California Gambling Control Commission.

This bill would appropriate up to \$500,000, as determined by order of the Director of Finance, to the commission for use in the 2008–09 fiscal year for purposes relating to the regulation of remote caller bingo, as specified.

The bill would become operative only if SB 1369 of the 2007–08 Regular Session is enacted and becomes operative.

Ch. 735 (AB 583) Hancock Political Reform Act of 1974: California Fair Elections Act of 2008.

(1) Under the Political Reform Act of 1974 a public officer is prohibited from expending or accepting any public moneys for the purpose of seeking elective office.

This bill would repeal that prohibition and would enact the California Fair Elections Act of 2008, which would authorize eligible candidates for Secretary of State to obtain public funds according to specified procedures and requirements, provided that certain thresholds are attained. The bill would impose primary responsibility for the administration of the provisions of the bill on the Fair Political Practices Commission. This bill would create the Fair Elections Fund and, commencing January 1, 2011, would transfer funds from the Fair Elections Fund to the Fair Political Practices Commission for the purpose of the public financing provisions of the act. The bill would also establish nonrefundable fees to be imposed on lobbyists, lobbying firms, and lobbyist employers. The fees collected are to be deposited, in part, in the Fair Elections Fund. The bill would make funding for the administrative and enforcement costs of the act available from the Fair Elections Fund. The bill would require that the available funds, for each 4-year election cycle, would be no more than 10% of the total amount deposited in the Fair Elections Fund during the 4-year election cycle. The bill would repeal specified provisions on January 1, 2019.

(2) Existing law, relating to the administration of personal income taxes, authorizes individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds or accounts.

This bill would additionally allow taxpayers to designate on their tax returns that a specified amount in excess of their tax liability be transferred to the Voters Fair Elections Fund, which would be created by this bill. The bill would provide that all moneys contributed to the fund pursuant to these provisions, upon appropriation by the Legislature, be allocated to the Franchise Tax Board and the Controller for reimbursement of costs and to the Fair Political Practices Commission, as specified.

The bill would provide that these voluntary contribution provisions are repealed on either January 1 of the 5th taxable year following the taxable year the fund first appears on the personal income tax return, or on January 1 of an earlier calendar year, if the Franchise Tax Board estimates that the annual contribution amount will be less than \$250,000, or an adjusted amount for subsequent taxable years.

(3) The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act by a statute that becomes effective only when approved by the voters.

This bill would require the Secretary of State to submit those provisions of the act that amend the Political Reform Act of 1974 to the voters for approval at the June 8, 2010, statewide primary election.

Ch. 736 (AB 2042) Fuentes Vehicles: removal.

Existing law authorizes a peace officer, as defined, or a regularly employed and salaried public employee, who is engaged in directing traffic or enforcing parking laws and regulations of a city, county, or jurisdiction of a state agency in which a vehicle is located, to remove and impound a vehicle located within the territorial limits in which the officer or

employee may act, under specified circumstances, including, among other things, when a vehicle is parked or left standing upon a highway in a position so as to obstruct the normal movement of traffic or in a condition so as to create a hazard to other traffic upon the highway.

This bill would additionally authorize a peace officer to remove and impound a vehicle when he or she issues a citation to a person acting as a dealer, remanufacturer, manufacturer, or transporter, or as a manufacturer branch, remanufacturer branch, distributor, or distributor branch without a valid license or temporary permit from the Department of Motor Vehicles and the vehicle is being offered for sale.

This bill would also make technical changes to these provisions to correct an obsolete cross-reference.

This bill would incorporate changes to Section 22651 of the Vehicle Code proposed by both this bill and AB 2402, which would become operative only if both bills are enacted and this bill is enacted after AB 2402.

#### Ch. 737 (AB 2050) Garcia Mobilehomes and manufactured homes.

(1) The Mobilehomes-Manufactured Housing Act of 1980 requires the Department of Housing and Community Development to enforce various laws pertaining to the structural, fire safety, plumbing, heat-producing, or electrical systems and installations or equipment of a manufactured home, mobilehome, special purpose commercial coach, or commercial coach. Under existing law, a knowing violation of the act, as specified, is punishable as a misdemeanor offense.

This bill would require all fuel-gas-burning water heater appliances installed in new manufactured homes or new multifamily manufactured homes, or installed as replacement fuel-gas-burning water heater appliances in existing mobilehomes, existing manufactured homes, or existing multifamily manufactured homes that are offered for sale, rent, or lease, would be required to be seismically braced, anchored, or strapped. All new or used mobilehomes, manufactured homes, or multifamily manufactured homes that are sold would be required to have the fuel-gas-burning water heater appliances seismically braced, anchored, or strapped. The Department of Housing and Community Development would be required to promulgate rules and regulations that include standards for water heater seismic bracing, anchoring, or strapping. By creating a new crime or expanding an existing crime, this bill would impose a state-mandated local program.

(2) Under the act, all used mobilehomes and manufactured homes sold in this state on and after January 1, 1986, are required to be equipped with an operable smoke detector.

This bill instead would require, commencing on or after January 1, 2009, all used manufactured homes, used mobilehomes, and used multifamily manufactured homes that are sold to have a smoke alarm installed in each room designed for sleeping that is operable on the date of transfer of title, as specified.

(3) This bill would incorporate additional changes in Section 18031.7 of the Health and Safety Code, proposed by AB 2016, to be operative only if AB 2016 and this bill are both chaptered and become effective on or before January 1, 2009, and this bill is chaptered last.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that the Legislature finds there is no mandate contained in the bill that will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to these constitutional and statutory provisions.

#### Ch. 738 (AB 2059) Nunez Mailed solicitations: disclosures.

Existing law regulates the solicitation of sales by telephonic sellers, as defined, and specifies those representations by a telephonic seller to a prospective purchaser that constitute a telephonic solicitation for purposes of this law. Existing law prohibits, subject

to certain exceptions, a telephone solicitor from calling any California telephone number, beginning on or after the 31st day after the national “do not call” list becomes available, to, among other things, seek to offer a prize; to rent, sell, exchange, promote, gift, or lease any goods or services; to offer or solicit credit; to seek certain marketing information; or to seek to sell or promote any investment, insurance, or financial services. Existing law does not prohibit a telephone solicitor from contacting by mail a subscriber whose telephone number appears on the “do not call” list to obtain the subscriber’s express written permission allowing the telephone solicitor to make the otherwise prohibited calls. A violation of these provisions is a crime, punishable by specified penalties, and a violation of the provisions applicable to the “do not call” registry are subject to specified civil liability.

This bill would require a person that sends a solicitation by mail that solicits a recipient whose telephone number is not on the national “do not call” registry to consent to receive information via telephone to include a clear and conspicuous identification of the sender and of the entity that is requesting permission to call, the telephone number to which the calls are to be placed, and notice that the recipient may be contacted by a telephone solicitor. A violation of this provision would not be a crime, but would be subject to enforcement by any available civil remedies. The bill would require an express written permission to call a recipient who is on the “do not call” list to contain certain information, including identification of the sender of the mailing and of the entity that is requesting permission to call, the telephone number to which the calls may be placed, the signature of the recipient authorizing the calls, and specified notice, unless there is an established business relationship between the subscriber and the solicitor, in which case express written permission would not be required. A violation of this provision would be a crime, punishable by specified penalties and would be subject to specified civil liability.

Because this bill would impose a new crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 739 (AB 2136) Mendoza Prepaid calling cards.

Existing law regulates the advertising and sale of prepaid calling cards and services. Existing law requires an advertisement of the price, rate, or unit value in connection with the sale of prepaid calling cards or services to include specified information, and requires certain information to be legibly printed on a prepaid calling card. Existing law also requires a company that sells prepaid calling cards and services and a vendor to make certain disclosures regarding fees and surcharges on the card and packaging and at the point of sale, and requires the company to maintain a toll-free customer service telephone number, meeting specified requirements. Existing law requires a company that issues prepaid calling cards or services to provide a refund within 60 days to any purchaser of a card or services if the network services associated with the card or services fail to operate in a commercially reasonable manner. Existing law makes it a crime to violate any of these provisions.

This bill would instead require an advertisement of the price, rate, or unit value in connection with the sale of prepaid calling cards or services to clearly and conspicuously disclose any geographic limitation and all ancillary charges and conditions, as specified. The bill would impose additional requirements upon a company that issues prepaid calling cards or services, including, upon a rate increase at the time of recharge, a requirement that the customer be informed of that increase prior to the customer agreeing to pay for the recharge. The bill would also require the information that is to be printed legibly on a card or packaging to be readable without having to open the packaging, and would require that information to be current, as specified. The bill would prohibit a person from offering or selling any prepaid calling card or prepaid calling services that do not contain the information required to be

disclosed on the card or packaging, and would require a distributor that sells directly to a retail vendor to provide the vendor with the current information required to be displayed by the vendor. The bill would further require a company that sells prepaid calling cards and services to provide a voice prompt at the beginning of each call that states the number of minutes that are available for that call. The bill would require a refund based on the failure of network services associated with prepaid calling cards or services to be made within 30 days.

By creating new requirements with respect to the advertising and sale of prepaid calling cards, the violation of which would be a crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**Ch. 740 (AB 2181) Ruskin Workers' compensation: reports of occupational injury or illness.**

Existing law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an employee for injuries sustained in the course of his or her employment.

Existing law requires an employer to file a complete report of every occupational injury or occupational illness, as defined, to each employee that results in lost time beyond the date of the injury or illness, or that requires medical treatment beyond first aid, with the department, through its Division of Labor Statistics and Research or, if an insured employer, with the insurer, on a form prescribed for that purpose by the Division of Labor Statistics and Research.

This bill would, instead, require an insured employer to file the report with the insurer on a form prescribed by the Administrative Director of the Division of Workers' Compensation. This bill would require a self-insured employer, the state, or the insurer of an insured employer to file the report in an electronic form prescribed for that purpose by the administrative director. The bill would provide that these changes shall become effective upon the effective date of regulations adopted by the administrative director to implement these changes, subject to specified conditions.

**Ch. 741 (AB 2401) Karnette Vehicles: parking violations.**

Existing law requires the Department of Motor Vehicles to refuse to renew the registration of a vehicle if the registered owner or lessee has been mailed a notice of delinquent parking violation relating to standing or parking from the processing agency, the processing agency has transmitted to the department an itemization of unpaid parking penalties, and the owner or lessee has not paid the parking penalties.

This bill would prohibit the department or a processing agency from collecting outstanding parking or toll evasion penalties and administrative fees from the registered owner or lessee of a vehicle, as specified, if the citation or citations were issued prior to the registered owner or lessee taking possession of the vehicle and the department has made a specified notification to the processing agency. The bill would also prohibit the department from refusing to renew the registration of the vehicle, except as specified.

The bill would also require the processing agency to terminate proceedings on or cancel a notice of a delinquent parking or toll evasion violation or violations if the registered owner or lessee of the vehicle, as specified, provides proof to the processing agency that he or she was not the registered owner or the lessee on the date of the violation, but would not limit or impair the ability or right of the processing agency to seek collection from the registered owner or lessee on the date of the violation.

Ch. 742 (AB 2433) Krekorian Civil discovery: subpoenas.

Existing law accords certain rights and protections to a consumer whose personal records are subject to a subpoena that is directed to a witness with whom the consumer has transacted business or who has acted as agent or fiduciary of the consumer. Existing law also accords certain rights and protections to an employee whose employment records are subject to a subpoena that is directed to his or her employer or a labor organization that has represented the employee. Under existing law, those rights and protections include the power of the court to make an order quashing, modifying, or directing compliance with the subpoena, and to make any other order appropriate to protect the consumer or the employee from unreasonable or oppressive demands. The court may award reasonable expenses incurred in making or opposing the motion for the order, including reasonable attorney's fees, if the court finds the motion was made or opposed in bad faith, without substantial justification, or that any requirement of the subpoena was oppressive.

This bill would authorize the court to make these orders to protect a person whose personally identifying information, as defined, is sought. The court would be authorized under the above provisions to award reasonable expenses incurred in making or opposing the motion for the order, including reasonable attorney's fees, if the court finds the motion was made or opposed in bad faith, without substantial justification, or that any requirement of the subpoena was oppressive. However, the court would be required to award reasonable expenses, including reasonable attorney's fees, incurred in making the motion for an order to quash or modify a subpoena for personally identifying information from a court of this state for use in an action pending in another state, territory, or district of the United States, or in a foreign nation, if the moving party prevails and that subpoena has been served on any Internet service provider, or on the provider of any other interactive computer service, and if the underlying action arises from the moving party's exercise of free speech rights on the Internet and the respondent has failed to make a prima facie showing of a cause of action.

Ch. 743 (AB 2436) Emmerson Recreational vehicles: dealer agreements.

(1) Existing law, with regard to dealer and manufacturer agreements involving recreational vehicles, prohibits a licensed manufacturer, manufacturer branch, distributor, or distributor branch, upon mutual agreement of the parties to enter into a dealer agreement, from failing or refusing to provide a written dealer agreement to the recreational vehicle dealer that complies with statutory franchise requirements. A violation of these provisions is a crime.

This bill would instead provide that under these circumstances, failing or refusing to provide a recreational vehicle franchise, as defined by the bill, that complies with requirements established for that agreement, to the recreational vehicle dealer would be prohibited. The bill additionally would prohibit a licensed recreational vehicle manufacturer, manufacturer branch, distributor, or distributor branch from selling new recreational vehicles in this state to or through a dealer without having first entered into a written recreational vehicle franchise with that recreational vehicle dealer, signed by both parties. A recreational vehicle dealer would be prohibited from selling new recreational vehicles in this state without a written recreational vehicle franchise with a licensed recreational vehicle manufacturer, manufacturer branch, distributor, or distributor branch signed by both parties.

The bill would also prohibit, on or after January 1, 2009, a recreational vehicle manufacturer, manufacturer branch, distributor, or distributor branch from shipping to a recreational vehicle dealer, and a recreational vehicle dealer would be prohibited from receiving from one of those entities, a new recreational vehicle on or after January 1, 2009, without a recreational vehicle franchise signed by both parties. The bill would authorize a new recreational vehicle inventory purchased by a recreational vehicle dealer, or shipped by a recreational vehicle manufacturer, manufacturer branch, distributor, or distributor branch, before January 1, 2009, to be sold without a recreational vehicle franchise. This bill would also define recreational vehicle franchise.

Because a violation of this prohibition would be a crime, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 744 (AB 2842) Berg Solicitation: unfair business practices.

Existing law provides for licensing and regulation of health care service plans by the Department of Managed Health Care. Existing law provides for regulation of health insurers by the Insurance Commissioner. Existing law regulates the solicitation of health care service plan products and health insurance. Existing law prohibits certain unfair insurance practices specifically and unfair business practices in general. Existing law provides that a willful violation of provisions governing health care service plans is a crime.

This bill would provide that it is an unfair business practice for health insurance agents or brokers and various parties engaged in the solicitation of health care service plans to engage in cold lead advertising, as defined, when marketing a Medicare product or to use an appointment made to discuss a particular Medicare product to solicit the sale of another Medicare product or other health care coverage or health insurance products, except as specified. Because a willful violation of provisions governing health care service plans would be a crime, this bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 745 (AB 2885) De La Torre Telecommunications: mobile telephony service: prepaid service.

(1) Existing law authorizes the Public Utilities Commission to regulate telecommunications services and rates of telephone corporations, except to the extent regulation is preempted by federal law. Existing law generally requires an entity offering the services of telephone prepaid debit cards to register with the commission. An unregistered entity is prohibited from offering the services of telephone prepaid debit cards.

Other existing law regulating the advertising and sale of prepaid calling cards and services requires a company that sells prepaid calling cards and services to follow certain standards and requirements for consumer disclosure and services.

This bill would authorize the commission to enforce the standards and requirements for consumer disclosure and services applicable to sellers of prepaid calling cards and services.

(2) Under existing law, a violation of the Public Utilities Act or an order or direction of the commission is a crime. Because this bill would be part of the act and authorize an order or other action of the commission to implement its provisions and a violation of that order or action would be a crime, the bill would impose a state-mandated local program by expanding the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

#### Ch. 746 (SB 31) Simitian Identification documents.

The Information Practices Act of 1977 regulates the collection and disclosure of personal information regarding individuals by state agencies, except as specified. Existing law also

prohibits certain business entities, as defined, from making specified disclosures in relation to individual consumer records.

This bill would provide that a person or entity that intentionally remotely reads or attempts to remotely read a person's identification document using radio frequency identification (RFID) without his or her knowledge and prior consent, as described, shall be punished by imprisonment in a county jail for up to one year, a fine of not more than \$1,500, or both that fine and imprisonment, except as specified. The bill would also provide that a person or entity that knowingly discloses, or causes to be disclosed, specified operational system keys shall be punished by imprisonment in a county jail for up to one year, a fine of not more than \$1,500, or both that fine and imprisonment. By creating new crimes, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 747 (SB 1271) Cedillo Workers' compensation: cancer presumption: firefighters and fire and rescue services coordinators.

Existing law establishes a workers' compensation system to compensate an employee for injuries sustained in the course of his or her employment, and requires an employer to provide, or pay for all reasonable costs of, medical services necessary to care for or relieve work-related injuries. Existing law further provides that in the case of active firefighting members of certain state and local fire departments and in the case of certain peace officers, a compensable injury includes cancer that develops or manifests itself during the period when the firefighter or peace officer demonstrates that he or she was exposed, while in the service of the public agency, to a known carcinogen, as defined, and the carcinogen is reasonably linked to the disabling cancer. Existing law establishes a presumption that the cancer in these cases is presumed to arise out of, and in the course of, employment, unless the presumption is controverted by evidence that the primary site of the cancer has been established and that the carcinogen to which the member has demonstrated exposure is not reasonably linked to the disabling cancer.

This bill would extend the application of these provisions to active firefighting members of a fire department that serves a United States Department of Defense installation and who are certified by the Department of Defense as meeting its standards for firefighters and to fire and rescue services coordinators, as defined, who work for the Office of Emergency Services.

Ch. 748 (SB 1369) Cedillo Remote caller bingo.

Existing law permits cities, counties, and cities and counties to allow bingo games to be conducted by specified organizations for charitable purposes, subject to provisions of law which, if violated, constitute a crime. Existing law defines bingo for the purposes of these provisions as a game of chance in which prizes are awarded on the basis of designated numbers or symbols on a card that conform to numbers or symbols that are selected at random. Existing law prohibits the total value of prizes awarded for any bingo game from exceeding \$250 in cash or kind, or both, for each separate game that is held. Existing law prohibits any person from receiving or paying a profit, wage, or salary from any bingo game, except that security personnel employed by the organization conducting the bingo game may be paid from bingo game revenues. A violation of this provision is a misdemeanor.

This bill would also permit cities, counties, and cities and counties to allow bingo games to be conducted by school districts and certain religious and veterans' organizations for charitable purposes. The bill would modify the definition of bingo to mean a game of chance in which prizes are awarded on the basis of designated numbers or symbols that are marked or covered by the player on a tangible card in the player's possession and that conform to numbers or symbols, selected at random and announced by a live caller. The bill would

prohibit the use of electronics or video displays in connection with a bingo game, except as specified, and would also increase the allowable value of prizes for a bingo game to \$500. By changing the definition of a crime, this bill would impose a state-mandated local program.

This bill would also permit cities, counties, and cities and counties to allow remote caller bingo games to be conducted by specified organizations, including charitable organizations affiliated with a school district. The bill would define remote caller bingo as bingo games in which the organization conducting the game uses audio or video technology to link electronically any of its in-state facilities for the purpose of the remote calling of a game from a single location to multiple locations owned, leased, or rented by that organization or pursuant to specified agreements. The bill would limit the operation of remote caller bingo games to organizations that have been incorporated or in existence for 3 years or more, and would allow the organization conducting the game to pay administrative, managerial, technical, financial, and security personnel reasonable fees for services rendered from bingo game revenues, with certain limitations. The bill would prohibit the value of prizes awarded during the conduct of any remote caller bingo game from exceeding 37% of the gross receipts for that game, and would require that all prize money exceeding state and federal exemption limits on prize money be subject to income tax reporting and withholding requirements under applicable state and federal laws and regulations. The bill would require remote caller bingo games to be played using traditional paper or other tangible bingo cards and daubers and would prohibit certain locations from participating in the games. The bill would provide for the regulation of remote caller bingo by the California Gambling Control Commission, as specified. The bill would make related changes.

By changing the definition of a crime, this bill would impose a state-mandated local program.

This bill would also provide that players who are physically present at a bingo game may use hand-held, portable, card-minding devices, as described, to assist in monitoring the numbers or symbols announced in a live game. The bill would provide for the regulation of card-minding devices by the California Gambling Control Commission, as specified.

The bill would allow the commission to adopt emergency regulations implementing these provisions.

The bill would establish the California Bingo Fund and would authorize a loan from the Gambling Control Fund to the California Bingo Fund, on or after January 1, 2009, in an amount of up to \$500,000 to fund operating, personnel, and other startup costs incurred by the Gambling Control Commission relating to this act, as specified.

This bill would also establish the Charity Bingo Mitigation Fund. The bill would loan \$5,000,000 from the Indian Gaming Special Distribution Fund to the Charity Bingo Mitigation Fund to make mitigation payments to eligible nonprofit organizations, as specified. The bill would also appropriate \$5,000,000 from that loan to the Gambling Control Commission for the purposes of providing mitigation payments to certain charitable organizations, as described.

Existing law requires that the proceeds of bingo games be used only for charitable purposes, with certain exceptions, including an exception providing that no more than 20% of the proceeds before the deduction for prizes, or \$2,000 per month, whichever is less, may be used for the rental of property and for overhead.

This bill, with respect to bingo games conducted by the Lake Elsinore Elks Lodge only, would increase the amount of bingo proceeds that may be used for rental and overhead, as described above, to 20% of the proceeds before the deduction for prizes, or \$3,000 per month, whichever is less, and would require that the amount of proceeds otherwise permitted, as specified, be used only for the purpose of financing the rebuilding of the facility and replacing equipment that was destroyed by fire in 2007. The bill would provide that these provisions are to remain in effect only until the cost of rebuilding the facility is repaid, or January 1, 2019, whichever occurs first.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 749 (SB 1400) Simitian Sweepstakes.

Existing law provides that any person who contrives, prepares, sets up, proposes, or draws any lottery is guilty of a misdemeanor.

Existing law prohibits certain advertising practices, and makes it a crime to violate any of the provisions governing advertising.

Existing law defines “sweepstakes” to mean any procedure for the distribution of anything of value by lot or by chance that is not unlawful. Existing law sets forth specified advertising and solicitation requirements with regard to the operation of sweepstakes or solicitation materials containing sweepstakes entry materials, as specified.

This bill would revise and recast those provisions to, among others, apply those requirements to solicitation materials selling information regarding sweepstakes. The bill would also prohibit all sweepstakes solicitations from representing that a person has been specially selected, as defined, unless that representation is true. The bill would further prohibit sweepstakes solicitations from making various other misleading or false representations. The bill would also require the official rules for a sweepstakes to disclose information about the date the final winner will be determined. The bill would also prohibit a sweepstakes sponsor, as defined, from charging a fee as a condition of receiving a monetary distribution or obtaining information about a prize or sweepstakes.

Because this bill would expand the advertising prohibitions described above, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 750 (SB 1452) Correa Manufactured housing: factory-built housing: violations: civil penalties.

The Manufactured Housing Act of 1980 governs, among other things, occupational licensing relating to manufactured homes, mobilehomes, and commercial coaches.

The California Factory-Built Housing Law regulates factory-built housing, as defined.

This bill would authorize the imposition of civil penalties in specified amounts for violations of certain provisions of the Manufactured Housing Act of 1980 and the California Factory-Built Housing Law.

Ch. 751 (AB 1389) Committee on Budget State government.

(1) The State Teachers’ Retirement Law prescribes the rights and benefits of members of the State Teachers’ Retirement System. Under the law, a continuous appropriation equal to 2.5% of creditable compensation, as specified, is made annually from the General Fund for transfer to the Supplemental Benefit Maintenance Account in the Teachers’ Retirement Fund to fund supplemental purchase power protection payments to retired members, disabled members, and beneficiaries of the Defined Benefit Program of the State Teachers’ Retirement System. The law provides that the transfer for the 2008–09 fiscal year be made on November 1.

This bill would reduce the continuous appropriation from the General Fund, described above, by specified amounts. The bill would require that the transfers to the Supplemental Benefit Maintenance Account be made on November 1 and April 1 of each fiscal year, with each transfer to equal  $\frac{1}{2}$  the amount appropriated. The bill, until 2013, would also make a series of appropriations from the General Fund for the purpose of paying interest on the

judgment in a specified case related to the account. The bill would state the intent of the Legislature that certain information be included in the annual Budget Act.

(2) Existing law requires the Teachers' Retirement Board, beginning in 2006 and every 4 years thereafter, to report to the Legislature and the Department of Finance regarding the ability of the retirement system to pay the supplemental purchase power protection payments, described above, in each fiscal year until 2036, and appropriates funds, as determined by the actuary and certified by the Director of Finance, as necessary to enable the Teachers' Retirement System to make those payments, as specified, until June 30, 2036. Existing law limits the aggregate amount of funds to be appropriated by these provisions pursuant to a specified method.

This bill would revise and recast these provisions. The bill would delete the provisions regarding the appropriation, described above, and would delete the termination date, described above. The bill would require the board to adopt an actuarial projection regarding the ability of the system to continue providing, over a term to be established by the board, the purchasing power protection provided from the funds of the Supplemental Benefit Maintenance Account. The bill would require the board, as a result of determinations made in connection with the actuarial projection, to identify the maximum level of benefits it expects to be sustainable, as specified.

(3) Existing law requires that, for the 1998–99 fiscal year, the contributions to be made to the Supplemental Benefit Maintenance Account be reduced by the total value of the state's interest in the school lands from the sale of the Elk Hills Naval Petroleum Reserve.

This bill would repeal those provisions.

(4) Existing law defines creditable compensation for the purposes of making contributions from the General Fund to the Supplemental Benefit Maintenance Account and the Teachers' Retirement Fund. Existing law specifies, with regard to making contributions from the General Fund to the Teachers' Retirement Fund, that the amount is to be calculated annually on October 1.

This bill would require that the Teachers' Retirement Board calculate, on or after October 1 and on or before October 25 each year, the total amount of creditable compensation upon which members' contributions are based for the fiscal year that ended on the immediately preceding June 30. The bill would require the board to immediately submit a report that includes this calculation to the Director of Finance, the Chairperson of the Joint Legislative Budget Committee, and the Legislative Analyst. The bill would provide a process for reporting a revision in the amount of that calculation and adjusting subsequent appropriations to reflect that amount. The bill would also make conforming changes.

(5) Existing law prohibits the purchase power protection payments from the Supplemental Benefit Maintenance Account from exceeding the amount necessary to restore purchasing power up to 80% of the purchasing power of the initial monthly allowance, as specified. Existing law provides that these benefits are vested only to the extent that funds are appropriated to the Supplemental Benefit Maintenance Account, as specified. Existing law permits annual cost-of-living adjustments for retired members, disabled members, and beneficiaries, in excess of a specified adjustment, to be included in a General Fund appropriation in the annual Budget Act, and provides a method for its calculation and distribution. Existing law provides that these provisions shall be operative only in a fiscal year during which distributions from the Supplemental Benefit Maintenance Account are not made. Existing law establishes a permissive process for funding purchasing power payments, or adjusting their amount, if the Supplemental Benefit Maintenance Account does not have sufficient funds to provide payments of up to 80% of the initial monthly allowance. Existing law creates an auxiliary Supplemental Benefit Maintenance Account to be distributed when the funds in the Supplemental Benefit Maintenance Account are insufficient to support 80% of the initial monthly allowance to retired members, disabled members, and beneficiaries.

This bill would increase the amount of the supplemental purchase power protection payments from the Supplemental Benefit Maintenance Account to up to 85% of the purchasing power of the initial monthly allowance, as specified, and would make corresponding changes in the related provisions described above. The bill would authorize the board to adjust the purchasing power protection payments between no more than 85% and no less than 80%, based on actuarial projections, as specified. The bill would require the board to propose uses for excess moneys, if any, in the account. The bill would authorize the board to adopt regulations in this regard, which would be filed with the Secretary of State but would not be subject to the Administrative Procedure Act. The bill would delete the optional process for General Fund cost-of-living adjustments for retired members, disabled members, and beneficiaries, operative only in a fiscal year during which distributions from the Supplemental Benefit Maintenance Account are not made. The bill would make conforming changes.

(6) Existing law sets forth the powers and duties of the Director of Finance generally in supervising matters concerning the financial and business policies of the state.

This bill would authorize the director to defer payment of General Fund moneys appropriated to the University of California in the annual Budget Act until May or June of the same fiscal year, subject to specified criteria. This bill also would, commencing with the 2008–09 fiscal year, authorize the director to reduce General Fund items of appropriation for state operations or suspend the effective date of cost-of-living adjustments or rate increases upon making certain determinations, according to specified criteria and subject to specified exceptions. The bill would specify that these provisions would only become operative if a specified amendment to the California Constitution is submitted to, and approved by, the voters at a statewide election.

(7) Existing law establishes the Department of Finance within state government. Under existing law, the department is required to devise an accounting system for each state agency that provides for the accrual of revenues at the end of the fiscal year if the underlying transaction has occurred as of the last day of the fiscal year, and the due date for the tax is within 2 months of the end of the period.

This bill would revise this accrual provision to replace the tax condition with one requiring instead that the revenue amount is measurable and will be collected during the current period or in time to pay current year-end liabilities.

(8) Existing law requires the Secretary of the Resources Agency to direct the Controller to pay annually to each eligible county, city, or city and county, \$5 per acre for prime agricultural land, and \$1 per acre for all other land, other than prime agricultural land, which is devoted to open space uses of statewide significance, or for a county that has adopted farmland security zones, \$8 for land that is within, or within 3 miles of the boundaries of the sphere of influence of, each incorporated city.

This bill would require the Controller, commencing with the 2008–09 fiscal year, and each fiscal year thereafter, to reduce these payments by 10%.

(9) Existing law sets forth the procedures pursuant to which local agencies receive specified types of open space subventions of state funds. The Controller is required to make the payment to the local agencies on or before June 30 of each year.

This bill would also specify that the payment would not be made earlier than April 20 of each year.

(10) Existing law requires the establishment in each county treasury of a Supplemental Law Enforcement Services Fund, and requires that moneys from this fund be allocated to counties and cities located within a county for various law enforcement services, according to specified criteria.

This bill would additionally require the Controller to allocate funds appropriated in the annual Budget Act for this purpose according to these criteria, in 4 equal installments, to be paid in September, December, March, and June of each fiscal year.

(11) Existing law creates in the State Treasury, the California High-Cost Fund-A Administrative Committee Fund, the California High-Cost Fund-B Administrative Committee Fund, the Universal Lifeline Telephone Service Trust Administrative Committee Fund, the Deaf and Disabled Telecommunications Program Administrative Committee Fund, the Payphone Service Providers Committee Fund, and the California Teleconnect Fund Administrative Committee Fund. Under existing law, revenue in these funds is held in trust for the benefit of ratepayers and to compensate telephone corporations for the costs of providing universal service and may be expended solely for specified purposes.

This bill would authorize the Controller to use these funds for loans to the General Fund, as specified.

(12) Existing law creates in the State Treasury the Fish and Game Preservation Fund, and makes the revenue in the fund available for expenditure, upon appropriation by the Legislature, for particular purposes. Existing law also creates in the General Fund the State Energy Conservation Assistance Account and continuously appropriates its revenue to the State Energy Resources Conservation and Development Commission for expenditure.

This bill would authorize the Controller to use this fund and account for loans to the General Fund, as specified.

(13) Existing law, the DNA Fingerprint, Unresolved Crime and Innocence Act, an initiative measure, creates in the State Treasury the state's DNA Identification Fund, and makes its revenue, upon appropriation by the Legislature, available to the Attorney General solely to support DNA testing and to offset the impacts of increased testing. Existing law, the California Children and Families First Act of 1998, an initiative measure, creates in the State Treasury the Children and Families Trust Fund for the exclusive purpose of funding the act's provisions. The Mental Health Services Act, an initiative measure, creates in the State Treasury the Mental Health Services Fund for the purpose of funding specified older adults, intervention, and children's services programs. These acts provide for their amendment by the Legislature if the amendments further the act and are consistent with its purposes.

This bill would authorize the Controller to use these funds for loans to the General Fund, as specified, and would require that the loans be repaid with interest at 110% of the Pooled Money Investment Account rate. The bill would declare that its provisions further these initiative acts and are consistent with their purposes.

(14) Existing law requires the Department of Finance to certify annually to the Controller the amount it determines to be the fair share of costs for which each state agency that is supported by funds other than the General Fund shall reimburse the General Fund for administrative services rendered by other designated state entities and agencies that are supported by the General Fund, and requires the Controller to transfer the amount of these costs from those funds to the General Fund.

This bill would create the Central Service Cost Recovery Fund, provide for the deposit into that fund of amounts equal to the fair share of administrative costs due and payable from state agencies, and direct that moneys in the Central Service Cost Recovery Fund be appropriated for the administration of the state government, as determined by the Director of Finance. This bill, except under certain circumstances, would prohibit moneys in the Central Service Cost Recovery Fund, that are not currently required to fund any appropriation, from being used, loaned, borrowed, assessed, allocated, or transferred unless approved by the Director of Finance. This bill would also designate the state entities that provide administrative services for which reimbursement is to be paid under these provisions.

(15) Existing law authorizes the Controller to make monthly transfers from the General Fund to the State Audit Fund, a continuously appropriated fund, for estimated audit costs that are not directly billed to affected state agencies.

This bill would authorize the Controller to also make transfers for that purpose from the Central Service Cost Recovery Fund.

(16) The Community Redevelopment Law authorizes the establishment of redevelopment agencies in communities to address the effects of blight, as defined, in

blighted areas in those communities known as project areas. Section 16 of Article XVI of the California Constitution authorizes a redevelopment agency to receive funding through tax increments attributable to increases in assessed property tax valuation of property in a project area due to the redevelopment. Not less than 20% of tax increments generated from a project area are required to be used by a redevelopment agency to increase and improve the community's supply of low- and moderate-income housing. Redevelopment agencies also are required in specified years to remit to the county auditor an amount of revenue, determined in accordance with specified calculations made by the Director of Finance and based on a specified report of the Controller, for deposit in the Educational Revenue Augmentation Fund in each county for allocation to school entities. For each redevelopment project for which the redevelopment plan provides for the division of taxes the redevelopment agency is required to file with the county auditor or officer, as specified, a statement of indebtedness.

This bill would require redevelopment agencies, the county auditor, the Controller, the State Department of Education, and the Board of Governors of the California Community Colleges to submit specified reports or make specified calculations by specified dates regarding the revenue payments deposited by redevelopment agencies in the Educational Revenue Augmentation Fund in each county for allocation to school entities. By adding to the duties of county auditors, this bill would impose a state-mandated local program. Redevelopment agencies that have an outstanding payment obligation to a local educational agency would be (A) prohibited from adding new project areas or expanding existing project areas; (B) prohibited from issuing new bonds, notes, interim certificates, debentures, or other obligations, as specified; (C) prohibited from encumbering any funds or expending any money derived from any source, with specified exceptions; (D) subject to interest charges, as specified; and (E) required to deposit a portion of the outstanding payment obligation, plus any interest, in the Educational Revenue Augmentation Fund. Funds deposited in the county Educational Revenue Augmentation Fund as an outstanding payment would be prohibited from being distributed to a community college district. A county would be authorized to charge a redevelopment agency for any expenses incurred by the county in performing these services. A redevelopment agency would be authorized on its statement of indebtedness to credit the payment to the local educational agency against any existing passthrough payment indebtedness.

(17) Existing property tax law requires the county auditor, for each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law also reduces the amounts of ad valorem property tax revenue that would otherwise be annually allocated to the county, cities, and special districts pursuant to these general allocation requirements by requiring, for purposes of determining property tax revenue allocations in each county for the 1992–93 and 1993–94 fiscal years, that the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. It requires that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund (ERAF) in that county for allocation to school districts, community college districts, and the county office of education.

Existing law also requires a redevelopment agency, during the 2005–06 fiscal year, to remit to the county auditor an amount of revenue, determined in accordance with specified calculations made by the Director of Finance and based on a specified report of the Controller, for deposit in the ERAF in each county for allocation to school entities.

This bill would require a redevelopment agency to make a remittance to county ERAFs for the 2008–09 fiscal year. A redevelopment agency would be authorized to defer the payment of a portion of this remittance if that agency finds that it is unable, for either of

certain reasons, to pay the full allocation, and if the agency adopts a specified resolution. A legislative body would be authorized to remit, in lieu of making that payment prior to May 10, 2009, a designated amount to the county auditor for deposit in the county ERAF. For the 2008–09 fiscal year, no funds deposited in the county ERAF would be distributed to a community college district. If an agency does not remit the full designated amount or fails to arrange for full payment, as specified, to the county ERAF, then the agency would be prohibited from adding new project areas or expanding existing project areas; from issuing new bonds, notes, interim certificates, debentures, or other obligations, as specified; and from encumbering any funds or expending any moneys derived from any source except as specified. By imposing new duties upon local tax officials in the annual allocation of these revenues, this bill would impose a state-mandated local program.

(18) The Child Care and Development Services Act establishes the Child Care and Development Facilities Loan Guaranty Fund and the Child Care and Development Facilities Direct Loan Fund in the State Treasury. The act requires the Department of Housing and Community Development to use moneys deposited into those funds to make loan guarantees and subordinated loans to sole proprietorships, partnerships, proprietary and nonprofit corporations, and local public agencies for the purchase, development, construction, expansion, or improvement of licensed child care and development facilities, and for the purpose of administering the guarantees and loans.

This bill would abolish the Child Care and Development Facilities Loan Guaranty Fund, the Child Care and Development Facilities Direct Loan Fund, and the Child Care Loan Guaranty Fund Account in the Small Business Expansion Fund. All moneys remaining in those funds and that account would revert to the General Fund.

This bill also would require the Department of Housing and Community Development to deposit all subsequent loan repayments to the Treasurer to the credit of the General Fund.

(19) Existing law, the California Small Business Financial Development Corporation Law, creates the Small Business Expansion Fund, which is continuously appropriated, and that fund provides moneys to be used to pay for defaulted loan guarantees and administrative costs for small business financial development corporations.

This bill would authorize up to \$139,000 to be transferred from the General Fund to the Small Business Expansion Fund upon the order of the Director of Finance if funds are needed to pay a loan guarantee made from the Small Business Expansion Fund for the purchase, development, construction, expansion, or improvement of licensed child care and development facilities, as specified. Because the Small Business Expansion Fund is a continuously appropriated fund, this bill would make an appropriation.

(20) The Bergeson-Peace Infrastructure and Economic Development Bank Act requires the California Infrastructure and Economic Development Bank to annually submit to the Governor and the Joint Legislative Budget Committee a report of its activities. The report is required to include, among other things, a listing of applications accepted and a report of revenues and expenditures for the preceding fiscal year.

This bill would require the report to include information with respect to applications for a specified program and additional information with respect to revenues and expenditures for the preceding fiscal year.

(21) Existing law designates the Business, Transportation and Housing Agency as the primary state agency responsible for facilitating economic development in the state, and requires the agency to work with other governmental and international public and private entities in meeting this responsibility.

This bill would repeal those provisions.

(22) Existing law creates the State Public Works Board, and authorizes the board to issue bonds and other forms of debt, pursuant to the State Building Construction Act of 1955, to obtain funds to pay the cost of public buildings. Existing law services the debt issued by the board through revenues, rentals, and receipts from those public buildings.

This bill would authorize the board to issue debt to pay for the development and implementation of the Financial Information System for California, a single integrated financial management system that encompasses the management of resources and dollars in the areas of budgeting, accounting, procurement, cash management, financial management, financial reporting, cost accounting, asset management, project accounting, grant management, and human resources management. This bill would provide that debt service is conditioned upon annual appropriation by the Legislature. This bill would make an appropriation by creating continuously appropriated funds and subaccounts to pay for the system's development, implementation, operation, and maintenance.

(23) Existing law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an injured employee for injuries sustained in the course of his or her employment.

Existing law requires that the Director of Industrial Relations levy and collect assessments from employers in an amount determined by the director to be sufficient to fund specified workers' compensation programs implemented in the state.

This bill would require that specified revenues received from additional surcharges levied upon employers in the state be deposited into the Occupational Safety and Health Fund, created by this bill, as a special account in the State Treasury, and would authorize the expenditure of moneys in the fund by the department, upon appropriation by the Legislature, for purposes of funding the activities of those departments related to the implementation and enforcement of occupational health and safety laws in the state.

(24) Existing law requires the administrative director, until January 1, 2009, to establish the Return-to-Work Program to promote the early and sustained return to work of the employee following a work-related injury or illness.

This bill would extend to January 1, 2010, the repeal date of those provisions.

(25) Existing law requires the department to enter into an agreement with the Franchise Tax Board that authorizes the collection by the board of delinquent assessments and penalties that are levied against employers for violation of specified labor laws.

This bill would also authorize the collection by the board of delinquent assessments and penalties that are levied against employers for violation of specified occupational safety and health laws.

(26) Under existing law, unpaid fines and other penalties for criminal offenses imposed by a court upon a person or entity in an amount less than \$100 may be referred to the Franchise Tax Board for collection after being delinquent for 90 days.

This bill would include bail in those unpaid debts that may be referred to the Franchise Tax Board for collection after being delinquent for 90 days.

(27) The existing Corporation Tax Law requires taxpayers whose tax liability exceeds specified amounts to remit payment to the Franchise Tax Board by electronic funds transfers if any of 3 specified conditions exists.

This bill would require personal income taxpayers with estimated tax or extension payments in excess of \$20,000, or total tax liability in excess of \$80,000, to remit payments to the Franchise Tax Board by electronic funds transfers, subject to specified requirements.

(28) Existing income tax laws authorize the Franchise Tax Board to provide for the filing of a group return for electing nonresident partners and electing nonresident directors of a corporation, and to adjust the income of those taxpayers to properly reflect income, as provided. Existing law provides that the tax rate or rates applicable to each partner's distributive share or each director's compensation for services is the highest marginal rate or rates provided by the Personal Income Tax Law.

The Personal Income Tax Law also imposes an additional tax at the rate of 1% on that portion of a taxpayer's taxable income in excess of \$1,000,000.

This bill would also impose this additional tax of 1% on taxable income in excess of \$1,000,000 of any electing nonresident partner or nonresident director of a corporation included on the group return.

(29) The Alcoholic Beverage Control Act provides for the issuance of licenses for which various annual fees are charged depending upon the type of license issued. That law authorizes an annual adjustment of the fees in an amount not to exceed an inflation factor based on the Consumer Price Index.

This bill would increase these annual fees by 11.78% beginning January 1, 2009, in lieu of any annual fee adjustments that could have been imposed for the previous 4 years. This bill would also permit the Department of Alcoholic Beverage Control to annually adjust the fees charged commencing with the 2010 calendar year by an amount not to exceed an inflation factor based on the Consumer Price Index.

(30) Existing law appropriates \$5,000,000 to the Governor's Office on Service and Volunteerism, on an annual basis, for the purpose of funding grants to local and state operated Americorps and Conservation Corps programs.

This bill would instead specify that this appropriation is to California Volunteers, suspend the appropriation from July 1, 2008, to June 30, 2010, inclusive, and provide for an appropriation of \$2,500,000 to June 30, 2010, inclusive.

(31) Until January 1, 2012, or earlier, as specified, the Rural Health Care Equity Program, as administered by the Department of Personnel Administration, provides subsidies and reimbursements for certain health care premiums and health care costs incurred by state employees and annuitants in rural areas in which there is no board-approved health maintenance organization plan available for enrollment.

This bill would eliminate annuitants from those who are eligible to receive those benefits through the Rural Health Care Equity Program.

(32) Existing law requires the Department of Personnel Administration to administer and enforce laws pertaining to state personnel.

This bill would authorize the Department of Personnel Administration to assess special funds, bond funds, and nongovernmental cost funds in sufficient amounts to support the cost of the Human Resources Modernization Project, as specified.

(33) Existing law authorizes state officers and employees to travel out of state on state business and provides for payment of expenses for this travel upon approval of the Governor and the Director of Finance, subject to certain exceptions, as specified.

This bill would delete the requirement for approval of the Director of Finance in connection with travel and travel expenses under these provisions. The bill also would make technical, nonsubstantive changes to these provisions.

(34) Existing law provides for the creation, maintenance, and authority of the Sixth District Agricultural Association, which is known as the California Science Center and which is a tax-exempt organization and instrumentality of the state. The center is authorized to enter into a site lease and lease-purchase agreement with the California Science Center Foundation, a nonprofit corporation, for the purpose of constructing and funding the Phase II Project of the center, as specified.

This bill would declare the Legislature's finding that the operation of the center may require individual skills not generally available in state civil service to support specialized functions, and would authorize the center to enter into a personal services contract or contracts with the California Science Center Foundation without a competitive bidding process, as specified.

(35) Under existing law, the Department of Veterans Affairs provides benefits to California veterans and their families, and is responsible for, among other things, veterans' welfare and homes.

This bill would require the Department of Veterans Affairs, on or before January 10, 2009, and each January 10 thereafter, to provide a fiscal estimate package to the fiscal committees of the Legislature that contains specified information regarding the costs of administering state veterans homes. This bill would also require the department to provide an updated fiscal estimate package on or before May 15 of each year.

(36) Existing law requires the Insurance Commissioner to transmit specified information to the Governor, the Legislature, and to the committees of the Senate and Assembly having jurisdiction over insurance in the annual report submitted to those entities, as specified.

This bill would itemize facts relating to the operations of the Conservation and Liquidation Office, and other facts relating to the operations of individual estates, that must be included in the annual report.

(37) The State Building Construction Act of 1955 requires the Department of General Services, in consultation with other state entities, to develop a multiyear plan to exploit cost-effective energy efficiency measures in state facilities. The act requires the department to update the plan biennially, coordinate implementation efforts, and make recommendations to the Governor and the Legislature to achieve energy goals for state facilities.

This bill would require the department to make these recommendations no later than March 1, 2009, and biennially thereafter. The bill would additionally require the department to report on projects under its jurisdiction, as specified.

(38) The State Housing Law requires the Department of Housing and Community Development to propose, among other things, the adoption of building standards generally to the California Building Standards Commission for adoption in the California Building Code.

This bill would require the department to review relevant green building guidelines when preparing proposed building standards for submittal to the commission, and consider proposing as mandatory building standards those green building features determined by the department to be cost effective and feasible to promote greener construction. It would also require the department to summarize specified information in this regard in an annual report to the Legislature.

(39) Existing law generally sets forth the requirements pursuant to which the Commission on State Mandates hears and decides upon claims by local agencies or school districts for reimbursement of costs mandated by the state, determines the amount of state funds to be subvended for reimbursement, issues statewide cost estimates, and adopts parameters and guidelines for payment of claims by the Controller. The commission may not find costs mandated by the state if it finds that the statute or executive order in question imposes duties that are necessary to implement, reasonably within the scope of, or expressly included in, a ballot measure approved by the voters in a statewide or local election, regardless of whether the statute or executive order was enacted or adopted before or after the date upon which the ballot measure was approved by the voters.

This bill would require the commission, upon final resolution of any pending litigation challenging the constitutionality of the prohibition described above, to reconsider a specified test claim statement of decision and, if necessary, take specified actions in this regard. The bill would also require the Controller to make conforming revisions to the claiming instructions.

(40) The bill would state the intent of the Legislature that specified budget augmentations for transfer to the Teachers' Retirement Fund be appropriated in the Budget Act of 2009.

(41) The bill would state the intent of the Legislature that certain of the bill's provisions constitute a comprehensive package of modifications to appropriations for, and benefits of, the State Teachers' Retirement System, that this package provides members of the system with comparable new advantages, as specified, and that these provisions not be interpreted as separable.

(42) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason, but that if the commission determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(43) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 752 (AB 2928) Spitzer Collections: amounts imposed by a court.

Existing law provides, among other things, that delinquent restitution imposed by a superior court upon a person or entity for specified criminal offenses be referred by the county or the state to the Franchise Tax Board for collection in certain instances.

This bill would, unless the victim of the crime makes a specified notification to the contrary, authorize the Department of Corrections and Rehabilitation to refer a restitution order to the Franchise Tax Board, for purposes of those collection provisions, for any person subject to the restitution order who is or has been under the jurisdiction of the department, as provided.

Ch. 753 (AB 10) Committee on Budget Employment: overtime compensation.

Existing law provides that 8 hours of labor constitutes a day's work. Under existing law, any work in excess of 8 hours in one workday and any work in excess of 40 hours in any one workweek and the first 8 hours worked on the 7th day of work in any one workweek is required to be compensated at the rate of no less than 1½ times the regular rate of pay for an employee. Existing law exempts a professional employee in the computer software field from this overtime compensation requirement if the employee is primarily engaged in work that is intellectual or creative, the employee's hourly rate of pay is not less than \$36, and the employee meets other requirements.

This bill would provide that this exemption applies to an employee who is paid on an hourly basis at an hourly rate of not less than \$36 and, if an employee is paid on a salaried basis, the employee earns an annual salary of not less than \$75,000 for full-time employment, which is paid at least once a month and in a monthly amount of not less than \$6,250. The bill would make related, conforming changes to this provision.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 754 (AB 158) Torrico Tribal gaming: local agencies.

Existing law creates in the State Treasury the Indian Gaming Special Distribution Fund for the receipt and deposit of moneys received by the state from certain Indian tribes pursuant to the terms of gaming compacts entered into with the state. Existing law authorizes moneys in that fund to be used for specified purposes, including for grants for the support of state and local government agencies impacted by tribal government gaming.

Existing law, until January 1, 2009, creates a County Tribal Casino Account in the treasury of each county that contains a tribal casino. Existing law requires the Controller to divide the County Tribal Casino Account for each county that has gaming devices that are subject to an obligation to make contributions to the Indian Gaming Special Distribution Fund into a separate account, known as an Individual Tribal Casino Account, for each tribe that operates a casino within the county. Existing law provides for a certain portion of funds in an Individual Tribal Casino Account to be used for grants to local agencies impacted by tribes that are paying into the Indian Gaming Special Distribution Fund, and a certain portion for grants to local agencies impacted by tribes that are not paying into that fund. Existing law establishes an Indian Gaming Local Community Benefit Committee in each county in which gaming is conducted, specifies the composition of that committee, and requires that committee to make the selection of grants from the casino accounts.

This bill would modify the composition of an Indian Gaming Local Community Benefit Committee if only one city is located within 4 miles of a tribal casino, as specified, and would require an Indian Gaming Local Community Benefit Committee to select only grant applications that mitigate impacts from casinos on local jurisdictions. The bill would provide that, if a local jurisdiction uses a grant for any unrelated purpose, the grant shall terminate immediately and any moneys not yet spent shall revert to the Indian Gaming Special Distribution Fund. It would require a local jurisdiction that receives a grant from an

Individual Tribal Casino Account to deposit all funds received in an interest-bearing account and use the interest from those funds only to mitigate an impact from a casino. The bill would require that, as a condition of receiving further funds, a local jurisdiction, upon request, demonstrate to the county that all expenditures made from the account have been in compliance with these provisions.

Existing law requires each county that administers grants from the Indian Gaming Special Distribution Fund to provide an annual report to certain legislative and executive branch members by October 1 of each year detailing the specific projects funded by all grants in the county's jurisdiction in the previous fiscal year, as specified.

This bill would provide that a county that does not provide an annual report pursuant to these provisions shall not be eligible for funding from the Indian Gaming Special Distribution Fund for the following year.

This bill would extend the operation of these provisions until January 1, 2010.

This bill would appropriate \$30,000,000 from the Indian Gaming Special Distribution Fund to the California Gambling Control Commission to provide grants to local government agencies under the provisions described above. The bill would authorize counties to utilize the appropriated moneys for expenditures made in the 2007–08 and 2008–09 fiscal years.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 755 (AB 186) Maze Crime prevention.

Existing law, until January 1, 2009, authorizes specified counties to develop within their respective jurisdictions a Central Valley Rural Crime Prevention Program, as specified. In order to receive funds for this program, each county must agree to participate in the Central Valley Rural Crime Task Force which shall develop a system for reporting rural crimes that enables swift recovery of stolen goods and the apprehension of criminal suspects for prosecution, as specified.

This bill would provide that these provisions shall remain in effect until July 1, 2012.

The bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 756 (AB 268) Committee on Budget Transportation.

(1) Existing law, the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, approved by the voters as Proposition 1B at the November 7, 2006, general election, authorizes the issuance of \$19.925 billion of general obligation bonds for specified purposes, including \$2 billion to be transferred to the Trade Corridors Improvement Fund (TCIF) for allocation by the California Transportation Commission for infrastructure improvements along designated corridors, upon appropriation in the annual Budget Act. Eligible TCIF projects include, but are not limited to, highway capacity improvements and operational improvements, freight rail system improvements, projects to enhance the capacity and efficiency of ports, and truck corridor improvements, subject to commission determination, as specified. Existing law requires the commission to allocate TCIF funds to projects that have identified and committed supplemental funding from appropriate local, federal, or private sources.

This bill would require the commission to evaluate the potential costs and benefits of the TCIF program on the economy, environment, and public health, and would require collaboration with the State Air Resources Board in that regard. The bill would set forth a minimum allocation schedule for approved TCIF projects, and would make the Colton Crossing project ineligible for TCIF funding under specified circumstances. The bill would require the commission and local transportation agencies to collaborate to select new projects upon the deprogramming of any TCIF project, as specified. The bill would also require the Department of Transportation, by February 18, 2009, to report to the Legislature regarding specified TCIF railroad agreements.

(2) Proposition 1B also requires that specified proceeds from the bonds be deposited in the Public Transportation Modernization, Improvement, and Service Enhancement Account

to be made available, upon appropriation by the Legislature, to the Department of Transportation for intercity rail projects and to certain transit operators for transportation projects and improvements, as specified.

With respect to funds appropriated from that account by the Budget Act of 2007, existing law requires the Controller, upon appropriation of those funds, to identify and develop a list of eligible project sponsors and the amount each is eligible to receive using specified computations. Existing law requires an eligible project sponsor to submit certain information to the Department of Transportation regarding the proposed project prior to seeking a disbursement of funds and requires the department to conduct a review of that information and to biannually adopt a list of eligible projects. Existing law imposes other related duties with respect to these funds on the Controller, the department, and the California Transportation Commission. Existing law makes these provisions inoperative on July 1, 2008, and repealed on January 1, 2009.

This bill would apply those provisions to funds appropriated from the account by the Budget Act of 2008 and would make other conforming changes. The bill would make these provisions inoperative on July 1, 2009, and repealed on January 1, 2010.

(3) Proposition 1B also provides for \$1 billion of bond proceeds for the State-Local Partnership Program to be allocated by the California Transportation Commission to eligible transportation projects nominated by transportation agencies, subject to appropriation by the Legislature of moneys from the State-Local Partnership Program Account. Existing law requires a dollar-for-dollar match of local funds for projects funded with these bond funds.

This bill would describe the categories of projects that may be funded through the State-Local Partnership Program, create continuously appropriated subaccounts within the State-Local Partnership Program Account for those purposes, thereby making an appropriation, establish which entities are eligible to apply for funding, establish specified allocations pursuant to a geographical and revenue-based or population-based formula or on a competitive basis, establish timelines for expenditure of the funds, and provide for the reallocation of funding if those timelines are not met. The bill would limit the amount of bond funding for a single project under the competitive portion of the program to \$1,000,000 in a single funding cycle. The bill would define eligible local matching funds under the program for purposes of the required dollar-for-dollar match. The bill would require the commission to include in its annual report to the Legislature a summary of its activities related to the program, as specified. The bill would also set forth a statement of legislative intent with regard to the program.

(4) Existing law, until July 1, 2008, authorizes the Department of Transportation, in order to provide adequate cash for transportation projects and for support of the department, to transfer funds among 4 specified transportation funds or accounts as short-term loans, subject to any terms and conditions imposed by the Director of Finance. Under these provisions, a short-term loan is subject to the condition that it be repaid in full to the fund or account from which it was loaned during the same fiscal year in which the loan was made or 30 days after enactment of the Budget Act for the subsequent fiscal year, and is subject to the further condition that the loan be repaid whenever the funds are needed to meet cash expenditure needs in the loaning fund or account. These provisions are inoperative on July 1, 2008, and are repealed on January 1, 2009.

This bill would extend the inoperative and repeal dates to July 1, 2011, and January 1, 2012, respectively, thereby restoring these provisions, and would include the Transportation Deferred Investment Fund as a fund to or from which the Department of Transportation would be authorized to transfer moneys as short-term loans. The bill would also impose specified monetary limitations and repayment requirements on any short-term cash flow loan made from the General Fund to the State Highway Account.

(5) Existing law authorizes various loans from the Motor Vehicle Account, the Public Transportation Account, and the State Highway Account to the Traffic Congestion Relief Fund. Existing law also authorizes money in the Traffic Congestion Relief Fund derived

from the General Fund to be loaned to the General Fund. These loans are required to be repaid, as specified.

This bill would require the Director of Transportation to report to the California Transportation Commission the amounts of loans to each fund or account that are outstanding under these provisions as of the end of each quarter.

(6) Existing law, pursuant to Proposition 116 of 1990, creates the Public Transportation Account as a trust fund in the State Transportation Fund, provides that revenues are to be deposited in the account from a specified portion of the sales taxes on gasoline and diesel fuel, and provides that moneys in the account are available for expenditure only for transportation planning and mass transportation purposes. Existing law provides that the Legislature shall appropriate these funds for specified transportation programs, including the State Transit Assistance program, under which funds are allocated by the Controller to transit operators and other agencies.

Existing law also creates the Transportation Investment Fund, which receives the portion of gasoline sales tax revenues that is dedicated to various transportation purposes by Article XIX B of the California Constitution. Twenty percent of these revenues are transferred to the Public Transportation Account.

This bill would continuously appropriate the revenues to be allocated to the State Transit Assistance program from these sources.

This bill would also authorize the Director of Finance to authorize the transfer of not more than \$60 million as an interest-free loan from the Traffic Congestion Relief Fund to the Public Transportation Account, to be repaid no later than July 1, 2011, or earlier if the Traffic Congestion Relief Fund needs the funds. The bill would require the Director of Transportation to report to the California Transportation Commission the amounts of loans outstanding under these provisions as of the end of each quarter.

(7) Existing law, notwithstanding the requirement for certain gasoline sales tax revenues to be deposited in the Public Transportation Account as described in (6) above, instead requires, beginning with the 2008–09 fiscal year, and in each fiscal year thereafter, 50% of a specified portion of these revenues to be transferred to the Mass Transportation Fund.

This bill, for the 2008–09 fiscal year, would require \$234,852,000 to be transferred each quarter to the Mass Transportation Fund from the specified revenues, notwithstanding the provision requiring 50% of those revenues to be transferred.

(8) Existing law creates the Mass Transportation Fund and the Transportation Debt Service Fund in the State Treasury for the purpose, among other things, of using transportation revenues for the payment of debt service on transportation bonds, to reimburse the General Fund for past debt service payments on transportation bonds, and for certain payments required to be made by the General Fund to transportation funds governed by Article XIX B of the California Constitution. Existing law specifies the payments that are authorized to be made from revenues available in the 2007–08 fiscal year.

This bill would revise the provisions governing the Mass Transportation Fund to specify the payments that are authorized to be made from revenues available to the fund in the 2008–09 fiscal year. The bill would revise the provisions governing the Transportation Debt Service Fund to authorize the Director of Finance to reimburse the General Fund, with moneys received in the 2008–09 fiscal year, any amount necessary to offset the cost of debt service made in any fiscal year for transportation-related general obligation bond expenditures.

(9) Existing federal law apportions transportation funds to the states under various programs, including the Surface Transportation Program and the Congestion Mitigation and Air Quality Program, subject to certain conditions on the use of those funds. Existing law provides for a portion of these funds to be allocated by the Department of Transportation to regional transportation agencies for expenditure on local transportation projects, subject to various conditions that are administered by the department.

This bill would require the department to deduct from the funds available for allocation to regional transportation agencies the amount authorized by the Legislature for increased oversight by the department of these funds.

(10) Existing federal law, the federal Energy Tax Incentives Act of 2005, authorizes a category of tax credit bonds, Clean Renewable Energy Bonds (CREBs), to provide financing for renewable energy projects. The act provides that a bond shall not be treated as a clean renewable energy bond unless it is part of an issue that provides for an equal amount of principal to be paid by the qualified issuer during each calendar year that the issue is outstanding. The act becomes inoperative with respect to any bond issued after December 31, 2008, and requires that 95% or more of the net proceeds of any bond issue be expended within 5 years of that issuance.

Existing law creates the Special Deposit Fund in the State Treasury. Moneys in the Special Deposit Fund are continuously appropriated to fulfill the purposes for which payments into it are made.

This bill would authorize the Department of Transportation to issue Clean Renewable Energy Bonds for purposes of financing the acquisition and installation of solar energy systems at department facilities, subject to the conditions and terms of the federal Energy Tax Incentives Act of 2005, and would authorize the department to enter into specified agreements with the California Alternative Energy and Advanced Transportation Financing Authority for those purposes, as specified. The bill would establish the Clean Renewable Energy Bonds Subaccount in the Special Deposit Fund, a continuously appropriated fund, for the purpose of receiving net proceeds from the bond issue, thereby making an appropriation. The bill would also provide that the solar energy systems are eligible for, and required to comply with, specified net energy metering or another feed-in-tariff program. The bill would require the department to report to the Legislature annually with regard to the bond issue and the acquisition and installation of the solar energy systems, as specified. The bill would further make a statement of legislative intent.

(11) Existing law establishes fees for original and renewal registration of vehicles, and weight fees for commercial vehicles, to be collected by the Department of Motor Vehicles. Existing law requires that these fee amounts be adjusted annually by increasing each fee in an amount equal to the increase in the California Consumer Price Index, as specified.

This bill would require that any increases in these fees, enacted by legislation subsequent to January 1, 2005, be deemed to be changes to the base fee for purposes of calculating the annual fee adjustment.

Existing law also establishes various penalty fees for late registration and renewal of vehicles.

Under existing law, in addition to the other fees imposed for the registration or renewal of registration of a vehicle, additional registration and renewal fees are imposed, which are expended to support specified staffing levels of peace officer members of the Department of the California Highway Patrol (CHP) and to offset the costs of maintaining or increasing the level of uniformed field strength of the CHP.

This bill would revise the provisions relating to late fees by imposing a late penalty on the delinquent payment of these additional registration and renewal fees that would only apply to an original registration fee due, or the renewal of registration for a vehicle with an expiration date, on or after December 1, 2008. The bill would also increase from \$6 to \$18 one of the fees imposed under these provisions.

(12) This bill would declare that it is to take effect immediately as an urgency measure.

#### Ch. 757 (AB 519) Committee on Budget Education finance.

(1) Existing law requires a revenue limit to be calculated for each county superintendent of schools, adjusted for various factors, and reduced, as specified.

This bill would reduce the revenue limit for each county superintendent of schools for the 2008–09 fiscal year by a deficit factor of 4.396%.

(2) Existing law requires the State Department of Education, in cooperation with the Department of Finance, to prepare a comprehensive state plan, to be submitted to the Legislature by January 1 of each year, detailing the prospective expenditure, allocation, and apportionment of federal funds to be appropriated for the next fiscal year to all educational agencies in the state. The department, in cooperation with the Department of Finance, also is required to submit a comprehensive report, to be submitted to the Legislature by January 1 of each year, that sets forth in detail the manner in which all federal funds were allocated and apportioned to, and expended by, educational agencies in this state in the prior fiscal year.

This bill would require the department to submit, to the Legislature, the Legislative Analyst's Office, and the Governor, 2 annual reports on federal funds for education in kindergarten and grades 1 to 12, inclusive. One report, to be submitted no later than February 15 of each year, would provide a 3-year tracking of federal funds for each federally funded program that includes detail by type of funded activity and state budget category and the actual expenditures for the prior year, a revised estimate of current-year expenditures, and the budget-year appropriation. The other report, to be submitted no later than November 1 of each year, would identify available federal carryover funds, identifying those funds, by fiscal year and potential reversion date, for each federally funded program by type of funded activity and state budget category.

(3) Existing law requires, for the 1990–91 fiscal year and each fiscal year thereafter, that moneys to be applied by the state for the support of school districts, community college districts, and direct elementary and secondary level instructional services provided by the state be distributed in accordance with certain calculations governing the proration of those moneys among the 3 segments of public education. Existing law makes that provision inapplicable to the fiscal years between the 1992–93 and 2007–08 fiscal years, inclusive.

This bill, in addition, would make that provision inapplicable to the 2008–09 fiscal year.

(4) Existing law requires the county superintendent of schools to determine a revenue limit for each school district in the county and requires the amount of the revenue limit to be adjusted for various factors.

This bill would reduce the revenue limit for each school district by a 4.713% deficit factor for the 2008–09 fiscal year.

(5) Existing law requires the State Department of Education to identify local educational agencies that are in danger of being identified within 2 years as program improvement local educational agencies under the federal No Child Left Behind Act of 2001 (20 U.S.C. Sec. 6301 et seq.), and requires those local educational agencies identified to comply with certain requirements.

This bill, if funding is not provided in the annual Budget Act or other statute, would delete the requirement that program improvement local educational agencies comply with certain of those requirements.

Under existing law, a local educational agency that is identified for corrective action under the federal No Child Left Behind Act of 2001 is subject to one or more sanctions recommended by the Superintendent and approved by the State Board of Education, including a requirement to contract with a district assistance and intervention team to aid the local educational agency.

This bill would require the department to develop, and the state board to approve at a public meeting, objective criteria by which a local educational agency identified for corrective action and subject to a sanction would be evaluated for the purpose of determining the pervasiveness and severity of performance problems of the local educational agency and the sanction to be imposed. The bill would authorize a one-year, nonrenewable grant of federal improvement funding to assist in the improvement process of a local educational agency. The amount of the grant would vary depending on the pervasiveness and severity of performance problems of the local educational agency.

The bill would prohibit a local educational agency that receives funding under this program, or that receives other federal funds for school improvement, from using those funds

to compensate a receiver or trustee assigned by the state board to administer the affairs of the local educational agency in place of the county superintendent of schools and the governing board.

The bill, subject to an appropriation in the annual Budget Act or another statute, would require the Superintendent to contract with an independent evaluator to complete a comprehensive 3-year evaluation of the program established for local educational agencies that are identified for corrective action. The evaluation would be required to examine the implementation, impact, costs, and effectiveness of the corrective actions and reform strategies and to determine the effectiveness of the technical assistance provided by the district intervention and assistance. The Superintendent would be required to submit 2 interim reports and a final report to the Governor, the Department of Finance, the Legislature, and the Legislative Analyst's Office.

(6) Existing law requires the department, for purposes of complying with the federal No Child Left Behind Act of 2001, to establish a statewide system of school support to provide a statewide system of intensive and sustained support and technical assistance for school districts, county offices of education, and schools in need of improvement. The system consists of regional consortia, which may include county offices of education and school districts, that work collaboratively with school districts and county offices of education to meet the needs of school districts and schools in need of improvement.

This bill would add district assistance and intervention teams and other technical assistance providers to the system and would require the teams and other technical assistance providers to conduct a needs assessment and complete a report on their findings, including recommendations for improvement and the redirection of resources to ensure the implementation of the recommendations.

(7) Existing law adjusts funding for individuals with exceptional needs based on an incidence multiplier, as defined, for each special education local plan area.

This bill would continue the current special education incidence factor formula through the 2008–09 fiscal year.

(8) The Leroy Greene California Assessment of Academic Achievement Act requires the Superintendent to design and implement a statewide pupil assessment program, known as the Standardized Testing and Reporting (STAR) Program. The State Board of Education, in its sole discretion, is required to designate for use as part of the STAR Program a single test in grades 3 and 7 and to ensure that the achievement test contains specified subject areas for grades 3 and 7.

This bill would repeal this component of the STAR Program and make conforming changes.

(9) Existing law authorizes the Director of Finance to act as agent for the state in the sale of the student loan guarantee portfolio and certain related assets and liabilities of the student loan guarantee program not retained by the Student Aid Commission to an entity approved by the United States Secretary of Education to act as a state student loan guarantee agency for the Federal Family Education Loan Program, and selected by the Director of Finance, in consultation with the Treasurer, pursuant to a prescribed procedure. Existing law requires the Director of Finance, in consultation with the Treasurer, to select a firm or individual to provide advisory services. Existing law requires the Director of Finance to send a Notice of Request for Qualifications to specified entities as part of the sale process. Existing law also requires the notice to be published in the State Contracts Register pursuant to specified statutory provisions. Existing law requires the Director of Finance to cease the activities he or she is authorized to undertake with regard to the sale upon the 30th day following written notice by the director to the Chairperson of the Joint Legislative Budget Committee or January 10, 2009, whichever occurs earlier.

This bill would require the Director of Finance to provide a copy of the Notice of Request for Qualifications to the Joint Legislative Budget Committee within 7 days of transmittal to state student loan guarantee agencies and within 7 days of publication in the State Contracts

Register. The bill would require the Director of Finance to notify the Joint Legislative Budget Committee in writing within 7 days of entering into a contract with an individual or firm for advisory services. The bill would extend the alternate date upon which the Director of Finance is required to cease the activities he or she is authorized to undertake with regard to the sale from January 10, 2009, to January 10, 2011.

(10) Existing law authorizes the Student Aid Commission to establish an auxiliary organization to provide operational and administrative services for the commission's participation in the Federal Family Education Loan Program or for other activities approved by the commission and determined by the commission to meet specified criteria. Existing law prohibits the commission from including loan origination or loan capitalization activities as approved activities, but states that the prohibition does not preclude the commission or the auxiliary organization from undertaking other permitted activities related to student financial aid in partnership with institutions that conduct loan origination or loan capitalization activities.

This bill, in addition, would state that the prohibition on including loan origination or loan capitalization activities as approved activities does not preclude the commission or the auxiliary organization from undertaking loan origination or capitalization activities authorized pursuant to an agreement with the United States Secretary of Education for the lender-of-last-resort program.

(11) Existing law requires the Student Aid Commission to administer the Student Opportunity and Access Program, under which the commission is authorized to apportion funds for the support of projects designed to increase the accessibility of postsecondary educational opportunities for certain elementary and secondary school pupils, including those from low-income families, those who would be the first in their families to attend college, and those who are from schools or geographic regions with documented low-eligibility or college participation rates. Projects are required to primarily increase the availability of information for these pupils on the existence of postsecondary schooling and work opportunities and to raise the achievement levels of these pupils.

This bill would authorize projects to be implemented under the program that provide assistance to low-income middle and high school pupils and their parents in order to implement outreach efforts designed to use the future availability of financial assistance as a means of motivating pupils to stay in school by promoting career technical education public awareness. These projects would be required to promote the value of career technical education, available career programs in public school and postsecondary segments with sequenced courses beginning in high school and continuing into postsecondary institutions, and the resulting career opportunities.

(12) Existing law requires the governing board of each community college district to charge each student a fee per unit per semester and requires this fee to be waived for specified students who demonstrate eligibility for the fee waiver. The Board of Governors of the California Community Colleges is required to allocate to community college districts 2% of the fees waived. The board of governors also is required to allocate to community college districts \$0.91 per credit unit waived for determination of financial need and delivery of student financial aid services. These allocations are required to be made from funds provided in the annual Budget Act.

This bill would state the intent of the Legislature that the funds described above be used to support the determination of financial need and delivery of student financial aid services and that the funds directly offset any mandated costs claimed by community college districts pursuant to specified Commission on State Mandates test claims.

(13) This bill would appropriate \$12,500,000 from the Public Interest Research, Development, and Demonstration Fund to the Chancellor of the California Community Colleges. Of that appropriated amount, the bill would require the Chancellor of the California Community Colleges to transfer \$12,000,000 to the State Department of Education for expenditure in one-time funds for local grants to be allocated pursuant to

specified statutory provisions regarding partnership academies over 3 years as specified in the Budget Act of 2008. The bill would require grantees to create partnership academies that focus on clean technology and energy businesses and provide skilled workforces for the products and services for energy or water conservation, or both, renewable energy, pollution reduction, or other technologies that improve the environment in furtherance of state environmental laws. The bill would require the Chancellor of the California Community Colleges to transfer the remaining \$500,000 to the State Department of Education to pay for the expenses of administering the local grants.

(14) This bill would appropriate \$39,780,000 from the General Fund to the Board of Governors of the California Community Colleges, in augmentation of an amount appropriated pursuant to a specified item in Budget Act of 2008, for the purpose of providing a 0.68% cost-of-living adjustment to apportionments to community college districts, for expenditure during the 2008&minus;09 fiscal year. The bill would provide that, for purposes of satisfying the minimum annual funding obligation for community college districts required by the California Constitution, those funds are General Fund revenues appropriated for community college districts for the 2008–09 fiscal year.

(15) This bill would appropriate \$388,283,000 from the General Fund to the State Department of Education for 10 specified programs according to a specified schedule, and would require the department to encumber these funds by July 1, 2009. The bill would provide that, for purposes of satisfying the minimum annual funding obligation for school districts required by the California Constitution, the appropriated funds are General Fund revenues appropriated for school districts and community college districts for the 2009–10 fiscal year.

(16) This bill would appropriate \$200,000,000 from the General Fund to the Board of Governors of the California Community Colleges for expenditure during the 2009–10 fiscal year according to a specified item in the Budget Act of 2008. The bill would provide that, for purposes of satisfying the minimum annual funding obligation for community college districts required by the California Constitution, those funds are General Fund revenues appropriated for community college districts for the 2009–10 fiscal year.

(17) Existing law annually appropriates \$150,000,000 from the General Fund to the Controller for allocation by the Controller to school districts and community colleges for the purpose of discharging in full the outstanding balance of the minimum funding obligation to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution as determined by specified state officials.

This bill would provide that there shall be no annual appropriation in the 2008–09 fiscal year for this purpose.

(18) This bill would set the cost-of-living adjustment for specified items in the Budget Act of 2007 and for specified items in the Budget Act of 2008 for the 2008–09 fiscal year at 0% notwithstanding the cost-of-living adjustment specified in existing statutes.

(19) This bill would require funds appropriated pursuant to specified items in the Budget Act of 2008 to be encumbered by July 31, 2009.

(20) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 758 (AB 1183) Committee on Budget Health.

Existing law provides for the licensure and regulation of health facilities by the State Department of Public Health.

Existing law requires periodic inspection of health facilities by the department as part of licensing and certification of those facilities. Existing law specifies that the department shall inspect for compliance with state law and regulations during a state periodic inspection or at the same time as a federal periodic inspection.

This bill would require the department, with respect to conducting licensing and certification surveys and complaint investigations, to emphasize consistency across the state

and its district offices. The bill would authorize the department to issue federal deficiencies, and to recommend federal enforcement actions, as described.

Existing law establishes specified licensing and certification program fees for various health facilities, and contains provisions relating to methodologies for adjustment of those fees. Existing law requires the department to annually prepare a report of all costs of licensing and certification program activities and to include, as part of this report, the recommendations for Licensing and Certification program fees in accordance with specified criteria.

This bill would revise this provision to require the report to also include specified information relating to the department's calculations in creating the report.

Existing law, the Mosquito Abatement and Vector Control District Law, specifies procedures for vector control district formation, provides for the selection of the district board of trustees and officers, and prescribes the duties of the board. Existing law requires the State Department of Public Health to certify government agency employees and pest abatement district employees who handle, apply, or supervise the use of pesticides as vector control technicians.

Existing law authorizes the department to charge and collect a nonreturnable renewal fee of \$25, subject to annual adjustment as prescribed in existing law, to be paid by each continuing education certificiant. Under existing law, moneys received from the fees are deposited in the Vector Disease Account, and are made available for expenditure upon appropriation by the legislature to implement these certification provisions.

This bill would increase amount of the renewal fee to \$120.

Existing law, until June 30, 2008, required the development of a list of drugs to be provided under the HIV/AIDS Pharmacy Pilot Program administered by the State Department of Public Health.

These provisions required the department to establish a pilot program to evaluate the provision of medication therapy management services for people with HIV/AIDS.

This bill would reenact these provisions and extend the program until July 1, 2009.

Existing law also creates the AIDS Drug Assistance Program (ADAP), administered by the State Department of Public Health.

The bill, by no later than January 10 and May 14 of each year, would also require the department to provide the fiscal committees of the Legislature an estimate package for the ADAP, as provided.

Existing law creates the Healthy Families Program, administered by the Managed Risk Medical Insurance Board, to arrange for the provision of health, dental, and vision services to eligible children pursuant to a federal program, entitled the State Children's Health Insurance Program. Eligibility requirements include being a child in a family with a household income equal to or less than 200% of the federal poverty level. Existing law requires applicants applying to the purchasing pool to agree to pay family contributions, unless the applicant has a family contribution sponsor. Existing law continuously appropriates funds to the board from the Healthy Families Fund for the program.

This bill, on and after the first day of the 5th month following the enactment of the 2008–09 Budget Act, would increase the family contribution amounts required to be paid under the program. By increasing amounts deposited in a continuously appropriated fund, it would make an appropriation. The bill would also decrease the rates for participating health, dental, and vision plans by 5%, and by adjusting the July 1, 2007, rates downward to account for any reduction in the actuarial value of the benefits provided to subscribers as of the first day of the 5th month following the enactment of the 2008–09 Budget Act.

Existing law requires the dental benefits provided under the Healthy Families Program to be consistent with those dental benefits provided to state employees, except as provided.

This bill would authorize the board to establish a cap on the amount of dental coverage provided under the Healthy Families Program in a given benefit year, effective the first day

of the 5th month following the enactment of the 2008–09 Budget Act. The bill would prohibit the cap from being lower than \$1,500 per subscriber per benefit year.

Existing law requires that vision services provided under the Healthy Families Program be equivalent to those provided to state employees.

This bill would exempt from these equivalent vision benefits tinted lenses and photochromatic lenses, unless deemed medically necessary.

Existing law requires the State Department of Mental Health to utilize a joint state-county decision making process to determine the appropriate use of state and local training, technical assistance, and regulatory resources to meet the mission and goals of the state's mental health system in regard to specified areas, including, but not limited to, providing forums on policy development and direction with respect to mental health program operations and clinical issues.

This bill would additionally require the department to use the joint state-county decisionmaking process to identify and fund a statewide training and technical assistance entity, as described.

This bill, commencing January 10, 2009, and each year thereafter, would require the department to provide the fiscal committees of the Legislature with a fiscal estimate package containing specified information, as provided, by January 10 and at the time of the Governor's May Revision.

Under existing law, the California Early Start Intervention Services Act, various state entities provide coordinated services to infants and toddlers with disabilities and their families. Existing law requires early intervention services to be provided directly to eligible infants and toddlers and their families through the regional center system and the local education system, in accordance with the Lanterman Developmental Disabilities Services Act, its implementing regulations, and with specified family cost participation requirements.

Existing law also contains those family cost participation requirements for specified services obtained by regional centers for children with developmental disabilities who meet specified criteria, including, but not limited to, that the child has a developmental disability

This bill would revise this criteria to apply the family cost participation requirements to a child who has a developmental disability or who is eligible for services under the California Early Intervention Services Act, and would make other technical changes.

Existing law establishes the Habilitation Services Program, under the administration of the State Department of Developmental Services, and establishes the hourly rate for supported employment services provided to consumers receiving individualized services and group services, and fees required to be paid to the program provider upon intake, and retention of a consumer under the program.

This bill would reduce from \$34.24 to \$30.82, the hourly rate for those supported employment services, and decrease specified fees paid to providers upon intake, and retention of a consumer under the program.

The bill, commencing September 1, 2008, would require regional centers to ensure at specified phases of a consumer's individual program plan developed pursuant to existing law, or of an individualized family services plan developed pursuant to existing law, the establishment of an internal process that meets certain requirements, as provided. The bill, no later than April 1, 2009, would require the State Department of Developmental Services to provide the fiscal and policy committees of the Legislature with a written update regarding the implementation of these provisions.

Existing law provides for administration of the Early and Periodic Screening, Diagnosis, and Treatment Program (EPSDT) by the State Department of Mental Health.

Existing law separately provides for the Medi-Cal program, administered by the State Department of Health Care Services, under which qualified low-income persons are provided with health care services, including mental health services.

Under existing law, the State Department of Mental Health is required to implement managed mental health care for Medi-Cal recipients through fee-for-service or capitated

contracts with counties, counties acting jointly, qualified individuals or organizations, or nongovernmental entities. The State Department of Mental Health, pursuant to an interagency agreement with the State Department of Health Care Services, is responsible for assuming specified program oversight authority over mental health plans, including, but not limited to, the responsibility to monitor the level and quality of services provided, expenditures pursuant to the contract, and conformity with federal and state law.

This bill, commencing July 1, 2008, and until September 1, 2011, would require county mental health plans, in collaboration with the State Department of Mental Health, the federally required external quality review organization, and other specified stakeholders, to establish an advisory statewide performance improvement project to increase the coordination, quality, effectiveness, and efficiency of service delivery to certain children who are either receiving a specified dollar amount in EPSDT services, as provided, or who are identified in the top 5% of the county EPSDT cost, whichever is lowest. The bill would provide that the performance improvement project shall replace one of the two required performance improvement projects that county mental health plans are currently required to perform pursuant to federal regulations.

The bill would also require, each July thereafter until September 1, 2011, the State Department of Mental Health, in consultation with the federally required external quality review organization and county mental health plans, to determine the average monthly cost threshold for counties to use to identify children to be reviewed who are currently receiving EPSDT services. The bill would also require the State Department of Mental Health to provide an annual update to the Legislature on the results of the statewide performance improvement project by October 1 of each year for the prior fiscal year.

The bill, by no later than January 10 and May 14 of each year, would also require the department to provide the fiscal committees of the Legislature an estimate package for the EPSDT Program, as provided.

Existing law establishes specified state hospitals for the developmentally disabled, including, Porterville Developmental Center.

This bill would prohibit the total number of developmental center residents in the secure treatment facility at Porterville Developmental Center from exceeding 297.

Existing law establishes the Medi-Cal program, administered by the State Department of Health Care Services, under which qualified low-income persons are provided with health care services. Existing law requires the department, to the extent required by federal law, for Medi-Cal recipients who are qualified Medicare beneficiaries, to pay the Medicare premiums, deductibles, and coinsurance for elderly and disabled persons whose income does not exceed the federal poverty level or 200% of a specified Supplemental Security Income program standard.

This bill would require the department, for Medicare beneficiaries to which the above provisions do not apply and who have a share of cost for Medi-Cal benefits, to pay a beneficiary's Medicare Part B premium in the month following each month in which the beneficiary's share of cost has been met. For beneficiaries with a share of cost at or below \$500 who do not qualify for assistance because their income exceeds the above-described income requirements, the bill would require the department to pay the beneficiary's Medicare Part B premium on a monthly basis. The bill would also require a county that is informed that an applicant or beneficiary is eligible for Medicare benefits to determine whether the individual is eligible for, and to enroll qualified individuals in, specified programs that assist eligible individuals with Medicare expenses, as provided. By imposing a new duty on counties, this bill would impose a state-mandated local program.

Existing law provides for the Kinship Guardianship Assistance Payment Program (Kin-GAP), which is a part of the CalWORKs program, administered by the State Department of Social Services, and which provides aid on behalf of eligible children who are placed in the home of a relative caretaker. Existing law limits the application of the program to children who have been adjudged a dependent child of the juvenile court and

whose dependency has been dismissed on or after January 1, 2000, concurrently or subsequent to the establishment of the kinship guardianship.

This bill would require the department to provide Medi-Cal benefits, without a share of cost, for children on behalf of whom Kin-GAP benefits are received. The bill would require the department and the State Department of Social Services to develop procedures to maximize the availability of federal financial participation for the costs in expanding coverage to these individuals, and would require that, to the extent federal financial participation is not available, only state funds be used to cover the cost of this expanded coverage.

By increasing the duties of local agencies responsible for making Medi-Cal determinations, this bill would create a state-mandated local program.

Existing law establishes the California Discount Prescription Drug Program, which is administered by the State Department of Health Care Services, and under which qualified individuals are provided with prescription drugs at reduced prices that result from rebate agreements between department and drug manufacturers. Existing law requires all moneys received by the department pursuant to the administration of the program to be deposited into the California Discount Prescription Drug Program Fund, a continuously appropriated fund, for the purpose of providing payment to participating pharmacies and for defraying its costs in administering the program, and prohibits money in the fund from being available for any other purpose.

This bill would state the intent of the Legislature that the program shall be self-financing, and that any General Fund moneys provided to the fund shall be repaid within 5 years after implementation of the program begins. The bill would require the department to provide the Legislature with a 5-year projection of program revenues and expenditures as part of its annual budget request, and to include in the project a projected repayment schedule.

The bill would also authorize the department to use no more than 25% of manufacturer rebate revenues it receives to cover the cost of administering the program, including the funding of a float account to finance payments to participating pharmacies in advance of the receipt of manufacturer rebates, and would make conforming changes. To the extent that this bill establishes a new purpose for use of continuously appropriated funds, this bill would make an appropriation.

Existing law, until September 1, 2008, and subject to the receipt of federal financial participation, requires the department to adopt a federal option under which any employed individual with a disability who meets specified income and resource requirements shall be eligible for benefits under the Medi-Cal program, subject to the payment of premiums. These provisions are repealed on January 1, 2009.

This bill would eliminate the repeal date of these provisions, thereby extending their duration indefinitely.

Because counties are required to make Medi-Cal eligibility determinations and this bill would extend and expand Medi-Cal eligibility under these provisions, the bill would impose a state-mandated local program.

Existing law requires the department, subject to the availability of federal financial participation, to exercise a federal option to expand continuous eligibility to children 19 years of age and younger until the earlier of either the end of a specified 12-month period or the date the individual exceeds the age of 19 years.

Existing law requires certain Medi-Cal beneficiaries to file a semiannual status report to assist the department in ascertaining any change in circumstances that may affect a beneficiary's eligibility. Existing law exempts certain individuals from these semiannual status reporting requirements, including any beneficiary who has been granted continuous eligibility pursuant to the above-described provisions.

This bill, commencing the first day of the month following 90 days after the effective date of the bill, and until January 1, 2012, would reduce the continuous eligibility period for these individuals to 6 months, and would impose semiannual reporting requirements on these

individuals during the period that this provision is in effect. It would require the department to report to the fiscal and health policy committees of the Legislature, by December 15, 2010, on the effects on enrolled children of reducing the continuous eligibility period and the imposition of the semiannual status reporting requirement.

The bill would also exempt from the semiannual status reporting requirements certain individuals, including, but not limited to, pregnant women whose eligibility under Medi-Cal is based on pregnancy, beneficiaries who have a public guardian, and medically indigent children who are not living with a parent or relative and who have a public agency assuming their financial responsibility.

Under existing law, one of the services provided under the Medi-Cal program is dental services, subject to limitations. Existing law limits, until January 1, 2009, and with certain exceptions, reimbursement to providers of dental services provided to individuals 21 years of age and older at the time of the service to not more than \$1,800 per beneficiary in any calendar year.

This bill would eliminate the repeal date of these provisions, thereby extending their duration indefinitely.

Under existing law, persons who are at least 21 years of age, but who have not attained the age of 65 years, and who are patients in an institution of mental diseases are eligible to receive ancillary outpatient services under the Medi-Cal program regardless of whether federal participation is available.

This bill would require, because federal financial participation is not available for the ancillary outpatient services, that any state funds and federal reimbursement paid for ancillary services provided to residents in institutions for mental disease shall be recovered from counties by the State Department of Mental Health in accordance with applicable state and federal law and regulation.

Existing law requires the State Department of Health Care Services to implement and administer the Genetically Handicapped Persons Program (GHPP), which provides health services to genetically handicapped persons, and the department and the counties to administer the California Children's Services (CCS) program, which provides services to physically handicapped children under 21 years of age.

Existing law permits the department, in administering these programs and the Medi-Cal program, to enter into contracts on a bid or negotiated basis with manufacturers, distributors, dispensers, or suppliers of pharmaceuticals, appliances, durable medical equipment, medical supplies, and other product-type health care services for the purpose of obtaining the most favorable prices to the state and to ensure adequate access to each quality and services. This provision is, however, inapplicable to pharmacies or suppliers that provide blood, blood derivatives, or blood factor products, or any product or service provided by those pharmacies or suppliers.

This bill would delete this limitation. The bill would until the earlier of July 1, 2013, or 3 years after implementation, also, with respect to these programs, permit the department, in order to provide specialized care in the distribution of specialty drugs, to enter into contracts with a nonexclusive number of providers licensed to dispense dangerous drugs or devices for programs that qualify for federal funding. It would also permit the department to contract with an intermediary to implement these CCS, genetically-handicapped children, and Medi-Cal contracting provisions.

It would require the department to generate a publicly available report containing specified information relating to the specialty pharmacy program, as provided. Effective July 1, 2008, the bill would also require the department, with respect to these programs, to collect a state rebate in addition to rebates pursuant to state or federal law, for prescribed blood factors.

Existing law contains various provisions governing reimbursement rates, including rates for fee-for-service payments to Medi-Cal providers, and for providers of services received under various health programs, including the above-described programs, the Child Health and Disability Prevention Program, and specified family planning programs.

Existing law requires the Director of Health Care Services to reduce provider payments by 10% for both Medi-Cal fee-for-service benefits and services rendered by providers under these health programs for services rendered on or after July 1, 2008.

This bill would revise these provisions to require the 10% reduction of reimbursement rates to apply to services rendered on or after July 1, 2008, through and including dates of service on February 28, 2009. The bill would, for services rendered on a fee-for-services basis on or after March 1, 2009, require the director to reduce payments for certain benefits, including for services rendered by providers under the above-described health programs, by 1%, and to reduce payments to specified classes of providers and pharmacies by 5%, subject to certain exceptions. The bill would exempt small and rural hospitals, as defined, from the reduction, under specified circumstances.

The bill would specify that the reductions imposed pursuant to the bill would apply only to the General Fund share of the payment, and only to payments for services from funds appropriated to the department.

To the extent federal financial participation is not available with respect to any of the payment reductions required pursuant to these provisions, the bill would authorize the director to not implement those payment reductions.

Existing law permits the department, under certain circumstances, to make changes to various programs through the issuance of provider bulletins.

This bill would authorize the department to distribute provider bulletins regarding the Medi-Cal program by either print or electronic medium, as provided.

This bill, no later than July 1, 2009, would require the department to establish a 2-year pilot program, in accordance with prescribed requirements, to utilize the federal Public Assistance and Reporting Information System (PARIS) to identify veterans and their dependents or survivors who are enrolled in the Medi-Cal program and assist them in obtaining federal veterans' health care benefits. The bill would require the department to select 3 consenting counties, as provided, to participate in the pilot program. It would require the department to evaluate the program and submit a report to the fiscal committees of the Legislature on the findings of that evaluation. It would permit the department, if it determines that the program is cost effective, to implement the program statewide.

Existing law requires the State Department of Public Health to impose a uniform quality assurance fee on each skilled nursing facility, with certain exceptions, in accordance with a prescribed formula.

Existing law, the Medi-Cal Long-Term Reimbursement Act, requires the department to implement a facility-specific reimbursement ratesetting system for certain freestanding skilled nursing facilities. Reimbursement rates for these facilities are funded by a combination of federal funds and moneys collected pursuant to the above-described uniform quality assurance fee. Existing law provides that this rate methodology shall cease to be implemented on July 1, 2009, with these provisions to be repealed on January 1, 2010.

This bill would require the department to impose the uniform quality assurance fee until July 31, 2011, would extend the implementation date of the freestanding skilled nursing facility rate reimbursement provisions until July 31, 2011, would make various conforming changes in these provisions, and would extend their repeal date for all of these provisions until January 1, 2012. It would also modify, for the 2009–10 and 2010–11 rate years, the facility reimbursement formula to be used under these provisions. It would require the department to convene a workgroup, with prescribed representation, to make recommendations to the department on a variety of issues related to skilled nursing facilities and specifically to these Medi-Cal reimbursement provisions. The department would be required to report to the Legislature on these recommendations by March 1, 2009, and seek necessary legislative changes to implement the recommendations that the department deems feasible to implement as part of the reauthorization of these reimbursement provisions.

Under existing law, one method for the provision of Medi-Cal services is through contracts with managed health care plans.

This bill would, subject to any necessary federal approval, require that the department take all appropriate steps to amend the Medicaid state plan, to implement a requirement that any hospital that does not have in effect a contract with a Medi-Cal managed health care plan that establishes payment amounts for services furnished to a beneficiary enrolled in that plan shall accept as payment in full prescribed payment amounts.

The bill, for poststabilization services following an emergency admission at all hospitals, would require payment amounts to be consistent with specified provisions of federal regulations, as provided, but only to the extent that contract amendment language providing for these payments is approved by the federal Centers for Medicare and Medicaid Services.

Existing law establishes the Medi-Cal Hospital/Uninsured Care Demonstration Project Act, which revises hospital reimbursement methodologies under the Medi-Cal program in order to maximize the use of federal funds consistent with federal Medicaid law and stabilize the distribution of funding for hospitals that provide care to Medi-Cal beneficiaries and uninsured patients. This demonstration project provides for funding, in supplementation of Medi-Cal reimbursement, to various hospitals, including designated public hospitals, nondesignated public hospitals, and private hospitals, as defined in accordance with certain provisions relating to disproportionate share hospitals.

This bill would make technical changes to these provisions.

Under these provisions, eligible private hospitals receive funding from the Private Hospital Supplemental Fund, a continuously appropriated fund. Existing law specifies sources of moneys in the fund, which includes an annual transfer of a specified amount from the amount appropriated to the department from the General Fund for the Medi-Cal program.

This bill would reduce the annual amount transferred to the fund for the 2008–09 fiscal year only in accordance with a specified formula.

Existing law provides for the payment of stabilization funding to certain designated public hospitals, project year private disproportionate share hospitals, and nondesignated public hospitals, as those terms are defined, under the demonstration project.

This bill would make various reductions to the calculation of that stabilization funding for purposes of the 2006–07 fiscal year, and would make conforming changes.

Existing law reduces by 10% payments for inpatient hospital services to acute care hospitals not under selective contracts with the department that are provided on and after July 1, 2008.

This bill, until January 1, 2013, would revise this provision by applying this reduction to all hospitals that receive Medi-Cal reimbursement from the department and that are not under selective contracts with the department. The bill, commencing October 1, 2008, and until January 1, 2013, would require the amounts paid for inpatient hospital services to be determined using a prescribed formula, subject to specified exceptions. If specified hospitals choose to enter into selective contracts with the department, the bill would require the California Medical Assistance Commission to negotiate reimbursement rates for those hospitals in accordance with specified criteria. The bill would require the department to report annually, from January 1, 2010, to January 1, 2012, inclusive, to the Legislature on the implementation and impact made by the changes to these rate reduction provisions.

Existing law requires the department to establish and maintain a plan, known as the County Administrative Cost Control Plan, for the purpose of effectively controlling costs related to the county administration of the determination of eligibility for benefits under the Medi-Cal program within the amounts annually appropriated for that administration. Pursuant to the plan, the department establishes standards and performance criteria to which counties are required to adhere. Existing law authorizes the department to impose a 2% reduction in the allocation of funds to a county that fails to meet certain performance standards, as provided.

This bill would prohibit the department from reducing a county's allocation for failure to meet performance standards during any period of time in which the cost of doing business increase is suspended.

Existing law establishes the Medi-Cal Eligibility Data System (MEDS) regarding the status of applications for Medi-Cal coverage. Existing law requires counties to work MEDS error alerts as prescribed, to submit quarterly reconciliation files to the department, and, in some cases, to submit corrective action plans. Existing law authorizes the department to impose a 2% reduction in the allocation of funds to a county that fails to meet interim benchmarks for improvement standards required to be in a corrective action plan.

This bill would prohibit the department from reducing a county's allocation for failure to meet these interim benchmarks for improvement standards during any period of time in which the cost of doing business increase is suspended.

The California Adult Day Health Care Act provides for the licensure and regulation of adult day health centers, with administrative responsibility for this program shared between the State Department of Public Health and the California Department of Aging pursuant to an interagency agreement.

Under existing law, adult day health care services are a covered benefit under the Medi-Cal program. Existing law provides that participation in an adult day health care program under the Medi-Cal program requires prior authorization by the State Department of Health Care Services. Existing law further provides that authorization of an adult day health care treatment authorization request shall be granted only if the participant meets specified criteria.

This bill would exempt participants residing in an intermediate care facility for the developmentally disabled-habilitative from the requirement that these criteria be met. It would provide, however, that an adult day health care treatment authorization request shall be granted for a resident of such a facility only if he or she has disabilities and a level of functioning that are of such a nature that, without supplemental intervention through adult day health care, placement to a more costly institutional level of care would be likely to occur.

Existing law specifies the procedures by which the department determines prospective capitation rates to health plans participating in the Medi-Cal managed care program, and permits the department to utilize a county and health plan specific rate methodology to develop Medi-Cal managed care capitation rates for contracts between the department and case management plans, county health systems, and a geographic managed care pilot project.

Prior to finalizing the Medi-Cal managed care capitation rates, the department is required to provide health plans with information on how the rates were developed and to provide the plans with the opportunity to provide additional supplemental information.

This bill, for contracts between the department and county health systems, would require the department, by June 30 of each year, or if the budget has not passed by that date, no later than 5 working days after the budget is signed, to also provide preliminary rates for the upcoming fiscal year.

Existing law provides that the board of supervisors of a county that contracted with the State Department of Health Care Services pursuant to a specified provision of law during the 1990–91 fiscal year and any county with a population under 300,000, as determined in accordance with the 1990 decennial census, may, by adopting a resolution to the effect, elect to participate in the County Medical Services Program (CMSP) for state administration of health care services to eligible persons in the county.

Existing law revises, for the 2007–08 fiscal year, state and county financial responsibilities for certain increases in the CMSP.

This bill would further extend that provision to include all fiscal years thereafter.

Existing law permits a county participating in the CMSP to establish a County Medical Services Program Governing Board, in accordance with prescribed requirements, to govern the program.

Existing law provides for the County Health Services Program Account in the County Health Services Fund. Existing law prohibits moneys in this account from being transferred to any other fund or account in the State Treasury, except as provided. Existing law creates the continuously appropriated Local Revenue Fund, which is divided into various accounts

and subaccounts, in order to provide revenue to local jurisdictions for specified local health and social services programs.

Existing law provides for allocations from accounts in the Local Revenue Fund to the County Medical Services Subaccount in the Sales Tax Growth Account.

This bill would, notwithstanding any other provision of law, and upon the request of the County Medical Services Program Governing Board, require the Controller to deposit certain allocations into the County Medical Services Subaccount, in lieu of depositing those amounts into the County Medical Services Program Account of the County Health Services Fund, thus constituting an appropriation. The bill would also, upon the request of the County Medical Services Program Governing Board, require the Controller to transfer amounts deposited into the County Medical Services Subaccount to the County Medical Services Program Governing Board for specified reasons, thus constituting an appropriation.

This bill would reallocate certain amounts appropriated in the Budget Act of 2008 from the Cigarette and Tobacco Products Surtax Fund, with these revenues to be allocated to certain county health services programs.

Beginning in the 2008–09 fiscal year, the bill would require the State Department of Developmental Services to annually provide an update to the appropriate policy and fiscal committees of the Legislature during the fall legislative interim regarding the impact of the adopted freezes and various cost containment measures on clients and service levels. The bill would authorize the policy committees of the Legislature to hold informational hearings on these issues, as provided, and would require the committees to report their findings for consideration in the annual subcommittee budget process or in legislation.

The bill would require the State Department of Mental Health to confer with the County of San Mateo, relevant constituency groups, and with the State Department of Health Care Services to appropriately craft a transition plan to ensure the continuity of care for mental health clients in the event that the state's contract for the services provided under the San Mateo Pharmacy and Laboratory Project are substantially modified or transitioned to the State Department of Health Care Services. The bill would require the State Department of Mental Health to provide the fiscal and policy committees of the Legislature with a status update regarding the development of a transition plan by no later than December 31, 2008.

Existing law establishes the Mental Health Services Oversight and Accountability Commission, comprised of specified members, to oversee various programs and provisions of law relating to mental health.

This bill would require the State Department of Mental Health to provide the Mental Health Services Oversight and Accountability Commission (OAC) with data, as specified by the OAC, for purposes of the OAC to utilize in its oversight, review, and evaluation capacity regarding specified programs.

Existing law provides for the California Statewide Supportive Housing Initiative Act, which is administered by the State Department of Mental Health. Under the act, the department awards grants to applicants, including public and private agencies, that demonstrate a need for supportive housing for low-income individuals with special needs and a local commitment to providing funding for the purpose of developing and operating supportive housing, as provided.

Existing law separately sets forth various powers and duties of the California Housing Finance Agency in conjunction with the financing of housing.

The bill, commencing July 1, 2008, and each year thereafter, would require the State Department of Mental Health, in collaboration with the California Housing Finance Agency, to provide semiannual updates regarding key results and funding for the capital costs associated with permanent supportive housing for individuals with mental illness, as provided for under the Housing Initiative Program, to the fiscal and policy committees of the Legislature, as provided.

Existing law vests in the State Department of Public Health various responsibilities relating to drinking water quality standards and providers of drinking water.

The bill would require the State Department of Public Health to provide the fiscal and policy committees of the Legislature with a synopsis of key issues regarding the department's responsibilities and oversight of small water systems, and options for sustainability of the program to meet safe drinking water quality standards.

The bill would also require the department to prepare a fund condition statement for federal Title V Maternal and Child Health Block Grant funds, as approved by the Department of Finance, for inclusion in the annual budget process, and to be published in the Governor's budget documents provided to the Legislature by no later than January 10 of each year.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 759 (AB 1279) Committee on Budget Human services.

The Child Care and Development Services Act, administered by the State Department of Education, provides that children up to 13 years of age are eligible, with certain requirements, for child care and development services. Existing law provides for child care alternative payment programs, the purpose of which is to provide for parental choice in child care. Under existing law, payments by alternative payment programs to licensed child care providers cannot exceed the applicable market rate ceiling. Existing law requires an alternative payment program to reimburse a child care provider in accordance with an annual market survey, to be conducted by an entity contracting with the department, at a rate not to exceed ceilings prescribed by statute.

Existing law contains requirements governing the provision of child care services to recipients of the California Work Opportunity and Responsibility to Kids (CalWORKs) program. Under these provisions, the above-described reimbursement mechanism applicable to the alternative payment programs is also used for providers of child care to CalWORKs recipients.

This bill would, instead, require, commencing March 1, 2009, the regional market rate ceilings to be established at the 85th percentile of the 2007 regional market rate survey for that region, and would make conforming changes. The bill would require the market rate surveys to be conducted on a biennial rather than annual basis. The bill would prohibit a family receiving CalWORKs cash aid from being charged a family fee.

Existing law requires reimbursement for alternative payment programs to include the cost of child care, plus administrative and support services. Under existing law, the total cost for administrative and support services is not permitted to exceed 23.4567% of the direct cost of care payments to child care providers.

This bill would instead provide that the administrative and support services costs would not be permitted to exceed 19% of the total contract amount.

Existing law requires the Superintendent of Public Instruction to collaborate with the Secretary for Education and the Secretary of Health and Human Services, with the advice and assistance of the Child Development Programs Advisory Committee, in the development of the state plan required pursuant to the federal Child Care and Development Fund, prior to submitting or reporting on that plan to the federal Secretary of Health and Human Services.

This bill would require the State Department of Education to develop an expenditure plan, the Child Care Development Fund (CCDF) Plan that sets forth the final priorities for child care, as specified. The bill would require the department to release a draft of the CCDF Plan by February 1 of the year the plan is due to the federal government, and to commence a 30-day comment period that would include at least one hearing and the opportunity for

written comments. The bill would require the department to provide the revised CCDF Plan to designated committees of the Legislature, prior to the May budget revisions.

This bill would require the State Department of Education to promote full utilization of child care and development funds and match available unused funds with identified service needs. The bill would require the department to arrange interagency adjustments between different contractors with the same type of contract under specified circumstances.

Existing law governs independent adoptions, which are defined to mean adoptions in which neither the State Department of Social Services nor an agency licensed by that department is a party to or joins in the adoption petition. Existing law defines an adoption service provider and a delegated county adoption agency for purposes of these provisions and sets forth the duties of these entities with respect to independent adoptions. Among other duties, an adoption service provider advises each birth parent of his or her rights and, if it is desired, provides counseling. In addition, existing law requires the department or the delegated county adoption agency to investigate proposed adoptions, accept the consent of and information provided by birth parents to the adoption, and file specified reports with the court.

Existing law governing independent adoptions authorizes certain persons to adopt a child by filing a petition, pursuant to provisions, as specified, including interviews by the department of the petitioners and all persons from whom consent is required and whose addresses are known. When a petition for the adoption of a child is filed under the provisions governing independent adoptions, existing law requires the petitioner to pay a nonrefundable fee to the department or the delegated county adoption agency for the cost of investigating the adoption petition.

Existing law prescribes the use of the revenues produced by the fees collected and authorizes the department or the delegated county adoption agency to waive or reduce those fees under certain conditions.

This bill, commencing October 1, 2008, would revise the time frame for interviews in an independent adoption. It would also revise the provision requiring the payment of a fee in connection with an adoption petition, as described above, to require 50% of the fee to be paid at the time the petition is filed with the court, and the balance to be paid no later than a date determined by the department or delegated county adoption agency. The bill would also increase the applicable fee amounts, and revise related provisions with respect to investigative reports by the department and delegated county adoption agencies, and appeals by birth parents or petitioners. The bill would also revise the provisions authorizing the department or the delegated county adoption agency to waive or reduce the fees associated with filing the adoption petition, to delete the department's authority to waive the fee in its entirety, and to limit the amount to which the fee may be reduced, to \$500, if the prospective adoptive parents are very low income.

This bill would authorize the State Department of Social Services to implement the provisions of the bill relating to independent adoptions by all county letters, pending the adoption of emergency regulations.

Existing law contains various provisions, which became effective January 1, 2007, relating to the disclosure of personal information between adoptees and their biological siblings.

This bill would delay implementation of the above provisions until July 1, 2010. The bill would declare the intent of the Legislature that counties already implementing some or all of these provisions continue to do so, to the extent possible.

This bill would require the State Department of Social Services to meet with stakeholders prior to legislative subcommittee hearings in 2009 to determine ways that the process for the Independent Adoptions Program can be simplified and streamlined, and provide an update on those discussions during the 2009 subcommittee hearings, as specified. The bill would require the department to provide an update during the 2009 legislative subcommittee

hearings regarding the degree to which fee collections have improved as a result of the statutory changes made by the bill.

Existing federal law provides for allocation of federal funds through the federal Temporary Assistance for Needy Families (TANF) block grant program to eligible states. Existing law provides for the California Work Opportunity and Responsibility to Kids (CalWORKs) program under which, through a combination of state and county funds and federal funds received through the TANF program, each county provides cash assistance and other benefits to qualified low-income families.

Existing law requires the Department of Child Support Services to create a program establishing an arrears collection enhancement process, until July 1, 2008, pursuant to which the department may accept offers in compromise of child support arrears and accrued interest owed to the state for reimbursement of aid paid under the CalWORKs program. Under existing law, the Director of Child Support Services is authorized to delegate to the administrator of a local child support agency the authority to compromise child support arrears, up to \$5,000, as specified.

This bill would revise the arrears collection enhancement process by, among other things, designating it as a compromise of arrears program, and revising the powers and duties of the director with respect to the operation of the program. The bill would require the director to allow a local child support agency administrator to compromise an amount of child support up to \$5,000, and would permit the director to delegate additional authority to compromise up to an amount determined by the director to support the effective administration of the program. This bill would also eliminate related consultation and reporting requirements. The bill would eliminate the termination date of the program extending it indefinitely, thereby increasing county duties and imposing a state-mandated local program.

Existing law requires the Department of Child Support Services, beginning July 1, 2000, to pay to each county a child support incentive for child support collections. Additionally, effective July 1, 2000, existing law provides that the 10 counties with the best performance standards shall receive an additional 5% of the state's share of the counties' collections that are used to reduce or repay aid that is paid under the CalWORKs program. Existing law requires the counties to use the additional funds for specified child support related activities. Existing law suspends the payment of this additional 5% for the 2002–03 to 2007–08, inclusive, fiscal years.

This bill would extend the suspension of the 5% payment through the 2011–12 fiscal year.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, and under which qualified low-income persons receive health care services. Existing law requires the Department of Child Support Services to provide payments to the local child support agency of \$50 per case for obtaining 3rd-party health coverage or insurance of beneficiaries, to the extent that funds are appropriated in the Budget Act. Under existing law, these payments are suspended for the 2003–04 to 2007–08, inclusive, fiscal years.

This bill would extend the suspension of payments to local child support agencies through the 2011–12 fiscal year.

This bill would require the Department of Child Support Services to provide more comprehensive data from the state hearing pilot project that demonstrates that the pilot has reduced state hearings, a breakdown of how the pilot's revised hearing process results in the estimated savings to state hearing costs, and trailer bill language to codify the new hearing process.

Under existing law, the State Department of Social Services regulates the licensure and operation of community care facilities, residential care facilities for the elderly, child day care centers, and family day care homes. Existing law requires the department to conduct annual unannounced visits to these facilities under designated circumstances. Existing law further requires the department to conduct annual unannounced visits to no less than 20% of the remaining facilities, based on a random sampling methodology developed by the

department. If the total citations issued by the department exceed the previous year's by 10%, existing law requires the department to increase the random sample by 10% the following year for years after the 2007–08 fiscal year, and authorizes the department to request additional resources for this purpose.

This bill would suspend the requirement that the department increase these random samples by 10% for the 2008–09 and 2009–10 fiscal years, and would require the department to submit trailer bill language to the Legislature on or before February 1, 2010, to reflect appropriate indicators to trigger an increase in unannounced random sample visits, as specified.

Existing law requires a criminal record check of applicants for a license, special permit, or certificate of approval for a foster family home or certified family home, and other persons, including nonclients who reside in those homes and staff and employees. Existing law imposes similar requirements with respect to issuing licenses, permits, or certificates of approval for persons to operate or provide direct care services in a child care center or family child care home. Under these provisions, an application is required to be denied, unless the Director of Social Services grants an exemption, if it is found that the applicant or any of the other designated persons has been convicted of prescribed crimes. Existing law prohibits the Department of Justice or the State Department of Social Services, except during specified fiscal years, from charging a fee for fingerprinting an applicant to provide foster care or child care services to 6 or fewer children or to obtain a family day care license in connection with these criminal record check provisions.

This bill would extend the exemption from the prohibition against charging a fee for fingerprinting applicants, through the 2008–09 and 2009–10 fiscal years.

Existing law requires the State Department of Alcohol and Drug Programs to establish a narcotic replacement therapy dosing fee for methadone and levoalphacetylmethadol (LAAM), and requires narcotic treatment programs to be reimbursed for the ingredient costs of methadone and LAAM dispensed to beneficiaries under the Medi-Cal program. Existing law requires reimbursement for narcotic replacement therapy dosing and ancillary services to be based on a per capita uniform monthly reimbursement rate for each individual patient, as established by the department, in consultation with the State Department of Health Care Services.

This bill would, instead, require this rate to be determined on a daily rather than monthly basis, as specified, and would make various conforming changes.

Existing law makes the Department of Child Support Services, through the Franchise Tax Board as its agent, responsible for procuring, developing, implementing, and maintaining the operation of the California Child Support Automation System in all California counties. Existing law gives the Franchise Tax Board various responsibilities in this regard.

This bill would transfer all duties and authority of the Franchise Tax Board with respect to the California Child Support Automation System to the Department of Child Support Services, as specified. It would, however, permit the department to enter into an interagency agreement with the board to continue to have the board perform any services necessary for support of the system, on January 1, 2009, or upon federal notification that the California Child Support Automation System is implemented in all jurisdictions, whichever is later.

Existing law authorizes the Director of Social Services to enter into an agreement, in accordance with specified federal law, with any California Indian tribe or any out-of-state Indian tribe regarding the care and custody of Indian children and jurisdiction over Indian child custody proceedings. Under existing law, these agreements include provision of child welfare services and Aid to Families with Dependent Children-Foster Care (AFDC-FC) payments, as specified.

This bill, in addition, would authorize the director to provide funding to Indian health clinics to provide substance abuse and mental health services, and other related services authorized under the CalWORKs program to CalWORKs applicants and recipients and Tribal TANF applicants and recipients living in California.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Existing law requires the Office of Systems Integration in the State Department of Social Services to implement a statewide automated welfare system for 6 specified public assistance programs, and requires statewide implementation of the system to be achieved through 4 designated county consortia.

This bill, notwithstanding existing requirements, would require the office to migrate the 35 counties that currently use the Interim Statewide Automated Welfare System into the C-IV system, in accordance with a specified timeline.

Existing law requires the State Department of Social Services to administer a voluntary Temporary Assistance Program (TAP), to provide cash assistance and other benefits to specified current and future CalWORKs recipients who meet the exemption criteria for participation in welfare-to-work activities, and are not single parents who have a child under one year of age. Existing law requires that the TAP commence on or before April 1, 2009.

This bill would postpone initial implementation of the TAP to April 1, 2010.

Existing law establishes the schedule of maximum aid payments under the CalWORKs program, and provides for the annual adjustment of these payments, as specified. Existing law provides that the adjustment to the maximum aid payment would be effective October 1, 2008, for the 2008–09 fiscal year, and would take effect on July 1, 2009, for the 2009–10 fiscal year.

This bill would delete the provisions establishing the effective dates for the adjustment to the maximum aid payment in the 2008–09 and 2009–10 fiscal years, and instead would suspend the adjustment in the 2008–09 fiscal year.

Existing law, under the AFDC-FC program, requires foster care providers licensed as group homes to have rates established by the State Department of Social Services only if the group home is organized and operated on a nonprofit basis, except as specified. Existing law permits certain children with developmental disabilities or other special needs to be placed in for-profit facilities, under specified conditions.

This bill would delay implementation of the provisions authorizing placement of those children in for-profit facilities, until July 1, 2010.

Existing law provides for the State Supplementary Program for the Aged, Blind and Disabled (SSP), which requires the State Department of Social Services to contract with the United States Secretary of Health and Human Services to make payments to SSP recipients to supplement supplemental security income (SSI) payments made available pursuant to the federal Social Security Act. Under existing law, benefit payments under the SSP program are calculated by establishing the maximum level of nonexempt income and federal SSI and state SSP benefits for each category of eligible recipient. The state SSP payment is the amount, when added to the nonexempt income and SSI benefits available to the recipient, which would be required to provide the maximum benefit payment.

Existing state law provides, except in certain calendar years, for the annual adjustment of the total level of combined state and federal benefits as established by statutory schedule to reflect changes in the cost of living, as defined. Existing law provides that, for the 2008 calendar year, the annual adjustment would be effective October 1, 2008, and commencing with the 2009 calendar year and thereafter, the annual adjustment would be effective June 1 of that calendar year, and further provides that in any calendar year in which no cost-of-living adjustment is made to the payment schedules, there shall be a pass along of any cost-of-living increases in federal SSI benefits.

This bill would, instead, suspend the annual cost-of-living adjustment for the 2008 and 2009 calendar years.

Existing law provides for the county-administered In-Home Supportive Services (IHSS) program, under which qualified aged, blind, and disabled persons are provided with services in order to permit them to remain in their own homes and avoid institutionalization. Existing law permits services to be provided under the IHSS program either through the employment of individual providers, a contract between the county and an entity for the provision of

services, the creation by the county of a public authority, or a contract between the county and a nonprofit consortium.

Existing law authorizes the State Department of Health Care Services to investigate fraud in the provision or receipt of supportive services, and requires counties to refer instances of suspected fraud to that department for investigation.

This bill, notwithstanding any other provision of law, would authorize a county to investigate suspected fraud in connection with the provision or receipt of supportive services, with respect to an overpayment of \$500 or less.

Under existing law, personal care services provided to a qualified individual who is eligible for Medi-Cal benefits are a Medi-Cal covered benefit. Personal care services are also a covered benefit under the In-Home Supportive Services program.

Existing law requires the State Department of Social Services to procure and implement a new Case Management Information and Payrolling System (CMIPS) for the IHSS program and Personal Care Services Program, establishes the components of the new system, and requires the state to begin a fair and open competitive procurement for the new system by August 31, 2004.

This bill would additionally require the new CMIPS to strengthen fraud prevention and detection, as well as to reduce overpayments. The bill would provide that program requirements shall include, but shall not be limited to, the ability to readily identify out-of-state providers, recipient hospital stays that are 5 days or longer, and excessive hours paid to a single provider, and to match recipient information with death reports. The bill would provide that this functionality shall be available by April 1, 2010, and implemented statewide by July 1, 2011.

Existing law authorizes the State Department of Alcohol and Drug Programs to enter into a Medi-Cal Drug Treatment Program contract with each county for the provision of services within the county service area. Existing law requires the State Department of Alcohol and Drug Programs to prepare amendments to the Medi-Cal state plan to obtain reimbursement for drug Medi-Cal services and provides for the computation of the maximum allowable rates for the Medi-Cal Drug Treatment Program.

This bill would make technical revisions to the provisions relating to the Medi-Cal Drug Treatment Program reimbursement rates, as specified.

Existing law provides for the Food Stamp Program, under which food stamps are allocated by each county in accordance with federal requirements. Under existing law, the Food Stamp Program is administered at the state level by the State Department of Social Services.

This bill would require the State Department of Social Services to establish a Work Incentive Nutritional Supplement (WINS) program, under which each county would be required to provide a \$40 monthly additional food assistance benefit for each eligible food stamp household, as defined. The bill would require the state to pay the counties 100% of the cost of WINS benefits, using funds that qualify for the state's TANF maintenance of effort requirements, as specified. The bill would prohibit WINS benefits from being paid before October 1, 2009, and would require full implementation of the program on or before April 1, 2010.

The bill would authorize the director to implement the WINS program by all-county letters, pending the adoption of emergency regulations.

The bill would require the department to convene a workgroup on or before December 1, 2008, comprised of designated representatives, to consider the progress of the WINS automation effort in tandem with a pre-assistance employment readiness system (PAERS) program and any other program options that may provide offsetting benefits to the caseload reduction credit in the CalWORKs program. The bill would prohibit full implementation of the WINS program until the workgroup is convened.

By requiring counties to perform additional duties, this bill would impose a state-mandated local program.

Existing law requires the State Department of Social Services to establish and supervise a county- or county consortia-administered program to provide cash assistance to aged, blind, and disabled legal immigrants who are not citizens and who successfully complete an application process. Existing law requires any person found by the department to be eligible for federal Supplemental Security Income (SSI) benefits to be required to apply for those benefits. Existing law, until July 1, 2009, requires the department to require counties with a base caseload of 70 or more, and to encourage other counties, to establish an advocacy program to assist applicants and recipients of aid under these provisions in applying for SSI benefits, as provided.

This bill would extend operation of the advocacy program to July 1, 2011. By extending county duties, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 760 (AB 1338) Committee on Budget Public resources.

(1) Existing law requires every person who sells for use in this state a pesticide product that has been registered by the Director of Pesticide Regulation to pay to the director applicable assessments, except as specified. Existing law requires the revenue collected from these assessments to be deposited in the Department of Pesticide Regulation Fund with an amount equal to the revenue derived from 7.6 mills per dollar of sales for all pesticide sales for use in this state to be distributed to the counties as reimbursements for costs incurred in the administration and enforcement of pesticide regulations.

This bill would require the Director of Pesticide Regulation to pay from that revenue in the fund an amount not to exceed the revenue derived from 0.5 mill per dollar of sales for all pesticide sales for use in this state to counties in nonattainment areas to assist those counties in the administration and enforcement of restrictions on the use of field fumigants, as specified. The bill would specify how those funds are to be apportioned based on certain criteria. By authorizing money in the Department of Pesticide Regulation Fund to be used for a new purpose, the bill would make an appropriation.

(2) Existing law requires specified state agencies to prepare and submit to the Secretary for Environmental Protection, in a standardized format as determined by the California Environmental Protection Agency (Cal-EPA), specified information relating to the state agency's greenhouse gas (GHG) emissions, including a list of measures adopted and implemented by the agency to meet any GHG emission reduction targets, as defined, and a status report on GHG emissions reduced as a result of these measures. The Cal-EPA is required to provide that information on its Internet Web site in the form of a state agency greenhouse gas emission reduction report card.

This bill would require the Cal-EPA to include an estimate of the department's own greenhouse gas emissions and an explanation of changes in the emissions as compared to the previous year's emissions. The bill would require the Cal-EPA, on or before January 10 of each year, to submit to the Legislature a comprehensive budget display, including funding proposals and base funding in the proposed Governor's Budget for state agencies implementing climate solutions to meet the greenhouse gas emission reduction targets established pursuant to the California Global Warming Solutions Act of 2006. The budget display would also be required to include a 5-year work plan summary for each department showing how staff and contracting resources will be allocated to achieve specified deliverables.

(3) Existing law requires all money in the Harbors and Watercraft Revolving Fund to be available, upon appropriation, to the Department of Boating and Waterways, the Department of Parks and Recreation, and the State Water Resources Control Board for, among other things, boating-related facility development, boating safety programs, and regulatory activities.

This bill would make money in the Harbors and Watercraft Revolving Fund available, upon appropriation, to the Department of Fish and Game and the Department of Food and Agriculture for activities addressing boating-related spread of invasive species.

(4) Existing law requires the State Fire Marshal to charge state agencies, departments, and programs for fire and life safety building code inspections rendered by the State Fire Marshal. Existing law requires the Controller, at the request of the State Fire Marshal, to transfer the amount of the charges for services rendered from the agency's appropriation to the appropriation for the support of the State Fire Marshal's office.

This bill would additionally require the State Fire Marshal to charge local agencies and private entities for fire and life safety building code inspections and related fire and life safety activities rendered by the State Fire Marshal. The State Fire Marshal would be required to charge local government and private entities for the amount sufficient to recover the costs of the services provided.

(5) Existing law requires the State Fire Marshal, or his or her authorized representative, to inspect every jail or place of detention for persons charged with or convicted of a crime, except as specified.

This bill would authorize the State Fire Marshal to charge and collect a fee for that inspection from the local government, as specified.

(6) Existing law requires the State Fire Marshal, the chief of any city or county fire department or district providing fire protection services, and their authorized representatives, to enforce in their respective areas building standards relating to fire and panic safety adopted by the State Fire Marshal and published in the State Building Standards Code and other regulations that have been formally adopted by the State Fire Marshal for the prevention of fire or for the protection of life and property against fire or panic. Existing law authorizes the State Fire Marshal to enforce the building standards and other regulations of the State Fire Marshal in areas outside of corporate cities and districts providing fire protection services and in corporate cities and districts providing fire protection services upon request of the chief fire official or the governing body.

Existing law requires every city or county fire department or district providing fire protection services that is required to enforce building standards adopted by the State Fire Marshal and other regulations of the State Fire Marshal to annually inspect all structures, as specified, for compliance with those building standards and regulations. Existing law authorizes a city, county, or district that inspects a structure pursuant to that provision to charge and collect a fee for the inspection from the owner of the structure in an amount, as determined by the city, county, or district, sufficient to pay its costs of that inspection.

This bill would authorize a city, county, or district that inspects a structure to also charge a fee for related fire and life safety activities. This bill would additionally authorize a State Fire Marshal who inspects a structure for compliance with building standards and regulations to charge and collect a fee for the inspection and related fire and life safety activities from the owner of the structure in an amount, as determined by the State Fire Marshal, sufficient to pay the costs of that inspection and related fire and life safety activities.

The bill would provide that the Legislature finds that any costs that may result from these provisions are not unique to local agencies or school districts and there is no mandate contained in these provisions that will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to specified constitutional and statutory provisions.

(7) The Environmental Cleanup and Fee Reform Act of 1997, creates the Toxic Substances Control Account in the General Fund. Specified charges imposed on

corporations handling hazardous materials are required to be deposited in that account. Under existing law, the funds in the Toxic Substances Control Account may be appropriated to the Department of Toxic Substances Control for specified purposes, including the payment of the costs of removal and remedial action incurred by the state in response to a release of hazardous substances. The funds may also be appropriated to the office of the Attorney General for the support of the Toxic Substance Enforcement Program in the office of the Attorney General, in carrying out provisions authorizing the recovery of the state's expenses in responding to, and overseeing, releases of hazardous substances. Existing law prohibits these expenditures from being subject to an interagency or interdepartmental agreement.

This bill would instead authorize the funds in the Toxic Substances Control Account to be appropriated to the department, for allocation to the office of the Attorney General, pursuant to an interagency agreement or similar mechanism and would delete the prohibition regarding subjecting the expenditure of those funds to an interagency or interdepartmental agreement. The bill would additionally authorize the funds in the account to be appropriated to the department for funding the California Environmental Contaminant Biomonitoring Program, and the funds would be authorized to be appropriated by the Legislature to the Office of Environmental Health Hazard Assessment and the State Department of Public Health, for the purposes of carrying out their duties under the California Environmental Contaminant Biomonitoring Program.

(8) Existing law requires that the revenues from specified fees and charges imposed upon the management of hazardous waste be deposited in the Hazardous Waste Control Account in the General Fund and the money in that account is available, upon appropriation by the Legislature, to the Department of Toxic Substances Control for, among other things, the regulation of hazardous waste. The funds are also available for appropriation to the office of the Attorney General for the support of the Toxic Substance Enforcement Program in the office of the Attorney General, to carry out the purposes of the hazardous waste control laws. Existing law requires that the expenditures from the Hazardous Waste Control Account for support of state agencies other than the department be subject to an interagency or interdepartmental agreement between the department and the state agency, but prohibits expenditures of funds appropriated to the office of the Attorney General for the support of the Toxic Substances Enforcement Program from being subject to an interagency or interdepartmental agreement.

This bill would instead authorize the funds in the Hazardous Waste Control Account to be appropriated by the Legislature to the department for allocation to the office of the Attorney General for those purposes, and would delete the prohibition regarding subjecting those expenditures to an interagency or interdepartmental agreement.

The bill would also delete obsolete provisions.

(9) Existing law, the Carpenter-Presley-Tanner Hazardous Substance Account Act, imposes liability for hazardous substance removal or remedial actions and requires the Department of Toxic Substances Control to adopt, by regulation, criteria for the selection and for the priority ranking of hazardous substance release sites for removal or remedial action under the act. The act requires that various funds be deposited in the Toxic Substances Control Account in the General Fund, including money received by the federal government pursuant to the Comprehensive Environmental Response Compensation and Liability Act of 1980, as amended (CERCLA). The act authorizes the department to expend the funds in the account, upon appropriation by the Legislature, to pay for, among other things, removal and remedial actions related to the release of hazardous substances.

Existing law provides for the creation of the Federal Trust Fund for the deposit of federal moneys.

The federal Small Business Liability Relief and Brownfields Revitalization Act (brownfield law) of 2002 amended various provisions of CERCLA to, among other things, provide financial assistance for grants and loans to fund brownfield remediation.

This bill would create the Revolving Loans Fund in the State Treasury and would continuously appropriate the moneys in that fund to the department. The bill would require that certain moneys be deposited in the fund, including moneys transferred to the fund from the Federal Trust Fund that are received pursuant to the brownfield law. The bill would require the department to expend the moneys in the Revolving Loans Fund only for the purposes authorized by the federal brownfield law, including providing financial assistance to provide loans and issue subgrants for response actions to eligible brownfield sites, as defined.

(10) Existing law, the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, approved by the voters as Proposition 1B at the November 7, 2006, general election, authorizes the issuance of general obligation bonds for various transportation-related purposes, including reducing emissions and improving air quality in trade corridors. The State Air Resources Board is required to allocate the funds to be used for air quality purposes pursuant to specified requirements. No project can be funded unless the project is sponsored by an applicant, which is defined as a local public entity involved in the movement of freight through trade corridors of the state or involved in air quality improvements associated with goods movement.

This bill would provide that for the purposes of administering a loan or loan guarantee program only, an applicant may include any state agency. The bill would make a conforming change.

(11) Existing law grants primary authority for the control of air pollution from vehicular sources to the State Air Resources Board. Existing law requires the state board, in conjunction with the State Energy Resources Conservation and Development Commission, to develop and administer a program to provide grants to encourage the purchase or lease of a new zero-emission vehicle.

This bill would require the state board to select projects for zero-emission vehicle leases or purchases and zero-emission vehicle infrastructure for the purpose of implementing any program to encourage the use of zero-emission vehicles through a competitive grant process that includes a public bidding process.

(12) Existing law establishes the Air Quality Improvement Program, administered by the State Air Resources Board, to fund, upon appropriation by the Legislature, air quality improvement projects related to fuel and vehicle technologies. The program is limited to competitive grants. Projects required to be undertaken pursuant to state or federal law or district rules or regulations are not eligible for funding.

Existing law creates the Air Quality Improvement Fund and provides that moneys in the fund may be used, upon appropriation by the Legislature, to implement the Air Quality Improvement Program.

This bill would, notwithstanding these provisions, require the state board to expend funds appropriated by the Legislature to it from the Air Quality Improvement Fund in the Budget Act of 2008, not used to implement the Air Quality Improvement Program, to provide financial assistance to owners and operators of on-road heavy-duty diesel-fueled motor vehicles for costs associated with early compliance with specified regulations, thereby making an appropriation. Funds would be required to be expended for low interest or zero interest loans or grants. The state board would be required to report to the Legislature on the implementation of these provisions.

(13) Existing law prohibits the Division of Oil, Gas, and Geothermal Resources in the Department of Conservation from expending, through the 2009–10 fiscal year, more than \$1,000,000 in any one fiscal year for the purpose of hazardous or idle-deserted wells. The division is prohibited from expending, commencing with the 2010–11 fiscal year, more than \$500,000 in any one fiscal year for the purpose of hazardous or idle-deserted wells.

This bill, instead, would authorize the division to expend, commencing on July 1, 2008, up to \$2,000,000 in any one fiscal year through the 2011–12 fiscal year, and up to \$1,000,000 commencing with the 2012–13 fiscal year. The Department of Conservation, on

October 1, 2011, would be required to report to the Legislature on the number of orphan wells remaining, the estimated costs of abandoning the orphan wells, and a timeline for future orphan well abandonment with a specific schedule of goals.

(14) The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 (bond act), an initiative bond act that was approved by the voters at the November 7, 2006, statewide general election, among other things, makes \$180,000,000 in bond funds available to the Department of Fish and Game (department) for bay-delta and coastal fishery restoration projects. Of those funds, up to \$45,000,000 is available for appropriation for coastal salmon and steelhead fishery restoration projects that support the development and implementation of species recovery plans and strategies for salmonid species listed as threatened or endangered under state or federal law.

Existing law appropriates \$5,293,000 of the \$45,000,000 available from the bond act to the department for the purposes of coastal salmon and steelhead fishery restoration projects, including the Coastal Salmonid Monitoring Plan. Under existing law, the department is permitted to allocate not more than \$2,520,000 for the purposes of the Coastal Salmonid Monitoring Plan.

Existing law requires a specified process to be applied to the expenditure of these funds, except funds allocated by the department to the Coastal Salmonid Monitoring Plan.

This bill would instead, exempt from these procedures the expenditure of funds annually appropriated for the Coastal Salmonid Monitoring Plan and would make conforming changes.

(15) The California Coastal Act establishes the Coastal Access Account in the State Coastal Conservancy Fund. The act requires that the money in the account be available, upon appropriation by the Legislature in the annual Budget Act, to the State Coastal Conservancy for grants to public agencies and private nonprofit entities or organizations for the development, maintenance, and operation of new or existing facilities that provide public access to the shoreline of the sea, as specified. The act also requires that any coastal development permit fees collected by the commission be deposited into the fund.

This bill would instead require that those fees be deposited into the Coastal Act Services Fund, which the bill would create in the State Treasury, to be administered by the commission. The bill would require that the moneys in the fund, upon appropriation by the Legislature in the annual Budget Act, be expended by the commission in accordance with specified provisions of the act to enforce the act and to provide services to local government, permit applicants, public agencies, and the public participating in the implementation of the act, as specified.

The bill would also require the transfer of \$500,000, adjusted annually as specified, from the Coastal Act Services Fund to the Coastal Access Account, which the bill would create in the fund for grants to provide public access to sea shorelines.

(16) Existing law, the Natural Heritage Preservation Tax Credit Act of 2000, requires the Wildlife Conservation Board to implement a program under which a donor of qualified property, upon approval of the board, may receive a tax credit for a portion of the value of property that is donated to a department, as defined, a local government, or a nonprofit organization designated by a local government or a department, in order to protect wildlife habitat, open space, and agricultural land. The act establishes the Natural Heritage Preservation Tax Credit Reimbursement Account in the General Fund to receive bond fund moneys from a local government or a department that is authorized to expend the moneys to acquire property under the act. Upon appropriation, the moneys in the account are required to be used to reimburse the General Fund for tax credits claimed, under the act.

This bill would appropriate the sum of \$5,870,782 for transfer from the Natural Heritage Preservation Tax Credit Reimbursement Account to the General Fund, and would eliminate the requirement that funds from the account be transferred to the General Fund upon appropriation. The bill would instead require the Controller to transfer moneys received in

the account to the General Fund, within 60 days of receipt of the funds and notification to the Legislature.

(17) Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities and can establish its own procedures, subject to statutory limitations or directions and constitutional requirements of due process. In a proposed decision in a rulemaking, the PUC has proposed the establishment of a California Institute for Climate Solutions (CICS).

This bill would prohibit the PUC from executing an order to establish the CICS and from adopting or executing any similar order or decision establishing a research program for climate change unless expressly authorized by statute. The bill would provide that it does not constitute a change in, but is declaratory of, existing law.

(18) Existing law requires the PUC to publish the complete text of each of its orders and decisions within a reasonable time, not to exceed one year after issuance. The PUC also implements and maintains various programs relating to the energy needs of the state.

This bill would require the PUC, by January 10 of each year, to report to the Joint Legislative Budget Committee and appropriate fiscal and policy committees of the Legislature, on all sources and amounts of funding and actual and proposed expenditures related to specified entities or programs established by the commission.

(19) Existing law creates the Electricity Oversight Board to fulfill various responsibilities, including overseeing the Independent System Operator and the Power Exchange, and to investigate any matter relating to the wholesale market for electricity to ensure that the interests of California's citizens and consumers are served, protected, and represented. The board has the power to sue and be sued, and is required to appoint an attorney to advise the board and to represent the board in any state or federal proceeding or action.

This bill would, until January 1, 2010, require the Attorney General to represent the Department of Finance and to succeed to all rights, claims, powers, and entitlements of the Electricity Oversight Board in any litigation or settlement to obtain ratepayer recovery for the effects of the 2000–02 energy crisis. The bill would prohibit the Attorney General from expending the proceeds of any of settlements of those claims, except as specified.

(20) Existing law continuously appropriates General Fund moneys to the Colorado River Management Account for the purpose of implementing the California Plan developed by the Colorado River Board of California. The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006, an initiative bond act approved by the voters at the November 7, 2006, statewide general election, authorizes the issuance of bonds in the amount of \$5,388,000,000 for the purposes of financing a safe drinking water, water quality and supply, flood control, and resource protection program, including \$100,000,000 in interregional and unallocated funds made available to the Department of Water Resources, subject to appropriation by the Legislature, for specified projects that implement an integrated regional water management plan or its equivalent, to be expended directly, or be granted by the department to address, multiregional needs or issues of statewide significance.

This bill would delete that continuous appropriation. The bill would recognize that an appropriation may be made in the annual Budget Act, in lieu of those General Fund moneys, of those interregional and unallocated bond funds, or another state funding source, for the same purposes as the deleted appropriation.

(21) Under existing law, the Porter-Cologne Water Quality Control Act, the State Water Resources Control Board and the California regional water quality control boards exercise the regulatory functions of the state in the field of water quality. Under the act, persons who fail to file, in a timely manner, a prescribed discharge monitoring report are subject to a mandatory minimum penalty of \$3,000 under specified circumstances. Funds derived from the imposition of that penalty are deposited in the Waste Discharge Permit Fund for expenditure, upon appropriation by the Legislature, by the state board to respond to significant water pollution problems.

This bill would make an appropriation by requiring those penalties to be deposited in the continuously appropriated State Water Pollution Cleanup and Abatement Account of the State Water Quality Control Fund for that described purpose.

(22) Existing law, the California Bay-Delta Authority Act, establishes in the Resources Agency the California Bay-Delta Authority. The act requires the authority and the implementing agencies to carry out programs, projects, and activities necessary to implement the Bay-Delta Program, defined to mean those projects, programs, commitments, and other actions that address the goals and objectives of the CALFED Bay-Delta Programmatic Record of Decision, dated August 28, 2000, or as it may be amended. The act requires the authority to develop policies and make decisions at program milestones, and to provide direction to achieve balanced implementation, integration, and continuous improvement in all program elements. The act assigns each implementing agency the responsibility for implementing one or more program elements, including the watershed program element.

This bill would include the Department of Conservation among the agencies that are the implementing agencies for the watershed program element.

(23) Under existing law, the Department of Water Resources operates the State Water Project and exercises other functions relating to the state's water resources.

This bill would require the department to use 8 specified limited-term positions exclusively for conducting studies on options for conservation and restoration of the Sacramento-San Joaquin River Delta, consistent with the recommendations of the Delta Blue Ribbon Task Force. The bill also would prohibit those positions from being used for environmental studies, or documentation, except for specified studies required pursuant to the California Environmental Quality Act.

(24) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that the Legislature finds that with regard to certain provisions there is no mandate contained in the bill that will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to these constitutional and statutory provisions.

(25) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 761 (AB 2026) Villines State property.

(1) Existing law requires the Department of Parks and Recreation to control the units of the state park system.

This bill would authorize the Director of the Department of Parks and Recreation, with the approval of the Director of General Services, to exchange with or sell to the City of Sacramento for fair market value all or part of specified properties located in Old Sacramento State Historic Park that is part of the Old Sacramento Historic District in the City of Sacramento. The bill would specify conditions under which this property may be exchanged or sold, and how the proceeds from any transfer may be used.

(2) Existing law establishes the State Park Contingent Fund and requires that money derived from gifts, bequests, or county or municipal appropriations or donations be deposited in the fund and used for specified purposes relating to the state park system.

This bill would require any net proceeds from an authorized transfer to be deposited into the State Park Contingent Fund to be used for development or construction within Old Sacramento State Historic Park.

(3) Existing law authorizes the Department of Parks and Recreation to enter into an agreement with an agency of the United States, a city, county, district, or other public agency, or any combination thereof, for the care, maintenance, administration, and control of lands of the state park system.

This bill would authorize the department, until January 1, 2014, to enter into an operating agreement with a qualified nonprofit organization for the development, improvement,

restoration, care, maintenance, administration, and control of a children's museum in Old Sacramento State Historic Park in the City of Sacramento.

The bill would require the department to notify each Member of the Legislature in whose district Old Sacramento State Historic Park is located if it intends to enter into an operating agreement under the bill. The bill does not authorize the demolition of any state building.

(4) Existing law authorizes the Director of General Services, with the approval of the Military Department and the State Public Works Board, to convey to the Roman Catholic Bishop, Sacramento, specified real property known as the 58th Street Armory, for consideration, as provided, under the terms and conditions that the Director of General Services determines to be in the best interest of the state.

This bill would authorize the Director of General Services, with the approval of the Military Department and the State Public Works Board, to grant to the Roman Catholic Bishop, Sacramento, an option to purchase or a lease with option to purchase, or exchange for real property, the specified real property. The bill would require the option to be exercised within 90 days from completion of a replacement facility, as provided, and the net proceeds of moneys received from the disposition of the property to be deposited in the Armory Fund for appropriation by the Legislature, subject to Section 9 of Article III of the California Constitution that requires that the net proceeds from the sale of surplus state property be deposited into the Deficit Recovery Bond Retirement Sinking Fund Subaccount.

(5) Existing law authorizes the Director of General Services to dispose of state surplus property, subject to specified conditions, including authorization by the Legislature.

This bill would authorize the director to sell, exchange, or lease for fair market value upon those terms and conditions determined by the director, 9 specified parcels of state property. It would provide that the net proceeds of 8 of the conveyances would be paid into the Deficit Recovery Bond Retirement Sinking Fund Subaccount, which is a continuously appropriated subaccount in the Budget Stabilization Account, thereby making an appropriation. The net proceeds from one parcel would be subject to the reimbursement of federal equity financing. The bill would require reimbursement to the Department of General Services for any cost or expense incurred in the disposition of a property under these provisions from the proceeds of the disposition. The surplus authorization for 7 specified parcels would be rescinded.

(6) Under existing law, the State Water Resources Control Board and the California regional water quality control boards prescribe waste discharge requirements for publicly owned treatment works and other dischargers in accordance with the federal Clean Water Act and the Porter-Cologne Water Quality Control Act.

This bill would authorize the Director of General Services to sell, lease, convey, or exchange at fair market value specified real property at the Salinas Valley State Prison containing the prison's wastewater treatment facility to the City of Soledad upon those terms and conditions and subject to those reservations and exceptions as the Director of General Services determines are in the best interests of the state. The bill would require the net proceeds of any moneys received from the disposition of the property to be paid into the Deficit Recovery Bond Retirement Sinking Fund Subaccount, a continuously appropriated fund. By increasing the amount transferred into a continuously appropriated fund, this bill would make an appropriation.

(7) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 762 (AB 2246) Villines Charter schools: joint powers agreement: funding.

(1) Existing law requires the county superintendent of schools to determine a revenue limit for each school district in the county pursuant to a specified formula based on the base revenue limit of the school district for the prior year, adjusted for inflation, and the average daily attendance for the entire school district, as specified. Existing law provides that the minimum schoolday for a high school, with specified exceptions, is 240 minutes.

This bill, commencing in the 2008–09 fiscal year, would require the Superintendent of Public Instruction to compute an amount of funding for each pupil concurrently enrolled in

regular secondary school classes and classes operating pursuant to a joint powers agreement that became effective prior to January 1, 2008, for the period of time the pupil attends classes pursuant to the joint powers agreement, by performing specified calculations. The bill would provide that a 180-minute schoolday shall be computed and reported as attendance for  $\frac{3}{4}$  of the full 240-minute schoolday for purposes of those calculations. The bill would require that the number of hours of instruction at regional occupational centers or programs that are claimed for funding pursuant to this bill be used, in addition to specified hourly rates, in the computation of the average daily attendance of the regional occupational center or program. The bill would make these provisions inoperative on July 1, 2012, and repeal them on January 1, 2013.

(2) Existing law authorizes the Center for Advanced Research and Technology (CART), operating pursuant to a joint powers agreement between the Clovis Unified School District and the Fresno Unified School District, to receive general-purpose funding for the 2007–08 fiscal year for a total average daily attendance not to exceed the center’s average daily attendance as determined at the 2nd principal apportionment for the 2006–07 fiscal year.

This bill, in addition, would authorize the CART to receive general-purpose funding for the 2005–06 and 2006–07 fiscal years for a total average daily attendance not to exceed the center’s average daily attendance as determined at the second principal apportionment for the 2005–06 and 2006–07 fiscal years, respectively. Commencing with the 2008–09 fiscal year, the bill would make the CART ineligible to receive further general-purpose funding pursuant to specified statutory provisions. The bill would make these provisions inoperative on July 1, 2012, and repeal them on January 1, 2013.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 763 (AB 1452) Committee on Budget Taxation.

(1) The Sales and Use Tax Law imposes a tax on the storage, use, or other consumption in this state of tangible personal property. Under existing law, there is a presumption that a vehicle shipped or brought into this state within 90 days from the date of its purchase was purchased from a retailer for storage, use, or other consumption in this state, under specified circumstances.

This bill would expand this presumption to a vehicle, vessel, or aircraft brought into California within 12 months from the date of its purchase, if that vehicle, vessel, or aircraft is (A) purchased by a California resident, (B) subject to California’s registration or property tax laws during the first 12 months of ownership, or (C) used or stored in this state more than  $\frac{1}{2}$  of the time during the first 12 months of ownership. This bill would provide that the presumption may be controverted by documentary evidence, as specified. This bill would also provide that the presumption does not apply to aircraft or vessels brought into this state, on or after the effective date of this act, for the purpose of repair, retrofit, or modification.

(2) Existing law allows individual and corporate taxpayers to utilize net operating losses and carryovers of those losses for purposes of offsetting their individual and corporate tax liabilities.

This bill would disallow the deduction for net operating losses and net operating loss carryovers in the 2008 and 2009 taxable years. This bill would extend the carryover period for those net operating losses, thus allowing the taxpayers to have the same number of years to utilize the deduction as they would have if the change had not been enacted. This bill would, for net operating losses incurred in taxable years beginning on or after January 1, 2010, extend the carryover period to 20 years. This bill would allow net operating losses attributable to taxable years beginning on or after January 1, 2011, to be carrybacks to each of the preceding two taxable years.

(3) Existing law imposes personal income and corporate taxes collected and administered by the Franchise Tax Board.

This bill would require the Franchise Tax Board to administer a tax amnesty program during the period beginning February 1, 2009, and ending on March 27, 2009, inclusive, as provided.

(4) The Personal Income Tax Law and the Corporation Tax Law authorize various credits against the taxes imposed by those laws.

This bill would provide that for each taxable year beginning on or before January 1, 2008, and before January 1, 2010, the total business credit, as defined, shall not reduce the taxes imposed by those laws below the applicable amount, as defined.

This bill would, under the Corporation Tax Law, provide for taxable years beginning on or after July 1, 2008, that any credit that is an eligible credit, as defined, may be assigned to any eligible assignees, as defined.

(5) The Personal Income Tax Law requires every limited liability company subject to a specified tax to pay, annually to this state, a fee equal to specified amounts based upon total income from all sources derived from or attributable to this state. The fee is due and payable on or before the 15th day of the 4th month following the close of the taxable year and penalties and interest are payable for violations, as specified.

This bill would require that the fee be estimated and paid no later than the 15th day of the 6th month of the taxable year, and would impose an additional penalty for underpayment, as provided.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 764 (AB 1654) Committee on Budget California State Lottery.

(1) The California State Lottery Act of 1984, enacted by initiative, authorizes a California State Lottery and provides for its operation and administration by the California State Lottery Commission and the Director of the California State Lottery, with certain limitations. The act provides that none of its provisions may be changed by the Legislature except to further its purpose by a bill passed by a  $\frac{2}{3}$  vote of each house of the Legislature and signed by the Governor. The act establishes the State Lottery Fund, which is continuously appropriated for the purposes of the California State Lottery. Existing law provides that the purpose of the act is support for the preservation of the rights, liberties, and welfare of the people by providing additional moneys to benefit education without the imposition of additional or increased taxes.

This bill would provide instead that the purpose of the act is support for preservation of the rights, liberties, and welfare of the people by providing additional moneys to benefit education either directly or indirectly by providing funds to pay the General Fund and infrastructure bond obligations without the imposition of additional or increased taxes. The bill would provide that the act may be changed for the purposes of modernizing the lottery or to further the purpose of the act. The bill would provide that specified provisions regarding General Fund appropriations and California State Lottery Fund appropriations may only be amended by a vote of the people. The bill would state the intent of the People of California to permanently secure the contribution that the California State Lottery has made to funding public education, as specified. Specified provisions of the bill would become effective only upon approval by the voters at the next statewide election. The bill would set forth the language to be used for the ballot label and the ballot title and summary relating to these measures in a supplemental state ballot pamphlet.

(2) Existing law requires that not less than 84% of the total annual revenues from the sale of state lottery tickets or shares be returned to the public in the form of prizes and net revenues to benefit public education, and that no more than 16% of those revenues be used for expenses of the lottery. Existing law requires that all unclaimed prize money revert to the benefit of public education, and that all of the interest earned upon funds held in the State Lottery Fund be allocated to the benefit of public education. Existing law defines net revenues for the purposes of the act.

This bill would require instead, commencing with the 2009–10 fiscal year, that not less than 87% of the total annual revenues of the state lottery be returned to the public, and no more than 13% be used for lottery expenses. The bill would define total revenues of the state lottery to include revenue from the sale of tickets or shares, merchandising revenue, advertising revenue, interest earnings on moneys in the State Lottery Fund, and unclaimed prizes. The bill would modify the definition of net revenues, as specified.

(3) Existing law requires that 50% of the total annual lottery revenues be returned to the public in the form of prizes, and that 34% of those revenues be used to benefit public education.

This bill would require, instead, commencing with the 2009–10 fiscal year, that not less than 50%, of the total annual lottery revenues, in an amount to be determined by commission, be returned to the public in the form of prizes. The bill would require that \$1,000,000 be allocated to the Office of Problem and Pathological Gambling within the State Department of Alcohol and Drug Programs for problem gambling awareness and treatment programs. The bill would establish the Lottery Assets Fund, to be continuously appropriated, and would require that the amount of net revenues designated by the Director of Finance as lottery revenue assets subject to sale pursuant to specified provisions of law relating to the securitization of lottery revenues be transferred to the Lottery Assets Fund. The bill would require the net annual revenues remaining to be transferred to the Debt Retirement Fund, and would allow those funds to be appropriated by the Legislature to repay General Fund budgetary obligations, infrastructure bond debts, and the Economic Recovery Bonds, including reimbursement to the General Fund for the costs of these debts.

(4) Existing law requires that, to the extent that expenses of the lottery are less than 16% of the total annual revenues, any surplus funds be allocated to the benefit of public education.

This bill would provide, instead, that, to the extent that expenses of the lottery are less than 13% of the total annual revenues, any surplus funds may be carried over from year to year upon a determination by the commission that the carryover furthers the purpose of the act, provided that the annual total revenues for any year allocated for payment, plus carried over revenues, shall not exceed 16% of the annual total revenues for the year in which carried over revenues are available.

(5) Existing law establishes the California State Lottery Education Fund, and requires that payments be made from that fund directly to various educational entities based on specified factors.

This bill, commencing with the 2009–10 fiscal year, would appropriate sums on an annual basis from the General Fund to specified educational entities in amounts equal to the payments made to the above entities during the 2008–09 fiscal year under the provisions described above, adjusted for inflation and attendance, as specified.

(6) Existing law exempts the lottery from specified provisions of law applicable to state agencies.

This bill would also exempt the lottery, with respect to certain expenditures, from specified provisions of law governing contracting by state agencies.

(7) Existing law requires one of the deputy directors of the lottery to be responsible for a security division to assure integrity, honesty, and fairness in the operation and administration of the lottery, including an examination of the qualifications and criminal history of all prospective and current employees, prospective and current lottery game retailers, and prospective and current lottery suppliers. Existing law requires that fingerprints be obtained in this process and be furnished to the Department of Justice.

This bill would allow the commission to adopt regulations for alternate methods of examining the qualifications and criminal history of lottery game retailers and lottery suppliers.

(8) Existing law allows the director of the lottery to purchase or lease goods and services as are necessary for effectuating the purposes of the provisions governing the lottery.

This bill would instead provide that the director has express authority, subject only to commission approval, to make any and all expenditures as are necessary or reasonable for effectuating the purposes of those provisions.

(9) Existing law requires the director, in all procurement decisions, to award contracts to the responsible supplier submitting the lowest and best proposal that maximizes the benefits to the state in relation to the areas of security, competence, experience, and timely performance.

This bill would delete the requirement that the director award contracts to the responsible supplier submitting the lowest proposal.

(10) Existing law requires the commission to adopt and publish competitive bidding procedures for the award of any procurement or contract involving an expenditure of more than \$100,000.

This bill would instead require the commission to adopt and publish those procedures for any procurement or contract involving an expenditure of more than \$500,000.

(11) This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 765 (AB 1741) Committee on Budget California State Lottery.

The California State Lottery Act of 1984, enacted by initiative, authorizes a California State Lottery and provides for its operation and administration by the California State Lottery Commission and the Director of the California State Lottery, with certain limitations. The act provides that none of its provisions may be changed except to further its purpose by a bill passed by a  $\frac{2}{3}$  vote of each house of the Legislature and signed by the Governor. The act establishes the State Lottery Fund, which is continuously appropriated for the purposes of the California State Lottery. Existing law provides that the purpose of the act is support for the preservation of the rights, liberties, and welfare of the people by providing additional moneys to benefit education without the imposition of additional or increased taxes. Existing law sets forth the duties of the Infrastructure and Economic Development Bank and its board of directors generally in performing various financing transactions, including the issuance of bonds or the authorizing of the issuance of bonds by a trust, partnership, limited partnership, association, corporation, nonprofit corporation, or other entity, known as a special purpose trust.

This bill would, upon a filing by the Director of Finance of a designation of portions of the lottery revenue assets to be sold, permit the Infrastructure and Economic Development Bank to sell on behalf of the state those lottery revenue assets to a special purpose trust, which would be established as a not-for-profit corporation by the bill for the purpose of purchasing the assets. The bill would define lottery assets for these purposes as revenues of the state lottery that are required to be transferred into the Lottery Assets Fund and the right to receive those revenues. The bill would permit the bank to enter into sales agreements with the special purpose trust, as specified. The bill would permit the Director of Finance to determine when lottery revenue assets may be sold. The bill would permit the special purpose trust to issue bonds on terms it shall determine and to pledge lottery revenue assets as collateral and security for the bonds. The bill would except this pledge from specified provisions regarding secured interests.

The bill would allow the Director of Finance to authorize a short-term cash flow loan, without budgetary impact, of \$3,000,000 from the General Fund to the Department of Finance to provide funds for the purpose of obtaining advice and services related to any determinations to be made by the Director of Finance pursuant to these provisions and any activities undertaken by the department or the bank to achieve the purposes of these provisions. The bill would require that the net proceeds of the sale of lottery revenue assets be first used to repay the outstanding amount of any such General Fund loan, and then deposited into the Debt Retirement Fund. The bill would require, at the direction of the Department of Finance, that moneys in the Lottery Assets Fund, or any residual interest therein, that are not already sold be transferred into the Debt Retirement Fund or be deemed

assets to be sold. By permitting moneys in a continuously appropriated fund to be transferred into the Debt Retirement Fund, and by depositing moneys into a continuously appropriated fund, the bill would make an appropriation.

The bill would require that the 5 voting members of the State Public Works Board, or their designees, serve ex officio as the directors of the special purpose trust, and that the Director of Finance serve as chair of the trust, and would exempt them from liability in this regard. The bill would pledge the state to certain actions in connection with lottery revenue assets in order to protect the bondholders, including the enforcement of state laws limiting gambling and not authorizing an alternative type of lottery. The bill would provide that the bonds issued pursuant to these provisions are not deemed to constitute a debt of the state or a pledge of the faith or credit of the state.

The bill would specify that the proceeds from the sale of lottery revenue assets are not subject to certain provisions of the California Constitution regarding limitations on disbursement of proceeds of taxes and the use of General Fund revenues to be appropriated for schools. The bill would permit the Director of Finance to enter into an agreement with one or more firms or individuals to obtain financial, operational, and valuation advice in relation to the designation of lottery revenue assets to be sold and would prescribe a process for this purpose. The bill would permit the Director of Finance to enter into a legal services agreement or agreements with counsel other than the Attorney General to provide specialized legal advice.

This bill would take effect only if SCA 12 and AB 1654 of the 2007–08 Regular Session are approved by the voters at the next statewide election and take effect pursuant to their provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

**DIGEST OF STATUTE  
ENACTED IN 2008**

2007–08 FIRST EXTRAORDINARY SESSION

---

---

**BILL CHAPTER****Ch. 1 (SB 28) Committee on Budget and Fiscal Review Taxation.**

Existing income tax laws require specified individuals to pay estimated income taxes in installments and impose additional liability for underpayments.

This bill would adjust the amount of those installments under specified circumstances.

Existing corporation tax laws provide, with a specified exception, that if the amount of estimated tax exceeds the minimum franchise tax imposed on corporations, the amount payable shall be payable in installments.

This bill would modify the percentages of the estimated taxes payable pursuant to those installment payments.

The Personal Income Tax Law and the Corporation Tax Law impose a penalty on a taxpayer who underpays an estimated income tax. Those laws also specify that a penalty may not be imposed for an underpayment in specified taxable years if the underpayment was created or increased by specified changes in law.

This bill would impose a penalty on a taxpayer subject to the Corporation Tax Law with a specified understatement of tax, as defined, in an amount equal to 20% of that understatement. This bill would specify that the penalty shall not be imposed if the understatement is attributable to specified changes in law.

This bill would also repeal certain provisions added by AB 1452 of the 2007–08 Regular Session relating to a tax amnesty program.

This bill would revise the requirement that the Department of Finance provide guidance with regard to the methodology employed in determining tax accruals and the timing of implementing any changes in tax accrual treatment.

This bill would also make changes regarding sections of the Revenue and Taxation Code added by AB 1452 of the 2007–08 Regular Session, relating to credits against taxes imposed by the Corporation Tax Law and fees required under the Personal Income Tax Law.

**BILL CHAPTER**

Ch. 1 (SB 1) Perata Water quality, flood control, water storage, and wildlife preservation.

(1) The Integrated Regional Water Management Planning Act of 2002 authorizes a regional water management group, as defined, to prepare and adopt a regional water plan meeting specified requirements.

This bill would repeal these provisions of law and enact the Integrated Regional Water Management Planning Act. Regional water management groups, as defined, would be authorized to prepare and adopt integrated regional water management plans meeting specified requirements.

The Department of Water Resources would be required to develop project solicitation and evaluation guidelines for a specified funding source.

(2) Under existing law, various bond acts have been approved by the voters to provide funds for water projects, facilities, and programs. The Disaster Preparedness and Flood Prevention Bond Act of 2006, a bond act approved by the voters at the November 7, 2006, statewide general election, authorizes the issuance of bonds in the amount of \$4,090,000,000 for the purposes of financing disaster preparedness and flood prevention projects. The Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006, an initiative bond act approved by the voters at the November 7, 2006, statewide general election, authorizes the issuance of bonds in the amount of \$5,388,000,000 for the purposes of financing a safe drinking water, water quality and supply, flood control, and resource protection program. The Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002, an initiative bond act approved by the voters at the November 5, 2002, statewide general election, authorizes the issuance of bonds in the amount of \$3,440,000,000 to finance a safe drinking water, water quality, and water reliability program. The Costa-Machado Water Act of 2000, a bond act approved by the voters at the March 7, 2000, statewide direct primary election, authorizes the issuance of bonds in the amount of \$1,970,000,000 for the purposes of financing a safe drinking water, water quality, flood protection, and water reliability program.

This bill, with regard to those bond funds, would appropriate \$820,973,000 as follows: of the funds made available pursuant to the Disaster Preparedness and Flood Prevention Bond Act of 2006, \$135,000,000 to the Department of Water Resources for essential emergency preparedness supplies and projects, and \$150,000,000 to the department for stormwater flood management project grants; of the funds made available pursuant to the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006, \$50,000,000 to the State Department of Public Health for grants for small community drinking water systems infrastructure improvements and related actions, \$50,400,000 to the State Department of Public Health for grants for projects to prevent or reduce the contamination of groundwater that serves as a source of drinking water, \$181,971,000 to the department for integrated regional water management activities, \$90,000,000 to the department for the implementation of Delta water quality improvement projects that protect drinking water supplies, \$100,000,000 to the department for the acquisition, preservation, protection, and restoration of Sacramento-San Joaquin Delta resources, \$12,000,000 to the department to complete planning and feasibility studies associated with new surface storage under the California Bay-Delta Program, \$15,000,000 to the department for planning and feasibility studies to identify potential options for the reoperation of the state's flood protection and water supply systems, \$10,000,000 to the department to update the California Water Plan, \$10,000,000 to the State Coastal Conservancy for projects on the Santa Ana River, and \$7,300,000 to the department for the urban streams restoration program; of the funds made available under the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002, \$3,760,000 to the department for planning and feasibility studies associated with surface storage under the

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

California Bay-Delta Program; and of the funds made available pursuant to the Costa-Machado Water Act of 2000, \$2,272,000 to the department for the Sacramento River Hamilton City Area Flood Damage Reduction Project and \$3,450,000 to the department for the Franks Tract Pilot Project.

The bill would provide that up to 5% of the funds appropriated by the bill may be expended to pay for the administrative costs of that program. The bill would provide that funds appropriated by the bill are available for encumbrance until June 30, 2010. On January 10, 2010, program recipients would be required to report to the fiscal committees of the Legislature with regard to the committed and anticipated expenditures of these funds. The bill would require the Director of Finance to administratively establish positions necessary to implement activities funded by the bill's appropriations.

(3) Under the Porter-Cologne Water Quality Control Act, the State Water Resources Control Board and the California regional water quality control boards are the principal state agencies with authority over matters relating to water quality.

This bill would require the state board, in consultation with other agencies, to develop pilot projects in the Tulare Lake Basin and the Salinas Valley focused on nitrate contamination. The bill would require the state board to create an interagency task force, as needed, to oversee the pilot projects and submit a report to the Legislature on the scope and findings of the projects within 2 years of receiving funding. The state board would be required to implement recommendations for developing a groundwater cleanup program for the Central Valley Water Quality Control Region and the Central Coast Water Quality Control Region based upon pilot project results within 2 years of submitting the report to the Legislature.

(4) Existing law requires the department, not later than January 1, 2009, to update a model water efficient landscape ordinance. Existing law generally requires rules and regulations of the department to be first presented to the California Water Commission and to become effective only upon approval of the commission.

This bill, until December 31, 2009, would provide that commission review and approval does not apply to the department's adoption of regulations updating the model water efficient landscape ordinance.

(5) The bill would authorize the department to utilize the Program Manager class series that was created for the California Bay-Delta Authority for positions to manage vital departmental activities.

---

**DIGESTS OF STATUTES  
ENACTED IN 2008**

2007–08 THIRD EXTRAORDINARY SESSION

---

---

**BILL CHAPTERS**

Ch. 1 (AB 3) Committee on Budget Reductions in the Budget Act of 2007 relating to state government: fiscal emergency.

The Budget Act of 2007 (Chapters 171 and 172 of the Statutes of 2007) makes appropriations for the support of state government during the 2007–08 fiscal year. The California Constitution provides that if, following the enactment of the annual Budget Bill, the Governor determines that General Fund revenues will decline substantially below the estimate of General Fund revenues upon which the Budget Bill was based, or that General Fund expenditures will increase substantially above that estimate of General Fund revenues, or both, the Governor may issue a proclamation declaring a fiscal emergency and thereupon cause the Legislature to assemble in special session for that purpose.

This bill would amend the Budget Act of 2007 by revising certain items of appropriation, through reversions and transfers, and by reductions of appropriations to various state agencies. The bill would state that it addresses a fiscal emergency declared by the Governor by proclamation on January 10, 2008, by which the Legislature was called in special session pursuant to the California Constitution.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 2 (AB 4) Committee on Budget Education finance: apportionment: deferral.

(1) The After School Education and Safety Program Act of 2002, as enacted by the initiative measure Proposition 49, continuously appropriates in each fiscal year up to \$550,000,000 from the General Fund to the State Department of Education for purposes of the After School Education and Safety Program.

This bill would specify that the funds appropriated for purposes of the program are available for encumbrance for one year after the date upon which they first become available for encumbrance, and thereafter the bill would subject the appropriated funds to certain statutory provisions regarding disbursements in liquidation of encumbrances.

(2) Existing law requires the Controller to draw warrants on the State Treasury in favor of the county treasurer of each county in each month of each year during the fiscal year from the State School Fund to the school districts under the jurisdiction of the county superintendent of schools of the county, to the county school service fund, and to the county school tuition fund of the county. Warrants for 6% of specified amounts allowed to the county school service funds and 6% of specified amounts apportioned to school districts and county school service funds for classes maintained by county superintendents of schools and to the county service fund are required to be drawn in July.

This bill would require the entire amount of the July warrant for the county school service fund and a specified percentage of the amount of the July warrant for school district apportionments, county school service fund apportionments for classes maintained by the county superintendent of schools, and county school tuition fund apportionments to be deferred to the warrants drawn in September.

(3) The Budget Act of 2007 makes various appropriations for purposes of public education.

This bill would reduce specified appropriations made in that Budget Act. A reappropriation made in that Budget Act from the Proposition 98 Reversion Account to the School Facilities Program for purposes of funding the School Facilities Emergency Repair Account would be increased to \$200,000,000. The amount of that reappropriation would be in satisfaction of the amounts that would otherwise be provided in the 2007–08 fiscal year to that account. The authority of the Director of Finance to reduce the reappropriation of \$250,000,000 to the State Department of Education for the home-to-school transportation program would be repealed.

(4) The Budget Acts of 2003, 2004, 2005, and 2006 and other measures make various appropriations for purposes of public education.

This bill would reappropriate for the current fiscal year specified amounts or the unexpended balance of specified appropriations made in those prior Budget Acts to the State Department of Education for purposes of the Targeted Instructional Improvement Block Grant.

(5) The California Constitution authorizes the Governor to declare a fiscal emergency and to call the Legislature into special session for that purpose. The Governor issued a proclamation declaring a fiscal emergency, and called a special session for this purpose, on January 10, 2008.

This bill would state that it addresses the fiscal emergency declared by the Governor by proclamation issued on January 10, 2008, pursuant to the California Constitution.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

### Ch. 3 (AB 5) Committee on Budget Public health programs.

Under existing law, the State Department of Developmental Services provides funding for regional centers for the provision or purchase of services and supports to persons with developmental disabilities. Existing law prescribes a specified ratio for regional center service coordinator to consumer, which is in effect until June 30, 2008.

This bill would extend indefinitely the effective date of this ratio.

Existing law provides for the assessment of certain individuals for whom benefits are provided by regional centers. Existing law provides that if assessment is needed, prior to July 1, 2008, the assessment shall be performed within 120 days following initial intake, and requires that assessments after that date shall be performed within 60 days following intake.

This bill would extend indefinitely the 120-day assessment requirement.

Existing law, with certain exceptions, for the 2007–08 fiscal year, prohibits a regional center from paying any provider of specified services a rate that is greater than the rate that is in effect on July 1, 2007, unless the increase is required by contract between the regional center and the vendor that is in effect on June 30, 2007.

This bill would extend indefinitely this prohibition with respect to the payment of rates in excess of those in effect on June 30, 2008.

Existing law provides that, during the 2007–08 fiscal year, no regional center may approve any service level for a residential service provider.

This bill would extend indefinitely this provision. It would also prohibit, commencing July 1, 2008, a regional center from negotiating rates with residential care providers, except as prescribed.

Existing law requires the State Department of Developmental Services to make payments to providers of supported living services for adults with developmental disabilities. Under existing law, the department, by July 1, 2002, is required to establish, by regulation, an equitable and cost-effective methodology for the determination of supported living costs and a methodology of payment for these providers.

This bill would, commencing July 1, 2008, impose prescribed rate increase restrictions on reimbursement to these service providers and would also prohibit a regional center from negotiating rates with these providers, except as prescribed.

Existing law prohibits, during the 2007–08 fiscal year, the State Department of Developmental Services from establishing any permanent payment rate for a community-based day program or in-home respite care agency that has a temporary payment rate in effect on July 1, 2007, or from making other specified changes or adjustments that would result in a rate increase.

This bill would extend indefinitely this provision, and would apply it to rates in effect June 30, 2008. It would also prohibit a regional center from negotiating rates with these providers, except as prescribed.

Existing law provides that, for the 2007–08 fiscal year only, a regional center shall not expend any purchase of service funds for the startup of any new program unless the

expenditure is necessary to protect the consumer's health or safety or because of other extraordinary circumstances and the department has granted prior written authorization.

This bill would extend indefinitely this prohibition.

Under existing law, the California Early Start Intervention Services Act, various state entities provide coordinated services to infants and toddlers with disabilities and their families. Existing law requires early intervention services to be provided directly to eligible infants and toddlers and their families through the regional center system and the local education system. Existing law requires that, in providing services under the act, regional centers comply with the Lanterman Developmental Disabilities Services Act, and its implementing regulations, including, but not limited to, those provisions relating to vendorization and ratesetting, except where compliance with those provisions would result in any delays in, or any cost to families for, the provision of early intervention, or otherwise conflict with the act or its implementing regulations. Existing law, until July 1, 2009, also contains family cost participation requirements for specified services obtained by regional centers for persons with developmental disabilities.

This bill would extend indefinitely the family cost participation requirements, and would also require that, subject to federal approval, in providing those early intervention services under the Lanterman Developmental Disabilities Services Act, regional centers apply the family cost participation requirements that require families of children receiving early intervention services to contribute a specified amount to the cost of those services based on family size and scaled income levels. It would also revise the family cost participation schedule and the procedures governing how a parent may appeal a decision made by the executive director of a regional center, with respect to the amount of the parents' cost participation.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Care Services, under which qualified low-income persons are provided with a variety of health services.

Existing law contains various provisions governing reimbursement rates for Medi-Cal providers.

This bill would, notwithstanding any other provision of law, and to the extent not otherwise conflicting with federal law, authorize the department to withhold, or direct the medical fiscal intermediary to withhold, payments for providers, as described, for a period of one month for a month ending prior to January 1, 2009.

Existing law creates various health programs, including the Child Health and Disability Prevention Program, the California Children's Services Program, the Genetically Handicapped Person's Program, and specified family planning programs.

This bill would, with certain exceptions, for services rendered under these programs on and after July 1, 2008, require the Director of Health Care Services to reduce provider reimbursement rates by 10%.

The bill would specify that the reductions imposed pursuant to the bill would apply only to the General Fund share of the payment, and only to payments for services from funds appropriated to the department.

Existing law establishes the Medi-Cal Hospital/Uninsured Care Demonstration Project Act, which revises hospital reimbursement methodologies under the Medi-Cal program in order to maximize the use of federal funds consistent with federal Medicaid law and stabilize the distribution of funding for hospitals that provide care to Medi-Cal beneficiaries and uninsured patients. This demonstration project provides for funding, in supplementation of Medi-Cal reimbursement, to various hospitals, including designated public hospitals, nondesignated public hospitals, and private hospitals, as defined in accordance with certain provisions relating to disproportionate share hospitals.

This bill would reduce by 10% payments for inpatient hospital services to acute care hospitals not under selective contracts with the department that are provided on and after July 1, 2008.

The California Constitution authorizes the Governor to declare a fiscal emergency and to call the Legislature into special session for that purpose. The Governor issued a proclamation declaring a fiscal emergency, and calling a special session for this purpose, on January 10, 2008.

This bill would state that it addresses the fiscal emergency declared by the Governor by proclamation issued on January 10, 2008, pursuant to the California Constitution.

This bill would declare that it is to take effect immediately as an urgency statute.

#### Ch. 4 (AB 6) Committee on Budget Human services.

Existing federal law provides for allocation of federal funds through the federal Temporary Assistance for Needy Families (TANF) block grant program to eligible states. Existing law provides for the California Work Opportunity and Responsibility to Kids (CalWORKs) program under which, through a combination of state and county funds and federal funds received through the TANF program, each county provides cash assistance and other benefits to qualified low-income families.

Existing law continuously appropriates moneys from the General Fund to defray a portion of county aid grant costs under the CalWORKs program.

Existing law, with certain exceptions, requires an annual cost-of-living adjustment to be made in maximum aid payments provided to needy families under the CalWORKs program.

This bill would provide that the adjustment to the maximum aid payment for the 2008–09 fiscal year would be effective October 1, 2008, and that the adjustment for the 2009–10 fiscal year would be effective July 1, 2009.

Existing law provides for the State Supplementary Program for the Aged, Blind and Disabled (SSP), which requires the State Department of Social Services to contract with the United States Secretary of Health and Human Services to make payments to SSP recipients to supplement Supplemental Security Income (SSI) payments made available pursuant to the federal Social Security Act.

Under existing law, benefit payments under the SSP are calculated by establishing the maximum level of nonexempt income and federal SSI and state SSP benefits for each category of eligible recipient. The state SSP payment is the amount, when added to the nonexempt income and SSI benefits available to the recipient, which would be required to provide the maximum benefit payment.

Existing state law provides, except in certain calendar years, for the annual adjustment of the total level of combined state and federal benefits as established by statutory schedule to reflect changes in the cost of living, as defined.

Existing law provides that, commencing with the 2008 calendar year and thereafter, the annual adjustment would be effective on June 1 of that calendar year.

This bill would, instead, provide that the annual adjustment for the 2008 calendar year would be effective October 1, 2008, and that commencing with the 2009 calendar year, and in subsequent calendar years, the adjustment would be effective June 1 of that calendar year.

Existing law specifies the manner in which state and federal funds are to be advanced to counties each month for certain public assistance programs.

This bill would suspend the monthly advance of state general funds to counties for benefits or aid grants, administration, and employment and supportive services, for July and August of 2008 and would require the advances to resume on September 1, 2008, as specified. The bill would exempt from this suspension advances for the In-Home Supportive Services (IHSS) program and the Supplemental Security Income/State Supplemental Payment Program for the Aged, Blind and Disabled (SSI/SSP).

The California Constitution authorizes the Governor to declare a fiscal emergency and to call the Legislature into special session for that purpose. The Governor issued a proclamation declaring a fiscal emergency, and calling a special session for this purpose, on January 10, 2008.

This bill would state that it addresses the fiscal emergency declared by the Governor by proclamation issued on January 10, 2008, pursuant to the California Constitution.

This bill would declare that it is to take effect immediately as an urgency statute.

**Ch. 5 (AB 7) Committee on Budget Highway Users Tax Account.**

Existing law requires state excise fuel tax revenues to be deposited in various accounts and to be allocated, in part, for various purposes, including the cost of collection and authorized refunds. Existing law requires the balance of these funds remaining after authorized deductions to be transferred to, and deposited monthly in, the Highway Users Tax Account in the Transportation Tax Fund. Existing law provides for annual and monthly apportionment by the Controller of specified revenues in the Highway Users Tax Account to counties and cities for the transportation purposes authorized by Article XIX of the California Constitution.

This bill would require transfers of those revenues from the Highway Users Tax Account to counties or cities that would otherwise be made during certain months of 2008, to instead be made in September of 2008, as specified. The bill would allow those counties or cities to make use of any cash balance in any county or city account that is designated for the receipt of state funds allocated for local streets and roads maintenance, including specified bond funds, during the period of this suspension, without the use of this cash being reflected as an expenditure of bond act funds, provided the cash is replaced once this suspension is repaid in September of 2008.

The California Constitution authorizes the Governor to declare a fiscal emergency and to call the Legislature into special session for that purpose. The Governor issued a proclamation declaring a fiscal emergency, and calling a special session for this purpose, on January 10, 2008.

This bill would state that it addresses the fiscal emergency declared by the Governor by proclamation issued on January 10, 2008, pursuant to the California Constitution.

This bill would declare that it is to take effect immediately as an urgency statute.

**Ch. 6 (AB 8) Committee on Budget State operations.**

(1) Under the Teachers' Retirement Law, a continuous appropriation equal to 2.5% of total creditable compensation, as specified, is annually made from the General Fund for transfer to the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund to fund purchase power protection payments to retired members of the Defined Benefit Program of the State Teachers' Retirement System.

This bill would provide that transfers made from the General Fund to the Supplemental Benefit Maintenance Account, pursuant to these provisions, for the 2008–09 fiscal year, shall be made on November 1, 2008.

(2) The California Constitution provides that whenever the Legislature or any state agency mandates a new program or higher level of service on any local agency or school district, the state shall reimburse the local agency or school district for the cost of implementing the mandate. Statutory provisions establish procedures for filing a reimbursement claim with the Commission on State Mandates, including the option of filing an estimated reimbursement claim during the fiscal year in which costs are incurred, or a claim for reimbursement of actual costs after they are incurred.

This bill would eliminate the option of filing an estimated reimbursement claim and make conforming changes.

(3) Existing law specifies the number of judges for the superior court of each county. Existing law authorizes 50 additional judges upon appropriation by the Legislature in the 2006–07 fiscal year, and 50 additional judges upon appropriation by the Legislature in the 2007–08 fiscal year, to be allocated to the various county superior courts, pursuant to uniform criteria approved by the Judicial Council.

This bill would specify the appointment schedule, upon appropriation by the Legislature, for the allocation of the 100 additional new judges provided for in the above provisions.

(4) The California Constitution authorizes the Governor to declare a fiscal emergency and to call the Legislature into special session for that purpose. The Governor issued a proclamation declaring a fiscal emergency, and calling a special session for this purpose, on January 10, 2008.

This bill would state that it addresses the fiscal emergency declared by the Governor by proclamation issued on January 10, 2008, pursuant to the California Constitution.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 7 (SB 1) Committee on Budget and Fiscal Review Reductions in the Budget Act of 2007 relating to support of counties: temporary suspensions.

Existing law provides for the transfer of state excise fuel tax revenues from the Highway Users Tax Account to counties or cities for transportation purposes. Existing law provides that the transfer of revenues from the account shall be temporarily suspended for revenues collected during the months of March, April, May, June, and July of 2008 and that the transfer of revenues collected during those months shall instead be made with the transfer of August 2008 revenues in September of 2008.

This bill would exempt from the temporary suspension of the transfer of revenues from the Highway Users Tax Account a county with a population of less than 40,000.

Existing law specifies the manner in which state and federal funds are to be advanced to counties each month for certain public assistance programs. Existing law provides that the monthly advance of state general funds to counties for benefits or aid grants, administration, and for employment and support services shall be temporarily suspended for the months of July and August of 2008 and shall resume on September 1, 2008, with the advances that would have been made in July and August to be paid not later than September 30, 2008.

This bill would exempt from the temporary suspension of monthly advances a county with a population of less than 40,000.

The California Constitution authorizes the Governor to declare a fiscal emergency and to call the Legislature into special session for that purpose. The Governor issued a proclamation declaring a fiscal emergency, and calling a special session for this purpose, on January 10, 2008.

This bill would state that it addresses the fiscal emergency declared by the Governor by proclamation issued on January 10, 2008, pursuant to the California Constitution.

This bill would declare that it is to take effect immediately as an urgency statute.

---

---

**RESOLUTION CHAPTERS****Res. Ch. 4 (SJR 11) Correa National Children's Study.**

This measure would memorialize the President and Congress of the United States to enact legislation to ensure the continuation of funding for the National Children's Study, which is a longitudinal study focusing on a long-term observation of children's health as impacted by genetics and environmental conditions.

**Res. Ch. 5 (SJR 12) Simitian Elder abuse awareness stamp.**

This measure would request the President and the Congress of the United States to enact legislation that would authorize the United States Postmaster General to establish a special rate of postage for first-class mail, and to issue a special postage stamp, to provide funds for elder abuse prevention and awareness programs.

**Res. Ch. 6 (AJR 30) Berg Lyme and Tick-Borne Disease Prevention, Education, and Research Act of 2007.**

This measure would respectfully memorialize the Congress and the President of the United States to enact H.R. 741 and S. 1708, the Lyme and Tick-Borne Disease Prevention, Education, and Research Act of 2007, which would provide funding for additional prevention, education, treatment, and research efforts relating to Lyme and other tick-borne diseases.

**Res. Ch. 7 (ACR 95) Nakanishi Day of Remembrance.**

This measure would declare February 19, 2008, as a Day of Remembrance in order to increase public awareness of the events surrounding the internment of Americans of Japanese ancestry during World War II.

**Res. Ch. 8 (ACR 84) Eng Lunar New Year 4706 Celebration.**

This measure would recognize the Lunar New Year 4706 celebration.

**Res. Ch. 9 (SJR 22) Wiggins California's wine industry.**

This measure would request the United States Department of the Treasury's Alcohol and Tobacco Tax and Trade Bureau to withdraw the Notices of Proposed Rulemaking Number 77, relating to a Proposed Establishment of the Calistoga Viticultural Area, and Number 78, relating to a Proposed Revision of the American Viticultural Area Regulations, because they pose a threat to the state and national wine industry's ability to fairly trade domestically and internationally.

**Res. Ch. 10 (ACR 94) Bass Black History Month.**

This measure would recognize February 2008 as Black History Month, urge all citizens to join in celebrating the accomplishments of African Americans during Black History Month, and encourage the people of California to recognize the many talents, achievements, and contributions that African Americans make to their communities.

**Res. Ch. 11 (ACR 97) Parra Allensworth: centennial celebration.**

This measure memorializes the historic legacy and significant cultural contributions of Allensworth in honor of its centennial celebration.

**Res. Ch. 12 (SCR 75) Maldonado California Agriculture Day.**

This measure would proclaim the week of March 16 to March 22, 2008, inclusive, as National Agriculture Week, Tuesday, March 25, 2008, as California Agriculture Day, and Thursday, March 20, 2008, as National Agriculture Day.

**Res. Ch. 13 (ACR 109) Mendoza Read Across America Day.**

This measure would recognize March 3, 2008, as Read Across America Day.

---

**NOTE:** Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 14 (ACR 63) Keene Lt. Leonard B. “Larry” Estes and Deputy William R. “Bill” Hunter Memorial Highway.

This measure would designate Highway 149 in Butte County as the Lt. Leonard B. “Larry” Estes and Deputy William R. “Bill” Hunter Memorial Highway. The measure would also request the Department of Transportation to determine the cost for appropriate signs showing that special designation and, upon receiving donations from nonstate sources covering the cost, to erect those signs.

Res. Ch. 15 (AJR 22) Lieber Hurricane Katrina: disaster relief: Gulf Coast Civic Works Act.

This measure would memorialize each Senator and Representative from this state in the Congress and the President to enact the Gulf Coast Civic Works Act, a national effort to create 100,000 jobs for Gulf Coast residents to rebuild their communities.

Res. Ch. 16 (SCR 60) Aanestad Leo J. Trombatore State Office Building.

This measure would designate the Department of Transportation District 3 office building in Marysville as the Leo J. Trombatore State Office Building.

Res. Ch. 17 (SCR 73) Negrete McLeod American Heart Month.

This bill would establish February 2008 as American Heart Month and February 1, 2008, as Wear Red Day.

Res. Ch. 18 (ACR 89) Arambula César Chávez Day.

This measure would recognize March 31, 2008, as the anniversary of the birth of César Chávez, and would call upon all Californians to participate in appropriate observances to remember César Chávez as a symbol of hope and justice to all persons.

Res. Ch. 19 (ACR 92) Jones Multiple Sclerosis Awareness Week.

This measure would declare the week of March 10, 2008, through March 17, 2008, as Multiple Sclerosis Awareness Week.

Res. Ch. 20 (ACR 110) Maze West Nile Virus and Mosquito and Vector Control Awareness Week.

This measure would declare April 21 to April 25, 2008, inclusive, as West Nile Virus and Mosquito and Vector Control Awareness Week.

Res. Ch. 21 (SCR 56) Correa California Peace Officers’ Memorial Day.

This measure would designate Friday, May 9, 2008, as California Peace Officers’ Memorial Day and would urge all Californians to remember those individuals who have given their lives for our safety and express appreciation to those who continue to dedicate themselves to making California a safer place in which to live and raise our families.

Res. Ch. 22 (SCR 76) Torlakson California Fitness Month.

This measure would proclaim the month of May 2008, as California Fitness Month, and would encourage all Californians to enrich their lives through proper diet and exercise.

Res. Ch. 23 (ACR 100) Villines California Museum Month.

This measure would proclaim May 2008, as California Museum Month.

Res. Ch. 24 (SCR 81) Battin Child Abuse Prevention Month.

This measure would acknowledge the month of April 2008 as Child Abuse Prevention Month, and encourage the people of the State of California to work together to support youth-serving child abuse prevention activities in their communities and schools.

Res. Ch. 25 (SJR 24) Simitian Armenian Genocide: Day of Remembrance.

This measure would designate April 24, 2008, as “California Day of Remembrance for the Armenian Genocide of 1915–1923.” It would memorialize the Congress and the President of the United States to act likewise to commemorate the Armenian Genocide.

Res. Ch. 26 (SCR 82) Maldonado Arts Education Month.

This measure would declare March 2008 to be Arts Education Month and would encourage all elected officials to participate with their educational communities in celebrating the arts.

Res. Ch. 27 (SCR 91) Lowenthal Children’s Day and Children’s Week.

This measure would proclaim the last Saturday of April of each year as Children’s Day, proclaim the last week of April of each year as Children’s Week, and encourage Californians to help make our world a wonderful place.

Res. Ch. 28 (ACR 83) Ruskin California Holocaust Memorial Week.

This measure would proclaim April 28 through May 4, 2008, as California Holocaust Memorial Week and would urge Californians to observe these days of remembrance for the victims of the Holocaust in an appropriate manner.

Res. Ch. 29 (ACR 101) Swanson Safe Jobs for Youth Month.

This measure would recognize May 2008 as Safe Jobs for Youth Month in California in order to raise awareness about issues relating to the health and safety of young people in the workforce.

Res. Ch. 30 (ACR 125) Sharon Runner DMV/Donate Life California Registry.

This measure would proclaim April 4, 2008, as DMV/Donate Life California Day and the month of April 2008 as DMV/Donate Life California Month. This measure would encourage all Californians to sign up with the Donate Life California Organ and Tissue Donor Registry.

Res. Ch. 31 (SCR 106) Romero Denim Day.

This measure would recognize April 23, 2008, as “Denim Day California” and would encourage everyone to wear jeans on that day to help communicate the message that there is no excuse for, and never an invitation to, rape.

Res. Ch. 32 (ACR 113) Niello Financial literacy education.

This measure would declare the month of April 2008 as Financial Literacy Month, in order to raise public awareness about the need for increased financial literacy.

Res. Ch. 33 (ACR 104) Davis Public Service Recognition Week.

This measure would designate the week of May 5 to 11, 2008, inclusive, as Public Service Recognition Week, and encourage all Californians to recognize the crucial role of public employees in this state.

Res. Ch. 34 (ACR 111) Huffman Senior Volunteer Month.

This measure would recognize the month of May 2008 as Senior Volunteer Month to honor the contributions of California senior volunteers.

Res. Ch. 35 (ACR 121) Swanson National Multicultural Cancer Awareness Week.

This measure would designate the week of April 20 to 26, 2008, inclusive, as “National Multicultural Cancer Awareness Week,” and would encourage the private sector and the state and federal governments to promote policies and programs that seek to reduce cancer disparities and improve cancer prevention, detection, treatment, and followup care for all Californians.

Res. Ch. 36 (ACR 124) Mendoza Automotive Career Month.

This measure would designate the month of April 2008 as Automotive Career Month.

Res. Ch. 37 (ACR 130) Coto Cinco de Mayo Week.

This measure would proclaim May 5 through May 9, 2008, as Cinco de Mayo Week, and would urge all Californians to join in celebrating Cinco de Mayo.

Res. Ch. 38 (SCR 57) Maldonado Officer Loren D. Scruggs Memorial Highway.

This measure would designate a portion of State Highway Route 101 in Santa Barbara County as the Officer Loren D. Scruggs Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 39 (SCR 94) Maldonado Cook With Your Kids Day.

This measure would recognize the 2nd Saturday in May as "Cook With Your Kids Day" in order to encourage parents and children to spend time in the kitchen together and prepare a healthy meal. This measure would also encourage parents to cook with their kids at least once per week, spend quality time and make healthy food choices with their kids, commit to new healthy habits, and set achievable goals for their family.

Res. Ch. 40 (SCR 99) Battin Motorcycle Awareness Month.

This measure would proclaim May 2008 as Motorcycle Awareness Month.

Res. Ch. 41 (SCR 100) Florez California Letter Carriers Food Drive.

This measure would recognize May 10, 2008, as the day of the California Letter Carriers Food Drive, which is part of the National Association of Letter Carriers' annual Stamp Out Hunger Food Drive.

Res. Ch. 42 (SCR 101) Florez Week of the Student Leader.

This measure would proclaim the 3rd week in April each year as Week of the Student Leader, and would commend the student leaders of the secondary schools of California for their support of and contributions to quality schooling in the state.

Res. Ch. 43 (SCR 98) Scott Lyme disease.

This measure would proclaim the month of May 2008 as Lyme Disease Awareness Month.

Res. Ch. 44 (SCR 70) Scott Arts Council: Arts Day.

This measure would recognize the Arts Council's more than 30 years of service to the state's residents and visitors. It would also proclaim October 3, 2008, as Arts Day.

Res. Ch. 45 (SCR 72) Negrete McLeod California Girls and Women in Sports Day: February 6, 2008.

This measure would commemorate the accomplishment of female athletes, coaches, officials, and sports administrators for their important contribution in promoting the value of sports participation in the achievement of full human potential, and would proclaim February 6, 2008, as California Girls and Women in Sports Day.

Res. Ch. 46 (SCR 79) Machado Guillain-Barre Syndrome Awareness Day.

This bill would declare June 1, 2008, as Guillain-Barre Syndrome Awareness Day.

Res. Ch. 47 (SCR 107) Steinberg Educational Options Month.

This measure would proclaim the month of May 2008 as Educational Options Month and would encourage all Californians to work together to ensure the future success of pupils participating in educational options in the state.

Res. Ch. 48 (SCR 108) Harman California Building Safety Week.

This measure would declare May 4 through May 10, 2008, as California Building Safety Week and urge all Californians to participate in California Building Safety Week activities to help promote building safety, to create awareness of the importance of construction and building codes, and to spotlight the role of dedicated code officials in administering those codes.

Res. Ch. 49 (SCR 110) Correa Black April Memorial Week.

This measure would proclaim April 23 through April 30, 2008, as Black April Memorial Week, a special time for Californians to remember the countless lives lost during the Vietnam War era and to hope for a more humane and just life for the people of Vietnam.

Res. Ch. 50 (SCR 111) Perata 9-1-1 for Kids Safety Education Month.

This measure would designate the month of May 2008 as “9-1-1 for Kids Safety Education Month” in the State of California.

Res. Ch. 51 (ACR 135) Tran Asian and Pacific Islander American Heritage Month.

This measure would recognize May 2008 as Asian and Pacific Islander American Heritage Month.

Res. Ch. 52 (SCR 92) Perata Associated Chaplains in California State Service.

This measure would commend 41 years of professional service by the Associated Chaplains in California State Service in assisting chaplains in implementing religious programming and training within the Department of Corrections and Rehabilitation, the State Department of Developmental Services, the State Department of Mental Health, and the Department of Veterans Affairs.

Res. Ch. 53 (SCR 95) Aanestad Prostate Cancer Awareness Month.

This measure would designate the month of September 2008 as Prostate Cancer Awareness Month in the State of California.

Res. Ch. 54 (SCR 114) Cedillo American Stroke Month.

This measure would declare May 2008 as American Stroke Month in California and urge all Californians to familiarize themselves with the warning signs, symptoms, and risk factors associated with stroke to reduce the devastating effects of stroke on the population.

Res. Ch. 55 (ACR 132) Smyth National Missing Children’s Day.

This measure would declare May 25, 2008, as National Missing Children’s Day.

Res. Ch. 56 (ACR 133) Davis Black Barbershop Health Outreach Month.

This measure would recognize May 2008 as “Black Barbershop Health Outreach Month” and encourage outreach on health disparities at all barbershops throughout California.

Res. Ch. 57 (SCR 93) Cogdill William Saroyan Year.

This measure would designate the year 2008 as the William Saroyan Year for enriching the cultural diversity of the state, and in particular, for celebrating over 100 years of the cultural contribution of Armenian Americans to the people of the state.

Res. Ch. 58 (SCR 96) Steinberg The 2008 State Scientist Day.

This measure would proclaim May 21, 2008, as the 20th Annual State Scientist Day.

Res. Ch. 59 (SCR 102) Kehoe Justice for Janitors Day.

This measure would designate June 15, 2008, as Justice for Janitors Day to encourage California residents, property owners, businesses, and government entities to support the Service Employees International Union’s Justice for Janitors in its 2008 contract campaign

and in its fight to win and maintain family health care coverage and improved wages and benefits for janitors.

Res. Ch. 60 (SCR 86) Denham Local history instruction.

This measure would encourage all high school social studies teachers to study independently at their local county historical society and to use the materials available there to instruct their pupils on local history, and would encourage high schools to offer instruction covering all of the most important historical events that occurred in the county in which each school is located. This measure would encourage the California State Grange to work with historical societies throughout the state to collect local history instruction that will be available to assist local educators in teaching local history to their pupils.

Res. Ch. 61 (SJR 23) Aanestad Federal Secure Rural Schools and Community Self-Determination Act of 2000: extension.

This measure would urge the 110th Congress to reauthorize and fund the federal Secure Rural Schools and Community Self-Determination Act of 2000.

Res. Ch. 62 (SCR 97) Steinberg Autism Awareness Month.

This measure would proclaim April 2008 as Autism Awareness Month, would acknowledge the contributions made in the area of early autism and autism spectrum disorders intervention treatment, and would express its support for ASD programs and increased federal funding for these programs.

Res. Ch. 63 (SCR 88) Denham Education: 21st century skills.

This measure would support the California education system in preparing pupils to succeed and prosper in life, in school, and on the job, and would urge education and business leaders to work together to create an education system that better prepares today's pupils for tomorrow's workplace.

Res. Ch. 64 (SCR 105) Steinberg Amyotrophic Lateral Sclerosis Awareness Month.

This measure would proclaim the month of May 2008 as Amyotrophic Lateral Sclerosis Awareness Month in California, and encourage continued research in order to find treatments and eventually a cure for amyotrophic lateral sclerosis and care and support for patients and families.

Res. Ch. 65 (SCR 90) Wiggins Daniel Broeske Memorial Highway.

This measure would designate a portion of State Highway Route 101 in Mendocino County as the Daniel Broeske Memorial Highway. The measure would request the Department of Transportation to determine the cost for appropriate signs showing this designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 66 (SCR 109) Cedillo The Medal of Honor Recipient, Eugene A. Obregon, USMC, Memorial Interchange.

This measure would redesignate the freeway interchange involving State Highway Routes 5, 10, 60, and 101, commonly referred to as the East Los Angeles Interchange, from the Marine Private First Class Eugene A. Obregon Interchange to the Medal of Honor Recipient, Eugene A. Obregon, USMC, Memorial Interchange. The measure also would request the Department of Transportation to determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 67 (SCR 117) Aanestad Beale Air Force Base.

This measure would proclaim the Legislature's support for Beale Air Force Base in Yuba County to be the best and only choice to host the United States Air Force Cyber Command Operations.

Res. Ch. 68 (SJR 16) Wyland Veterans' hospitals: prescriptions.

This measure would urge the Congress and the President of the United States to require the United States Department of Veterans Affairs to consider the establishment of a specified emergency prescription program, for use in United States Department of Veterans Affairs hospitals, that is similar to the program currently used by hospitals administered by the United States Department of Defense.

Res. Ch. 69 (SJR 32) Padilla Air carriers: consumer protection.

This measure would call upon the United States Congress to approve the federal Aviation Investment and Modernization Act of 2007 and the federal FAA Reauthorization Act of 2007, in order to secure airline passenger rights.

Res. Ch. 70 (ACR 80) Garcia The CHP Officer Robert Franklin Dickey Memorial Highway.

This measure would designate the segment of State Highway Route 8, between Sidewinder Road and Ogilby Road, in the Town of Winterhaven in the County of Imperial, as the CHP Officer Robert Franklin Dickey Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs.

Res. Ch. 71 (ACR 90) Fuller Kern County Deputy Sheriff William "Joe" Hudnall, Jr., Memorial Highway.

This measure would designate a portion of State Highway Route 178 in Kern County as the Kern County Deputy Sheriff William "Joe" Hudnall, Jr., Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 72 (ACR 96) Carter Deputy Frank M. Pribble Memorial Highway.

This measure would designate a portion of State Highway Route 10 in the City of Fontana as the Deputy Frank M. Pribble Memorial Highway. The measure also would request the Department of Transportation to determine the cost of appropriate signs showing that special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs.

Res. Ch. 73 (ACR 108) Eng Hate Crimes Awareness Month.

This measure would designate June 2008 as Hate Crimes Awareness Month.

Res. Ch. 74 (ACR 116) Strickland Adolfo Camarillo Memorial Highway.

This measure would designate the portion of State Highway Route 101 from the top of the Conejo Grade to Lewis Road in the City of Camarillo as the Adolfo Camarillo Memorial Highway. The measure would request the Department of Transportation to determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 75 (ACR 128) Arambula Officer Sixto Maldonado, Jr., Memorial Highway.

This measure would designate a portion of State Highway Route 33 in the City of Firebaugh in Fresno County as the Officer Sixto Maldonado, Jr., Memorial Highway. The

measure also would request the Department of Transportation to determine the cost of appropriate signs showing this special designation and, upon receiving donations from nonstate sources sufficient to cover the costs, to erect those signs.

Res. Ch. 76 (ACR 142) Sharon Runner Scleroderma Awareness Month.

This measure would declare June 2008 as Scleroderma Awareness Month.

Res. Ch. 77 (ACR 69) Dymally Compton Community College: Task Force on the Future of Compton Community College.

This measure would request that the Task Force on the Future of Compton Community College be established. The measure would request the Special Trustee of the Compton Community College District to convene, and serve as the permanent chairperson of, the task force, and would specify the persons who would be invited to participate in the meetings of the task force. The measure would authorize the special trustee to organize the task force into various groups to review specified topics. The measure would request the task force to prepare a report discussing specified topics, and to transmit copies of that report, with any accompanying comments it deems appropriate, to the Governor, the Speaker of the Assembly, and the Senate Committee on Rules.

Res. Ch. 78 (ACR 82) Huff The Mayor Bob Zirbes Memorial Freeway.

This measure would designate the portion of State Route 57 from the Orange County line to the Pathfinder Road exit in the City of Diamond Bar as the Mayor Bob Zirbes Memorial Freeway. The measure would also request that the Department of Transportation determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, erect those signs.

Res. Ch. 79 (ACR 98) Jeffries Historic U.S. Highway 395.

This measure would request the Department of Transportation, upon application by a private entity or local government agency, to identify and designate specified sections of former U.S. Highway Route 395 as Historic U.S. Highway 395. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 80 (ACR 107) Cook CDF Firefighter John D. Guthrie Memorial Highway.

This measure would designate a specified portion of State Highway Route 215 as the "CDF Firefighter John D. Guthrie Memorial Highway." The measure would request the Department of Transportation to determine the cost of appropriate signs so designating that portion of State Highway Route 215 and, upon receiving donations from nonstate sources covering the cost, to erect those signs.

Res. Ch. 81 (AJR 45) Coto Mortgage loans: federal conforming and FHA mortgage loan limits.

This measure would respectfully memorialize the President and the Congress of the United States to permanently increase the federal conforming mortgage loan limit and the FHA loan limit to the levels to which these limits were increased in the federal Economic Stimulus Act of 2008, as specified.

Res. Ch. 82 (AJR 54) Laird State Children's Health Insurance Program.

This measure would urge the President and the Congress of the United States to rescind the federal Centers for Medicare & Medicaid Services' directive of August 17, 2007, that restricts states' authority to cover children under the State Children's Health Insurance Program.

Res. Ch. 83 (AJR 56) Swanson Unemployment benefits.

This measure would encourage the United States Congress to pass legislation extending federal unemployment benefits.

Res. Ch. 84 (AJR 58) Horton School Medicaid services.

This measure would express the Legislature's opposition to one of the newly enacted federal Centers for Medicare and Medicaid Services (CMS) regulations that would eliminate federal Medicaid reimbursements for school health-related services.

Res. Ch. 85 (SCR 71) Yee Tom Lantos Tunnels at Devil's Slide.

This measure would designate a portion of State Highway Route 1 in San Mateo County as the Tom Lantos Tunnels at Devil's Slide. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing that special designation and, upon receiving donations from nonstate sources sufficient to cover the cost, to erect those signs.

Res. Ch. 86 (SCR 84) Cox The Jay-D Ornsby-Adkins Bridge.

This measure would designate the Highway 49 Amador Creek Bridge, Bridge No. 26-0043, as the Jay-D Ornsby-Adkins Bridge. The measure would also request that the Department of Transportation determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, erect those signs.

Res. Ch. 87 (SCR 103) Cogdill Senator Chuck Poochigian Highway.

This measure would designate a prescribed section of State Highway Route 180 as the Senator Chuck Poochigian Highway. The measure would request the Department of Transportation to determine the cost of appropriate signs so designating that section of State Highway Route 180 and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 88 (ACR 24) Blakeslee Correctional facilities: reimbursement.

This measure would urge the Governor to demand the federal Bureau of Justice Assistance to reimburse the State of California for all costs of incarcerating undocumented foreign nationals, as required by federal law.

Res. Ch. 89 (ACR 140) Benoit College and Career Pathways Month.

This measure would declare the month of June 2008 as College and Career Pathways Month to recognize the importance of career technical education for students, schools, and the State of California.

Res. Ch. 90 (AJR 40) De Leon South Coast Air Basin: ozone and fine particulate matter PM 2.5 exposure.

This measure would memorialize the President of the United States to urge that immediate steps be taken to rectify the existing conditions related to PM 2.5 exposure in the South Coast Air Basin.

Res. Ch. 91 (AJR 43) Hayashi Voting rights: mental disability.

Existing law requires the county elections official to cancel the voter registration of any person whose mental incompetency is legally established by a court or a unanimous jury determination under specified circumstances and the court has found that the person is not capable of completing an affidavit of registration.

This measure would call on the Congress and the President of the United States to amend the Help America Vote Act of 2002 to ensure that eligible citizens of the United States who

wish to vote may only be denied the right to vote if they cannot indicate, with or without help, a specific desire to participate in the voting process.

Res. Ch. 92 (AJR 53) Huffman Air resources: greenhouse gas emissions.

This measure would encourage the United States Congress and the President of the United States to support the Reducing Global Warming Pollution from Vehicles Act of 2008 and the Right to Clean Vehicles Act of 2008 in the 110th Congress, which would permit California and other states to implement their standards to reduce greenhouse gas emissions from motor vehicles.

Res. Ch. 93 (ACR 99) Swanson School nurses: salaries.

This measure would urge school districts to take the necessary steps to increase school nurse salaries.

Res. Ch. 94 (ACR 122) Blakeslee The Robert and Pat Nimmo Memorial Highway.

This measure would designate the portion of State Highway Route 41 between Creston Road and El Camino Real in the County of San Luis Obispo as the Robert and Pat Nimmo Memorial Highway. The measure would also request that the Department of Transportation determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, erect those signs.

Res. Ch. 95 (ACR 127) Tran Garden Grove Police Officers Memorial Highway, honoring Myron L. Trapp, Andy R. Reese, Donald R. Reed, Michael L. Rainford, and Howard E. Dallies, Jr.

This measure would designate a portion of State Highway Route 22 in the City of Garden Grove, as the Garden Grove Police Officers Memorial Highway, honoring Myron L. Trapp, Andy R. Reese, Donald R. Reed, Michael L. Rainford, and Howard E. Dallies, Jr. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 96 (AJR 31) Jones Medicare Part D.

This measure would urge the Congress and the President of the United States to amend the Medicare Modernization Act of 2003 to require that the federal government negotiate for the lowest available prices for prescription drugs under the Medicare Part D program, eliminate a specified gap in Medicare Part D coverage, and reduce the “lifetime penalty” for late enrollment in the program, that ensures that dual eligibles have continuous comprehensive access to prescription drugs. This measure would also urge the Congress and the President of the United States to ensure that California is fully reimbursed for the costs of remedying problems with the implementation and operation of the Medicare Part D program, to grant California greater regulatory jurisdiction over Medicare Part D plans, and eliminate out-of-pocket costs for persons who are dual eligibles for Medicare and California’s Medi-Cal program, and provide a true safety net, including Medicaid wraparound coverage.

Res. Ch. 97 (AJR 41) Lieu Endangered species.

This measure would memorialize the United States Fish and Wildlife Service to adopt a final rule to extend the federal Endangered Species Act protections to advance certain penguin species to the next stage in the federal Endangered Species Act listing process, if that agency determines that the decision is scientifically justified, with a formal proposal to list them as threatened or endangered.

Res. Ch. 98 (AJR 49) Nava California gray whales: assessment: protected status.

This measure would request the United States Congress and the President of the United States to call upon the National Marine Fisheries Service to undertake an immediate and

comprehensive assessment of the California gray whale, and request the National Marine Fisheries Service to change the status of the gray whale to endangered, if the results of the comprehensive assessment or the body of scientific evidence warrants it.

Res. Ch. 99 (AJR 52) Karnette Commercial motor vehicles.

This measure would reaffirm California's opposition to removing the federal freeze on increases in the size or weight of commercial motor vehicles because of the impact that these increases would have on highway infrastructure, especially bridges.

Res. Ch. 100 (AJR 62) Leno West Coast sea turtle protection.

This measure would request the National Marine Fisheries Service to delay consideration of, or deny, the swordfish longline exempted fishing permit for a specified period of time. The measure would request the National Marine Fisheries Service to defer consideration of efforts to introduce shallow-set longline fishing off the California coast for that specified period of time.

Res. Ch. 101 (AJR 48) Price Postsecondary education: student financial aid.

This measure would memorialize Congress and the President of the United States to ensure that low-income students continue to have the opportunity to attend institutions of higher education, to work with states to establish new student financial aid programs and to support existing programs, and to ensure that financial aid programs, including private loan programs, contain reasonable terms and conditions and do not discriminate against low-income students.

Res. Ch. 102 (AJR 60) Evans Speech: Shield law for journalists.

This measure would respectfully urge the Congress of the United States to enact a shield law for America's journalists.

Res. Ch. 103 (SCR 83) Battin Native Americans: California Indian Heritage Month.

This measure would proclaim November 2008 as California Indian Heritage Month, encourage its observance with activities that celebrate the uniqueness of Americans, and commend California Indian nations for their outstanding contributions to this state.

Res. Ch. 104 (SCR 118) Maldonado Sea Otter Awareness Week.

This measure would proclaim the last week of September as Sea Otter Awareness Week in the State of California, and urge all Californians to be aware that the imperiled sea otter is an integral part, and a symbol, of California's coastal nearshore ecosystem and serves as an indicator for the overall health of California's marine ecosystems, and, thus, there is a need to protect both the sea otter and the coastal waters in which it lives.

Res. Ch. 105 (SCR 121) Ashburn Valley Fever Awareness Month.

This measure would proclaim August 2008 as Valley Fever Awareness Month.

Res. Ch. 106 (SCR 85) Kuehl Pacific bluefin tuna.

This measure would seek the assistance of the Governor, the Fish and Game Commission, the Department of Fish and Game, the Ocean Protection Council, the National Oceanic and Atmospheric Administration, the National Marine Fisheries Service, the Inter-American Tropical Tuna Commission, and the Western and Central Pacific Fisheries Council to work with the Pacific Regional Fishery Management Council and other appropriate authorities to achieve the cessation of illegal, unreported, and unregulated bluefin tuna overfishing, the implementation of a robust stock assessment of Pacific bluefin tuna to evaluate and enhance conservation efforts for the status of this highly valuable resource, and the imposition and

enforcement of catch limits for Pacific bluefin tuna in the United States Exclusive Economic Zone.

Res. Ch. 107 (SJR 28) Calderon Nutrition: sodium consumption.

This measure would urge the federal Food and Drug Administration to respond to the issue of sodium consumption by reclassifying sodium as an additive and would also urge the United States Department of Agriculture and the United States Department of Health and Human Services to respond to the issue of sodium consumption by setting new food guidelines addressing the amount of sodium in foods.

Res. Ch. 108 (SCR 77) Lowenthal Fall Prevention Awareness Week.

This measure would declare the first week of fall each year as “Fall Prevention Awareness Week.”

This measure would urge the California Department of Aging and the area agencies on aging to incorporate fall prevention in their upcoming state and local area master plans and recommend the California Health and Human Services Agency develop standardized definitions and reporting methods that will improve available information on falls. This measure would also recommend that fall prevention guidelines be incorporated into state and local planning documents that affect housing, transportation, parks, recreational facilities, and other public facilities.

Res. Ch. 109 (SCR 122) Simitian 2009 Summer National Senior Games.

This measure would commend various organizations and Stanford University for determining to hold the 2009 Summer National Senior Games. It would also encourage the residents of the state to take specified actions regarding the games. It would urge the business community of the Bay Area to support the games as specified.

Res. Ch. 110 (SCR 113) Wiggins Emanuel Fritz Forest Ecosystem Research Area.

This measure would designate a portion of the lower Big River watershed in Mendocino County as the Emanuel Fritz Forest Ecosystem Research Area to be dedicated to basic research in forest ecosystem dynamics. The measure would also request the Department of Parks and Recreation to determine the cost for appropriate signs near the mouth of Laguna Creek showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 111 (SCR 112) Padilla Services for older adults.

This measure would urge the state to more fully provide culturally appropriate services in all areas of service delivery to older adults. The measure would also urge the University of California to incorporate cultural competency in its health science professional education programs addressing geriatrics and gerontology and the California Health and Human Services Agency to incorporate cultural competency in all programs and systems devoted to serving older Californians.

Res. Ch. 112 (SCR 115) Torlakson California Lung Cancer Awareness Week.

This measure would proclaim the first week of August as California Lung Cancer Awareness Week.

Res. Ch. 113 (SCR 119) Dutton The CHP Officer John Bailey Memorial Freeway.

This measure would designate the portion of State Highway Route 15 between State Highway Routes 10 and 210, in the City of Rancho Cucamonga and the County of San Bernardino, as the CHP Officer John Bailey Memorial Freeway. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 114 (SJR 19) Ridley-Thomas Health professionals: torture.

This measure would request all relevant California agencies to notify California-licensed health professionals about their professional obligations under international law relating to torture and the treatment of detainees, as specified, and to also notify those professionals that those who participate in coercive or enhanced interrogation, torture, or other forms of cruel, inhuman, or degrading treatment or punishment may be subject to prosecution. The measure would request that those health professionals report abusive interrogation practices to the appropriate authorities, as specified. In addition, the measure would request the United States Department of Defense and the Central Intelligence Agency to remove all California-licensed health professionals from participating in prisoner and detainee interrogations, as specified.

Res. Ch. 115 (SCA 4) Ashburn Property tax: new construction exclusion: seismic retrofitting.

The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, “full cash value” is defined as the assessor’s valuation of real property as shown on the 1975–76 tax bill under “full cash value” or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change of ownership has occurred.

The California Constitution excludes from classification as “newly constructed” the portion of reconstruction or improvement to a structure constructed of unreinforced masonry bearing wall construction, that is necessary to comply with any local ordinance relating to seismic safety, during the first 15 years following the reconstruction or improvement. The California Constitution also authorizes the Legislature to exclude from classification as “newly constructed” the construction or installation in existing buildings of certain seismic retrofitting improvements or improvements utilizing earthquake hazard mitigation technologies.

This measure would instead exclude from the definition of “newly constructed” the portion of an existing structure that consists of the construction or reconstruction of seismic retrofitting components, as defined by the Legislature. This measure would delete the existing exclusion for structures constructed of unreinforced masonry bearing wall construction, and the existing grant of authority to the Legislature to exclude certain seismic retrofitting improvements or improvements utilizing earthquake hazard mitigation technologies.

Res. Ch. 116 (SCR 80) Cogdill Fire Safe Councils.

This measure would recognize that Fire Safe Councils serve as leading community-based wildfire preparedness organizations and the vital services provided by Fire Safe Councils for the citizens of California.

Res. Ch. 117 (SJR 25) Negrete McLeod Fibromyalgia.

This measure would urge the Congress of the United States to accelerate the federal investment in fibromyalgia research at the National Institutes of Health, to ensure adequate Medicare and Medicaid reimbursement and coverage of fibromyalgia therapies, and to launch a multifaceted public awareness campaign on fibromyalgia.

Res. Ch. 118 (SJR 27) Kehoe Federal tax credits: production and investment for renewable energy technologies.

This measure would encourage the President and the Congress of the United States to provide a long-term extension of the investment and production tax credits for all renewable energy technologies.

Res. Ch. 119 (SCR 126) Simitian No Drugs Down the Drain Week.

This measure would proclaim the week of October 4 to October 11, 2008, inclusive, as “No Drugs Down the Drain Week” to raise awareness among the public about the environmental problems caused by flushing unwanted drugs down the drain.

Res. Ch. 120 (SCR 127) Steinberg Foster care.

This measure would designate the month of November 2008 as Court Adoption and Permanency Month and would encourage courts and local communities to join in activities to expedite permanency for children who have been abused and neglected.

Res. Ch. 121 (SCR 128) Negrete McLeod California Native American Day.

This measure would recognize the importance of California Native American Day, celebrated this year on September 26, 2008, and the concurrent California Indian Cultural Awareness Conference to the enhancement of awareness of California Indian culture.

Res. Ch. 122 (SCR 129) Kehoe Psoriasis Awareness Month.

This measure would designate August 2008 as Psoriasis Awareness Month in California.

Res. Ch. 123 (SCR 130) Ridley-Thomas California Firefighters Memorial Day.

This measure would proclaim Saturday, October 18, 2008, as California Firefighters Memorial Day, and urge all Californians to remember those firefighters who have given their lives in the line of duty and to express appreciation to those who every day continue to protect our families, hopes, and dreams.

Res. Ch. 124 (ACR 21) Portantino University of California: academic partnerships.

Existing law establishes the University of California, under the administration of the Regents of the University of California, as one of the segments of public postsecondary education in this state. The regents operate campuses of the University of California at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco, Santa Barbara, and Santa Cruz.

This measure would strongly urge the regents to establish a cost-neutral student exchange program, or another form of cost-neutral academic partnership, between one or more campuses of the University of California and one or more of the institutions that are classified as Historically Black Colleges and Universities.

Res. Ch. 125 (ACR 145) Portantino Pupil instruction: social sciences.

This measure would designate the month of October as Italian American Heritage Month and encourage public schools to highlight Italian American achievements and contributions to the culture of California and to take steps to promote the inclusion of the achievements and contributions of Italian Americans to United States and California history and social science in elementary and secondary textbooks during the revision process for those textbooks.

Res. Ch. 126 (AJR 21) Portantino Public housing agencies.

This measure would urge each public housing agency in the state that provides housing vouchers or certificates under Section 8 of the United States Housing Act of 1937 to include shared housing as an option for all Section 8 recipients, especially extremely low income special needs households, such as foster youth, recipients who receive assistance under the federal Supplemental Security Income program, and the elderly, in the next plan the agency submits to the United States Department of Housing and Urban Development.

The measure would also memorialize the President and the Congress of the United States to enact legislation reducing the tenant's portion of the rent to 20% of monthly income for extremely low income special needs Section 8 recipients who utilize shared housing.

Res. Ch. 127 (AJR 37) Lieu Santa Monica Municipal Airport.

This measure would respectfully memorialize the Federal Aviation Administration to engage in a collaborative process to review the safety of flight operations at the Santa Monica Municipal Airport, and examine the role that the airport plays in the regional aviation transportation system.

Res. Ch. 128 (AJR 39) Huffman Winnemem Wintu Tribe: federal reaffirmation.

This measure would memorialize the President and Congress of the United States, and the Assistant Secretary for Indian Affairs in the United States Department of the Interior, to reaffirm that the Winnemem Wintu Tribe possesses full federal recognition and all the rights and privileges that arise from that status, excluding Indian gaming.

Res. Ch. 129 (AJR 42) Garcia Domestic violence.

This measure would urge Congress to protect funding and maintain programs, laws, regulations, and policies that assist victims of domestic violence, as specified.

Res. Ch. 130 (AJR 57) Huffman Mercury-contaminated seafood.

This measure urges the federal Food and Drug Administration to take responsibility for, and take actions to reduce, the public's exposure to mercury in seafood by taking specified actions.

Res. Ch. 131 (AJR 65) Furutani Filipino communities.

This measure would recognize the critical role that Filipinos, and the Filipino community as a whole, have played in the social, economic, and political development of California throughout the state's history, and encourage all federal, state, and local organizations to promote the preservation of Filipino history and culture, including the preservation of Filipino communities.

Res. Ch. 132 (ACR 143) Garcia California Hispanic Heritage Month.

This measure would proclaim September 15 to October 15, 2008, inclusive, as California Hispanic Heritage Month and would encourage all Californians to observe this event in communities throughout the state.

Res. Ch. 133 (ACR 144) Anderson Border Patrol Officer Neil Wilkie Hepburn Memorial Bridge.

This measure would designate the bridge on State Highway Route 52 that crosses over West Hills Parkway in Santee, California, as the Border Patrol Officer Neil Wilkie Hepburn Memorial Bridge. The measure would also request that the Department of Transportation determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, erect those signs.

Res. Ch. 134 (ACR 65) Arambula Red Ribbon Week.

This measure would proclaim October 23 through October 31, 2008, as Red Ribbon Week, and would encourage all Californians to help build drug-free communities and participate in drug prevention activities.

Res. Ch. 135 (ACR 120) Silva USA Entrepreneurship Week.

This bill would declare the Legislature's support for the goal of USA Entrepreneurship Week from November 17 to 23, 2008, inclusive, and would encourage schools and other organizations to hold events promoting entrepreneurship during that week.

Res. Ch. 136 (ACR 139) Villines The Kimberly Marie Hamilton Memorial Interchange.

This measure would designate the State Highway Route 180 interchange at Fowler Avenue in the City of Fresno as the Kimberly Marie Hamilton Memorial Interchange. The measure would also request that the Department of Transportation determine the cost for

appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, erect those signs.

Res. Ch. 137 (ACR 141) La Malfa CHP Officer Andrew “Andy” Stevens Memorial Highway.

This measure would designate the section of State Highway Route 16 in Yolo County between County Road 98 and Interstate 505 as the CHP Officer Andrew “Andy” Stevens Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing this special designation and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those signs.

Res. Ch. 138 (ACR 149) Keene Firefighters.

This measure would recognize and commend the bravery and selflessness of the firefighters of CAL-FIRE.

Res. Ch. 139 (ACR 152) Wolk Health Care Decisions Week.

This measure would recognize the week of October 26 through November 1, 2008, as Health Care Decisions Week in California, and would encourage all Californians to think about and talk with loved ones about their wishes for medical care.

Res. Ch. 140 (ACR 154) Laird Archival institutions: archival month.

This measure would recognize the importance of archival institutions to the state and would proclaim the month of October as Archives Month in the state and encourage all Californians to discover the rich treasures contained in local archival repositories.

Res. Ch. 141 (SCR 132) Perata California Highway Patrol Officer Brent William Clearman Memorial Freeway.

This measure would designate a specified portion of State Highway Route 880 as the California Highway Patrol Officer Brent William Clearman Memorial Freeway. The measure would also request that the Department of Transportation determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, erect those signs.

Res. Ch. 142 (SJR 17) Alquist Republic of Turkey: Ecumenical Patriarchate.

This measure would respectfully request the Republic of Turkey to uphold and safeguard religious and human rights, to cease discrimination against the Ecumenical Patriarchate, to grant the Ecumenical Patriarch appropriate ecumenical recognition, ecclesiastic succession, and the right to train clergy of all nationalities, and to respect the property rights, human rights, and religious rights of the Ecumenical Patriarchate.

Res. Ch. 143 (SCA 12) Perata California State Lottery.

The California Constitution authorizes a California State Lottery, and the California State Lottery Act of 1984, enacted by initiative, provides for its operation and administration by the California State Lottery Commission and the Director of the California State Lottery, with certain limitations. The act declares that its purpose is to provide additional moneys to benefit education.

This measure would provide that an additional purpose of the California State Lottery is to provide funds for other public purposes. The measure would authorize the Legislature to obtain moneys for the purposes of the California State Lottery through the sale of future revenues of the California State Lottery and rights to receive those revenues to an entity authorized by the Legislature to issue debt obligations for the purpose of funding that purchase.

Res. Ch. 144 (SCA 13) Ashburn State finance.

Existing provisions of the California Constitution require the Governor to submit to the Legislature, within the first 10 days of each calendar year, a proposed budget for the ensuing fiscal year containing itemized statements for recommended state expenditures and estimated state revenues. In addition, the Constitution prohibits the Legislature from passing, and the Governor from signing, a Budget Bill that would appropriate from the General Fund a total amount that, when combined with all appropriations from the General Fund for that fiscal year made as of the date of the Budget Bill's passage, and the amount of any General Fund moneys transferred to a reserve account, exceeds estimated General Fund revenues for that fiscal year. The estimate of General Fund revenues is required to be set forth in the Budget Bill.

This measure would require the Governor in his or her proposed budget to identify estimated total state resources available to meet recommended state expenditures and to further identify the amount of those resources that are anticipated to be one-time resources. The measure would prohibit passage of a Budget Bill that appropriates an amount that, when combined with prior appropriations and transfers to the reserve account, exceeds the estimate of General Fund revenues, transfers, and balances available from the prior fiscal year. The measure would require the estimate of General Fund revenues, transfers, and balances to be set forth in the Budget Bill.

Existing provisions of the California Constitution establish the Budget Stabilization Account in the General Fund and currently require the Controller, no later than September 30 of each year, to transfer from the General Fund to the account a sum equal to 3% of the estimated amount of General Fund revenues for the current fiscal year. This transfer of moneys is not required, unless otherwise directed by the Legislature by statute, in any fiscal year to the extent that the resulting balance in the account would exceed 5% of the General Fund revenues estimate set forth in the Budget Bill for that fiscal year, as enacted, or \$8,000,000,000, whichever is greater. This transfer of moneys also may be suspended or reduced for a fiscal year as specified by an executive order issued by the Governor no later than June 1 of the preceding fiscal year. Of the moneys transferred to the account in each fiscal year, 50%, up to an aggregate amount of \$5,000,000,000 for all fiscal years, is deposited in the Deficit Recovery Bond Retirement Sinking Fund Subaccount and continuously appropriated to the Treasurer for the purpose of retiring deficit recovery bonds. All other moneys transferred to the account in a fiscal year are not deposited in the sinking fund subaccount and may, by statute, be transferred back to the General Fund.

This measure would rename this account the Budget Stabilization Fund. This measure would also provide that the transfer of moneys from the General Fund to the Budget Stabilization Fund is not required in any fiscal year to the extent that the resulting balance in the fund would exceed 12.5% of the General Fund revenues estimate set forth in the Budget Bill for that fiscal year, as enacted, and would delete the alternative \$8,000,000,000 limit on the fund. This measure would provide that, beginning with the 2010–11 fiscal year, the transfer of moneys from the General Fund to the fund may be suspended or reduced by executive order only for a fiscal year in which the estimated General Fund revenues, transfers, and balances available from the prior fiscal year are less than the total General Fund expenditures for the immediately preceding fiscal year as adjusted for changes in population and the cost of living, as defined. In addition, this measure would provide that funds not deposited in the sinking fund subaccount may be transferred from the Budget Stabilization Fund back to the General Fund by a statute containing no unrelated provisions, and that funds in the Budget Stabilization Fund may be loaned to the General Fund to address a General Fund cashflow deficit.

This measure would require the Director of Finance, on or before May 29 of each year, to report to the Legislature and the Governor an estimate of the amount of General Fund revenues, transfers, and balances available from the prior fiscal year for the current fiscal year and the impact of tax legislation adopted during the current fiscal year subsequent to the enactment of the Budget Bill. The measure would provide that if, pursuant to a formula based

on those estimates, there are unanticipated revenues in the current fiscal year, those revenues may be used only for specified purposes, and in a specified order of priority.

Res. Ch. 145 (AJR 36) Jones Human rights: Hmong population in Laos and Thailand.

This measure would call upon the President and the Congress to take appropriate measures to ensure that the Hmong living in Laos, Thailand, and other countries are treated and respected as human beings.

Res. Ch. 146 (AJR 51) Nava Oil and gas: offshore drilling: leases: moratorium.

This measure would request that the Congress of the United States continue the federal offshore oil and gas leasing moratorium for the 2009 fiscal year and beyond, and would express opposition to certain provisions of proposed federal energy policies and legislation.

Res. Ch. 147 (AJR 64) Mullin Pupil testing and secondary education.

This measure would urge the 110th Congress to recognize the importance of curriculum and instruction covering all subjects, including history/social science, science, art, music, and physical education, when Congress considers reauthorization of the Elementary and Secondary Education Act. This measure also would urge school districts, county offices of education, and charter schools to focus on teaching the whole child in a wider curriculum and would urge the State Board of Education and the Superintendent of Public Instruction to consider and recommend alternatives for including all subjects in the state assessment and accountability system.

Res. Ch. 148 (AJR 66) Brownley Fishery management.

This measure would express the support of the California Legislature for efforts by the National Marine Fishery Service under the reauthorized federal Magnuson-Stevens Fishery Conservation and Management Act to strengthen National Standard 1 fishery management guidelines under the federal act, and would memorialize the Pacific Fishery Management Council to adhere to specified fishery management principles so as to protect and enhance fisheries offshore of California's special coast.

Res. Ch. 149 (AJR 67) Furutani American Samoan United States Nationals: United States citizenship.

This measure would respectfully urge the President and the Vice President of the United States and the United States Congress to enact federal legislation amending the Immigration and Nationality Act to waive certain requirements for naturalization for American Samoan United States nationals to become United States citizens.

Res. Ch. 150 (AJR 68) Brownley Marine mammals: sonar.

This measure would request that the President of the United States and the United States Navy abide by the laws governing usage and effects upon the coastal regions of California and adopt the guidelines presented by the California Coastal Commission for training operations off the coast of southern California with respect to sonar usage and marine wildlife.

Res. Ch. 151 (AJR 69) Brownley Child nutrition programs.

This bill would memorialize that the Legislature supports reauthorization of federal child nutrition programs, that the Legislature urges the President and the Congress of the United States to ensure reimbursement rates are adequate to fully fund the cost of producing a nutritious school meal relative to the cost of living in a region, and that the eligibility scale used to qualify families for free and reduced-priced meals be adjusted, as specified.

Res. Ch. 152 (AJR 70) Brownley Los Angeles River.

This measure would memorialize the Congress and the President of the United States to support a special case review by the federal Environmental Protection Agency of the determination of the U.S. Army Corps of Engineers issued on June 4, 2008, finding that 2 sections of the Los Angeles River are traditional navigable waters, and to support any efforts of Congress to seek a review of this determination.

Res. Ch. 153 (ACR 87) Hayashi Legislative Task Force on Peripheral Neuropathy.

This measure would establish a Legislative Task Force on Peripheral Neuropathy, consisting of specified members, to suggest ways to promote public and physician awareness of peripheral neuropathy, promote understanding of the importance of early diagnosis and proper treatment and management, create programs to promote public and physician awareness of various treatments to improve patient care, determine how many people are affected by each type of peripheral neuropathy, and, on or before March 31, 2009, prepare a report to be submitted to the Legislature containing their suggestions.

Res. Ch. 154 (ACR 112) Dymally Legislative Task Force on Fibromyalgia.

This measure would establish a Legislative Task Force on Fibromyalgia, consisting of specified members, to establish a public information and outreach campaign, promote fibromyalgia education and training programs for physicians and other health professionals, collaborate with a broad group of stakeholders, review current state policies and practices concerning treatment of fibromyalgia, develop a State Fibromyalgia Strategic Plan to be submitted to the Legislature by September 1, 2009, and hold a Fibromyalgia Summit during the 2009–10 Regular Session of the Legislature.

Res. Ch. 155 (ACR 114) Fuller Home-to-school transportation.

This measure would request the Superintendent of Public Instruction to convene a committee to investigate cost savings and best practices for school districts operating home-to-school transportation programs, not including special education transportation. The measure also would request the Superintendent to invite specified representatives to become members of the committee and would request that the relevant findings or recommendations based on the committee's investigation be posted on the State Department of Education's Internet Web site.

Res. Ch. 156 (ACR 126) Dymally Augustus Freeman (Gus) Hawkins.

This measure would commend and recognize the late Honorable Augustus Freeman (Gus) Hawkins for his great accomplishments and his contributions to this state and our country as both a former Member of this Assembly and as a United States Representative in Congress and would declare that the second Monday of September of each year shall be Gus Hawkins Day in California.

Res. Ch. 157 (ACR 134) DeSaulnier Legislative Task Force on Summer and Intersession Enrichment.

This measure would establish the Legislative Task Force on Summer and Intersession Enrichment, consisting of specified members. The measure would require the task force to take various actions related to studying ways to provide summer enrichment and wellness programs to low-income children, as provided.

Res. Ch. 158 (ACR 137) Galgiani Chronic Obstructive Pulmonary Disease.

This measure would commend the State Department of Health Care Services for implementing a pilot program to provide for the chronic disease management of Chronic Obstructive Pulmonary Disease (COPD) in an effort to reduce the financial and clinical burden of this disease on the Medi-Cal program. This measure would also encourage this department, upon the program's conclusion, to prepare and submit a report of the

department's findings and recommendations regarding the pilot program to the appropriate committees of the Senate and Assembly.

This measure would declare November 2008 as COPD Awareness Month, and November 14, 2008, as COPD Awareness Day.

Res. Ch. 159 (ACR 138) Horton School nurses.

This measure would declare May 7 of each year as School Nurse Day in California and encourage all Californians to promote the good health of the state's students and recognize California's credentialed school nurses for their contributions to the health of the state's children.

Res. Ch. 160 (ACR 146) Solorio California-Mexico Project.

This measure would encourage faculty and student exchange between California's and Mexico's institutions of higher education through the California-Mexico Project. This measure would request the California Research Bureau to research and report on the programmatic and funding elements of an effective international student and faculty exchange program and would request the University of California, the California State University, and the California Community Colleges system to consult with the bureau, and provide the bureau with data on international exchange programs involving students and faculty, funding of those programs, and other pertinent information.

Res. Ch. 161 (ACR 147) Maze Detective Kent Haws Memorial Highway and Senior Investigator Laura Jean Cleaves Memorial Junction.

This measure would designate a portion of State Highway Route 65 in Tulare County as the Detective Kent Haws Memorial Highway and would designate the intersection of State Highway Routes 154 and 246 in Santa Barbara County as the Senior Investigator Laura Jean Cleaves Memorial Junction. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing those special designations and, upon receiving donations from nonstate sources sufficient to cover those costs, to erect those signs.

Res. Ch. 162 (ACR 150) La Malfa Joan Bechtel Memorial Highway.

This measure would designate the Tudor Bypass segment of State Highway Route 99 in Sutter County, as specified, as the Joan Bechtel Memorial Highway. The measure would also request the Department of Transportation to determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 163 (ACR 151) Cook Welcome Home Vietnam Veterans Week.

This measure would recognize December 10 through December 14, 2008, as Welcome Home Vietnam Veterans Week.

Res. Ch. 164 (ACR 153) Laird California Coastal Trail Day.

This measure would declare October 11, 2008, as California Coastal Trail Day in California.

Res. Ch. 165 (ACR 155) Beall Alcohol and Drug Addiction Recovery Month.

This measure would recognize September 2008 as Alcohol and Drug Addiction Recovery Month in California in order to raise awareness of the importance of substance use disorders treatment and to help those suffering from substance use disorders and their families to receive treatment.

Res. Ch. 166 (ACR 156) Berryhill The CDF Firefighter Eva Marie Schicke Memorial Highway.

This measure would designate the portion of State Highway Route 120 from the Mariposa/Tuolumne County line to the Rim of the World Vista as the CDF Firefighter Eva Marie Schicke Memorial Highway. The measure would also request the Department of Transportation to determine the cost of appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 167 (SCA 30) Ashburn State finance.

Senate Constitutional Amendment No. 13 of the 2007–08 Regular Session would, if adopted by the people, amend Section 20 of Article XVI of the California Constitution relative to state finance. That measure would rename the Budget Stabilization Account the Budget Stabilization Fund and would provide that all moneys in the fund not designated for deposit into the Deficit Recovery Bond Retirement Sinking Fund Subaccount may be transferred to the General Fund by a statute that contains no unrelated provisions or may be loaned to the General Fund to address a General Fund cashflow deficit.

This measure would instead provide that, apart from a transfer made for the purpose of responding to an emergency declared by the Governor, as defined, or loaned and repaid within a fiscal year to meet General Fund cash requirements, the total amount that may be transferred from the Budget Stabilization Fund to the General Fund for any fiscal year shall not exceed the amount derived by subtracting the General Fund revenues, transfers, and balances available from the prior fiscal year for that fiscal year from the total General Fund expenditures for the immediately preceding fiscal year as adjusted for changes in population and the cost of living, as defined. This measure would direct the Secretary of State to make those amendments in SCA 13.

## 2008 DIGEST CHAPTERS SUPERIOR NUMBERS

1 [Ch. 268] I object to the following appropriations contained in Assembly Bill 1781.

Item 0690-011-0214—For support of Office of Emergency Services. I delete this item.

This item would authorize a \$30,000,000 loan from the Restitution Fund to the Emergency Response Fund. The final budget package does not create the Emergency Response Fund nor appropriate any funding from it. However, the final budget package does include this loan, which is no longer necessary. Therefore, on a technical basis, I must delete this item.

Item 0690-101-6061—For local assistance, Office of Emergency Services.

I revise this item by deleting Provision 1. This Budget Bill provision is unnecessary, as it simply restates existing law. Specifically, this provision would require the allocation of funding from the Transit System Safety, Security, and Disaster Response Account, Highway Safety, Traffic Reduction, Air Quality, and Port Security Fund of 2006 to be consistent with the provisions of Chapter 181, Statutes of 2007. Chapter 181 designated administering agencies for the bond funds authorized by the voters via Proposition 1B in November 2006, and imposed various requirements on these agencies for the allocation of the bond funds.

Item 0690-101-6073—For local assistance, Office of Emergency Services.

I revise this item by deleting Provision 1. This Budget Bill provision is unnecessary, as it simply restates existing law. Specifically, this provision would require the allocation of funding from the Port and Maritime Security Account, Highway Safety, Traffic Reduction, Air Quality, and Port Security Fund of 2006 to be consistent with the provisions of Chapter 181, Statutes of 2007. Chapter 181 designated administering agencies for the bond funds authorized by the voters via Proposition 1B in November 2006, and imposed various requirements on these agencies for the allocation of the bond funds.

Item 1700-001-0001—For support of Department of Fair Employment and Housing. I reduce this item from \$17,813,000 to \$16,869,000 by reducing:

(1) 50-Administration of Civil Rights Law from \$23,668,000 to \$22,624,000

(2) Amount payable from the Federal Trust fund (Item 1700-001-0890) from -\$5,855,000 to -\$5,755,000.

I am reducing this item by \$944,000 which will result in the loss of 9.5 personnel years for the enforcement of civil rights. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

I am also revising this item to conform to the action I have taken in 1700-001-0890.

Item 1700-001-0890—For support of Department of Fair Employment and Housing. I reduce this item from \$5,855,000 to \$5,755,000.

I am revising this item to conform to the action I have taken in Item 1700-001-0001 to reflect a reduction in federal funds for processing dual filed housing and employment discrimination claims.

Item 1730-001-0044—For support of Franchise Tax Board. I reduce this item from \$2,991,000 to \$2,844,000 to make a technical correction to the Budget Bill.

This technical veto will conform with the Legislature's intent and is consistent with the legislative action taken in Item 1730-001-0001.

Item 1730-001-0064—For support of Franchise Tax Board. I reduce this item from \$5,615,000 to \$5,342,000 to make a technical correction to the Budget Bill.

This technical veto will conform with the Legislature's intent and is consistent with the legislative action taken in Item 1730-001-0001.

Item 2240-001-0001—For support of Housing and Community Development. I reduce this item from \$4,784,000 to \$4,023,000 by reducing:

- (1) 10-Codes and Standards Program from \$29,964,000 to \$29,118,000.
- (7) Reimbursements from -\$1,132,000 to -\$1,047,000, and by deleting Provision 2.

I am reducing this item by \$761,000 for the Employee Housing Program. While the budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

I am also eliminating the Legislature's augmentation of reimbursements for this item by \$85,000 and, consistent with this action, I am deleting Provision 2 that expresses legislative intent that the Department of Housing and Community Development increase fees paid by employee housing providers to offset program reductions.

Item 2240-101-0001—For local assistance, Department of Housing and Community Development. I reduce this item from \$6,316,000 to \$5,973,000 by reducing:

- (1) 20-Financial Assistance Program from \$173,116,000 to \$172,773,000, and deleting Provision 1.

I am reducing this item by \$343,000 to reinstate the budget-balancing reduction to the migrant housing operations program that I proposed. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 2240-101-0890—For local assistance, Department of Housing and Community Development. I revise this item by deleting Provision 2.

I am deleting Provision 2 which would specify that \$1,800,000 of the amount appropriated in this item shall be made available upon receipt of a federal grant. This language is unnecessary because the Department of Housing and Community Development cannot make the expenditure unless the federal grant is received.

Item 2240-101-6069—For local assistance, Department of Housing and Community Development. I revise this item by deleting Provision 2.

I am deleting Provision 2, which would specify that funding in this item shall be subject to legislative review and approval of a request by the Department of Housing and Community Development. This language is unnecessary.

Item 2240-101-9736—For local assistance, Department of Housing and Community Development. I revise this item by deleting Provision 2.

I am deleting Provision 2, which would specify that funding in this item shall be subject to legislative review and approval of a request by the Department of Housing and Community Development. This language is unnecessary.

Item 2240-102-6038—For local assistance, Department of Housing and Community Development. I revise this item by deleting Provision 2.

I am deleting Provision 2, which would specify that funding for the Building Equity in Neighborhoods program shall be subject to legislative review and approval of a request by the Department of Housing and Community Development. This language is unnecessary because the funding proposed in the Budget is always subject to legislative review and approval.

Item 2240-105-0001—For transfer, as an expenditure, upon order of the Director of Finance, to the Emergency Housing and Assistance Fund. I delete this item.

I am reducing this item by \$401,000 to reinstate the budget-balancing reduction to the state grant program for local emergency shelters that I proposed. I am further reducing this item by \$3,599,000. While the budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 2320-001-0317—For support of Department of Real Estate. I revise this item by deleting Provision 2.

I am deleting Provision 2, which would require the Department of Real Estate to report workload and enforcement data to the Legislature.

This reporting requirement would result in an expenditure increase without regard to the availability of resources. Consequently, I am vetoing this language. Nevertheless, in recognition of the Legislature's desire to obtain this information, I am instructing the Commissioner to comply with the legislative request for this report to the extent compliance can be achieved using existing resources and without impairing the Department of Real Estate's ability to perform its essential functions.

Item 2600-001-0042—For support of California Transportation Commission. I revise this item by deleting Provision 1.

While the Legislature approved the \$100,000 augmentation to fund a contract with a financial consultant to assist in reviewing the eligibility of high-occupancy toll lane project applications, it also added provisional language requiring that these funds only be used for this purpose. While this provisional language is consistent with the Administration's intended use of this funding, it is unnecessary.

Item 2660-104-6063—For local assistance, Department of Transportation. I reduce this item from \$62,999,000 to \$61,299,000 by reducing:

(1) 20.30-Highway Transportation—Local Assistance from \$62,999,000 to \$61,299,000.

Item 2660-302-0042—For capital outlay, Department of Transportation. I reduce this item from \$847,800,000 to \$747,800,000 by reducing:

(1) 20-Highway Transportation from \$1,897,800,000 to \$1,797,800,000, and

(a) State Highway Operation and Protection Program (\$1,897,800,000) to (\$1,797,800,000).

I am reducing this item by \$100,000,000 to reflect the lower estimated revenues that the State Highway Account is projected to receive from excise taxes on fuel. Continuing increases in prices have reduced consumption, resulting in less tax revenue.

Item 3340-001-0001—For support of California Conservation Corps. I reduce this item from \$35,874,000 to \$33,874,000 by reducing:

- (1) 10-Training and Work Program from \$65,032,000 to \$63,032,000.

I am reducing this item by \$2,000,000. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state’s structural budget deficit going forward. At the same time, constitutional requirements, federal law, and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Nevertheless, I am sustaining the legislative augmentation of an additional \$1,000,000 from the Collins-Dugan California Conservation Corps Reimbursement Account to maintain three non-residential facilities and 75 corpsmember slots.

Item 3600-001-0001—For support of Department of Fish and Game. I reduce this item from \$77,301,000 to \$73,410,000 by reducing:

- (1) 20-Biodiversity Conservation Program from \$150,694,000 to \$147,572,000;
- (2) 25-Hunting, Fishing, and Public Use from \$71,276,000 to \$70,737,000;
- (3) 30-Management of Department Lands and Facilities from \$48,009,000 to \$46,895,000;
- (4) 40-Enforcement from \$61,764,000 to \$61,648,000;
- (6) 70.01-Administration from \$44,359,000 to \$43,672,000;
- (7) 70.02-Distributed Administration from –\$44,359,000 to –\$43,672,000; and
- (21) Amount payable from the Hatchery and Inland Fisheries Fund (Item 3600-001-3103) from –\$17,297,000 to –\$16,297,000.

I am reducing this item by \$3,891,000. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state’s structural budget deficit going forward. At the same time, constitutional requirements, federal law, and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

In addition, I am reducing \$1,000,000 from the Hatchery and Inland Fisheries Fund.

Item 3600-001-3103—For support of Department of Fish and Game. I reduce this item from \$17,297,000 to \$16,297,000.

I am reducing this item by \$1,000,000 to conform to the action I have taken in Item 3600-001-0001.

Item 3720-001-0001—For support of California Coastal Commission. I reduce this item from \$11,809,000 to \$11,192,000 by reducing:

- (1) 10-Coastal Management Program from \$16,630,000 to \$16,049,000;
- (2) 20-Coastal Energy Program from \$1,112,000 to \$1,076,000;
- (3) 30.01-Administration from \$1,914,000 to \$1,827,000; and
- (4) 30.02-Distributed Administration from –\$1,814,000 to –\$1,727,000.

I am reducing this item by \$617,000. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state’s structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto

power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 3780-001-0001—For support of Native American Heritage Commission. I reduce this item from \$786,000 to \$707,000 by reducing:

(1) 10-Native American Heritage Commission from \$792,000 to \$713,000.

I am reducing this item by \$79,000. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state’s structural budget deficit going forward. At the same time, constitutional requirements, federal law, and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 3790-001-0001—For support of Department of Parks and Recreation. I revise this item by reducing:

(1) For support of the Department of Parks and Recreation from \$432,009,000 to \$431,099,000,

and by deleting

(4.5) Amount payable from the Motor Vehicle Account, State Transportation Fund (Item 3790-001-0044) (–\$910,000).

I am revising this item to conform to the action I have taken in Item 3790-001-0044.

Item 3790-001-0044—For support of Department of Parks and Recreation. I delete this item.

I am deleting this item of appropriation which acts as a \$910,000 legislative funding shift from the General Fund to the Motor Vehicle Account (MVA), State Transportation Fund to enable the Department of Parks and Recreation to comply with the State Air Resources Board’s new diesel particulate matter emission regulations for on-road heavy-duty diesel vehicles. I believe regulatory compliance activities should be funded by the department’s own funding sources. Consequently, the MVA is not an appropriate fund source for this purpose.

Item 3810-001-0140—For support of Santa Monica Mountains Conservancy.

I am sustaining the provisional language added by the Legislature providing that the Santa Monica Mountains Conservancy (Conservancy) shall reimburse to the Attorney General’s Office (AG) for costs associated with grant reviews and attending meetings.

The clear intent of this language is to create an incentive for the AG to provide legal services to the Conservancy and to have the Conservancy to reimburse the AG for its costs related to Proposition 84. However, this new language inadvertently appears to conflict with the language in Provision 1, which requires the AG to otherwise provide legal services to the Conservancy as if it were a General Fund department.

Therefore, by sustaining this language, it is my intent that the Conservancy reimburse the AG for costs associated with Proposition 84 grant reviews and the associated meetings, and that all other legal costs be funded in a manner consistent with past practice. The Department of Finance will revisit this issue next budget year.

Item 3900-001-0001—For support of State Air Resources Board. I reduce this item from \$2,189,000 to \$189,000.

I am reducing this item by \$2,000,000. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state’s structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to

reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 3940-001-0001—For support of State Water Resources Control Board. I revise this item by deleting sub-schedules (a) and (b) under Program 10—Water Quality, and Provision 2 of this section.

I am eliminating Budget Act language that displays the allocations to the state's nine regional boards and requires additional actions should a reallocation of resources be necessary. The Regional Boards develop and enforce the water quality objectives and implementation plans that are developed by the State Water Board, recognizing local differences in climate, topography, geology and hydrology. The joint authority of water allocation and water quality protection enables the State Water Board to provide comprehensive protection for California's waters. This centralized structure allows the State Board to implement program priorities and to respond to statewide needs through the Regional Board. The State Board should not require a change in authority to move funds from one region to another should events occur that make it necessary—such as a fire, a flood, or a change in priorities. Creating separate line items in the budget for each Regional Board would challenge the State Board's ability to manage and prioritize the needs of the whole state. Alternatively, the Water Board can address the Legislature's intent to better understand the role of the regional water boards through an anticipated strategic and structural reorganization the Water Board is planning through its Water Quality Initiative.

Item 3960-001-0001—For support of Toxic Substances Control. I reduce this item from \$23,325,000 to \$22,170,000.

I am reducing this item by \$1,155,000. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

I am revising the dollar amount specified in Provision 1 to conform to the action taken in this item.

“The Director of Toxic Substances Control may expend from this item: (a) \$11,604,000 for the following activities at the federal Stringfellow Superfund site: (1) operation and maintenance of pretreatment plants to treat contaminated groundwater extracted from the site, (2) site maintenance and groundwater monitoring, and (3) implementation of work to stabilize the site, and (b) ~~\$4,266,000~~ \$3,111,000 for the operation of the Illegal Drug Laboratory Removal Program.”

Item 3960-001-0014—For support of Toxic Substances Control. I revise this item by reducing:

(1) 12-Site Mitigation and Brownfields Reuse from \$89,426,000 to \$88,271,000.

(8) Amount payable from General Fund (Item 3960-001-0001) from –\$23,325,000 to –\$22,170,000.

I am revising this item to conform to the action I have taken in Item 3960-001-0001.

Item 4170-101-0001—For local assistance, Department of Aging. I reduce this item from \$56,109,000 to \$42,945,000 by reducing:

(1) 10-Nutrition from \$73,373,000 to \$72,804,000;

- (2) 20-Senior Community Employment from \$10,304,000 to \$7,139,000;
- (3) 30-Supportive Services and Centers from \$71,894,000 to \$65,916,000; and
- (4) 40-Special Projects from \$50,003,000 to \$46,751,000;

and by deleting:

- (4.5) 97.20.004-Local Projects (\$200,000).

I am reducing this item by \$13,164,000 for the following programs:

- \$316,000 from the Home Delivered Meals program;
- \$253,000 from the Congregate Nutrition program;
- \$3,165,000 from Senior Community Employment;
- \$5,978,000 from the Long-term Care Ombudsman and Supportive Services programs;
- \$2,526,000 for the Multipurpose Senior Services Program;
- \$416,000 for the Alzheimer's Day Care Resource Centers;
- \$250,000 for the Linkages program;
- \$60,000 for the Brown Bag program; and
- \$200,000 for the Senior Legal Hotline.

While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 4200-001-0001—For support of Department of Alcohol and Drug Programs. I reduce this item from \$14,701,000 to \$6,019,000 by reducing:

- (1) 15-Alcohol and Other Drug Services Program from \$57,702,000 to \$48,275,000;
- (2) 30.01-Administration from \$11,999,000 to \$8,999,000;
- (3) 30.02-Distributed Administration from –\$11,999,000 to –\$8,999,000;
- (4) Reimbursements from –\$4,932,000 to –\$4,544,000;
- (10) Amount payable from the Substance Abuse Treatment Trust Fund (Item 4200-001-3019) from –\$3,565,000 to –\$3,208,000.

I am reducing this item by \$9,070,000 (\$8,682,000 General Fund and \$388,000 Reimbursements), as follows:

- \$8,000,000 for the California Methamphetamine Prevention Campaign;
- \$776,000 and 5.3 positions for the Drug Medi-Cal Program;
- \$154,000 for the Non-Drug Medi-Cal Program;
- \$110,000 and 0.5 positions for the Drug Court programs; and
- \$30,000 and 0.4 positions for the Offender Treatment Program.

While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

I am also reducing \$357,000 and 3.0 positions in Item 4200-001-3019 to conform to the action I have taken in Item 4200-105-0001.

Item 4200-001-3019—For support of Department of Alcohol and Drug Programs. I reduce this item from \$3,565,000 to \$3,208,000.

I am reducing this item by \$357,000 to conform to the action I have taken in Item 4200-105-0001.

Item 4200-101-0001—For local assistance, Department of Alcohol and Drug Programs. I reduce this item from \$89,197,000 to \$83,665,000 by reducing:

(1) 15-Alcohol and Other Drug Services Programs from \$438,351,000 to \$423,168,000;

(4) Amount payable from the Substance Abuse Treatment Fund (Item 4200-101-3019) from -\$96,514,000 to -\$86,863,000.

I am reducing this item by \$5,532,000, as follows:

- \$2,983,000 for the Drug Court programs;
- \$1,970,000 for the Offender Treatment Program; and
- \$579,000 for the Non-Drug Medi-Cal Program.

While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

I am also reducing \$9,651,000 in Item 4200-101-3019 to conform to the action I have taken in Item 4200-105-0001.

Item 4200-101-3019—For local assistance, Department of Alcohol and Drug Programs. I reduce this item from \$96,514,000 to \$86,863,000.

I am reducing this item by \$9,651,000 to conform to the action I have taken in Item 4200-105-0001.

Item 4200-104-0001—For local assistance, Department of Alcohol and Drug Programs. I reduce this item from \$23,457,000 to \$21,111,000 by reducing:

(1) 15-Alcohol and Other Drug Services Program from \$40,511,000 to \$38,165,000.

I am reducing this item by \$2,346,000 for perinatal substance abuse treatment programs. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 4200-105-0001—For transfer by the Controller to the Substance Abuse Treatment Trust Fund. I reduce this item from \$100,079,000 to \$90,071,000.

I am reducing this item by \$10,008,000 for the Substance Abuse and Crime Prevention Act program. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

I have taken conforming action in Item 4200-001-3019 and Item 4200-101-3019.

Item 4260-001-0001—For support of Department of Health Care Services. I revise this item by reducing:

(1) 20-Health Care Services from \$383,834,000 to \$381,821,000,

and by deleting:

(10) Amount payable from the California Discount Prescription Drug Program Fund (Item 4260-001-8040) (-\$2,013,000).

I am deleting \$2,013,000 intended to specifically fund costs for the California Discount Prescription Drug Program. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state’s structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

I am also deleting Item 4260-001-8040 to conform to this action.

Item 4260-001-8040—For support of Department of Health Care Services. I delete this item and Provisions 1 and 2.

I am deleting this item to conform to the action I have taken in Item 4260-001-0001 regarding the California Discount Prescription Drug Program.

I am also deleting Provision 1 and 2 to conform to this action.

Item 4260-006-0001—For transfer by the Controller to the California Discount Prescription Drug Program Fund. I delete this item and Provision 1.

I am deleting the \$5,870,000 in this item to conform to the action I have taken in Items 4260-001-0001, 4260-001-8040, and 4260-119-8040 regarding the California Discount Prescription Drug Program.

I am also deleting Provision 1 to conform to this action.

Item 4260-113-0001—For local assistance, Department of Health Care Services. I reduce this item from \$208,380,000 to \$206,744,000 by:

(3) Benefits (Medical Care and Services) from \$567,046,000 to \$563,226,000, and

(4) Amount payable from the Federal Trust Fund (Item 4260-113-0890) from -\$363,428,000 to -\$361,244,000.

I am reducing this item by \$1,636,000 to make a technical correction to conform to the Legislature’s action to utilize unanticipated Medi-Cal savings in fiscal year 2007–08 to reduce expenditures in 2008–09.

I am reducing Item 4260-113-0890 by \$2,184,000 to conform with this action.

Item 4260-113-0890—For local assistance, Department of Health Care Services. I reduce this item from \$363,428,000 to \$361,244,000 to make a technical correction to the Budget Bill.

I am reducing this item by \$2,184,000 to conform to my action in Item 4260-113-0001.

Item 4260-119-8040—For local assistance, Department of Health Care Services. I delete this item.

I am deleting the \$3,857,000 intended specifically to fund local assistance costs for the California Discount Prescription Drug Program. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state’s structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that

this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 4265-001-0001—For support of Department of Public Health. I reduce this item from \$86,147,000 to \$82,850,000 by reducing:

(2) 20-Public and Environmental Health from \$501,031,000 to \$497,734,000.

I am reducing this item by \$3,297,000, as follows:

- \$1,042,000 for the Childhood Lead Poisoning Prevention Branch;
- \$976,000 for the Medical Device and Drug Safety Program;
- \$841,000 for the Epidemiology and Prevention for Injury Control Branch;
- \$277,000 for the Prostate Cancer Treatment Program; and
- \$161,000 for the Cosmetic Safety Program.

While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 4265-111-0001—For local assistance, Department of Public Health. I reduce this item from \$257,472,000 to \$244,479,000 by reducing:

(3) 20.20-Infectious Disease from \$365,085,000 to \$358,845,000;

(4) 20.30-Family Health from \$1,504,545,000 to \$1,498,477,000;

(6) 20.50-County Health Services from \$40,691,000 to \$39,791,000;

(7) 20.60-Environmental Health from \$132,541,000 to \$131,557,000;

(8) Reimbursements from –\$160,479,000 to –\$159,280,000;

and by deleting Provision 3.

I am reducing this item by \$5,030,000 (\$3,831,000 General Fund and \$1,199,000 Reimbursements) by eliminating funding to local entities for the following programs:

- \$1,824,000 for the TeenSMART Outreach Program;
- \$1,322,000 for the Male Involvement Program;
- \$984,000 for the Beach Safety Program; and
- \$900,000 for the State Public Health Subvention.

I am also reducing this item by \$3,670,000 by reducing funding to local entities for the following programs:

- \$2,269,000 for the Domestic Violence Program;
- \$748,000 for the Tuberculosis Control Housing Program;
- \$403,000 for the Teen Life Skills Information and Education Program; and
- \$250,000 for the Maternal, Child and Adolescent Health Program.

While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

I am deleting \$5,492,000 of the \$6,842,000 General Fund legislative augmentation to local health jurisdictions for AIDS/HIV Education and Prevention programs. With this reduction, \$31.8 million still remains to support the AIDS/HIV Education and Prevention programs.

I am also deleting Provision 3, that expresses a legislative wish to have the Department of Public Health not exclude any drugs from the AIDS Drug Assistance Program

(ADAP) formulary for the purpose of reducing ADAP expenditures and would require funding to be maintained using the ADAP Rebate Fund. The Office of AIDS within the Department is the appropriate entity to determine the proper alignment of program expenditures within the funding available, including the ADAP Rebate Fund. Provision 3 would restrict the Office of AIDS' ability to manage ADAP expenditures. Consequently, I am vetoing this language.

Item 4440-103-0001—For local assistance, Department of Mental Health. I reduce this item from \$232,856,000 to \$225,136,000 by reducing:

(1) 10.25-Community Services—Other Treatment from \$232,856,000 to \$225,136,000.

I am reducing this item by \$7,720,000 for the Mental Health Managed Care program. While this budget bill provides for a modest reserve in 2008–09, it fails to make the necessary statutory spending reductions and revenue increases needed to eliminate the state's structural budget deficit going forward. At the same time, constitutional requirements, federal law and court required payments drive the majority of the spending in any budget, and limit my ability to reduce spending. As a result, I have an obligation to reduce spending when my veto power is adequate to do so. Consequently—and in order to further ensure that this budget remains in balance—I am taking the difficult but necessary action reflected in this veto to further control state spending.

Item 4700-001-0001—For support of Department of Community Services and Development. I delete this item.

I am deleting this item to conform to the action I have taken in 4700-101-0001.

Item 4700-101-0001—For local assistance, Department of Community Services and Development. I delete this item.
